INTERSTATE COMMERCE COMMISSION.

ORDER

ANNUAL REPORTS FROM STEAM RAILWAY COMPANIES, ETC.

At a Session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 27th day of January A. D. 1937.

The subject of the requirement of annual reports from steam railway companies and switching and terminal companies of Class I and Class II being under consideration:

*It is ordered*, That all steam railway companies and switching and terminal companies of Class I and Class II subject to the Interstate Commerce Act be and they hereby are required to file annual reports for the year ending December 31, 1936, and for each succeeding year until further order, in accordance with Annual Report Form A (Large and Medium Steam Roads and Switching and Terminal Companies), which is hereby approved and made a part of this order.[1]

*It is further ordered*, That the annual report shall be filed, in duplicate, in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., on or before March 31, of the year following the one to which it relates.

By the Commission, division 4.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 30th day of January A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE PHILLIPS ET AL.-HARRELL FARM, FILED ON JANUARY 26, 1937, BY GENERAL INDUSTRIES CORP., LTD., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In the confusion of names of the tracts involved. Page 1, Division I, and Item 2 (a), Division II, say the farm name is "Harrell Community". The plat, Exhibit A, delineates the D. Harrell #1, S. Harrell #1 and the Francis #1 wells and the tracts upon which they are located;

(2) In that Item 2 (d), Division II, gives the names of only two operators. Exhibit A also includes the name of Laird;

(3) In that the description of the tract involved as given in the last paragraph of Item 13, Division II, is in conflict with the description in Exhibit B;

(4) In that the figures in Item 16 (d), Division II, for July, August and September 1936 are miscalculated;

(5) In that the offering sheet is not signed by the corporate offeror;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 27th day of February 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 12th day of February 1937 at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-330; Filed, February 1, 1937; 12:43 p. m.]

---

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 30th day of January A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE BRITISH-AMERICAN-HAYES HIGHLAND-RUSSELL FARM, FILED ON JANUARY 25, 1937, BY R. E. PITTS, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

1. In that the price being paid for oil, as stated in Item 1 of Division II, is in conflict with the price stated in Item 16 (e) of Division II, and with the price paid for oil of the gravity produced on this tract as reported in Item 18 (b) of Division II;

2. In that the offering sheet purports to describe interests in the Hayes-Highland # 1 and Russell Place # 1 tracts. Exhibit A designates the lease area as the Alta Vista # 2 and Burnham # 2. Exhibit B describes Roanoke Powell and Hayes Highland tracts;

3. In that Item 13 of Division II does not give the present number of producing wells in the field described;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 27th day of February 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 12th day of February 1937 at 10:00 o'clock in the forenoon at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 29th day of January A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE MILLS-BENNETT ET AL. BASSINGER FARM, FILED ON JANUARY 22, 1937, BY SUPREME OIL INC., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the phrase "or disapproved" is omitted from paragraph 2 of Division I.

(2) In that Item 12 (a), Division II, has omitted to state whether taxes are deducted from royalty runs, and if so, how.

(3) In that the rate of tax is incorrectly stated in Item 12 (b), Division II.

(4) In that certain information and statements appear to be improperly included in Item 13, Division II. Such statements as "seven pools of major importance" assure "long flowing life" and "high porosity, uniform saturation and high gravity" of Pettus sand, are not historical facts.

(5) In that a typographical error appears in the year shown in Item 15, Division II. The initial production was in April 1935 according to Item 14, Division II.

(6) In that in Item 16 (c), Division II, the net production figures for the smallest interest offered are miscalculated for the months of May to December 1936, inclusive.

(7) In that in Item 16 (d), Division II, the payoff for the smallest interest offered is miscalculated for the months of January to April 1936, inclusive.

(8) In that the explanation of the answer to Item 18 (a) (1), Division II, is omitted.

(9) In that the required form for corporate signature is omitted at the end of Division II.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 27th day of February 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 11th day of February 1937 at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

## PRESIDENT OF THE UNITED STATES.

EMERGENCY DUE TO FLOOD CONDITIONS—FREE IMPORTATION OF FOOD, CLOTHING, AND MEDICAL, SURGICAL AND OTHER SUPPLIES FOR USE IN EMERGENCY WORK

By the President of the United States of America

A PROCLAMATION

WHEREAS there have recently occurred and are occurring disastrous floods in various localities in the valleys of the Ohio and Mississippi rivers and tributaries thereof, resulting in great loss of life and property and causing much sickness, suffering, and privation among the residents of the stricken localities, making it necessary for charitable, philanthropic, relief, and other organizations to extend aid on a large scale to the flood sufferers;

AND WHEREAS section 318 of the Tariff Act of 1930 (46 Stat. 696) provides:

"Whenever the President shall by proclamation declare an emergency to exist by reason of a state of war, or otherwise, he may authorize the Secretary of the Treasury to extend during the continuance of such emergency the time herein prescribed for the performance of any act, and may authorize the Secretary of the Treasury to permit, under such regulations as the Secretary of the Treasury may prescribe, the importation free of duty of food, clothing, and medical, surgical, and other supplies for use in emergency relief work. * * *";

NOW, THEREFORE, I, Franklin D. Roosevelt, President of the United States of America, acting under and by virtue of the authority vested in me by the foregoing provisions of section 318 of the Tariff Act of 1930, do by this proclamation declare an emergency to exist, and I do hereby authorize the Secretary of the Treasury to permit, during the continuance of such emergency (the termination of which will be determined by the President and declared by his Proclamation), within such limits and subject to such conditions as he may deem necessary to meet the emergency, the importation free of duty of such food, clothing, and medical, surgical, and other supplies as he may designate and under such regulations as he may prescribe, when imported for use in such emergency relief work.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 1st day of February in the year of our Lord nineteen hundred and thirty-
[SEAL] seven, and of the Independence of the United States of America the one hundred and sixty-first.

FRANKLIN D ROOSEVELT

By the President:
CORDELL HULL,
*Secretary of State.*

## TREASURY DEPARTMENT.

Bureau of Customs.

[T. D. 48787]

CUSTOMS REGULATIONS AMENDED—TRADE-MARKS AND TRADE NAMES

*To Collectors of Customs and Others Concerned:*

Pursuant to the authority contained in section 251, Revised Statutes (U. S. C., title 19, sec. 66), section 27 of the Trade-Mark Act of 1905 (U. S. C., title 15, sec. 106), section 6 of the Trade-Mark Act of 1920 (U. S. C., title 15, sec. 126); and sections 526 and 624 of the Tariff Act of 1930 (U. S. C., title 19, secs. 1526 and 1624), articles 519 and 521 (as amended by Treasury Decision 45658) and article 520 of the Customs Regulations of 1931 are amended to read as follows:

ART. 519. *Trade-Marks—Recording.*—(a) Domestic or foreign manufacturers or traders, to avail themselves of the privileges of the law concerning trade-marks, are required to register their trade-marks with the Commissioner of Patents before the Treasury Department can act.

(b) To record a trade-mark with the Treasury Department an application must be addressed to the Treasury Department, Bureau of Customs, Washington, D. C., (which may be in the form of a letter) stating therein the name, residence, and citizenship of the owner or owners (if a partnership, the citizenship of each partner; if a corporation or association, the country or state within which it was organized or created); the name of the locality in which the goods are manufactured, and the names of the ports of entry to which the applicant desires to have facsimiles of the trade-mark transmitted. The application must be accompanied by one certified copy of the original certificate of registration issued by the Commissioner of Patents in accordance with the Trade-Mark Act of February 20, 1905, or the Trade-Mark Act of March 19, 1920; such of the documents mentioned in paragraph (c) as are required to show the ownership of the applicant; three uncertified printed Patent Office facsimiles of the trade-mark for deposit in the Treasury Department, and a sufficient number of such facsimiles to enable the Bureau to forward copies to the port or ports of entry named in the application. The number of facsimiles necessary for each of the ports of entry is as follows:

*Four* facsimiles for each of the ports of New York and Chicago.

*Three* facsimiles for each of the ports of Baltimore and Boston.

*Two* facsimiles for each of the ports of Nogales, Buffalo, Tampa, Key West, Los Angeles, Portland, Me., Detroit, New Orleans, Cleveland, Cincinnati, Portland, Oreg., Philadelphia, Pittsburgh, San Antonio, San Francisco, St. Louis, St. Albans, Vt., Seattle, Milwaukee, and Saint Thomas, Virgin Islands.

*One* facsimile for each of the other ports of entry.

No fee is charged for recording trade-marks in the Treasury Department.

(c) If ownership of a registered trade-mark is claimed by an applicant by virtue of an assignment of such trade-mark, there must be transmitted with the application for recording, in addition to the documents and information specified in paragraph (b) of this article, a certified abstract of title from the records of the United States Patent Office showing the ownership of the applicant. Similar documentary evidence must accompany an application for recording if the commercial name of the applicant has been changed subsequent to registration of the trade-mark. If the application for recording is presented after the expiration of the period for which the certificate of registration, or a renewal thereof, was issued, the application must be accompanied by a certified copy of a certificate of renewal from the United States Patent Office showing that the registration is in force. In order to continue to receive the protection of the trade-mark statutes with respect to imported merchandise, such a certified copy of a certificate of renewal must be filed with the Treasury Department if the period of protection expires after the trade-mark has been recorded.

ART. 520. *Trade Names—Recording.*—(a) To record the trade name (not a trade-mark) of a manufacturer or trader, an application must be addressed to the Treasury Department, Bureau of Customs, Washington, D. C. (which may be in the form of a letter), stating therein the trade name; the name, residence, and citizenship of the owner or owners (if a partnership, the citizenship of each partner; if a corporation or association, the country or state within which it was organized or created); a description of the class or kind of merchandise to which the trade name is applied, and the name of the locality in which the merchandise is manufactured. The application must be accompanied by supporting evidence, in the form of affidavits by the owner or owners and by at least two other persons having first-hand knowledge of the facts, showing that the applicant has used the trade name, in connection with the class or kind of merchandise described in the application, for a designated period of time and has the sole and exclusive right to the use of such trade name in connection with merchandise of such class or kind.

(b) Such affidavits accompanying an application to record the trade name of a manufacturer or trader located in a foreign country should be acknowledged before an American consular officer.

No fee is charged for recording trade names in the Treasury Department.

ART. 521. *Notice to Collectors—Action by Collectors.*—Upon receiving notice from the Bureau of the recording of a trade-mark or a trade name the collector will issue appropriate instructions to prevent the unauthorized importation or entry at the custom-house of articles bearing marks or names which violate the statutory rights of the owner of the recorded trade-mark or trade name.

[SEAL] JAMES H. MOYLE,
*Commissioner of Customs.*

Approved, January 28, 1937.

WAYNE C. TAYLOR,
*Acting Secretary of the Treasury.*

[T. D. 48788]

CUSTOMS REGULATIONS AMENDED—VESSEL SUPPLIES

*To Collectors of Customs and Others Concerned:*

Pursuant to sections 309 (a) and 624 of the Tariff Act of 1930 (U. S. C., secs. 1309 (a) and 1624), the Customs Regulations of 1931 are amended as follows:

Paragraph (c) of article 455, as amended by T. D. 48243, is amended to read as follows:

(c) A vessel is not considered to be actually engaged in the foreign trade, or in trade between the Atlantic and Pacific ports of the United States, or between the United States and its possessions, as the case may be, unless it is—

(1) Operating on a regular schedule in a class of trade which entitles it to the privilege;

(2) Actually transporting passengers or merchandise to or from a foreign port, a port on the opposite coast of the United States, or between a port in a possession of the United States and a port in the United States or in another of its possessions;

(3) Documented for foreign trade, is proceeding in ballast to another domestic port to lade passengers or cargo for a foreign port, and its last carriage of passengers or cargo prior to departure from the port of withdrawal was not exclusively between ports in the same great district; or

(4) Departing in ballast from the port at which the withdrawal is made directly for a foreign port, a port on the opposite coast of the United States, a port in one of the possessions of the United States, or, where the port of withdrawal is in a possession of the United States, departing directly for a port in the United States or in another of its possessions.

Article 457, as amended by T. D. 48495, is further amended by deleting paragraphs (a) and (c), redesignating paragraphs (b) and (d) as paragraphs (d) and (e), respectively, and inserting the following new paragraphs:

(a) Withdrawals shall be made on customs Form 7506 and shall be supported by an affidavit of the owner, operator, master, or agent of the vessel, that the articles are to be used as supplies on the vessel.

(b) If the withdrawal is made by other than the principal on the warehouse or rewarehouse entry, as the case may be, the assent of such principal shall be indorsed on the withdrawal, unless the principal has, in writing, otherwise authorized such withdrawal.

(c) A bond on customs Form 7561 shall be taken when the withdrawal is made by a person other than the principal on the warehouse or rewarehouse entry, as the case may be, except where the vessel departs from the port of withdrawal directly for a foreign port.

Article 458 (c), as amended by T. D. 46724, is further amended by substituting the words "departs from" for the words "clears at" in the first line.

Article 459 is amended to read as follows:

ART. 459. *Intermediate Ports.*—A copy of the store list, when required, showing the articles withdrawn and taken on board shall be made on or attached to the manifest accompanying the vessel at the time of departure from the port of withdrawal. When the vessel touches at an intermediate port in the United States, the collector at such port shall notify the collector at the port of withdrawal if any portion of the supplies is landed at the intermediate port, in order that duty may be collected under the bond.

The first sentence of article 460 is amended to read as follows:

When a vessel which has taken on board supplies free of duty is withdrawn from trade, or is diverted to a class of trade not entitled to the privilege, the parties in interest shall immediately notify the collector at the port of withdrawal, who shall credit the bond with only such portion of the supplies used while the vessel was in a proper class of trade, and collect duty on the balance.

Article 461, as amended by T. D. 48495, is further amended by inserting after the word "supplies" in the first line a comma and the following:

"or the charge against the warehouse or rewarehouse entry bond, as the case may be,"

[SEAL] JAMES H. MOYLE,
*Commissioner of Customs.*

Approved, January 28, 1937.

WAYNE C. TAYLOR,
*Acting Secretary of the Treasury.*

AIR NAVIGATION SITE WITHDRAWAL NO. 108, MONTANA

JANUARY 26, 1937.

It appearing that the following-described tract of public land in Montana is necessary for the purpose, it is ordered, under and pursuant to the provisions of section seven of the act of June 28, 1934 (48 Stat. 1269), as amended by the act of June 26, 1936 (49 Stat. 1976), and section four of the act of May 24, 1928 (45 Stat. 728), that such land be, and it is hereby, withdrawn from all forms of appropriation under the public-land laws, subject to valid existing rights, for use by the Department of Commerce in the maintenance of air-navigation facilities:

T. 3 N., R. 9 W., P. M., sec. 4, NW¼SE¼ of lot 3, 2.5 acres.

And it is further ordered that departmental order of November 3, 1936, establishing Montana Grazing District No. 5 under the act of June 28, 1934 (48 Stat. 1269), is hereby modified in so far as it affects the above-described tract and made subject to the withdrawal made by this order.

T. A. WALTERS,
*First Assistant Secretary.*

[F. R. Doc. 37-334; Filed, February 2, 1937; 9:23 a. m.]

## FEDERAL COMMUNICATIONS COMMISSION.

ADOPTION OF ANNUAL REPORT FORM O

The Telegraph Division at its regular meeting on October 20, 1936, adopted Annual Report Form O[1] for telegraph, cable, and radio-telegraph carriers for the year 1936, as revised.

[SEAL] JOHN B. REYNOLDS,
*Acting Secretary.*

[F. R. Doc. 37-335; Filed, February 2, 1937; 9:26 a. m.]

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 29th day of January A. D. 1937.

Commissioners: William A. Ayres, Chairman; Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[Docket No. 3020]

IN THE MATTER OF HOLLYWOOD HAT COMPANY, INC.

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission, under Acts of Congress (38 Stat. 717; 15 U. S. C. A., Section 41) and (49 Stat. 1526, U. S. C. A., Sec. 13, as amended),

It is ordered that Edward M. Averill, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered that the taking of testimony in this proceeding begin on Friday, February 5, 1937, at ten o'clock in the forenoon of that day (eastern standard time), room 500, 45 Broadway, New York, N. Y.

Upon completion of testimony for the Federal Trade Commission, the examiner is directed to proceed immediately to take testimony and evidence on behalf of the respondent. The examiner will then close the case and make his report.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

[F. R. Doc. 37-337; Filed, February 2, 1937; 11:19 a. m.]

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 14th day of January A. D. 1937.

[File No. 2-2637]

IN THE MATTER OF HOUSTON COTTON EXCHANGE BUILDING COMPANY, INCORPORATED

ORDER CONSENTING TO WITHDRAWAL OF REGISTRATION STATEMENT ON REQUEST OF APPLICANT

The Commission, having due regard to the public interest and the protection of investors, upon the request of the registrant received on January 14, 1937, consents to the withdrawal of the registration statement of the above named registrant, and to that effect

It is so ordered.

By direction of the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## PRESIDENT OF THE UNITED STATES.

EXECUTIVE ORDER

TRANSFER OF CERTAIN PROPERTY AND FUNCTIONS FROM THE DEPARTMENT OF AGRICULTURE TO THE DEPARTMENT OF THE INTERIOR

By virtue of and pursuant to the authority vested in me under Title II of the National Industrial Recovery Act, approved June 16, 1933 (48 Stat. 200), the Emergency Relief Appropriation Act of 1935, approved April 8, 1935 (49 Stat. 115), and the Emergency Relief Appropriation Act of 1936, approved June 22, 1936 (49 Stat. 1608), it is hereby ordered as follows:

1. There are hereby transferred from the Department of Agriculture to the Department of the Interior the following Indian Subsistence Homesteads projects, including all real and personal property or any interest therein, together with all contracts, options, rights, interests, records, etc., acquired by the Department of Agriculture in connection with the said projects:

1. Great Falls Homesteads, Cascade County, Montana,
2. Burns Subsistence Homesteads, Harney County, Oregon,
3. Chilocco Homesteads, Kay County, Oklahoma,
4. White Earth Homesteads, Becker County, Minnesota,
5. Devil's Lake Homesteads, Ramsey County, North Dakota, and
6. Lake County Homesteads, Lake County, California.

2. The Secretary of the Interior is hereby authorized to administer the property transferred under paragraph 1 hereof, and in connection therewith to exercise all powers and functions previously given to the Secretary of Agriculture by Executive Order No. 7530 of December 31, 1936.

3. The Secretary of the Interior is hereby authorized to prescribe such rules and regulations as may be necessary to carry out the administrative functions transferred and delegated to him by this Executive Order.

THE WHITE HOUSE, FRANKLIN D ROOSEVELT

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

NCR—B-1—J Issued February 3, 1937

1936 AGRICULTURAL CONSERVATION PROGRAM—NORTH CENTRAL REGION

BULLETIN 1-J

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, North Central Region Bulletin No. 1, Revised, as Amended, is hereby further amended as follows:

1. Part V, section 3, paragraph (d), is amended to read as follows:

(d) On cotton farms the division of all payments among owners, share-tenants, and sharecroppers shall be as follows:

(1) *Soil-Conserving, Sugar Beet, and Flax Payments.*—The soil-conserving, sugar beet, and flax payments shall be divided as follows:

(A-1) 37½ percent to the person who furnishes the land;
(A-2) 12½ percent to the owner, share-tenant, or sharecropper who furnishes the workstock and equipment;
(A-3) 50 percent to be divided among the persons who are parties to the lease or operating agreement in the proportion that such persons are entitled to share in 1936 in those soil depleting crops, or the proceeds thereof, with respect to which payment is made, provided, however, if a tobacco, cotton, or general soil-depleting base has been established with respect to a cotton farm and if no tobacco, cotton, or crops in the general soil-depleting base, as the case may be, were planted during 1936, the soil-conserving payments with respect to such crop or crops shall be divided as follows:
(B-1) 37½ percent to the person who furnished the land;
(B-2) 12½ percent to be divided equally among the landlord, operator, and sharecroppers, who furnished the workstock and equipment for the farm;
(B-3) 50 percent to be divided among the landlord, share-tenant, and sharecroppers in accordance with the agreement between such parties respecting the divisions of such payments, provided such agreement is approved by the county committee. In the absence of such an agreement approved by the county committee, the 50 percent shall be divided equally among all parties (landlord, share-tenant, and sharecropper) who participated in the operation of the farm in 1936.

(2) *Soil-Building Payment.*—The soil-building payment shall be made to the eligible owner, share-tenant, or sharecropper who the county committee determines under instructions issued by the Secretary has incurred the expense in 1936 with respect to the soil-building practices for which the soil-building payment is to be made; where two or more persons are thus determined by the county committee to have incurred the expense in 1936 with respect to the soil-building practices, the soil-building payments shall be divided equally between such persons. If no soil-building practices have been carried out on the farm, the soil-building allowance for the farm shall be divided equally between the landlord and the share-tenant, if any.

2. Part V, section 3, paragraph (e) is amended to read as follows:

(e) On sharecropper farms the division of all payments among owners, share-tenants, and sharecroppers shall be as follows:

(1) *Soil-Conserving, Sugar Beet, and Flax Payments.*—The soil-conserving, sugar beet, and flax payments shall be divided among the persons who are parties to the lease or operating agreement in the proportion that such persons are entitled to share in 1936 in those soil-depleting crops or the proceeds thereof with respect to which the soil-conserving, sugar beet, or flax payments are made, provided, however, if a tobacco, cotton, or general soil-depleting base has been established with respect to a sharecropper farm and if no tobacco, cotton, or crops in the general soil-depleting base, as the case may be, were planted during 1936, the soil-conserving payments with respect to such crop or crops shall be divided among the landlord, share-tenant, and sharecroppers in accordance with the agreement between such parties respecting the division of such payments, provided such agreement is approved by the county committee. In the absence of such an agreement approved by the county committee, the payments shall be divided equally among all parties (landlord, share-tenant, and sharecroppers) who participated in the operation of the farm in 1936.

(2) *Soil-Building Payment.*—The soil-building payment shall be made to the eligible owner, share-tenant, or sharecropper who the county committee determines, under instructions issued by the Secretary, has incurred the expense in 1936 with respect to the soil-building practices for which the soil-building payment is to be made; where two or more persons are thus determined by the county committee to have incurred the expense in 1936 with respect to such soil-building practices, the soil-building

payments shall be divided equally between such persons. If no soil-building practices have been carried out on the farm, the soil-building allowance for the farm shall be divided equally between the landlord and share-tenant, if any.

The provisions of this North Central Region Bulletin 1–J shall be effective as of October 19, 1936, so as to be included within the conditions mentioned in the "Order with respect to payments under the 1936 Agricultural Conservation Program—North Central Region," issued October 7, 1936, as amended.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 3rd day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[Resolution No. 4005–1]

MANNING OF LIFEBOATS

*Resolved*, That under authority of Sections 4405 and 4488 R. S., Rule III, Ocean General Rules and Regulations, be and hereby is amended by deleting the following Section:

54. A licensed officer or able seaman shall be placed in charge of each boat or pontoon raft; he shall have a list of its lifeboat men and other members of its crew which shall be sufficient for her safe management, and shall see that the men placed under his orders are acquainted with their several duties and stations.

A man capable of working the motor shall be assigned to each motor boat.

The duty of seeing that the boats, pontoon rafts, and other life-saving appliances are at all times ready for use shall be assigned to one or more officers.

and inserting in its stead a new Section 54, Rule III, Ocean. General Rules and Regulations, which shall read as follows:

MANNING OF BOATS

54. (a) A licensed deck officer or a certificated lifeboat man shall be placed in charge of each boat or life raft by the master, and a second in command shall also be nominated by the master. The person in charge shall have a list of its crew, and shall see that the men placed under his orders are acquainted with their several duties.

(b) A man capable of working the motor shall be assigned to each motor boat by the master.

(c) A man capable of working the wireless and search-light installations shall be assigned to boats carrying this equipment by the master.

(d) The duty of seeing that the lifeboats, life rafts, and buoyant apparatus and other life-saving apparatus are at all times ready for use shall be assigned to one or more officers (Effective immediately).

[Resolution No. 4073]

PROCEEDING TO ANOTHER PORT FOR REPAIRS

*Resolved*, That under authority of Sections 4405, 4421, 4453 and 4456 R. S., that Section 7, Rule VI, Ocean and Coastwise, General Rules and Regulations, be and hereby is amended in the following respect:

Delete Section 7 as now set forth and state in lieu thereof the following:

7. Certificates of inspection for any period less than one year shall not be issued, but nothing herein shall be construed as preventing the revocation or suspension of certificates of inspection, in case such process is authorized by law.

The local inspectors may issue a permit to proceed to another port for repairs, if in their judgment it can be done with safety. In the issuance of such permits the local inspectors will state upon its face, the conditions upon which it is granted and whether the vessel is to be allowed to carry freight or passengers. A vessel whose certificate of inspection has expired shall not be issued a permit allowing it to carry passengers while enroute to another port for repairs

When, under Section 4456, Revised Statutes of the United States, vessels obtain a permit from the local inspectors of a district to go from their district to another to make repairs, said local inspectors shall notify the supervising inspector of their district, stating the repairs to be made on said vessels. The supervising inspector shall notify the supervising inspector of the district where such repairs are to be made, furnishing him a copy of the report of the inspectors indicating the repairs ordered on said vessels.

EXAMINATION OF STOP VALVES AND MOUNTINGS

*Resolved*, That under authority of Sections 4405 and 4418, R. S., Rule II, Section 18, General Rules and Regulations, be and hereby are amended in the following respect:

Add the following new sentence to sub-paragraph (a) of Section I–18–5.

The application of this rule may, in specific cases, be made the subject of appeal to the Bureau when, in the opinion of either the local inspectors or the owner's engineer, the removal of fittings would tend to disturb a satisfactory existing condition.

so that sub-paragraph (a) as amended shall read as follows:

(a) *Examination of Stop Valves and Mountings.*—It shall be the duty of inspectors to require stop valves and mountings on boilers to be opened up every fourth year at the time of the annual inspection, and at intermediate periods if he deems it necessary to ascertain if any flaws or defects have developed. A record of the inspection of mountings and attachments shall be made in Form 840–B. The application of this rule may, in specific cases, be made the subject of appeal to the Bureau when, in the opinion of either the local inspectors or the owner's engineer, the removal of fittings would tend to disturb a satisfactory existing condition.

[General Order No. 243]

AMENDMENT OF IMMIGRATION RULES

JANUARY 30, 1937.

Pursuant to authority conferred by Sec. 23, Immigration Act of 1917 (Act of February 5, 1917, 39 Stat. 874) (U. S. C. Title 8, Sec. 102), the following amendments are made to the Immigration Rules of January 1, 1930, as amended:

Rule 7, Subdivision A, Paragraph 3, is amended to read as follows:

PAR. 3. "Arriving in the United States from any foreign port or place" means arriving in "the United States, and any waters, territory, or other place subject to the jurisdiction thereof, except the Isthmian Canal Zone and the Philippine Islands," from any port or place in a foreign country, in the Canal Zone, or the Philippine Islands, (Secs. 1, 19, 31 and 33 to 36 of the Act of February 5, 1917; sec. 1 of the Chinese Exclusion Act of April 29, 1902, as amended by sec. 5 of the Deficiency Act of April 27, 1904, or, in cases of Chinese persons or persons of Chinese descent, in the Territory of Hawaii (last mentioned act and joint resolution of July 7, 1898). Ports of the Isthmian Canal Zone and of the Philippine Islands shall be deemed foreign ports, and any vessel entering and clearing from any such ports shall be subject to all the immigration laws, rules and regulations applicable to vessels arriving in the United States from any foreign port or place.

Rule 7, Subdivision A, Paragraph 4, is amended to read as follows:

PAR. 4. In the expression "reship foreign" and similar expressions used in this rule the word "foreign" includes the Philippine Islands and the Canal Zone in all cases.

**Office of the Secretary.**

DECISION OF THE SECRETARY OF LABOR IN THE MATTER OF DETERMINATION OF PREVAILING MINIMUM WAGES IN THE MEN'S WORK CLOTHING INDUSTRY

JANUARY 30, 1937.

This case is before me pursuant to section 1 (b) of the Act of June 30, 1936 (Public No. 846, 74th Congress), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes". At my direction the Public Contracts Board, created in accordance with section 4 of the said Act by Administrative Order dated October 6, 1936, held open hearings on November 20, 1936, and December 8, 1936, with respect to the prevailing minimum wages in the men's work garment industry. For the purposes of these investigations the industry was deemed to include the manufacture of overalls, unionalls, service uniforms, work pants and work coats made of khaki, denim, drills, twills, cottonades, ducks, corduroys, or other fabrics, in whole or in part of cotton.

Section 1 (b) of the Act of June 30, 1936 (hereinafter designated as the Public Contracts Act) reads as follows:

That all persons employed by the contractor in the manufacture or furnishing of the materials, supplies, articles, or equipment used in the performance of the contract will be paid, without subsequent deduction or rebate on any account, not less than the minimum wages as determined by the Secretary of Labor to be the prevailing minimum wages for persons employed on similar work or in the particular or similar industries or groups of industries currently operating in the locality in which the materials, supplies, articles, or equipment are to be manufactured or furnished under said contract;

Testimony has been received by the Board at the hearings and at two conferences with representatives of employers and employees acting as consultants, held on December 7 and December 18, 1936, tending to show what are the prevailing minimum wages for persons employed in this particular industry. Evidence was submitted by the Women's Bureau of the Department of Labor, by the United Garment Workers of America, and the Amalgamated Clothing Workers of America, by the National Association of Manufacturers, and by other representatives of employers and employees, and the public. On the basis of all of this evidence, the Board has submitted recommendations in two opinions, the Chairman of the Board concurring specially with the majority.

From all of the evidence it appears that according to the 1933 census of manufacturers, 558 factories employing 55,281 wage earners compose the men's work clothing industry. No predominant group of employees in this industry obtains the same wages nor is there any preponderant concentration of wage rates at any particular figure. Accordingly, under the precedent furnished by Department of Labor Regulations numbered 503, dated September 30, 1935, prescribed pursuant to the Act of August 30, 1935 (49 Stat. 1011, U. S. C. ti. 40, sec. 276 (a)), commonly known as the Bacon-Davis Act, the Board has based its findings and recommendations on average earnings. The data submitted by the Women's Bureau indicated that the average hourly wage for the 28,732 workers covered by its survey is 37.2¢ per hour, or $14.88 for a 40-hour week. In addition, approximately 28,000 workers in this industry are operating under collective agreements by the United Garment Workers of America and individual employers and employers' associations providing for a weekly minimum of $15.00 on the basis of a 40-hour week. An additional 9,250 workers in the industry are governed by collective agreements by the Amalgamated Clothing Workers of America and various employers which call for a weekly minimum of $14.40 for a 36-hour week, or 40¢ an hour. The Board has therefore recommended that a minimum wage of $15.00 for a 40-hour week, or 37½¢ an hour, be established for the men's work garment industry with respect to government contracts subject to the provisions of the Public Contracts Act.

It must be understood that this figure represents a median rate in the scale of wages which has been found to prevail

throughout the 40 states in which manufacturers of men's work garments are located. The majority opinion of the Board and the concurring view of the Chairman agree, in somewhat different language, in the conclusion that only by such an average can the wide range of wage scales characteristic of all parts of the country be reflected.

In making its recommendation of a single minimum wage for the entire industry, the Board has not been unmindful of the several standards furnished by section 1 (b) of the Public Contracts Act for the guidance of the Secretary of Labor. The majority opinion states in part:

> In this industry the entire United States constitutes one competitive area. The product itself, whether produced in the East, the South, the North or the West varies only to a slight extent. The work performed by the employees is practically the same. . . . And since the market for these goods is the nation and no competitive factors are peculiar to any particular locality, it would seem that the wage to be established should be the same for the entire United States. The establishment of differentials would be on arbitrary and imaginary lines in this instance.

The opinion goes on to point out that none of the employer or employee representatives who were at the hearings or at the conferences recommended the establishment of different rates for particular sections of the country.

In his special concurring opinion, the Chairman of the Board reaches the same conclusion. Analyzing the testimony present from the point of view of the standards provided by section 1 (b) of the Act, his opinion states:

> From the evidence before the Board, however, it is apparent that the prevailing minimum wage for similar work, or in the particular industry or similar industries, or in general geographical localities, is substantially the same.

In considering the extent to which the Secretary of Labor is required by the Act to make particular determinations for geographical localities, the opinion of the Chairman concludes:

> As contracts for the subject garments are let by competitive bidding, the locus of the particular plant which will secure the contract and perform the manufacturing can not be known until the bids are open and the contract is awarded. As this may be any one of 40 states from Massachusetts to California or Minnesota to Texas, it would seem a limited geographical locality or localities could not safely be segregated for the purpose of the last standard named.

In this connection the Department has had the assistance of an opinion of the Solicitor of Labor, rendered at my request, in which the phrase "currently operating in the locality", as used in section 1 (b) of the Public Contracts Act, is construed. The Solicitor has advised me that in his opinion the phrase in question limits or modifies only the phrase "groups of industries", and in no way affects the clause "persons employed * * * in the particular or similar industries". It is the conclusion of the Solicitor, therefore, that it is only in the situation where the fourth standard (i. e. wages paid in "groups of industries") is employed that the limitation embodied in the phrase "in the locality" becomes operative. Concededly section 1 (b) establishes four distinct and separate standards for the guidance of the Secretary of Labor in arriving at a determination of minimum wages. No indication is given as to which of these standards should be followed by the Secretary in any given situation or class of situations. It is hence the conviction of the Solicitor that the effect of this language is to vest the Secretary with discretion to utilize any one, any combination, or all of these standards for the purpose of arriving at the minimum wage for a particular contract or class of contracts. The only limitation on that discretion is to preclude the Secretary from adopting other standards than those provided.

Accordingly, both the majority and the concurring opinions of the Board have confined themselves to the particular industry, as it has been defined. It has been the Board's concern to ascertain the wage scales current in this industry in all parts of the country where its members are found. The Board has given consideration also to contentions that the established minimum wage should be based upon a piece rate rather than upon a weekly minimum. The majority of the Board strongly urges the administrative difficulties of such a finding and points to the experience of the National Recovery Administration, by whom a weekly minimum wage was preferred. Both opinions cite the fact that the collective agreements between members of the industry and the employee organizations contain weekly minimum rates. Consideration of the practical obstructions to the determination and the enforcement of a minimum wage so based has caused the Board to recommend the determination only of a weekly minimum wage.

FINDING

Having carefully weighed the evidence presented to the Public Contracts Board, and having given full consideration to the report and recommendations of the Board, I hereby adopt the recommendations of the Board as set out in the opinion of a majority of its members and concurred in by its Chairman. It is my determination, pursuant to the provisions of section 1 (b) of the Public Contracts Act, that the minimum wage for employees of contractors with the Government engaged in the manufacture of overalls, unionalls, service uniforms, work pants and work coats made of khaki, denim, drills, twills, cottonades, ducks, corduroys or other fabrics in whole or in part of cotton under contracts subject to the provisions of the Public Contracts Act of June 30, 1936, shall be $15.00 per week for a week of 40 hours, or 37½¢ per hour. This determination shall be effective and the minimum wage hereby established shall be included, in all contracts of this class invitations to bid on which are issued on or after 10 days from the date hereof.

[SEAL] FRANCES PERKINS, *Secretary.*

This form to be used by producer to obtain release of warehouse receipts pledged to secure loan on 1934–35 CCC Cotton Form A, in accordance with the instructions printed on the reverse side hereof, and must be submitted to the Corporation in duplicate. Use only ink, indelible pencil, or typewriter in filling blanks.. The triplicate and quadruplicate copies are for use of the producer and purchaser of the cotton.

COMMODITY CREDIT CORPORATION,
c/o LOAN AGENCY OF THE
RECONSTRUCTION FINANCE CORPORATION,
_____, _____

GENTLEMEN:

Request is herewith made for release of cotton listed below or in attached schedule, or in the event no cotton is listed, all cotton securing loan, or loans, on 1934–35 CCC Cotton Form A, aggregating $_____ secured by _____ bales of cotton.

[If space insufficient, attach schedule firmly and identify by signature]

SCHEDULE

| *Name of Warehouse* | *Receipt Numbers* | *Number of Bales* |
|---|---|---|
| | | |
| | | |
| | | |

You are requested to make available the warehouse receipts listed above to:

_____ _____
(Name) (Address)

(Designatee) upon payment of the amount due as calculated in accordance with the instructions on the reverse side hereof and make payment of any adjustment for grade and staple and weight to the above-named "Designatee."

_____
(Type or print producer's name)

_____ _____
(Date signed by producer) (Signature of producer)

_____ _____
(Witness) (Post-office address of producer)

(Unless this form is delivered in person and payment made upon delivery the following certificate must be executed by the "Designatee")

The above-named designatee agrees to make payment of the amount due as calculated in accordance with the instructions printed on the reverse side hereof, upon delivery of warehouse receipts representing the cotton and authorizes Commodity Credit Corporation to draw a sight draft for the amount due preferably through the _____, _____
(Bank) (Address)

_____
(Designatee)

By _____
(Title)

[To be completed by C. C. C.]

FEDERAL RESERVE BANK,
CUSTODIAN FOR RECONSTRUCTION FINANCE CORPORATION.

Please forward the warehouse receipts listed above or in attached schedule, or in the event no warehouse receipts are listed, all receipts securing loans of the above producer-borrower, to the bank named above or to the most convenient approved bank, to be released upon payment of an amount calculated in accordance with your instructions upon the basis of _____ cents per pound, the average price of the designated spot markets of _____, 193__.

COMMODITY CREDIT CORPORATION,
_____
(Agent)

[ORIGINAL]

To be signed and forwarded to Commodity Credit Corporation at address shown above.

---

### INSTRUCTIONS CONCERNING THE RELEASE OF COTTON SECURING LOANS HELD BY COMMODITY CREDIT CORPORATION UNDER THE 1934–35 GOVERNMENT LOAN PROGRAM

As announced in press release dated January 2, 1937, beginning February 1, 1937, and until April 1, 1937, both dates inclusive, Commodity Credit Corporation will release 12- and 11-cent loan cotton according to the following terms and conditions:

1. *How to Secure Release of Cotton.*—Producers desiring the release of their cotton will be required to execute 1934–35 CCC Cotton Form P and mail or deliver it to the Loan Agency of the Reconstruction Finance Corporation holding the notes. If note was signed by more than one party, all parties must execute 1934–35 CCC Cotton Form P. Forms executed by executors or administrators of estates of deceased producers will be accepted if accompanied by letter testamentary issued by the Clerk of the Court of their appointment. Cotton will be released to the producer, or the "Designatee" named in 1934–35 CCC Cotton Form P.

2. *Release Price.*—Cotton will be released upon payment of the average middling ⅞-inch price of the designated spot markets as quoted by the Bureau of Agricultural Economics for the last market day preceding the date 1934–35 CCC Cotton Form P is presented (or postmarked, if mailed) plus or minus the differential applicable at the storage point as shown in Schedule of Locations and Differentials (1934–35 CCC Cotton Form R). These differentials include the 25 points allowance to producers. The amount of payment required to release the cotton will be calculated upon the original weights shown in the Note and Loan Agreement.

3. *Minimum Release Price.*—No cotton will be released for less than 12.75 cents per pound, plus or minus the differential applicable at the storage point. Cotton will be released when the average of the designated spot markets is below 12.75 cents per pound, upon payment of a price determined upon the basis of 12.75 cents per pound, plus or minus the differentials applicable at the storage point.

4. *Partial Releases.*—No partial release of cotton securing a single note will be permitted. If the producer has more than one note he may secure the release of the cotton securing any one of the notes.

5. *Adjustment for Grade and Staple and Weight.*—Commodity Credit Corporation will make adjustment for any difference in the value of the cotton covered by a single release because of the grade and staple and weight upon filing of claims in accordance with paragraph 6 below. Such difference in value will be calculated upon the basis of the grade and staple, as determined by a Board of Cotton Examiners of the U. S. Department of Agriculture, and reweights of the warehousemen, or a licensed weigher, using grade and staple differences shown in Schedule of Grade and Staple Differences (1934–35 CCC Cotton Form S). In calculating grade and staple adjustments, any cotton classed below Low Middling in grade will take the same grade difference as Low Middling, and 12-cent loan cotton classed below ⅞-inch in staple will be considered as ⅞-inch.

6. *Filing of Claims.*—All claims must be filed in duplicate with Commodity Credit Corporation, Washington, D. C., on 1934–35 CCC Cotton Form 50–A, and all information required on the form must be given. Claims, if any, must be filed separately for each Invoice and Draft (CCC Form 41–A). All claims must be filed within 90 days from the date of the Invoice and Draft.

7. *Documents Supporting Claims.*—Claims must be accompanied by a signed class sheet of a Board of Cotton Examiners of the U. S. Department of Agriculture, together with Reweight and Sampling Certificate on 1934–35 CCC Cotton Form 51–A. Samples may be forwarded for classing to the Boards of Cotton Examiners, U. S. Department of Agriculture, at Charleston, South Carolina; Atlanta and Savannah, Georgia; Mobile, Alabama; New Orleans, Louisiana; Memphis, Tennessee; and Dallas, El Paso, Galveston, and Houston, Texas. Arrangements have been made for these Boards to class the cotton and supply a signed class sheet for a fee of 15 cents per bale, which must be paid by the buyer of the cotton at the time samples are submitted.

8. *Storage Charges.*—Storage charges will be assumed by the Corporation for the period through the 5th day succeeding the date of the draft. The warehouse charges accrued to the date indicated above will be deducted from the amount required to be paid to obtain release of the cotton, and the unpaid accrued charges deducted will follow the cotton.

9. *Compression and Patching Charges.*—The release price at port locations will be based on flat cotton, and the producer will be required to pay the cost of compression and patching charges on cotton stored at ports where such charges have been advanced by the Corporation. Producers will be required to pay the cost of patching charges advanced by the Corporation on cotton stored at interior locations, but will not be required to pay compression charges advanced by the Corporation on such cotton.

10. *Freight Charges.*—Producers whose cotton has been reconcentrated will be required to pay the cost of freight only in those instances where paid freight bills having refund value can be delivered at the time the cotton is released.

11. *Delivery of Requests for Release.*—All Requests for Release (1934–35 CCC Cotton Form P), must be delivered or postmarked, if mailed, within 10 days from the date signed by the producer. The price will be fixed on the date of delivery (or postmark, if mailed) to a Loan Agency of the Reconstruction Finance Corporation, and the Loan Agency receiving the request will indicate the applicable price on the form. If the notes are not held by the Loan Agency receiving the form, the Request for Release will be forwarded to the proper Loan Agency. The "Designatee" named in 1934–35 CCC Form P should determine which Loan Agency of the Reconstruction Finance Corporation is holding the notes, from the producer, the payee named in the note, or otherwise, and mail or deliver the release form to such Loan Agency in order to avoid undue correspondence and delay.

12. *Sampling.*—Producers can secure one sample of the cotton by requesting same of warehouseman and paying the cost of such sampling. Purchasers desiring additional samples for submission to the Board of Cotton Examiners must make their own arrangements with the warehouse at the time of purchase of the cotton.

13. *Change in Release Plan.*—Commodity Credit Corporation reserves the right, upon 10 days' notice through the public press and the Reconstruction Finance Corporation Loan Agencies, to change the price, terms, and conditions at which the cotton will be released. In the event of the announcement of any change new Schedules of Locations and Differentials (1934–35 CCC Cotton Form R) and Schedules of Grade and Staple Differences (1934–35 CCC Cotton Form S), will be published.

14. *Forms.*—Following is a list of forms for use in securing release of cotton and filing claims:

(a) Request for Release (1934–35 CCC Cotton Form P).[1]

(b) Schedule of Locations and Differentials (1934–35 CCC Cotton Form R).

(c) Schedule of Grade and Staple Differences (1934–35 CCC Cotton Form S).

(d) Voucher for Payment of Adjustment Difference in Value Arising from Grade, Staple, and Weight (CCC Form 50–A).[1]

(e) Reweight and Sampling Certificate (CCC Form 51–A).[1]

JOHN D. GOODLOE,
*Secretary, Commodity Credit Corporation.*

## FEDERAL HOME LOAN BANK BOARD.

**Home Owners' Loan Corporation.**

[Manual Amendment]

SEPARATION NOTICE

*Be it resolved,* That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643–647) and particularly by Sections 4–a and 4–k of said Act as amended, the second resolving clause of a resolution adopted on January 25, 1937 with respect to advance notice of separation of employees is hereby amended by striking out "ten days after its adoption", and substituting in lieu thereof "February 15, 1937."

Adopted by the Federal Home Loan Bank Board on February 2, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[F. R. Doc. 37–345; Filed, February 3, 1937; 12:12 p. m.]

## RURAL ELECTRIFICATION ADMINISTRATION.

[Administrative Order No. 54]

ALLOCATION OF FUNDS FOR LOANS

FEBRUARY 1, 1937.

By virtue of the authority vested in me by the provisions of Section 4 of the Rural Electrification Act of 1936, I hereby allocate, from the sums authorized by said Act, funds for Loans for the projects and in the amounts as set forth in the following schedule:

| Project Designation: | *Amount* |
|---|---|
| New Jersey 6 Sussex | $90,000 |

MORRIS L. COOKE, *Administrator.*

[F. R. Doc. 37–341; Filed, February 2, 1937; 3:10 p. m.]

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 1st day of February A. D. 1937.

[1] These forms may be secured from Loan Agencies of the Reconstruction Finance Corporation. 1934–35 CCC Cotton Form R and 1934–35 CCC Cotton Form S have been sent to all Warehouses, Cotton Exchanges, and Loan Agencies of the Reconstruction Finance Corporation.

[File No. 2–2777]

IN THE MATTER OF UNDERWRITERS GROUP, INC.

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Underwriters Group, Inc., under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading.

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Thursday, February 11, 1937, at 11 o'clock in the forenoon, in Room 1101, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that John H. Small, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 2nd day of February 1937.

[File No. 7–158]

IN THE MATTER OF UNITED AIR LINES TRANSPORT CORPORATION CAPITAL STOCK, $5 PAR VALUE

ORDER DIRECTING HEARING UNDER SECTION 12 (F) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

The Boston Stock Exchange having made application to the Commission pursuant to Rule JF1 under the Securities Exchange Act of 1934, as amended, for extension of unlisted trading privileges to the Capital Stock, $5 Par Value, of United Air Lines Transport Corporation; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons should be given an opportunity to be heard and that general notice should be given;

It is ordered, that the matter be set down for hearing at 10 a. m., on Thursday, March 4, 1937, in Room 1103, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and continue thereafter at such times and places as the Commission or its officer herein designated may determine, and that general notice thereof be given; and

It is further ordered that Robert P. Reeder, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and perform all other duties in connection therewith authorized by law.

By the Commission.

IN THE MATTER OF NORTHERN STATES POWER COMPANY

ORDER FIXING DATE FOR PART OF DECLARATION TO BECOME EFFECTIVE

Northern States Power Company, a registered holding company, organized under the laws of Minnesota, having duly filed with this Commission a declaration, and amendments thereto, pursuant to Section 7 of the Public Utility Holding Company Act of 1935, regarding the reclassification of all of declarant's outstanding capital stock, to wit:

391,077 shares of Seven Per Cent Cumulative Preferred Stock (par value $100 per share),

391,099 shares of Six Per Cent Cumulative Preferred Stock (par value $100 per share),

341,551 shares of Class A Common Stock (par value $100 per share), and

729,166⅔ shares of Class B Common Stock (par value $10 per share),

into 4,000,000 shares, without par value, of common stock of declarant, with an aggregate stated capital of $90,000,000, the issue by declarant of such 4,000,000 shares, without par value, of common stock and the exchange of certificates for such shares for the certificates representing the shares of preferred and common stocks which declarant now has outstanding (which said declaration also covers certain bonds and preferred stock with which this order is not concerned); a hearing on said declaration having been duly held after appropriate notice and so much of the record in this matter as concerns such reclassification, such issue of common stock and such exchange, having been examined:

It is ordered that such parts of said amended declaration, as relate to such reclassification, the issue of 4,000,000 shares of common stock of no par value and the exchange of certificates for such shares of no par common stock for the certificates representing the shares of preferred and common stocks which declarant now has outstanding, be and become effective on February 2, 1937, on condition that such acts be effected in substantial compliance with all the terms and conditions of, and for the purposes represented by, said declaration, as amended; and

It is further ordered that, upon completion of such transactions, the declarant shall file with this Commission a certificate of notification showing that such reclassification has been effected in accordance with the conditions of this order, a copy of the certificate of amendment of its articles of incorporation effecting such reclassification and a copy of the articles of reduction of the aggregate stated capital of declarant to $90,000,000.

By the Commission.

## FEDERAL COMMUNICATIONS COMMISSION.

CONTINUOUS RADIO WATCH ON CARGO SHIPS

The Commission, at a General Session, held on January 27, 1937, granted a further exemption from the requirement of a continuous radio watch on cargo ships of over 5500 gross tons of the United States, to and including April 6, 1937, provided that such ships maintain during that period a radio watch by means of a licensed operator of a proper grade of at least eight hours per day in the aggregate. The action of the Commission in granting such further exemption does not remove or alter in any way the requirement of the Ship Act of 1910 as amended with regard to any such vessels.

[Docket No. 4409]

HEARING IN THE MATTER OF THE APPROVAL OR DISAPPROVAL OF CERTAIN AUTOMATIC ALARM DEVICES, IDENTIFIED AS MODEL A AND MODEL B

The Telegraph Division at its regular meeting held on January 26, 1937:

The Telegraph Division having under consideration the requests of several organizations for an informal hearing upon the question of approval or disapproval by the Commission under its specifications (requirements and type tests) adopted October 1, 1935, of certain automatic alarm devices, identified as Model A and Model B, which said devices will be in the offices of the Commission and available for inspection by interested parties on and after February 10, 1937; and also having under consideration tests of said automatic alarm devices, a report of which has been made public and which is available for distribution to interested parties,

It is ordered that an informal public hearing shall be held before the Telegraph Division at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m., on February 19, 1937, and an opportunity afforded at such hearing for interested parties to present their views upon the Commission's approval or disapproval of the said automatic alarm devices.

It is further ordered that any person desiring to be heard at such hearing shall on or before February 15, 1937, file with the Commission an appearance consisting of a concise statement of his interest in the matter, and of the facts which he expects to prove at the hearing.

By the Commission, Telegraph Division.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 1st day of February A. D. 1937.

Commissioners: William A. Ayres, Chairman; Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[Docket No. 3009]

IN THE MATTER OF WAIN'S LABORATORY, INC., A CORPORATION

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission, under an Act of Congress (38 Stat. 717; 15 U. S. C. A., Section 41),

It is ordered that Charles P. Vicini, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered that the taking of testimony in this proceeding begin on Wednesday, March 10, 1937, at ten o'clock in the forenoon of that day (Pacific Standard Time), in Room 213, Chamber of Commerce Building, Los Angeles, California.

Upon completion of testimony for the Federal Trade Commission, the examiner is directed to proceed immediately to take testimony and evidence on behalf of the respondent. The examiner will then close the case and make his report.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 3rd day of February A. D. 1937.

[File No. 43-24]

IN THE MATTER OF THE DECLARATION OF REPUBLIC SERVICE CORPORATION

ORDER FIXING EFFECTIVE DATE FOR DECLARATION UNDER SECTION 7 OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

Republic Service Corporation, a registered holding company, having filed with this Commission a declaration and four amendments thereto pursuant to Section 7 of the Public Utility Holding Company Act of 1935, regarding the issue and sale by it of $400,000 principal amount of its First Lien Collateral Trust Twenty-five Year Bonds, Series A, 5%, due June 1, 1951; a hearing on said declaration, as amended, having been held after appropriate notice; the record in this matter having been examined; and the Commission having made and filed its findings herein;

It is ordered that said declaration, as amended, be and become effective on February 3, 1937, on condition that the issue and sale of said bonds be effected in substantial compliance with all the terms and conditions of, and for the purposes represented by, said declaration, as amended;

It is further ordered that, within ten days after the sale of the bonds covered by the aforesaid declaration, the declarant shall file with this Commission a certificate of notification showing that such sale has been effected in accordance with the conditions imposed by this order;

It is further ordered that, notwithstanding any rule or regulation of the Commission, the declarant shall not hereafter declare or pay any dividend on any shares of any class of its capital stock unless and until the Commission shall by order have approved such transaction;

It is further ordered that, the declarant shall not hereafter sell or pledge any bonds heretofore or hereafter issued to it under the terms of the trust indenture securing the bonds covered by the present declaration, except in accordance with a declaration under Section 7 with respect to such transaction that has become effective.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C. on the 3rd day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE GULF MANUEL FARM, FILED ON JANUARY 28, 1937, BY L. H. WITWER, RESPONDENT.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that paragraphs (a) and (b) which should appear at the beginning of Division II have been omitted;

(2) In that Item 2 (e) of Division II states the date of the lease is September 23, 1931, whereas the Commission has information to the effect that the date of this lease is October 26, 1931;

(3) In that Item 2 (f) of Division II states there are two lessees of record, whereas the Commission has information that there is only one;

(4) In that Items 14, 15, 16 and 17 (b) of Division II are not correctly answered, based upon information in the possession of the Commission;

(5) In that in Item 18 (a), Division II, the name of the horizon is omitted;

(6) In that it is stated in Item 18 (b) that the gravity of the oil produced is 36°, whereas the Commission has information to the effect that the gravity is 29-31°;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 4th day of March 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and hereby is designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 17th day of February 1937 at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## DEPARTMENT OF THE INTERIOR.

Division of Grazing.

AMENDMENT TO THE RULES FOR ADMINISTRATION OF GRAZING DISTRICTS [1]

The Rules for Administration of Grazing Districts approved March 2, 1936, and as amended heretofore, shall remain in full force and effect except that the first two paragraphs thereof and the sections entitled "Licenses" and "Duties", under the heading "District Advisors", shall be amended to read as follows:

The issuance of temporary licenses will be continued in each grazing district until such time as the necessary data are available upon which to issue permits.

LICENSES

Licenses issued in 1937 will be operative only during that year or for such part of 1938 as may be considered the "winter grazing season" but in no event will extend beyond May 1, 1938.

Such licenses will be revocable for violation of the terms thereof and will terminate on the issuance of permits in a district.

An applicant for a grazing license is qualified if he owns livestock and is:

1. A citizen of the United States of America or one who has filed his declaration of intention to become such, or

2. A group, association, or corporation authorized to conduct business under the laws of the State in which the grazing district is located.

A qualified applicant will be considered in a preferred classification if he is a member of any one of the following four classes:

1. Landowners engaged in the livestock business.
2. Bona fide occupants.
3. Bona fide settlers.
4. Owners of water or water rights.

The following definitions will assist in determining who belongs in said classes:

*An occupant* to be bona fide must show that he actually occupies land to the exclusion of others for at least the period for which such land is subject to grazing. Such exclusive occupation may be by fencing or otherwise excluding trespassers. Posting notices unaccompanied by actual possession, or part-time seasonal use by grazing livestock, will not be considered occupancy. Any land claimed to be occupied must be held under a right such as to entitle the applicant to possession. (Lands to which the applicant has no lawful right of occupation cannot be made the basis of a claim of bona fide occupation.)

*A bona fide settler* is one who maintains actual residence under lawful authority on the land to the exclusion of a residence elsewhere.

*An owner of water or water rights* must show that it is for stock watering purposes and held under proper authority from the State.

Qualified preferred applicants will be given licenses to graze the public range insofar as available and necessary to permit a proper use of the lands, water, or water rights owned, occupied, or leased by them.

In determining the proper use of land or water, the following definitions will guide:

*Property* shall consist of land and its products or stock water owned or controlled and used according to local custom in livestock operations. Such property is:

(a) *Dependent* if public range is required to maintain its proper use.

(b) *Near* if it is close enough to be used in connection with public range in usual and customary livestock operations. In case the public range is inadequate for all the near properties, then those which are nearest in distance and accessibility to the public range shall be given preference over those not so near.

(c) Commensurate for a license for a certain number of livestock if such property provides proper protection according to local custom for said livestock during the period for which the public range is inadequate.

When the available range is insufficient to meet the requirements of all in the preferred class, such class will be divided into two groups as follows:

1. Those who have dependent commensurate property which has been used in connection with the public range for a full grazing season during the 5-year period immediately preceding the passage of the act or its amendment (under whichever the district was created).

In any district in which the regional grazier is convinced that the establishment of groups according to the above rule is unsuited to local conditions and will not permit an effective and orderly administration of the act in that particular district, he may recommend a different period of use as a standard for the establishment of groups in such district, provided that such proposed new rule shall not be operative until approved by the Secretary of the Interior.

2. Those who do not have such prior use.

*Issuance of licenses.*—after residents within or immediately adjacent to a grazing district having dependent commensurate property are provided with range for not to exceed ten (10) head of work or milch stock kept for domestic purposes, the following-named classes, in the order named, will be considered for licenses:

1. Qualified applicants of the preferred class who have prior use.

2. Qualified applicants of the preferred class who do not have such prior use.

3. Qualified applicants who are not in the preferred class.

DISTRICT ADVISORS

*Duties.*—District advisors shall make recommendations on the following-named matters:

1. The carrying capacity of the public range of the district.

2. The issuance of grazing licenses. (District advisors shall not make any recommendation upon their own applications, but such application shall be acted upon by the Director of Grazing.)

3. Proper rules for fair range practice.

4. Temporary range allotments by classes of livestock or for community or individual use.

5. Seasonal use of the public domain range, or any part thereof.

6. Approval or rejection in whole or in part of recommendations of local associations of livestock men in the district.

7. Other matters upon which their opinion may be requested by the Secretary of the Interior.

F. R. CARPENTER,
*Director of Grazing.*

Approved, January 28, 1937.

T. A. WALTERS,
*First Assistant Secretary.*

[F. R. Doc. 37-371; Filed, February 5, 1937; 10:01 a. m.]

[1] Under the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976), commonly known as the Taylor Grazing Act.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

ORDER SUSPENDING ORDER NO. 11 REGULATING THE HANDLING OF MILK IN THE DISTRICT OF COLUMBIA MARKETING AREA

Whereas, H. A. Wallace, Secretary of Agriculture of the United States of America, acting under the provisions of the Agricultural Adjustment Act, as amended, for the purposes and within the limitations therein contained, and pursuant to the applicable General Regulations issued thereunder, issued, on the 17th day of September 1936, Order No. 11 Regulating the Handling of Milk in the District of Columbia Marketing Area, said order being effective the 21st day of September 1936, which order was amended on the 1st day of December 1936; and

Whereas, the Secretary of Agriculture has determined to suspend the further operation of the said order;

Now, therefore, the Secretary of Agriculture, acting under the authority vested in him as aforesaid, hereby suspends the further operation of said Order No. 11, but any and all of the obligations which have arisen, or which may hereafter arise in connection therewith, by virtue of or pursuant to the operation of the said order, up to the effective date of this order of suspension, shall not be affected, waived or terminated hereby.

In witness whereof, H. A. Wallace, Secretary of Agriculture of the United States of America, has executed this order suspending the further operation of the aforesaid order, in duplicate, and has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 5th day of February 1937, and hereby declares that this order shall be effective on and after 12:01 a. m., e. s. t., February 8, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-374; Filed, February 5, 1937; 12:43 p. m.]

---

[Docket No. A-43 O-43]

NOTICE OF HEARING WITH RESPECT TO PROPOSAL TO AMEND ORDER NO. 5 REGULATING HANDLING OF MILK IN FALL RIVER, MASSACHUSETTS, MARKETING AREA, AND WITH RESPECT TO PROPOSAL TO AMEND MARKETING AGREEMENT TENTATIVELY APPROVED, APRIL 3, 1936

Whereas, pursuant to Title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, hereinafter called the act, the Secretary of Agriculture, hereinafter called the Secretary, issued an order regulating the handling of milk in the Fall River, Massachusetts, Marketing Area, effective 12:01 a. m., E. S. T., May 1, 1936; and

Whereas the Secretary tentatively approved the marketing agreement regulating the handling of milk in the said Marketing Area on April 13, 1936; and

Whereas the Secretary has reason to believe that an amendment should be made to said order and said marketing agreement; and

Whereas, under the act, notice of hearing is required in connection with a proposal to amend an order, and the General Regulations, Series A, No. 1, as amended, of the United States Department of Agriculture, Agricultural Adjustment Administration, provide for notice and opportunity for hearing upon marketing agreements and orders;

Now, therefore, pursuant to the act and the general regulations, notice is hereby given of a hearing to be held on a proposal to amend the order regulating the handling of milk in the Fall River, Massachusetts, Marketing Area and the tentatively approved marketing agreement regulating the handling of milk in the Fall River, Massachusetts, Marketing Area, at Wattupa Grange Hall, North Westport, Massachusetts, on February 11, 1937, at 9:30 a. m., eastern standard time.

This public hearing is for the purpose of receiving evidence as to the necessity for (1) modifying the base rating provisions in Article VII, and (2) changing any other provisions of said order and agreement.

Copies of the proposal to amend the order and the marketing agreement may be inspected in or procured from the office of the Hearing Clerk, Room 4725, South Building, United States Department of Agriculture, Washington, D. C.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

Dated, February 5, 1937.

[F. R. Doc. 37-373; Filed, February 5, 1937; 12:43 p. m.]

NCR—101

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTH CENTRAL REGION

BULLETIN NO. 101

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made, in connection with the effectuation of the purposes of Section 7 (a) of said Act for 1937, in accordance with the following provisions of this North Central Region Bulletin No. 101, and such modifications or other provisions as may hereafter be made.

This program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this program is contingent upon whatever appropriation the Congress of the United States may hereafter make for such purpose. The amount of any payment under this Program will be finally determined by such appropriation and the extent of participation in such Program. The rates of payment and the soil-building allowances set forth herein are computed upon the basis of an appropriation of $500,000,000.

*Part I. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in the North Central Region, the following terms shall have the following meanings:

*Secretary* means the Secretary of Agriculture of the United States.

*North Central Region* means the area included in the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota, and Wisconsin.

*North Central Division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the North Central Region.

*Area "A"* means the area included in the following counties of the following States:

Illinois: Adams, Boone, Brown, Bureau, Calhoun, Carroll, Cass, Champaign, Christian, Clark, Coles, Crawford, De Kalb, De Witt, Douglas, Du Page, Edgar, Ford, Fulton, Gallia, Greene, Grundy, Hancock, Henderson, Henry, Iroquois, Jersey, Jo Daviess, Kane, Kankakee, Kendall, Knox, La Salle, Lawrence, Lee, Livingston, Logan, Macon, Macoupin, Marshall, Mason, McDonough, McHenry, McLean, Menard, Mercer, Montgomery, Morgan, Moultrie, Ogle, Peoria, Platt, Pike, Putnam, Rock Island, Sangamon, Schuyler, Scott, Shelby, Stark, Stephenson, Tazewell, Vermilion, Wabash, Warren, White, Whiteside, Will, Winnebago, and Woodford.

Indiana: Adams, Allen, Bartholomew, Benton, Blackford, Boone, Carroll, Cass, Clinton, Decatur, Delaware, Fayette, Fountain, Franklin, Fulton, Gibson, Grant, Hamilton, Hancock, Hendricks, Henry, Howard, Huntington, Jasper, Jay, Johnson, Knox, Kosciusko, Lake, La Porte, Madison, Marion, Marshall, Miami, Montgomery, Morgan, Newton, Parke, Porter, Posey, Pulaski, Putnam, Randolph, Rush, Shelby, Starke, Sullivan, Tippecanoe, Tipton, Union, Vigo, Vermillion, Wabash, Warren, Wayne, Wells, White, and Whitley.

Iowa: All counties.

Minnesota: Blue Earth, Brown, Carver, Chippewa, Cottonwood, Dakota, Dodge, Faribault, Fillmore, Freeborn, Goodhue, Houston, Jackson, Kandiyohi, Lac qui Parle, Le Sueur, Lincoln, Lyon, Martin, McLeod, Meeker, Mower, Murray, Nicollet, Nobles, Olmsted, Pipestone, Redwood, Renville, Rice, Rock, Scott, Sibley, Steele, Swift, Wabasha, Waseca, Watonwan, Winona, Yellow Medicine.

Missouri: Adair, Andrew, Atchison, Audrain, Boone, Buchanan, Caldwell, Callaway, Carroll, Chariton, Clark, Clay, Clinton, Daviess, De Kalb, Gentry, Grundy, Harrison, Holt, Howard, Knox, Lafayette, Lewis, Lincoln, Linn, Livingston, Macon, Marion, Mercer, Monroe, Montgomery, Nodaway, Pike, Platte, Putnam, Ralls, Randolph, Ray, St. Charles, Saline, Schuyler, Scotland, Shelby, Sullivan, Warren, Worth.

Nebraska: Antelope, Boone, Burt, Butler, Cass, Cedar, Colfax, Cuming, Dakota, Dixon, Dodge, Douglas, Gage, Johnson, Knox, Lancaster, Madison, Merrick, Nance, Nemaha, Otoe, Pawnee, Pierce, Platte, Polk, Richardson, Sarpy, Saunders, Seward, Stanton, Thurston, Washington, Wayne, York.

Ohio: Allen, Auglaize, Butler, Champaign, Clark, Clinton, Crawford, Darke, Defiance, Delaware, Fairfield, Fayette, Franklin, Fulton, Greene, Hancock, Hardin, Henry, Highland, Logan, Madison, Marion, Mercer, Miami, Montgomery, Paulding, Pickaway, Preble, Putnam, Ross, Sandusky, Seneca, Shelby, Union, Van Wert, Warren, Williams, Wood, Wyandott.

South Dakota: Bon Homme, Brookings, Clay, Hutchinson, Lake, Lincoln, McCook, Minnehaha, Moody, Turner, Union, Yankton.

Wisconsin: Columbia, Crawford, Dane, Grant, Green, Iowa, Lafayette, Rock, Walworth.

*Area "B"* means the area included in the following counties of Missouri: Butler, Dunklin, Mississippi, New Madrid, Pemiscot, Ripley, Scott, and Stoddard.

*Area "C"* means the area included in the following counties of Missouri: Howell, Oregon, Ozark, and Taney.

*Area "D"* means the area included in Minnesota, Nebraska, South Dakota, not included in Area "A".

*State Committee or State Agricultural Conservation Committee* means the group of persons designated for a State to assist in the administration of the 1937 Agricultural Conservation Program in such State.

*County Agricultural Conservation Association or County Association* means the association in the county organized to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*County Agricultural Conservation Committee or County Committee* means the group of persons designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, firm, partnership, association, corporation, estate, or trust. The term person shall also include, wherever applicable, a State, a political subdivision of a State, or any agency thereof, and any other governmental agencies that may be designated by the Secretary.

*Owner* means a person who owns a farm which is not rented to another for cash or for a fixed commodity payment, or who rents a farm from another for cash or for a fixed commodity payment, or who is purchasing a farm on installments for cash or for a fixed commodity payment.

*Operator* means a person who as owner or share-tenant is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Crop-Share Tenant* means a person other than an owner or sharecropper who is operating a farming unit and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share-tenant sublets a farming unit to another person and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share-tenants.

*Crop-Share Landlord* means a person who as owner rents a farm to a share-tenant and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof.

*Sharecropper* means a person who works a farm in whole or in part under general supervision of the operator and is entitled to receive for his labor a proportionate share of a crop produced thereon, or the proceeds thereof.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with workstock, farm machinery, and labor substantially separate from that of any other land. A farming unit shall be deemed to be in the county in which the principal dwelling on such farming unit is located, and if there is no dwelling on such farming unit, it shall be deemed to be in the county in which the principal part of such farming unit is located.

*General Diversion Farming Unit* means any farming unit which has a general soil-depleting base of 20 acres or more.

*General Nondiversion Farming Unit* means any farming unit not a general diversion farming unit.

*Dryland Farming Unit* means any farming unit in Area "D" in Nebraska and South Dakota with respect to which the operator does not make application for a general conserving payment.

*Cotton Farming Unit* means any farming unit in Area "B" or in Area "C" which has a cotton soil-depleting base, or on which cotton is grown in 1937.

*Sharecropper Farming Unit* means any farming unit operated with the aid of sharecroppers in 1937, which farming unit is not a cotton farming unit.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937. A farm shall be deemed to be in the county in which the farming unit which includes such farm is located. A share-rented farm in a farming unit shall be deemed to include any land in such farming unit ordinarily used for hay, meadow, pasture, or similar uses which is rented for cash from the owner of such farm.

*Orchards* means the entire acreage in tree fruits, nut trees, vineyards, bush fruits, and nursery stock on the farm on January 1, 1937.

*Cropland* means (1) all tillable farmland from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and December 31, 1936, inclusive, except farmland in dryland farming units, which, since January 1, 1934, has not been plowed or planted for harvest or from which no crop has been harvested since January 1, 1934, and (2) the entire acreage devoted on January 1, 1937, to orchards.

*Noncrop Plowable Pasture* means any noncrop pasture land and other range land other than land owned or controlled by the United States Government, or an agency thereof, which could be brought under cultivation without clearing, draining, or irrigating.

*Animal Unit* means one cow, one horse, five sheep, two calves, two colts, or the equivalent thereof.

*Commercial Orchards* means the entire acreage in tree fruits, cultivated nut trees, vineyards, and bush fruits on the farm on January 1, 1937, from which the principal part of the production is normally sold, including also the acreage of young nonbearing orchards from which the principal part of the production will be sold.

*Commercial Vegetables* means the acreage of vegetables and truck crops (including Irish potatoes, sweet potatoes, sweet corn, melons, cantaloupes, and strawberries, but excluding peas for canning and sweet corn for canning) of which the principal part of the production was sold to persons off the farm in 1936.

*1937 General Acreage* means the total acreage classified as soil-depleting on a farming unit in 1937, less any 1937 acreage of cotton and tobacco on such farming unit.

*1937 Sugar Beet Acreage* means the acreage planted to sugar beets on a farm in 1937 not in excess of the general soil-depleting base for such farm.

*New Conserving Acreage* means the acreage of cropland on the farming unit upon which there is, as of the date as of which final inspection of the farm is made for the purpose of determining performance, a good stand of a soil-conserving crop which was seeded between November 1, 1936, and October 31, 1937, inclusive, and on which acreage no soil-depleting crop was planted for harvest as grain or hay in 1937, and the nurse crop, if any, was seeded at a rate not in excess of one-half the normal rate of seeding alone for grain and was not harvested for grain or hay. *New Conserving Acreage* also means the acreage of cropland used in accordance with subsection (b) of Section 2 of Part III.

*Old Conserving Acreage* means the acreage of cropland on the farming unit which was seeded prior to November 1, 1936, and upon which there was a good stand of a soil-conserving crop on or after July 1, 1937, and on which land no soil-depleting crop was planted for harvest as grain or hay in 1937. *Old Conserving Acreage* also means any acreage of cropland on the farming unit upon which there was a good stand of a soil-conserving crop on or after July 1, 1937 which was self-seeded in the fall of 1936 and on which land no soil-depleting crop was planted for harvest as grain or hay in 1937.

*Total Conserving Acreage* means the sum of the new conserving acreage and the old conserving acreage.

*Diversion Payment* means a payment for the diversion of acreage from any soil-depleting base.

*General Conserving Payment* means a payment for the increase of soil-conserving acreage.

*Part II. Establishment of Bases and Limits*

SECTION 1. *County Limits.*—There shall be established by the Agricultural Adjustment Administration for each county, a total acreage of all soil-depleting crops which shall be known as the county total limit; for each county in area "A" a total acreage of corn which shall be known as the county corn limit; for each county in which cotton soil-depleting bases will be established, a total acreage of cotton which shall be known as the county cotton limit; and for each county in which soil-depleting bases for any type of tobacco will be established a total acreage of such type of tobacco which shall be known as the county limit for such type of tobacco. Such county limits shall be based upon land measurements obtained under the 1936 Agricultural Conservation Program, United States Census, the county limits established under the 1936 Agricultural Conservation Program, and such other information as is available. The sum of the individual total soil-depleting bases, corn limits, cotton soil-depleting bases, and tobacco soil-depleting bases for all of the farms in a county shall not exceed the county total limit, the county corn limit, the county cotton limit and the county tobacco limit for each type of tobacco, respectively.

SECTION 2. *Total Soil-Depleting Bases.*—There shall be established for each farm a total soil-depleting base. The total soil-depleting base for any farm shall not be greater than the total acreage of cropland on the farm less the entire acreage in orchards. The total soil-depleting base for a farm shall be the total soil-depleting base which was or could have been established for such farm under the 1936 Agricultural Conservation Program with such revisions and adjustments as are necessary to establish equity as between farms. When such revisions are necessary, the county committee shall establish the average relationship between soil-depleting crops and cropland for the community and shall consider such average relationship and the type of soil, topography, and productivity on such farm in establishing such total soil-depleting base. The total soil-depleting base for a farming unit shall be the sum of the total soil-depleting bases established for all farms in such farming unit.

SECTION 3. *Soil-Depleting Bases for Cotton and Tobacco.*—There may be established, as part of the total soil-depleting base, a cotton soil-depleting base, and a separate soil-depleting base for Burley, dark air-cured and cigar leaf tobacco, respectively. Any cotton and tobacco soil-depleting bases shall be established in accordance with the instructions relating to the establishment of such bases. The tobacco soil-depleting base for a specified type of tobacco for a farming unit shall be the sum of the soil-depleting bases for such specified type of tobacco established for all farms in such farming unit. The cotton soil-depleting base for a farming unit shall be the sum of the cotton soil-depleting bases established for all farms in such farming unit.

SECTION 4. *General Soil-Depleting Base.*—The general soil-depleting base for any farm shall be determined by subtracting the sum of any cotton and tobacco soil-depleting bases established for such farm from the total soil-depleting base established for such farm. The general soil-depleting base for a farming unit shall be the sum of the general soil-depleting bases established for all farms in such farming unit.

SECTION 5. *Soil-Conserving Base.*—The soil-conserving base for any farm shall be determined by subtracting the total soil-depleting base plus the entire acreage in orchards from the total acreage of cropland on the farm. The soil-conserving base for a farming unit shall be the sum of the soil-conserving bases for all farms in such farming unit.

SECTION 6. *Corn Limit.*—There shall be established for each farm in area "A" a corn limit. In assigning corn limits, the county committee shall establish the average relationship between land which has been planted to corn and cropland for the community and also take into account the productivity, topography, and type of soil on each farm in the county in accordance with the instructions relating to the establishment of such limits. The corn limit for a farming unit in area "A" shall be the sum of the corn limits established for all farms in such farming unit and shall represent the highest acreage which may be planted to corn on such farming unit without deduction from any payments which would otherwise be made with respect to such farming unit.

SECTION 7. *Noncrop Plowable Pasture Land.*—There shall be established for each farm the total number of animal units which the noncrop plowable pasture on such farm will carry during the normal pasture season. Such total number of animal units shall be determined as follows:

(a) The Agricultural Adjustment Administration will determine the total number of animal units which the noncrop plowable pasture in the county will carry during the normal pasture season. Such total number of animal units shall be based upon (1) the sum of the acreages of noncrop plowable pasture reported in such county under the 1936 Agricultural Conservation Program and such other information as is available relative to the acreage of noncrop plowable pasture in the county, and (2) the average number of animal units which such pasture will carry during the normal pasture season without decreasing the stand of grass.

(b) The county committee will establish the average number of animal units which an acre of the noncrop plowable pasture in any farm in the county will carry by varying the average for the county established under subsection (a) of this Section 7 in accordance with variations in the density of vegetative growth, type of soil, and topography, of the noncrop plowable pasture in such farm. The total number of animal units which the noncrop plowable pasture in such farm will carry shall be determined by multiplying such average for the farm by the number of acres of noncrop plowable pasture land in such farm.

SECTION 8. *Appeals.*—Any person who has reason to believe that any base or limit established for such person's farm is not equitable, may request the county committee to reconsider its recommendations. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with the instructions relating to such appeals.

*Part III. Classification of Farm Land*

The use of farm land in 1937 shall be classified as either soil-depleting, soil-conserving, or neutral, as set forth in this Part III. In order for any cropland, other than an entire field, to be classified as either soil-conserving or neutral, such cropland must be in a solid block contiguous to the entire side or end of a field and the line between the cropland classified as neutral or soil-conserving and the remaining portion of the field must be straight. Except as otherwise provided, if any acreage on the farm is used for the production of interplanted crops, the actual acreage of each interplanted crop shall be classified as set forth in this Part III.

SECTION 1. *Soil-Depleting.*—Farm land devoted to the crops and uses specified in this Section 1 shall be classified as soil-depleting:

(a) Land planted in 1937 to the following crops:

1. Corn (field, sweet, and popcorn).
2. Grain sorghums and sweet sorghums.
3. Cotton.
4. Tobacco.
5. Sugar beets.
6. Rice.
7. Field beans and field peas.
8. Canning peas.
9. Hemp.
10. Broomcorn.
11. Mint.
12. Mangels and cowbeets.
13. Cultivated sunflowers.

14. Truck and vegetable crops.
15. Potatoes and sweetpotatoes.
16. Melons and strawberries.
17. Bulbs and flowers.

(b) Land used in 1937 for the production of the following crops:

1. Wheat, oats, barley, rye, flax, buckwheat, emmer, speltz, and mixtures of any of such crops, harvested for grain in 1937.
2. Millet and Sudan grass for seed.
3. Soybeans for grain or seed except in Area "B."
4. Soybeans for crushing.
5. Cowpeas for grain or seed except in Area "B."
6. Rape for seed.
7. Strawberries.
8. Bulbs and flowers.

(c) The acreage by which, the sum of the idle cropland and the acreage planted to any of the following crops and used as specified herein, exceeds the acreage obtained by subtracting the old conserving acreage from the soil-conserving base:

1. Wheat, oats, barley, rye, flax, emmer, speltz, and mixtures of any of such crops, not harvested for grain. (Excluding such crops when planted in the fall of 1937 for harvest in 1938, and excluding any acreage used as specified in item 5 of Section 3 (a) of this Part III.)
2. Soybeans, cowpeas and buckwheat not harvested as grain or seed, (excluding the use of these crops as specified in item 1, of subsection (b) of Section 2 of this Part III). This item 2 is not applicable to Area "B".
3. Millet and Sudan grass not harvested for seed.
4. Rape not harvested for seed.

SECTION 2. *Soil-Conserving.*—Cropland in 1937 not used as set forth in Section 1 of this Part III and devoted to the crops and uses specified in this Section 2 shall be classified as soil-conserving:

(a) Cropland upon which there was a good stand on or after July 1, 1937, of any of the following crops seeded before November 1, 1936: Cropland upon which there is, on the date as of which final inspection is made for the purpose of determining performance, a good stand which would normally survive the winter of 1937–38, of any of the following crops seeded before November 1, 1936, and October 1, 1937, inclusive, provided, there is evidence that the nurse crop, if any, was seeded at a rate not in excess of one-half the normal rate of seeding alone for grain.

1. Perennial legumes: alfalfa, kudzu, sericea, and white clover.
2. Perennial grasses: bluegrass, Dallis, timothy, redtop, reed canary grass, orchard grass, Bermuda grass, carpet grass, bromegrass, crested wheat grass, slender wheat grass, western wheat grass, gramma grasses, buffalo grass, bluestem grasses, Koeleria, perennial ryegrass, meadow fescue.
3. Biennial legumes: sweet, red, and mammoth clovers.
4. Annual sweet clover, alsike clover, lespedeza, crotolaria.
5. Mixtures of legumes listed under items 1, 3, and 4 of this subsection (a), or mixtures of such legumes and the grasses listed under item 2 of this subsection (a).
6. Soybeans and cowpeas in Area "B", except soybeans for crushing.
7. Trees, other than fruit or nut trees, planted since January 1, 1934.

(b) Cropland used as follows:

1. Incorporation into the soil as green manure by plowing or discing of a good vegetative growth of soybeans, velvet beans, cowpeas, or buckwheat seeded before July 1, 1937, and followed by a winter cover crop where the land is subject to erosion.
2. Planted to crimson clover, bur-clover, vetch, blank medica and yellow treefoil (hop clover) in the fall of 1936 provided there is a good stand on or after March 1, 1937.

SECTION 3. *Neutral.*—Farm land not used as specified in Sections 1 and 2 of this Part III and devoted to the crops and uses specified in this Section 3 shall be classified as neutral:

(a) Farm land used in 1937 for the following purposes:

1. Summer fallow, if first cultivated before June 1, 1937, and properly cultivated thereafter in such a manner as to prevent wind and water erosion and weed growth.
2. The entire acreage in orchards.
3. Seeded in 1937 to a crop specified in subsection (a) of Section 2 of this Part III, in accordance with good farming practices and upon which, due to uncontrollable natural causes, there is not a good stand which would normally survive the winter of 1937–38, provided, the nurse crop, if any, was seeded at a rate not in excess of one-half the normal rate of seeding alone for grain and was not harvested as grain or hay.
4. Waste land, roads, lanes, lots, yards, noncrop pasture land, land reverting to permanent pasture, and noncrop woodland.
5. Noncrop pasture land planted to the following crops in 1937, before June 1, and not used for grain, seed, or hay, if, because of unusual weather conditions, such land has become unfit for grazing and if before planting written approval is obtained from the county committee, designating the area upon which such crops may be planted: Wheat, oats, barley, rye, emmer, speltz, and small grain mixtures.

(b) The acreage equal to the sum of the idle cropland and the acreage planted to any of the following crops and used as specified herein not in excess of the acreage obtained by subtracting the old conserving acreage from the soil-conserving base:

1. Wheat, oats, barley, rye, flax, emmer, speltz, and mixtures of any of such crops, not harvested for grain (excluding such crops when planted in the fall of 1937 for harvest in 1938, and excluding any acreage used as specified in item 5 of Section 3 (a) of this Part III).
2. Soybeans, cowpeas and buckwheat not harvested as grain or seed (excluding the use of these crops as specified in item 1 of subsection (b) of Section 2 of this Part III). This item 2 is not applicable to Area "B".
3. Millet and Sudan grass not harvested for seed.
4. Rape not harvested for seed.

*Part IV. Rates and Conditions of Payment*

In connection with the utilization in 1937 of the land on any farming unit in the North Central Region, payments will be made in the amounts and subject to the conditions hereinafter set forth:

SECTION 1. *General Diversion Payment.*—For any General Diversion Farming Unit, payment will be made for each acre, not in excess of 15 percent of the general soil-depleting base for such farming unit, by which the 1937 general acreage on such farming unit is less than the general soil-depleting base for such farming unit. The rate per acre for general diversion payments is an average of $6.00 per acre for the United States varying among States, counties, and individual farming units as the productivity of cropland on all such farming units varies. In counties in Area "A" the rate thus determined shall be increased 5 percent.

SECTION 2. *General Conserving Payment.*—For any General Diversion Farming Unit not also a Dryland Farming Unit, payment will be made, not in excess of the number of acres for which payment is made under Section 1 of this Part IV, for the sum of (1) the old conserving acreage on such farming unit in excess of soil-conserving base for such farming unit, and (2) the new conserving acreage on such farming unit, less the sum of the diverted cotton and tobacco acreage for which payment is made with respect to such farming unit. The rate per acre for general conserving payments is an average of $3.00 per acre for the United States varying among States, counties, and individual farming units as the productivity of cropland on all such farming units varies. In counties in Area "A" the rate thus determined shall be increased 5 percent.

SECTION 3. *Sugar Beet Payment.*—For any farm on which sugar beets are grown in 1937, payment will be made, not in excess of the sugar beet acreage allotment for such farm, in an amount per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for such farm, provided:

(a) An acreage customarily used in a rotation with sugar beets on such farm in 1937 equal to at least 40 percent of the 1937 sugar beet acreage is classified as soil-conserving on such farm in 1937, or

(b) Both

(1) an acreage customarily used in a rotation with sugar beets on the farm in 1937 equal to at least 20 percent of the 1937 sugar beet acreage is classified as soil-conserving on such farm in 1937, and

(2) all the 1937 sugar beet acreage is on land not devoted to sugar beets in more than two of the years 1934, 1935, and 1936;

*Provided, further*, if the provision under subsection (a) of this Section 3 is not performed and only one of the provisions under subsection (b) of this Section 3 is performed, payment will be made in an amount equal to one-half the sugar beet payment which would otherwise be made with respect to such farm.

The acreage allotment for any farm with respect to which the sugar beet payment will be made will be the 1937 sugar beet acreage on such farm, unless the estimated acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the sugar beet acreage allotment for the farm shall be that percentage of the 1937 sugar beet acreage on such farm which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the estimated total acreage of sugar beets planted for harvest in the United States in 1937.

SECTION 4. *Tobacco Diversion Payments.*—For any farming unit which has a tobacco soil-depleting base, payment will be made for each acre, not in excess of 25 percent of the soil-depleting base established for the farming unit for Burley or cigar-leaf tobacco, and not in excess of 20 percent of the dark air-cured tobacco soil-depleting base for the farming unit, by which the 1937 acreage on the farming unit of a specified type of tobacco is less than the soil-depleting base for such farming unit for such type of tobacco. The rate per acre for tobacco diversion payments shall be the result obtained by multiplying the number of pounds representing the normal yield per acre of the specified type of tobacco for the farming unit, in the case of Burley tobacco by 5 cents; in the case of dark air-cured tobacco by 3½ cents; and in the case of cigar-leaf tobacco by 3 cents.

SECTION 5. *Cotton Diversion Payment.*—For any farming unit which has a cotton soil-depleting base, payment will be made for each acre, not in excess of 35 percent of the cotton soil-depleting base for the farming unit, or if such base is 5.7 acres or less, not in excess of two acres, by which the 1937 cotton acreage on the farming unit is less than the cotton soil-depleting base for such farming unit. The rate per acre for cotton diversion payments shall be the result obtained by multiplying the number of pounds representing the normal yield per acre of cotton for the farming unit by 5 cents.

SECTION 6. *Rice Payment.*—For any farm on which rice is grown in 1937, payment will be made in an amount determined in accordance with and subject to the provisions of the bulletins heretofore or which may hereafter be issued relating to the 1937 Agricultural Conservation Program in the North Central Region, and the provisions concerning rice contained in bulletins heretofore or which may hereafter be issued relating to the 1937 Agricultural Conservation Program in the Southern Region.

SECTION 7. *Soil-Building Allowances.*—The soil-building allowance for a farming unit shall be the sum of the soil-building allowances for all farms in such farming unit. The soil-building allowance for each crop-share landlord with respect to a farm owned by him in a farming unit and for each sharecropper on a farm in a farming unit shall be the result obtained by multiplying the soil-building allowance for such farm by the percentage of any soil-building payments made with respect to such farm to which such person is entitled. The soil-building allowance for the operator of a farming unit shall be the result obtained by subtracting from the soil-building allowance for such farming unit the sum of the soil-building allowances for all crop-share landlords owning farms in such farming unit and the soil-building allowances for any sharecroppers on such farming unit.

(a) The soil-building allowance for a farm in a general diversion farming unit not also a dryland farming unit, and for a farm in a farming unit for which a cotton or tobacco soil-depleting base is established shall be computed as follows:

(1) $1.00 for each acre in the soil-conserving base established for such farm.

(2) $1.00 for each acre of the acreage obtained by multiplying the total acreage for which diversion payments are made with respect to the farming unit of which such farm is all or part by the percentage that the total soil-depleting base on such farm is of the total soil-depleting base for such farming unit.

(3) $1.90 for each acre in commercial orchards on such farm.

(4) $1.00 for each acre of cropland on such farm on which only one crop of commercial vegetables was grown in 1936.

(5) $2.00 for each acre of cropland on such farm on which more than one crop of commercial vegetables was grown in 1936.

(6) $0.50 for each animal unit in excess of five which the noncrop plowable pasture on such farm will carry during the normal pasture season.

(7) The sum of (1) to (6), inclusive shall be the soil-building allowance for such farm unless the sum of such items for the farming unit of which such farm is all or part is less than $10.00, in which event the soil-building allowance for such farm shall be obtained by multiplying $10.00 by the percentage that the cropland on such farm is of the cropland on the farming unit.

(b) The soil-building allowance for a farm in a general nondiversion farming unit for which farm no cotton or tobacco soil-depleting base is established shall be computed as follows:

(1) $0.90 for each acre of cropland on such farm.

(2) $1.00 for each acre in commercial orchards on such farm.

(3) $1.00 for each acre of cropland on such farm on which only one crop of commercial vegetables was grown in 1936.

(4) $2.00 for each acre of cropland on such farm on which more than one crop of commercial vegetables was grown in 1936.

(5) $0.50 for each animal unit in excess of five which the noncrop plowable pasture on such farm will carry during the normal pasture season.

(6) The sum of (1) to (6), inclusive, shall be the soil-building allowance for such farm unless the sum of such items for the farming unit of which such farm is all or part is less than $20.00, in which event the soil-building allowance for such farm shall be obtained by multiplying $20.00 by the percentage that the cropland on such farm is of the cropland on the farming unit.

(c) The soil-building allowance for a farm in a dryland farming unit shall be computed as follows:

(1) $1.00 for each acre of soil-conserving crops on such farm in 1937 not in excess of the soil-conserving base for such farm.

(2) $4.00 for each acre of the acreage obtained by multiplying the total acreage for which diversion payments are made with respect to the farming unit of which such farm is all or part by the percentage that the total soil-depleting base on such farm is of the total soil-depleting base for such farming unit. Such $4.00 rate is an average for the United States and will vary among States, counties, and individual farming units as the productivity of all farming units varies.

(3) $1.90 for each acre in commercial orchards on such farm.

(4) $1.00 for each acre of cropland on such farm on which only one crop of commercial vegetables was grown in 1936.

(5) $2.00 for each acre of cropland on such farm on which more than one crop of commercial vegetables was grown in 1936.

(6) $0.50 for each animal unit in excess of five which the noncrop plowable pasture on such farm will carry during the normal pasture season.

(7) The sum of (1) to (6), inclusive, shall be the soil-building allowance for such farm unless the sum of such items for the farming unit of which such farm is all or part is less than $10.00 in which event the soil-building allowance for such farm shall be obtained by multiplying $10.00 by the percentage that the cropland on such farm is of the cropland on the farming unit.

SECTION 8. *Soil-Building Payments.*—Payments will be made to the operator of a farming unit, not in excess of such operator's share of the soil-building allowance for such farming unit, for the carrying out in 1937 on such farming unit of any of the soil-building practices listed in this Section 8. Payment will be made to a crop-share landlord owning a farm, not in excess of such landlord's share of the soil-building allowance for such farm, for the carrying out in 1937 on such farm of any of the soil-building practices listed in this Section 8. Payment will be made to a sharecropper on a farm, not in excess of such sharecropper's share of the soil-building allowance for such farm, for the carrying out in 1937 on such farm of any of the soil-building practices listed in this Section 8. To be eligible for soil-building payments, the practices listed herein must be carried out by such methods and using such materials and with such kinds and quantities of adapted seed and trees as conform with good farming practice. No soil-building payment will be made with respect to any farming unit for the seeding of red clover unless all seedings of red clover on the farming unit in 1937 are made with adapted red clover seed, nor will any soil-building payment be made with respect to any farming unit for the seeding of alfalfa unless all seedings of alfalfa on the farming unit in 1937 are made with adapted alfalfa seed. All practices for which payment is to be made must have been completed prior to November 1, 1937. Proof of performance for any practice shall consist of satisfactory evidence that the practice was completed in accordance with the conditions specified. Soil-building payment for any practice hereinafter set forth will not be made with respect to any acreage on the farm for which all or any portion of the labor, seed, or materials used for any practice is furnished free or paid for by any State or Federal agency, except that in case of the soil-building practices designated under subsections (c), (g), and (n) hereof, payment will be made at the stipulated rates on an acreage or quantity, as the case may be, which bears the same proportion to the total acreage or quantity with respect to such practice as the quantity of materials used, or the value of the labor and materials furnished, by the owner or operator bears to the total quantity of materials or the total value of labor and materials used in carrying out such practice.

Where several soil-building practices are adopted on the same acreage, payment will not be made for (1) more than one of the practices listed in the same subsection in the case of subsections (c) to (u), inclusive, and (2) more than one practice twice or any two practices of the 14 soil-building practices listed in subsections (a), (b), (v), and (w).

Except as otherwise provided, the soil-building practices listed in subsections (a) to (j), inclusive, will be applicable to all farms; the soil-building practices listed in subsections (k) to (q), inclusive, will be applicable only to dryland farms; the soil-building practices listed in subsections (r) to (u), inclusive, will be applicable only to orchards, and the practices listed in subsections (v) and (w) will be applicable only to cropland used for the growing of commercial vegetables.

For dryland farms, all rates of payment in subsections (a) and (b) shall be increased $1.50 if the rate is $2.00 or more, and $1.00 if the rate is less than $2.00, if on the date as of which final inspection of the farm is made for the purpose of determining performance, there is a good stand which would normally survive the winter 1937–38, of the crops to which such rates are applicable, and the nurse crop, if any, is not harvested for grain or hay.

PRACTICES APPLICABLE TO ALL FARMS, EXCEPT AS OTHERWISE PROVIDED

(a) *Seedings of adapted legumes.*—Seedings of adapted seed of any of the following legumes on cropland;

(1) Alfalfa—$2.50 per acre.

(2) Red clover, sericea, and white clover—$2.00 per acre.

(3) Alsike clover, mammoth clover, and lespedeza—$1.50 per acre.

(4) Legume mixtures or mixtures of legumes and perennial grasses listed under subsection (b) hereof, which contain 50 percent or more of alsike clover, mammoth clover, lespedeza, alfalfa, red clover, sericea, and white clover, or any two or more of these legumes—$1.50 per acre.

(5) Biennial sweet clover, annual sweet clover, vetch, and crimson clover—$1.00 per acre.

(6) Legume mixtures or mixtures of legumes and the perennial grasses listed under subsection (b) hereof, which contain 50 percent or more of biennial sweet clover, annual sweet clover, vetch, and crimson clover, or any two or more of these legumes—$1.00 per acre.

(b) *Seedings of adapted perennial grasses.*—Seedings of adapted seed of any of the following grasses on cropland or on noncrop pasture land:

(1) Bluegrass, crested wheat grass, slender wheat grass, and western wheat grass—$2.00 per acre.

(2) Bromegrass, orchard grass, and permanent pasture mixtures of grasses or grasses and legumes containing at least 50 percent of the grasses listed in item (1) of this subsection—$1.50 per acre.

(3) Redtop, reed canary grass, and timothy, and permanent pasture mixtures of grasses or grasses and legumes containing at least 50 percent of bromegrass, orchard grass, redtop, reed canary grass, timothy, or any two or more of these grasses—$1.00 per acre.

(c) *Limestone.*—Except as otherwise provided in items (2) and (3) of this subsection (c), application on cropland or noncrop pasture land of ground limestone or its equivalent:

(1) Application of ground limestone or its equivalent—$1.25 per ton.

(The ground limestone should not be coarser than that obtained by grinding calcareous or dolomitic limestone so that not less than 90 percent with all finer particles obtained in the grinding process included, will pass through a ten-mesh sieve. It must contain calcium and magnesium carbonates equivalent to not less than 80 percent of calcium carbonate.

The following quantities of other calcareous substance are equivalent to one ton of ground limestone in the following designated States: 1,400 lbs. of hydrated lime or 2 cubic yards of marl, in the entire North Central Region; 1½ cubic yards of sugar beet refuse lime, in Ohio, Indiana, Michigan, Wisconsin, Minnesota, and Nebraska; 1½ cubic yards of calcium carbide refuse lime, in Indiana, Michigan, and Wisconsin; 1½ cubic yards of paper mill refuse lime, in Michigan, Wisconsin, and Minnesota; 1½ cubic yards of water softening process refuse lime, in Illinois; 2 cubic yards of commercial

wood ashes, in Michigan and Wisconsin; ½ ton of commercial burnt lime, 1 ton of burnt lime waste, and 4 cubic yards of calcareous clay, in Wisconsin; 1 ton of agricultural limestone meal, 1,500 lbs. of agricultural ground limestone, or 2,750 lbs. of limestone screenings, in Ohio and Wisconsin; 1,400 lbs. of pulverized limestone in Ohio and Wisconsin; 4 tons of tailings from lead mines, in Wisconsin.)

(2) A minimum of 500 lbs. per acre of finely ground limestone on cropland when drilled in with seedings of legumes—$1.00 per acre.

(3) A minimum of 1,000 lbs. per acre of finely ground limestone on noncrop pasture land—$2.00 per acre. (The finely ground limestone designated in items (2) and (3) of this subsection (c) should not be coarser than that obtained by grinding calcareous or dolomitic limestone so that not less than 90 percent, with all finer particles obtained in the grinding process included, will pass through a 30-mesh sieve. It must contain calcium and magnesium carbonates equivalent to not less than 80 percent of calcium carbonate.)

(4) Phosphates.—Application of the following minimum amounts of phosphate materials per acre on noncrop pasture or on cropland, used in 1937 for the growing of a crop, specified in Section 2 of Part III, and on which noncrop pasture or cropland in connection with such application no soil-depleting crop is planted for harvest in 1937 or 1938.

(1) 200 pounds of 16 percent superphosphate or its equivalent—$1.20 per acre.

(2) 300 pounds of 16 percent superphosphate or its equivalent—$1.80 per acre.

(The 16 percent superphosphate, designated in items (1) and (2) of this subsection (d) shall contain 16 percent by weight of available phosphoric acid. Other phosphates may be substituted for 16 percent superphosphate, provided that the quantity of such substitute applied shall contain not less than the quantity by weight of available phosphoric acid contained in the specified quantity of 16 percent superphosphate.)

(3) 500 pounds of rock phosphate or basic slag—$1.80 per acre.

(e) *Potash.*—Application of the following minimum amounts of 50 percent muriate of potash per acre on noncrop pasture or on cropland used in 1937 for the growing of a crop specified in Section 2 of Part III and on which noncrop pasture or cropland in connection with such application no soil-depleting crop is planted for harvest in 1937 or 1938.

(1) 100 pounds of 50 percent of muriate of potash or its equivalent—$1.00 per acre.

(50 percent muriate of potash shall contain not less than 50 percent by weight of water soluble potash. Other materials containing potash may be substituted for 50 percent muriate of potash, provided that the quantity of such substitute applied shall contain not less than the quantity by weight of water soluble potash contained in 100 pounds of 50 percent muriate of potash.)

(f) *Gypsum.*—Applicable only to Beltrami, Hubbard, Lake of the Woods, Cass, and Clearwater counties of Minnesota. Application of the following minimum amount of gypsum per acre on cropland used in 1937 for the growing of a crop, specified in Section 2 of Part III, and on which cropland in connection with such application no soil-depleting crop is planted for harvest in 1937 or 1938.

(1) 200 pounds of gypsum—$1.25 per acre.

(g) *Planting and Protection of Trees.*—Applicable to all farms except dryland farms. Planting and protection of forest trees and trees for windbreak or shelterbelt purposes in accordance with good tree culture practice—$7.50 per acre.

(h) *Improving a Stand of Forest Trees.*—Improving a stand of forest trees by cutting weed trees and thinning or pruning other trees so as to leave at least 100 potential timber trees of desirable species per acre with a minimum diameter of 6 inches each, or at least 200 potential timber trees of desirable species per acre with a minimum diameter of 2 inches, well distributed over each acre of woodland—$2.50 per acre. *Provided:* (1) The county committee after inspection has approved and designated in writing the area on which such practice is to be carried out, and (2) such area is not grazed and is adequately protected against fire.

(i) *Terracing.*—Terracing in 1937 in accordance with good terracing practices—$0.40 per hundred feet. *Provided:* The county committee after inspection has approved and designated in writing the area on which such practice is to be carried out.

(j) *Restoration of Noncrop Plowable Pasture.*—Restoration by nongrazing for the entire season of noncrop plowable pasture, which requires not more than 10 acres to carry one animal unit for the entire season—$0.40 per acre. *Provided:* (1) The county committee after inspection has approved and designated in writing the area on which such practice is to be carried out, and (2) no hay or seed is harvested from such pasture land, (3) such pasture land is not tilled for any purpose other than to improve the stand of pasture grasses and legumes thereon, and (4) if there is extensive growth of noxious weeds on such pasture, the maturing of seed of such weeds is prevented by clipping such pasture.

PRACTICES APPLICABLE ONLY TO DRYLAND FARMS

(k) *Protected Summer Fallow.*—$1.00 per acre in fallow. *Provided:* (1) The first tillage operation is completed before May 15, 1937, in Nebraska, and June 1, 1937, in South Dakota; (2) tillage operations are carried out in such a manner as to prevent weed growth and so as to prevent wind and water erosion; (3) the slope on the land to be fallowed is not in excess of 8 percent; (4) the land on which the slope is from 3 to 8 percent is listed on the contour; (5) the land is seeded in the fall to a cover crop, or lister ridges are left over the winter to prevent wind erosion; (6) on light sandy land the fallow is in alternate strips with crops of approximately the same width not less than 3 rods or more than 20 rods in width, running at right angles to prevailing winds, or running on the contour.

(l) *Strip Cropping.*—Growing in 1937 of small grain and row crops in alternate strips, such strips to be approximately the same width, not less than 3 rods and not more than 20 rods in width, running at right angles to the prevailing winds, or running on the contours—$0.20 per acre for the acreage in the strips. *Provided:* The stubble is left on the land in such a manner as to check wind erosion.

(m) *Strip Fallow.*—Cultivation of fallow and growing of small grain crops in alternate strips, such strips to be approximately the same width, not less than 3 rods and not more than 20 rods in width, running at right angles to the prevailing winds, or running on the contour—$1.00 per acre for the acreage in the strips of fallow. *Provided:* The stubble is left on the strips devoted to crops in such a manner as to check wind erosion.

(n) *Planting and Protection of Trees.*—Planting and protection of forest trees or trees for windbreak or shelterbelt purposes in accordance with good tree culture practice—$10.00 per acre.

(o) *Cultivating and Maintaining a Stand of Trees.*—Cultivating, protecting, and maintaining, by replanting, if necessary, a full stand of at least 500 trees per acre of forest plantings or 200 trees per acre of windbreak or shelterbelt plantings planted on cropland or noncropland between January 1, 1934, and November 1, 1936—$4.00 per acre.

(p) *Contour Furrows on Permanent Pasture Land.*—Construction of contour furrows on permanent farm pasture land, except permanent farm pasture land that is sufficiently sandy and porous to absorb normal precipitation—$0.50 per acre for the area contour furrowed. *Provided:* The contour furrows are constructed on the contour level, not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet, and the furrows are not more than 25 feet apart.

(q) *Restoration to Native Grass of Noncropland.*—Restoration to native grass of noncropland plowed at least once between January 1, 1930, and December 31, 1933, inclusive, which in accordance with good farming practices should be permanently devoted to grass—$0.25 per acre. *Provided:* (1) The operator or owner has designated the acreage and has stated in writing his intention to let such acreage revert to grass; (2) written approval has been obtained from the county committee; and (3) such land is not pastured or tilled in 1937.

PRACTICES APPLICABLE ONLY TO LAND IN COMMERCIAL ORCHARDS

(r) *Winter Cover Crops.*—Incorporation into the soil by plowing or discing between March 1, 1937, and June 30, 1937, inclusive, of a good vegetative growth of any of the following winter cover crops: Rye, oats, barley, buckwheat, annual grasses, annual legumes, or mixtures of any of these—$1.00 per acre. *Provided:* Such crop has attained at least sixty days' growth and is not pastured or harvested for grain or hay.

(s) *Seedings of Winter Cover Crops.*—Seedings after May 1, 1937, of any of the crops listed under subsection (r) of this Section 8 except soybeans and cowpeas—$0.50 per acre. *Provided:* (1) There is a good vegetative growth of such crops on such land on the date as of which final inspection of the farm is made for the purpose of determining performance.

(t) *Seeding Soybeans and Cowpeas.*—Seeding, after May 1, 1937, soybeans and cowpeas at the normal rate—$1.50 per acre. *Provided:* There is a good vegetative growth of such crop on such land on the date as of which final inspection of the farm is made for the purpose of determining performance which is not pastured or otherwise taken from the land.

(u) *Mulching.*—Application of mulching materials, other than manure.—$1.00 per ton (air-dry weight). *Provided:* (1) Not less than three and not more than five tons per acre are applied; and (2) all materials produced on such land from interplanted crops are left thereon.

PRACTICES APPLICABLE ONLY TO CROPLAND USED FOR GROWING COMMERCIAL VEGETABLES

(v) *Non-Leguminous Green Manure Crop on Vegetable Land.*—Incorporation into the soil as green manure by plowing or discing of a good, and the entire, vegetative growth of rye, oats, barley, buckwheat, annual grasses, mixtures of these, or corn sown broadcast, grown on land used for the production of vegetable crops in 1935 and 1936, provided such green manure crop has attained at least 60 days' growth.

(1) If the annual average number of soil-depleting crops grown in 1935 and 1936 is grown on such land in 1937—$1.00 per acre.

(2) If as a result of carrying out such practice less than the annual average number of soil-depleting crops grown in 1935 and 1936 is grown on such land in 1937—$2.00 per acre.

(w) *Leguminous Green Manure Crop on Vegetable Land.*—Incorporation into the soil as green manure by plowing or discing of a good, and the entire vegetative growth of a legume, or mixture of legumes, grown on land normally used for the production of vegetable crops, provided such green manure crop has attained at least 60 days' growth.

(1) If the annual average number of soil-depleting crops grown in 1935 and 1936 is grown on such land in 1937—$2.00 per acre.

(2) If as a result of carrying out such practice less than the annual average number of soil-depleting crops grown in 1935 and 1936 is grown on such land in 1937—$4.00 per acre.

SECTION 9. *Division of Payments Made with Respect to a Farming Unit.*—Any payments made with respect to a farming unit shall be made in the percentages and to the persons specified in this Section 9.

(a) On a general diversion farming unit not also a cotton or sharecropper farming unit, the percentage of the general diversion and general conserving payments for such farming unit of each crop-share landlord of a farm in such farming unit shall each be determined as follows: The percentage that the general soil-depleting base for the farm owned by such crop-share landlord is of the general soil-depleting base for the farming unit shall be multiplied by 50 percent if such farming unit is not in Area "D"; if such farming unit is in Area "D", such percentage shall be multiplied by 40 percent. The percentage of the general diversion and general conserving payments for such farming unit for the operator of such farming unit shall be determined by subtracting from 100 percent the sum of the percentage of the general diversion and general conserving payments, respectively, for such farming unit determined for all crop-share landlords owning farms in such farming unit.

(b) Any sugar beet payment made with respect to a share-rented farm shall be divided between the persons who are parties to the lease or operating agreement in the proportion in which such persons are entitled to share under such lease or operating agreement in the sugar beets grown on such farm in 1937, or the proceeds thereof. Any sugar beet payment made with respect to a farm owned by the operator shall be made to such operator.

(c) On a farming unit which has a tobacco soil-depleting base and which farming unit is not also a cotton or sharecropper farming unit, the percentage of the diversion payment for a specified type of tobacco for such farming unit of each crop-share landlord of a farm in such farming unit shall be determined as follows: The percentage that the soil-depleting base for a specified type of tobacco for the farm owned by such crop-share landlord is of the soil-depleting base for such specified type of tobacco for the farming unit shall be multiplied by 50 percent if such farming unit is not in Area "D"; if such farming unit is in Area "D", such percentage shall be multiplied by 40 percent. The percentage of the diversion payment for such specified type of tobacco for such farming unit for the operator of such farming unit shall be determined by subtracting from 100 percent the sum of the percentages of the diversion payment for such specified type of tobacco for such farming unit determined for all crop-share landlords owning farms in such farming unit.

(d) On a farming unit not in Area "B" or "C" which has a cotton soil-depleting base and which farming unit is not also a sharecropper farming unit, the percentage of the diversion payment for such farming unit of each crop-share landlord of a farm in such farming unit shall be determined as follows: The percentage that the cotton soil-depleting base for the farm owned by such crop-share landlord is of the cotton soil-depleting base for the farming unit shall be multiplied by 50 percent. The percentage of the cotton diversion payment for such farming unit for the operator of such farming unit shall be determined by subtracting from 100 percent the sum of the percentages of the cotton diversion payment for such farming unit determined for all crop-share landlords owning farms in such farming unit.

(e) On a sharecropper farming unit not also a cotton farming unit, any diversion or conserving payment made with respect to such farming unit shall be divided among the persons who are parties to the lease or operating agreement relating to such farming unit in the proportion in which such persons are entitled to share under such lease or operating agreement in the crops grown on such farming unit in 1937, or the proceeds thereof, with respect to which any such payments are made.

(f) On a cotton farming unit, any diversion or conserving payment made with respect to such farming unit shall be divided as follows: 37½ percent to the persons who furnished the land in such farming unit to be divided between such persons in the proportion that the cropland on the farm owned by each person in such farming unit is of the total cropland in such farming unit; 12½ percent to the persons who furnished the workstock and equipment for the farming unit to be divided between such persons in the proportion that the workstock and equipment furnished by each person is of the total workstock and equipment on the farming

unit; 50 percent to be divided between the persons who are parties to the lease or operating agreement relating to such farming unit in the proportion in which such persons are entitled to share under such lease or operating agreement in the crops grown on such farming unit in 1937, or the proceeds thereof, with respect to which any such payments are made.

(g) On a farming unit not also a cotton or sharecropper farming unit, any soil-building payment made with respect to a farm in such farming unit shall be divided equally between the crop-share landlord of such farm and the operator of such farming unit if such farming unit is not in Area "D". If such farming unit is in Area "D", such payments shall be divided as follows: 40 percent to such landlord and 60 percent to such operator.

(h) On a farming unit either a cotton or sharecropper farming unit, any soil-building payment made with respect to a farm in such farming unit shall be made to the eligible owner, share-tenant, or sharecropper who the county committee determines, under instructions issued by the Secretary, has incurred the expense in 1937 with respect to the practice for which the soil-building payment is to be made; where two or more persons are thus determined by the county committee to have incurred the expense in 1937 with respect to such practice, the soil-building payment for such practice shall be divided equally between such persons.

Any share of payments shall be computed without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against any crop, or the proceeds thereof, in favor of the owner or any creditor. If the Secretary, upon the basis of an investigation by the State committee, finds that any person has for 1937 made any change from any previous leasing or cropping arrangement for the farm, for the purpose of, or which would have the effect of, diverting to such person any payment to which any tenants or sharecroppers would be entitled if the previous leasing or cropping arrangement were in effect for 1937, the amount of any payment which would otherwise be made to such person may be withheld in whole or in part.

SECTION 10. *Applications for Payment; Small Payments.*—(a) Payment will only be made upon application filed with the county committee in which the farming unit is located. Each person applying for payment will be required to show the extent to which the conditions upon which payment is to be made have been met. An application for payment with respect to a farming unit by any person must include all the land in such farming unit.

(b) No total payment will be made to any person in an amount less than fifty cents.

SECTION 11. *Deductions.*—(a) For each acre by which the 1937 general acreage on a general diversion farming unit is in excess of the general soil-depleting base for such farming unit, a deduction will be made from any payment which otherwise would be made with respect to such farming unit in an amount equal to the rate per acre for diversion from the general soil-depleting base for such farming unit.

(b) For each acre by which the 1937 corn acreage on a general diversion farming unit in Area "A" is in excess of the corn acreage limit for such farming unit, and for each acre by which the 1937 corn acreage on a general non-diversion farming unit is in excess of twenty acres, a deduction will be made from any payment which otherwise would be made with respect to such farming unit in an amount equal to the rate per acre for diversion on general diversion farming units from the general soil-depleting base for such farming unit. On general non-diversion farming units such deduction will be in an amount equal to the rate per acre for diversion from the general soil-depleting base which would be determined for such farming unit if it were a general diversion farming unit.

(c) For each acre by which the 1937 general acreage on a general non-diversion farming unit is in excess of twenty acres, a deduction will be made from any payment which otherwise would be made with respect to such farming unit in an amount equal to the rate per acre for diversion from the general soil-depleting base which would be determined for such farming unit if it were a general diversion farming unit.

(d) For each acre by which the 1937 acreage of a specified type of tobacco on a farming unit is in excess of the tobacco soil-depleting base for such type of tobacco, a deduction will be made from any payment which otherwise would be made with respect to such farming unit in an amount equal to the rate per acre for diversion from the soil-depleting base for such farming unit for such type of tobacco. If no rate per acre has been determined for diversion from the soil-depleting base for such farming unit for the type of tobacco of which there is an excess, the rate to be applied for such type of tobacco will be computed by multiplying the number of pounds representing the average county yield per acre of such type of tobacco by the farming unit's productivity index of crops in the general soil-depleting base, and multiplying this result in the case of Burley tobacco by 5 cents; in the case of dark air-cured tobacco by 3½ cents; and in the case of cigar-leaf tobacco by 3 cents.

(e) For each acre by which the 1937 acreage of cotton on a farming unit is in excess of the cotton soil-depleting base for such farming unit, a deduction will be made from any payment which otherwise would be made with respect to such farming unit in an amount equal to the rate per acre for diversion from the cotton soil-depleting base for such farming unit. If no rate per acre has been determined for diversion from the cotton soil-depleting base for such farming unit, the rate to be applied will be computed by multiplying the number of pounds representing the average county yield of cotton per acre by the farming unit's productivity index of crops in the general soil-depleting base and multiplying the result by 5 cents.

(f) For each acre by which the sum of (1) the old conserving acreage on the farming unit is in excess of the soil-conserving base for such farming unit, and (2) the new conserving acreage on such farming unit, is less than the acreage for which cotton and tobacco diversion payments are made with respect to such farming unit, a deduction will be made from any payments which otherwise would be made with respect to such farming unit in an amount of three dollars.

The share of each crop-share landlord of any deduction computed with respect to a farming unit not also a cotton or sharecropper farming unit, shall be computed by multiplying such deduction by the percentage that the total soil-depleting base for the farm owned by such crop-share landlord is of the total soil-depleting base for the farming unit; and multiplying this result by 50 percent if the farming unit is not in Area "D" and by 40 percent if the farming unit is in Area "D". The share of the operator of any deduction computed with respect to a farming unit not also a cotton or sharecropper farming unit shall be determined by subtracting from the deduction computed for the farming unit the sum of the deductions computed for all crop-share landlords owning farms in such farming unit. No deduction shall be made from any payments which otherwise would be made to any person with respect to a farming unit in excess of such person's share of a deduction computed with respect to such farming unit, notwithstanding that the total deduction computed for such farming unit is not made.

The share of any person of any deduction made with respect to a farming unit also a cotton or sharecropper farming unit, shall be computed by multiplying such deduction by the percentage that the sum of all payments computed for such person with respect to such farming unit is of the sum of all payments computed for such farming unit.

SECTION 12. *Adjustment in Rates.*—The rates specified in this Part IV are based upon an estimate of available funds and an estimate of approximately 85 percent participation. If participation in the North Central Region exceeds that estimated for such region, all the rates specified in this Part IV for such region may be reduced pro rata. If participation in the North Central Region is less than the estimate for such region, the rates may be increased pro rata. In no case will the rates be increased or decreased by more than 10 percent.

SECTION 13. *Applicability to Farms Under Special Programs.*—The Secretary may designate one or more counties in any State for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In the event that any such county is designated the allowances, rates, and conditions of payment for such county will be set forth in a special bulletin and the provisions of this bulletin shall not be applicable in such county.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration payment will be made only for such diversion and for carrying out such soil-building practices as are approved for the farm prior to performance by the County Committee in accordance with instructions issued by the Secretary.

SECTION 14. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made with respect to any farming unit may be withheld if any rotation, cropping, or other practices are adopted on the farming unit, which practices the Secretary determines tend to defeat the purposes of the 1937 Agricultural Conservation Program. If any person who has made an application for payment with respect to any farming unit has an interest as owner, operator, or sharecropper in another farming unit in the county on which it is determined that the acreage in 1937 used for the production of general crops, cotton or tobacco exceeds the general, cotton, or tobacco soil-depleting bases, respectively, or on which the 1937 corn acreage exceeds the corn limit, a deduction will be made from any payments which otherwise would be made to such person. Any such deduction shall be computed in accordance with Section 11 of this Part IV.

SECTION 15. *Association Expenses.*—In determining the amount of payments under the 1937 Agricultural Conservation Program, there shall be deducted from any payment computed for any person with respect to any farming unit in a county, all of such person's pro rata share, or such part thereof as may be determined by the Secretary, of the estimated total administrative expenses incurred and to be incurred by the Association of such county in cooperating in carrying out the 1937 Agricultural Conservation Program in such county. Such pro rata share shall be determined by multiplying the total payments computed for such person with respect to any farming unit in such county by the percentage that the estimated total administrative expenses of the Association for such county as approved by the North Central Division for 1937 is of the total payments estimated by the North Central Division which will be made with respect to farming units in such county in 1937. As provided in the Articles of Association, any person who previously has not become a member of the Association of the county in which the farming unit containing his farm is located shall become a member thereof by his signing an application for payment with respect to the farming unit in which such farm is located.

There shall be credited for the payment of administrative expenses the sum of $2.00 for each application for a farm on which the total payment (prior to deduction of any administrative expenses) as estimated by the Agricultural Adjustment Administration will be $20.00 or less.

*Part V. Miscellaneous Provisions*

SECTION 1. *Determination of Persons to Whom Payment Will Be Made.*—Except as may hereafter be provided, for the purposes of the 1937 Agricultural Conservation Program in the North Central Region, a person will not be regarded as the owner or operator of a farm unless such person owned or operated such farm on June 30, 1937, and has been such owner or operator for a period of at least 60 consecutive days, which period must include June 30, 1937. In determining the number of days of ownership or operation, a fraction of a day will be considered as a whole day. In the event more than one person has owned or operated a farm on June 30, 1937, and for 60 consecutive days, the person who has owned or operated such farm prior to June 30, 1937, shall be regarded as the owner or operator of such farm. The term "owner" as used herein does not refer exclusively to a person who has legal title to a farm but is intended to describe the person who for 1937 has the right to possesion or control of a farm and to profits and rents therefrom. If a person has the right to receive a portion of any crop, or the proceeds thereof, on any farm in the North Central Region in 1937 solely by virtue of a creditor relationship and does not become the owner of such farm, such person shall not be entitled to receive any payment made with respect to such farm pursuant to the 1937 Agricultural Conservation Program in the North Central Region.

In the event of death, incompetency, abandonment, or discharge or release from a representative capacity the period of ownership or operation may, upon recommendation of the county committee and upon approval by the Secretary or his duly authorized representative, be computed as follows:

(a) *In the Event of Death.*—If, because of the death of any party owning or operating a farm, the person, whether the deceased, his heir or heirs, or the duly appointed representative, if any, of such decedent's estate, who owns or operates such farm on June 30, 1937, has not owned or operated such farm, for 60 consecutive days, the period of such person's ownership or operation of such farm shall be deemed to include the time of ownership or operation of such farm by the deceased person, his heir or heirs, or the duly appointed representative, if any, of his estate.

(b) *In the Event of Incompetency.*—If, because of the adjudication of incompetency of any person owning or operating a farm, the person, whether the person who was adjudicated incompetent, his relative or relatives, or his duly appointed representative, if any, who owns or operates such farm on June 30, 1937, has not owned or operated such farm for 60 consecutive days, the period of such person's ownership or operation of such farm shall be deemed to include the time of ownership or operation of such farm by the person who was adjudicated incompetent, his relative or relatives, or his duly appointed representative, if any.

(c) *In the Event of Abandonment.*—If, because of abandonment by any party owning or operating a farm, the person, whether the person who has abandoned the farm, his relative or relatives, or his duly appointed representative, if any, who owns or operates such farm on June 30, 1937, has not owned or operated such farm for 60 consecutive days, the period of such person's ownership or operation of such farm shall be deemed to include the time of ownership or operation of such farm by the person who has abandoned such farm, his relative or relatives, or his duly appointed representative, if any.

(d) *In the Event of Discharge or Release from Representative Capacity.*—If, because of the discharge or release from a representative or fiduciary capacity of any party owning or operating a farm, the person, whether the representative or fiduciary who has been discharged or released from his representative or fiduciary capacity or the person or persons who succeed such representative as owner or operator, who owns or operates such farm on June 30, 1937, has not owned or operated such farm for 60 consecutive days, the period of such person's ownership or operation of such farm shall be deemed to include the time of ownership or operation of such farm by the representative who has been released or discharged from his representative or fiduciary capacity and the person or persons who succeed such representative or fiduciary as owner or operator of such farm.

No soil-building payment will be made to the person who is regarded as the owner or operator of a farm for any soil-building practices carried out on such farm after he has ceased to own or operate such farm.

For the purpose of this section 1, the term "operator" shall be deemed to include sharecroppers.

SECTION 2. *Persons Eligible to Execute an Application for Payment and Receive Payment Thereunder Upon Happening of Certain Contingencies on or after July 1, 1937.*

(a) *In the Event of Death.*—If an owner or operator of a farm dies on or after July 1, 1937, and before making an

application for payment with respect to such farm, the administrator or executor appointed by a court of competent jurisdiction for such decedent's estate shall be eligible to make an application for payment with respect to such farm, in lieu of such decedent. If an administrator or executor is not appointed for such estate, all the heirs of such decedent will be eligible to make application for payment with respect to such farm. If, prior to his death, the decedent has made an application for payment but did not receive the payment thereunder, such payment will be made to the administrator or executor appointed by a court of competent jurisdiction for such estate. If an administrator or executor is not appointed for such estate, such payment will be made to all the heirs of such decedent.

(b) *In the Event of Incompetency.*—If an owner or operator of a farm is adjudged incompetent by a court of competent jurisdiction on or after July 1, 1937, and before making an application for payment with respect to such farm, the guardian or committee appointed by a court of competent jurisdiction for such incompetent's estate shall be eligible to make application for payment with respect to such farm in lieu of the incompetent. If the person adjudicated incompetent had, prior to such adjudication, made application for payment but did not receive the payment thereunder, such payment will be made to the guardian or committee appointed by a court of competent jurisdiction for such incompetent's estate.

(c) *In the Event of Abandonment.*—If an owner or operator of a farm abandons such farm on or after July 1, 1937, and before making an application for payment with respect to such farm, the person appointed by a court of competent jurisdiction to control and conserve the assets of the abandoned estate shall be eligible to make an application for payment with respect to such farm in lieu of the person who abandons such farm. If, prior to his abandonment, the person who abandons such farm had made an application for payment, but, did not receive the payment thereunder, such payment will be made to the person appointed by a court of competent jurisdiction to control and conserve the assets of such abandoned estate.

(d) *In the Event of Discharge or Release from Representative Capacity.*—If an administrator, executor, trustee, guardian, committee, receiver, conservator, or other representative or fiduciary who is the owner or operator of a farm is discharged or released from such representative or fiduciary position by a court of competent jurisdiction on or after July 1, 1937, and before making an application for payment, the person or persons who succeed such representative or fiduciary as owner or operator of such farm will be eligible to execute an application for payment with respect to such farm in lieu of the representative or fiduciary who has been discharged or released. If, prior to his discharge or release, the person who has been discharged or released from his representative or fiduciary position had made an application for payment but did not receive the payment thereunder, such payment will be made to the person or persons who succeed such representative as owner or operator of such farm.

For the purpose of this Section 2, the term "operator" shall be deemed to include sharecroppers.

*Part VI. Range Lands*

SECTION 1. *Definitions.*—As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in its application to range lands in the North Central Region, the following terms shall have the following meanings:

*Range Lands* means any land other than that owned or controlled by the United States Government, or any agency thereof, which produces forage without cultivation or general irrigation, ten acres or more of which are required to sustain one animal unit for a period of twelve months.

*Ranging Unit* means all land used by an operator in 1937 as a single unit for the production of livestock primarily by grazing such livestock on range land, with buildings, corrals, workstock, farm machinery, and labor substantially separate from that for any other ranching unit.

*Ranch Operator* means a person who as owner or lessee operates a ranching unit. Any ranch operator is eligible to make an application for the establishment of grazing capacity.

*Animal Unit* means one cow, one horse, five sheep, two calves, two colts, or the equivalent thereof.

*Ranch Allowance* means the largest amount that may be obtained for range conservation practices on any ranching unit.

*Grazing Capacity* means the number of animal units which range land will sustain for a period of years on a twelve months basis without decreasing the stand of grass or other grazing vegetation and without injury to the forage and tree growth on such range land.

*Limited Grazing* means limiting the grazing on an entire ranching unit during the grazing season to such an extent that a specified percentage of the grass on such ranching unit is permitted to mature seed.

*Deferred Grazing* means withholding from grazing a portion of the range land in a ranching unit during a period from the time growth starts in the spring until seed has matured in the fall, for the purpose of permitting natural reseeding of native grasses.

*County Range Inspector* means a person selected by the county committee and approved by the State Committee to appraise and recommend grazing capacity and practices, and to inspect performance on range land.

SECTION 2.—*County Grazing Capacity Limit.*—There shall be established by the Agricultural Adjustment Administration in each county containing range land the average grazing capacity of such range land. The average of the individual grazing capacities established for the range land in any county shall not exceed the county average grazing capacity limit for such county.

SECTION 3. *Grazing Capacity.*—There shall be established for any range land for which an application for the establishment of grazing capacity is received, the grazing capacity of such range land. Such grazing capacity for individual range land shall be established by taking into account the following factors: (a) composition, palatability, and density of vegetative growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic features; (e) classes of livestock which have utilized such range land; (f) presence or absence of rodents and poisonous plant infestations; (g) previous use; and (h) fences.

SECTION 4. *Range Building Allowance.*—The range building allowance for a ranching unit shall be equal to an amount obtained by multiplying the grazing capacity for such ranching unit by $1.50.

SECTION 5. *Range Building Practices.*—Payments will be made, not in excess of the range building allowance, for the carrying out on range land any of the range building practices listed herein. Payment will not be made for any practice unless (a) the ranch operator has filed with the county committee a request for an inspection of his ranch by a county range inspector; (b) the county committee has given prior approval for the carrying out of any such practice; (c) the county committee has determined that any such practice has been carried out in accordance with the conditions specified; and (d) any such practice has been carried out in accordance with generally accepted standards of good ranch management.

(1) *Reseeding by deferred grazing.*—Natural reseeding by non-grazing on an acreage equal to not more than 25 percent nor less than 10 percent of the total range land on the ranching unit from May 1 to September 30, 1937, inclusive, except that upon recommendation by the State Committee and approval by the Director of the North Central Division a date other than September 30, 1937, may be established: 60 percent of the range building allowance for such ranching unit multiplied by the percentage that the non-grazed acrage is of the acreage equivalent to 25 percent of the total range land in such ranching unit, *provided:* (1) On ranches on which cattle or horses are grazed the area to be kept free of grazing is fenced and the fence is maintained sufficiently to prevent the entry of livestock; (2) On ranches used exclusively for grazing sheep the area to be kept free of grazing is either fenced and the fence is maintained sufficiently to prevent entry of livestock or the entry of livestock on the non-grazed acreage is prevented by herding; (3) The remaining range land in such ranching unit is not pastured to such an extent as will decrease the stand of grass or injure the range, forage, tree growth, or watershed; and (4) The ranch operator has submitted to the county committee in writing the designation of the non-grazing range area of the ranch previous to the carrying out of such practice.

(2) *Reseeding by limited grazing.*—Natural reseeding of all of the range land on the ranching unit.—50 percent of the range building allowance for such ranching unit. *Provided,* the number of animal units grazed on the range land on such ranching unit during the grazing season, May 1 to September 30, 1937, inclusive, is limited to a number of animal units which will permit at least 25 percent of the grass on the ranching unit to mature seed and aid the natural reseeding of such grasses.

(3) *Contouring.*—Construction of contour furrows on land not sufficiently sandy and porous to absorb normal precipitation—$0.50 per acre. *Provided:* (1) The furrows are constructed on the contour level not less than 8 inches in width and 4 inches in depth; (2) Such furrows are dammed at intervals of not more than 100 feet; and (3) The furrows are not more than 25 feet apart.

(4) *Tree planting.*—Planting of trees on range land—$10.00 per acre. *Provided:* (1) The trees are planted in 1937 prior to November 1, 1937; (2) The number, kind, and age of trees planted and the methods of planting and growing of such trees are in accordance with good tree culture practice; (3) The acreage planted to trees is fenced and the fence is maintained sufficiently to prevent entry of livestock.

(5) *Cultivating and Maintaining a Stand of Trees.*—Cultivating, protecting, and maintaining, by replanting, if necessary, a full stand of at least 500 trees per acre of forest plantings or 200 trees per acre of windbreak or shelterbelt plantings planted on cropland or noncropland between January 1, 1934, and November 1, 1936—$4.00 per acre.

(6) *Reservoirs.*—Construction of reservoirs and dams—$0.15 per cubic yard of fill for such construction. *Provided:* (1) The construction of reservoirs and dams is carried out in connection with the practices outlined in subsections 1 and 2 of this Section 5; (2) Spillways are made adequate to prevent the dam from washing out under normal rainfall and reservoirs are located where they have a sufficient watershed to insure the filling of such reservoirs with normal precipitation.

SECTION 6. *Payments Restricted to Effectuation of Purpose.*—All or any part of any range practice payment which otherwise would be made with respect to any ranching unit may be withheld if any grazing or other practices are adopted on the ranching unit, which practices the Secretary determines tend to defeat the purpose of the 1937 range program in the North Central Region.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-375; Filed, February 5, 1937; 12:43 p. m.]

## FARM CREDIT ADMINISTRATION.

[FCA 23]

REGULATIONS RELATIVE TO EMERGENCY CROP AND FEED LOANS IN THE CONTINENTAL UNITED STATES MADE PURSUANT TO THE ACT OF CONGRESS, APPROVED JANUARY 29, 1937[1]

FEBRUARY 2, 1937.

1. Loans for fallowing, for the production of crops, for planting, cultivating, and harvesting crops, for supplies incident and necessary to such production, planting, cultivating, and harvesting, and for feed for livestock, or for any of such purposes, will be made during the year 1937 by the Governor of the Farm Credit Administration to farmers in the continental United States.

2. Such loans may be made to farmers who have acreage fit for cultivation, the necessary equipment for farming operations, and livestock for which feed is required, and who are unable to obtain a loan from other sources, and, further, such loans will be limited to the amount necessary to meet the immediate and actual cash needs, and preference shall be given to the applications of farmers whose cash requirements are small.

3. Such loans shall be secured by a first lien, or by an agreement to give a first lien, upon all crops of which the planting, cultivation, production, or harvesting is to be financed, in whole or in part, with the proceeds of such loan; or, in case of any loan for the purchase and/or production of feed for livestock, a first lien upon the livestock to be fed.

4. Applicants must agree (1) to use seed and methods approved by the Department of Agriculture; (2) to plant a garden for home use; and (3) to plant a sufficient acreage of feed crops to supply feed for their workstock and subsistence cattle.

5. No such loan will be made:

(a) To any applicant who has received or is to receive from Resettlement Administration during 1937 a standard rehabilitation loan, as indicated on lists furnished by Resettlement Administration.

(b) To any applicant who can obtain a loan from other sources, including production credit associations, in an amount reasonably adequate to meet his needs for the purposes for which such loans may be made. An applicant for a loan in an amount in excess of a minimum fixed by the Governor, or his representative, for the territory in which the applicant resides, must first submit written evidence from a production credit association that his application for a loan of the same or less amount has been rejected.

(c) To any applicant who has an application for a 1937 crop or feed loan pending with a production credit association.

(d) To any applicant who has not observed good faith in making repayment on any previous emergency loan or loans, as indicated by the willful misuse of the proceeds of a loan check for any purpose other than those specified in the application therefor; failure to plant a crop, or planting a crop on land other than that described in the application, and not returning proceeds of loan; the willful disposal of crops mortgaged to the Governor without paying him the proceeds of the sale thereof, or failure to pay all or a part of such loan or loans when able to do so.

(e) To any applicant in an amount greater than his immediate cash needs for the production of crops, for supplies incident and necessary to such production, and for feeding livestock, or in an amount in excess of $400. No loan will be made for an amount less than the sum of $10. All loans will be made in multiples of $5. Notes will bear interest, from maturity until paid, at the rate of 4 percent per annum; and interest to the maturity date at the same rate will be deducted at the time the loan is made.

(f) To more than one member of a family unit nor to any person living and/or farming with an applicant whose application for a loan hereunder has been disapproved.

(g) To applicants who are occupants of the same farm or plantation, or are tenants of the same landlord in any one county (with the exception of tenants on land the title of which is vested directly in the United States, or of any State or municipal government, or of any drainage district), in an aggregate amount which (inclusive of all emergency loans theretofore made to them, or any of them, pursuant to the Act of Congress approved January 29, 1937), exceeds the sum of $1,000.

(h) To any applicant who has a means of livelihood other than farming.

[1] Public No. 3, 75th Congress.

(i) To partnerships, corporations, minors, agents, executors, or administrators; or, to receivers or trustees.

(j) To a wife living with her husband unless the husband joins in the application, note, and mortgage or lien.

(k) For the purchase of machinery or livestock, or for the payment of taxes, rent, debts, or interest or for any purpose other than as specified herein.

6. Loans may be disbursed in one payment or in installments at the discretion of the regional manager.

7. No loan for the production of crops will be made in an amount greater than the immediate and actual cash needs in the particular case to plant the crop in a manner approved by the Extension Service of the Department of Agriculture.

The immediate and actual cash needs in a particular case must not exceed the actual costs per acre in such case as determined by individual consideration of the various factors involved, e. g., whether it is necessary to purchase seed, feed, fertilizer, spraying material and/or fuel for tractors; the cost thereof; and any other incidental expenses currently incurred in that community in connection with the particular crop to be produced. In no event may loans for crop production purposes exceed the following maximum allowances per acre:

*Maximum Allowances Per Acre*

| | 1 Without commercial fertilizer | 2 Where commercial fertilizer is used | 3 Where commercial fertilizer and spray material, including dust are used [1] |
|---|---|---|---|
| Grain crops | [2] $3.00 | [2] $4.00 | |
| Cotton | 4.00 | 6.00 | |
| Tobacco | 4.00 | 12.00 | $13.00 |
| Peanuts | 3.00 | 4.50 | |
| Irish potatoes (commercial) | 15.00 | 30.00 | 32.00 |
| Truck (commercial) | 10.00 | 22.00 | 25.00 |
| Miscellaneous crops | 2.50 | 4.00 | |
| Sugarcane | 12.00 | 12.00 | |
| Sugar beets | 8.00 | 12.00 | |
| Rice: | | | |
| When landlord furnishes water | 8.00 | 8.00 | |
| If landlord does not furnish water | 13.00 | 13.00 | |
| Citrus fruit trees (bearing) | 20.00 | 20.00 | 20.00 |
| Other fruit trees (bearing) | 10.00 | 14.00 | 20.00 |

[1] Where spray material, including dust is used without commercial fertilizer, the allowance for such spray material and dust will be the difference, if any, between the allowances in column (2) and column (3).

[2] Of the grain allowances shown in the table not more than $1 shall be used for summer fallowing.

These figures include allowances for fuel, oil, and feed for workstock for crop production purposes and incidental expenses, for which no additional allowances will be made.

Allowances for water charges (including maintenance, electric power and fuel) for crops other than rice grown on irrigated land shall not exceed $3 per acre.

Allowances for commercial fertilizer will be made only in areas where commercial fertilizer is customarily used.

8. No loan for the purchase of feed for livestock will be made in an amount greater than is actually necessary to maintain the livestock until pasturage and/or forage or until grain crops are available, and in no case may a loan for the purchase of feed for livestock be made on a basis which exceeds the following rates per head of livestock per month:

*Maximum allowances for the purchase of feed for livestock per head per month* [1]

| | |
|---|---|
| Work Horses and Mules | $8.50 |
| Stock Horses | 4.00 |
| Dairy and Breeding Cows | 4.00 |
| Stock Cattle (from 1 to 2 years old) | 2.00 |
| Sheep (1 to 6 years, inclusive) | .50 |
| Breeding Hogs | 2.00 |

[1] Allowances set forth in this table apply to feed loans only and are not to be used in connection with loans for cash crops. The allowances provided for cash crops include feed for workstock.

9. An amount not greater than the actual harvesting and threshing expenses may, in the discretion of the regional manager, be released from the proceeds of the sale of any of the crops covered by a lien given to the Governor, in any case where a borrower does not have the necessary funds or credit to pay for the harvesting and threshing of such crops.

10. The amount approved for a loan by the Governor or his representative under these regulations will be paid to the applicant by a disbursing officer upon receipt and approval by the Governor or his representative of the following documents:

(a) Application in the form prescribed, signed by the applicant.

(b) Promissory note (or bond in Pennsylvania) in the form prescribed, executed by the applicant for the amount approved by the Governor or his representative, payable to the Governor, bearing interest at the rate of 4 percent per annum from maturity until paid.

NOTE.—In order to afford adequate protection and preserve the statutory priority of liens for seed loans made in North Dakota, South Dakota, Minnesota, and Montana, the following requirements will be observed:

*North Dakota.*—Each applicant in North Dakota who applies for a loan for the purchase of seed, gas, oil, and minor repairs on farm equipment only, or for one or more of such purposes, shall execute a note for the amount of such loan and secure the repayment of such loan by a Crop Lien; each applicant in such state who applies for a loan for any or all of the above purposes and for other purposes in addition thereto, shall execute a note for the total amount of such loan and secure the repayment of such loan by a crop mortgage and also shall execute a Crop Lien to secure the repayment of that part of such loan which is proposed to be used for the purchase of seed, gas, oil, and minor repairs on farm equipment, or for one or more of such purposes;

*Minnesota.*—Each applicant in Minnesota who applies for a loan, either for the purchase of seed only or for the purchase of seed *and* for other purposes, shall execute a note for the total amount of such loan and secure the repayment of the entire loan by a crop mortgage, and in addition thereto shall execute a seed lien to secure the repayment of that part of such loan which is proposed to be used for the purchase of seed.

*South Dakota and Montana.*—Each applicant in the States of South Dakota and Montana who applies for a loan for the purchase of seed only, shall execute a note for the amount of such loan and secure the repayment thereof by a seed lien; each applicant in the above states who applies for a loan to be used in part for seed and in part for other purposes shall execute a note for the total amount of such loan and secure the repayment thereof by a crop mortgage, and in addition thereto shall execute a seed lien to secure the repayment of that part of such loan which is proposed to be used for the purchase of seed.

(c) Lien instruments (including waivers) in the form prescribed, conveying a first lien or a promise and authority, properly executed and filed, registered or recorded in the proper office as required by local State law.

(d) A voucher for the amount of the loan in the form prescribed, signed by the applicant.

11. Fees for recording, filing, registration, and examination of records (including certificates) shall be paid by the borrower: Provided, however, that such fees aggregating not to exceed 75 cents per loan may be paid by him from the proceeds of the loan. No fees for releasing liens given to secure loans shall be paid from the proceeds of a loan.

12. The right is reserved to revoke, alter, or amend these regulations at any time and without notice.

[SEAL] W. I. MYERS,
*Governor, Farm Credit Administration.*

[File No. 46-30]

IN THE MATTER OF COMMONWEALTH EDISON COMPANY

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Commonwealth Edison Company, Chicago, Illinois, pursuant to Section 10 (a) (1) of the Public Utility Holding Company Act of 1935, for approval of the acquisition of all or any part of the following securities of the Public Service Company of Northern Illinois: 131,359 common shares, $60 par value; 538,548 common shares of no par value (stated value $60 per share); 100,000 6% cumulative preferred shares, $100 par value; and 63,576 7% cumulative preferred shares, $100 par value; at the ratio, for all common shares, of three shares of Commonwealth Edison Company common stock, par value $25 per share, for each share of Public Service Company of Northern Illinois common stock, and at a ratio for the preferred shares to be added by amendment at or prior to the hearing herein ordered, but in no case to be less than 3 nor more than 4 and 4/10ths shares of Commonwealth Edison Company common stock, par value $25, for each share of Public Service Company of Northern Illinois preferred stock;

It is ordered that a hearing on such matter be held on March 1, 1937, at 10 o'clock in the forenoon of that day at Room 1103, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 23, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[File No. 46-29]

IN THE MATTER OF COMMONWEALTH SUBSIDIARY CORPORATION

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Commonwealth Subsidiary Corporation, Chicago, Illinois, pursuant to Section 10 (a) (1) of the Public Utility Holding Company Act of 1935, for approval of the acquisition by it of an undetermined number of shares of the Commonwealth Edison Company in exchange for all of the following shares of stock of the Public Service Company of Northern Illinois now held by it: 37,160 shares of common stock, $60 par value, 204,110 common shares of no par value (stated value $60 per share), 7,526 6% cumulative preferred shares, $100 par value, and 16,805 7% cumulative preferred shares, $100 par value; at the ratio, for all common stocks, of three shares of Commonwealth Edison Company common stock of $25 par value for each share of common stock of Public Service Company of Northern Illinois, and at a ratio for the preferred stock to be added by amendment at or prior to the hearing herein ordered, but in no case to be less than 3 nor more than 4 and 4/10ths shares of Commonwealth Edison Company common stock, par value $25 per share, for each share of Public Service Company of Northern Illinois preferred stock; and

For approval of the acquisition by it of all or any part of 65,756 series B and C 6% cumulative preferred shares of the par value of $100 per share of the Western United Gas and Electric Company, and 66,704 6½% cumulative preferred shares of the par value of $100 per share of Western United Gas and Electric Company, in exchange for shares of common stock of the Commonwealth Edison Company, par value $25, at a ratio to be added by amendment at or prior to the hearing herein ordered, but in no case to be less than 2 and 9/10ths nor more than 3 and 9/10ths shares of Commonwealth Edison Company common stock, par value $25, for each share of preferred stock of the Western United Gas and Electric Company; and

For approval of the acquisition by it of all or any part of 46,828 6% cumulative preferred shares of the par value of $100 per share of Illinois Northern Utilities Company, and all or any part of 7,817 junior cumulative preferred shares of no par value (stated value $100 per share) of Illinois Northern Utilities Company in exchange for shares of common stock of Commonwealth Edison Company, par value $25, at a ratio to be added by amendment at or prior to the hearing herein ordered, but in no case to be less than 2 and 8/10ths nor more than 4 shares of Commonwealth Edison Company common stock, par value $25, for each share of preferred stock of Illinois Northern Utilities Company;

It is ordered that a hearing on such matter be held on March 1, 1937, at 10 o'clock in the forenoon of that day at Room 1103, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 23, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and

require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

[File No. 43-28]

IN THE MATTER OF THE DECLARATION OF AMERICAN PUBLIC SERVICE COMPANY

ORDER FIXING DATE FOR DECLARATION TO BECOME EFFECTIVE

American Public Service Company having filed with this Commission a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 with reference to the reduction of the par value of its common stock from one hundred dollars ($100) per share to eighty dollars ($80) per share, which will be followed by a reduction of its capital from $9,644,708 to $7,714,720, and regarding its issue of 96,434 shares of such common stock of such par value of $80 per share in exchange for a like number of shares of the present par value which it now has outstanding.

A public hearing on the declaration having been had after appropriate notice; the record in this matter having been examined, and the Commission having made and filed its findings herein:

It is ordered that said declaration be and become effective as of February 4, 1937 upon condition, however, that no certificates for shares of stock of the new par value shall be issued until all action by stockholders and by declarant necessary to make effective such reduction in par value shall have been taken.

By the Commission.

IN THE MATTER OF THE DECLARATION OF CENTRAL AND SOUTH WEST UTILITIES COMPANY

ORDER FIXING DATE FOR DECLARATION TO BECOME EFFECTIVE

Central and South West Utilities Company having filed with this Commission a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 with reference to the reduction of the par value of its common stock from one dollar ($1) per share to fifty cents (50¢) per share, which will be followed by a reduction of its capital from $24,229,757 to $1,686,368 and regarding its issue of 3,372,736 20/400 shares of such common stock having such par value of 50¢ per share in exchange for a like number of shares of the present par value which it now has outstanding.

A hearing on the declaration having been had after appropriate notice; the record in this matter having been examined, and the Commission having made and filed its findings herein;

It is ordered that said declaration be and become effective as of February 4, 1937 upon condition, however, that no certificates for shares of stock of the new par value shall be issued until all action by stockholders and by declarant necessary to make effective such reduction in par value shall have been taken.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 4th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE MANNING-BRYSON-YORK ET AL. FARM, FILED ON JANUARY 28, 1937, BY R. H. MANNING & COMPANY, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340(A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the phrase "or disapproved" is omitted from paragraph 2, Division I.

(2) In that Item 3 (b), Division II, apparently gives the names of the lessors of the property rather than the lessees and the size of the interest of each.

(3) In that insufficient information is given in Item 5 of Division II, in the absence of a copy of the drilling contract referred to.

(4) In that the answers to Items 7 and 8, Division II, by reference to Exhibit B, are not proper.

(5) In that, in view of the answer to Item 11, Division II, Item 12 appears incorrect.

(6) In that Items 14 (b), (c) and (d), Division II, in each instance omit to state the distance from the tract.

(7) In that Item 16 (a) (ii), Division II, misstates the rate of Gross Production Tax and of the Federal Excise Tax. Item 16 (b) misstates the agency to whom the Federal tax is payable.

(8) In that Item 17, Division II, is non-responsive.

(9) In that Item 18, Division II, is inconsistent with Item 5, Division II.

(10) In that Item 22, Division II, is unintelligible.

(11) In that Item 24 (a), Division II, is unintelligible and non-responsive.

(12) In that Item 25, Division II, appears inconsistent with Exhibit B.

(13) In that the signature, corporate seal, attest and date are omitted from the sheet.

(14) In that Exhibit A does not comply with the regulations in that the surrounding area and the proposed location are not shown. There are two documents attached showing certain areas apparently involved in this offering. They do not indicate their relationship as to location.

(15) In that the Exhibit B attached marked "assignment of oil and gas lease" does not show the terms and conditions to which it is subject if Items 3 (d), 5, 18, 24, 24 (c), and 25 of Division II are correct.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 5th day of March 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and hereby is designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 18th day of February 1937 at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## PRESIDENT OF THE UNITED STATES.

EXECUTIVE ORDER

ENFORCEMENT OF THE CONVENTION FOR SAFETY OF LIFE AT SEA, 1929

WHEREAS under Article I of the Convention for Safety of Life at Sea, signed at London on May 31, 1929, ratified by the United States of America, and proclaimed by the President on September 30, 1936 (Treaty Series No. 910), the Government of the United States of America, together with the Governments of the other countries which have become parties to the Convention, undertakes to give effect to the provisions of the Convention, to promulgate all regulations and to take all other steps which may be necessary to give it full and complete effect; and

WHEREAS it is expedient and necessary, in order that the Government of the United States of America may give full and complete effect to the said Convention, that several departments and agencies of the executive branch of the said Government exercise functions and perform duties thereunder; and

WHEREAS the following arrangement with reference to the administration of matters affecting radio was approved by the Federal Communications Commission on September 29, 1936, and concurred in by the Secretary of Commerce on October 12, 1936:

"By reason of ratifying the Convention the United States accepted certain obligations with respect to matters which, under the statutes fixing the powers and duties of the Department and the Commission, are subjects of separate jurisdiction. The Convention is self-executing, at least in large part, and a problem as to the division of duties and responsibilities in the matter of administering the Convention arises in the absence of specific legislation by Congress.

"The Convention provides for the issuance of three classes of certificates, i. e., Safety Certificates, Safety Radiotelegraph Certificates and Exemption Certificates. It is recognized that the issuance of each one of these classes of certificates involves determination on the part of both the Commission and the Department of Commerce. In view of this fact, it would appear that, legally, they might be issued by either agency, or jointly, based on separate determinations. In the interest of economy and in order to serve the convenience of the Government and the public, it has been agreed that provision is to be made for the issuance of all certificates through the Department of Commerce.

"However, the decision of the Commission in all matters affecting the use of radio on board ships subject to the Safety Convention will be final and binding, in so far as the Executive branch of the Government is concerned. In the event of hearings or legal proceedings involving radio installations, hearings are to be conducted by and in accordance with the Rules and Regulations of the Commission, and the Commission is to assume and have responsibility for the defense of its orders and rulings before the Courts and also for prosecutions resulting from violations of the radio provisions of the Convention. The Commission will make the necessary radio inspections, on application to be made to it by the ship owner or other person responsible for the operation of the vessel. Upon

approval by the Commission of the radio installation or approval by the Commission of a request for exemption, the appropriate certificate will be issued by the Department of Commerce.

"The Department of Commerce is to inspect for and finally decide all matters arising under the Convention except those relating to radio installations.

"In the event that any question arises with regard to a matter affecting the stability or navigability of the vessel and which also affects the determination of whether a certificate shall be issued under the radio provisions of the Convention, the Commission shall first ascertain from the Department of Commerce whether it approves and its decision with respect thereto shall be final. As an example, the Department of Commerce shall decide whether the location of the radio station on board ship complies with the Convention.

"It is, of course, recognized that cases will arise in which the respective jurisdiction of the Commission and the Department cannot readily be determined, and the foregoing agreement shall serve as a guide in dealing with these cases as they arise."

NOW, THEREFORE, by virtue of and pursuant to the authority vested in me as President of the United States of America, I hereby confirm the said arrangement, and direct the Department of State, the Department of Commerce (Bureau of Marine Inspection and Navigation), the Treasury Department (Coast Guard), the Department of Agriculture (Weather Bureau), and the Federal Communications Commission, respectively, in relation to the fulfillment of the obligations undertaken by the Government of the United States of America under the said Convention for Safety of Life at Sea, and subject to the aforesaid arrangement, to exercise the functions and perform the duties therein prescribed and undertaken which appertain to the functions and duties which they severally are now directed or authorized by law to perform.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
*February 5, 1937.*

[No. 7548]

## WAR DEPARTMENT.

### RULES AND REGULATIONS TO GOVERN THE OPENING OF DRAWBRIDGES ACROSS MANASQUAN RIVER, ITS NAVIGABLE TRIBUTARIES, AND BAYHEAD-MANASQUAN CANAL

#### THE LAW

The River and Harbor Act of August 18, 1894, contains the following section:

SEC. 5. That it shall be the duty of all persons owning, operating, and tending the drawbridges now built, or which may hereafter be built across the navigable rivers and other waters of the United States, to open, or cause to be opened, the draws of such bridges under such rules and regulations as in the opinion of the Secretary of War the public interests require to govern the opening of drawbridges for the passage of vessels and other water crafts, and such rules and regulations, when so made and published, shall have the force of law. Every such person who shall willfully fail or refuse to open, or cause to be opened, the draw of any such bridge for the passage of a boat or boats, or who shall unreasonably delay the opening of said draw after reasonable signal shall have been given, as provided in such regulations, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not more than two thousand dollars nor less than one thousand dollars, or by imprisonment (in the case of a natural person) for not exceeding one year, or by both such fine and imprisonment, in the discretion of the court: *Provided*, That the proper action to enforce the provisions of this section may be commenced before any commissioner, judge, or court of the United States, and such commissioner, judge or court shall proceed in respect thereto as authorized by law in case of crimes against the United States: *Provided further*, That whenever, in the opinion of the Secretary of War, the public interests require it, he may make rules and regulations to govern the opening of drawbridges for the passage of vessels and other water crafts, and such rules and regulations, when so made and published, shall have the force of law, and any violation thereof shall be punished as hereinbefore provided.

#### THE REGULATIONS

In pursuance of the foregoing law, the following regulations are prescribed to govern the opening of all drawbridges spanning Manasquan River, its navigable tributaries, and the Bayhead-Manasquan Canal:

1. The owners of, or agencies controlling, drawbridges shall provide the appliances and the personnel necessary for the safe, prompt, and efficient operation of the draws.

2. Drawbridges shall be opened promptly for the passage of any vessel or other water craft unable to pass under the closed spans, except as hereinafter provided.

3. *Signals.*—

*Call Signals for Opening of Draw*

*Sound Signal.*—Three distinct blasts of a whistle, horn, or megaphone, or 3 loud and distinct strokes of a bell, sounded within a reasonable hearing distance of the bridge.

*Visual Signal.*—To be used in conjunction with sound signals when conditions are such that sound signals can not be heard.

A white flag by day, a white light by night, swung in full circles at arm's length in full sight of the bridge and facing the draw.

*Acknowledging Signals*

*By bridge operator.*—

*Sound Signals.*—Draw to be opened immediately: Same as call signal.

Draw cannot be opened immediately, or, if open, must be closed immediately: 2 long distinct blasts of a whistle, horn or megaphone, or 2 loud and distinct strokes of a bell, to be repeated at regular intervals until acknowledged by the vessel.

*Visual Signals.*—Draw to be opened immediately: A white flag by day or a green light at night swung up and down vertically a number of times in full sight of the vessel.

Draw cannot be opened immediately, or, if open, must be closed immediately: A red flag by day, a red light by night, swung to and fro horizontally in full sight of the vessel, to be repeated until acknowledged by the vessel.

*By the vessel.*—Vessels or other water craft having signaled for the opening of the draw and having received a signal that the draw cannot be opened immediately, or if open must be closed immediately, shall acknowledge said signal by one long blast followed by a short blast, or by swinging to and fro horizontally a red flag by day and a red light by night.

4. Trains, automobiles, trucks, and other vehicles, vessels or other water craft shall not be stopped or manipulated in a manner hindering or delaying the operation of any draw, but all passage over drawspans or through draw openings shall be so as to expedite both land and water traffic.

5. The owners of, or agencies controlling, all bridges shall provide and keep in good legible condition two board gauges painted white, with black figures not less than 8 inches high, to indicate the headroom clearance under the closed drawspan at all stages of the tide. The gauges shall be so placed on the bridge that they will be plainly visible to the operator of the vessel approaching the bridge either up or down stream.

6. Drawbridges shall not be required to open for craft carrying appurtenances unessential for navigation which extend above the normal superstructure. Military masts shall be considered as part of the normal superstructure.

Upon request, the district engineer in charge of the locality will cause inspection to be made of the superstructure and appurtenances of any craft habitually frequenting these waterways, with a view to adjusting any differences of opinion in this matter between the vessel owner and the bridge owner.

7. A copy of these regulations shall be conspicuously posted on both the upstream and downstream sides of the bridge in such a manner that it can be easily read at any time.

8. These regulations shall take effect and be in force on and after the date of approval hereof.

Approved, January 18th, 1937.

[SEAL] HARRY H. WOODRING,
*Secretary of War.*

[F. R. Doc. 37-385; Filed, February 8, 1937; 10:38 a. m.]

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

NER—B-101—New York Issued February 5, 1937

### 1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

#### BULLETIN NO. 101—NEW YORK

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made, in connection with the effectuation of the purposes of section 7 (a) of said Act for 1937, in accordance with the following provisions of this bulletin No. 101 for New York, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this bulletin is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment and the allowances herein set forth are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation by farmers in all regions. Such rates of payment and allowances may be increased or decreased, depending upon the extent of participation, but such variations will not be in excess of 10 percent.

*Part I. Payment for Soil-Building Practices*

Under the 1937 Agricultural Conservation Program, New York farmers who carry out soil-building practices that they select from the list below will be repaid a part of the cost. The amount of payment for performing each practice is stated with the description of practices in this Part I.

Payment will be dependent upon the practice being performed in accordance with the generally accepted standards of good farming practice with the use of the kinds and quantities of seeds and other materials which are normally employed to obtain good results. Each farmer contemplating applying for payment for carrying out any of the soil-building practices listed below should ascertain in advance, from instructions issued through his county committee, whether the intended practice can be certified as practical under the local conditions applicable to his farm. Such instructions will be applicable to particular areas or farms and will set forth which of such practices are economically justified in such areas or on such farms and the proper kinds and quantities of seeds or other materials or substitutes to be used in order properly to carry out the practice.

Payment under the 1937 Program will be restricted to practices carried out before December 1, 1937.

If a practice calls for the use of specific materials (such as limestone) a farmer may qualify for payment by substituting equivalent amounts of any other approved material which serves the same purpose.

No payment will be made for a practice carried out on any acreage if labor, seed, or other materials used in carrying out the practice are furnished free or paid for by a State or Federal agency.

A farmer may earn soil-building payments up to the limit of his soil-building allowance. If the total of the payments qualified for is larger than his allowance, he will receive an amount equal to his allowance, which shall be determined in accordance with the provisions of part II of this bulletin.

Practice Number and Description of Practice and Rate of Payment

FERTILIZING AND SEEDING

The following rates of payment will apply if the specified materials are used in accordance with the instructions given for the practices:

1. *Pulverized limestone.*—Payment: In Area A, $3.00 per ton; In Area B, $4.00 per ton.

Area A includes: All the State except Long Island and Staten Island.

Area B includes: Long Island and Staten Island.

2. *20 percent superphosphate.*—Payment, 80 cents per 100 pounds.

When used in connection with a seeding made with small grains or peas as a nurse crop which is harvested for grain or peas for canning, payment will be made only on the quantity of 20 percent superphosphate which is in excess of 160 pounds per acre.

3. *60 percent muriate of potash.*—Payment, $1.80 per 100 pounds.

4. *Wild white clover seed.*—Payment, $1.00 per acre.

5. *Cornell Pasture Mixture.*—Payment, $3.00 per acre.

6. *Approved red or alsike clover seed.*—Payment, $2.00 per acre.

7. *Approved alfalfa seed.*—Payment, $3.00 per acre.

IMPROVING AND ESTABLISHING PASTURES

Applying not less than the following quantities of the following materials or their equivalent per acre on pasture land or on land in preparation for seeding wild white clover or Cornell Pasture Mixture and seeding land to wild white clover or Cornell Pasture Mixture.

Applying from 400 to 600 pounds of 20 percent superphosphate per acre; or

Seeding not less than one pound of wild white clover seed per acre, and applying to the same land from 400 to 600 pounds of 20 percent superphosphate per acre; or

Seeding not less than 25 pounds of Cornell Pasture Mixture per acre, and applying to the same land from 400 to 600 pounds of 20 percent superphosphate per acre; or

Applying to the same land from 2,000 to 4,000 pounds of pulverized limestone per acre and from 400 to 600 pounds of 20 percent superphosphate per acre; or

Applying to the same land from 2,000 to 4,000 pounds of pulverized limestone per acre and from 400 to 600 pounds of 20 percent superphosphate per acre, and seeding on the same land at least one pound of wild white clover seed per acre; or

Applying to the same land from 2,000 to 4,000 pounds of pulverized limestone and from 400 to 600 pounds of 20 percent superphosphate, and seeding on the same land at least 25 pounds of Cornell Pasture Mixture per acre when a new seed bed has been prepared by harrowing or plowing.

IMPROVING ESTABLISHED HAY LANDS

Applying not less than the following quantities of the following materials or their equivalent per acre on established hay land:

Applying from 400 to 600 pounds of 20 percent superphosphate per acre.

ESTABLISHING NEW SEEDINGS OF GRASSES AND LEGUMES

Applying, at or before the time of seeding, not less than the following quantities of the following materials or their equivalent per acre on crop land and seeding the same land either to legumes or to grass and legume mixtures containing at least 40 percent by weight of legume seeds. Seedings may be made either without a nurse crop or with a nurse crop of oats, barley, peas, wheat, rye, or a mixture of any two or more of these:

Applying from 300 to 600 pounds of 20 percent superphosphate per acre; or

Applying to the same land from 300 to 600 pounds of 20 percent superphosphate per acre and 50 to 200 pounds of 60 percent muriate of potash per acre; or

Applying to the same land from 2,000 to 4,000 pounds of pulverized limestone and from 300 to 600 pounds of 20 percent superphosphate per acre; or

Applying to the same land from 2,000 to 4,000 pounds of pulverized limestone, from 300 to 600 pounds of 20 percent superphosphate, and from 50 to 200 pounds of muriate of potash per acre; or

Seeding approved clover seed (red or alsike) or mixtures containing at least 40 percent by weight of approved clover seed (red or alsike) per acre using the amount of seed per acre which constitutes an approved seeding practice on land prepared for seeding by the application of the approved amounts of lime and/or superphosphate; or

Seeding approved alfalfa seed using an amount per acre which constitutes an approved seeding practice on land prepared for seeding by the application of the approved amounts of lime and/or superphosphate.

LIMING

Applying 2,000 to 4,000 pounds of pulverized limestone or its equivalent per acre to crop land in preparation for a legume seeding.

FERTILIZING GREEN-MANURE CROPS

Applying from 300 to 600 pounds of 20 percent superphosphate per acre to any of the crops specified in practice 8 or 9 below; or

Applying from 2,000 to 4,000 pounds of pulverized limestone or its equivalent per acre to any of the crops specified in practice 8 or 9 below.

SUPERPHOSPHATE APPLIED IN FARM MANURE

Incorporating 20 percent superphosphate or its equivalent into animal or poultry manure and applying such manure to pastures or hayland, or to land in preparation for the establishment of new seedings of grasses and legumes, so that the superphosphate will be applied in quantities within the limits specified in the foregoing instructions under the headings, *"Improving and Establishing Pastures", "Improving Established Hay Lands" "Establishing New Seedings of Grasses and Legumes"*, and *"Fertilizing Green-manure Crops"*.

GREEN-MANURE AND COVER CROPS

8. Plowing or disking under small grains or annual grasses, or mixtures of these with legumes, after all have attained at least two months' or 12 inches' growth.

Payment, $1.50 per acre.

9. Plowing or disking under biennial or perennial legumes from which no crop has been harvested and for which no seeding payment will be or has been made under this or any previous program, and which have attained at least two months' or 12 inches' growth, or annual legumes which have attained such growth.

Payment, $2.50 per acre.

The rate of payment will be doubled for practices 8 and 9 above when carried out on land normally devoted to commercial vegetables so that the green-manure crop replaces at least one crop of commercial vegetables in 1937.

When annual grains are clipped green and left on land normally devoted to commercial vegetables from which no crop is removed in 1937, and followed by legume crops specified in practice 9 which occupy such land throughout the remainder of the 1937 growing season, such clipping of the small grains may be substituted for the plowing or disking under in practice 9, and the provisions of the last preceding paragraph shall be applicable.

Leaving the entire crop on the land during the winter may be substituted for the plowing or disking under in practice 8 or 9 if the crop is one that is normally winter-killed.

FRUIT LAND

Practices 8 and 9 and the paragraphs under the heading *"Fertilizing Green-manure Crops"* will also apply with respect to commercial orchards.

10. Applying to land used for commercial orchards not less than 3 tons of air-dry mulching material or its equivalent per acre, in addition to leaving in the orchard all material produced therein during 1937 from grass, legume, green-manure, or cover crops.

Payment, $2.00 per ton on an amount not in excess of 5 tons per acre.

11. Increasing, on a farm in a commercial fruit area, the acreage of biennial or perennial legumes, or mixtures of these with grasses, not in orchards, above the combined acreage of such crops normally grown on such farm, when the increase is accompanied by the removal of all trees from an acreage of unproductive orchard equal to that on which the increase in the above conserving crops was made.

Payment, $10.00 per acre.

12. Establishing, on a farm in a commercial vineyard area, an acreage of biennial or perennial legumes, or mixtures of these with grasses, on unproductive vineyard land from which all vines have been removed in 1937.

Payment, $5.00 per acre.

13. Applying not less than 200 pounds of 16 percent nitrate of soda or its equivalent per acre over the entire acreage of any orchard or vineyard interplanted to sod or cover crops, and leaving such interplanted sod or cover crops in their entirety on the land.

Payment, $1.00 per acre.

WOODLANDS

14. Improving the stand of forest trees by cutting weed trees or thinning other trees, to develop at least 100 potential timber trees of desirable species well distributed over an acre of woodland. Operators shall obtain approval through the county committee before performing this practice.

Payment, $3.00 per acre.

15. Constructing fence consisting of not less than two strands of barbed wire with posts or other suitable supports not more than one rod apart, for the purpose of excluding livestock from farm woodlands previously used for pasture.

Payment, 15 cents per rod.

16. Constructing fence consisting either of not less than three strands of barbed wire, or woven wire at least 24 inches high with not less than one strand of barbed wire, with posts or other suitable supports not more than one rod apart, for the purpose of excluding livestock from farm woodlands previously used for pasture.

Payment, 20 cents per rod.

17. Planting nursery grown forest trees or lifted wild stock at the rate of not less than 1,000 trees per acre on open farm land. When white pine plantings are made, currant and gooseberry bushes within 1,000 feet of the planting site must be removed.

Payment, $10.00 per acre.

CONTROLLING SOIL EROSION

18. Cultivating on the contour. This practice shall be carried out according to plans approved in advance by the county committee based upon the recommendation of the Soil-Conservation Service.

Payment, $2.00 per acre so cultivated.

19. Planting approved shrubs not more than one foot apart in parallel rows not more than 250 feet apart on muck or sandy soils. Operators shall obtain approval through the County Committee before performing this practice.

Payment on land protected, $1.00 per acre.

20. Planting grain or grain mixtures in parallel strips not more than 30 feet apart at right angles to the direction of the prevailing wind, on muck or sandy soils, with each strip consisting of two or more rows of small grain or grain mixtures not more than one foot apart, with the grain permitted to grow until the interplanted crops have attained at least eight weeks' growth.

Payment on land protected, $.25 per acre. Payments will be made for a combination of practices (19) and (20) on the same land when prior approval through the County Committee has been obtained.

*Part II. The Soil-Building Allowance*

The soil-building allowance for any farm is the maximum amount that may be paid for carrying out soil-building practices on that farm. It shall be the sum of such of the following items as are applicable to that farm. The allowance, however, shall be at least $20.00.

1. *Crop land.*—$1.00 for each acre of crop land, excluding commercial orchards, on the farm on January 1, 1937.

2. *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

3. *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936; $2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

4. *Non-crop pasture land.*—$.35 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

*Part III. Provisions Affecting Payments*

SECTION 1. *Association Expenses.*—Under such rules as the Secretary may prescribe there shall be deducted from the payment to any person with respect to a farm or farms in a county all or such part as the Secretary may prescribe of such person's pro rata share of the estimated administrative expenses incurred and to be incurred by the County Agricultural Conservation Association of the county in which such farm or farms are located.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the sum of $2.00 per application for that number of applications submitted by members of such association under which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SECTION 2. *Increase in Acreage of General Soil-Depleting Crops.*—The Secretary reserves the right in the case of any farm which in 1937 has an acreage of general soil-depleting crops in excess of 20 acres to make a deduction from any payment that would otherwise be made for such farm in the amount of $10.50 for each acre by which such 1937 acreage of general soil-depleting crops exceeds the general soil-depleting base which can be established for such farm. If in 1937 the Secretary exercises the right to make deductions reserved herein with respect to such farms, the procedure to be followed for the establishment of bases shall be in accordance with such instructions as may be issued by the Secretary.

SECTION 3. *Applicability to Farms Under Special Program.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In the event that any such county or other area is designated, the allowances, rates, and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the State bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for carrying out such soil-building practices as are, prior to performance, approved for the farm by the county committee in accordance with instructions issued by the Secretary.

SECTION 4. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made to any person may be withheld if any rotation, cropping, or other practice is adopted by such person which the Secretary determines tends to defeat the purposes of the 1937 Agricultural Conservation Program.

*Part IV. Miscellaneous Provisions*

SECTION 1. In order for a farmer to be eligible for participation in the 1937 Agricultural Conservation Program he must execute such forms and submit such information as may be prescribed. Such forms and information shall be filed with the county committee within time limits established by the State committee with the approval of the Director of the Northeast Division.

SECTION 2. *Land to be Included under an Application.*—An application for payment shall cover neither more nor less than a single farm as defined in Part V of this bulletin.

SECTION 3. *Application and Eligibility for Payment.*—(a) Payment will be made only upon application on the prescribed form, filed with the county committee within the time fixed by the Secretary, supported by such information regarding farming operation as may be required.

(b) An application for payment may be made by any producer who is entitled to receive all or a share of the crops produced on the farm in 1937 or of the proceeds thereof or who incurs all or any part of the expense of soil-building practices carried out on the farm.

(c) For the purpose of determining the eligibility of a producer for a payment where the farm operated by him includes land located in two or more adjoining counties, such farm shall be regarded as located in the county in which the principal dwelling on such farm is located, or, if there is no dwelling on such farm, such farm shall be regarded as located in the county in which the major portion of such farm is located.

SECTION 4. *Division of Payments.*—(a) The soil-building payment with respect to the farm covered by an application for payment shall be divided among the producers concerned, in the proportion that the county committee determines that the expense incurred by each in carrying out the soil-building practices bears to the total expense incurred by all such producers in carrying out such practices.

(b) Any payment for a farm shall be computed without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of any creditor.

SECTION 5. *Membership in Association.*—Any person having an interest in the crops or the proceeds thereof produced on any farm in the county in 1937 shall become a member of the County Agricultural Conservation Association of the county whenever any form or information required in connection with the Agricultural Conservation Program for 1937 is submitted for such farm, or whenever in 1937 he attends a meeting called for the purpose of electing committeemen. Any person shall cease to be a member of the association if in 1937 an application for payment is not filed by him within the time specified by the Secretary for the filing of applications.

SECTION 6. *Limits.*—The sum of the commercial fruit acreages, the commercial vegetable acreages, the commercial double-cropped vegetable acreages, the acreages of non-crop open pasture land, and the acreages of total crop land, respectively, established for farms in any county or other specified area, shall not exceed the acreage of such crops and uses which the Agricultural Adjustment Administration may establish for such county or other specified area.

SECTION 7. *Tobacco.*—The statements in this bulletin apply to all farms in New York except those farms for which tobacco bases are established in 1937. Bulletin No. 101A for New York, to be issued separately, describes the program as it applies to those farms. For such farms the soil-building allowance and certain rates of payment will differ from those prescribed herein.

*Part V. Definitions*

As used herein, and in all forms and documents relating to the 1937 Agricultural Conservation Program in the Northeast Region, the term—

*Secretary* means the Secretary of Agriculture of the United States.

*Northeast Region* means the area included in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania.

*Northeast Division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Northeast Region.

*State Agricultural Conservation Committee* or *State Committee* means the group of persons designated to assist in the administration of the 1937 Agricultural Conservation Program in the State of New York.

*County Agricultural Conservation Committee* or *County Committee* means the group of persons designated to assist in the administration of the 1937 Agricultural Conservation Program in the county.

*Person* means an individual, partnership, association, trust, estate, or corporation, and wherever applicable a State, a political subdivision of a State, or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Producer* means any person who is entitled to receive all or a portion of the crops produced on any farm or the proceeds thereof.

*Farm* means all land in a county (or regarded as being in a county) which in 1937 is under the operating control of one person by reason of ownership, lease, or otherwise; *provided*, that a tract of land shall not be considered all or part of a farm unless the county committee finds, from a consideration of such factors as size of unit, amount of labor applied, nature of farming operations, and practices carried out, that the participation of such land in the 1937 Agricultural Conservation Program would tend to promote the purposes of the Act through the economic use and conservation of the land and through the preservation and improvement of its fertility for agricultural purposes.

*Crop land* is farm land which is tillable and on which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and any other farm land devoted on January 1, 1937, to fruit orchards, vineyards, or cultivated bush fruits other than those abandoned.

*Commercial orchards* means the acreage in tree fruits, cultivated nut trees, vineyards, or cultivated bush fruits, on the farm on January 1, 1937, from which the principal part of the production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of the production will be sold in 1937 or later.

*Commercial vegetables* means the acreage of vegetables or truck crops (including among others potatoes, sweetpotatoes, melons, cantaloups, and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of the production was sold off the farm in 1936.

*Open non-crop pasture* means fenced non-crop pasture land of a carrying capacity during the normal pasture season of at least one animal unit for each five acres, on which the predominant growth is forage suitable for dairy animals, and on which the number or grouping of any trees or shrubs is such that the land could not fairly be considered as woodland.

*Animal unit* means one cow, one horse, five sheep, five goats, two calves, or two colts, or the equivalent thereof.

*Soil-building payment* means a payment for the carrying out of the soil-building practices specified in part I hereof.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 5th day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-387; Filed, February 8, 1937; 12:24 p. m.]

NER—B-101—Pennsylvania Issued February 5, 1937

## 1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

### BULLETIN NO. 101—PENNSYLVANIA

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made, in connection with the effectuation of the purposes of section 7 (a) of said Act for 1937, in accordance with the following provisions of this bulletin No. 101 for Pennsylvania, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this bulletin is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment and the allowances herein set forth are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation by farmers in all regions. Such rates of payment and allowances may be increased or decreased, depending upon the extent of participation, but such variations will not be in excess of 10 percent.

### *Part I. Payment for Soil-Building Practices*

Under the 1937 Conservation Program, Pennsylvania farmers who carry out soil-building practices that they select from the list below will be repaid a part of the cost. The amount of payment for performing each practice is stated with the description of practices in this part I.

Payment will be dependent upon the practice being performed in accordance with the generally accepted standards of good farming practice with the use of the kinds and quantities of seeds and other materials which are normally employed to obtain good results. Each farmer contemplating applying for payment for carrying out any of the soil-building practices listed below should ascertain in advance, from instructions issued through his county committee, whether the intended practice can be certified as practical under the local conditions applicable to his farm. Such instructions will be applicable to particular areas or farms and will set forth which of such practices are economically justified in such areas or on such farms and the proper kinds and quantities of seeds or other materials or substitutes to be used in order properly to carry out the practice.

Payment under the 1937 program will be restricted to practices carried out before December 1, 1937.

If a practice calls for the use of specific materials (such as limestone) a farmer may qualify for payment by substituting equivalent amounts of any other approved material which serves the same purpose.

No payment will be made for a practice carried out on any acreage if labor, seed, or other materials used in carrying out the practice are furnished free or paid for by a State or Federal Agency.

A farmer may earn soil-building payments up to the limit of his soil-building allowance. If the total of the payments qualified for is larger than his allowance, he will receive an amount equal to his allowance, which shall be determined in accordance with the provisions of part II of this bulletin.

Practice Number, Description of Practice, and Rate of Payment

#### WOODLANDS

Planting evergreen or deciduous forest trees at the rate of at least 1,000 trees per acre. The trees shall be evenly distributed approximately 6 feet apart and shall be adequately protected against livestock grazing.

Payment for several areas each smaller than one (1) acre will be made, provided the total of all such small areas on the farm is equal to one-half (½) acre or more.

1. Payment for planting seedlings, per acre, $6.00.
2. Payment for planting transplants, per acre, $10.00.

#### FENCING

3. Constructing fence consisting of at least two strands of wire with posts or other suitable supports not more than one rod apart, for the purpose of excluding livestock from woodland previously used for pasture.

Payment per rod of fence constructed, $0.10.

4. Constructing fence consisting of not less than three strands of wire, or of woven wire at least 24 inches high with not less than one strand of barbed wire, and with posts or other suitable supports not more than one rod apart, for the purpose of excluding livestock from woodland previously used for pasture.

Payment per rod of fence constructed, $0.15.

#### SEEDING LAND TO PERMANENT PASTURE OR ESTABLISHING NEW PASTURES OR PERMANENT SOD WATERWAYS

Applying on crop or pasture land, either at or before the time of seeding, not less than the following quantities of the following materials or their equivalent [1] per acre and seeding such land between March 1, 1937, and October 31, 1937, to at least 18 pounds per acre of a pasture mixture containing at least 6 pounds per acre of approved varieties of clover seed (such seedings not to be used for green-manure):

5. Seeding, without the application of fertilizer either because sufficient superphosphate was applied in 1936 or because satisfactory soil tests or other evidence indicate that treatment is unnecessary.

Payment per acre, $2.00.

6. Seeding, and applying either (a) 200 pounds of 16 percent superphosphate or (b) a mixture containing 37 lbs. of 16 percent nitrate, 225 lbs. of 16 percent superphosphate, and 24 lbs. of 50 percent muriate of potash.

Payment per acre, $4.00.

7. Seeding with a nurse crop harvested for grain or hay, and applying fertilizer as provided in practice 6 above.

Payment per acre, $2.75.

Payment will be made for performing practice 5, 6, or 7 only on soils where lime is not required because of previous application under the 1936 Agricultural Conservation Program or because a lime requirement test shows a lime requirement of less than 2,000 lbs. of pulverized limestone per acre.

8. Seeding, and applying either (a) 2,000 pounds of pulverized limestone [2] and 300 pounds of 16 percent superphosphate or (b) 2,000 pounds of pulverized limestone [2] and a mixture containing 37 lbs. of 16 percent nitrate, 225 lbs. of 16 percent superphosphate, and 24 lbs. of 50 percent muriate of potash.

Payment in Area A,[3] per acre, $7.50.

Payment in Area B, per acre, $7.00.

9. Seeding with a nurse crop harvested for grain or hay, and applying lime and fertilizer as provided in practice 8 above.

Payment, In Area A,[3] per acre, $6.25.

Payment, In Area B, per acre, $5.75.

10. Seeding, and applying either (a) 3,000 pounds of pulverized limestone [2] and 300 pounds of 16 percent superphosphate, or (b) 3,000 pounds of pulverized limestone [2] and a mixture containing 37 lbs. of 16 percent nitrate, 225 lbs. of 16 percent superphosphate, and 24 lbs. of 50 percent muriate of potash.

Payment, In Area A,[3] per acre, $9.25.

Payment, In Area B, per acre, $8.50.

---

[1] The equivalent of 2,000 pounds of pulverized limestone is either (1) 4,000 pounds of ground limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 10-mesh sieve and 25 percent of which will pass through a 100-mesh sieve, or (2) 1,400 pounds of hydrated lime, or (3) 1,000 pounds of ground burned lime, or (4) 2,000 pounds of lump burned lime, or (5) 4,000 pounds of agricultural slag, or (6) 2,000 pounds of artificial carbonate of lime, pulverized oyster shell or lime marl, containing at least 80 percent carbonates, or 4,000 pounds of lime marl, not artificially dried.

The equivalent of 16 percent nitrate of soda, 16 percent superphosphate, or 50 percent muriate of potash, is a quantity of materials, other than manure, containing quantities of nitrogen, phosphoric acid, or potash, or combinations of these, equal in weight and quality to that contained in the specified amount of 16 percent nitrate of soda, 16 percent superphosphate, or 30 percent muriate of potash.

[2] Pulverized limestone is limestone which will analyze at least 80 percent carbonates, 100 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

[3] Area A includes: Bradford, Cameron, Carbon, Crawford, Erie, Forest, Lackawanna, Luzerne, McKean, Pike, Potter, Schuylkill, Sullivan, Susquehanna, Tioga, Warren, Wayne, and Wyoming counties.

Area B includes: All other counties in the State.

11. Seeding with a nurse crop harvested for grain or hay, and applying lime and fertilizer as provided in practice 10 above.

Payment, In Area A,[3] per acre, $8.00.

Payment, In Area B, per acre, $7.25.

#### IMPROVING ESTABLISHED PASTURES

Applying, to established grasses and legumes on land devoted to permanent pasture, not less than the following quantities of the following materials or their equivalent [1] per acre.

12. Applying either (a) 2,000 pounds of pulverized limestone [2] and 400 lbs. of 16 percent superphosphate, or (b) 2,000 pounds of pulverized limestone [2] and a mixture containing 85 lbs. of 16 percent nitrate of soda, 260 lbs. of 16 percent superphosphate and 28 lbs. of 50 percent muriate of potash.

Payment, In Area A,[3] per acre, $6.00.

Payment, In Area B, per acre, $5.50.

13. Applying either (a) 3,000 pounds of pulverized limestone [2] and 400 pounds of 16 percent superphosphate or (b) 3,000 pounds of pulverized limestone [2] and a mixture containing 85 lbs. of 16 percent nitrate of soda, 260 lbs. of 16 percent superphosphate, and 28 lbs. of 50 percent muriate of potash.

Payment, In Area A[3], per acre, $7.75.

Payment, In Area B, per acre, $7.00.

14. Applying either (a) 4,000 pounds of pulverized limestone [2] and 400 pounds of 16 percent superphosphate or (b) 4,000 pounds of pulverized limestone [2] and a mixture containing 85 lbs. of 16 percent nitrate of soda, 260 lbs. of 16 percent superphosphate, and 28 lbs. of 50 percent muriate of potash.

Payment, In Area A[3], per acre, $9.50.

Payment, In Area B, per acre, $8.50.

15. Applying either (a) 400 pounds of 16 percent superphosphate or (b) a mixture containing 85 lbs. of 16 percent nitrate of soda, 260 lbs. of 16 percent superphosphate, and 28 lbs. of 50 percent muriate of potash, on those lands to which lime was applied under the 1936 Agricultural Conservation Program or where a lime requirement test shows a requirement of less than 2,000 pounds of pulverized limestone per acre.

Payment, per acre, $2.50.

#### ESTABLISHING NEW SEEDINGS OF ALFALFA OR MIXTURES OF ALFALFA AND OTHER CLOVERS AND GRASSES

Applying, at or before the time of seeding, not less than the following quantities of the following materials or their equivalent [1] per acre, and seeding such land between February 1, 1937, and October 31, 1937, with either (a) at least 15 pounds per acre of approved varieties of alfalfa seed or (b) a mixture containing at least 8 pounds of approved varieties of alfalfa seed, 4 pounds of approved varieties of clover, and 4 pounds of timothy seed, per acre, provided that the timothy may have been seeded in the fall of 1936 (none of above seedings to be used for green manure):

16. Seeding, without the application of fertilizer either because sufficient superphosphate was applied in 1936 or because satisfactory soil tests or other evidence indicate that treatment is unnecessary.

Payment, per acre, $3.00.

17. Seeding, and applying either (a) 300 pounds of 16 percent superphosphate or (b) a mixture containing not less than 250 pounds of 16 percent superphosphate and 30 pounds of 50 percent muriate of potash.

Payment, per acre, $4.75.

18. Seeding with a nurse crop harvested for grain or hay, and applying fertilizer as provided in practice 17 above.

Payment, per acre, $3.50.

Payment will be made for performing practicc 16, 17, or 18 only on soils where lime is not required because of previous application under the 1936 Agricultural Conservation Program or because a lime requirement test shows it to be unnecessary.

19. Seeding, and applying either (a) 2,000 pounds of pulverized limestone [2] and 300 pounds of 16 percent superphos-

phate or (b) 2,000 pounds of pulverized limestone[2] and a mixture containing not less than 250 pounds of 16 percent superphosphate and 30 pounds of 50 percent muriate of potash.

Payment, In Area A[3], per acre, $7.75.

Payment, In Area B, per acre, $7.25.

20. Seeding with a nurse crop harvested for grain or hay and applying lime and fertilizer as provided in practice 19 above.

Payment, In Area A[3], per acre, $6.50.

Payment, In Area B, per acre, $6.00.

21. Seeding, and applying either (a) 3,000 pounds of pulverized limestone[2] and 300 pounds of 16 percent superphosphate or (b) 3,000 pounds of pulverized limestone[2] and a mixture containing not less than 250 pounds of 16 percent superphosphate and 30 pounds of 50 percent muriate of potash.

Payment, In Area A,[3] per acre, $9.25.

Payment, In Area B, per acre, $8.50.

22. Seeding with a nurse crop harvested for grain or hay, and applying lime and fertilizer as provided in practice 21 above.

Payment, In Area A,[3] per acre, $8.00.

Payment, In Area B, per acre, $7.25.

23. Seeding, and applying either (a) 4,000 pounds of pulverized limestone[2] and 300 pounds of 16 percent superphosphate or (b) 4,000 pounds of pulverized limestone[2] and a mixture containing not less than 250 pounds of 16 percent superphosphate and 30 pounds of 50 percent muriate of potash.

Payment, In Area A,[3] per acre, $10.75.

Payment, In Area B, per acre, $9.75.

24. Seeding with a nurse crop harvested for grain or hay, and applying lime and fertilizer as provided in practice 23 above.

Payment, In Area A,[3] per acre, $9.50.

Payment, In Area B, per acre, $8.50.

ESTABLISHING NEW SEEDINGS OF CLOVER AND TIMOTHY

Applying, at or before the time of seeding, not less than the following quantities of the following materials or their equivalents[1] per acre, and seeding such land between February 1, 1937, and October 31, 1937, with a mixture of at least 6 pounds of approved varieties of clover and at least 5 pounds of timothy in an approved nurse crop, provided that the timothy may have been seeded in the fall of 1936:

25. Seeding, without the application of lime and fertilizer either because sufficient lime and superphosphate were applied in 1936 or because soil tests or other evidence satisfactory to the county committee indicate that treatment is unnecessary.

Payment, per acre, $2.00.

26. Seeding, and applying 250 pounds of 16 percent superphosphate.

Payment, per acre, $3.50.

27. Seeding with a nurse crop harvested for grain or hay, and applying fertilizer as provided in practice 26 above.

Payment, per acre, $2.25.

Payment will be made for performing practice 25, 26, or 27 only on soils where lime is not required because of previous application under the 1936 Agricultural Conservation Program or because a lime requirement test shows it to be unnecessary.

28. Seeding, and applying 2,000 pounds of pulverized limestone[2] and 250 pounds of 16 percent superphosphate.

Payment, In Area A,[3] per acre, $6.50.

Payment, In Area B, per acre, $6.00.

29. Seeding with a nurse crop harvested for grain or hay, and applying lime and fertilizer as provided in practice 28 above.

Payment, In Area A,[3] per acre, $5.25.

Payment, In Area B, per acre, $4.75.

IMPROVING ESTABLISHED LEGUMES AND GRASSES

Applying not less than the following quantities of the following materials or their equivalent[1] per acre to established biennial or perennial legumes and grasses in orchards where the entire growth of such legumes and grasses is left on the land, or to crop land devoted to established biennial or perennial legumes used for hay:

30. Applying 2,000 pounds of pulverized limestone[2] and 400 pounds of 16 percent superphosphate.

Payment, In Area A,[3] per acre, $5.00.

Payment, In Area B, per acre, $4.50.

31. Applying 3,000 pounds of pulverized limestone[2] and 400 pounds of 16 percent superphosphate.

Payment, In Area A,[3] per acre, $6.25.

Payment, In Area B, per acre, $5.50.

32. Applying 4,000 pounds of pulverized limestone[2] and 400 pounds of 16 percent superphosphate.

Payment, In Area A,[3] per acre, $7.50.

Payment, In Area B, per acre, $6.50.

33. Applying 400 pounds of 16 percent superphosphate on those lands to which lime was applied under the 1936 Agricultural Conservation Program or where a lime requirement test shows a requirement of less than 2,000 pounds of lime per acre.

Payment, per acre, $2.50.

IMPROVING SOIL-CONSERVING CROPS IN ORCHARDS AND VINEYARDS BY THE USE OF NITROGEN

34. Applying not less than 200 pounds of 16 percent nitrate of soda or its equivalent[1] per acre over the entire acreage of any orchard or vineyard interplanted to soil-conserving crops and leaving such interplanted soil-conserving crops in their entirety on the land.

Payment, per acre, $1.00.

APPLYING LIME AND SUPERPHOSPHATE IN PREPARATION FOR SEEDING GRASSES OR LEGUMES

Applying, between July 15, 1937, and October 31, 1937, at least the following amounts of the following materials or their equivalents[1] per acre, to crop land if the County Committee determines that such application is made in preparation for seeding such crop land to legumes or to a grass or legume mixture in the spring of 1938:

35. Applying 2,000 pounds of pulverized limestone.[2]

Payment, In Area A,[3] per acre, $2.50.

Payment, In Area B, per acre, $2.00.

36. Applying 3,000 pounds of pulverized limestone.[2]

Payment, In Area,[3] per acre, $3.75.

Payment, In Area B, per acre, $3.00.

37. Applying 4,000 pounds of pulverized limestone.[2]

Payment, In Area A,[3] per acre, $5.00.

Payment, In Area B, per acre, $4.00.

38. Applying 2,000 pounds of pulverized limestone[2] and 300 pounds of 16 percent superphosphate.

Payment, In Area A[3], per acre, $3.00.

Payment, In Area B, per acre, $2.50.

39. Applying 3,000 pounds of pulverized limestone[2] and 300 pounds of 16 percent superphosphate.

Payment, In Area A[3], per acre, $4.25.

Payment, In Area B, per acre, $3.00.

40. Applying 4,000 pounds of pulverized limestone[2] and 300 pounds of 16 percent superphosphate.

Payment, In Area A[3], per acre, $5.50.

Payment, In Area B, per acre, $4.50.

41. Applying 300 pounds of 16 percent superphosphate on those lands to which lime was applied under the 1936 Agricultural Conservation Program or where a lime requirement test shows a requirement of less than 2,000 pounds of lime per year.

Payment, per acre, $0.50.

GREEN-MANURE CROPS

42. Plowing or disking under small grains or annual grasses or any mixture of these with legumes, which have attained at least two months' or 12 inches' growth.

Payment, per acre, $1.50.

[1] See Footnote 1 on page 263.
[2] See Footnote 2 on page 263.
[3] See Footnote 3 on page 263.

43. Plowing or disking under biennial or perennial legumes (except those seeded in a nurse crop which is harvested in 1937 for hay or grain) from which no crop has been harvested and for which no seeding payment has been made under this or previous programs, and which have attained at least two months' or 12 inches' growth, or annual legumes which have attained such growth.

Payment, per acre, $2.50.

The rate of payment will be doubled for practices 42 and 43 above when carried out on land normally devoted to commercial vegetables so that the green-manure crop replaces at least one crop of commercial vegetables in 1937.

When annual grains are clipped green and left on land normally devoted to commercial vegetables from which no crop is removed in 1937, and followed by legume crops specified in practice 43 which occupy such land throughout the remainder of the 1937 growing season, such clipping of the small grains may be substituted for the plowing or disking under in practice 42 and such leaving of legume crops on the land may be substituted for the plowing and disking under in practice 43, and the provisions of the last preceding paragraph shall be applicable.

Leaving the entire crop on the land during the winter may be substituted for the plowing or disking under in practice 42 or 43 if the crop is one that is normally winter-killed.

*Part II. The Soil-Building Allowance*

The soil-building allowance for any farm is the maximum amount that may be paid for carrying out soil-building practices on that farm.

SECTION 1. The soil-building allowance for any farm not eligible to earn a diversion payment shall be the sum of such of the following items as are applicable to that farm, but shall not be less than $20.00 for any such farm:

(a) *Crop land.*—$1.00 for each acre of crop land, excluding commercial orchards, on the farm on January 1, 1937.

(b) *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

(c) *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936;

$2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

(d) *Non-crop pasture land.*—$0.35 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

SECTION 2. The soil-building allowance for any farm eligible to earn a diversion payment shall be the sum of such of the following items as are applicable to that farm, but shall not be less than $10.00 for any such farm:

(a) $1.00 for each acre of crop land represented by the sum of

(1) The difference between the total acres of crop land (excluding commercial orchards, vineyards, and bush fruits) and the sum of (a) the tobacco soil-depleting base for the farm and (b) the 1937 general soil-depleting base, or, if no 1937 general soil-depleting base is established, the general soil-depleting base which was or could have been established in 1936; and

(2) The number of acres diverted for payment from the bases established for the farm.

(b) *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

(c) *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936;

$2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

(d) *Non-crop pasture land.*—$.35 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

*Part III. Tobacco Diversion Program*

SECTION 1. *Tobacco Diversion Payment.*—A payment of 3 cents per pound based on the normal tobacco yield per acre will be paid for each acre diverted in 1937 from the 1937 tobacco soil-depleting base established for the farm, not in excess of 25 percent of such base, provided that such payment will not be made with respect to an acreage greater than the number of acres by which the acreage of soil-conserving crops on the farm in 1937 exceeds the soil-conserving base.

SECTION 2. *Tobacco Soil-Depleting Base and Yield.*—The 1937 tobacco soil-depleting base for any farm in a county shall be the tobacco soil-depleting base which was or could have been established for such farm under the 1936 Agricultural Conservation Program, subject to any adjustment which will result in equitable bases for all farms in the county for which tobacco bases are established, taking into consideration production facilities and their use; *provided:*

(a) The tobacco soil-depleting base for any farm shall not be more than twice the acreage of tobacco grown in 1937;

(b) The sum of the tobacco soil-depleting bases for the farms in any county or other specified area shall not exceed an acreage for tobacco established for such county or other specified area by the Agricultural Adjustment Administration; and

(c) The weighted average of the yield of tobacco per acre for all farms for which 1937 tobacco soil-depleting bases are established in any county or other specified area shall not exceed the average yield of tobacco per acre established for such county or other specified area by the Agricultural Adjustment Administration.

*Part IV. General Diversion Program*

SECTION 1. *General Diversion Payment.*—For each acre diverted from the general soil-depleting base for any farm eligible to earn a general diversion payment not in excess of 15 percent of such base, payment will be made at a rate which will average $9.00 per acre for the United States, varied for all farms in a county according to the productivity index for the county; *provided,* that such payment will not be made with respect to an acreage greater than the acreage by which the acreage of soil conserving crops on the farm in 1937 exceeds the sum of the soil conserving base, and the acreage diverted for payment from the tobacco soil depleting base.

SECTION 2. *Eligible General Diversion Areas.*—General diversion payments, as described in section 1 above, will be made in the State of Pennsylvania only in Adams, Berks, Chester, Cumberland, Delaware, Franklin, Lancaster, Lebanon, and York counties and such other counties as may be designated by the Secretary after considering the facts and any recommendations made by the county and State committees.

*Part V. Provisions Affecting Payment*

SECTION 1. *Eligibility of Farms to Earn a Diversion Payment.*—A farm shall be considered eligible to earn a tobacco diversion payment if a tobacco soil-depleting base of either (a) more than five acres, or (b) five acres or less with respect to which an application is made for a tobacco diversion payment, is established for such farm, and shall be considered eligible to earn a general diversion payment if it is located in an eligible general diversion area and either (a) has a general soil-depleting base of 20 acres or more or (b) is designated by the county committee as eligible to earn a general diversion payment, such designation to be based upon the history of the production of soil-depleting crops on such farm.

SECTION 2. *Deductions for an Acreage of Tobacco in Excess of the 1937 Tobacco Soil-Depleting Base.*—If the 1937 acreage of tobacco exceeds the 1937 tobacco soil-depleting base, a deduction will be made, from any payment which otherwise would be made, for each acre of such excess at the rate of 3 cents per pound based on the normal yield per acre.

SECTION 3. *Increase in Acreage of General Soil-Depleting Crops on Farms in Eligible General Diversion Areas.*—If the 1937 acreage of general soil-depleting crops exceeds the general soil-depleting base a deduction will be made, from any payment otherwise earned for the farm, for each acre of such excess at the rate per acre of the diversion payment for the farm; *provided*, however, that in the case of any farm not eligible to earn a general diversion payment no deduction will be made with respect to the acreage of general soil-depleting crops grown in excess of the general soil-depleting base unless the acreage of such crops grown in 1937 exceeds 20 acres.

SECTION 4. *Increase in Acreage of General Soil-Depleting Crops on Farms Not in Eligible General Diversion Areas.*—The Secretary reserves the right in the case of any farm which in 1937 has an acreage of general soil-depleting crops in excess of 20 acres to make a deduction, from any payment that would otherwise be made for such farm, at the rate of $9.00 per acre adjusted to the productivity index for the county, for each acre by which such 1937 acreage of general soil-depleting crops exceeds the general soil-depleting base which can be established for such farm. If in 1937 the Secretary exercises the right reserved herein to make deductions with respect to such farms, the procedure to be followed for the establishment of bases shall be in accordance with such instructions as may be issued by the Secretary.

SECTION 5. *Association Expenses.*—Under such rules as the Secretary may prescribe there shall be deducted from the payment to any person with respect to a farm or farms in a county all or such part as the Secretary may prescribe of such person's pro rata share of the estimated administrative expenses incurred and to be incurred by the County Agricultural Conservation Association of the county in which such farm or farms are located.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the sum of $2.00 per application for that number of applications submitted by members of such association under which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SECTION 6. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made to any person may be withheld if any rotation, cropping, or other practice is adopted by such person which the Secretary determines tends to defeat the purposes of the 1937 Agricultural Conservation Program.

SECTION 7. *Applicability to Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In the event that any such county or other area is designated, the allowances, rates, and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the State bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for carrying out such soil-building practices as are, prior to performance, approved for the farm by the county committee in accordance with instructions issued by the Secretary.

### *Part VI. Classification of Land Use and Crops*

Farm land, when devoted to crops and uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be approved by the Secretary.

SECTION 1. *Soil-Depleting.*—Land on which any of the following crops are grown shall, except as provided in section 3 below, be regarded as devoted to the production of soil-depleting crops for the year in which such crops are normally harvested. In establishing soil-depleting bases and in checking performance, the acreage of land which is devoted to two or more soil-depleting crops shall be counted only once.

(a) Corn (field corn or popcorn) except sowed corn plowed under.

(b) Potatoes.

(c) Truck and vegetable crops, including sweet corn, melons, and strawberries.

(d) Grain sorghums, sweet sorghums, Italian ryegrass, millets, and Sudan grass, if harvested for grain, hay, or forage.

(e) Small grains—wheat, oats, barley, rye, buckwheat, and grain mixtures, for grain or hay.

(f) Bulbs and flowers.

(g) Annual legumes (soybeans, cowpeas, field peas, field beans) harvested for grain or hay.

(h) Rape, except when plowed or disked under.

SECTION 2. *Soil-Conserving.*—Land devoted to any of the following crops shall be regarded as used for the production of a soil-conserving crop except that any land from which a soil-depleting crop is harvested in the same year shall be regarded as having been used for the production of a soil-depleting crop in such year, except as provided in section 3 below.

If two or more soil-conserving crops are grown on the same land during any year the acreage of such land counted as soil-conserving shall not exceed the acreage on which such crops are grown.

(a) Sweet, medium red, alsike, and mammoth red clover, alfalfa, and white clover.

(b) Vetch, winter peas, bur or crimson clover, annual varieties of lespedeza, and crotalaria.

(c) Soybeans, velvet beans, and cowpeas, except when harvested for grain or hay.

(d) Sudan grass, millet, Italian ryegrass, and sorghums, not harvested for grain, hay, or forage.

(e) Sewed corn or rape, when plowed or disked under.

(f) Bluegrass, redtop, timothy, orchard grass, Bermuda, carpet grass, and mixtures of any of these.

(g) Rye, oats, barley, wheat, buckwheat, and grain mixtures, not cut for grain or hay, *provided* a good growth is left on the land or plowed under.

(h) Forest trees planted on crop land.

SECTION 3. *Soil-Conserving Crops Grown on Land Used for the Production of a Soil-Depleting Crop.*—Land devoted to any of the combinations of soil-depleting and soil-conserving crops listed below shall, in addition to being regarded as being used for the production of a soil-depleting crop, also be regarded as being used for the production of a soil-conserving crop as follows:

(a) All the land from which a soil-depleting crop is harvested in 1937 and followed by legumes (classified in section 2 above as soil-conserving) or perennial grasses (whether seeded in or following such crop) shall, in addition to being classified as soil-depleting, be classified as soil-conserving.

(b) All the land on which green-manure crops are seeded following commercial vegetables and plowed under as green-manure after having attained at least two months' or 12 inches' growth shall, in addition to being classified as soil-depleting, be classified as soil-conserving.

SECTION 4. *Neutral Uses.*—Land devoted to the following uses shall be regarded as not being used for the production of a soil-depleting crop or a soil-conserving crop unless otherwise provided:

(a) Vineyards, tree fruits, small fruits, nut trees, and perennial vegetables not interplanted (any portion of the area which is interplanted shall carry the classification and actual acreage of such interplanted crop).

(b) Idle crop land.

(c) Cultivated fallow land.

(d) Waste land, roads, lanes, lots, yards, and other similar non-crop land.

(e) Woodland other than crop land planted to forest trees.

### *Part VII. Establishment of General Bases*

SECTION 1. *General Soil-Depleting Bases.*—The county committee will recommend for approval by the Secretary a general soil-depleting base for each farm in an eligible general diversion area, which shall represent the acreage normally used for the production of general soil-depleting crops on each farm. There will also be recommended for approval a productivity index or rate per acre for the general soil-depleting base for each farm.

(a) *Farms for which general bases were established under the 1936 Agricultural Conservation Program.*—The general soil-depleting bases established for farms under the 1936 Agricultural Conservation Program shall be the soil-depleting bases for such farms in 1937 with adjustments as provided in subsection (d) of this section 1.

(b) *Farms for which no general bases were established in 1936.*—The farms for which no bases were established under the 1936 Agricultural Conservation Program shall, subject to adjustment as provided in subsection (d) of this section 1, be determined upon the basis of the acreage of soil-depleting crops grown on the farm in 1936.

(c) *The county productivity index for the general soil-depleting base* shall be determined upon the basis of the yield of the general soil-depleting crops grown on all farms in the county compared to the average yield of such crops for all farms in the United States.

(d) *Adjustment in Bases.*—

(1) *For Abnormal Bases.*—Where the number of acres of crops in the general soil-depleting base harvested in 1936, or any bases previously established, was greater or less than such crops usually harvested on the farm, the base shall be increased or decreased so as to be comparable to the base of such crops under normal conditions. Where the normal rotation of crops in the general soil-depleting base results in variations in the acreage of such crops on the farm the base shall be adjusted to conform to such variations.

(2) *For Changes in Crop Classification.*—For farms for which general soil-depleting bases were established under the 1936 Agricultural Conservation Program there shall be added to such base an acreage of small grains harvested for grain or hay which were classified as soil-conserving in establishing such base.

(3) *For Unused Bases.*—If the acreage of crops in the general soil-depleting base planted on the farm in the year 1936 was substantially less than the acreage which could have been planted on the farm and still qualify for the maximum diversion payment with respect to such crops, the base shall be adjusted by the county committee so as to represent the normal plantings on the farm and so as to be equitable as compared with other farms in the locality.

(e) *Limits of Bases.*—The sum of the general soil-depleting bases established for farms in any county or other specified area shall not exceed the acreage for such soil-depleting base which is established for such county or other specified area by the Agricultural Adjustment Administration.

### *Part VIII. Miscellaneous Provisions*

SECTION 1. In order for a farmer to be eligible for participation in the 1937 Agricultural Conservation Program he must execute such forms and submit such information as may be prescribed. Such forms and information shall be filed with the county committee within time limits established by the State committee with the approval of the Director of the Northeast Division.

SECTION 2. *Land to be Included Under an Application.*—An application for payment shall cover neither more nor less than a single farm as defined in Part IX of this bulletin.

SECTION 3. *Application and Eligibility for Payment.*—(a) Payment will be made only upon application on the prescribed form, filed with the county committee within the time fixed by the Secretary, supported by such information regarding farming operation as may be required.

(b) An application for payment may be made by any producer who is entitled to receive all or a share of the crops produced on the farm in 1937, or of the proceeds thereof, or who incurs all or any part of the expense of soil-building practices carried out on the farm.

(c) For the purpose of determining the eligibility of a producer for a payment where the farm operated by him includes land located in two or more counties, the farm shall be regarded as located in the county in which the principal dwelling is located, or, if there is no dwelling on the farm, it shall be regarded as located in the county in which the major portion of the farm is located.

SECTION 4. *Division of Payments.*—(a) The soil-building payment with respect to a farm covered by an application for payment shall be divided among the producers concerned, in the proportion that the county committee determines that the expense incurred by each in carrying out the soil-building practices bears to the total expense incurred by all such producers in carrying out such practices.

(b) The diversion payment with respect to a farm covered by an application for payment shall be divided among the producers concerned in the same proportion as the crops in the general soil-depleting base are divided under their lease or operating agreement.

(c) Any payment for a farm shall be computed without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of any creditor.

SECTION 5. *Membership in Association.*—Any person having an interest in the crops or the proceeds thereof produced on any farm in the county in 1937 shall become a member of the County Agricultural Conservation Association of the county whenever any form or information required in connection with the Agricultural Conservation Program for 1937 is submitted for such farm, or whenever in 1937 he attends a meeting called for the purpose of electing committeemen. Any person shall cease to be a member of the association if in 1937 an application for payment is not filed by him within the time specified by the Secretary for the filing of applications.

SECTION 6. *Limits.*—The sum of the commercial fruit acreages, the commercial vegetable acreages, the commercial double cropped vegetable acreages, the acreages of non-crop open pasture land, and the acreages of total crop land, respectively, established for farms in any county or other specified area, shall not exceed the acreage of such crops and uses which the Agricultural Adjustment Administration may establish for such county or other specified area.

### *Part IX. Definitions*

As used herein, and in all forms and documents relating to the 1937 Agricultural Conservation Program in the Northeast Region, the term—

*Secretary* means the Secretary of Agriculture of the United States.

*Northeast Region* means the area included in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania.

*Northeast Division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Northeast Region.

*State Agricultural Conservation Committee* or *State Committee* means the group of persons designated to assist in the administration of the 1937 Agricultural Conservation Program in the State of Pennsylvania.

*County Agricultural Conservation Committee* or *County Committee* means the group of persons designated to assist in the administration of the 1937 Agricultural Conservation Program in the county.

*Person* means an individual, partnership, association, trust, estate, or corporation, and wherever applicable a State, a political subdivision of a State, or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Producer* means any person who is entitled to receive all or a portion of the crops produced on any farm or the proceeds thereof.

*Farm* means all land in a county (or regarded as being in a county) which in 1937 is under the operating control of one person by reason of ownership, lease, or otherwise; *provided* that a tract of land shall not be considered all or part of a farm unless the county committee finds, from a consideration of such factors as size of unit, amount of labor applied, nature of farming operations, and practices carried out, that the participation of such land in the 1937 Agricultural Conservation Program would tend to promote the purposes of the Act through the economic use and conservation of the land and through the preservation and improvement of its fertility for agricultural purposes.

*Crop land* is farm land which is tillable and on which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and any other farm land devoted on January 1, 1937, to fruit orchards, vineyards, or cultivated bush fruits other than those abandoned.

*Commercial orchards* means the acreage in tree fruits, cultivated nut trees, vineyards, or cultivated bush fruits, on the farm on January 1, 1937, from which the principal part of the production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of the production will be sold in 1937 or later.

*Commercial vegetables* means the acreage of vegetables or truck crops (including among others potatoes, sweetpotatoes, melons, cantaloups, and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of the production was sold off the farm in 1936.

*Open non-crop pasture* means fenced non-crop pasture land of a carrying capacity during the normal pasture season of at least one animal unit for each five acres on which the predominant growth is forage suitable for dairy animals, and on which the number or grouping of any trees or shrubs is such that the land could not fairly be considered as woodland.

*Animal unit* means one cow, one horse, five sheep, five goats, two calves, or two colts, or the equivalent thereof.

*Soil-conserving base* means the acreage represented by the difference between the total crop land (excluding commercial orchards, vineyards, bush fruits, and idle crop land) and the sum of the 1937 tobacco soil-depleting base and the 1937 general soil-depleting base which is or could be established for the farm.

*Soil-building payment* means a payment for the carrying out of the soil-building practices specified in part I hereof.

*Diversion payment* means a payment for diversion from the 1937 general soil-depleting base.

*General soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of all soil-depleting crops.

*Tobacco diversion payment* means a payment for a diversion from the 1937 tobacco soil-depleting base.

*Tobacco soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of types 51 and 52 tobacco.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 5th day of February 1937.

*Secretary of Agriculture.*

## FEDERAL TRADE COMMISSION.

Commissioners: William A. Ayres, Chairman; Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[File No. 21-94]

IN THE MATTER OF TRADE PRACTICE RULES OF THE PETROLEUM AND PETROLEUM PRODUCTS INDUSTRY

ORDER FIXING TIME AND PLACE FOR ORAL HEARING

In the matter of the public notice issued by the Commission as of January 16, 1937, affording opportunity to all interested or affected parties to present in writing such views and information as they may desire as to why the Commission's approval and acceptance of the Trade Practice Conference rules for the Petroleum and Petroleum Products Industry, as published August 10, 1931, should not be formally rescinded and the rules treated as having no force and effect, the Commission has received certain requests from members of the industry for opportunity to be heard orally. Upon consideration the Commission hereby designates February 24, 1937, at 2 p. m. and the office of the Commission, 815 Connecticut Avenue NW., Washington, D. C., as the time and place when and where it will hear such members and any other interested or affected parties who may make written or telegraphic requests to that effect.

By direction of the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

Entered, February 5, 1937.

## SECURITIES AND EXCHANGE COMMISSION.

SECURITIES EXCHANGE ACT OF 1934

SUSPENSION OF TRADING, WITHDRAWAL, ETC., FROM LISTING AND REGISTRATION

*Amendments to JD Rules*

The Securities and Exchange Commission, deeming it necessary for the execution of the functions vested in it and necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, as amended, particularly Sections 12 (d) and 23 (a) thereof, hereby takes the following action:

I. The title of Rule JD2 is amended to read as follows: *"Suspension of Trading, Withdrawal and Striking from Listing and Registration".*

II. Subsection (a) of Rule JD2 is amended to read as follows:

(a) (1) A security listed and registered on a national securities exchange may be suspended from trading by such exchange, in accordance with its rules. Such exchange shall promptly notify the Commission of any such suspension, the effective date thereof, and the reasons therefor.

(2) Any such suspension or any suspension in effect on February 5, 1937, may be continued until such time as it shall appear to the Commission that such suspension is designed to evade the provisions of Section 12 (d) and the rules and regulations thereunder, relating to the withdrawal and striking of a security from listing and registration. Within ten days after the close of every second calendar month during which such suspension is continued pursuant to this rule, the exchange shall file a statement setting forth the reasons for such continuance.

(3) Suspension of trading shall not terminate the registration of any security.

III. The following subsection is added to Rule JD2:

(d) A security may be stricken from listing and registration by a national securities exchange if

(1) trading in such security has been terminated pursuant to a rule of such exchange requiring such termination whenever a security is admitted to trading on another exchange; and

(2) listing and registration of such security has become effective on such other exchange.

The exchange upon which such security has been so stricken shall notify the Commission of its action within three days from the date thereof.

By direction of the Commission.

[File No. 1-246]

IN THE MATTER OF COLONIAL BEACON OIL COMPANY COMMON STOCK, NO PAR VALUE

ORDER DIRECTING HEARING UNDER SECTION 12 (D) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

The Colonial Beacon Oil Company having made application to the Commission pursuant to Rule JD2 under the Securities Exchange Act of 1934, as amended, for permission to withdraw from listing and registration 1,444,970 shares of Common Stock, No Par Value, on the Boston Stock Exchange; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons should be given an opportunity to be heard and that general notice should be given;

It is ordered that the matter be set down for hearing at 10:00 o'clock a. m. on Wednesday, February 24, 1937, in Room 1101, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and continue thereafter at such times and places as the Commission or its officer herein designated may determine, and that general notice thereof be given; and

It is further ordered that Robert P. Reeder, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and perform all other duties in connection therewith authorized by law.

By the Commission.

IN THE MATTER OF LAC-TECK GOLD MINES, LIMITED

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Lac-Teck Gold Mines, Limited, under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading,

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Thursday, February 18, 1937, at 2 o'clock in the afternoon, in Room 1101, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW, Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE BRITISH-AMERICAN ET AL.-MCNABB FARM, FILED ON JANUARY 16, 1937, BY G. E. FISHER, RESPONDENT

ORDER TERMINATING PROCEEDING AFTER AMENDMENT

The Securities and Exchange Commission, finding that the offering sheet filed with the Commission, which is the subject of this proceeding, has been amended, so far as necessary, in accordance with the Suspension Order previously entered in this proceeding;

It is ordered, pursuant to Rule 341 (d) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the amendment received at the office of the Commission on February 3, 1937, be effective as of February 3, 1937; and

It is further ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same hereby are revoked and the said proceeding terminated.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## PRESIDENT OF THE UNITED STATES.

EMERGENCY BOARD, CHICAGO GREAT WESTERN RAILROAD (PATRICK H. JOYCE AND LUTHER M. WALTER, TRUSTEES)—EMPLOYEES

By the President of the United States of America

A PROCLAMATION

WHEREAS, the President, having been duly notified by the National Mediation Board that a dispute between the Chicago Great Western Railroad (Patrick H. Joyce and Luther M. Walter, Trustees), a carrier, and certain of its employees represented by

Brotherhood of Locomotive Engineers,
Brotherhood of Locomotive Firemen and Enginemen,
Order of Railway Conductors,
Brotherhood of Railroad Trainmen,
Switchmen's Union of North America,

which dispute has not been heretofore adjusted under the provisions of the Railway Labor Act, amended, now threatens substantially to interrupt interstate commerce within the States of Illinois, Iowa, Minnesota, Missouri and Kansas, to a degree such as to deprive that section of the country of essential transportation service;

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, by virtue of the power vested in me by the Constitution and laws of the United States, and by virtue of and under the authority in me vested by Section 10 of the Railway Labor Act, amended, do hereby create a board to be composed of three persons not pecuniarily or otherwise interested in any organization of railway employees or any carrier, to investigate and report their findings to me within thirty days from this date.

The members of this Board shall be compensated for and on account of such duties in the sum of seventy-five dollars for every day actually employed with or upon account of travel and duties incident to such board. The members will be reimbursed for and they are hereby authorized to make expenditures for expenses for themselves and of the board, including traveling expenses and in conformity with Public No. 212, 72d Congress, Approved June 30, 1932, 11:30 a. m., not to exceed five ($5.00) dollars per diem for expenses incurred for subsistence.

All expenditures of the board shall be allowed and paid for out of the appropriation "Emergency Boards, Railway Labor Act, May 20, 1926, 1937" on the presentation of itemized vouchers properly approved by the chairman of the board hereby created.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this 8th day of February in the year of our Lord nineteen hundred and thirty seven, and of the Independence of the United State of America the one hundred and sixty first.

[SEAL]

FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL
*Secretary of State.*

## EXECUTIVE ORDER

DESIGNATING VESSELS TO PATROL WATERS FREQUENTED BY SEAL HERDS AND SEA OTTER

By virtue of and pursuant to the authority vested in me by section 9 of the act of August 24, 1912, 37 Stat. 501 (U. S. C., Title 16, sec. 640), I hereby designate as the vessels to patrol the waters frequented by the seal herds and sea otter, in the enforcement of the said act, such vessels of the Coast Guard as shall be assigned for that purpose by the Commandant of the Coast Guard.

FRANKLIN D ROOSEVELT

## DEPARTMENT OF THE INTERIOR.

Bureau of Reclamation.

[Public Notice No. 19]

LOWER YELLOWSTONE IRRIGATION PROJECT

MONTANA-NORTH DAKOTA

*Order Opening Public Lands to Entry*

JANUARY 29, 1937.

1. *Public land for which entry may be made.*—In pursuance of the act of June 17, 1902 (32 Stat. 388), and acts amendatory thereof or supplementary thereto, it is announced that water will be available in the irrigation season of 1937 and thereafter, and beginning on February 23, 1937, entry may be made in accordance with this order for the following described public land under the Lower Yellowstone Irrigation project, Montana-North Dakota, as shown on supplemental diagrams of T. 22 N., R. 59 E., and T. 23 N., R. 60 E., of Montana Principal Meridian, and T. 150 N., R. 104 W., T. 151 N., R. 104 W., and T. 152 N., R. 104 W., of the 5th Principal Meridian, North Dakota, to-wit:

MONTANA PRINCIPAL MERIDIAN

*Township 22 North, Range 59 East*

| Section | Farm Unit | Or the— | Irrigable area when cleared and leveled |
|---|---|---|---|
| 30 | "E" | Lots 2, 3, 6 | 90.00 |

*Township 23 North, Range 60 East*

| | | | |
|---|---|---|---|
| 5 and 6 | "A" | Lots 4, 5, Sec. 5, lot 5, Sec. 6 | 85.00 |
| 8 | "A" | Lots 1, 2 | 95.00 |

5TH PRINCIPAL MERIDIAN, NORTH DAKOTA

*Township 150 North, Range 104 West*

| | | | |
|---|---|---|---|
| 3 and 10 | "F" | Lot 6, Sec. 3, and lots 1, 2, Sec. 10 | 52.00 |

| 29 | "G" | Lots 3, 4, and $W\frac{1}{2}SE\frac{1}{4}$ | 4.00 |
| 32, 33 | "D" | $N\frac{1}{2}NE\frac{1}{4}$, Sec. 32, $NW\frac{1}{4}SW\frac{1}{4}$, Sec. 33 | 24.00 |

The supplemental diagrams referred to above were approved on the date of this order and are on file in the office of the Project Manager, Board of Control, Lower Yellowstone Project, Sidney, Montana, and in the local land offices at Great Falls, and Billings, Montana, and Bismarck, North Dakota.

2. *Preference rights to soldiers.*—Pursuant to the provisions of joint resolution, approved June 12, 1930 (46 Stat., 580), and until May 24, 1937, the lands described above will be open to entry only by officers, soldiers, sailors, or marines who have served in the Army or Navy of the United States in any War, military occupation, or military expedition, and have been honorably separated or discharged therefrom or placed in the Regular Army or Naval Reserve. The same preference rights are applicable to those citizens of the United States who served with the allied armies during the World War and who were honorably discharged, upon their resumption of citizenship in the United States, provided the service with the allied armies was similar to

the service with the Army of the United States for which recognition is granted in the aforesaid joint resolution: *Provided, however,* That they must be qualified to make entry under the homestead laws and also possess the qualifications required of all applicants under this order.

3. *Applicants must be qualified.*—No entry shall be accepted by the local land offices until the applicant therefor has satisfied the Examining Board, appointed for the Lower Yellowstone project to consider such matters, that he is possessed of such qualifications (in addition to the qualifications required under the homestead laws), as to industry, experience, character, and capital as in the opinion of the board are necessary to give reasonable assurance of success by the prospective settler.

4. *Qualifications.*—Each applicant must be in good health and have had at least two years actual experience in farm work. He must have at least $2,000 in money free of liability or the equivalent thereof in livestock, farming equipment, or other assets deemed by the Examining Board to be as useful to the Applicant as money.

5. *Examining Board.*—An Examining Board of three members has been appointed to consider the fitness of applicants to undertake the development of a farm on the Lower Yellowstone Project. Each applicant, except those described in paragraph 10a, must appear in person before the Examining Board; and the Project Manager of the Board of Control, acting as secretary of the board, and who is hereby designated as a member of the board to represent the United States, will notify each applicant of the time set for his appearance and examination. The members of the board will be available at the office of the Board of Control when the opening is being held, where applicants will be examined. The board will announce such incidental rules as will necessitate only one appearance by each applicant. Careful investigation shall be made to verify the statements and representations made by the applicants so that there may be no misunderstanding either regarding an applicant's qualifications or his appreciation of the problem before him.

6. *Determination of relative standing of applicants.*—The relative standing of the applicants will be based upon a percentage rating with the following weights given to the four prescribed qualifications:

| | Percent |
|---|---|
| Character | 15 |
| Industry | 20 |
| Capital | 30 |
| Farm experience | 35 |

Applicants will be rated according to the following schedules and no applicants will be considered eligible who fall below the minimum named in any one of the headings of these schedules; or who do not, in the opinion of the board, possess the health and vigor necessary for active farm work:

CHARACTER

| | Percent |
|---|---|
| Fair | 5 |
| Good | 10 |
| Excellent | 15 |

INDUSTRY

| | Percent |
|---|---|
| Fair | 5 |
| Good | 10 |
| Excellent | 20 |

CAPITAL

| | Percent |
|---|---|
| $2,000 to $2,999 | 20 |
| 3,000 to 3,999 | 22 |
| 4,000 to 4,999 | 24 |
| 5,000 to 5,999 | 25 |
| 6,000 to 6,999 | 26 |
| 7,000 to 7,999 | 27 |
| 8,000 to 8,999 | 28 |
| 9,000 to 9,999 | 29 |
| 10,000 or above | 30 |

FARM EXPERIENCE

| | Percent |
|---|---|
| 2 years in farming other than irrigation | 5 |
| 2 years' farming other than irrigation plus 1% for each additional year's experience to a total of 10 years, or a maximum of | 15 |
| 2 years in irrigation farming, any time | 20 |
| 2 years in irrigation farming, in last 4 years | 25 |
| 2 years in irrigation farming, in last 2 years | 30 |
| 2 years or more in responsible charge of irrigation farm in last 4 years | 35 |

7. *When and how to apply for a farm unit.*—Any person desiring to acquire any of the said public land must secure from the Project Manager, Board of Control, at Sidney, Montana, or from the Commissioner, Bureau of Reclamation, Washington, D. C., a farm application blank. A full answer must be made to each question propounded therein. If the applicant claims a preference right on account of military service, he shall attach to his application an affidavit setting forth such military service. The affidavit shall state the applicant's time of service, the unit of which he was a member, the date on which he was honorably discharged, or separated or transferred to the Regular Army or Naval Reserve, and that he did not refuse to wear the uniform of such service or to perform the duties thereof. If the applicant claims a preferance right on account of military service with the allied armies during the World War, the affidavit should also state, if true, that the service with the allied armies was similar to the service with the Army of the United States for which recognition was granted in the said joint resolution of June 12, 1930. There shall be attached to said affidavit a copy of such honorable discharge or separation from the service, or order of transfer to the Regular Army or Naval Reserve, as the case may be, which copy shall be certified by a notary public to be a true copy of the original.

8. *Simultaneous filing of farm applications.*—Applications received on or before February 23, 1937, the date of opening, for the same farm unit, will be held and treated as simultaneously filed.

9. *Preference rights for ex-service men not filing in accordance with Paragraph 8.*—In order that ex-service men may take advantage of the preference right as provided in paragraph 2 of this order, in the event that they fail to file on or before February 23, 1937, as set forth in paragraph 8 above, their applications together with the proof to be furnished by them, must be filed with the Project Manager of the Board of Control, at Sidney, Montana, on or prior to May 24, 1937, the day upon which the farm units herein described, except those units for which applications of ex-service men have been accepted, become open to entry by the general public. No advantage will accrue to an applicant presenting his application in person rather than by mail. Farm applications received after February 23, 1937, will be filed and noted in the order of their receipt.

10. *Showing of applicants and selection thereof.*—(a) Where the applicant fails to make a *prima facie* case—that is, where he does not possess good health, or does not show at least two years' experience, and the assets required in paragraph 4, the application shall be rejected and the applicant notified thereof by registered mail, and of his right to appeal to the Secretary of the Interior within ten days from receipt of notice. Like action shall be taken where the evidence of military service is defective or not furnished. All appeals allowed under this order must be filed in the office of the Project Manager of the Board of Control, at Sidney, Montana, within ten days from receipt of notice.

(b) Each applicant who makes a *prima facie* case and has not been previously examined by the board shall be notified by the board, by registered mail, of the time within which he must appear before it. After such personal examinations, and after consideration of the showing made in the application, the board will rate the applicant in accordance with the scale set forth above, and place such rating in red ink, with the initials of each member of the board upon the face of the farm application blank. Should the applicant fail to appear for examination after due notice, his application will receive no further consideration by the board at that time. Should he later appear his application may be considered for any farm then remaining unassigned. The date of receipt of his application shall then be considered as being the day he actually appeared before the board. The rating necessary to establish qualification is the minimum named in paragraph 4 of this order, and the applications of all who fail to attain this minimum shall be rejected and the applicants notified thereof by registered mail, and of the right of appeal to the Secretary within 10 days from receipt of notice. After the expiration of the appeal period and in the absence of any pending appeals, the board shall select the 13 applicants, (there being 13 farm units), with the highest rating, and notify each of the other applicants that since the number of qualified applicants exceeds the number of available farms, it is necessary to reject all applications below the first 13 in qualification ratings. Each rejected applicant may appeal to the Secretary within ten days. In the event that the number of qualified applicants is less than the number of available farm units, and also if in such case there are several applications for the same farm unit, the board shall assign a farm unit to each of such applicants. Whenever practicable, the board shall allow the applicants to exercise a choice of farms; and if it is found practicable to do so, the applicants will be given the right of selection in the order of their ratings. However, the intent of the law is to select the best qualified applicants for the farms available, and the Government reserves the right to assign the farms regardless of individual preferences.

11. *Notification of applicant that he has been selected.*—After the expiration of the appeal periods in all of the contingencies named above and any other that may arise, and in the absence of pending appeals, the board shall notify each applicant selected for a farm, by registered mail, and inclose a statement of the amount to be paid to the Lower Yellowstone Irrigation District No. 1 or No. 2, as the case may be, for operation and maintenance charges. This amount shall be paid within ten days from receipt of notice. Upon receipt of this payment the Project Manager of the Board of Control shall send to the applicant by registered mail a certificate which will entitle him to file homestead application at the local land office having jurisdiction over the land applied for. Such homestead application shall be made within fifteen days from the date of receipt of the certificate. Failure to make homestead entry within this period shall render the application subject to rejection.

12. *Failure of selected applicant to complete transaction.*—If the applicant fails to comply with any of the requirements named above the board will select the next highest in qualification rating, and when the list has been exhausted, and if there still remain lands unallotted, the board will consider applications filed thereafter in the order filed, and such applications will otherwise be handled by the board as prescribed in paragraph 10.

13. *General entry.*—On and after May 24, 1937, any public lands described herein, which remain unentered, shall be subject to entry under this order, by any person having the necessary qualifications. If, on May 24, 1937, prior to 2 P. M., the number of applications filed exceeds the number of available farm units, then the right to make entry for such farm units shall be determined in accordance with paragraph 10.

14. *Warning against unlawful settlement.*—No person shall be permitted to gain or exercise any right under any settlement or occupation of any of said public land begun without having at the time the certificate entitling him to file homestead application covering the land in question: *Provided, however,* That this shall not affect any valid existing right obtained by settlement or entry while the land was subject thereto.

15. *Lands are within Irrigation Districts.*—The land covered by this public order, situate in Montana, is within Lower Yellowstone Irrigation District No. 1, and the land situate in North Dakota is within Lower Yellowstone Irrigation District No. 2.

16. *Contracts with Irrigation Districts.*—Contracts were entered into September 23, 1926, and November 2, 1926, between the United States and Lower Yellowstone Irrigation Districts Nos. 1 and 2, respectively, providing for payment of charges and operation of works.

17. *Construction Charges.*—The construction cost shall be paid in accordance with the contracts dated September 23, 1926, and November 2, 1926, between the United States and the Lower Yellowstone Irrigation Districts Nos. 1 and 2, respectively, and shall begin five years after the date of entry.

18. *Operation and Maintenance Charges.*—Under the terms of the contracts between the United States and the Lower Yellowstone Irrigation Districts Nos. 1 and 2, the Districts have taken over the operation and maintenance of the project and will levy assessments each year against the irrigable lands to cover the yearly cost of operation and maintenance. The Districts shall not deliver any irrigation water to any of the units covered by this notice unless and until all operation and maintenance charges then due have been paid. The units covered by this notice are not at present prepared for irrigation and the assessments by the Districts for Operation and Maintenance charges shall be made from year to year on the number of acres then prepared for irrigation.

19. *Reservation of rights of way for county highways.*—Rights of way for county highways are reserved along all section lines, across the farm units above described, in Montana and North Dakota; such rights of way being 30 feet in width on each side of said section lines.

20. *Waiver of mineral rights.*—All homestead entries for any of the above-described land will be subject to the laws of the United States governing mineral land and all applicants under this order must waive the right to the mineral content of the land, if required to do so, by the Land Office, otherwise the homestead application will be rejected, or the homestead entry cancelled.

21. *Effect of relinquishment prior to one-year's residence.*—In the event that any entry of public land shall be relinquished at any time prior to actual residence upon the land by the entrymen for not less than one year, the lands so relinquished shall not be subject to entry for a period of 60 days after the filing and notation of the relinquishment in the local land offices. During the 10-day period next succeeding the expiration of such 60-day period, any person having the necessary qualifications may file application for said public land. If, on the tenth day of said 10-day period, prior to 2 P. M., the number of applications filed exceeds the number of available farm units, then the right to make entry for such farm units shall be determined in accordance with the procedure described in paragraph 10 of this order.

T. A. WALTERS,
*First Assistant Secretary.*

[F. R. Doc. 37-399; Filed, February 9, 1937; 10:59 a. m.]

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

NER—B-101-A—New Hampshire — Issued February 5, 1937

### 1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

### BULLETIN NO. 101-A—NEW HAMPSHIRE

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, this Bulletin No. 101-A—New Hampshire contains the provisions of the 1937 Soil Conservation Program with respect to payments for diversion from the 1937 tobacco soil-depleting base.

The provisions of this bulletin shall be applicable only to those farms for which a tobacco soil-depleting base is established and all of the provisions of Bulletin No. 101—New Hampshire are applicable to such farms unless otherwise provided herein.

*Part I. The Soil-Building Allowance*

For farms with a tobacco soil-depleting base the provisions of this part I shall be applicable in lieu of the provisions of part II of Bulletin No. 101—New Hampshire.

The soil-building allowance for any farm is the maximum amount that may be paid for carrying out soil-building practices on the farm.

SECTION 1. The soil-building allowance for any farm not eligible to earn a tobacco diversion payment and for any farm having a tobacco soil-depleting base of five acres or less with respect to which no application is made for a tobacco diversion payment shall be the sum of such of the following items as are applicable to that farm, but shall not be less than $20.00 for any such farm:

(a) *Crop land.*—$1.00 for each acre of crop land, excluding commercial orchards, on the farm on January 1, 1937.

(b) *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

(c) *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936;

$2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

(d) *Non-crop pasture land.*—$0.40 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

SECTION 2. The soil-building allowance for any farm having a tobacco soil-depleting base of more than five acres and for any farm having a tobacco soil-depleting base of five acres or less with respect to which an application is made for a tobacco diversion payment shall be the sum of such of the following items as are applicable to such farm, but shall not be less than $10.00 for any such farm:

(a) *Crop land.*—$1.00 for each acre of crop land represented by the sum of

(1) The difference between the sum of (a) the tobacco soil-depleting base for the farm and (b) the general soil-depleting base which was or could have been established for the farm in 1936 and the total acres of crop land (excluding commercial orchards, vineyards, and bush fruits); and

(2) The number of acres diverted for payment from the tobacco soil-depleting base.

(b) *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

(c) *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936; $2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

(d) *Non-crop pasture land.*—$0.40 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

*Part II. Tobacco Program for Types 51 and 52*

SECTION 1. *Tobacco Payment.*—A payment of 4 cents per pound based on the normal tobacco yield per acre will be paid for each acre diverted in 1937 from the 1937 tobacco soil-depleting base established for the farm, not in excess of 15 percent of such base, provided that such payment will not be made with respect to an acreage greater than the number of acres by which the acreage of soil-conserving crops on the farm in 1937 exceeds the soil-conserving base.

SECTION 2. *Tobacco Soil-Depleting Base and Yield.*—The 1937 tobacco soil-depleting base for any farm in a county shall be the tobacco soil-depleting base which was or could have been established for such farm under the 1936 Agricultural Conservation Program, subject to any adjustment which will result in equitable bases for all farms in the county for which tobacco bases are established, taking into consideration production facilities and their use; provided:

(a) The tobacco soil-depleting base for any farm shall not be more than twice the acreage of tobacco grown in 1937.

(b) The sum of the tobacco soil-depleting bases for the farms in any county or other specified area shall not exceed an acreage for tobacco established for such county or other specified area by the Agricultural Adjustment Administration.

(c) The weighted average of the yield of tobacco per acre for all farms for which 1937 tobacco soil-depleting bases are established in any county or other specified area shall not exceed the average yield of tobacco per acre established for such county or other specified area by the Agricultural Adjustment Administration.

SECTION 3. *Deductions for an Acreage of Tobacco in Excess of the 1937 Tobacco Soil-Depleting Base.*—If the 1937 acreage of tobacco exceeds the 1937 tobacco soil-depleting base, a deduction will be made, from any payment which otherwise would be made respecting the farm, for each acre of such excess at the rate of 4¢ per pound based on the normal tobacco yield per acre.

*Part III. Miscellaneous Provisions*

SECTION 1. *Division of Payments.*—(a) The payment for diversion from the 1937 tobacco soil-depleting base for a farm covered by an application for payment shall be divided between the producers concerned in the proportion that each shares in the tobacco grown on that farm or the proceeds thereof.

(b) Any payment for a farm shall be computed without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of any creditor.

*Part IV. Classification of Land Use and Crops*

SECTION 1. *Soil-Conserving.* (a) Land devoted to any of the following crops shall be regarded as used for the production of soil-conserving crops except that any land from which any crop, other than a soil-conserving crop, is harvested in the same year shall not be regarded as having been used for the production of a soil-conserving crop in such year, except as provided in (b) below.

If two or more soil-conserving crops are grown on the same land during any year the acreage of such land counted as soil-conserving shall not exceed the acreage on which such crops are grown.

(1) Sweet, medium red alsike, and mammoth red clover, alfalfa, and white clover.

(2) Vetch, winter peas, bur or crimson clover, annual varieties of lespedeza, and crotalaria.

(3) Soybeans, velvet beans, and cowpeas, except when harvested for grain or hay.

(4) Sudan grass, millet, Italian, ryegrass, and sorghums, not harvested for grain, hay, or forage.

(5) Sowed corn and rape when plowed or disked under.

(6) Bluegrass, redtop, timothy, orchard grass, Bermuda, carpet grass, and mixtures of any of these.

(7) Rye, oats, barley, wheat, buckwheat, and grain mixtures, not cut for grain or hay; *provided*, a good growth is left on the land or plowed under.

(8) Forest trees planted on crop land.

(b) Land devoted to any of the combinations of soil-conserving and other than soil-conserving crops listed below shall be regarded as used for the production of a soil-conserving crop.

(1) All the land from which a crop other than soil-conserving is harvested in 1937 and followed by legumes (classified in (a) above as soil-conserving) or perennial grasses (whether seeded in or following such crop) shall be classified as soil-conserving.

(2) All the land on which green-manure crops are seeded following commercial vegetables and plowed under as green manure after having attained at least a 12-inch or 2 months' growth shall be classified as soil-conserving.

*Part V. Definitions*

As used herein, and in all forms and documents relating to the 1937 Agricultural Conservation Program in the Northeast Region, the term—

*Soil-Conserving Base* means the acreage represented by the difference between the total crop land (excluding commercial orchards, vineyards and bush fruits, and idle land) and the sum of the 1937 tobacco soil-depleting base and the 1936 general soil-depleting base established for the farm or which could have been established under the 1936 Agricultural Conservation Program.

*Tobacco Diversion Payment* means a payment for a diversion from the 1937 tobacco soil-depleting base.

*Tobacco Soil-Depleting Base* means the number of acres established for the farm as the acreage normally used for the production of types 51 and 52 tobacco.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 5th day of February 1937.

[SEAL]

H. A. WALLACE,
*Secretary of Agriculture.*

NER—B-101-A—New York — Issued February 5, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101-A—NEW YORK

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, this Bulletin No. 101-A—New York contains the provisions of the 1937 Soil Conservation Program with respect to payments for diversion from the 1937 tobacco soil-depleting base.

The provisions of this bulletin shall be applicable only to those farms for which a tobacco soil-depleting base is established and all of the provisions of Bulletin No. 101—New York are applicable to such farms unless otherwise provided herein.

*Part I. The Soil-Building Allowance*

For farms with a tobacco soil-depleting base the provisions of this part I shall be applicable in lieu of the provisions of part II of Bulletin No. 101—New York.

The soil-building allowance for any farm is the maximum amount that may be paid for carrying out soil-building practices on the farm.

SECTION 1. The soil-building allowance for any farm not eligible to earn a tobacco diversion payment and for any farm having a tobacco soil-depleting base of five acres or less with respect to which no application is made for a tobacco diversion payment shall be the sum of such of the following items as are applicable to that farm, but shall not be less than $20.00 for any such farm:

(a) *Crop land.*—$1.00 for each acre of crop land, excluding commercial orchards, on the farm on January 1, 1937.

(b) *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

(c) *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936;

$2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

(d) *Non-crop pasture land.*—$.35 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

SECTION 2. The soil-building allowance for any farm having a tobacco soil-depleting base of more than five acres and for any farm having a tobacco soil-depleting base of five acres or less with respect to which an application is made for a tobacco diversion payment shall be the sum of such of the following items as are applicable to such farm, but shall not be less than $10.00 for any such farm.

(a) *Crop land.*—$1.00 for each acre of crop land represented by the sum of

(1) The difference between the sum of (a) the tobacco soil-depleting base for the farm and (b) the general soil-depleting base which was or could have been established for the farm in 1936 and the total acres of crop land (excluding commercial orchards, vineyards, and bush fruits); and

(2) The number of acres diverted for payment from the tobacco soil-depleting base.

(b) *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

(c) *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936; $2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

(d) *Non-crop pasture land.*—$.35 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

*Part II. Tobacco Program*

SECTION 1. *Tobacco Payment.*—A payment of 3 cents per pound based on the normal tobacco yield per acre will be paid for each acre diverted in 1937 from the 1937 tobacco soil-depleting base established for the farm, not in excess of 25 percent of such base, provided that such payment will not be made with respect to an acreage greater than the number of acres by which the acreage of soil-conserving crops on the farm in 1937 exceeds the soil-conserving base.

SECTION 2. *Tobacco Soil-Depleting Base and Yield.*—The 1937 tobacco soil-depleting base for any farm in a county shall be the tobacco soil-depleting base which was or could have been established for such farm under the 1936 Agricultural Conservation Program, subject to any adjustment which will result in equitable bases for all farms in the county for which tobacco bases are established, taking into consideration production facilities and their use; provided:

(a) The tobacco soil-depleting base for any farm shall not be more than twice the acreage of tobacco grown in 1937.

(b) The sum of the tobacco soil-depleting bases for the farms in any county or other specified area shall not exceed an acreage for tobacco established for such county or other specified area by the Agricultural Adjustment Administration.

(c) The weighted average of the yield of tobacco per acre for all farms for which 1937 tobacco soil-depleting bases are established in any county or other specified area shall not exceed the average yield of tobacco per acre established for such county or other specified area by the Agricultural Adjustment Administration.

SECTION 3. *Deductions for an Acreage of Tobacco in Excess of the 1937 Tobacco Soil-Depleting Base.*—If the 1937 acreage of tobacco exceeds the 1937 tobacco soil-depleting base, a deduction will be made, from any payment which otherwise would be made respecting the farm, for each acre of such excess at the rate of 3 cents per pound based on the normal tobacco yield per acre.

*Part III. Miscellaneous Provisions*

SECTION 1. *Division of Payments.*—(a) The payment for diversion from the 1937 tobacco soil-depleting base for a farm covered by an application for payment shall be divided between the producers concerned in the proportion that each shares in the tobacco grown on that farm or the proceeds thereof.

(b) Any payment for a farm shall be computed without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of any creditor.

*Part IV. Classification of Land Use and Crops*

SECTION 1. *Soil-Conserving.*—(a) Land devoted to any of the following crops shall be regarded as used for the production of soil-conserving crops except that any land from which any crop, other than a soil-conserving crop, is harvested in the same year shall not be regarded as having been used for the production of a soil-conserving crop in such year, except as provided in (b) below.

If two or more soil-conserving crops are grown on the same land during any year the acreage of such land counted as soil-conserving shall not exceed the acreage on which such crops are grown.

(1) Sweet, medium red, alsike, and mammoth red clover, alfalfa, and white clover.

(2) Vetch, winter peas, bur or crimson clover, annual varieties of lespedeza, and crotalaria.

(3) Soybeans, velvet beans, and cowpeas, except when harvested for grain or hay.

(4) Sudan grass, millet, Italian ryegrass, and sorghums, not harvested for grain, hay, or forage.

(5) Sowed corn and rape when plowed or disked under.

(6) Bluegrass, redtop, timothy, orchard grass, Bermuda, carpet grass, and mixtures of any of these.

(7) Rye, oats, barley, wheat, buckwheat, and grain mixtures, not cut for grain or hay; *provided*, a good growth is left on the land or plowed under.

(8) Forest trees planted on crop land.

(b) Land devoted to any of the combinations of soil-conserving and other than soil-conserving crops listed below shall be regarded as used for the production of a soil-conserving crop.

(1) All the land from which a crop other than soil-conserving is harvested in 1937 and followed by legumes (classified in (a) above as soil-conserving) or perennial grasses (whether seeded in or following such crop) shall be classified as soil-conserving.

(2) All the land on which green-manure crops are seeded following commercial vegetables and plowed under as green-manure after having attained at least a 12-inch or 2 months' growth shall be classified as soil-conserving.

*Part V. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in the Northeast Region, the following terms shall have the following meanings:

*Soil-Conserving Base* means the acreage represented by the difference between the total crop land (excluding commercial orchards, vineyards and bush fruits, and idle land) and the sum of the 1937 tobacco soil-depleting base and the 1936 general soil-depleting base established for the farm or which could have been established under the 1936 Agricultural Conservation Program.

*Tobacco Diversion Payment* means a payment for a diversion from the 1937 tobacco soil-depleting base.

*Tobacco Soil-Depleting Base* means the number of acres established for the farm as the acreage normally used for the production of tobacco.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 5th day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

NER—B-101-A—Vermont Issued February 5, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101-A—VERMONT

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, this Bulletin No. 101-A—Vermont contains the provisions of the 1937 Soil Conservation Program with respect to payments for diversion from the 1937 tobacco soil-depleting base.

The provisions of this bulletin shall be applicable only to those farms for which a tobacco soil-depleting base is established and all of the provisions of Bulletin No. 101—Vermont are applicable to such farms unless otherwise provided herein.

*Part I. The Soil-Building Allowance*

For farms with a tobacco soil-depleting base the provisions of this part I shall be applicable in lieu of the provisions of part II of Bulletin No. 101—Vermont.

The soil-building allowance for any farm is the maximum amount that may be paid for carrying out soil-building practices on the farm.

SECTION 1. The soil-building allowance for any farm not eligible to earn a tobacco diversion payment and for any farm having a tobacco soil-depleting base of five acres or less with respect to which no application is made for a tobacco diversion payment shall be the sum of such of the following items as are applicable to that farm, but shall not be less than $20.00 for any such farm:

(a) *Crop land.*—$1.00 for each acre of crop land, excluding commercial orchards, on the farm on January 1, 1937.

(b) *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

(c) *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936;

$2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

(d) *Non-crop pasture land.*—$.40 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

SECTION 2. The soil-building allowance for any farm having a tobacco soil-depleting base of more than five acres and for any farm having a tobacco soil-depleting base of five acres or less with respect to which an application is made for a tobacco diversion payment shall be the sum of such of the following items as are applicable to such farm, but shall not be less than $10.00 for any such farm.

(a) *Crop land.*—$1.00 for each acre of crop land represented by the sum of

(1) The difference between the sum of (a) the tobacco soil-depleting base for the farm and (b) the general soil-depleting base which was or could have been established for the farm in 1936 and the total acres of crop land (excluding commercial orchards, vine-yards, and bush fruits); and

(2) The number of acres diverted for payment from the tobacco soil-depleting base.

(b) *Commercial orchards.*—$2.00 for each acre of commercial orchards cultivated on the farm on January 1, 1937.

(c) *Commercial vegetable land.*—$1.00 for each acre of crop land on which *only one* crop of commercial vegetables was grown in 1936;

$2.00 for each acre of crop land on which *two or more* crops of commercial vegetables were grown on the same acreage in 1936.

(d) *Non-crop pasture land.*—$0.40 for each acre of fenced non-crop open pasture land in excess of one-half of the number of acres of crop land on the farm.

*Part II. Tobacco Program for Types 51 and 52*

SECTION 1. *Tobacco Payment.*—A payment of 4 cents per pound based on the normal tobacco yield per acre will be paid for each acre diverted in 1937 from the 1937 tobacco soil-depleting base established for the farm, not in excess of 15 percent of such base, provided that such payment will not be made with respect to an acreage greater than the number of acres by which the acreage of soil-conserving crops on the farm in 1937 exceeds the soil-conserving base.

SECTION 2. *Tobacco Soil-Depleting Base and Yield.*—The 1937 tobacco soil-depleting base for any farm in a county shall be the tobacco soil-depleting base which was or could have been established for such farm under the 1936 Agricultural Conservation Program, subject to any adjustment which will result in equitable bases for all farms in the county for which tobacco bases are established, taking into consideration production facilities and their use; provided:

(a) The tobacco soil-depleting base for any fam shall not be more than twice the acreage of tobacco grown in 1937;

(b) The sum of the tobacco soil-depleting bases for the farms in any county or other specified area shall not exceed an acreage for tobacco established for such county or other specified area by the Agricultural Adjustment Administration;

(c) The weighted average of the yield of tobacco per acre for all farms for which 1937 tobacco soil-depleting bases are established in any county or other specified area shall not exceed the average yield of tobacco per acre established for such county or other specified area by the Agricultural Adjustment Administration.

SECTION 3. *Deductions for an Acreage of Tobacco in Excess of the 1937 Tobacco Soil-Depleting Base.*—If the 1937 acreage of tobacco exceeds the 1937 tobacco soil-depleting base, a deduction will be made, from any payment which otherwise would be made respecting the farm, for each acre of such excess at the rate of 4¢ per pound based on the normal tobacco yield per acre.

*Part III. Miscellaneous Provisions*

SECTION 1. *Division of Payments.*—(a) The payment for diversion from the 1937 tobacco soil-depleting base for a farm covered by an application for payment shall be divided between the producers concerned in the proportion that each shares in the tobacco grown on that farm or the proceeds thereof.

(b) Any payment for a farm shall be computed without regard to questions of title under State Law, without deductions of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of any creditor.

*Part IV. Classification of Land Use and Crops*

SECTION 1. *Soil-Conserving.*—(a) Land devoted to any of the following crops shall be regarded as used for the production of soil-conserving crops except that any land from which any crop, other than a soil-conserving crop, is harvested in the same year shall not be regarded as having been used for the production of a soil-conserving crop in such year, except as provided in (b) below.

If two or more soil-conserving crops are grown on the same land during any year the acreage of such land counted as soil-conserving shall not exceed the acreage on which such crops are grown.

(1) Sweet, medium red, alsike, and mammoth red clover, alfalfa, and white clover.

(2) Vetch, winter peas, bur or crimson clover, annual varieties of lespedeza, and crotalaria.

(3) Soybeans, velvet beans, and cowpeas, except when harvested for grain or hay.

(4) Sudan grass, millet, Italian ryegrass, and sorghums, not harvested for grain, hay, or forage.

(5) Sowed corn and rape when plowed or disked under.

(6) Bluegrass, redtop, timothy, orchard grass, Bermuda, carpet grass, and mixtures of any of these.

(7) Rye, oats, barley, wheat, buckwheat, and grain mixtures, not cut for grain or hay; *provided*, a good growth is left on the land or plowed under.

(8) Forest trees planted on crop land.

(b) Land devoted to any of the combinations of soil-conserving and other than soil-conserving crops listed below shall be regarded as used for the production of a soil-conserving crop.

(1) All the land from which a crop other than soil-conserving is harvested in 1937 and followed by legumes (classified in (a) above as soil-conserving) or perennial grasses (whether seeded in or following such crop) shall be classified as soil-conserving.

(2) All the land on which green-manure crops are seeded following commercial vegetables and plowed under as green-manure after having attained at least a 12 inch or 2 months' growth shall be classified as soil-conserving.

*Part V. Definitions*

As used herein, and in all forms and documents relating to the 1937 Agricultural Conservation Program in the Northeast Region, the term—

*Soil-Conserving Base* means the acreage represented by the difference between the total crop land (excluding commercial orchards, vineyards and bush fruits, and idle land) and the sum of the 1937 tobacco soil-depleting base and the 1936 general soil-depleting base established for the farm or which could have been established under the 1936 Agricultural Conservation Program.

*Tobacco Diversion Payment* means a payment for diversion from the 1937 tobacco soil-depleting base.

*Tobacco Soil-Depleting Base* means the number of acres established for the farm as the acreage normally used for the production of types 51 and 52 tobacco.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 5th day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-410; Filed, February 9, 1937; 12:50 p.m.]

## Bureau of Public Roads.

ELIMINATION OF HAZARDS TO LIFE AT RAILROAD GRADE CROSSINGS

Pursuant to the authority vested in the Secretary of Agriculture by the Federal Highway Act of November 9, 1921 (42 Stat. 212), as amended and supplemented, the following rules and regulations are hereby adopted and promulgated for administering the provisions of Section 8 of the Act approved June 16, 1936 (Public No. 686—74th Congress), relating to the elimination of hazards to life at railroad grade crossings.

Done at the City of Washington this 9th day of February, 1937, as witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

---

RULES AND REGULATIONS FOR CARRYING OUT THE PROVISIONS OF SECTION 8 OF THE ACT OF JUNE 16, 1936 (PUBLIC, NO. 686—74TH CONGRESS), WHICH RELATE TO THE ELIMINATION OF HAZARDS TO LIFE AT RAILROAD GRADE CROSSINGS IN ACCORDANCE WITH THE PROVISIONS OF THE FEDERAL HIGHWAY ACT

*Definitions*

SECTION 1. For the purposes of these rules and regulations the following definitions shall control:

"Act" shall mean Section 8 of the Act of June 16, 1936 (Public, No. 686—74th Congress), which provides for the elimination of hazards to life at railroad grade crossings, including the separation or protection of grades at crossings, the reconstruction of existing railroad grade crossing structures, and the relocation of highways to eliminate grade crossings in accordance with the provisions of the Federal Highway Act, as amended and supplemented.

"State" as used herein shall include the Territory of Hawaii, the Island of Puerto Rico and the District of Columbia.

"Secretary" shall mean the Secretary of Agriculture of the United States.

"Grade Crossing Funds" shall mean the funds authorized by Section 8 of the Act to be apportioned among the several States by the Secretary of Agriculture for the elimination of hazards to life at railroad grade crossings.

"Municipality" shall mean a populous community, generally of defined area, usually organized pursuant to law into a body politic with corporate name and continuous succession and for the purpose and with the authority of subordinate local self-government.

"Project" shall mean a definite undertaking for a purpose defined under the Act.

"Railroad" shall mean an individually owned and/or operated railroad in any State.

Projects located on the Federal aid highway system outside of municipalities shall be designated "Federal Aid Grade Crossing Project No. FAGH —." Projects within municipalities, whether or not located on extensions of the Federal aid highway system into or through such municipalities, shall be designated "Federal Aid Grade Crossing Project No. FAGM —." Projects located outside of municipalities and not on the Federal aid highway system shall be designated "Federal Aid Grade Crossing Project No. FAGS —."

*Initiation of Projects*

SECTION 2. All projects under this Act shall be initiated by the States and submitted in the same manner as other Federal aid projects, and all such projects shall be subject to all of the provisions of the rules and regulations of the Secretary of Agriculture in effect for administering the Federal Highway Act, as amended, except such provisions as are inconsistent or in conflict with these rules and regulations.

*Application of Funds to Projects*

SECTION 3. The funds apportioned to any State under the Act shall be applied to projects without limitation as to geographic location.

To secure a reasonably equitable distribution of benefits among the railroads in a State, projects shall be apportioned, within practical limits, to the railroads therein in such manner that the total cost of the project or projects on any railroad shall have approximately the same relation to the total apportionment to the State as the road mileage of such railroad bears to the total road mileage of all railroads in the State. For this purpose data obtained from the Interstate Commerce Commission will be furnished each State showing the road mileage, exclusive of trackage rights, owned or operated therein on December 31, 1935, by the individual Class 1 railroads, together with the road mileage of railroads of all other classifications owned or operated in the State.

At the discretion of the State, projects may be programmed within practical limits, on other than Class 1 railroads to the extent of the indicated apportionment to such railroads, or the indicated apportionment to other than Class 1 railroads may be distributed proportionately among the Class 1 railroads, or used to increase the apportionment to one or more of the Class 1 railroads, to accomplish the programming of desirable projects, without regard to the fact that some Class 1 railroads may control other than Class 1 railroad mileage. Exception may be made to the general principle of the apportionment of benefits to the railroads in any State where the crossings of any railroad on the basis of both railroad and highway traffic usage are of low priority in comparison with the crossings of other railroads.

The mileage of high speed electric railway lines in any State may be considered in connection with the programming of projects, in which event the intention to program projects for such mileage shall be reported by a State highway department when submitting the first increment of its program. Nothing in this method of distribution of projects shall operate to prevent the elimination of hazards to life at important main line railroad crossings on railroads which may have only a relatively small mileage in any one State.

The total amount of grade crossing funds authorized for apportionment among the States for the elimination of hazards to life at railroad grade crossings for any one or more fiscal years may be adopted as the basis for a corresponding distribution of benefits to the railroads for the period covered by such authorizations: Provided, That the cost chargeable to grade crossing funds, of all projects programmed for construction in a State in any one year shall not exceed the amount of such funds available to the State.

*Types of Projects*

SECTION 4. The apportioned funds shall be available to pay the direct cost of the construction of projects of the following character, exclusive of any charges for rights of way and/or property damage:

(a) The separation of grades at crossings.
(b) The protection of grade crossings.
(c) The reconstruction of existing railroad grade separation structures.
(d) The relocation of highways to eliminate grade crossings.
(e) The relocation of railroads to eliminate grade crossings.

The separation of grades at crossings may be by underpass or by overpass and may include any necessary track elevation or track depression, and such additional work as may be required by changes in grade or alignment of the highway or by relocation of the highway or the railroad tracks. Grade crossing funds may be used in combination with funds from other sources for the accomplishment of projects of greater magnitude than otherwise would be possible. The cost chargeable to grade crossing funds of relocating and constructing the highway approaches to new or reconstructed grade separation structures shall be limited to work actually necessary and performed within 1,500 feet on each side of the nearest track of the crossing measured along the center line of the highway improvement: *Provided, however*, That where conditions justify, the length of any one such approach may be increased if accompanied by a corresponding decrease in the length of the other approach. In all cases where the approaches to grade separation structures are constructed on existing locations, the cost chargeable to grade crossing funds of constructing such approaches shall be limited to such lengths on either side of the crossing structure as are necessary for proper approach grades and vertical curves to connect with the existing roadway.

The protection of railroad grade crossings shall be accomplished by means of approved flashing light signals, unless greater protection is desired than is afforded by flashing lights, in which event the installation of single gate arms in combination with flashing lights, the installation of crossing gates, the installation of barriers or other similar devices, which are satisfactory to the State highway department and the affected railroad company, may be submitted for approval. Railroad grade crossing protection devices of the flashing light type shall permit the use of:

(1) Recommended standards for flashing light signals adopted by the Joint Committee on Grade Crossing Protection of the Association of American Railroads.
(2) Flashing light signals conforming essentially to the standards recommended by the Joint Committee on Grade Crossing Protection of the Association of American Railroads which carry additional features, such as a rotating disc or other devices, which do not impair the operation or detract from the uniformity or utility of the signals.
(3) A wigwag signal of the magnetic type having standard signs and mounting height, a balanced outline reasonably in keeping with stationary lights with backgrounds and, when operating, an aspect essentially the same as flashing lights.

Prior to the approval of any project for the protection of any railroad grade crossing, a definite agreement with respect to the maintenance of each such protection installation shall be entered into between the State highway department and the affected railroad company and approved by the Bureau of Public Roads. The plans and specifications for protection work shall be in sufficient detail to define or describe the exact kind and quality of material required, or in the case of an operating mechanism they shall cover fully the essential requirements of the operating parts so that there may be effective competition in securing materials or parts going into such installations.

The reconstruction of existing railroad grade separation structures shall include strengthening and widening or a relocation and rebuilding of the structure to provide alignment adequate for the safety of highway traffic.

The relocation of any necessary length of highway to eliminate railroad grade crossings shall include the construction of new highway facilities and/or the reconstruction of an existing highway so that rerouted traffic will not encounter the crossings, but the total cost of any such highway relocation chargeable to grade crossing funds shall not exceed:

(1) The estimated cost of providing grade separation structures and approaches thereto for the avoided crossings; nor shall it exceed
(2) The estimated cost of providing on the relocation an improvement to modern standards of alignment and grade, with surfacing of a type comparable to that existing on the portion of the route so relocated.

The estimated cost of providing grade separation structures and approaches thereto for avoided crossings shall be determined and agreed upon by the State highway department and representatives of the affected railroad company. A copy of such estimate properly approved and signed by representatives of these agencies shall be filed with each project of this character. The estimated cost of providing on the relocation an improvement to modern standards of alignment and grade with surfacing of a type comparable to that existing on the portion of the route so relocated shall be determined by the State highway department and approved by the Bureau of Public Roads.

Before approval of a project for a highway relocation to eliminate railroad grade crossings at an estimated cost in excess of the amount chargeable to grade crossing funds provision must be made to complete the relocation with other funds. If other Federal funds are to be used, the work shall be separated into corresponding sections. Grading as first stage construction will be acceptable on highway relocations to eliminate railroad grade crossings provided the State highway department will enter into an agreement for future surfacing within a definite date.

The relocation of railroads to eliminate railroad grade crossings may be undertaken whenever deemed by the affected interests the most economical and satisfactory procedure.

Where a highway relocation project avoids grade crossings over the existing tracks of more than one railroad, the cost shall be chargeable to the railroads involved in the ratios which the number of existing tracks of each railroad bears to the total number of existing tracks at the avoided crossings. Where a single grade separation structure eliminates grade crossings over the tracks of more than one railroad the cost shall be chargeable to the railroads involved on the basis of the number of tracks of the respective railroads that the grade separation structure will accommodate. Nothing in the above methods of obtaining a division of cost of a project to more than one railroad shall prevent the affected railroads from agreeing upon any other basis of division and when such agreement exists the terms thereof shall apply.

*Selection of Projects*

SECTION 5. Insofar as practicable and feasible projects on each railroad to which funds are allocated under the foregoing principles shall be selected with respect to the elimination of greatest traffic hazards and in accordance with mutual agreements between the State and the affected railroad. Grade crossings within or adjacent to the larger municipalities, which are manually protected and which are used by a considerable volume of highway traffic, or which are frequently occupied by train movements, are desirable projects for elimination if funds are available for the settlement of right of way costs and/or property damage, or if provision has been made by the State or local authorities for such costs. Where legal authority exists for the physical closure of railroad grade crossings, and where, by the construction of a grade separation structure with adequate approaches, the use of an existing grade crossing or grade crossings is rendered unnecessary for the convenience of the general public, approval of a project for the construction of a grade separation structure shall be contingent upon prior provision for the physical closure of such grade crossing or crossings after completion of the structure and adequate approaches thereto. Any lateral connections necessary to accomplish the physical closure of such existing grade crossings may be included as a part of the project and paid for with grade crossing funds. The extent to which railroad grade crossing protection may be employed in lieu of grade crossing eliminations will be determined by the State highway department subject to the condition, however, that hazardous crossings which cannot be reached in the elimination program and which are not now protected by acceptable devices, may be required to be acceptably protected as a part of any program.

*Surveys, Plans, Specifications, etc.*

SECTION 6. Surveys and plans, specifications and estimates for all projects in each State shall be prepared under the direction of the State highway department and the construction involved shall be under the supervision of the State highway department. The State highway department may utilize the services of the engineering organizations of the affected railroad companies, or the engineering organizations of consulting engineers for the preparation of plans for any project. Inasmuch as the Federal Highway Act requires each State to maintain at its own expense a State highway department having adequate powers and suitably equipped and organized to discharge the duties required by the legislation, no part of the cost of maintaining a central office organization of the State highway department or of railroad or consultants' engineering organizations which may be utilized by the State shall be paid with federal funds. Engineering charges reimbursable with federal funds shall be limited to any necessary costs incurred and to the salaries of individuals directly employed in the preparation of surveys, plans, specifications and in the supervision of construction. The cost of surveys, plans and specifications shall not be considered as a part of the customary percentage added to cost estimates for engineering and unforeseen contingencies but no part of the cost of the surveys, plans, specifications and engineering supervision of construction shall be paid to any State which restricts employment of engineers on such work to residents of the State. The design requirements for highway bridges as contained in the Standard Specifications for Highway Bridges adopted by the American Association of State Highway Officials shall obtain with respect to structures carrying highway traffic over the railroads. The design requirements of the American Railway Engineering Association shall obtain with respect to structures carrying railroad traffic. Railroad clearances in general shall conform to those in effect on the individual railroads concerned. The design for grade separation structures shall provide for such additional railroad trackage as reasonably may be anticipated

*Methods of Undertaking Work*

SECTION 7. Wherever feasible and practicable the contract method shall be followed in performing work. Work necessary for the maintenance of railroad traffic including temporary support trestles, track adjustment, signal installation and adjustment, the rearrangement of telephone and telegraph lines on railroad right of way, and the adjustment of existing drainage facilities may be undertaken on a force account basis by the railroad or other utility involved with its own forces. On such work reimbursement will be made for proper costs incurred because of the project and the corresponding accounts must be kept in such way that they readily may be audited. Any material furnished by a railroad company or other utility for temporary work will be reimbursed at actual cost less fair salvage value when the material is released.

Where a State highway department is organized and equipped to undertake projects on a day labor or force account basis, or where it desires to utilize the services of other efficient organizations, organized and equipped to undertake special kinds of work on a project on a day labor or force account basis, approval may be given to such methods of undertaking work on individual projects.

*Highway Planning Projects*

SECTION 8. With the approval of the Secretary, not to exceed one and one-half per centum of the amount apportioned to any State for eliminating the hazards to life at railroad grade crossings may be used for surveys, plans, engineering and economic investigations of projects for future construction in such State or for the general planning of a complete highway system and future programs of highway improvement for such State. Such proposed surveys, plans and engineering investigations shall be initiated by the State highway department in the same manner as are other projects by the submission of a project statement and if approved by the Secretary, the work shall be prosecuted under a project agreement.

*State Regulatory Bodies*

SECTION 9. A State which has laws vesting control of grade crossing matters in any other agency than the State highway department must necessarily effect cooperative arrangements between such agency and the State highway department for the purpose of carrying out the program of projects contemplated by the Act. Controversies over the division of cost between a railroad and the State should not arise when Federal funds are available for such projects without being matched with State funds. Where agreement exists on grade crossing projects between other affected parties with respect to established grades, clearances, etc., and where controversies are eliminated respecting division of costs approval of a public utilities commission or other similar governing body in a State should be largely a matter of form. Every effort, therefore, should be made to prevent delay to the program because of any necessity for clearing such matters through a State regulatory body.

*Contributions From Railroads*

SECTION 10. Grade crossing projects shall be undertaken on a basis that will impose no involuntary contributions on the affected railroads. State laws which impose a fixed contribution upon the railroads for grade crossing projects shall be held not to apply to projects under the Act. If any contribution by a railroad company is indicated for right of way or construction cost of any project, the record of such project shall be supplemented by a statement from the railroad company that the indicated participation is wholly voluntary.

*Maintenance of Grade Crossing Projects*

SECTION 11. Project agreements for grade crossing projects shall provide for the maintenance of such projects by the State to the extent permitted by State law; otherwise the State shall submit, in the form prescribed by the Secretary, an agreement for such maintenance with the agency or agencies responsible therefor prior to the approval of the project.

## DEPARTMENT OF COMMERCE.

### Bureau of Marine Inspection and Navigation.

DESIGNATION OF UNITED STATES SHIPPING COMMISSIONERS AS ENFORCEMENT OFFICERS FOR THE PURPOSES OF THE ACT OF JUNE 25, 1936

Section 7 of the Act of June 25, 1936 (Public No. 808—74th Congress; 49 Stat. 1936), makes it the duty of the Secretary of Commerce to enforce the provisions of the above Act through collectors of customs and other government officers acting under the direction of the Bureau of Marine Inspection and Navigation, and to make such rules and regulations as he may deem necessary to carry out the provisions of the said Act.

In order to enforce more effectually compliance with the provisions of this Act, United States Shipping Commissioners are hereby designated as enforcement officers for carrying out the provisions of the Act.

Approved, February 9, 1937.

[SEAL] DANIEL C. ROPER, *Secretary of Commerce.*

## FEDERAL HOME LOAN BANK BOARD.

### Federal Savings and Loan Insurance Corporation.

AMENDMENT TO RULES AND REGULATIONS

ANNUAL REPORTS OF MEMBERS

*Be it resolved*, That pursuant to authority vested in the Federal Home Loan Bank Board by subsection (a) of Section 5 of Home Owners' Loan Act of 1933 (12 U. S. C. 1464 (a)) the third sentence of Section 34 of Rules and Regulations for Federal Savings and Loan Associations be amended to read as follows:

Within thirty days after December 31 of each year two copies shall be forwarded to the Federal Home Loan Bank of which the association is a member, one copy of which shall thereupon be transmitted by the Bank to the Governor of the Federal Home Loan Bank System.

Adopted by the Federal Home Loan Bank Board on February 4th, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[F. R. Doc. 37-400; Filed, February 9, 1937; 12:03 p. m.]

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of February A. D. 1937.

COMMISSIONERS: William A. Ayres, Chairman; Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[Docket No. 2694]

IN THE MATTER OF I. S. U. RANK AND FILE GROUP, I. S. U. RANK AND FILE MEMBERS, RANK AND FILE COMMITTEE OF THE I. S. U., RANK AND FILE INTERNATIONAL SEAMEN'S UNION, LOUIS WEINSTOCK, ABRAHAM BASKOFF, RICHARD M. KROON, FRANK MOZER, J. P. ANDERSON, A. ALLEN, ELMER JOHNSON, ROBERT C. BROWN, HARRY BRIDGES, DAVID GORDON, ELMER BROWN, BEN GERJOY, DORA ZUKOR (OR ZUCKER), C. TAYLOR, LUIGI GENOVESE, M. MANES (OR MANIS), T. L. MAJOR, A. EDWARDS, G. ALSTON, M. BALYA, G. SPAGNOL, A. W. MCPHERSON, KARL MAISUS (OR MASIS), A. WEINER, WILLIAM THACKER, E. CREWS, F. PHILLIPS, A. FLEMING, AND CHARLES B. KILLINGER

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission, under an Act of Congress (38 Stat. 717; 15 U. S. C. A., Section 41),

It is ordered that John L. Hornor, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered that the taking of testimony in this proceeding begin on Tuesday, February 9, 1937, at ten o'clock in the forenoon of that day (eastern standard time), in Room 424, Federal Trade Commission Building, 815 Connecticut Avenue, Washington, D. C.

Upon completion of testimony for the Federal Trade Commission, the examiner is directed to proceed immediately to take testimony and evidence on behalf of the respondent. The examiner will then close the case and make his report.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

[F. R. Doc. 37-398; Filed, February 9, 1937; 10:21 a. m.]

## INTERSTATE COMMERCE COMMISSION.

[Ex Parte No. 115]

IN THE MATTER OF INCREASES IN FREIGHT RATES AND CHARGES

FEBRUARY 6, 1937.

*Notice to the Public:*

The above-entitled proceeding was reopened for consideration of proposed increased rates upon certain commodities as described in the petitions of class I railroads filed October 23 and November 21, 1936, respectively. The taking of testimony on behalf of the carriers has been concluded (with exception of certain information to be supplied) upon (1) the general aspects of the reopened proceeding, (2) the lawfulness and propriety of the proposed increased rates upon the so-called heavy basic commodity list, and (3) the percentage relation to first-class rates of fifth and sixth classes when governed by the official classification. The hearing will be resumed at the office of the Commission in Washington at 10 a. m., Tuesday, March 23, 1937. Appendix 1 hereto gives a brief description of the commodities embraced in the heavy basic-commodity list upon which testimony has been received.

Upon resumption of the hearings, protestants may present testimony as to the foregoing matters. Testimony as to other commodities should be reserved. It is desired to conclude the record upon the subjects mentioned before taking up the other commodities included in the two petitions of the carriers. However, testimony will be received separately as to the transcontinental-Mountain-Pacific rates, as will hereinafter appear. At the resumed hearing in Washington the same general order will be followed as in the presentation of testimony on behalf of the carriers, i. e., general testimony first, then testimony as to coal, coke, iron ore, etc., and finally, as to fifth and sixth class relations.

While desirable that as much of the testimony as is possible be produced at Washington, especially that of a general character, the Commission will arrange for further hearings as to the general aspects of the case, the heavy basic-commodities, and as to official classification fifth and sixth class relations, at Boston, Mass., Atlanta, Ga., Chicago, Ill., St. Paul, Minn., and Kansas City, Mo., after the Washington hearing. The dates will be announced later but the outside hearings will commence not earlier than April 15.

The far western and transcontinental rates will be heard independently: the portions of the carriers' applications involved are (as corrected upon the record) shown in appendix 2. It has been arranged to commence the hearing upon these rates at San Francisco, Calif., April 12, 1937, at 10 a. m., at the offices of the Merchants Exchange. Protestants who desire to produce testimony at San Francisco will be given an opportunity to do so immediately following the close of testimony for the western carriers and their connections. Subsequently, at dates hereafter to be announced, but not earlier than May 15, further hearings will be resumed at Salt Lake City, Utah, Los Angeles, Calif., and Portland, Ore., for reception of testimony on behalf of protestants.

In the preparation of exhibits, Rule XIII of the rules of practice should be followed. A copy of the Rule is attached. All documents submitted by a witness should be embraced in one exhibit, suitably bound together, whenever practicable. In order to supply the State Commissioners, the members of this Commission, and counsel in the proceeding, at least 150 copies of each exhibit should be prepared. As far as can be done, exhibits should be self-explanatory, in order to minimize the amount of time required for oral examination thereon. Witnesses coming with prepared statements of their testimony should have sufficient copies thereof for the use of counsel and the Commission. As the voluminous record already made in this proceeding is available for consideration, reference may be made to any exhibit or testimony already received, without reintroduction thereof. If it is desired to submit verified statements (affidavits) in lieu of personal production of a witness, 10 copies should be transmitted to the Commission, and 75 copies to Mr. R. V. Fletcher, attorney for the applicants, Transportation Building, Washington, D. C., a reasonable time in advance of the time when the same are to be submitted for the record. Copies must be furnished to other interested parties who request them, and the rules of practice as to preparation of exhibits should be followed as to style, mimeographing, printing, etc. These statements must be limited to matters of fact and should avoid argument unless these suggestions are followed, the verified statements (affidavits) may be excluded if objection is interposed to their reception.

Persons who desire to be heard at any of these hearings will facilitate the arangements necessary by sending notice of their intention, stating the commodities involved, the number of witnesses, and the approximate amount of time necessary for presentation of direct testimony.

Correspondence relative to this matter should be addressed to the Commission at Washington, with a reference to the docket number, Ex Parte No. 115.

[SEAL] GEORGE B. MCGINTY, *Secretary.*

### APPENDIX 1

HEAVY-BASIC-COMMODITY LIST

*Group 2.*—Coal and coke; iron ore.

*Group 6.*—Iron and steel list.

*Group 3.*—Gypsum rock; plaster retarder; patching plaster; lime (including agricultural lime, common lime, hydrated, quick or slaked; fluxing lime, land lime; land plaster, phospho-plaster and articles grouped therewith); plaster and articles grouped therewith; cement, natural, hydraulic, or portland; and mortar.

*Group 4.*—Petroleum and its products; asphalt and road oil; tar and pitch, benzol, liquefied petroleum gas, and lignin liquor and lignin pitch.

### APPENDIX 2

TRANSCONTINENTAL AND MOUNTAIN-PACIFIC RATES

*Petition of October 23, 1936.*—Exhibit 2, page 71, "Trans-continental Rates" on commodities specified.

*Petition of November 21, 1936.*—(a) Exhibit A, Part 2, page 52:

Between points in North Pacific Coast Freight Bureau Territory, also between points in North Pacific Coast Freight Bureau Territory on the one hand and all other interstate points on the other hand except Trans-Continental Freight Bureau Territory, and except as otherwise provided in Exhibit A—Parts 3 and 5.

(b) Exhibit A, Part 3, page 53:

Between points in North Pacific Coast Freight Bureau Territory on the one hand and Pacific Freight Tariff Bureau (South Coast) Territory on the other hand.

(c) Exhibit A, Part 4, page 55:

Between points in Pacific Freight Traffic Bureau Territory (South Coast) also between points in Pacific Freight Tariff Bureau Territory (South Coast) on the one hand and all other interstate points on the other hand, except Trans-Continental Freight Bureau Territory and except as provided in Exhibit A, Parts 2, 3 and 5.

(d) Exhibit A, Part 5, page 60—Intermountain Territory:

Between points in Montana and between such points and all interstate points, also between points in North Pacific Coast Freight Bureau Territory, points in Pacific Freight Tariff Bureau Territory (South Coast) and points in Western North and South Dakota and Wyoming.

(e) Exhibit A, Part 6, page 65—Intermountain Territory:

| *Between* | *And* |
|---|---|
| Colorado Common Points | Utah Common Points. |
| Colorado | Idaho. |
| Colorado | Utah. |
| Colorado | Wyoming. |
| Colorado | New Mexico. |
| Utah | New Mexico. |
| Utah | Wyoming. |

*Rule XIII Rules of Practice (in part)*

(c) 1. *Tariffs; offer of matter contained in schedules.*—In case any matter contained in a tariff schedule on file with the Commission is offered in evidence, such tariff schedule need not be produced or marked for identification, but the matter so offered shall be specified with particularity in such manner as to be readily identified and may be received in evidence subject to check by reference to the original tariff schedules so on file.

2. *Reference in exhibits to tariff authority, routes, and distances.*—All exhibits showing rates, fares, charges, or other tariff provisions must, by appropriate Interstate Commerce Commission number reference, indicate the tariff authority therefor, and if distances are shown must also show the authority therefor and, by lines and junction points, the routes over which the distances are computed; except that the routes over which the distances are computed need not be shown when such distances are specifically published in a tariff schedule lawfully on file with the Commission, or are definitely ascertainable from a tariff schedule on file with the Commission showing rates prescribed by the Commission and based on short line distances, provided the exhibit makes specific reference to such tariff schedule as provided by this rule.

(d) *Copies of exhibits furnished opposing counsel.*—When exhibits of a documentary character are to be offered in evidence copies must be furnished to opposing counsel, unless the presiding commissioner or examiner otherwise directs. Whenever practicable, the parties should interchange copies of exhibits before or at the commencement of the hearing.

(e) *Size, form, and identification of exhibits; relevancy, materiality; not argumentative.*—All exhibits of a documentary character received in evidence are bound with the rest of the record in covers of uniform size. Whenever practicable they should be on one side only of sheets not exceeding $12\frac{1}{2}$ inches from top to bottom by 22 inches in width, and a sufficient margin for binding, preferably $1\frac{1}{2}$ inches, must be left blank on the left side of each sheet. They must be on paper of good quality and so prepared as to be plainly legible and durable, whether printed or typewritten. If typewritten they must in other respects conform to the requirements of Rule XXI (b). Whenever practicable the sheets of each exhibit and the lines of each sheet should be numbered, and, if the exhibit consists of five or more sheets, the first sheet or title-page should be confined to a brief statement of what the exhibit purports to show, with reference by sheet and line to illustrative or typical examples contained in the exhibit and should bear an identifying number, letter, or short title which will readily distinguish the exhibit from the other exhibits of the same party. It is desirable that, whenever practicable, rate comparisons and other evidence should be condensed into tables. Exhibits should be limited to statements of fact relevant and material to the issue, which can be shown in that form better than by oral testimony. They should not be argumentative.

## RURAL ELECTRIFICATION ADMINISTRATION.

[Administrative Order No. 56]

ALLOCATION OF FUNDS FOR LOANS

FEBRUARY 6, 1937.

By virtue of the authority vested in me by the provisions of Section 4 of the Rural Electrification Act of 1936, I hereby allocate, from the sums authorized by said Act, funds for Loans for the projects and in the amounts as set forth in the following schedule:

| Project Designation: | *Amount* |
|---|---|
| Kentucky 21 Nelson | $315,000 |
| Minnesota 60 Redwood | 70,000 |
| Oklahoma 12 Alfalfa | 310,000 |
| Oregon 3 Lake | 60,000 |
| Washington 24 Spokane | 55,000 |

MORRIS L. COOKE, *Administrator.*

## SECURITIES AND EXCHANGE COMMISSION.

SECURITIES EXCHANGE ACT OF 1934

AMENDMENT NO. 1 TO FORM 8-K

The Securities and Exchange Commission, deeming it necessary and appropriate in the public interest and for the protection of investors and necessary for the execution of the functions vested in it so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, as amended, particularly Sections 13 and 23 (a) thereof, hereby takes the following action:

Paragraph 8 of the Instructions to Form 8-K, under the caption "Incorporation by reference", is amended by deleting the second sentence of such paragraph and inserting in lieu thereof the following sentence:

In addition, subject to the provisions of paragraph (f) of Rule JB4, matter contained in any part of the current report, other than exhibits, or in any part of any application or report previously filed by the registrant pursuant to Section 12 or 13 of the Act, other than exhibits, may be incorporated by reference as answer, or partial answer, to any item in the report.

The foregoing action of the Commission shall be effective immediately upon publication.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-403; Filed, February 9, 1937; 12:46 p. m.]

SECURITIES EXCHANGE ACT OF 1934

AMENDMENT OF RULE AN15

The Securities and Exchange Commission, deeming it necessary and appropriate in the public interest and for the protection of investors so to do, and acting pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 3 (a) (12) and 23 (a) thereof, hereby amends Rule AN15 by adding at the end of paragraph (a) thereof the following sentence:

For the purposes of this paragraph and of Forms 4-J and 5-J, the term "unissued security" shall include securities issued for the purpose of distribution, pursuant to a plan of reorganization in proceedings under Section 77B of the Bankruptcy Act, to holders of securities dealt with in the plan, if such securities have not yet been distributed to such security holders, and if the person to whom such securities have been issued is under the control of the court in such proceedings.

The foregoing action shall be effective immediately upon publication.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 8th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE STANOLIND-MYERS FARM, FILED ON JANUARY 23, 1937, BY HARRY A. GEORGE, RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

1. In that Item 16 (a) (iii) of Division II states that "lease (is) making some water but actual percentage not known", whereas information, which is readily available, indicates that a very substantial percentage of the gross fluid production from the lease consists of water;

2. In that, commencing with the month of November 1936 the water content of the gross fluid produced from Well No. 1, located on the tract in question, has increased from a nominal percentage to more than two times the amount of net oil produced from such well;

3. In that, commencing with the month of November 1936 the water content of the gross fluid produced from Well No. 2, located on the tract in question, has increased to more than two and one-half times the amount of net oil produced from such well;

4. In that Item 18 (a) (v) represents that there are three "flowing" wells upon the tract in question, whereas it appears that two of the wells located on the tract are "pumping", and not more than one is "flowing";

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and hereby is designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 19th day of February 1937 at 9:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF SOUTHWESTERN LIGHT & POWER COMPANY

NOTICE OF AND ORDER FOR HEARING

A declaration having been duly filed with this Commission, by Southwestern Light & Power Company, a subsidiary company of The Middle West Corporation, a registered holding company, pursuant to Section 7 of the Public Utility Holding Company Act of 1935, regarding the issue and sale by declarant of $7,250,000 aggregate principal amount of its First Mortgage Bonds, Series A, due February 1, 1967;

It is ordered that a hearing on such matter be held on February 25, 1937, at two o'clock in the afternoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 20, 1937.

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF SUNSET GOLD FIELDS, INC.

ORDER CHANGING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

The Commission having heretofore, on January 27, 1937, designated Robert P. Reeder, an officer of the Commission, to take evidence at a hearing to be held in this matter, under Section 8 (d) of the Securities Act of 1933, as amended, at the office of the Commission in Washington, D. C., on February 10, 1937, and

The registrant having subsequently requested that the place of such hearing be changed;

It is ordered that the foregoing designation of the said Robert P. Reeder is hereby rescinded, and

It is further ordered that the hearing in this matter be held on February 9, 1937, at 2 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 120 Broadway, New York, N. Y., and continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that William V. Holohan, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

## PRESIDENT OF THE UNITED STATES.

### GREEN MOUNTAIN NATIONAL FOREST—VERMONT

By the President of the United States of America

A PROCLAMATION

WHEREAS by proclamation of April 25, 1932 (47 Stat. 2509), there were set apart as the Green Mountain National Forest, in the State of Vermont, certain forest lands which had been, or might thereafter be, acquired by the United States of America under authority of the act of Congress approved March 1, 1911, ch. 186, 36 Stat. 961 (U. S. C., title 16, sec. 516), as amended by the act of June 7, 1924, ch. 348, 43 Stat. 653 (U. S. C., title 16, sec. 515); and

WHEREAS it appears that it would be in the public interest to modify the boundaries of the said National Forest by including therein certain other forest lands which have been, or may be, acquired under authority of the said acts of March 1, 1911, and June 7, 1924:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, under and by virtue of the power in me vested by section 24 of the act of March 3, 1891, ch. 561, 26 Stat. 1095, 1103, as amended (U. S. C., title 16, sec. 471), the act of June 4, 1897, ch. 2, 30 Stat. 34, 36 (U. S. C., title 16, sec. 473), and section 11 of the said act of March 1, 1911, do proclaim that all lands of the United States in the State of Vermont within the areas hereinafter described, are hereby included in and reserved as a part of the Green Mountain National Forest, and that all lands within such areas which may hereafter be acquired by the United States under the said acts of March 1, 1911, and June 7, 1924, shall upon acquisition of title thereto be reserved and administered as a part of the said National Forest:

*Northern Division*

Beginning in the Village of Mendon at the point where the East Pittsford Road intersects U. S. Highway 4; thence with the East Pittsford Road to the intersection with the Chittenden Road; thence with the Chittenden Road to the intersection with the Old Dugway Road; thence with the Old Dugway Road to the intersection with the River Road; thence with the River Road to the North Chittenden Road in Chittenden Village; thence with the North Chittenden Road to its intersection with the River Road in North Chittenden Village; thence northerly with the River Road about 2 miles to the crossing of Furnace Brook; thence up Furnace Brook to a point where a small drain enters from the west; thence westerly up said small drain to its intersection with the Middle Road; thence with the Middle Road to the intersection with State Highway 115 and the North Road at Goshen Four Corners; thence leaving State Highway 115 with the North Road in northerly and southwesterly directions to its reintersection with State Highway 115 approximately 1½ miles west of Goshen Four Corners; thence with State Highway 115 to the intersection with the School House Hill Road in Forestdale Village; thence with the School House Hill Road to the intersection with State Highway 53; thence with State Highway 53 to the intersection with the Fern Lake Road; thence with the Fern Lake Road to the south end of Fern Lake; thence with the easterly shore of Fern Lake to a northeasterly cove in Fern Lake; thence N 26° E, true meridian, approximately 20 chains to a southeasterly cove of Lake Dunmore; thence with the easterly shore of Lake Dunmore to a cove south of Keewaydin Camps where State Highway 53 borders the east shore of Lake Dunmore; thence with State Highway 53 to the intersection with the East Middlebury Road; thence with the East Middlebury Road to the intersection with the Ripton Road; thence with the Ripton Road to intersection with the old Pratt Hill Road; thence with the old Pratt Hill Road to the intersection with the East Middlebury Road; thence with the East Middlebury Road to the intersection with Middlebury River; thence up Middlebury River to the East Middlebury-Hancock Road; thence westerly with the East Middlebury-Hancock Road to the intersection with School Street in East Middlebury Village; thence northerly with School Street and School Street extended to Fay's Corner; thence westerly with an east and west road from Fay's Corner to the intersection with State Highway 116; thence with State Highway 116 to the intersection with the Little Notch Road; thence with the Little Notch Road to the intersection with a north and south road, also known as the Little Notch Road, and which is the most easterly road at the foot of the mountains; thence with this most easterly road to the intersection with River Street in Bristol Village; thence with River Street to River Street Bridge over the New Haven River; thence with the New Haven River to the Gove Hill Road Bridge in West Lincoln; thence with the Gove Hill Road to the intersection with the West Hill Road; thence with the West Hill Road to the intersection with the Ripton-Lincoln Road; thence with the Ripton-Lincoln Road to the intersection with the most southerly road to South Lincoln; thence with the most southerly South Lincoln Road to the intersection with the Lincoln-South Lincoln Road; thence with the Lincoln-South Lincoln Road to the intersection with a north and south cross road from South Lincoln Village to Lincoln-Warren Road; thence with said cross road to its intersection with the Lincoln-Warren Road; thence with the Lincoln-Warren Road to its intersection with the Old Downingville Road; thence with the old Downingville Road to its intersection at Downingville with the Jerusalem Road; thence with the Jerusalem Road to its intersection with the north line of the Town of Lincoln; thence easterly with the north line of the Town of Lincoln and the north line of the Town of Warren to the intersection with the German Flats Road; thence with German Flats Road and the Grand Hollow Road to the intersection of the Grand Hollow Road with State Highway 100; thence with State Highway 100 to the crossing of Mad River in Warren Village; thence up Mad River to its intersection with the Warren-Granville Town Line, which is also the Washington-Addison County Line and the north boundary of the Granville Gulf State Forest; thence with the north, west and south boundaries of said State Forest to the intersection with State Highway 100; thence with State Highway 100 to the intersection with Alder Meadow Brook in Granville Village; thence down Alder Meadow Brook to its junction with White River; thence with White River and State Highway 100, whichever is the most westerly, to the intersection of White River with State Highway 115; thence with State Highway 115 to the intersection with Calkin's Road; thence with Calkin's Road to the intersection with White River; thence with White River to the intersection with State Highway 100; thence with State Highway 100 to the intersection in Pittsfield Village with the Upper Michigan Road; thence with the Upper Michigan Road to the intersection with a short cross road; thence with said cross road to the intersection with the Lower Michigan Road; thence with the Lower Michigan Road to the intersection with State Highway 100; thence with State Highway 100 to the intersection with U. S. Highway 4; thence with U. S. Highway 4 to place of Beginning.

*Southern Division*

Beginning at the point where U. S. Highway 7 crosses the Vermont-Massachusetts State Line; thence with U. S. Highway 7 to the intersection with the Old County Road in Pownal; thence with the Old County Road to the intersection with U. S. Highway 7 in Pownal Center; thence with U. S. Highway 7 to the intersection with the Barber Pond Road in Pownal Center; thence with the Barber Pond Road to the intersection with the Stamford and East Roads; thence with the East Road, which is the most easterly through road along the base of the mountain, to the intersection with the Gore Road at the Blair Farm; thence with the Gore Road to the intersection with the Burgess Fair Ground Road; thence with the Burgess Fair Ground Road to the intersection with the Barney Road; thence with the Barney Road to the intersection with State Route 9; thence with State Route 9 to Furnace Bridge over Walloomsac Brook; thence with the Walloomsac Brook to the intersection with Branch Street in the village of Bennington; thence with Branch Street extended in the Brooklyn Section of Bennington, and with East Road beyond the village limits of Bennington to the intersection near the Wait Farm, with a more westerly road also known as East Road; thence with the East Road to the intersection with the Straight Road; thence with the Straight Road to the intersection with East Road at Snow School; thence with the East Road to the intersection with the East Arlington Road; thence with the East Arlington Road to the intersection with Church Street in East Arlington; thence with Church Street to the intersection with Kelly Stand Road; thence with Kelly Stand Road to the intersection with North Road near Roaring Branch Bridge at East Kansas; thence with North Road to the intersection with River Street and the Old Stage Road in Sunderland; thence with the Old Stage Road to the intersection with the Sunderland-Richfield Road in Sunderland; thence with the Sunderland-Richfield Road to intersection with the Rutland Railway; thence with the Rutland Railway to the intersection with the Richfield Road; thence with the Richfield Road to the intersection with an unnamed street in Richfield which borders on Bushee Farm; thence in part with the unnamed street and in part with an abandoned road to the intersection with C. F. Bartlett Road; thence with C. F. Bartlett Road to the intersection with State Route 30; thence with State Route 30 to the intersection with the Rutland Railway near Manchester Depot; thence with the Rutland Railway and U. S. Highway 7, whichever is more easterly, to the intersection with the Hartsboro Road; thence with the Hartsboro Road to the intersection with the Ice-bed Road; thence with the Ice-bed Road to the intersection with State Highway 103A; thence with State Highway 103A to the intersection with State Highway 103; thence with State Highway 103 to the intersection with State Highway 8; thence with State Highway 8 to the intersection with the Back Road; thence with the Back Road, west of and parallel to State Highway 8, to the forks of the road near Benson's Mill; thence with an old road on the west side of West River to the intersection with the Weston-Peru Road; thence with the Weston-Peru Road to the intersection with the Landgrove Road; thence with the Landgrove Road to the first fork of the road south of North Landgrove (locally known as Clarksville); thence with the more easterly road to its fork; thence with the more westerly road to the intersection with State Highway 11; thence south 4 degrees west approximately 1.9 miles to the Winhall Hollow Road at its junction approximately 1.6 miles northwest of South Londonderry Village, with an old settlement road leading to State Highway 11; thence with the Winhall Hollow Road to the intersection with the Bondville Road; thence with the Bondville Road to the intersection with State Route 30 in Bondville; thence with State Route 30 to the intersection with the Winhall Station Road in Rawsonville; thence with the Winhall Station Road to the intersection with the abandoned Central Vermont Railway at Winhall Station; thence with the Central Vermont Railway to the intersection with Station Street in Jamaica Village; thence with Station Street to the intersection with Brook Street; thence with Brook Street to the intersection with State Route 30; thence with State Route 30 to the intersection with River Road at French Bridge over West River; thence with the River Road to intersection with State Route 8 at East Jamaica; thence with State Route 8 to the intersection with the South Wardsboro Road in Wardsboro; thence with the South Wardsboro Road to the intersection with the South Wardsboro School Road in South Wardsboro; thence with the South Wardsboro School Road about 0.6 mile to the intersection with an old road at a barway; thence with the old road which is in part abandoned but rock walled and in part a farm road to the intersection with the Rock River and West Dover Roads; thence with the West Dover Road about one-half mile to the intersection with a back road; thence with the back road to the intersection with the West Dover Road; thence with the West Dover Road to the intersection with State Route 8 in West Dover; thence with State Route 8 to the intersection with the Handle Road near the headwaters of Blue Brook; thence with the Handle Road to intersection with the Perley Symester Farm Road; thence with the Perley Symester Farm Road to the intersection with the Ray Hill Road; thence with the Ray Hill Road to the intersection with State Route 9; thence with State Route 9 to a point on said route north of the intersection of Deerfield River with the flow line of Whitingham Lake; thence south to the intersection of Deerfield River with the flow line of Whitingham Lake; thence with the flow line around the west side of Whitingham Lake to the intersection with State Route 8 near the village of Whitingham; thence with State Route 8 to the intersection with the most westerly road to Rowe, Massachusetts; thence with the most westerly road to Rowe to the intersection with a logging road about three tenths of a mile beyond the first farmhouse on the left; thence with the logging road to the Vermont-Massachusetts State Line; thence with the Vermont-Massachusetts State Line to the Beginning.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this eighth day of February in the year of our Lord nineteen hundred and thirty-seven and of the Independence of the United States of America the one hundred and sixty-first.

[SEAL]

FRANKLIN D ROOSEVELT

By the President:
CORDELL HULL
*Secretary of State.*

[T. D. 48798]

EMERGENCY—FLOOD CONDITIONS.

FOOD, CLOTHING, AND MEDICAL, SURGICAL, AND OTHER SUPPLIES TO BE ADMITTED FREE OF DUTY WHEN IMPORTED FOR USE IN EMERGENCY RELIEF WORK IN CONNECTION WITH CERTAIN FLOOD CONDITIONS.

FEBRUARY 8, 1937.

*To Collectors of Customs and Others Concerned:*

Acting under the authority of section 318, Tariff Act of 1930 (U. S. C. title 19, sec. 1318), the President, on February 1, 1937, issued the following proclamation.[1]

[1] 2 F. R. 228

"EMERGENCY DUE TO FLOOD CONDITIONS—FREE IMPORTATION OF FOOD, CLOTHING, AND MEDICAL, SURGICAL AND OTHER SUPPLIES FOR USE IN EMERGENCY WORK

By the President of the United States of America

A PROCLAMATION

"WHEREAS there have recently occurred and are occurring disastrous floods in various localities in the valleys of the Ohio and Mississippi rivers and tributaries thereof, resulting in great loss of life and property and causing much sickness, suffering, and privation among the residents of the stricken localities, making it necessary for charitable, philanthropic, relief, and other organizations to extend aid on a large scale to the flood sufferers;

"AND WHEREAS section 318 of the Tariff Act of 1930 (46 Stat. 696) provides:

'Whenever the President shall by proclamation declare an emergency to exist by reason of a state of war, or otherwise, he may authorize the Secretary of the Treasury to extend during the continuance of such emergency the time herein prescribed for the performance of any act, and may authorize the Secretary of the Treasury to permit, under such regulations as the Secretary of the Treasury may prescribe, the importation free of duty of food, clothing, and medical, surgical, and other supplies for use in emergency relief work. * * *';

"NOW, THEREFORE, I, Franklin D. Roosevelt, President of the United States of America, acting under and by virtue of the authority vested in me by the foregoing provisions of section 318 of the Tariff Act of 1930, do by this proclamation declare an emergency to exist, and I do hereby authorize the Secretary of the Treasury to permit, during the continuance of such emergency (the termination of which will be determined by the President and declared by his Proclamation), within such limits and subject to such conditions as he may deem necessary to meet the emergency, the importation free of duty of such food, clothing, and medical, surgical, and other supplies as he may designate and under such regulations as he may prescribe, when imported for use in such emergency relief work.

"IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

"DONE at the City of Washington this 1st day of February in the year of our Lord nineteen hundred and thirty-seven, [SEAL] and of the Independence of the United States of America the one hundred and sixty-first.

FRANKLIN D ROOSEVELT

By the President:
CORDELL HULL
*Secretary of State.*"

[No. 2223]

---

Pursuant to the authority conferred by the President's proclamation, the following instructions were issued to collectors of customs, by telegram, under date of February 3, 1937:

On February first President issued proclamation under section three eighteen Tariff Act nineteen thirty declaring existence emergency account flood conditions Ohio and Mississippi river valleys and authorizing Secretary Treasury permit free entry food clothing medical surgical and other supplies imported during such emergency for use relief work STOP You are authorized permit free entry for use flood relief work all food clothing medical surgical and other supplies imported by or for account of any governmental agency whether national state or local or any civic patriotic charitable philanthropic relief or similar organization not operated for profit STOP Satisfy yourself as to character of importing agency or organization and bona fides of importation before permitting free release STOP Accept appraisement entries irrespective value of shipments STOP No consular invoices required.

WAYNE C. TAYLOR,
*Acting Secretary Treasury.*

Collectors of customs will be governed by the instructions contained in the foregoing telegram until further notice.

[SEAL] WAYNE C. TAYLOR,
*Acting Secretary of the Treasury.*

[2] See Footnote 2 on Page 286.
[3] See Footnote 3 on Page 286.

SEC. 2. *Rates as Applied to Individual Farms.*—For any individual farm the rate of payment for diversion from the soil-depleting base and the rates to be used in computing these portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm. The average of productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 9th day of February 1937.

Bureau of Public Roads.

IMPROVEMENT OF SECONDARY OR FEEDER ROADS

Pursuant to the authority vested in the Secretary of Agriculture by the Federal Highway Act of November 9, 1921 (42 Stat. 212), as amended and supplemented, the following rules and regulations are hereby adopted and promulgated for administering the provisions of Section 7 of the Act approved June 16, 1936 (Public, No. 686—74th Congress), relating to secondary or feeder roads.

Done at the City of Washington this 9th day of February 1937 as witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

---

RULES AND REGULATIONS FOR CARRYING OUT THE PROVISIONS OF SECTION 7 OF THE ACT OF JUNE 16, 1936 (PUBLIC NO. 686—74TH CONGRESS) WHICH RELATE TO THE IMPROVEMENT OF SECONDARY OR FEEDER ROADS IN ACCORDANCE WITH THE PROVISIONS OF THE FEDERAL HIGHWAY ACT

*Definitions*

SECTION 1. For the purposes of these rules and regulations the following definitions shall control:

"Act" shall mean Section 7 of the Act of June 16, 1936 (Public, No. 686—74th Congress), which provides for the improvement of secondary or feeder roads, including farm-to-market roads, rural free delivery mail roads, and public school bus routes in accordance with the provisions of the Federal Highway Act, as amended and supplemented.

"State" as used herein shall include the Territory of Hawaii and the Island of Puerto Rico.

"Secretary" shall mean the Secretary of Agriculture of the United States.

"Secondary Highway Funds" shall mean the funds authorized to be apportioned under the Act to the several States by the Secretary of Agriculture for the improvement of secondary or feeder roads.

"Secondary or Feeder Roads" shall mean roads outside of municipalities, except as hereafter provided, which are not included in the Federal aid highway system, and shall include farm-to-market roads, mine-to-market roads, rural free delivery mail roads, public school bus routes and other rural roads of community value which connect with important highways or which extend reasonably adequate highway service from such highways, or which lead to rail or water shipping points or local settlements. The limitation with respect to roads within municipalities shall not be construed to prevent improvements into or through small municipalities when such improvements are necessary for continuity of service.

"Municipality" shall mean a populous community, generally of defined area, usually organized pursuant to law into a body politic with corporate name and continuous succession and for the purpose and with the authority of subordinate local self-government.

"Project" shall mean a definite undertaking for a purpose defined under the Act.

Projects shall be designated "Federal Aid Secondary Project No. FAS —."

*Initiation of Projects*

SECTION 2. All projects under this Act shall be initiated by the States and submitted in the same manner as other Federal aid projects, and all such projects shall be subject to all of the provisions of the rules and regulations of the Secretary of Agriculture in effect for administering the Federal Highway Act, as amended, except such provisions as are inconsistent or in conflict with these rules and regulations.

*Application of Funds to Projects*

SECTION 3. The funds apportioned to any State under the Act shall be applied to projects, essentially rural in character, that are not on highway routes which are potential additions to the Federal aid highway system within a reasonable interval.

In States where the mileage of the State highway system is a small percentage of the total highway mileage of the State, the Chief of the Bureau of Public Roads shall determine to what extent secondary or feeder road projects may be located on the State highway system.

To accomplish a wide distribution of benefits within each State in the expenditure of funds authorized by the Act without a sacrifice of administrative or construction efficiency, the Chief of the Bureau of Public Roads shall determine the minimum percentage of counties, applicable alike in each State, in which the funds authorized for any one or more fiscal years shall be used: Provided, That the cost chargeable to secondary highway funds of projects programmed for construction in a State in any one fiscal year shall not exceed the amount of such funds available to the State.

No projects shall be undertaken which do not provide for a surfacing or stabilization of the roadbed which shall be reasonably satisfactory for the traffic served. Grading and drainage as first stage construction may be accepted: Provided, The State highway department will enter into a satisfactory agreement for future surfacing or stabilization of the roadbed.

*Selection of Projects*

SECTION 4. Each State highway department shall undertake the selection and designation of an initial system or group of secondary or feeder roads for construction or reconstruction based upon their relative importance as determined from factual data secured from State-wide studies for the planning of a complete highway system, and submit a suitable description and map of such proposed system or group to the Bureau of Public Roads for approval: Provided, That prior to the selection, designation and approval of such system or group of secondary or feeder roads, projects may be approved for construction if it is reasonably anticipated that such projects will become a part of such system or group.

The mileage of the initial system or group of secondary or feeder roads in any State shall not exceed ten percent of the highway mileage of the State as shown by the records of the State highway department at the time of the passage of the Federal Highway Act. The initial system or group of secondary or feeder roads may be selected, designated and approved in whole or in part in any State and may be modified, or increased from time to time as justified by the progress of its improvement.

After a secondary or feeder system or group of highways has been selected, designated and approved in any State no project shall be approved which is not a part of a route embraced in such system or group.

*Surveys, Plans, Specifications, etc.*

SECTION 5. Surveys and plans, specifications and estimates for all projects in each State shall correspond to the character of the work contemplated and shall be in sufficient detail to show the quantity and kind of work involved and shall be prepared under the immediate direction of the State highway department without reimbursement from federal funds. The State highway department, however, may utilize the services of well qualified county engineering organizations, acting under its direction, for the surveys, preparation of plans, specifications and estimates, and for the supervision of construction for any project. Inasmuch as the Federal Highway Act requires each State to maintain at its own expense a State highway department having adequate powers and suitably equipped and organized to discharge the duties required by the legislation, no part of the cost of maintaining a central office organization of the State highway department or of any organization which may be utilized by the State for construction engineering and inspection shall be paid with federal funds. Construction engineering and inspection charges reimbursable with federal funds shall be limited to any necessary costs incurred and to the salaries of individuals directly employed on the project.

*Methods of Undertaking Work*

SECTION 6. Whenever feasible and practicable the contract method shall be followed in performing work.

*Highway Planning Projects*

SECTION 7. With the approval of the Secretary, not to exceed one and one-half per centum of the amount apportioned to any State for secondary or feeder roads may be used for surveys, plans, engineering and economic investigations of projects for future construction in such State, or for the planning of a complete highway system and future programs of highway improvement for such State. Such proposed surveys, plans and engineering investigations shall be initiated by the State highway department in the same manner as are other projects by the submission of a project statement and, if approved by the Secretary, the work may be prosecuted under a project agreement.

*Maintenance*

SECTION 8. Project agreements for secondary or feeder road projects shall provide for the maintenance of such projects by the State to the extent permitted by State law; otherwise, the State shall submit, in the form prescribed by the Secretary, an agreement for such maintenance with the county or other political subdivision responsible therefor: *Provided, however,* no project contemplating maintenance by a county or other political subdivision shall be approved if any road previously improved with federal funds under the provisions of the Federal Highway Act, as amended and supplemented, which the said county or other political subdivision has agreed to maintain, is not being satisfactorily maintained as determined by the Chief of the Bureau of Public Roads.

SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 8th day of February A. D. 1937.

[File No. 2-2583]

IN THE MATTER OF BEAUNIT MILLS, INC.

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Beaunit Mills, Inc. under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading,

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Wednesday, February 17, 1937, at 2 o'clock in the afternoon, in Room 1101, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF THE MINNEAPOLIS GENERAL ELECTRIC COMPANY

ORDER FIXING DATE FOR DECLARATION TO BECOME EFFECTIVE

The Minneapolis General Electric Company, a subsidiary company of Northern States Power Company, a Minnesota corporation and a registered holding company, having duly filed with this Commission a declaration, and an amendment thereto, pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the amendment of declarant's trust indenture dated April 1, 1916, and supplements thereto, securing an issue of $42,070,000 principal amount of its General Mortgage Bonds, and any issue and exchange of bonds of declarant in accordance with such amendment; a hearing on said amended declaration having been duly held after appropriate notice, the record in such matter having been examined, and the Commission having made and filed its findings herein:

It is ordered that said amended declaration be and become effective on February 9, 1937, on condition that such amendment of declarant's trust indenture dated April 1, 1916, and supplements thereto, and the issue or exchange of bonds, or both, involved therein, be effected in substantial compliance with the terms and conditions and for the purposes represented by said amended declaration; and

It is further ordered that, upon such amendment's becoming effective, the declarant shall file with this Commission a copy of the executed supplemental indenture effecting such amendment.

By the Commission.

IN THE MATTER OF NORTHERN STATES POWER COMPANY

ORDER FIXING DATE FOR REMAINDER OF DECLARATION TO BECOME EFFECTIVE

Northern States Power Company, a registered holding company, organized under the laws of Minnesota, having duly filed with this Commission a declaration, and amendments thereto, pursuant to Section 7 of the Public Utility Holding Company Act of 1935, regarding the issue and sale by declarant of $75,000,000 principal amount of First and Refunding Mortgage Bonds, 3½% Series due 1967, and 275,000 shares of Cumulative Preferred Stock, $5 Series, without par value (which said amended declaration also covered the reclassification of declarant's outstanding capital stock into 4,000,000 shares of common stock, the issue of such common stock and the exchange of certificates representing such common stock for the certificates representing declarant's stocks being reclassified); a hearing on said amended declaration having been duly held after appropriate notice, so much of the record in this matter as concerns such issue and sale of bonds and preferred stock having been examined, and the Commission having made and filed its findings herein:

It is ordered that such parts of said amended declaration, as relate to the issue and sale of such bonds and preferred stock, be and become effective on February 9, 1937, on condition that the issue and sale of such bonds and preferred stock be effected in substantial compliance with all the terms and conditions and for the purposes represented by said amended declaration.

By the Commission.

IN THE MATTER OF NORTHERN STATES POWER COMPANY, A CORPORATION, AND SILVER STRIKE MINING COMPANY, A CORPORATION

ORDER TERMINATING PROCEEDING AFTER AMENDMENT

The Securities and Exchange Commission, finding that the offering sheet filed with the Commission, which is the subject of this proceeding, has been amended, so far as necessary, in accordance with the Suspension Order previously entered in this proceeding;

It is ordered, pursuant to Rule 341 (d) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the amendment received at the office of the Commission on February 4, 1937, be effective as of February 4, 1937; and

It is further ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same hereby are revoked and the said proceeding terminated.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 9th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE CENTRAL-SOOY FARM, FILED ON FEBRUARY 3, 1937, BY CENTRAL ROYALTIES COMPANY, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that Schedule "B" should appear on page 1, rather than Schedule "A";

(2) In that Items 1 and 2 (c), Division II, and Exhibit A appear inconsistent with respect to the interest being offered, and the particular property involved. If two different interests are involved, two sheets should be filed;

(3) In that Item 3 (c) (iii) of Division II is unintelligible if the smallest interest being offered is not 1/640th of the royalty;

(4) In that the name is omitted in Item 10 (b), Division II;

(5) In that Item 10 (c), Division II, is omitted;

(6) In that Item 12, Division II, is not in accord with Exhibit A;

(7) In that Item 17, Division II, gives different initials for the drilling contractor than are given in Item 12;

(8) In that Item 18, Division II, does not indicate who is to be reimbursed. Central Royalties Company is not named in Item 2 (d). This Item 18 should be Item 19 (a); Items 18 (b) and (c) should be numbered Items 19 (b) and (c), and the answers as here given are non-responsive;

(9) In that items that are called for as Items 18 (a) and (b), Division II, are omitted;

(10) In that the signature does not disclose whether the name of the offeror is a fictitious name for an individual, a co-partnership, a corporation or other form of business organization;

(11) In that Exhibit A incorrectly gives the operator's name if Item 12 and letter attached to offering sheet are correct. Exhibit A also omits the scale, date, the required area to the south of the plat involved, the depths and numbers of abandoned wells and some of the symbols;

(12) In that the legal description is omitted from Exhibit B;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 10th day of March 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Robert P. Reeder, an officer of the Commission, be and hereby is designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 23rd day of February 1937 at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

*Friday, February 12, 1937* *No. 29*

## PRESIDENT OF THE UNITED STATES.

EXECUTIVE ORDER

REVOCATION OF PARAGRAPH 9, SUBDIVISION III, SCHEDULE A, CIVIL SERVICE RULES

WHEREAS by Executive Order of November 18, 1905, the position of one examiner of tobacco in the Customs Service at the port of Chicago was exempted from the competitive classified service; and

WHEREAS the Treasury Department exercises its prerogative under section 3 of Civil Service Rule II by filling that position as competitive classified positions are filled, thus rendering the exemption unnecessary;

NOW, THEREFORE, by virtue of and pursuant to the authority vested in me by the Civil Service Act (22 Stat. 403), it is ordered that paragraph 9, Subdivision III, Schedule A of the Civil Service Rules, excepting one position of tobacco examiner in the Customs Service at the port of Chicago from the competitive classified service, be, and it is hereby, revoked.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
*February 10, 1937.*

## DEPARTMENT OF COMMERCE.

Bureau of Fisheries.

[No. 251-23]

ALASKA FISHERY REGULATIONS

FEBRUARY 8, 1937.

By virtue of the authority contained in the act of June 26, 1906 (34 Stat. 478, 480), as amended by the act of June 6, 1924 (43 Stat. 464), as amended by the act of June 18, 1926 (44 Stat. 752), as amended by the act of April 16, 1934 (48 Stat. 594), fishing areas are hereby set apart and regulations governing fishing therein are made effective, as follows:

I. YUKON-KUSKOKWIM AREA

The Yukon-Kuskokwim area is hereby defined to include all territorial, coastal, and tributary waters of Alaska from Cape Newenham northward to the parallel of 66 degrees north latitude.

SALMON FISHERY.—1. Commercial fishing for salmon is prohibited except within the following-described districts:

(*a*) Port Clarence district: Waters within a line extending from Cape Douglas to Cape York.

(*b*) Yukon district: All waters of the Yukon River and all waters along the coast between 62 degrees north latitude and 63 degrees 15 minutes north latitude.

(*c*) Kuskokwim district: All waters of Kuskokwim River, and waters of Kuskokwim Bay, exclusive of Goodnews Bay, within a line extending from the east shore of Kuskokwim Bay at the parallel of 59 degrees north latitude to Cape Avinof. The mouth of the Kuskokwim River shall be considered as at a straight line extending from a marker erected for the purpose at Beacon Point to another marker at Popokamute.

2. Commercial fishing for salmon shall be conducted solely by drift gill nets and set nets: *Provided*, That this shall not apply (*a*) to the use of purse seines in Kuskokwim Bay, exclusive of Goodnews Bay, between 59 degrees north latitude and 59 degrees 40 minutes north latitude westward to Cape Avinof, and (*b*) to the use of fish wheels in the Yukon and Kuskokwim Rivers by native Indians and bona fide permanent white residents along those rivers for the capture of king salmon. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

3. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 150 fathoms hung measure.

4. King-salmon gill nets shall have a mesh of at least 8½ inches stretched measure between knots, red-salmon gill nets of linen webbing shall have a mesh of at least 5½ inches stretched measure between knots, and red-salmon gill nets of cotton webbing shall have a mesh of at least 5¼ inches stretched measure between knots as measured when actually in use. No red-salmon gill net shall be over 28 meshes deep.

5. Commercial fishing for salmon in the Yukon district shall be conducted solely by king-salmon gill nets having mesh of at least 8½ inches stretched measure between knots as measured when actually in use: *Provided*, That this shall not apply to the use of fish wheels in the Yukon River by native Indians and bona fide permanent white residents along the river for the capture of king salmon.

6. Commercial fishing for salmon is prohibited except in the period from 6 o'clock antemeridian June 1 to 6 o'clock postmeridian July 31, in each year: *Provided*, That such fishing is permitted in the Kuskokwim district until 6 o'clock postmeridian August 15.

7. The combined take of king and red salmon for commercial purposes shall not exceed 300,000 fish in any calendar year: *Provided*, That the take of king salmon in the Yukon district shall not exceed 50,000 fish, of which not more than 25,000 may be taken inside the mouth of the Yukon River, in any calendar year: *And provided further*, That the combined take of red and king salmon in the Kuskokwim district shall not exceed 250,000 fish in any calendar year.

8. Each gill net in operation shall be marked by a cluster of floats or corks at the ends, and double floats or corks shall be attached to the cork line at 25-fathom intervals. The clusters of floats or corks at the ends and the double floats or corks at the 25-fathom intervals shall be painted bright red. The clusters at the ends shall also be legibly and plainly marked with the initials of the operator.

9. The trailing of web behind any fishing boat is prohibited above the markers fixing closed waters.

10. The use of motor-propelled fishing boats in catching salmon with gill nets is prohibited.

HERRING FISHERY.—1. Commercial fishing for herring in the waters of Golofnin Bay within a line from the southern extremity of Rocky Point to the southern extremity of Cape Darby is prohibited from January 1 to August 19, both dates inclusive, and from November 1 to December 31, both dates inclusive.

2. Commercial fishing for herring in the waters of Golofnin Bay, within a line from the southern extremity of Rocky Point to the southern extremity of Cape Darby, shall be conducted solely by gill nets of mesh not less than 2¾ inches stretched measure between knots.

3. Commercial fishing for herring, except for bait purposes, by means of any seine is prohibited.

4. The dumping of offal and dead herring in the waters of any bay in which herring spawn or where they are captured is prohibited.

II. BRISTOL BAY AREA

The Bristol Bay area is hereby defined to include all territorial coastal and tributary waters of Alaska from Cape Newenham to a point on the coast 3 statute miles south of Cape Menshikof.

SALMON FISHERY.—1. Commercial fishing for salmon is prohibited except within the following-described districts:

(*a*) Hagemeister district: Waters of Hagemeister Strait from 161 degrees 40 minutes west longitude to 160 degrees 38 minutes west longitude.

(*b*) Nushagak district: Waters of Nushagak Bay within a line from Point Protection to Etolin Point.

(*c*) Kvichak-Naknek district: Waters of Kvichak Bay within a line from Etolin Point to Middle Bluff Light on the eastern side of Kvichak Bay.

(*d*) Egegik district: Waters between an east and west line 8 statute miles north of South Spit, Egegik Bay, and an east and west line 10 statute miles south of South Spit.

(*e*) Ugashik district: Waters between an east and west line 3 statute miles north of Cape Greig and the southern limit of the area at a point on the coast 3 statute miles south of Cape Menshikof.

2. Commercial fishing for salmon shall be conducted solely by drift gill nets, set or anchored gill nets, and stake gill nets. The use of all other forms of fishing gear is prohibited.

3. Each drift gill net in operation shall be marked by a cluster of floats or corks at the ends, and double floats or corks shall be attached to the cork line at 25-fathom intervals. The clusters of floats or corks at the ends and the double floats or corks at the 25-fathom intervals shall be painted bright red and legibly and plainly marked with the initials of the operator.

4. Stake nets and set or anchored gill nets shall be operated in substantially a straight line.

5. Commercial fishing for salmon with stake nets or set or anchored gill nets shall be limited to beach areas between high and low water marks, exclusive of bars or flats that at low tide are not connected by exposed land to the shore or places not covered at high tide, and shall be confined to the following places:

(*a*) Nushagak district: Along the beach, except on the west side of Nushagak Bay from a point 2 statute miles south of Bradford Point to Coffee Point, and except along the east side of that bay from a point 1,000 yards southeast of Ekuk Bluff light to Etolin Point.

(*b*) Kvichak Bay: Along the beach on the southeast shore of the bay from Prosper Creek to Coffee Creek.

(*c*) Naknek Bay: Along the beach on the north side of the bay from a point 1,200 yards above the drift gill net prohibitive markers to a point 1,500 yards outside such markers, and along the beach on the south side of the bay from a point 1,200 yards above the drift gill net prohibitive markers to a point 3,000 yards outside such markers.

(*d*) Egegik Bay: Along the beach on the north side of the bay to a point 4,000 yards outside the drift gill net prohibitive marker, and on the south side of the bay to a point 1,000 yards outside such marker.

(*e*) Ugashik Bay and River: Along the beach on the north side of the bay from Pilot Station to Dago Creek, and along the beach on the east side of the river from a point 200 yards north of the Red Salmon Canning Co.'s cannery to a point 1,200 yards north of that cannery.

6. The combined take of red salmon for commercial purposes in the Hagemeister district shall not exceed 50,000 fish in any calendar year.

7. The total aggregate length of stake nets used by any individual shall not exceed 50 fathoms measured on the cork line.

8. In the Nushagak district the distance by most direct measurement from any part of one stake gill net or set or anchored gill net to any part of another stake gill net or set or anchored gill net shall not be less than 450 feet.

9. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 150 fathoms hung measure: *Provided*, That in the Nushagak district such nets shall not exceed 100 fathoms hung measure.

10. King-salmon nets shall have a mesh of at least 8½ inches stretched measure between knots, and red-salmon nets shall have a mesh of at least 5½ inches stretched measure between knots as measured when actually in use. No red-salmon nets shall be over 28 meshes deep.

11. Prior to 6 o'clock antemeridian June 25 in each year commercial fishing for salmon with nets of mesh less than 8½ inches stretched measure between knots is prohibited.

12. Commercial fishing for salmon is prohibited in the period from 6 o'clock antemeridian July 25 to 6 o'clock antemeridian August 3.

13. The trailing of web behind any fishing boat is prohibited above the markers fixing closed waters.

14. The use of motor-propelled fishing boats in catching salmon is prohibited.

15. Each salmon-fishing boat in operation shall be legibly and plainly marked with the initials or symbol of the person, company, or corporation owning, operating, or using same, together with a distinctive number which shall identify each particular boat, said letters, symbols, and numbers to be not less than 6 inches in length. Each person, company, or corporation operating two or more salmon-fishing boats shall have said boats numbered consecutively, beginning with number 1 for each plant. Boats operated by Alaska residents shall have in addition the letter "A" before the number. Each season, prior to the opening date for commercial fishing, the initials or symbol, and number of each boat shall be furnished in writing to the agent of the Bureau of Fisheries in charge of the district in which said boat shall operate.

16. The use of smelt nets is prohibited in localities where young salmon are migrating.

17. The 36-hour weekly closed period for salmon fishing prescribed by section 5 of the act of June 6, 1924, is hereby extended to include the period from 6 o'clock antemeridian Wednesday to 6 o'clock antemeridian Thursday of each week, making a weekly closed period of 60 hours: *Provided*, That in the waters of Kvichak Bay between the line extending across the bay from the marker on a high point on the east bank of Prosper Creek, about 700 yards above the Koggiung cannery of the Alaska Packers Association, to the marker on the opposite side, the course being about north, 44 degrees west, magnetic, and the line extending across the bay from a marker at Jensen Creek, the course being north, 54 degrees west, magnetic, to a marker on the opposite shore about 1½ miles west of Squaw Creek, the 36-hour weekly closed period for salmon fishing prescribed by section 5 of the act of June 6, 1924, is hereby extended to include the period from 6 o'clock postmeridian of Saturday of each week to 6 o'clock antemeridian of the Tuesday following and the period from 6 o'clock antemeridian Wednesday to 6 o'clock antemeridian Thursday of each week, making a weekly closed period of 84 hours.

18. All commercial fishing for salmon is prohibited as follows:

(*a*) Nushagak Bay: All waters northward of a line from a marker 2 statute miles below Bradford Point to a marker on the opposite shore at Nushagak Point: *Provided*, That stake nets or set or anchored gill nets limited to beach areas between high and low watermarks will be permitted to the old prohibitive line from Snag Point to the old village on the east bank.

(*b*) Kvichak Bay: All waters above a line extending at right angles across Kvichak Bay from the marker on a high point on the east bank of Prosper Creek, about 700 yards above the Koggiung cannery of the Alaska Packers Association, to the marker on the opposite side, the course being about north, 44 degrees west, magnetic.

(*c*) Naknek Bay: All waters within 1 statute mile of the mouth of the Naknek River: *Provided*, That stake nets or set or anchored gill nets limited to beach areas between high and low watermarks will be permitted on each side of the bay to a point 1,200 yards above the drift gill net prohibitive markers.

(*d*) Egegik Bay: All waters above a line extending at right angles across said bay from a marker on the north bank 250 yards east of Libby, McNeill & Libby's cannery building to a marker on the south bank 175 yards east of the Alaska Packers Association's new cannery building.

(*e*) Ugashik River and Bay: All waters above a line extending at right angles across said river 500 yards below the mouth of King Salmon River: *Provided*, That stake nets or set or anchored gill nets limited to beach areas between high and low watermarks, will be permitted on the east side of the river from a point 200 yards north of the Red Salmon Canning Co.'s cannery to a point 1,200 yards north of that cannery.

III. ALASKA PENINSULA AREA

The Alaska Peninsula area is hereby defined to include all territorial coastal and tributary waters of the Alaska Peninsula from a point on the coast 3 statute miles south of Cape Menshikof on the Bering Sea shore, extending in a southwesterly direction to Unimak Pass, thence in a northeasterly direction along the Pacific side of the Alaska Peninsula to Castle Cape (Tuliumnit Point). The waters of Unimak, the Sanak, the Shumagin, and all other adjacent islands are included.

SALMON FISHERY.—1. In the waters of Nelson Lagoon, and thence along the coast to Cape Seniavin, including Nelson Lagoon, Herendeen Bay, Port Moller, and the fishing grounds off the Bear, Sandy, and Ocean Rivers, the 36-hour closed period for salmon fishing prescribed by section 5 of the act of June 6, 1924, is hereby extended to include the periods from 6 o'clock postmeridian until 6 o'clock antemeridian of each night from Monday to Friday, inclusive, making a weekly closed period in these waters of 96 hours, which shall be effective throughout the entire salmon fishing season of each year.

2. In the waters along the south side of the Alaska Peninsula, including the waters of the Shumagin and other adjacent islands, the 36-hour closed period for salmon fishing prescribed by section 5 of the act of June 6, 1924, is hereby extended to include the periods from 6 o'clock postmeridian Tuesday to 6 o'clock antemeridian Wednesday, and from 6 o'clock postmeridian Wednesday to 6 o'clock antemeridian Thursday of each week, making a weekly closed period of 60 hours: *Provided*, That this extension of 24 hours closed period each week shall not apply to gill nets and shall not be effective for any gear after 6 o'clock antemeridian of July 25 of each year.

3. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 200 fathoms hung measure.

4. Stake and anchored gill nets shall be operated in substantially a straight line: *Provided*, That not to exceed 30 fathoms of each net may be used as a hook. Only one such hook is permitted on a net.

5. The distance by most direct water measurement from any part of one stake gill net, set or anchored gill net, or beach seine to any part of another stake gill net, set or anchored gill net, beach seine, or trap shall not be less than 1,800 feet. No purse seine shall operate within ½ statute mile of any trap.

6. No stake gill net nor set or anchored gill net shall exceed 75 fathoms in length measured on the cork line.

7. The use of any beach seine less than 60 fathoms in length or more than 75 fathoms in length is prohibited.

8. No salmon fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind, except one lead having mesh not less than 8 inches stretched measure between knots, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited.

9. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1 statute mile.

10. The use of purse seines for the capture of salmon is prohibited, except that (*a*) in the waters of the Shumagin Islands and between Cape Aliaksin and Castle Cape, seines not to exceed 100 fathoms in length and 150 meshes in depth may be used, and (*b*) purse seines are permitted in waters open to commercial fishing from Morgan Point on the west side of the entrance to King Cove westward, thence northward and eastward to Cape Seniavin.

11. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length: *Provided*, That this shall not apply to such boats operated on the north side of the Alaska Peninsula or in the waters of this area west of Morgan Point.

12. In Port Heiden waters the catch of red salmon shall not exceed 50,000 in any calendar year.

13. Commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian May 27 in each calendar year and during the remainder of each calendar year after 6 o'clock postmeridian August 10, except that beach seines and gill nets may be used from September 5 to September 30, both dates inclusive.

14. Commercial fishing for salmon by means of gill nets, including drift nets and set nets, is prohibited west of 161 degrees west longitude, exclusive of waters along the Bering Sea coast and the waters of the Sanak Islands group.

15. Commercial fishing for salmon by means of stake nets, except along the Bering Sea coast, is prohibited.

16. No trolling boat shall operate more than 4 trolling lines.

17. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

18. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Unimak Island: Along the coast on the west and south sides of Ikatan Bay (1) from a point on False Pass (Isanotski Strait) at 54 degrees 48 minutes 54 seconds north latitude, 163 degrees 22 minutes 18 seconds west longitude, to a point at 54 degrees 46 minutes 44 seconds north latitude, 163 degrees 21 minutes 32 seconds west longitude, and (2) from a point at 54 degrees 45 minutes 18 seconds north latitude, 163 degrees 17 minutes 30 seconds west longitude, to a point on Louisiana Cove at 54 degrees 45 minutes 58 seconds north latitude, 163 degrees 8 minutes 52 seconds west longitude.

(*b*) Unimak Island: Along the coast of East Anchor Cove within 2,500 feet, measured along the coast, from a point at 54 degrees 41 minutes 12 seconds north latitude, 163 degrees 3 minutes 36 seconds west longitude

(*c*) Along the coast on the north side of Ikatan Bay within 2,500 feet of a point at 54 degrees 48 minutes 52 seconds north latitude, 163 degrees 18 minutes 38 seconds west longitude.

(*d*) Along the coast on the west side of Morzhovoi Bay within 2,500 feet measured along the coast from a point at 55 degrees 1 minute north latitude, 163 degrees 11 minutes 9 seconds west longitude.

(*e*) Along the coast of Bold Cape for a distance of 2,500 feet from a point at 55 degrees 1 minute 12 seconds north latitude, 162 degrees 15 minutes 36 seconds west longitude.

(*f*) Along the coast on the south and east side of Kitchen Anchorage, Belkofski Bay, within a distance of 2,500 feet, measured along the coast, from a point at 55 degrees 7 minutes 30 seconds north latitude, 162 degrees 6 minutes 42 seconds west longitude.

(*g*) Along the mainland coast between Belkofski Bay and Bear Bay, from a point at 55 degrees 6 minutes 21 seconds north latitude, 161 degrees 57 minutes 54 seconds west longitude, to a point at 55 degrees 8 minutes north latitude, 161 degrees 57 minutes 18 seconds west longitude.

(*h*) Along the coast on the north side of Volcano Bay within 2,500 feet, measured along the coast, from a point at 55 degrees 14 minutes 6 seconds north latitude, 161 degrees 58 minutes 36 seconds west longitude.

(*i*) Along the mainland coast within 2,500 feet, measured along the coast, from a point at 55 degrees 13 minutes 30 seconds north latitude, 161 degrees 52 minutes 36 seconds west longitude.

(*j*) Mainland coast along the west side of Pavlof Bay from 55 degrees 18 minutes 6 seconds north latitude to 55 degrees 20 minutes north latitude.

(*k*) Mainland coast along the east side of Pavlof Bay (1) within 2,500 feet, measured along the coast, from a point at 55 degrees 35 minutes 12 seconds north latitude; (2) within 2,500 feet, measured along the coast, from a point at 55 degrees 29 minutes 38 seconds north latitude; (3) within 2,500 feet from a point at 55 degrees 27 minutes north latitude; and (4) within 2,500 feet of a point at 55 degrees 23 minutes 42 seconds north latitude.

(*l*) Island east of Seal Cape at 55 degrees 21 minutes 16 seconds north latitude, 161 degrees 13 minutes 24 seconds west longitude.

(*m*) Unga Island: East coast (1) within 2,500 feet of a point at 55 degrees 9 minutes 36 seconds north latitude, 160 degrees 29 minutes 54 seconds west longitude; (2) within 2,500 feet of a point at 55 degrees 11 minutes 42 seconds north latitude, 160 degrees 27 minutes 38 seconds west longitude; and (3) within 2,500 feet of a point at 55 degrees 13 minutes 29 seconds north latitude, 160 degrees 29 minutes 37 seconds west longitude.

(*n*) Popof Island: East and north coasts (1) within 2,500 feet of a point at 55 degrees 16 minutes north latitude, 160 degrees 19 minutes 40 seconds west longitude; (2) within 2,500 feet of a point at 55 degrees 18 minutes 36 seconds north latitude, 160 degrees 18 minutes 48 seconds west longitude; and (3) within 5,000 feet southwesterly from a point at 55 degrees 21 minutes 54 seconds north latitude, 160 degrees 21 minutes 48 seconds west longitude.

(*o*) Within 5,000 feet of a point on a reef near Guillemot Island at 55 degrees 33 minutes 10 seconds north latitude, 160 degrees 25 minutes 17 seconds west longitude.

(*p*) Korovin Island: East coast within 1,000 feet of a point at 55 degrees 24 minutes 24 seconds north latitude, 160 degrees 8 minutes 57 seconds west longitude.

19. All commercial fishing for salmon is prohibited, as follows:

(*a*) Within 1,000 yards outside the mouths of Bear, Sandy, and Ocean Rivers.

(*b*) Thin Point Lagoon, East Bay (Long John Lagoon), Kinzaroff Lagoon, Mortensen Lagoon, Swanson Lagoon, Big Lagoon, and Middle or Lambsport Lagoon: All waters within the lagoons and their streams and within a distance of 500 yards outside the entrances to the lagoons.

(*c*) Captain Harbor, tributary to Belkofski Bay: All waters within the harbor.

(*d*) Volcano and Bear Bays: All waters west of 162 degrees 1 minute west longitude.

(*e*) Canoe Bay, tributary to Pavlof Bay.

(*f*) All waters of Orzinski (Orzenoi) Bay.

(*g*) All waters of Balboa Bay north of a line extending due west from Low Point.

HERRING FISHERY.—1. Commercial fishing for herring except for bait purposes is prohibited in the period from January 1 to June 30, both dates inclusive, and from December 1 to December 31, both dates inclusive.

2. During the period from June 1 to October 1, both dates inclusive, commercial fishing for herring, including bait fishing, is prohibited in all waters closed throughout the year to salmon fishing.

3. Commercial fishing for herring, except for bait purposes, is prohibited from 6 o'clock antemeridian of Saturday of each week until 6 o'clock postmeridian of the Sunday following.

4. Gill nets used in catching herring shall not be of smaller mesh than 3 inches stretched measure.

5. Commercial fishing for herring, including bait fishing, by means of any trap is prohibited.

6. Commercial fishing for herring, except for bait purposes, by means of any seine is prohibited.

7. Commercial bait fishing for herring by means of any purse seine more than 1,400 meshes in depth, more than 180 fathoms in length, or of mesh less than 1½ inches stretched measure between knots is prohibited.

8. No one shall place, or cause to be placed, across the entrance of any lagoon or bay any net or other device which will prevent the free passage at all times of herring in and out of said lagoon or bay.

9. The dumping of offal and dead herring in the waters of any bay in which herring spawn or where they are captured is prohibited.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the hole from which it was removed in the course of digging operations.

IV. ALEUTIAN ISLANDS AREA

The Aleutian Islands area is hereby defined to include all territorial coastal and tributary waters of the Aleutian Islands westward of and including Unimak Pass.

SALMON FISHERY.—1. The total aggregate length of gill nets on any salmon fishing boat or in use by such boat shall not exceed 200 fathoms hung measure.

2. Stake and anchored gill nets shall be operated in substantially a straight line.

3. Commercial fishing for salmon is prohibited during the remainder of each calendar year after 6 o'clock postmeridian August 10, except that beach seines and gill nets may be used from September 5 to September 30, both dates inclusive.

4. The use of any trap is prohibited.

5. The use of any purse seine exceeding 100 fathoms in length or 150 meshes in depth is prohibited. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

HERRING FISHERY.—1. Commercial fishing for herring, except for bait purposes, is prohibited in the period from January 1 to June 15, both dates inclusive, and from November 1 to December 31, both dates inclusive.

2. Commercial fishing for herring, except for bait purposes, by means of any seine is prohibited except in the period from July 15 to October 31, both dates inclusive.

3. Commercial fishing for herring, except for bait purposes, is prohibited from 6 o'clock postmeridian of Saturday of each week until 6 o'clock antemeridian of the Monday following.

4. Gill nets used in catching herring shall not be of smaller mesh than 3 inches stretched measure.

5. Commercial fishing for herring, including bait fishing, by means of any trap is prohibited.

6. Commercial fishing for herring, except for bait purposes, by means of any seine is prohibited west of 166 degrees west longitude.

7. Commercial fishing for herring, including bait fishing by means of any purse seine more than 1,400 meshes in depth, more than 180 fathoms in length, or of mesh less than 1½ inches stretched measure between knots is prohibited.

8. Commercial bait fishing for herring by means of any seine in Unalaska Bay and tributary waters south of 54 degrees north latitude is prohibited.

9. No one shall place, or cause to be placed, across the entrance of any lagoon or bay any net or other device which will prevent the free passage at all times of herring in and out of said lagoon or bay.

10. The dumping of offal and dead herring in the waters of any bay in which herring spawn or where they are captured is prohibited.

V. CHIGNIK AREA

The Chignik area is hereby defined to include the territorial coastal and tributary waters of Alaska along the mainland shore from Castle Cape (Tuliunnit Point) to Cape Kunmik. The waters of Chankliut, Sutwik, and all other adjacent islands are included.

SALMON FISHERY.—1. Commercial fishing for salmon by means of any purse seine is prohibited.

2. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 100 fathoms hung measure.

3. No set or anchored gill net shall exceed 75 fathoms in length measured on the cork line.

4. Set or anchored gill nets shall be operated in substantially a straight line: *Provided*, That not to exceed 30 yards of each net may be used as a hook. Only one such hook is permitted on a net.

5. The use of motor-propelled gill-net boats in catching salmon is prohibited.

6. The distance by most direct water measurement from any part of one set, anchored, or drift gill net or seine to any part of another set, anchored, or drift gill net or seine, or to any part of any trap, shall not be less than 600 feet.

7. All set or anchored gill nets shall be removed from the water throughout the weekly closed periods extending from 6 o'clock postmeridian of Saturday of each week to 6 o'clock antemeridian of the Monday following.

8. No salmon fishing boat shall carry or operate more than one beach seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited.

9. No beach seine shall be less than 50 fathoms or more than 100 fathoms in length measured on the cork line. No beach seine shall be less than 100 meshes or more than 200 meshes in depth. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots.

10. All commercial fishing for salmon is prohibited in Chignik Lagoon within a line from a point on the mainland at 56 degrees 17 minutes 26 seconds north latitude, 158 degrees 37 minutes 48 seconds west longitude, to a point on the west side of Chignik Island at 56 degrees 17 minutes 15 seconds north latitude, 158 degrees 36 minutes 24 seconds west longitude, thence to a point on the north shore of Chignik Island at 56 degrees 17 minutes 33 seconds north latitude, 158 degrees 34 minutes 54 seconds west longitude, thence to Rocky Point on the east side of Chignik Lagoon at 56 degrees 17 minutes 30 seconds north latitude, 158 degrees 33 minutes 52 seconds west longitude.

11. The take of salmon within waters in which the runs are tributary to the Chignik River shall not exceed 50 percent of the total run as determined at the weir in Chignik River operated by the Bureau of Fisheries.

12. Commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian June 1 and after 6 o'clock postmeridian October 1 in each year.

13. Commercial fishing for salmon is prohibited in the waters surrounding Unavikshak, Nakchamik, and Chankliut Islands.

14. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1 statute mile, except in Chignik Lagoon, where there shall be a distance interval of not less than 10 statute miles laterally between any two traps on the north shore or on the south shore of Chignik Lagoon. Chignik Island shall be considered as a part of the south shore of the lagoon.

15. The use of any trap for the capture of salmon is prohibited except as follows:

(*a*) Along the coast of Chignik Lagoon within 2,500 feet from the outer extremity of Hume Point.

(*b*) Along the coast of Chignik Island within 2,500 feet from a point at 56 degrees 17 minutes 30 seconds north latitude, 158 degrees 35 minutes 38 seconds west longitude.

(*c*) Along the east side of the spit at the entrance to Chignik Lagoon from the southern extremity of the spit northwesterly for a distance of 5,000 feet.

(*d*) Along the coast on the east side of Anchorage Bay within 2,500 feet from a point at 56 degrees 19 minutes 17 seconds north latitude, 158 degrees 21 minutes 12 seconds west longitude.

(*e*) Along the east side of the spit on the west side of Lake Bay from the northern extremity of the spit at 56 degrees 18 minutes 53 seconds north latitude to a point at 56 degrees 18 minutes 22 seconds north latitude, 158 degrees 16 minutes 41 seconds west longitude.

(*f*) Along the coast on the west side of Hook Bay within 2,500 feet from a point at 56 degrees 30 minutes 54 seconds north latitude, 158 degrees 9 minutes 12 seconds west longitude.

(*g*) Along the coast on the west side of Aniakchak Bay beginning at a point on the coast 8,000 feet southeasterly of the mouth of the lagoon and extending southeasterly for a distance of 5,000 feet.

(*h*) Along the south side of Aniakchak Bay within 2,500 feet from a point at 56 degrees 39 minutes 18 seconds north latitude, 157 degrees 28 minutes west longitude.

HERRING FISHERY.—1. Commercial fishing for herring, except for bait purposes, is prohibited in the period from January 1 to June 30, both dates inclusive, and from December 1 to December 31, both dates inclusive.

2. During the period from June 1 to October 1, both dates inclusive, commercial fishing for herring, including bait fishing, is prohibited in all waters closed throughout the year to salmon fishing.

3. Commercial fishing for herring, except for bait purposes, is prohibited from 6 o'clock antemeridian of Saturday of each week until 6 o'clock postmeridian of the Sunday following.

4. Gill nets used in catching herring shall not be of smaller mesh than 3 inches stretched measure.

5. Commercial fishing for herring, including bait fishing, by means of any trap is prohibited.

6. Commercial fishing for herring, except for bait purposes, by means of any purse seine is prohibited.

7. Commercial fishing for herring, including bait fishing, by means of any beach seine more than 50 fathoms in length is prohibited.

8. Commercial fishing for herring for bait purposes by means of any purse seine more than 1,400 meshes in depth, more than 180 fathoms in length, or of mesh less than 1½ inches stretched measure between knots is prohibited.

9. No one shall place, or cause to be placed, across the entrance of any lagoon or bay any net or other device which will prevent the free passage at all times of herring in and out of said lagoon or bay.

10. The dumping of offal and dead herring in the waters of any bay in which herring spawn or where they are captured is prohibited.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the hole from which it was removed in the course of digging operations.

### VI. KODIAK AREA

The Kodiak area is hereby defined to include the waters of the mainland shore extending from Cape Douglas southwestward to Cape Kunmik and the territorial coastal and tributary waters of Alaska surrounding Kodiak, Afognak, and adjacent islands, including Chirikof Island and the Semidi Islands.

SALMON FISHERY.—1. Commercial fishing for salmon by means of any purse seine more than 125 fathoms in length is prohibited. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

2. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

3. Commercial fishing for salmon by means of any beach seine with mesh smaller than 3 inches stretched measure between knots or with mesh larger than 3½ inches stretched measure between knots is prohibited.

4. Beach seines shall be set from the beach only. No beach seine shall be set as a trap or as a lead and left without reasonably prompt completion of the seining operation.

5. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 150 fathoms hung measure.

6. No set or anchored gill net shall exceed 300 yards in length, and each shall be set in substantially a straight line: *Provided*, That not to exceed 50 yards of each net may be used as a hook. Only one such hook is permitted on a net. No wire netting or other device that impedes or obstructs the free passage of fish shall be used in connection with the operation of any set or anchored gill net except that seine webbing may be used on the shore end between the lines of high and low water.

7. The distance by most direct water measurement from any part of one set or anchored gill net to any part of another set or anchored gill net or to any part of any trap shall not be less than 900 feet.

8. All set or anchored gill nets shall be removed from the water throughout all closed periods, including the weekly closed periods extending from 6 o'clock postmeridian of Saturday of each week to 6 o'clock antemeridian of the Monday following.

9. Each powered salmon-fishing boat in operation shall be legibly and plainly marked with the initials or symbol of the person, company, or corporation owning, operating, or using same, together with a distinctive number which shall identify each particular boat, said letters, symbols, and numbers to be not less than 8 inches in length.

10. No salmon fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited.

11. Commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian June 1 and for the remainder of each calendar year after 6 o'clock postmeridian September 30.

12. Commercial fishing for salmon in Alitak Bay and all its branches within a line from Cape Trinity to Cape Alitak prior to 6 o'clock antemeridian June 15 and after 6 o'clock postmeridian August 10 in each year is prohibited.

13. The take of salmon within waters in which the runs are tributary to Olga Bay shall not exceed 50 percent of the total run as determined at the weirs on tributary waters of Olga Bay operated by the Bureau of Fisheries.

14. The take of red salmon in waters extending from Cape Alitak to Cape Karluk shall not exceed 50 percent of the total run as determined at the weir in Red River operated by the Bureau of Fisheries.

15. The take of red salmon in Karluk waters, extending from Cape Karluk to Broken Point, shall not exceed 50 percent of the total run as determined at the weir in Karluk River operated by the Bureau of Fisheries: *Provided*, That beach seines not to exceed 200 fathoms in length, hung measure, shall be permitted to fish between Cape Karluk and Cape Uyak, except within 1,000 yards of the Karluk River, at any time except during the weekly closed period from 6 o'clock postmeridian Saturday to 6 o'clock antemeridian Monday of each week.

16. Commercial fishing for salmon between Cape Karluk and Cape Uyak except by beach seines and purse seines is prohibited.

17. Commercial fishing for salmon between Cape Karluk and Cape Alitak except by purse seines and gill nets is prohibited.

18. Commercial fishing for salmon is prohibited from August 15 to August 31, both dates inclusive: *Provided*, That this prohibition shall not apply (1) to all gear on the west coast of Kodiak Island from Cape Alitak to Cape Karluk, (2) to beach seines and purse seines on the north coast of Kodiak Island from Cape Karluk to Cape Uyak, (3) to set gill nets on the north coast of Kodiak Island from Cape Uyak to West Point, and (4) to traps on the west coast of Kodiak Island from Cape Uyak to Uyak Post Office, and from Chief Point to West Point.

19. The distance by most direct water measurement from any part of one trap to any part of another trap, except in those waters of Alitak Bay in which the runs are tributary to streams where counting weirs are maintained, shall not be less than 1 statute mile.

20. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Raspberry Island: From a point on the north coast at 58 degrees 8 minutes 45 seconds north latitude, 153 degrees 15 minutes west longitude, westward to a point at 58 degrees 9 minutes 10 seconds north latitude, 153 degrees 17 minutes 30 seconds west longitude.

(*b*) Raspberry Island: From Raspberry Cape at 58 degreees 3 minutes 25 seconds north latitude, 153 degrees 25 minutes 30 seconds west longitude, northeast to a point at 58 degrees 5 minutes 10 seconds north latitude, 153 degrees 23 minutes west longitude.

(*c*) Raspberry Island: Within 2,500 feet of a point on the south coast of Raspberry Island at 58 degrees 2 minutes 43 seconds north latitude, 153 degrees 18 minutes 54 seconds west longitude.

(*d*) Raspberry Island: Within 2,500 feet of a point on the south coast of Raspberry Island at 58 degrees 2 minutes 30 seconds north latitude, 153 degrees 15 minutes 17 seconds west longitude.

(*e*) Uganik Island: Within 2,500 feet of a point on the east coast of Uganik Island at 57 degrees 56 minutes north latitude, 153 degrees 23 minutes 11 seconds west longitude.

(*f*) Uganik Island: Within 2,500 feet of a point on the north coast of Uganik Island at 57 degrees 57 minutes 45 seconds north latitude, 153 degrees 30 minutes west longitude.

(*g*) Uganik Island: West coast from a point at 153 degrees 27 minutes west longitude to a point indicated by marker approximately 4 statute miles southwest of Cape Uganik.

(*h*) Kodiak Island: Within 2,500 feet of a point on the west side of Uganik Bay at 57 degrees 50 minutes 45 seconds north latitude, 153 degrees 38 minutes west longitude.

(*i*) Kodiak Island: Within 5,000 feet easterly of a point on Cape Ugat at 57 degrees 52 minutes 5 seconds north latitude, 153 degrees 51 minutes 9 seconds west longitude.

(*j*) Kodiak Island, near entrance to Uyak Bay: Along the coast (1) within 2,500 feet of a point at 57 degrees 44 minutes 35 seconds north latitude, 153 degrees 56 minutes 30 seconds west longitude, and (2) within 5,000 feet easterly of a point at 57 degrees 41 minutes 48 seconds north latitude, 153 degrees 54 minutes 45 seconds west longitude.

(*k*) Kodiak Island: Coast from the point on the south side of the entrance to Spiridon Bay (or northeast arm of Uyak Bay) southerly to a point at 57 degrees 37 minutes 40 seconds north latitude, 153 degrees 52 minutes 55 seconds west longitude.

(*l*) Kodiak Island: Within 2,500 feet of a point on the east side of Uyak Bay at 57 degrees 35 minutes 40 seconds north latitude, 153 degrees 49 minutes 30 seconds west longitude.

(*m*) Kodiak Island: Within 2,500 feet of a point northwest of Cape Uyak at 57 degrees 38 minutes 6 seconds north latitude, 154 degrees 20 minutes 3 seconds west longitude.

(*n*) Kodiak Island: Coast along east side of Alitak Bay within 800 feet of a point at 56 degreees 52 minutes 12 seconds north latitude, 154 degrees 0 minutes 6 seconds west longitude.

(*o*) Kodiak Island: Coast along east side of Deadman Bay within 800 feet of a point at 56 degrees 57 minutes 35 seconds north latitude, 153 degrees 58 minutes 33 seconds west longitude.

(*p*) Kodiak Island: Coast along west side of Alitak Bay within 800 feet of a point at 57 degrees 0 minutes 39 seconds north latitude, 154 degrees 2 minutes 12 seconds west longitude.

(*q*) Kodiak Island: Coast along west side of Alitak Bay within 800 feet of a point at 56 degrees 57 minutes 55 seconds north latitude, 154 degrees 5 minutes 28 seconds west longitude.

(*r*) Kodiak Island: Coast along west side of Alitak Bay near Bun Point, within 800 feet of a point at 56 degrees 58 minutes 3 seconds north latitude, 154 degrees 6 minutes 15 seconds west longitude.

(*s*) Miller Island, Alitak Bay: Within 2,500 feet of a point on the eastern extremity of Miller Island at 56 degrees 57 minutes 15 seconds north latitude, 154 degrees 7 minutes 37 seconds west longitude.

(*t*) Afognak Island: Along the coast (1) within 2,500 feet of a point at 58 degrees 12 minutes 20 seconds north latitude, 153 degrees 8 minutes 30 seconds west longitude, and (2) within 2,500 feet of a point on the south side of Paramanof Bay at 58 degrees 18 minutes north latitude, 153 degrees 2 minutes 23 seconds west longitude.

21. All commercial fishing for salmon is prohibited as follows:

(*a*) Portage Bay, tributary to Alitak Bay: All waters of lagoon at head of southeast arm inside of markers placed at entrance, and all waters in the northeast arm within a line from a marker on the north shore 1 statute mile from the stream in the northeast corner of the bay to a marker on the opposite shore.

(*b*) Deadman Bay, tributary to Alitak Bay: All waters of Deadman Bay within 1 statute mile of the head of the bay.

(*c*) Olga and Moser Bays: All waters of Olga and Moser Bays and contiguous waters within a line from Bun Point through Turn Island at the entrance of Moser Bay to Akhiok village.

(*d*) Western shore of Kodiak Island: All waters within 1 statute mile of the mouth of Red River.

(*e*) Karluk River: All waters within Karluk River and within 100 yards of its mouth where it breaks through Karluk Spit into Shelikof Strait.

(*f*) Uyak Bay: All waters of the bay south of 57 degrees 19 minutes north latitude.

(*g*) Zachar Bay, tributary to Uyak Bay: All waters of Zachar Bay east of 153 degrees 46 minutes west longitude.

(*h*) Spiridon Bay (or northeast arm of Uyak Bay): All waters of Spiridon Bay east of 153 degrees 42 minutes west longitude.

(*i*) East Arm, Uganik Bay, Kodiak Island: All waters within the arm south of a line extending from Mink Point northeasterly to a point on the northeast shore at 57 degrees 43 minutes 20 seconds north latitude.

(*j*) Terror Bay: All waters within the bay south of 57 degrees 44 minutes north latitude.

(*k*) Pasagshak Bay, at entrance to Ugak Bay: All waters within the bay.

(*l*) Ugak Bay: All waters within the bay west of 152 degrees 49 minutes west longitude.

(*m*) Kiliuda Bay: All waters of the bay west of 153 degrees 7 minutes west longitude.

(*n*) Old Harbor, Sitkalidak Strait: All waters within 1 statute mile of the mouth of the stream approximately 1 statute mile northeast of Old Harbor, Sitkalidak Strait.

(*o*) All bays of Afognak Island: All waters of the bays within lines indicated by markers erected for the purpose.

(*p*) Kaflia Bay, on north shore of Shelikof Strait: All waters within 1 statute mile outside the entrance of the outer lagoon.

HERRING FISHERY.—1. Commercial fishing for herring, except for bait purposes, is prohibited during the period from January 1 to June 14, both dates inclusive.

2. Commercial fishing for herring, except for bait purposes, is prohibited from November 16 to December 31, both dates inclusive: *Provided*, That this prohibition shall not apply to the use of gill nets.

3. During the period from July 15 to October 1, both dates inclusive, commercial fishing for herring, including bait fishing, is prohibited in all waters closed throughout the year to salmon fishing.

4. Gill nets used in catching herring shall not be of smaller mesh than 2½ inches stretched measure.

5. Commercial fishing for herring, including bait fishing, by means of any trap is prohibited.

6. Commercial fishing for herring, including bait fishing, by means of any purse seine more than 1,400 meshes in depth, more than 180 fathoms in length, or of mesh less than 1½ inches stretched measure between knots is prohibited.

7. No one shall place, or cause to be placed, across the entrance of any lagoon or bay any net or other device which will prevent the free passage at all times of herring in and out of said lagoon or bay.

8. The dumping of offal and dead herring in the waters of any bay in which herring spawn or where they are captured is prohibited.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the hole from which it was removed in the course of digging operations.

3. Along the mainland coast and nearby islands from Cape Kuliak to Cape Douglas, there shall not be taken in any calendar year a total of more than 500,000 pounds of razor clams, including shells, or 12,500 cases upon the basis of 48 one-half pound cans per case.

### VII. COOK INLET AREA

The Cook Inlet area is hereby defined to include Cook Inlet, its tributary waters, and all adjoining waters north of Cape Douglas and west of Point Gore. The Barren Islands are included within this area.

SALMON FISHERY.—1. North of the latitude of Anchor Point commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian June 25 and after 6 o'clock postmeridian August 1 in each year: *Provided*, That this prohibition shall not apply to the use of gear of mesh not less than 8½ inches stretched measure between knots after 6 o'clock antemeridian May 25. South of the latitude of Anchor Point, except in Chinik Inlet and in Kamishak Bay south of 59 degrees 9 minutes north latitude, commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian June 25 and after 6 o'clock postmeridian August 10, except that beach seines may be operated in the period from 6 o'clock antemeridian August 22 to 6 o'clock postmeridian September 10: *Provided*, That this prohibition shall not apply to the use of gear of mesh not less than 8½ inches stretched measure between knots after 6 o'clock antemeridian May 25. In Chinik Inlet in Kamishak Bay commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian July 9 and after 6 o'clock postmeridian August 1 in each year. In the waters of Kamishak Bay south of 59 degrees 9 minutes north latitude commercial fishing for salmon is permitted from 6 o'clock antemeridian May 25 to 6 o'clock postmeridian August 1.

2. Commercial fishing for salmon in any bay, estuary, slough, or lagoon less than 300 feet in width at mean low tide is prohibited.

3. The use of purse seines for the capture of salmon is prohibited.

4. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 2,500 feet.

5. Twenty-five feet of the heart walls next to the pot of each hand trap in Cook Inlet shall be constructed of flexible webbing other than wire.

6. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 100 fathoms hung measure.

7. Each gill net in operation shall be marked by a cluster of floats or corks at the ends, and double floats or corks shall be attached to the cork line at 25-fathom intervals. The clusters of floats or corks at the ends and the double floats or corks at the 25-fathom intervals shall be painted bright red. The clusters at the ends shall also be legibly and plainly marked with the initials of the operator.

8. No set or anchored gill net shall exceed 35 fathoms in length measured on the cork line.

9. Stake and set or anchored gill nets shall be operated in substantially a straight line: *Provided*, That not to exceed 20 yards of each net may be used as a hook. Only one such hook is permitted on a net.

10. The distance by most direct water measurement from any part of one set or anchored gill net to any part of another set or anchored gill net shall not be less than 600 feet. The distance by most direct water measurement from any part of any set or anchored gill net to any part of any trap shall not be less than 1,000 feet.

11. All set or anchored gill nets shall be removed from the water throughout the weekly closed periods extending from 6 o'clock postmeridian of Saturday of each week to 6 o'clock antemeridian of the Monday following.

12. No salmon fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited.

13. No beach seine shall be less than 125 meshes in depth or less than 90 fathoms in length measured on the cork line. For the purpose of determining the depths of seines measurements will be upon the basis of 3½ inches stretched measure between knots.

14. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Along the mainland coast on the west side of Cook Inlet (1) within 500 feet of a point at 61 degrees 9 minutes 12 seconds north latitude, 151 degrees 3 minutes 24 seconds west longitude; (2) within 300 feet of a point at 61 degrees 7 minutes 21 seconds north latitude, 151 degrees 5 minutes 25 seconds west longitude; (3) from 61 degrees 2 minutes 16 seconds north latitude, 151 degrees 13 minutes 15 seconds west longitude, to 61 degrees 2 minutes 14 seconds north latitude, 151 degrees 15 minutes 18 seconds west longitude; (4) from 61 degrees 0 minutes 25 seconds north latitude, 151 degrees 22 minutes 15 seconds west longitude, to 61 degrees 0 minutes 38 seconds north latitude, 151 degrees 24 minutes 34 seconds west longitude; (5) within 1,000 feet of a point at 60 degrees 46 minutes 35 seconds north latitude, 151 degrees 44 minutes 48 seconds west longitude; (6) within 1,000 feet of a point at 60 degrees 42 minutes 56 seconds north latitude, 151 degrees 45 minutes 27 seconds west longitude; and (7) within 1,000 feet of a point at 60 degrees 24 minutes north latitude, 152 degrees 15 minutes 40 seconds west longitude.

(*b*) Along the east coast of Chisik Island within 1,000 feet of a point at 60 degrees 8 minutes 35 seconds north latitude, 152 degrees 34 minutes west longitude.

(*c*) Along the north coast of Kalgin Island (1) within 1,000 feet of a point at 60 degrees 30 minutes 25 seconds north latitude, 151 degrees 57 minutes 22 seconds west longitude, (2) within 1,000 feet of a point at 60 degrees 30 minutes 20 seconds north latitude, 151 degrees 54 minutes 48 seconds west longitude, and (3) within 1,000 feet of a point at 60 degrees 29 minutes 54 seconds north latitude, 151 degrees 53 minutes 30 seconds west longitude.

(*d*) Along the east coast of Kalgin Island within 300 feet of a point at 60 degrees 26 minutes 38 seconds north latitude, 151 degrees 53 minutes 33 seconds west longitude.

(*e*) Along the west coast of Kalgin Island within 1,000 feet of a point at 60 degrees 21 minutes 38 seconds north latitude, 152 degrees 3 minutes west longitude.

(*f*) Along the mainland coast on the east side of Cook Inlet (1) within 1,000 feet of a point at 61 degrees 1 minute 30 seconds north latitude, 150 degrees 25 minutes 30 seconds west longitude; (2) within 1,000 feet of a point at 61 degrees 0 minutes 50 seconds north latitude, 150 degrees 27 minutes 35 seconds west longitude; (3) within 1,000 feet of a point at 60 degrees 59 minutes 42 seconds north latitude, 150 degrees 32 minutes west longitude; (4) within 1,000 feet of a point at 60 degrees 59 minutes north latitude, 150 degrees 34 minutes 48 seconds west longitude; (5) within 1,000 feet of a point at 60 degrees 57 minutes 40 seconds north latitude, 150 degrees 39 minutes west longitude; (6) within 1,000 feet of a point at 60 degrees 56 minutes 30 seconds north latitude, 150 degrees 42 minutes 20 seconds west longitude; and (7) within 1,200 feet of a point at 60 degrees 55 minutes 22 seconds north latitude, 150 degrees 44 minutes 40 seconds west longitude.

(*g*) Along the mainland coast on the east side of Cook Inlet from a point south of Boulder Point at 60 degrees 46 minutes north latitude, 151 degrees 16 minutes west longitude, southerly to a point at 60 degrees 44 minutes 15 seconds north latitude, 151 degrees 19 minutes west longitude.

(*h*) Along the mainland coast on the east side of Cook Inlet from a point at 60 degrees 40 minutes north latitude, 151 degrees 23 minutes 13 seconds west longitude, southeasterly to a point at 60 degrees 35 minutes 15 seconds north latitude, 151 degrees 20 minutes 30 seconds west longitude.

(*i*) Along the mainland coast on the east side of Cook Inlet from a point south of Kenai River at 60 degrees 28 minutes 45 seconds north latitude, 151 degrees 17 minutes 18 seconds west longitude, southerly to a point at 60 degrees 25 minutes 37 seconds north latitude, 151 degrees 17 minutes 34 seconds west longitude.

(*j*) Along the mainland coast on the east side of Cook Inlet within 1,000 feet of a point at 60 degrees 19 minutes 49 seconds north latitude, 151 degrees 23 minutes 24 seconds west longitude.

(*k*) Along the mainland coast on the east side of Cook Inlet (1) from a point at 60 degrees 16 minutes 45 seconds north latitude, 151 degrees 23 minutes 30 seconds west longitude, southerly to a point at 60 degrees 15 minutes 30 seconds north latitude, 151 degrees 23 minutes 45 seconds west longitude; and (2) within 1,000 feet of a point at 60 degrees 14 minutes 41 seconds north latitude, 151 degrees 24 minutes 5 seconds west longitude.

(*l*) Along the mainland coast on the east side of Cook Inlet (1) from a point at 60 degrees 13 minutes north latitude, 151 degrees 25 minutes 15 seconds west longitude, southerly to a point at 60 degrees 12 minutes 15 seconds north latitude; (2) from a point at 60 degrees 11 minutes 5 seconds north latitude, southerly to a point at 60 degrees 10 minutes 45 seconds north latitude, 151 degrees 28 minutes 20 seconds west longitude; (3) from a point at 60 degrees 10 minutes 15 seconds north latitude, 151 degrees 29 minutes 15 seconds west longitude, southerly to a point at 60 degrees 8 minutes 30 seconds north latitude, 151 degrees 31 minutes 40 seconds west longitude; and (4) within 1,000 feet of a point at 60 degrees 7 minutes 48 seconds north latitude, 151 degrees 32 minutes 42 seconds west longitude.

(*m*) Along the mainland coast on the east side of Cook Inlet from a point at 60 degrees 7 minutes north latitude, 151 degrees 34 minutes 20 seconds west longitude, southerly to a point at 60 degrees 4 minutes 30 seconds north latitude, 151 degrees 38 minutes 30 seconds west longitude.

(*n*) Along the mainland coast on the east side of Cook Inlet (1) within 1,000 feet of a point at 60 degrees 0 minutes 5 seconds north latitude, 151 degrees 43 minutes 30 seconds west longitude; and (2) within 1,000 feet of a point at 59 degrees 54 minutes 45 seconds north latitude, 151 degrees 45 minutes 47 seconds west longitude.

(*o*) Along the mainland coast on the east side of Cook Inlet south of Cape Starichkof within 500 feet of a point at 59 degrees 50 minutes 34 seconds north latitude, 151 degrees 49 minutes 11 seconds west longitude.

(*p*) Along the mainland coast on the east side of Cook Inlet between Anchor Point and Bluff Point within 1,200 feet of a point at 59 degrees 41 minutes 38 seconds north latitude, 151 degrees 46 minutes 48 seconds west longitude.

(*q*) Along the mainland coast on the east side of Cook Inlet on the west side of Nubble Point Spit within 1,200 feet of a point at 59 degrees 28 minutes 45 seconds north latitude, 151 degrees 35 minutes 6 seconds west longitude.

(*r*) Along the mainland coast on the east side of Cook Inlet from a point at 59 degrees 26 minutes 30 seconds north latitude, 151 degrees 46 minutes west longitude, westerly to a point at 59 degrees 26 minutes 40 seconds north latitude, 151 degrees 46 minutes 45 seconds west longitude.

(*s*) Along the mainland coast on the east side of Cook Inlet east of Flat Island within 1,200 feet of a point at 59 degrees 19 minutes 40 seconds north latitude, 151 degrees 58 minutes 47 seconds west longitude.

15. All commercial fishing is prohibited, as follows:

(*a*) Within 1 statute mile of the mouths of the following salmon streams: Kenai River, Kasilof River, Swanson Creek, Bishop Creek, Ninilchik River, Deep Creek, Starichkof River, Anchor Point River, English Bay Stream, Little Susitna River, Susitna River, Ivan River, Lewis River, Theodore River, Beluga River, Threemile Creek, Chuit River, Nikolai River, McArthur River, Kustatan River, Katnu River, Drift River, and Kalgin Island Stream on the east coast of Kalgin Island.

(*b*) Turnagain Arm and Knik Arm: All waters above a line from Point Possession at 61 degrees 2 minutes 10 seconds north latitude, 150 degrees 24 minutes 5 seconds west longitude, to Point Woronzof at 61 degrees 12 minutes north latitude, 150 degrees west longitude, thence to Point MacKenzie at 61 degrees 14 minutes 10 seconds north latitude, 150 degrees west longitude.

(*c*) Kamishak Bay: All waters within 400 yards outside the entrance to the lagoon at the mouth of McNeil Creek.

(*d*) Kachemak Bay: All waters above a line from Chugachik Island to a point on the opposite shore one-half mile below the mouth of Swift Creek.

HERRING FISHERY.—1. Commercial fishing for herring, except for bait purposes, is prohibited during the period from January 1 to June 30, both dates inclusive, and from November 16 to December 31, both dates inclusive: *Provided*, That this prohibition shall not apply to the use of set and drift gill nets in the period from November 16 to December 31, both dates inclusive.

2. During the period from July 1 to October 1, both dates inclusive, commercial fishing for herring, including bait fishing, is prohibited in all waters closed throughout the year to salmon fishing.

3. Commercial fishing for herring in Halibut Cove, including the waters within a line from the western end of Ismailof Island to the outermost point on Glacier Spit, is limited to gill nets.

4. Commercial fishing for herring in Halibut Cove Lagoon is limited to set gill nets not exceeding 50 fathoms in length, hung measure. All such nets shall be anchored in a substantial manner not less than 150 yards apart.

5. Nets operated within areas marked at the north and south ends of Halibut Cove Lagoon shall be anchored at right angles to the line joining the markers. Nets operated between these areas shall be anchored in a general direction paralleling the shore line.

6. The maintaining of a herring pound in the waters of Halibut Cove and Lagoon is prohibited.

7. The use of purse seines for the capture of herring is prohibited in Kachemak Bay and tributary waters within a line from Nubble Point to Bluff Point.

8. Gill nets used in catching herring shall not be of smaller mesh than 3 inches stretched measure.

9. Commercial fishing for herring, including bait fishing, by means of any trap is prohibited.

10. Commercial fishing for herring, including bait fishing, by means of any purse seine more than 1,400 meshes in depth, more than 180 fathoms in length, or of mesh less than 1½ inches stretched measure between knots is prohibited.

11. No one shall place, or cause to be placed, across the entrance of any lagoon or bay any net or other device which will prevent the free passage at all times of herring in and out of said lagoon or bay.

12. The dumping of offal and dead herring in the waters of any bay in which herring spawn or where they are captured is prohibited.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the

hole from which it was removed in the course of digging operations.

3. The taking of razor clams for commercial purposes on the west side of Cook Inlet from Cape Douglas northerly to North Foreland is prohibited prior to 6 o'clock antemeridian June 1 and after 6 o'clock postmeridian August 15 in each year.

4. The taking of razor clams for commercial purposes on the east side of Cook Inlet from Anchor Point northerly to Point Possession is prohibited prior to 6 o'clock antemeridian May 1 and after 6 o'clock postmeridian September 30 in each year.

VIII. RESURRECTION BAY AREA

The Resurrection Bay area is hereby defined to include all territorial coastal and tributary waters of the Gulf of Alaska between Point Gore on the west and Cape Fairfield on the east.

SALMON FISHERY.—1. The use of any trap for the capture of salmon is prohibited.

2. The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 200 fathoms hung measure.

3. No set or anchored gill net shall exceed 300 yards in length, and each shall be set in substantially a straight line: *Provided*, That not to exceed 20 yards of each net may be used as a hook. Only one such hook is permitted on a net. There shall be a distance interval of at least 200 yards, both endwise and laterally, at all times between all set or anchored gill nets operated.

4. King salmon nets shall have a mesh at least 8½ inches stretched measure between knots, and red-salmon nets shall have a mesh at least 5½ inches stretched measure between knots, as measured when actually in use.

5. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

6. Prior to 6 o'clock antemeridian June 1 in each year commercial fishing for salmon with nets of mesh less than 8½ inches stretched measure between knots is prohibited.

7. Commercial fishing for salmon is prohibited during the remainder of each calendar year after 6 o'clock postmeridian September 20.

8. In the waters of Resurrection Bay within a line from Cape Resurrection to the western side of Bear Glacier at its mouth, the 36-hour closed period for salmon fishing prescribed by section 5 of the act of June 6, 1924, is hereby extended to include the period from 6 o'clock antemeridian of Saturday of each week until 6 o'clock antemeridian of the Monday following, making a weekly closed period of 48 hours: *Provided*, That this extension shall not be effective after August 23 in each year.

9. Commercial fishing for salmon within 1,000 yards of the mouths of Bear Creek and Resurrection River is prohibited at all times; and in the period from June 7 to August 23, both dates inclusive, commercial fishing for salmon is prohibited within 1,700 yards of the mouths of these streams.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the hole from which it was removed in the course of digging operations.

IX. PRINCE WILLIAM SOUND AREA

The Prince William Sound area is hereby defined to include all territorial coastal and tributary waters of the Gulf of Alaska between Cape Fairfield on the west and Point Whitshed on the east.

SALMON FISHERY.—1. The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 200 fathoms hung measure.

2. No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 125 meshes nor more than 200 meshes in depth, nor less than 90 fathoms nor more than 150 fathoms in length measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

3. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

4. No set or anchored gill net shall exceed 300 yards in length and each shall be set in substantially a straight line: *Provided*, That not to exceed 20 yards of each net may be used as a hook. Only one such hook is permitted on a net. There shall be a distance interval of at least 200 yards both endwise and laterally at all times between all set or anchored gill nets operated.

5. The use of purse seines and beach seines for the capture of salmon is prohibited in the waters along the western coast from the outer point on the north shore of Granite Bay (known as Granite Bay Point) to the light on the south shore of the entrance to Port Nellie Juan.

6. Commercial fishing for salmon in Port Valdez east of 146 degrees 40 minutes west longitude is limited entirely to set or anchored gill nets of not to exceed 300 yards each in length.

7. The 36-hour closed period for salmon fishing prescribed by section 5 of the act of June 6, 1924, is hereby extended to include the period from 6 o'clock antemeridian of Saturday of each week until 6 o'clock antemeridian of the Monday following, making a weekly closed period of 48 hours.

8. Commercial fishing for salmon, except by trolling, is prohibited prior to 6 o'clock antemeridian June 25 in each calendar year.

9. Commercial fishing for salmon by trolling is prohibited prior to April 15 in each calendar year.

10. Commercial fishing for salmon is prohibited during the remainder of each calendar year after 6 o'clock postmeridian August 5: *Provided*, That this prohibition shall not apply (*a*) to trolling and gill netting through August 22 in the waters along the western coast from the outer point on the north shore of Granite Bay (known as Granite Bay Point) to the light on the south shore of the entrance to Port Nellie Juan, (*b*) to trolling in the period from 6 o'clock antemeridian August 5 to 6 o'clock postmeridian September 20 in the waters of Prince William Sound east of 147 degrees west longitude, exclusive of all waters of Valdez Arm north of Point Freemantle, and (*c*) to the operation of set or anchored gill nets in the period from 6 o'clock antemeridian August 5 to 6 o'clock postmeridian September 20 in the waters of Valdez Arm east of 146 degrees 25 minutes west longitude. All trap leads from shore to entrance of hearts must be removed prior to 6 o'clock antemeridian August 9.

11. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1½ statute miles.

12. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Knight Island: From a point on the southeast coast at 60 degrees 9 minutes 50 seconds north latitude southerly to Point Helen, thence northerly to 60 degrees 11 minutes 15 seconds north latitude, 147 degrees 50 minutes 40 seconds west longitude, exclusive of all waters in Little Bay.

(*b*) Along the coast of Squire Island within ½ statute mile of its southern extremity.

(*c*) Bainbridge Island: Within 2,500 feet of a point at 60 degrees 11 minutes 32 seconds north latitude, 148 degrees 3 minutes west longitude.

(*d*) Eastern coast of Chenega Island from a point 1 statute mile southward of its northern extremity to a point 1 statute mile eastward of Chenega village.

(*e*) Mainland coast within 2,500 feet of a point at 60 degrees 24 minutes 48 seconds north latitude, 147 degrees 58 minutes 18 seconds west longitude.

(*f*) Knight Island: East coast within 2,500 feet of a point at 60 degrees 21 minutes 55 seconds north latitude, 147 degrees 37 minutes 29 seconds west longitude.

(*g*) Eastern coast of Culross Island: From the northern side of the entrance to Hidden Bay northerly to a point at 60 degrees 43 minutes 45 seconds north latitude, 148 degrees 6 minutes 35 seconds west longitude.

(*h*) Western side of Valdez Arm (1) within 2,500 feet of a point at 60 degrees 55 minutes 40 seconds north latitude, 146 degrees 58 minutes 35 seconds west longitude, and (2) from 60 degrees 58 minutes north latitude to 60 degrees 59 minutes north latitude.

(*i*) Southwest coast of Bligh Island from 60 degrees 49 minutes 45 seconds north latitude to 146 degrees 44 minutes 20 seconds west longitude.

(*j*) Within ½ statute mile of the southwestern extremity of Bidarka Point.

(*k*) From a point on the east side of Landlocked Bay at 60 degrees 49 minutes north latitude to a point on the north shore of Port Fidalgo at 146 degrees 32 minutes west longitude.

(*l*) Within ½ statute mile of Porcupine Point.

(*m*) Mainland coast, near Knowles Head, within 2,500 feet of a point at 60 degrees 41 minutes 17 seconds north latitude, 146 degrees 40 minutes west longitude.

(*n*) Within 1 statute mile of Red Head.

(*o*) From a point on the coast 1 statute mile northwestward of the light at Gravina Point to a point on the coast 2 statute miles northwestward of the light at Gravina Point, making an open space of 1 statute mile.

(*p*) Along the coast within 1 statute mile southwesterly of the outer point on the southwest side of the entrance to Cedar Bay, Hawkins Island.

(*q*) Within 1 statute mile of Makaka Point, Hawkins Island.

(*r*) Hinchinbrook Island: Within 3,000 feet, measured westerly along the north side of a peninsula, from a point at 60 degrees 28 minutes 47 seconds north latitude, 146 degrees 23 minutes 27 seconds west longitude.

(*s*) Hinchinbrook Island: Within 3,000 feet, measured easterly along the coast, from a point at 60 degrees 27 minutes 58 seconds north latitude, 146 degrees 27 minutes west longitude, on the north side of a spit.

(*t*) Hinchinbrook Island: Within 2,500 feet, measured along the coast, from a point at 60 degrees 28 minutes 54 seconds north latitude, 146 degrees 32 minutes 11 seconds west longitude.

(*u*) Hinchinbrook Island: From a point on the coast at 60 degrees 27 minutes north latitude, 146 degrees 39 minutes 48 seconds west longitude, northward to the light at Johnstone Point.

(*v*) Hinchinbrook Island: Within 2,500 feet of a point at 60 degrees 24 minutes 38 seconds north latitude, 146 degrees 42 minutes 30 seconds west longitude.

(*w*) Hinchinbrook Island: Within ½ statute mile westward of a point on the south side of Port Etches at 146 degrees 40 minutes west longitude.

(*x*) Montague Island: Along the coast from a point on the south side of Macleod Harbor at 59 degrees 52 minutes 10 seconds north latitude, 147 degrees 51 minutes west longitude, to a point at 59 degrees 52 minutes north latitude, 147 degrees 52 minutes west longitude.

(*y*) Western coast of Montague Island from Point Woodcock to a point south of Hanning Bay at 59 degrees 56 minutes 45 seconds north latitude, 147 degrees 45 minutes 15 seconds west longitude.

(*z*) Western coast of Montague Island (1) from Point Bazil on the north side of the entrance to Hanning Bay northeasterly to 60 degrees 0 minutes 30 seconds north latitude, and (2) from 60 degrees 7 minutes 30 seconds north latitude northeasterly to 60 degrees 9 minutes 45 seconds north latitude (as shown on U. S. Coast and Geodetic Survey Chart No. 8551).

(*aa*) Western coast of Montague Island from 60 degrees 10 minutes 20 seconds north latitude to 60 degrees 11 minutes 45 seconds north latitude.

(*bb*) Montague Island: Northern coast from Graveyard Point to a point at 60 degrees 21 minutes 41 seconds north latitude, 147 degrees 9 minutes 47 seconds west longitude.

13. All commercial fishing for salmon is prohibited, as follows:

(*a*) Constantine Harbor, northwest arm of Port Etches: All waters within the harbor and its tributary waters and within 100 yards outside the narrows at the entrance to the harbor.

(*b*) Anderson Bay and Double Bay, north shore of Hinchinbrook Island: All waters within the bays.

(*c*) Port Etches: All waters within 2 statute miles of the mouth of the salmon stream flowing into the head of Port Etches.

(*d*) Boswell Bay, indenting Hinchinbrook Island: All waters in the bay west of 146 degrees 8 minutes west longitude.

(*e*) Twin Lake Creek: All waters within 1,000 yards of the mouth of Twin Lake Creek flowing into the southeast arm of Simpson Bay.

(*f*) Sheep Bay: All waters within 1,000 yards of the mouth of the stream at the head of the bay.

(*g*) Gravina River: All waters within 1,000 yards of the mouth of the river.

(*h*) Olsen Bay, north side of Port Gravina: All waters within 2,000 yards of the mouth of the stream flowing into the head of the bay.

(*i*) St. Matthew Bay, north side of Port Gravina: All waters within 2,000 yards of the mouth of the stream flowing into the head of the bay.

(*j*) Irish Cove, south side of Port Fidalgo: All waters within the cove south of 60 degrees 46 minutes north latitude.

(*k*) Whalen Bay, south side of Port Fidalgo: All waters east of 146 degrees 15 minutes 30 seconds west longitude.

(*l*) Fish Bay, north side of Port Fidalgo: All waters within 1,000 yards of the mouth of the stream at the head of the bay.

(*m*) Galena Bay, east side of Valdez Arm: All waters within a line from a point on the coast at 60 degrees 55 minutes 30 seconds north latitude, 146 degrees 38 minutes 30 seconds west longitude, northeasterly to a point on the coast at 60 degrees 56 minutes 17 seconds north latitude, 146 degrees 36 minutes 30 seconds west longitude, and all waters within 1,000 yards of the mouth of Indian Creek.

(*n*) Jack Bay, east side of Valdez Arm: All waters east of 146 degrees 36 minutes west longitude.

(*o*) Robe River, Lowe River, and other unnamed streams flowing into Port Valdez in the immediate vicinity of Valdez: All waters within 1 statute mile of the mouths.

(*p*) Long Bay and its tributaries, indenting mainland on north shore of Prince William Sound: All waters within 1,000 yards of the mouth of any salmon stream.

(*q*) Unakwik Inlet and tributary waters, indenting mainland on north shore of Prince William Sound: All waters within 1,000 yards of the mouth of any salmon stream.

(*r*) Wells Passage and tributary waters indenting mainland on north shore of Prince William Sound: All waters of Wells Passage and its tributaries, including Port Wells, Cochrane Bay, Blackstone Bay, and Passage Canal, west of a line extending southwesterly from Point Esther to a point on the east side of the entrance to Cochrane Bay at 60 degrees 45 minutes 42 seconds north latitude, 148 degrees 13 minutes 54 seconds west longitude (as shown on U. S. Coast and Geodetic Survey Chart No. 8551).

(*s*) Long Bay, tributary to Culross Passage: All waters within the bay.

(*t*) Gumboot Creek, on northwest shore of Eshamy Bay: All waters within 1,000 yards of the mouth of the creek.

(*u*) Eshamy Lagoon and its tributary waters: All waters within the lagoon and its tributaries and within 100 yards outside the narrows at the entrance to the lagoon.

(*v*) Jackpot Bay: All waters within a line, indicated by markers, located at the entrance to the narrows in the bay.

(*w*) Port Bainbridge: All waters in the middle north arm of Port Bainbridge.

(*x*) Bay of Isles, indenting east shore of Knight Island: All waters within 1,000 yards of the mouth of the stream at the head of the west arm of the bay.

HERRING FISHERY.—1. Commercial fishing for herring, except for bait purposes, is prohibited from January 1 to June 7, both dates inclusive, and from November 16 to December 31, both dates inclusive: *Provided*, That this prohibition shall not apply to the use of set and drift gill nets of mesh not smaller than 2½ inches stretched measure between knots in the period from November 16 to December 15, both dates inclusive.

2. Commercial fishing for herring, except for bait purposes, is prohibited from 6 o'clock antemeridian of Saturday of each week until 6 o'clock postmeridian of the Sunday following.

3. During the period from July 1 to October 1, both dates inclusive, commercial fishing for herring, including bait fishing, is prohibited in all waters closed throughout the year to salmon fishing.

4. Gill nets used in catching herring shall not be of smaller mesh than 2½ inches stretched measure between knots.

5. Commercial fishing for herring, including bait fishing, by means of any trap is prohibited.

6. Commercial fishing for herring, including bait fishing, by means of any purse seine more than 1,400 meshes in depth, more than 150 fathoms in length, or of mesh less than 1½ inches stretched measure between knots is prohibited: *Provided*, That in the period from August 1 to November 15, both dates inclusive, commercial fishing for herring, including bait fishing, by means of any purse seine more than 1,400 meshes in depth, more than 180 fathoms in length, or less than 1½ inches stretched measure between knots is prohibited: *And provided further*, That any purse seine may have in addition a strip along the bottom not to exceed 30 meshes in depth and of mesh not less than 4 inches stretched measure between knots. No extension to any seine in the way of leads will be permitted.

7. No one shall place, or cause to be placed, across the entrance of any lagoon or bay any net or other device which will prevent the free passage at all times of herring in and out of said lagoon or bay.

8. The dumping of offal and dead herring in the waters of any bay in which herring spawn or where they are captured is prohibited.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the hole from which it was removed in the course of digging operations.

3. The taking of razor clams for commercial purposes is prohibited from July 1 to August 15, both dates inclusive, in each calendar year.

4. In the open season from January 1 to June 30, both dates inclusive, there shall not be taken in the Prince William Sound, Copper River, and Bering River areas a combined total of more than 1,040,000 pounds of razor clams, including shells, or 26,000 cases upon the basis of 48 one-half pound cans per case.

5. In the open season from August 16 to December 31, both dates inclusive, there shall not be taken in the Prince William Sound, Copper River, and Bering River areas a combined total of more than 280,000 pounds of razor clams, including shells, or 7,000 cases upon the basis of 48 one-half pound cans per case.

CRAB FISHERY—DUNGENESS CRAB (*Cancer magister*).—1. No female of this species shall be taken at any time, and no male of this species measuring less than 7 inches in greatest width shall be taken for commercial purposes.

2. Commercial fishing for the Dungeness crab is prohibited from June 1 to July 31, both dates inclusive.

3. It is prohibited to take for commercial purposes any soft-shell crab. Possession of any such crab will be regarded as prima facie evidence of unlawful taking.

### X. COPPER RIVER AREA

The Copper River area is hereby defined to include all territorial coastal and tributary waters of Alaska between Point Whitshed on the west and Point Martin on the east, including Egg Islands and the other islands between these points.

SALMON FISHERY.—1. Commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian May 1 and from 6 o'clock postmeridian July 5 to 6 o'clock antemeridian August 10 in each year.

2. Prior to 6 o'clock antemeridian May 15 in each year commercial fishing with nets of mesh less than 8½ inches stretched measure between knots is prohibited.

3. Commercial fishing for salmon is prohibited after 6 o'clock postmeridian September 20 in each calendar year.

4. Each season, prior to the opening date for commercial fishing, the number and name of each fishing boat to be operated shall be furnished in writing to the agent of the Bureau of Fisheries in charge of the district.

5. Commercial fishing for salmon shall be conducted solely by drift gill nets without the attachment of anything to obstruct their free movement through the water at all times: *Provided*, That gill nets attached to anchored boats or other anchored floating equipment may also be used from 6 o'clock antemeridian August 10 to 6 o'clock postmeridian September 20 in each calendar year.

6. Each gill net in operation shall be marked by a cluster of floats or corks at the ends, and double floats or corks shall be attached to the cork line at 25-fathom intervals. The clusters of floats or corks at the ends and the double floats or corks at the 25-fathom intervals of every red-salmon and silver-salmon gill net shall be painted bright red. The clusters of floats or corks at the ends and the double floats or corks at the 25-fathom intervals of every king-salmon gill net shall be painted white. The clusters at the ends of all gill nets shall also be legibly and plainly marked with the initials of the operator. In addition, each red-salmon and silver-salmon gill net shall be marked by red kegs attached to the clusters of floats or corks at the ends, and each king-salmon gill net shall be marked with white kegs attached to the clusters of floats or corks at the ends.

7. Prior to 6 o'clock antemeridian August 10 in each calendar year the total aggregate length of drift gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure: *Provided*, That during the period from 6 o'clock antemeridian May 15 to 6 o'clock postmeridian May 31 any gill-net boat in the Copper River area may carry and operate not to exceed 100 fathoms of net of mesh not less than 8½ inches stretched measure between knots in addition to 250 fathoms of smaller mesh net.

8. Commercial fishing for salmon is prohibited within 500 yards of the Grass Banks, except that from 6 o'clock antemeridian August 10 to 6 o'clock postmeridian September 20 in each calendar year such fishing is permitted within 500 yards of the Grass Banks by means of gill nets not exceeding 200 fathoms each in length attached to anchored boats or other anchored floating equipment. All fishing is prohibited at all times within the sloughs and within 500 yards of their mouths.

9. The trailing of web behind any fishing boat is prohibited above the markers fixing closed waters.

10. Anchored gill nets shall be operated in substantially a straight line.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the hole from which it was removed in the course of digging operations.

3. The taking of razor clams for commercial purposes is prohibited from July 1 to August 15, both dates inclusive, in each calendar year.

4. In the open season from January 1 to June 30, both dates inclusive, there shall not be taken in the Prince William Sound, Copper River, and Bering River areas a combined total of more than 1,040,000 pounds of razor clams, including shells, or 26,000 cases upon the basis of 48 one-half pound cans per case.

5. In the open season from August 16 to December 31, both dates inclusive, there shall not be taken in the Prince William Sound, Copper River, and Bering River areas a combined total of more than 280,000 pounds of razor clams, including shells, or 7,000 cases upon the basis of 48 one-half pound cans per case.

CRAB FISHERY—DUNGENESS CRAB (*Cancer magister*).—No female of this species shall be taken at any time, and no male of this species measuring less than 7 inches in greatest width shall be taken for commercial purposes.

2. Commercial fishing for the Dungeness crab is prohibited from June 1 to July 31, both dates inclusive.

3. It is prohibited to take for commercial purposes any soft-shell crab. Possession of any such crab will be regarded as prima facie evidence of unlawful taking.

### XI. BERING RIVER AREA

The Bering River area is hereby defined to include all territorial coastal and tributary waters of Alaska between Point Martin on the west and Cape Suckling on the east, including Martin Islands, Kanak Island, Wingham Island, Kavak Island, and any other island between Point Martin and Cape Suckling.

SALMON FISHERY.—1. Commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian May 15 and from 6 o'clock postmeridian July 5 to 6 o'clock antemeridian August 10 in each year.

2. Prior to 6 o'clock antemeridian June 1 in each year commercial fishing with nets of mesh less than 8½ inches stretched measure between knots is prohibited.

3. Commercial fishing for salmon is prohibited after 6 o'clock postmeridian September 20 in each calendar year.

4. Commercial fishing for salmon shall be conducted solely by drift gill nets without the attachment of anything to obstruct their free movement through the water at all times: *Provided*, That gill nets attached to anchored boats or other anchored floating equipment may also be used from 6 o'clock antemeridian August 10 to 6 o'clock postmeridian September 20 in each calendar year.

5. Each gill net in operation shall be marked by a cluster of floats or corks at the ends, and double floats or corks shall be attached to the cork line at 25-fathom intervals. The clusters of floats or corks at the ends and the double floats or corks at the 25-fathom intervals of every red-salmon and silver-salmon gill net shall be painted bright red. The clusters of floats or corks at the ends and the double floats or corks at the 25-fathom intervals of every king-salmon gill net shall be painted white. The clusters at the ends of all gill nets shall also be legibly and plainly marked with the initials of the operator. In addition, each red-salmon and silver-salmon gill net shall be marked by red kegs attached to the clusters of floats or corks at the ends, and each king-salmon gill net shall be marked with white kegs attached to the clusters of floats or corks at the ends.

6. Prior to 6 o'clock antemeridian August 10 in each calendar year the total aggregate length of drift gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 200 fathoms hung measure: *Provided*, That during the period from 6 o'clock antemeridian June 1 to 6 o'clock postmeridian June 15 any gill-net boat in the Bering River area may carry and operate not to exceed 100 fathoms of net of mesh not less than 8½ inches stretched measure between knots in addition to 200 fathoms of smaller mesh net.

7. The trailing of web behind any fishing boat is prohibited above the markers fixing closed waters.

8. Anchored gill nets shall be operated in substantially a straight line.

9. All commercial fishing for salmon is prohibited in Controller Bay and contiguous waters north of a line extending due east from Point Hey.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the hole from which it was removed in the course of digging cperations.

3. The taking of razor clams for commercial purposes is prohibited from July 1 to August 15, both dates inclusive, in each calendar year.

4. In the open season from January 1 to June 30, both dates inclusive, there shall not be taken in the Prince William Sound, Copper River, and Bering River areas a combined total of more than 1,040,000 pounds of razor clams, including shells, or 26,000 cases upon the basis of 48 one-half pound cans per case.

5. In the open season from August 16 to December 31, both dates inclusive, there shall not be taken in the Prince William Sound, Copper River, and Bering River areas a combined total of more than 280,000 pounds of razor clams, including shells, or 7,000 cases upon the basis of 48 one-half pound cans per case.

### XII. SOUTHEASTERN ALASKA AREA

The Southeastern Alaska area is hereby defined to include all territorial coastal and tributary waters of Alaska extending from Dixon Entrance on the south to and including Yakutat Bay on the north.

SALMON FISHERY.—This area is subdivided into the following districts, wherein regulations shall be effective as follows:

*Yakutat district.*—All territorial waters within a line extending from Cape Fairweather at 58 degrees 49 minutes north latitude, 138 degrees west longitude, to Mount Fairweather, thence following the international boundary to a point at 140 degrees 28 minutes west longitude, thence south to a point at 59 degrees 36 minutes north latitude, 140 degrees 28 minutes west longitude, thence to Cape Fairweather at the point of beginning.

1. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 150 fathoms hung measure in length, or 35 meshes in depth. For the purpose of determining depths of gill nets measurements will be upon the basis of 5½ inches stretched measure.

2. Along the outside coast from Cape Fairweather to Ocean Cape commercial fishing for salmon shall be conducted solely by drift gill nets. The use of all other forms of gear is prohibited.

3. In Situk Inlet, Ahrnklin Inlet, Dangerous Inlet, Ahquay Inlet, and Dry Bay commercial fishing for salmon shall be conducted solely by stake, set, or anchored gill nets. The use of all other forms of gear is prohibited.

4. In Monti Bay and contiguous waters no stake, set, or anchored gill net shall exceed 50 fathoms in length measured on the cork line, and in these waters the total aggregate length of all stake, set, or anchored nets used by any individual shall not exceed 100 fathoms measured on the cork line.

5. In Situk Inlet no stake, set, or anchored gill net shall exceed 25 fathoms in length measured on the cork line, and in these waters the total aggregate length of all stake, set, or anchored nets used by an individual shall not exceed 25 fathoms measured on the cork line.

6. In Ahrnklin Inlet and in Dangerous Inlet no stake, set, or anchored gill net shall exceed 30 fathoms in length measured on the cork line, and in these waters the total aggregate length of all stake, set, or anchored nets used by any individual shall not exceed 60 fathoms measured on the cork line.

7. In Dry Bay and in Ahquay Inlet no stake, set, or anchored gill net shall exceed 25 fathoms in length measured on the cork line, and in these waters the total aggregate length of all stake, set, or anchored nets used by any individual shall not exceed 75 fathoms measured on the cork line.

8. Except in Monti Bay and contiguous waters and in Dry Bay, commercial fishing for salmon is prohibited prior to June 18: *Provided,* That this prohibition shall not apply to trolling.

9. In Monti Bay and contiguous waters and in Dry Bay, commercial fishing for salmon is prohibited prior to May 15 in each year.

10. Each gill net in operation shall be marked by a cluster of floats or corks at the ends, and double floats or corks shall be attached to the cork line at 25-fathom intervals. The clusters of floats or corks at the ends and the double floats or corks at the 25-fathom intervals shall be painted bright red. The clusters at the ends shall also be legibly and plainly marked with the initials of the operator.

11. Commercial fishing for salmon by means of any gill net having mesh of more than 5½ inches stretched measure between knots is prohibited in Situk Inlet prior to August 10 in each year.

12. No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of and kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited.

13. Commercial fishing for salmon by means of any beach seine less than 75 fathoms hung measure in length or less than 4 fathoms hung measure in depth is prohibited. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots.

14. Commercial fishing for salmon, except by trolling, is prohibited for the remainder of each calendar year after September 30.

15. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

16. No trolling boat shall operate more than four trolling lines.

17. The use of any trap or purse seine is prohibited.

18. Stake and anchored gill nets shall be operated in substantially a straight line.

19. The use of power boats in operating drift gill nets is prohibited in all lagoons and inlets.

20. The 36-hour closed period for salmon fishing prescribed by section 5 of the act of June 6, 1924, is hereby extended to include the period from 6 o'clock postmeridian of Friday of each week until 6 o'clock antemeridian of the Monday following, making a weekly closed period of 60 hours.

21. All commercial fishing for salmon is prohibited, as follows:

(*a*) Ankau Creek and Inlet.
(*b*) The "Basin" above Dry Bay.

*Icy Strait district.*—All territorial waters within a line extending from a point west of Yakobi Island at 58 degrees north latitude, 136 degrees 51 minutes west longitude, to a point at 58 degrees north latitude, 134 degrees 58 minutes west longitude, thence north to the light at Point Augusta, thence to the southeastern extremity of Point Couverden, thence to Mount Harris, thence following the international boundary to Mount Fairweather, thence to Cape Fairweather at 58 degrees 49 minutes north latitude, 138 degrees west longitude, thence to the point of beginning at 58 degrees north latitude, 136 degrees 51 minutes west longitude.

1. The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure.

2. Stake and anchored gill nets shall be operated in substantially a straight line.

3. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1½ statute miles.

4. No floating trap shall exceed 900 feet in length when any part of such trap is in a greater depth of water than 100 feet at mean high tide. The length of any such trap shall be as measured along the lead from shore at mean high tide to the outer face of the pot.

5. No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 250 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

6. Commercial fishing for salmon, other than trolling, west of a line from Point Adolphus to Point Gustavus is prohibited prior to 6 o'clock antemeridian June 20, from 6 o'clock postmeridian August 4 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

7. Commercial fishing for salmon, other than trolling, east of a line from Point Adolphus to Point Gustavus is prohibited prior to 6 o'clock antemeridian June 20, from 6 o'clock post meridian August 7 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

8. Commercial fishing for salmon by means of any trap is prohibited in the period from 6 o'clock antemeridian October 1 to 6 o'clock postmeridian October 15.

9. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

10. The use of any beach seine is prohibited.

11. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

12. No trolling boat shall operate more than four trolling lines.

13. Commercial fishing for salmon, except by gill nets, is prohibited in Dundas Bay north of 58 degrees 21 minutes 8 seconds north latitude.

14. Commercial fishing for salmon by means of any seine is prohibited in Idaho Inlet south of 58 degrees 8 minutes 20 seconds north latitude.

15. Commercial fishing for salmon is prohibited in Port Frederick, northern shore of Chichagof Island, in all waters east of a line from Inner Point Sophia to Game Point and in all waters south of 58 degrees 4 minutes 8 seconds north latitude, except that trolling will be permitted from November 1 to June 1, both dates inclusive. A portion of the waters closed is in the western district.

16. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Mainland: From the east side of Dundas Bay at 58 degrees 20 minutes 8 seconds north latitude to a point 1,000 feet east of Point Dundas.

(*b*) Inian Islands: Along the coast (1) within 2,500 feet of a point at 58 degrees 16 minutes 18 seconds north latitude, 136 degrees 20 minutes 27 seconds west longitude, (2) within 2,500 feet of a point on the northwestern island at 58 degrees 15 minutes 34 seconds north latitude, 136 degrees 23 minutes 35 seconds west longitude, and (3) within 1,000 feet of a point at 58 degrees 14 minutes 9 seconds north latitude, 136 degrees 20 minutes 6 seconds west longitude.

(*c*) Island west of Three Hill Island, Cross Sound: Shore of island west of Three Hill Island located at 58 degrees 10 minutes 11 seconds north latitude, 136 degrees 24 minutes 33 seconds west longitude.

(*d*) Chichagof Island: Along the coast on the north side of Chichagof Island within 2,500 feet of a point at 58 degrees 13 minutes 12 seconds north latitude, 136 degrees 9 minutes 38 seconds west longitude.

(*e*) Chichagof Island: North coast within 1,000 feet westerly from Eagle Point.

(*f*) Chichagof Island: North coast from a point west of Point Adolphus at 58 degrees 16 minutes 38 seconds north latitude southwesterly to a point at 58 degrees 14 minutes 56 seconds north latitude, 135 degrees 53 minutes 34 seconds west longitude.

(*g*) Lemesurier Island: Northwestern coast within 2,500 feet of a point at 58 degrees 17 minutes 30 seconds north latitude, 136 degrees 8 minutes west longitude.

(*h*) Mainland: Within 2,500 feet of a point near Point Gustavus at 135 degrees 53 minutes 42 seconds west longitude.

(*i*) Pleasant Island: Southern coast (1) from the western extremity of the island easterly to 135 degrees 39 minutes 51 seconds west longitude, and (2) from 135 degrees 35 minutes 30 seconds west longitude to 135 degrees 33 minutes 1 second west longitude.

(*j*) Porpoise Islands: West coast of southernmost island within 2,500 feet of a point at 58 degrees 19 minutes 8 seconds north latitude, 135 degrees 27 minutes 22 seconds west longitude.

(*k*) Mainland: Along the coast on the east side of Excursion Inlet from 58 degrees 17 minutes 8 seconds north latitude southward to 135 degrees 8 minutes 31 seconds west longitude.

(*l*) Chichagof Island: Northeastern coast (1) within 2,500 feet of a point at 58 degrees 8 minutes 40 seconds north latitude, 135 degrees 23 minutes 59 seconds west longitude, and (2) from 135 degrees 20 minutes west longitude to 135 degrees 11 minutes 11 seconds west longitude.

(*m*) Chichagof Island: Northwestern coast within 2,500 feet of a point at 135 degrees 1 minute 31 seconds west longitude.

17. All commercial fishing for salmon is prohibited in Glacier Bay north of 58 degrees 27 minutes 54 seconds north latitude.

*Western district.*—All territorial waters within a line extending from a point off Cape Ommaney at 56 degrees 6 minutes north latitude, 134 degrees 51 minutes west longitude, to a point off Cape Edgecumbe at 57 degrees north latitude, 136 degrees 4 minutes west longitude, thence to a point at 58 degrees north latitude, 136 degrees 51 minutes west longitude, thence east to 134 degrees 58 minutes west longitude, thence north to the light at Point Augusta, thence to the southeastern extremity of Point Couverden, thence to Mount Harris, thence following the international boundary to Mount Ogilvie, thence to the northern extremity of Shelter Island, thence to the northern extremity of Mansfield Peninsula, thence following the watersheds on Mansfield Peninsula and Admiralty Island to the southern extremity of Point Gardner, thence west to the watershed on Baranof Island, thence following the watershed to the southern extremity of Cape Ommaney, thence to the point of beginning at 56 degrees 6 minutes north latitude, 134 degrees 51 minutes west longitude.

1. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure.

2. Stake and anchored gill nets shall be operated in substantially a straight line.

3. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1 statute mile.

4. No floating trap shall exceed 900 feet in length when any part of such trap is in a greater depth of water than 100 feet at mean high tide. The length of any such trap shall be as measured along the lead from shore at mean high tide to the outer face of the pot.

5. No salmon fishing boat shall carry or operate more than one seine of any description and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 250 meshes in depth, nor less than 150 fathoms nor more than 200 fathoms in length measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

6. Commercial fishing for salmon, other than trolling, north of a true line eastward from the southeastern extremity of Point Couverden is prohibited prior to 6 o'clock antemeridian June 20 and after 6 o'clock postmeridian August 10 in each calendar year: *Provided,* That this prohibition shall not apply to the use of gill nets from 6 o'clock postmeridian August 10 to 6 o'clock postmeridian August 25 and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 30 in Lynn Canal and contiguous waters north of the north end of Sullivan Island.

7. Commercial fishing for salmon, other than trolling, from a true line eastward from the southeastern extremity of Point Couverden south to 58 degrees north latitude is prohibited prior to 6 o'clock antemeridian July 5, from 6 o'clock postmeridian August 15 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

8. Commercial fishing for salmon, other than trolling, south of 58 degrees north latitude is prohibited prior to 6 o'clock antemeridian July 5, from 6 o'clock postmeridian August 18 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

9. Commercial fishing for salmon by means of any trap is prohibited except in the period (*a*) from 6 o'clock antemeridian June 20 to 6 o'clock postmeridian August 10, north of a true line eastward from the southeastern extremity of Point Couverden, (*b*) from 6 o'clock antemeridian July 5 to 6 o'clock postmeridian August 15, from a true line eastward from the southeastern extremity of Point Couverden south to 58 degrees north latitude, and (*c*) from 6 o'clock antemeridian July 5 to 6 o'clock postmeridian August 18, south of 58 degrees north latitude.

10. Commercial fishing for salmon, other than trolling, is prohibited in Tenakee Inlet from 6 o'clock postmeridian July 24 to 6 o'clock antemeridian October 1 in each year.

11. The use of any beach seine is prohibited.

12. No boat used in operating any purse seine shall be longer than 50 feet as shown by official register length.

13. No trolling boat shall operate more than four trolling lines.

14. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

15. Purse seines are prohibited in Lynn Canal and contiguous waters north of 58 degrees 34 minutes 10 seconds north latitude.

16. Commercial fishing for salmon in Chilkat Inlet is prohibited north of a line from Green Point passing across the southern shore of Pyramid Island to the northern shore of Chilkat Inlet.

17. Commercial fishing for salmon in Chilkoot Inlet within a line 1 statute mile from the mouth of Chilkoot River is prohibited, except that in these closed waters outside of a line 1,000 yards from the mouth of Chilkoot River such fishing is permitted by gill nets from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 30 in each year.

18. Commercial fishing for salmon is prohibited (1) in all bays tributary to Tenakee Inlet and in the waters of Tenakee Inlet west of 135 degrees 40 minutes west longi-

tude, and (2) within 1 statute mile of the mouths of all salmon streams in Freshwater Bay: *Provided*, That these prohibitions shall not apply to trolling from January 1 to 6 o'clock postmeridian August 24.

19. Commercial fishing for salmon is prohibited in Port Frederick, northern shore of Chichagof Island, in all waters east of a line from Inner Point Sophia to Game Point, and in all waters south of 58 degrees 4 minutes 8 seconds north latitude, except that trolling will be permitted from November 1 to June 1, both dates inclusive. A portion of the waters closed is in the Icy Strait district.

20. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Baranof Island: Northwest coast beginning at a point 1,000 yards southward of Point Kakul and extending southward ½ statute mile.

(*b*) Baranof Island: Northwest coast within 2,500 feet of a point at 57 degrees 20 minutes 19 seconds north latitude, 135 degrees 40 minutes 13 seconds west longitude.

(*c*) Chichagof Island: Southwest coast within 2,500 feet of a point at 57 degrees 23 minutes 7 seconds north latitude, 135 degrees 39 minutes 56 seconds west longitude.

(*d*) Chichagof Island: East coast (1) within 2,500 feet of a point at 58 degrees 1 minute 43 seconds north latitude, 134 degrees 55 minutes 59 seconds west longitude, (2) within 2,500 feet of a point at 57 degrees 59 minutes 11 seconds north latitude, 134 degrees 54 minutes 34 seconds west longitude, (3) within 2,500 feet of a point at 57 degrees 56 minutes 56 seconds north latitude, 134 degrees 55 minutes 7 seconds west longitude, and (4) within 2,500 feet of a point at 57 degrees 52 minutes 7 seconds north latitude, 134 degrees 57 minutes 51 seconds west longitude.

(*e*) Chichagof Island: East coast (1) from 57 degrees 48 minutes 52 seconds north latitude to 57 degrees 48 minutes 25 seconds north latitude, (2) within 2,500 feet of a point at 57 degrees 44 minutes 18 seconds north latitude, 134 degrees 55 minutes 4 seconds west longitude, (3) within 2,500 feet of a point at 57 degrees 39 minutes 36 seconds north latitude, 134 degrees 53 minutes 45 seconds west longitude, (4) from 57 degrees 36 minutes 37 seconds north latitude to 57 degrees 35 minutes 52 seconds north latitude, and (5) within 2,500 feet of a point at 57 degrees 30 minutes 4 seconds north latitude, 134 degrees 49 minutes 38 seconds west longitude.

(*f*) Chichagof Island: Southeast coast within 1,500 feet of a point at 57 degrees 27 minutes 32 seconds north latitude, 134 degrees 55 minutes 59 seconds west longitude.

(*g*) Baranof Island: East coast from a point ½ statute mile south of Point Thatcher to a point at 57 degrees 23 minutes 37 seconds north latitude.

(*h*) Baranof Island: East coast from a point ½ statute mile southeasterly of South Point to the north side of the entrance to Kasnyku Bay, exclusive of Cosmos Cove.

(*i*) Baranof Island: East coast within 2,500 feet of a point at 57 degrees 11 minutes 3 seconds north latitude, 134 degrees 48 minutes 43 seconds west longitude.

(*j*) Mansfield Peninsula: West coast within 2,500 feet of a point at 58 degrees 16 minutes 2 seconds north latitude.

(*k*) Mansfield Peninsula: West coast (1) from the south point of entrance to Funter Bay to 58 degrees 10 minutes 45 seconds north latitude, and (2) from 58 degrees 9 minutes 37 seconds north latitude to the southern extremity of the peninsula at the north side of the entrance to Hawk Inlet.

(*l*) Admiralty Island: West coast (1) from 57 degrees 38 minutes 7 seconds north latitude to 57 degrees 39 minutes 22 seconds north latitude, (2) from 57 degrees 40 minutes 47 seconds north latitude to 57 degrees 45 minutes 7 seconds north latitude, (3) from 57 degrees 50 minutes 2 seconds north latitude to 57 degrees 51 minutes 7 seconds north latitude, (4) from 57 degrees 53 minutes 30 seconds north latitude to 57 degrees 56 minutes 27 seconds north latitude, and (5) from 57 degrees 57 minutes 57 seconds north latitude to 58 degrees 2 minutes 7 seconds north latitude.

(*m*) Admiralty Island: West coast from 57 degrees 22 minutes 7 seconds north latitude to Distant Point.

(*n*) Killisnoo Island: South coast from 134 degrees 35 minutes 59 seconds west longitude to Point Samuel.

(*o*) Admiralty Island: West coast (1) from a point north of Wilson Cove at 57 degrees 10 minutes 37 seconds north latitude to 57 degrees 10 minutes 47 seconds north latitude, (2) from 57 degrees 12 minutes 37 seconds north latitude to 57 degrees 13 minutes 7 seconds north latitude, and (3) within 1,000 feet of a point at 57 degrees 13 minutes 57 seconds north latitude.

21. All commercial fishing for salmon is prohibited as follows:

(*a*) Wilson Cove, southwestern shore of Admiralty Island: All waters within the cove.

(*b*) Whitewater Bay, southwestern shore of Admiralty Island: All waters within a line from Point Caution to Woody Point.

(*c*) Chaik Bay, southwestern shore of Admiralty Island: All waters east of 134 degrees 28 minutes 59 seconds west longitude.

(*d*) Warm Spring Bay, eastern shore of Baranof Island: All waters within the bay.

(*e*) Kelp Bay, east coast of Baranof Island: All waters in Middle Arm, and all waters in South Arm west of 134 degrees 56 minutes 59 seconds west longitude.

(*f*) Hanus Bay, northeast shore of Baranof Island: All waters in the bay south of a line from Point Hanus to Point Moses.

(*g*) Rodman Bay, northeast coast of Baranof Island: All waters west of 135 degrees 21 minutes 59 seconds west longitude.

(*h*) Sitkoh Bay, southeast shore of Chichagof Island: All waters within 1,000 yards of the mouth of any salmon stream.

(*i*) Basket Bay, east coast of Chichagof Island: All waters within the bay.

(*j*) Hawk Inlet, west coast of Admiralty Island: All waters of the inlet and its tributaries.

(*k*) Salt Lake Lagoon, Takanis Bay, southwest shore of Yakobi Island: All waters in the Lagoon and within 500 yards of its mouth.

(*l*) Redfish Bay, southwest shore of Baranof Island: All waters above a true east and west line passing through the southern end of the Second Narrows.

(*m*) Still Harbor, west coast of Baranof Island: All waters in the harbor.

(*n*) Port Banks, off Whale Bay, west coast of Baranof Island: All waters in Port Banks.

(*o*) Redoubt Bay, west coast of Baranof Island: All waters within 1,000 yards of the mouth of the stream flowing from Redoubt Lake.

*Eastern district.*—All territorial waters within a line extending from a point near the Hazy Islands at 55 degrees 54 minutes north latitude, 134 degrees 34 minutes west longitude, to the southern end of Cape Decision, thence following the watershed on Kuiu Island to a point on the east side of Kuiu Island at 56 degrees 40 minutes north latitude, 133 degreees 44 minutes 15 seconds west longitude, thence east across Keku Strait, thence across Kupreanof Island, passing north of Duncan Canal, to a point on the east coast of Kupreanof Island at 56 degrees 54 minutes north latitude, thence across Frederick Sound to Horn Cliffs on the mainland, thence to Castle Mountain, thence following the international boundary to Mount Ogilvie, thence to the northern extremity of Shelter Island, thence to the northern extremity of Mansfield Peninsula, thence following the watersheds on Mansfield Peninsula and Admiralty Island to the southern extremity of Point Gardner, thence west to the watershed on Baranof Island, thence following the watershed to the southern extremity of Cape Ommaney, thence to a point at 56 degrees 6 minutes north latitude, 134 degrees 51 minutes west longitude, thence to the point of beginning at 55 degrees 54 minutes north latitude, 134 degrees 34 minutes west longitude.

1. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure.

2. Stake and anchored gill nets shall be operated in substantially a straight line.

3. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1 statute mile.

4. No floating trap shall exceed 900 feet in length when any part of such trap is in a greater depth of water than 100 feet at mean high tide. The length of any such trap shall be as measured along the lead from shore at mean high tide to the outer face of the pot.

5. No salmon fishing boat shall carry or operate more than one seine of any description and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 250 meshes in depth, nor less than 150 fathoms nor more than 200 fathoms in length measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

6. Commercial fishing for salmon, except by trolling, is prohibited prior to 6 o'clock antemeridian June 25 in each calendar year: *Provided*, That this prohibition shall not apply to the use of gill nets in Taku Inlet after 6 o'clock antemeridian May 10.

7. Commercial fishing for salmon, other than trolling, north of 57 degrees north latitude is prohibited for the remainder of each calendar year after 6 o'clock postmeridian August 18: *Provided*, That this prohibition shall not apply to the use of drift gill nets in Taku Inlet from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 30: *And provided further*, That commercial fishing for salmon between 57 degrees north latitude and 58 degrees north latitude is permitted from 6 o'clock antemeridian October 1 to 6 o'clock postmeridian October 15.

8. Commercial fishing for salmon, other than trolling, south of 57 degrees north latitude is prohibited for the remainder of each calendar year after 6 o'clock postmeridian August 16: *Provided*, That commercial fishing for salmon is permitted from 6 o'clock antemeridian October 1 to 6 o'clock postmeridian October 15.

9. Commercial fishing for salmon in Taku Inlet eastward of a line beginning on the shore northward of Taku Point at 133 degrees 58 minutes 58 seconds west longitude, thence running due north to the opposite shore, thence following the shore line to the mouth of Taku River, is prohibited, except that in these closed waters south of a line extending from a point at 58 degrees 25 minutes 58 seconds north latitude, 133 degrees 58 minutes 35 seconds west longitude, to a point at 58 degrees 25 minutes 8 seconds north latitude, 133 degrees 55 minutes 50 seconds west longitude, such fishing is permitted by gill nets from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 30.

10. Commercial fishing for salmon by means of any trap is prohibited in the period from 6 o'clock antemeridian October 1 to 6 o'clock postmeridian October 15 in each year.

11. The use of any beach seine is prohibited.

12. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

13. No trolling boat shall operate more than four trolling lines.

14. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

15. Purse seines are prohibited in Lynn Canal and contiguous waters north of 58 degrees 34 minutes 10 seconds north latitude.

16. No gill net used in Taku Inlet shall exceed 150 fathoms in length hung measure.

17. The use of any trap for the capture of salmon is prohibited except as follows:

(*a*) Mainland: From the south side of Limestone Inlet at 58 degrees 1 minute 52 seconds north latitude southward to a point at 58 degrees 1 minute 10 seconds north latitude.

(*b*) Mainland, east side of Stephens Passage from 57 degrees 35 minutes 42 seconds north latitude, 133 degrees 37 minutes 8 seconds west longitude, to 57 degrees 36 minutes 52 seconds north latitude, 133 degrees 39 minutes 17 seconds west longitude.

(*c*) Mainland, east side of Stephens Passage: Within 2,500 feet of a point at 57 degrees 28 minutes 8 seconds north latitude, 133 degrees 30 minutes 42 seconds west longitude.

(*d*) Mainland, east side of Stephens Passage: Along the coast (1) within 2,500 feet of a point at 57 degrees 21 minutes 18 seconds north latitude, 133 degrees 26 minutes 37 seconds west longitude, and (2) within 2,500 feet of a point at 57 degrees 23 minutes 4 seconds north latitude, 133 degrees 27 minutes 42 seconds west longitude.

(*e*) Mainland, Frederick Sound: From a point on the south side of Fanshaw Bay at 133 degrees 32 minutes 27 seconds west longitude to Cape Fanshaw, thence southeasterly to 133 degrees 29 minutes 57 seconds west longitude.

(*f*) Admiralty Island: Southeast coast (1) from Point Pybus to 57 degrees 18 minutes 57 seconds north latitude; and (2) from 57 degrees 20 minutes 7 seconds north latitude, 133 degrees 54 minutes 58 seconds west longitude, to False Point Pybus.

(*g*) Admiralty Island: Southeast coast (1) from 57 degrees 12 minutes 6 seconds north latitude to 57 degrees 11 minutes 21 seconds north latitude; and (2) from 57 degrees 10 minutes 36 seconds north latitude to Deepwater Point.

(*h*) Admiralty Island: Southeast coast from a point ½ statute mile southwest of Point Brightman to a point at 57 degrees 3 minutes 25 seconds north latitude, 134 degrees 27 minutes 18 seconds west longitude.

(*i*) Admiralty Island: Southeast coast within 2,500 feet of a point at 57 degrees 1 minute 41 seconds north latitude, 134 degrees 29 minutes 10 seconds west longitude.

(*j*) Kupreanof Island: Northwest coast (1) from a point ½ statute mile southeast of Point Macartney northward to the outer extremity of Point Macartney; (2) from 57 degrees 3 minutes 21 seconds north latitude, 134 degrees 1 minute 13 seconds west longitude, to 57 degrees 3 minutes 45 seconds north latitude, 134 degrees 0 minutes 58 seconds west longitude; and (3) from 57 degrees 4 minutes 22 seconds north latitude, 133 degrees 56 minutes 43 seconds west longitude, to 57 degrees 5 minutes 56 seconds north latitude, 133 degrees 54 minutes 18 seconds west longitude (as shown on U. S. Coast and Geodetic Survey chart No. 8200).

(*k*) Kuiu Island: Within ¼ statute mile of the western extremity of Cornwallis Point.

(*l*) Kuiu Island: Northwest coast (1) within 2,500 feet of a point at 56 degrees 33 minutes 15 seconds north latitude, 134 degrees 17 minutes 53 seconds west longitude; (2) from a point 1 statute mile north of the north side of the entrance to Washington Bay to 56 degrees 45 minutes 56 seconds north latitude; (3) from 56 degrees 47 minutes 51 seconds north latitude to 56 degrees 48 minutes 11 seconds north latitude; and (4) from 56 degrees 50 minutes 26 seconds north latitude to the point at the east side of the entrance to Band Cove.

18. All commercial fishing for salmon is prohibited as follows:

(*a*) Port Houghton, indenting mainland: All waters in Sanborn Canal.

(*b*) Windham Bay, indenting mainland: All waters of the bay east of 133 degrees 21 minutes 57 seconds west longitude.

(*c*) Gambier Bay, east coast of Admiralty Island: All waters west of 134 degrees 2 minutes 58 seconds west longitude.

(*d*) Port Camden, east coast of Kuiu Island: All waters of Port Camden south of 56 degrees 40 minutes 7 seconds north latitude.

(*e*) Kadak Bay, east coast of Kuiu Island: All waters of Kadak Bay within a line from a point at 56 degrees 48 minutes 27 seconds north latitude, 133 degrees 56 minutes 15 seconds west longitude, to a point at 56 degrees 48 minutes 47 seconds north latitude, 133 degrees 57 minutes 27 seconds west longitude.

(*f*) Hamilton Bay, west coast of Kupreanof Island: All waters east of 133 degrees 46 minutes 57 seconds west longitude.

(*g*) Keku Strait, east coast of Kuiu Island: Waters of Keku Strait, including all waters of Big Johns Bay, enclosed by a line from a point at 56 degrees 35 minutes 7 seconds north latitude, 133 degrees 42 minutes 32 seconds west longitude, to a point at 56 degrees 35 minutes 7 seconds north latitude, 133 degrees 39 minutes 57 seconds west longitude, and a line from the northern extremity of Point Camden to a point at 56 degrees 48 minutes 47 seconds north latitude, 133 degrees 45 minutes 57 seconds west longitude. A portion of the closed waters of Big Johns Bay is north of 56 degrees 48 minutes 47 seconds north latitude. A part of the waters closed is in the Sumner Strait district.

(*h*) Tebenkof Bay, west coast of Kuiu Island: All waters of Elena Bay north and east of a line extending from a point at 56 degrees 29 minutes 56 seconds north latitude, 134 degrees 6 minutes 28 seconds west longitude, southerly to a point at 56 degrees 29 minutes 5 seconds north latitude, 134 degrees 5 minutes 28 seconds west longitude.

(*i*) Bay of Pillars, west coast of Kuiu Island: All waters in south arm of the bay east of 134 degrees 11 minutes 40 seconds west longitude.

(*j*) Security Bay, northwest coast of Kuiu Island: All waters within 1,000 yards of any salmon stream.

(*k*) Saginaw Bay, northwest coast of Kuiu Island: All waters of the bay within a line from a point on the southwest shore at 56 degrees 51 minutes 36 seconds north latitude to a point on the northeast shore at 56 degrees 53 minutes 6 seconds north latitude.

(*l*) Red Bluff Bay, east coast of Baranof Island: All waters in the bay west of 134 degrees 45 minutes 28 seconds west longitude.

(*m*) Gut Bay, east coast of Baranof Island: All waters of the bay west of 134 degrees 43 minutes 28 seconds west longitude.

(*n*) Little Port Walter, east coast of Baranof Island: All waters in Little Port Walter inside the light dolphin in the narrows.

*Stikine district.*—All territorial waters within a line extending from Horn Cliffs on the mainland to Frederick Point on Mitkof Island, thence to Point Howe, thence to South Craig Point on Zarembo Island, thence to Drag Island in Chichagof Pass, thence to Chichagof Peak on Wrangell Island, thence to Babbler Point on the mainland, thence to Mount Cote, thence following the international boundary to Castle Mountain, thence to the point of beginning at Horn Cliffs.

1. Commercial fishing for salmon shall be conducted solely by trolling and by drift gill nets, which shall not be less than 125 fathoms in length nor more than 300 fathoms in length each.

2. Commercial fishing for salmon, except by trolling, is prohibited during the period from 6 o'clock antemeridian June 1 to 6 o'clock antemeridian June 26 in each calendar year and for the remainder of each year after 6 o'clock antemeridian September 23.

3. No trolling boat shall operate more than four trolling lines.

4. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

*Sumner Strait district.*—All territorial waters within a line extending from a point near the Hazy Islands at 55 degrees 54 minutes north latitude, 134 degrees 34 minutes west longitude, to the southern end of Cape Decision, thence following the watershed on Kuiu Island to a point on the east side of Kuiu Island at 56 degrees 40 minutes north latitude, 133 degrees 44 minutes 15 seconds west longitude, thence east across Keku Strait, thence across Kupreanof Island, passing north of Duncan Canal, to a point on the east coast of Kupreanof Island at 56 degrees 54 minutes north latitude, thence across Frederick Sound to Horn Cliffs on the mainland, thence to Frederick Point on Mitkof Island, thence to Point Howe, thence to South Craig Point on Zarembo Island, thence to Drag Island in Chichagof Pass, thence to Chichagof Peak on Wrangell Island, thence to Babbler Point on the mainland, thence to Mount Cote, thence following the international boundary to Mount Lewis Cass, thence southerly and westerly along the watershed to a point at 55 degrees 45 minutes 30 seconds north latitude, 132 degrees west longitude, thence in a northwesterly direction through Union Point to the southern extremity of Ernest Point, thence northerly to a point on Etolin Island at 55 degrees 54 minutes 45 seconds north latitude, 132 degrees 21 minutes west longitude, thence in a northerly and westerly direction along the watershed of Etolin Island to a point northwest of the head of Mosman Inlet at 56 degrees 9 minutes 45 seconds north latitude, 132 degrees 37 minutes 15 seconds west longitude, thence southerly to a point at 56 degrees 6 minutes north latitude, 132 degrees 37 minutes 15 seconds west longitude, thence in a northwesterly direction along the watershed to the northern extremity of Point Harrington, thence in a westerly direction to the northern extremity of East Island, thence in a southwesterly direction to the southern extremity of West Island, thence in a westerly direction to a point on the east shore of Prince of Wales Island at 56 degrees 9 minutes 15 seconds north latitude, 133 degrees 2 minutes 45 seconds west longitude, thence southerly along the watershed of Prince of Wales Island to a point at 55 degrees 40 minutes north latitude, 132 degrees 50 minutes west longitude, thence west to a point at 55 degrees 40 minutes north latitude, 134 degrees 17 minutes 10 seconds west longitude, thence to the point of beginning at 55 degrees 54 minutes north latitude, 134 degrees 34 minutes west longitude.

1. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure.

2. Stake and anchored gill nets shall be operated in substantially a straight line.

3. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1 statute mile.

4. No floating trap shall exceed 900 feet in length when any part of such trap is in a greater depth of water than 100 feet at mean high tide. The length of any such trap shall be as measured along the lead from shore at mean high tide to the outer face of the pot.

5. No salmon fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited. No purse seine shall be less than 8 fathoms nor more than 12 fathoms in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

6. Commercial fishing for salmon, other than trolling, is prohibited prior to 6 o'clock antemeridian July 10 in each calendar year, from 6 o'clock postmeridian August 22 to 6 o'clock antemeridian October 1 in each year, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

7. Commercial fishing for salmon by means of any trap is prohibited except in the period from 6 o'clock antemeridian July 10 to 6 o'clock postmeridian August 22 in each year.

8. The use of any beach seine is prohibited, except in Wrangell Narrows, where beach seines not less than 65 fathoms nor more than 100 fathoms in length may be used.

9. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

10. No trolling boat shall operate more than four trolling lines.

11. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

12. Commercial fishing for salmon, except by trolling, is prohibited in Anita Bay, opening into Zimovia Strait, Etolin Island.

13. Commercial fishing for salmon is prohibited in all waters of Bradfield Canal east of 131 degrees 49 minutes west longitude: *Provided*, That this prohibition shall not apply to trolling prior to 6 o'clock antemeridian June 1 and after 6 o'clock postmeridian September 30 in each year.

14. Commercial fishing for salmon is prohibited in all waters of Blake Channel and Eastern Passage between Bradfield Canal and a line from Babbler Point to a point on Wrangell Island at 56 degrees 27 minutes 50 seconds north latitude, 132 degrees 17 minutes 15 seconds west longitude: *Provided*, That this prohibition shall not apply to trolling prior to 6 o'clock antemeridian June 1 and after 6 o'clock postmeridian September 30 in each year.

15. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Heceta Island: Western and southern coast from a point at 55 degrees 43 minutes 13 seconds north latitude, 133 degrees 37 minutes 20 seconds west longitude, to a point at 55 degrees 41 minutes 36 seconds north latitude, 133 degrees 31 minutes 37 seconds west longitude.

(*b*) Tuxekan Island: Western coast from a point at 55 degrees 52 minutes 56 seconds north latitude southerly to a point at 55 degrees 52 minutes 21 seconds north latitude.

(*c*) Tuxekan Island: Western coast within 1,000 feet of the western extremity of Turn Point.

(*d*) Tuxekan Island: Western coast within 3,000 feet northwesterly of a point 200 feet northwesterly of the southern extremity of Tuxekan Island.

(*e*) Kosciusko Island: Western coast from a point 1,000 feet northwesterly from the southern extremity of land at the west side of Halibut Harbor to 55 degrees 56 minutes 6 seconds north latitude.

(*f*) Warren Island, near Kosciusko Island: East coast of Warren Island within 2,500 feet of a point at 55 degrees 51 minutes 37 seconds north latitude.

(*g*) Kuiu Island: East coast within 2,500 feet from a point at 56 degrees 13 minutes 25 seconds north latitude, 133 degrees 52 minutes 32 seconds west longitude.

(*h*) Kuiu Island: East coast of peninsula between Port Beauclerc and Reid Bay from 56 degrees 18 minutes 36 seconds north latitude northward to 56 degrees 19 minutes 6 seconds north latitude.

(*i*) Unnamed island east of Kuiu Island: Within 2,500 feet measured along the east coast from a point at 56 degrees 28 minutes 36 seconds north latitude, 133 degrees 50 minutes 47 seconds west longitude.

(*j*) Prince of Wales Island: Northwest coast within 2,500 feet of a point at 56 degrees 19 minutes 3 seconds north latitude, 133 degrees 39 minutes 42 seconds west longitude (as shown on U. S. Coast and Geodetic Survey chart No. 8174).

(*k*) Prince of Wales Island: North coast between 133 degrees 29 minutes 1 second west longitude and 133 degrees 33 minutes 27 seconds west longitude.

(*l*) Prince of Wales Island: North coast between 133 degrees 23 minutes 27 seconds west longitude and 133 degrees 24 minutes 22 seconds west longitude.

(*m*) Prince of Wales Island: North coast from Pine Point to Point Colpoys.

(*n*) Kupreanof Island: Southern coast within 2,500 feet from a point at 56 degrees 26 minutes 14 seconds north latitude, 133 degrees 29 minutes 32 seconds west longitude.

(*o*) Zarembo Island: Southwest coast within 2,500 feet of a point at 56 degrees 15 minutes 6 seconds north latitude, 132 degrees 53 minutes 27 seconds west longitude.

(*p*) Etolin Island: West coast (1) from 56 degrees 16 minutes 50 seconds north latitude southerly to a point at 56 degrees 16 minutes 29 seconds north latitude, and (2) between Steamer Point light and Steamer Point.

(*q*) Etolin Island: West coast within 2,500 feet northeasterly from a point on the coast at 56 degrees 11 minutes 44 seconds north latitude.

(*r*) Brownson Island: Along the coast within 5,000 feet southerly of a point on the east coast at 55 degrees 57 minutes 5 seconds north latitude.

(*s*) Cleveland Peninsula: West coast (1) within ½ statute mile of Watkins Point, and (2) within 2,500 feet of a point at 55 degrees 54 minutes 52 seconds north latitude, 132 degrees 3 minutes 29 seconds west longitude.

16. All commercial fishing for salmon is prohibited, as follows:

(*a*) Salmon Bay and tributary waters, northeast coast of Prince of Wales Island: All waters within the bay and its tributary waters and within ½ statute mile outside the mouth of Salmon Bay.

(*b*) Red Bay, north shore of Prince of Wales Island: All waters south of a true east and west line passing through the north shore of Dead Island.

(*c*) Olive Cove, indenting the northeastern shore of Etolin Island.

(*d*) Thoms Place, indenting the southwestern shore of Wrangell Island, Zimovia Strait.

(*e*) Fools Inlet, southeast coast of Wrangell Island: All waters within 1 statute mile of the mouth of the salmon stream flowing into the head of the inlet.

(*f*) Anan Lagoon and contiguous waters: All waters in Anan Lagoon and within 1⅛ statute miles outside its mouth.

(*g*) Duncan Canal, Kupreanof Island: All waters within 1 statute mile of any salmon stream tributary to Duncan Canal.

(*h*) Kah Sheets Bay, southeast coast of Kupreanof Island: All waters within 1,000 yards of the mouth of the salmon stream flowing into the head of the bay.

(*i*) Totem Bay, south coast of Kupreanof Island: All waters within 1,000 yards of the mouth of any salmon stream flowing into the head of the bay.

(*j*) Barrie Creek, north of Point Barrie, southwest shore of Kupreanof Island: All waters within 1 statute mile of the mouth of the creek.

(*k*) Keku Strait, east coast of Kuiu Island: Waters of Keku Strait, including all waters of Big Johns Bay, enclosed by a line from a point at 56 degrees 35 minutes 7 seconds north latitude, 133 degrees 42 minutes 32 seconds west longitude, to a point at 56 degrees 35 minutes 7 seconds north latitude, 133 degrees 39 minutes 57 seconds west longitude, and a line from the northern extremity of Point Camden to a point at 56 degrees 48 minutes 47 seconds north latitude, 133 degrees 45 minutes 57 seconds west longitude. A portion of the closed waters of Big Johns Bay is north of 56 degrees 48 minutes 47 seconds north latitude. A part of the waters closed is in the eastern district.

(*l*) Three Mile Arm, east coast of Kuiu Island: All waters within 1,000 yards of the mouth of any salmon stream.

(*m*) Seclusion Harbor, east coast of Kuiu Island: All waters within the outermost points of the harbor.

(*n*) Port Beauclerc, southeastern coast of Kuiu Island: All waters within 1,000 yards of the mouth of any salmon stream tributary to Port Beauclerc.

(*o*) Affleck Canal, southeastern coast of Kuiu Island: Bear Harbor north of 56 degrees 15 minutes 6 seconds north latitude, and East Arm north of 56 degrees 17 minutes 36 seconds north latitude.

(*p*) Calder Bay, west coast of Prince of Wales Island: All waters north of 56 degrees 11 minutes 12 seconds north latitude.

(*q*) El Capitan Passage, between Kosciusko Island and Prince of Wales Island: El Capitan Passage and contiguous waters between 56 degrees 7 minutes 36 seconds north latitude and a line extending due north from the point of land on Kosciusko Island at 56 degrees 8 minutes 53 seconds north latitude, 133 degrees 27 minutes 37 seconds west longitude, including all waters of Devilfish Bay.

(*r*) Shipley Bay, west coast of Kosciusko Island: All waters east of 133 degrees 33 minutes 5 seconds west longitude.

(*s*) Sarkar Cove, west coast of Prince of Wales Island, tributary to El Capitan Passage: All waters inside of a line across the entrance.

(*t*) Staney Creek, west coast of Prince of Wales Island: All waters within 1 statute mile of the mouth of the creek.

*Clarence Strait district.*—All territorial waters within a line extending from the southern extremity of Cape Chacon, thence east along the international boundary to a point at 131 degrees 40 minutes west longitude, thence north to a point west of Point Davison at 55 degrees north latitude, 131 degrees 40 minutes west longitude, thence to the southern extremity of Point Davison, thence northerly along the watershed of Annette Island to the northern extremity of Walden Point, thence to the southern extremity of Gravina Point, thence northwesterly to the northern extremity of Vallenar Point, thence to the southern extremity of Caamano Point, thence northeasterly along the watershed of Cleveland Peninsula to a point at 55 degrees 45 minutes 30 seconds north latitude, 132 degrees west longitude, thence in a northwesterly direction through Union Point to the southern extremity of Ernest Point, thence northerly to a point on Etolin Island at 55 degrees 54 minutes 45 seconds north latitude, 132 degrees 21 minutes west longitude, thence in a northerly and westerly direction along the watershed of Etolin Island to a point northwest of the head of Mosman Inlet at 56 degrees 9 minutes 45 seconds north latitude, 132 degrees 37 minutes 15 seconds west longitude, thence southerly to a point at 56 degrees 6 minutes north latitude, 132 degrees 37 minutes 15 seconds west longitude, thence in a northwesterly direction along the watershed to the northern extremity of Point Harrington, thence in a westerly direction to the northern extremity of East Island, thence in a southwesterly direction to the southern extremity of West Island, thence in a westerly direction to a point on the east shore of Prince of Wales Island, at 56 degrees 9 minutes 15 seconds north latitude, 133 degrees 2 minutes 45 seconds west longitude, thence southeasterly along the watershed of Prince of Wales Island to the point of beginning at Cape Chacon.

1. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure.

2. Stake and anchored gill nets shall be operated in substantially a straight line.

3. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1 statute mile.

4. No floating trap shall exceed 900 feet in length when any part of such trap is in a greater depth of water than 100 feet at mean high tide. The length of any such trap shall be as measured along the lead from shore at mean high tide to the outer face of the pot.

5. No salmon fishing boat shall carry or operate more than one seine of any description and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 250 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

6. Commercial fishing for salmon, other than trolling, north of a line extending from Narrow Point to Ernest Point is prohibited prior to 6 o'clock antemeridian July 15, from 6 o'clock postmeridian August 28 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

7. Commercial fishing for salmon, other than trolling, between a line extending from Narrow Point to Ernest Point and a line extending from Approach Point to Caamano Point is prohibited prior to 6 o'clock antemeridian July 15, from 6 o'clock postmeridian August 25 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

8. Commercial fishing for salmon, other than trolling, south of a line extending from Approach Point to Caamano Point and east of a line extending down the middle of Clarence Strait is prohibited prior to 6 o'clock antemeridian July 10, from 6 o'clock postmeridian August 22 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

9. Commercial fishing for salmon, other than trolling, south of a line extending from Approach Point to Caamano Point and west of a line extending down the middle of Clarence Strait is prohibited prior to 6 o'clock antemeridian July 10, from 6 o'clock postmeridian August 23 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

10. Commercial fishing for salmon by means of any trap is prohibited in the period from 6 o'clock antemeridian October 1 to 6 o'clock postmeridian October 15.

11. The use of any beach seine is prohibited.

12. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

13. No trolling boat shall operate more than four trolling lines.

14. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

15. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Etolin Island: West coast from 56 degrees 9 minutes 20 seconds north latitude southward to 56 degrees 7 minutes 55 seconds north latitude.

(*b*) Etolin Island: West coast from 56 degrees 4 minutes 35 seconds north latitude southeasterly to 56 degrees 3 minutes 35 seconds north latitude.

(*c*) West coasts of Observation Island, Marsh Island, and the northwesternmost island of the Screen Islands group.

(*d*) East Island: East coast within 2,500 feet of a point at 56 degrees 10 minutes 6 seconds north latitude, 132 degrees 54 minutes 13 seconds west longitude.

(*e*) Prince of Wales Island: East coast from a point 1 statute mile south of the mouth of Eagle Creek to 55 degrees 55 minutes 20 seconds north latitude.

(*f*) Prince of Wales Island: East coast from a point at 55 degrees 51 minutes 30 seconds north latitude southeasterly to a point at 55 degrees 50 minutes 50 seconds north latitude.

(*g*) Prince of Wales Island: East coast from a point at 55 degrees 47 minutes 35 seconds north latitude southeasterly to a point at 55 degrees 46 minutes 45 seconds north latitude.

(*h*) Onslow Island: West coast from a point south of Gull Point at 55 degrees 52 minutes 57 seconds north latitude to Ernest Point.

(*i*) Cleveland Peninsula: South side of Ernest Sound within 1,500 feet of a point on the northwestern extremity of Union Point at 55 degrees 48 minutes 10 seconds north latitude, 132 degrees 11 minutes west longitude.

(*j*) Cleveland Peninsula: East side of Clarence Strait within 2,000 feet southerly of a point at 55 degrees 45 minutes 48 seconds north latitude, 132 degrees 17 minutes 5 seconds west longitude.

(*k*) Cleveland Peninsula: West coast (1) from a point at 55 degrees 44 minutes 12 seconds north latitude, 132 degrees 15 minutes 31 seconds west longitude, southerly to 55 degrees 43 minutes 5 seconds north latitude, (2) from 55 degrees 40 minutes 5 seconds north latitude to 55 degrees 39 minutes 35 seconds north latitude, (3) from 55 degrees 36 minutes 15 seconds north latitude to 55 degrees 34 minutes 50 seconds north latitude, (4) from 55 degrees 33 minutes 35 seconds north latitude to 55 degrees 32 minutes 35 seconds north latitude, 132 degrees 3 minutes 55 seconds west longitude, and (5) from 55 degrees 31 minutes 27 seconds north latitude, 132 degrees 1 minute 55 seconds west longitude, to 131 degrees 59 minutes 55 seconds west longitude.

(*l*) Westerly side of the Vallenar Rock Island located about 800 yards from the northern extremity of Vallenar Point.

(*m*) Gravina Island: West coast (1) from South Vallenar Point to 55 degrees 20 minutes 48 seconds north latitude, (2) from 55 degrees 18 minutes 50 seconds north latitude to 55 degrees 8 minutes 15 seconds north latitude, including the rocky islets adjacent to this coast, and (3) the Bronaugh Islands south of 55 degrees 7 minutes 10 seconds north latitude.

(*n*) Gravina Island: East coast (1) within 2,500 feet of a point at 55 degrees 10 minutes 30 seconds north latitude, and (2) within 2,500 feet southerly of a point at 55 degrees 12 minutes north latitude near the south side of the entrance to Bostwick Inlet.

(*o*) Gravina Island: East coast from 55 degrees 15 minutes north latitude northward to Blank Point at 55 degrees 15 minutes 11 seconds north latitude, 131 degrees 40 minutes 13 seconds west longitude.

(*p*) Annette Island: West coast from Walden Point to Davison Point, including the west shore of Warburton Island, exclusive of the coast between 55 degrees 10 minutes 5 seconds north latitude and 55 degrees 11 minutes 5 seconds north latitude.

(*q*) Grindall Island, off Grindall Point, Prince of Wales Island: Within 3,500 feet northwesterly of the eastern extremity of Approach Point.

(*r*) Prince of Wales Island: East coast (1) from a point on Grindall Point at 55 degrees 28 minutes 10 seconds north latitude northwesterly to a point at 55 degrees 28 minutes 35 seconds north latitude, (2) from 55 degrees 30 minutes 5 seconds north latitude to 55 degrees 31 minutes 5 seconds north latitude, and (3) from 55 degrees 38 minutes 20 seconds north latitude to a point southeasterly of Tolstoi Point at 55 degrees 39 minutes 5 seconds north latitude.

(*s*) Prince of Wales Island: East coast within 2,500 feet southerly of a point at 55 degrees 23 minutes 40 seconds north latitude, 132 degrees 13 minutes 55 seconds west longitude.

(*t*) Prince of Wales Island: East coast (1) from 55 degrees 20 minutes 15 seconds north latitude to 55 degrees 20 minutes 56 seconds north latitude, 132 degrees 9 minutes 38 seconds west longitude, and (2) within 2,500 feet of a point at 55 degrees 22 minutes 22 seconds north latitude, 132 degrees 11 minutes 15 seconds west longitude.

(*u*) Prince of Wales Island: East coast (1) Wedge Island, (2) from 55 degrees 11 minutes 25 seconds north latitude to 55 degrees 12 minutes 5 seconds north latitude, and (3) within 4,000 feet northerly from a point on a small island between Halibut Creek and Chasina Point, at approximately 55 degrees 15 minutes 5 seconds north latitude.

(*v*) Prince of Wales Island: East coast within 2,500 feet of a point at 55 degrees 6 minutes 51 seconds north latitude, 131 degrees 59 minutes 40 seconds west longitude.

(*w*) Prince of Wales Island: East coast (1) within 1,000 feet of an unnamed islet at 55 degrees 2 minutes north latitude, and (2) eastern shore of Polk Island.

(*x*) Prince of Wales Island: East coast, including adjacent rocks, from 54 degrees 56 minutes north latitude to 54 degrees 57 minutes 45 seconds north latitude.

(*y*) Prince of Wales Island: From the outer point of land on the north side of Kendrick Bay at approximately 131 degrees 58 minutes 25 seconds west longitude northward for a distance of 2,500 feet.

(*z*) Prince of Wales Island: East coast from a point at 54 degrees 49 minutes 50 seconds north latitude, 131 degrees 57 minutes 35 seconds west longitude, north of the entrance to Gardner Bay, northwesterly to a point on the south side of Kendrick Bay at 131 degrees 58 minutes 55 seconds west longitude.

(*aa*) Prince of Wales Island: East coast from McLean Point to a point 3,500 feet southward.

(*bb*) Prince of Wales Island: East coast from 54 degrees 42 minutes 12 seconds north latitude to 54 degrees 44 minutes 30 seconds north latitude.

16. All commercial fishing for salmon is prohibited, as follows:

(*a*) Moira Sound, east coast of Prince of Wales Island: South Arm south of 54 degrees 57 minutes 34 seconds north latitude, all waters in Frederick Cove, Kegan Cove, and within 1,000 yards of the mouth of any salmon stream in Johnson Cove.

(*b*) Dolomi Bay, tributary to Port Johnson, east coast of Prince of Wales Island: All waters within the outermost points of the bay.

(*c*) Cholmondeley Sound, east coast of Prince of Wales Island: All waters in Dora Bay and Sunny Cove.

(*d*) Skowl Arm, Prince of Wales Island: McKenzie Inlet south of 55 degrees 21 minutes 35 seconds north latitude, and Polk Inlet south of 55 degrees 25 minutes 15 seconds north latitude.

(*e*) Twelvemile Arm, Kasaan Bay: All waters tributary to the west side of Twelvemile Arm within a line from a point at 55 degrees 27 minutes 15 seconds north latitude, 132 degrees 39 minutes 55 seconds west longitude, to a point at 55 degrees 28 minutes 46 seconds north latitude, 132 degrees 38 minutes 25 seconds west longitude.

(*f*) Kasaan Bay, east coast of Prince of Wales Island: Within 1 statute mile of the mouth of any salmon stream in Karta Bay.

(*g*) Thorne and Tolstoi Bays, east coast of Prince of Wales Island: Within 1 statute mile of the mouth of any salmon stream, and all waters of Thorne Bay west of 132 degrees 28 minutes 35 seconds west longitude.

(*h*) Ratz Harbor, indenting the eastern shore of Prince of Wales Island: All waters within the harbor.

(*i*) Eagle Creek, about 1 mile south of Luck Point, northeast coast of Prince of Wales Island: All waters within 1 statute mile of the mouth of the creek.

(*j*) Barnes Lake, at head of Lake Bay, northeast coast of Prince of Wales Island: All waters in Barnes Lake and within 500 yards outside its entrance.

(*k*) Whale Passage, northeast coast of Prince of Wales Island: All waters within 1,000 yards of the mouth of any salmon stream.

(*l*) McHenry Inlet, southwest coast of Etolin Island: All waters within 1,000 yards of the salmon streams emptying into the head of McHenry Inlet.

(*m*) Rocky Bay, west coast of Etolin Island: All waters within 1 statute mile of the head of the bay.

*South Prince of Wales Island district.*—All territorial waters within a line extending from a point west of the Maurelle Islands at 55 degrees 40 minutes north latitude, 134 degrees 17 minutes 10 seconds west longitude, thence to a point west of Cape Addington at 55 degrees 25 minutes 30 seconds north latitude, 134 degrees west longitude, thence to a point southwest of Forrester Island at 54 degrees 40 minutes north latitude, 133 degrees 35 minutes west longitude, thence to the southern extremity of Cape Muzon, thence to the southern extremity of Cape Chacon, thence in a northwesterly direction along the watershed of Prince of Wales Island to a point at 55 degrees 40 minutes north latitude, 132 degrees 50 minutes west longitude, thence to the point of beginning at 55 degrees 40 minutes north latitude, 134 degrees 17 minutes 10 seconds west longitude.

1. The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure.

2. Stake and anchored gill nets shall be operated in substantially a straight line.

3. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1 statute mile.

4. No floating trap shall exceed 900 feet in length when any part of such trap is in a greater depth of water than 100 feet at mean high tide. The length of any such trap shall be as measured along the lead from shore at mean high tide to the outer face of the pot.

5. No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 8 fathoms nor more than 12 fathoms in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

6. Commercial fishing for salmon, other than trolling, is prohibited prior to 6 o'clock antemeridian July 15 in each calendar year, from 6 o'clock postmeridian August 29 to 6 o'clock antemeridian October 1 in each year, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

7. Commercial fishing for salmon by means of any trap is prohibited except in the period from 6 o'clock antemeridian July 15 to 6 o'clock postmeridian August 29 in each year.

8. The use of any beach seine is prohibited.

9. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

10. No trolling boat shall operate more than four trolling lines.

11. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

12. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Noyes Island: North coast between 133 degrees 39 minutes 57 seconds west longitude and 133 degrees 42 minutes 13 seconds west longitude.

(*b*) San Fernando Island: Northern coast from Point Garcia to a point on the coast at 55 degrees 34 minutes 7 seconds north latitude, 133 degrees 23 minutes 57 seconds west longitude.

(*c*) San Fernando Island: Southeastern coast from a point on the coast 1½ statute miles southwest of Fern Point southerly to a point 2 statute miles northeasterly of Point Amargura.

(*d*) St. Philip Island: Within 2,500 feet of the western extremity of the island.

(*e*) Blanquizal Islands: Coast west of 133 degrees 23 minutes 57 seconds west longitude.

(*f*) Prince of Wales Island: Coast along San Christoval Channel from a point at 55 degrees 37 minutes 6 seconds north latitude southward to 133 degrees 17 minutes 20 seconds west longitude.

(*g*) St. Ignace Island: Within ⅜ statute mile of the southern extremity of the island.

(*h*) Baker Island: East coast from Point Maria to Point Capones.

(*i*) Suemez Island: Northern coast from 55 degrees 20 minutes north latitude, 133 degrees 23 minutes 38 seconds west longitude, to 133 degrees 20 minutes 36 seconds west longitude.

(*j*) Prince of Wales Island: Coast from a point north of Point Providence at 133 degrees 15 minutes 10 seconds west longitude to a point on the coast between Tranquil Point and Point Batan at 133 degrees 12 minutes 56 seconds west longitude.

(*k*) Dall Island: West coast within 2,500 feet of a point at 54 degrees 44 minutes 26 seconds north latitude, 132 degrees 53 minutes 9 seconds west longitude.

(*l*) Dall Island: Coast from a point on the south side of the entrance to McLeod Bay at 54 degrees 41 minutes 7 seconds north latitude, southeasterly to Kalgani village, including coast line of nearby island within 300 feet of a point at 54 degrees 40 minutes 34 seconds north latitude, 132 degrees 39 minutes 46 seconds west longitude.

(*m*) Long Island, east of Dall Island: West coast within 2,500 feet measured along the coast from 54 degrees 46 minutes 19 seconds north latitude.

(*n*) Sukkwan Island: Southwestern coast (1) from 55 degrees 2 minutes 35 seconds north latitude to 55 degrees 1 minute 20 seconds north latitude, and (2) from 55 degrees 0 minutes 50 seconds north latitude to the southern extremity of the island, exclusive of the waters of Kasook Inlet and its tributaries and branches.

(*o*) McFarland Islands: Southwest coast of the westernmost island within 2,500 feet of a point at 55 degrees 2 minutes 40 seconds north latitude, 132 degrees 55 minutes 11 seconds west longitude.

(*p*) Prince of Wales Island: West coast within 2,500 feet of a point at 55 degrees 2 minutes 20 seconds north latitude, 132 degrees 35 minutes 18 seconds west longitude.

(*q*) Prince of Wales Island: From Point Webster southeasterly to 54 degrees 55 minutes 52 seconds north latitude, 132 degrees 32 minutes 30 seconds west longitude.

(*r*) Ship Islands, Cordova Bay: Within 300 yards west of the southern extremity of the eastern large island of the Ship Islands group at 54 degrees 53 minutes 42 seconds north latitude, 132 degrees 30 minutes 21 seconds west longitude.

(*s*) Coast line of a small island near the entrance to Ruth Bay within 2,500 feet of a point at 54 degrees 53 minutes 40 seconds north latitude, 132 degrees 26 minutes 27 seconds west longitude.

(*t*) Coast line within 450 feet of the eastern extremity of the island situated at 54 degrees 42 minutes 55 seconds north latitude, 132 degrees 16 minutes 10 seconds west longitude.

(*u*) Prince of Wales Island: South coast within 3,000 feet northeasterly from the extremity of land at 54 degrees 43 minutes 9 seconds north latitude, 132 degrees 13 minutes 30 seconds west longitude.

(*v*) Prince of Wales Island: South coast between Bronson Bay and Nichols Bay from a point at 54 degrees 42 minutes 34 seconds north latitude, 132 degrees 9 minutes 55 seconds west longitude, easterly to a point at 54 degrees 41 minutes 30 seconds north latitude, 132 degrees 7 minutes 46 seconds west longitude.

(*w*) Prince of Wales Island: From a point near Nichols Bay at 132 degrees 4 minutes 55 seconds west longitude eastward and southward for a distance of 5,000 feet.

13. All commercial fishing for salmon is prohibited, as follows:

(*a*) Klawak Inlet, west coast of Prince of Wales Island: All waters in the head of the inlet east of 133 degrees 5 minutes west longitude.

(*b*) Klawak Harbor, west coast of Prince of Wales Island: All waters south of 55 degrees 33 minutes 27 seconds north latitude.

(*c*) Trocadero Bay, west coast of Prince of Wales Island: All waters in the bay east of a true north and south line passing through the eastern extremity of the peninsula just south of Copper Mine.

(*d*) Manhattan Arm, west coast of Dall Island: All waters east of 133 degrees 10 minutes west longitude.

(*e*) Sawmill Cove, east coast of Dall Island: All waters of the cove within a line indicated by markers erected for the purpose.

(*f*) Kasook Inlet, southern coast of Sukkwan Island: All waters within 1 statute mile of head of inlet.

(*g*) Hetta Inlet, west coast of Prince of Wales Island: All waters within a true north and south line passing through the western extremity of Gould Island.

(*h*) Deer Bay, Hetta Inlet: All waters within the bay.

(*i*) Hetta Harbor, Hetta Inlet: All waters within the harbor.

(*j*) Eek Inlet, Hetta Inlet: All waters within the inlet.

(*k*) Hunter Bay, southwest coast of Prince of Wales Island: All waters within 1 statute mile outside the mouths of all salmon streams.

*Southern district.*—All territorial waters within a line beginning at a point on the international boundary at 131 degrees 40 minutes west longitude and following that boundary to Mount Lewis Cass, then southerly and westerly along the watershed to the southern extremity of Caamano Point, thence to Vallenar Point on Gravina Island, thence southerly and easterly along the watershed of Gravina Island to Gravina Point, thence to Walden Point on Annette Island, thence southerly along the watershed of Annette Island to Davison Point, thence west to a point at 55 degrees north latitude, 131 degrees 40 minutes west longitude, thence due south to the point of beginning on the international boundary at 131 degrees 40 minutes west longitude.

1. The total aggregate length of gill nets on any salmon fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure.

2. Stake and anchored gill nets shall be operated in substantially a straight line.

3. The distance by most direct water measurement from any part of one trap to any part of another trap shall not be less than 1 statute mile.

4. No floating trap shall exceed 900 feet in length when any part of such trap is in a greater depth of water than 100 feet at mean high tide. The length of any such trap shall be as measured along the lead from shore at mean high tide to the outer face of the pot.

5. No salmon fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 250 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited.

6. Commercial fishing for salmon, other than trolling, is prohibited prior to 6 o'clock antemeridian July 5, from 6 o'clock postmeridian August 18 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock postmeridian October 15.

7. Commercial fishing for salmon by means of any trap is prohibited except in the period from 6 o'clock antemeridian July 5 to 6 o'clock postmeridian August 18 in each year.

8. The use of any beach seine is prohibited.

9. No boat used in operating any purse seine shall be longer than 50 feet, as shown by official register length.

10. No trolling boat shall operate more than four trolling lines.

11. In commercial trolling operations no king salmon shall be caught which when dressed will weigh less than 6 pounds. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive.

12. Commercial fishing for salmon by trolling is prohibited in Behm Canal and its tributaries within a line from Point Sykes to Point Alava, across the eastern entrance of the canal, and a line from Escape Point to Point Francis, across the western entrance, from 6 o'clock postmeridian April 30 to 6 o'clock postmeridian June 30.

13. Commercial fishing for salmon by trolling is prohibited in Burroughs Bay (indenting mainland north of Revillagigedo Island) for the remainder of each calendar year after 6 o'clock postmeridian August 16: *Provided*, That this prohibition shall not apply to the period from 6 o'clock antemeridian October 1 to 6 o'clock postmeridian October 15 in each year.

14. Commercial fishing for salmon, except by trolling, is prohibited in the waters of Tongass Narrows between a line from Mountain Point to Gravina Point and a line from Point Higgins to Vallenar Point.

15. The use of any trap for the capture of salmon is prohibited, except as follows:

(*a*) Cleveland Peninsula: From a point near the south side of the entrance to Smugglers Cove at 55 degrees 34 minutes 10 seconds north latitude southwesterly to 55 degrees 31 minutes 30 seconds north latitude.

(*b*) Annette Island: East coast from Harbor Point to a point at 55 degrees 6 minutes 48 seconds north latitude, including Ham Island.

(*c*) Revillagigedo Island: Southwest coast (1) from Carroll Point southeasterly to a point at 131 degrees 27 minutes 26 seconds west longitude, and (2) within 2,500 feet of a point at 55 degrees 15 minutes 36 seconds north latitude, 131 degrees 21 minutes 15 seconds west longitude.

(*d*) Revillagigedo Island: From Cone Point southeasterly to a point at 55 degrees 11 minutes 41 seconds north latitude, 131 degrees 10 minutes 36 seconds west longitude, including Cone Island.

(*e*) Revillagigedo Island: Within ½ statute mile of Escape Point at 55 degrees 38 minutes 54 seconds north latitude.

(*f*) Revillagigedo Island: Within 5,000 feet northwesterly of Indian Point at 55 degrees 36 minutes 51 seconds north latitude.

(*g*) Revillagigedo Island: Within 1⅛ statute miles northeasterly from a point north of Point Higgins at 55 degrees 27 minutes 50 seconds north latitude, 131 degrees 49 minutes 52 seconds west longitude.

(*h*) Betton Island: West coast between the southern extremity of the island and 55 degrees 30 minutes 5 seconds north latitude.

(*i*) Mainland peninsula between Smeaton Bay and Boca de Quadra: Along the coast (1) from Point Sykes at 55 degrees 11 minutes 41 seconds north latitude, 131 degrees 5 minutes 24 seconds west longitude, to a point at 55 degrees 9 minutes 56 seconds north latitude, and (2) from 55 degrees 7 minutes 50 seconds north latitude to a point at 55 degrees 6 minutes 50 seconds north latitude, 131 degrees 3 minutes 11 seconds west longitude.

(*j*) Southwestern coast of island located southwesterly from Kah Shakes Point at 55 degrees 2 minutes 47 seconds north latitude, 131 degrees 0 minutes 27 seconds west longitude.

(*k*) Mainland south of Kah Shakes Cove: From a point at 55 degrees 1 minute 59 seconds north latitude, 130 degrees 59 minutes 54 seconds west longitude, southward to 55 degrees 1 minute 20 seconds north latitude.

(*l*) Mainland south of Foggy Bay: Along the coast (1) from within ½ statute mile northward of Foggy Point to a point at 54 degrees 54 minutes 5 seconds north latitude; (2) from 54 degrees 53 minutes 5 seconds north latitude to 54 degrees 51 minutes 35 seconds north latitude; and (3) from 54 degrees 49 minutes 30 seconds

north latitude to 54 degrees 46 minutes 30 seconds north latitude, 130 degrees 52 minutes 42 seconds west longitude.

(*m*) Cape Fox Island and within 1,000 feet of a point on an unnamed island near the western mainland shore at 54 degrees 47 minutes 47 seconds north latitude.

(*n*) Percy Islands: Coast along the west and north sides of the westernmost island of the Percy Islands group.

(*o*) Duke Island: East coast within 1,500 feet of the outer extremity of Flag Point.

(*p*) Duke Island: East coast within 2,500 feet of Duke Point.

(*q*) Kelp Island: Southern coast from a point at 131 degrees 16 minutes 6 seconds west longitude to the eastern extremity of the island.

(*r*) Mainland east of Cape Fox: Within 2,500 feet southwesterly of a point at 54 degrees 46 minutes 48 seconds north latitude, 130 degrees 48 minutes 10 seconds west longitude.

(*s*) Tongass Island: West coast within 2,000 feet of a point at 54 degrees 46 minutes 36 seconds north latitude.

(*t*) Kanagunut Island: West coast (1) from 54 degrees 44 minutes 35 seconds north latitude, 130 degrees 43 minutes 12 seconds west longitude, to Garnet Point.

(*u*) Sitklan Island: Within ½ statute mile of the southern extremity of the island.

16. All commercial fishing for salmon is prohibited, as follows:

(*a*) Hidden Inlet, indenting mainland: All waters in the inlet north of 55 degrees 0 minutes 5 seconds north latitude.

(*b*) Fillmore Inlet, indenting mainland: All waters east of 130 degrees 29 minutes 54 seconds west longitude.

(*c*) Willard Inlet, indenting mainland: All waters north of 54 degrees 56 minutes 35 seconds north latitude.

(*d*) Ray Anchorage, east coast of Duke Island: All waters in Ray Anchorage.

(*e*) Very Inlet, indenting mainland: All waters within the inlet.

(*f*) Boca de Quadra, indenting mainland: All waters within 1 statute mile of the mouth of Sockeye Creek.

(*g*) George Inlet, southern coast of Revillagigedo Island: All waters north of a line from Bat Point to Tsa Cove.

(*h*) Smeaton Bay, indenting mainland: Within 1 statute mile outside the mouth of the salmon stream in Wilson Arm, and all waters of Bakewell Arm east of 130 degrees 39 minutes 54 seconds west longitude.

(*i*) Rudyerd Bay, indenting mainland: All waters in the north arm within 2 statute miles of the mouth of any salmon stream.

(*j*) Walker Cove, indenting mainland, tributary to Behm Canal: All waters within a line from Ledge Point to Hut Point.

(*k*) Chickamin River: All waters within a line from Fish Point to Trap Point.

(*l*) Yes Bay, Cleveland Peninsula: All waters within the bay and all waters outside the entrance within 1,000 yards of a line from Bluff Point to Syble Point.

(*m*) Shrimp Bay, west coast of Revillagigedo Island: All waters east of a line running south from Dress Point to the opposite shore.

(*n*) Traitors Cove, west coast of Revillagigedo Island: All waters of the cove within a line 50 yards outside the neck of the salt-water lagoon.

(*o*) Naha Bay, west shore of Revillagigedo Island: Within 1 statute mile of the falls at the outlet of Roosevelt Lagoon.

(*p*) Raymond Cove, Behm Canal: All waters of the cove within a line from the southern extremity of Mike Point northeasterly to a point at 55 degrees 37 minutes 45 seconds north latitude, 131 degrees 51 minutes 50 seconds west longitude.

HERRING FISHERY.—1. During the period from June 1 to October 15, both dates inclusive, commercial fishing for herring, including bait fishing, is prohibited in all waters closed throughout the year to salmon fishing.

2. Commercial fishing for herring, except for bait purposes, is prohibited from January 1 to May 31, both dates inclusive, and from October 1 to December 31, both dates inclusive: *Provided*, That this prohibition shall not apply to the use of gill nets of mesh not less than 2½ inches stretched measure between knots, in the period from October 1 to December 31, both dates inclusive.

3. All commercial fishing for herring, except for bait purposes, is prohibited, as follows: All waters of Chatham Strait and contiguous waters along the western shore of Admiralty Island between Point Gardner and a point at 57 degrees 40 minutes north latitude: *Provided*, That this prohibition shall not apply to commercial fishing for herring by means of gill nets of mesh not less than 2½ inches stretched measure between knots in the period from June 1 to December 31, both dates inclusive. The taking of herring for bait, except by salmon trolling boats by means of any gill net of mesh not more than 2½ inches stretched measure between knots, of not greater than No. 20 gill net thread, and not exceeding 10 fathoms in length and 100 meshes in depth, is prohibited in all waters of Kootznahoo Inlet east of a line extending from Danger Point to Kootznahoo Head.

4. All commercial fishing for herring, except for bait purposes, is prohibited prior to July 16 in the waters along the south coast of Baranof Island from Redfish Cape to the light at Port Armstrong.

5. All commercial fishing for herring, including bait fishing, by means of any purse seine is prohibited in the waters on the west side of Cleveland Peninsula between 55 degrees 46 minutes north latitude and 55 degrees 44 minutes north latitude, and east of 132 degrees 17 minutes 30 seconds west longitude.

6. Commercial fishing for herring, except for bait purposes, is prohibited from 6 o'clock antemeridian of Saturday of each week until 6 o'clock postmeridian of the Sunday following.

7. Commercial fishing for herring, including bait fishing, by means of any trap is prohibited.

8. No herring-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any herring-fishing boat is prohibited. These prohibitions shall not apply to pound seines used exclusively for impounding herring or to seines used exclusively within waters enclosed by such pound seines.

9. Commercial fishing for herring, including bait fishing, by means of any purse seine more than 1,200 meshes in depth, more than 180 fathoms in length, or of mesh less than 1½ inches stretched measure between knots is prohibited: *Provided*, That any purse seine may have in addition a strip along the bottom not to exceed 30 meshes in depth and of mesh not less than 4 inches stretched measure between knots. No extension to any seine in the way of leads will be permitted.

10. No one shall place, or cause to be placed, across the entrance to any lagoon or bay any net or other device which will prevent the free passage at all times of herring in and out of said lagoon or bay.

11. All commercial fishing, including bait fishing, for herring is prohibited throughout the year in the waters of Kanalku Bay, Admiralty Island.

12. Commercial fishing for herring, including bait fishing, by means of any beach seine on any herring spawning ground is prohibited.

13. Seines used in commercial fishing, including bait fishing, for herring in Klawak Harbor within a true east and west line passing through the northern extremity of Klawak Island shall not exceed 90 fathoms hung measure in length nor 500 meshes in depth. For the purpose of determining depths of such seines measurements will be upon the basis of 1½ inches stretched measure between knots. No such seine shall have a mesh of less than 1½ inches stretched measure between knots.

14. The dumping of offal and dead herring in the waters of any bay in which herring spawn or where they are captured is prohibited.

CLAM FISHERY.—1. It is prohibited to take for commercial purposes any razor clam measuring less than 4½ inches in total length of shell. Possession of any razor clam of less than this length will be regarded as prima facie evidence of unlawful taking.

2. Any razor clam measuring less than 4½ inches in total length of shell shall be returned alive immediately to the hole from which it was removed in the course of digging operations.

3. It is prohibited to take for commercial purposes any butter clam (*Saxidomus*) measuring less than 2 inches in total length of shell. Possession of any butter clam of less than this length will be regarded as prima facie evidence of unlawful taking.

SHRIMP FISHERY.—Commercial fishing for shrimps is prohibited in the period from March 15 to April 30, both dates inclusive, in each year.

CRAB FISHERY—DUNGENESS CRAB (*Cancer magister*).—1. No female of this species shall be taken at any time, and no male of this species measuring less than 7 inches in greatest width shall be taken for commercial purposes.

2. It is prohibited to take for commercial purposes any soft-shell crab. Possession of any such crab will be regarded as prima facie evidence of unlawful taking.

3. Commercial fishing for the Dungeness crab is prohibited from May 15 to July 31, both dates inclusive, in the Sumner Strait and Stikine districts, and from June 15 to August 1, both dates inclusive, in the Icy Strait district.

TROUT REGULATIONS

1. Commercial fishing for steelhead trout shall be subject to the provisions of law and the regulations applicable to commercial fishing for salmon.

2. Commercial fishing for trout of any species is prohibited in all streams and lakes: *Provided*, That this prohibition shall not apply to Dolly Varden trout.

3. No person shall take during any one day more than a combined total of 40 trout of all species, except Dolly Varden trout, and no person shall have in his possession at any time more than 80 trout of all species, except Dolly Varden trout: *Provided*, That in Russian River, flowing into Kenal River, and in its tributary lakes and streams, there shall not be taken in any one day, and no one shall have in his possession at any time, more than a combined total of 20 pounds and one fish of all species except Dolly Varden trout.

GENERAL REGULATIONS

1. During closed periods the heart walls of all salmon traps within the areas affected shall be lifted or lowered in accordance with the method prescribed by section 5 of the act of June 6, 1924. The tunnels from hearts to pots of all salmon traps shall be constructed of flexible webbing other than wire, and during all closed periods they shall be completely closed by pulling to one side of the pot. In addition, the spillers of all driven traps shall be raised to within 4 feet of the capping and the spillers of floating traps shall be raised to within 4 feet of the surface within 36 hours after the beginning of any seasonal closed period. Within 36 hours after the beginning of any seasonal closed period the tunnels from pots to spillers of all traps shall be entirely disconnected. In respect to traps not provided with spillers, the requirements in regard to spillers shall apply to the pots. In any prescribed fishing area prior to the first date when salmon traps may be operated in any calendar year, no trap or any part thereof, whether under construction or after completion, shall be so arranged or adjusted as to prevent the free and unobstructed passage at all times of all fish.

2. No trap shall have more than two spillers.

3. No salmon trolling boat shall carry or operate any seine or more than one gill net. The gill net shall be of mesh not more than 2½ inches stretched measure between knots, shall not be of greater than No. 20 gill-net thread, and shall not exceed 10 fathoms in length and 100 meshes in depth.

4. In commercial fishing for salmon all forms of gear other than drift gill nets, stake nets, set nets, driven traps, floating traps, purse seines, beach seines, fish wheels, trolling apparatus, hand lines, rods, spears, and gaffs, are prohibited at all times. The use of any other form of gear, including trammel nets, diver nets, trawls, combination nets, hammerhead traps or any modification thereof, is prohibited at all times. No gill net shall include any webbing other than a single sheet hung between cork and lead lines. No gill net shall be used in any form of seining operations.

5. The use of any trawl in commercial fishery operations is prohibited: *Provided*, That this prohibition shall not apply to fishing operations conducted solely for the purpose of taking shrimp, or to commercial fishing for flounders when such fishing does not result in the capture, injury, or destruction of other food fish.

6. The use of dynamite or any other explosive in the taking or killing of any fish is prohibited.

7. The time used in the various areas for the enforcement of the law and the regulations that specify hours and days shall be as follows:

(*a*) In the southeastern Alaska area: Standard time of the one hundred and thirty-fifth meridian of west longitude, which is 1 hour slower than Seattle standard time.

(*b*) In the Bering River, Copper River, Prince William Sound, Resurrection Bay, Cook Inlet, Kodiak, Chignik, Alaska Peninsula, and Bristol Bay areas; Standard time of the one hundred and fiftieth meridian of west longitude, which is 2 hours slower than Seattle standard time.

(*c*) In the Aleutian Islands and Yukon-Kuskokwim areas: Standard time of the one hundred and sixty-fifth meridian of west longitude, which is 3 hours slower than Seattle standard time.

8. All persons engaged in fishery operations are warned to give due regard to all markers erected by the Department of Commerce.

9. In waters where a rack or weir is maintained by the Bureau of Fisheries for the purpose of counting salmon ascending to the spawning grounds, records of the catch of salmon shall be furnished daily by all operators to the local representative of the Bureau of Fisheries in charge, and upon notification by the Commissioner of Fisheries or his authorized representative that an excessive proportion of the run is being taken so that the escapement of any species is less than the 50 per cent specified by section 2 of the act of June 6, 1924, all commercial fishing operations shall at once be discontinued and shall not be resumed until permission therefor is granted by the Commissioner of Fisheries or his duly authorized representative. And if in any year it shall appear that the run of salmon in such waters has diminished there shall be required a correspondingly increased escapement, and upon notification by the Commissioner of Fisheries or his authorized representative all commercial fishery operations shall cease and shall not be resumed until such increased escapement has been secured.

10. The driving of salmon downstream and the causing of salmon to go outside the protected area at the mouth of any salmon stream are expressly prohibited.

11. During the inspection of the salmon fisheries by the agents and representatives of this department, they shall have at all times free and unobstructed access to all canneries, salteries, and other fishing establishments and to all hatcheries.

12. All persons, companies, or corporations owning, operating, or using any stake net, set net, trap net, pound net, or fish wheel for taking salmon or other fishes shall cause to be placed in a conspicuous place on said trap net, pound net, stake net, set net, or fish wheel the name of the person, company, or corporation owning, operating, or using same, together with a distinctive number, letter, or name which shall identify each particular stake net, set net, trap net, pound net, or fish wheel, said lettering and numbering to consist of black figures and letters, not less than 6 inches in length, painted on white ground.

13. If in the process of curing salmon bellies the remaining edible portion of the fish is not used, such action will be regarded as wanton waste within the meaning of section 8 of the act of June 26, 1906, and those who engage in this practice will be reported for prosecution as provided for in the act.

14. The taking of salmon for feed for fur-bearing animals shall be considered as commercial fishing and subject to all of the limitations in respect thereto.

15. Any increase in the amount of fishing gear employed or any expansion of fishery operations in any district in any season shall, in the discretion of the Secretary of Commerce, result in the immediate imposition of such additional restrictions as may appear necessary.

16. These regulations shall be subject to such change or revision by the Secretary of Commerce as may appear advisable from time to time. They shall be in full force and effect immediately from and after February 8, 1937.

[SEAL] DANIEL C. ROPER,
*Secretary of Commerce.*

[F. R. Doc. 37-418; Filed, February 10, 1937; 12:08 p. m.]

## BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

[Supplement to Regulation D]

### RESERVES REQUIRED TO BE MAINTAINED BY MEMBER BANKS WITH FEDERAL RESERVE BANKS

Pursuant to the provisions of section 19 of the Federal Reserve Act and section 2 (a) of its Regulation D, the Board of Governors of the Federal Reserve System increases by 33⅓ per cent the reserve requirements established by the Supplement to Regulation D made effective at the close of business on August 15, 1936: *Provided, however*, That ½ of such increase shall be effective as to each member bank at the opening of business on March 1, 1937, and the remaining ½ of such increase shall be effective as to each member bank at the opening of business on May 1, 1937.[1]

Approved by the Board of Governors of the Federal Reserve System on January 30, 1937.

[SEAL] S. R. CARPENTER,
*Assistant Secretary.*

[F. R. Doc. 37-434; Filed, February 11, 1937; 10:53 a. m.]

[Regulation Q Amended]

### PAYMENT OF INTEREST ON DEPOSITS

Be it resolved That, effective February 11, 1937, Regulation Q entitled "Payment of Interest on Deposits", as adopted to become effective January 1, 1936, is amended by striking out subsection (f) of section 1 thereof and by inserting after the first sentence of subsection (a) of section 2 thereof the following sentence:

Within this regulation, any payment to or for the account of any depositor as compensation for the use of funds constituting a deposit shall be considered interest.

Adopted by the Board of Governors of the Federal Reserve System on February 9, 1937.

[SEAL] S. R. CARPENTER,
*Assistant Secretary.*

[F. R. Doc. 37-433; Filed, February 11, 1937; 10:53 a. m.]

[1] Effective at the opening of business on March 1, 1937, the requirements as to reserves to be maintained by each member bank will be 75 per cent above the requirements prescribed by section 19 of the Federal Reserve Act and, effective at the opening of business on May 1, 1937, the requirements as to reserves to be maintained by each member bank will be 100 per cent above the requirements prescribed by section 19 of the Federal Reserve Act.

## FEDERAL DEPOSIT INSURANCE CORPORATION.

### REGULATION IV—RELATING TO THE PAYMENT OF DEPOSITS AND INTEREST THEREON BY INSURED NONMEMBER BANKS

AS AMENDED FEBRUARY 10, 1937, TO BE EFFECTIVE FEBRUARY 11, 1937, SUPERSEDING REGULATION IV AS AMENDED JANUARY 23, 1936

*Authority for and Scope of Regulation*

This regulation is issued under authority of paragraph (8), subsection (v) of Section 12B of the Federal Reserve Act, as amended, which is published in the Appendix hereto.

This regulation relates to the payment of deposits and interest thereon by insured nonmember banks. This regulation is not applicable to banks which are members of the Federal Reserve System. Regulation Q, prescribed by the Board of Governors of the Federal Reserve System for banks which are members of that System, is not applicable to insured banks which are not members of the Federal Reserve System, except to the extent that the State law of a particular State provides otherwise.

The provisions of this regulation do not apply to any deposit in a bank located outside of or payable only at a bank's office which is located outside of the States of the United States and the District of Columbia.

SECTION 1—DEFINITIONS

(a) *Demand deposits.*—The term "demand deposit" includes every deposit which is not a "time deposit" or "savings deposit", as defined below.

(b) *Time deposits.*—The term "time deposits" means "time certificates of deposit" and "time deposits, open account", as defined below.

(c) *Time certificates of deposit.*—The term "time certificate of deposit", means a deposit evidenced by a negotiable or nonnegotiable instrument which provides on its face that the amount of such deposit is payable:

(1) On a certain date, specified in the instrument, not less than 30 days after the date of the deposit; or

(2) At the expiration of a specified period not less than 30 days after the date of the instrument; or

(3) Upon written notice to be given not less than 30 days before the date of repayment.[1]

(d) *Time deposits, open account.*—The term "time deposit, open account" means a deposit, other than a "time certificate of deposit" or a "savings deposit", with respect to which there is in force a written contract with the depositor that neither the whole nor any part of such deposit may be withdrawn, by check or otherwise, prior to the date of maturity, which shall be not less than 30 days after the date of the deposit,[2] or prior to the expiration of the period of notice which must be given by the depositor in writing not less than 30 days in advance of withdrawals.[2]

(e) *Savings deposits.*—The term "savings deposit" means a deposit evidenced by a pass book consisting of funds (i) deposited to the credit of one or more individuals or of a corporation, association or other organization operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes and not operated for profit,[3] or (ii) in which the entire beneficial interest is held by one or more individuals or by such a corporation, association or other organization and in respect to which—

(1) The depositor is required, or may at any time be required, by the bank to give notice in writing of an intended withdrawal not less than 30 days before such withdrawal is made; or the bank consistently continues to adhere to a practice existing prior to January 23, 1936, of requiring notice of at least 15 days before permitting withdrawal;

(2) Withdrawals are permitted in only two ways, either (A) upon presentation of the pass book, through payment to the person presenting the pass book, or (B) without presentation of the pass book, through payment to the depositor himself but not to any other person, whether or not acting for the depositor.[3]

The provisions of (i) and (ii) of this subsection (e), limiting savings deposits to funds of certain classes of persons shall not be applicable to deposits received and credited on or before February 1, 1936, to accounts evidenced by pass books in insured nonmember banks and these deposits, together with interest subsequently payable on such deposits, less any withdrawals from such accounts, may be classed by insured nonmember banks as savings deposits under the terms of this subsection, even though such deposits belong to an association, organization or corporation organized for profit. The said provisions of (i) and (ii), however, shall be applicable to deposits received subsequently to February 1, 1936, whether or not such deposits are credited to an account existing prior to February 1, 1936.

The presentation by any officer, agent or employee of the bank of a pass book or a duplicate thereof retained by the bank or by any of its officers, agents or employees is not a presentation of the pass book within the meaning of this regulation except where the pass book is held by the bank as a part of an estate of which the bank is a trustee or other fiduciary, or where the pass book is held by the bank as security for a loan. If a pass book is retained by the bank, it may not be delivered to any person other than the depositor for the purpose of enabling such person to present the pass book in order to make a withdrawal, although the bank may deliver the pass book to a duly authorized agent of the depositor for transmittal to the depositor.

Every withdrawal made upon presentation of a pass book shall be entered in the pass book at the time of the withdrawal, and every other withdrawal shall be entered in the pass book as soon as practicable after the withdrawal is made.

SECTION 2—DEMAND DEPOSITS

(a) *Interest prohibited.*—Except as hereinafter provided, no insured nonmember bank shall directly or indirectly, by any device whatsoever, pay any interest on any demand deposit. Within this regulation any payment to or for the account of any depositor as compensation for the use of funds constituting a deposit shall be considered interest.

(b) *Exceptions.*—The prohibition stated in subsection (a) above does not apply to—

(1) Payment of interest accruing before August 24, 1937, on any deposit made by a "savings bank"[4] as defined in Section 12B of the Federal Reserve Act, as amended, or by a mutual savings bank;

(2) Payment of interest accruing before August 24, 1937, on any deposit of public funds[5] made by or on behalf of any State, county, school district, or other subdivision or municipality, or on any deposit of trust funds, if the payment of interest with respect to such deposit of public funds or of trust funds is required by State law when such deposits are made in State banks;

(3) Payment of interest in accordance with the terms of any certificate of deposit or other contract which was lawfully entered into in good faith before February 1, 1936 (or, if the bank became an insured nonmember bank thereafter, before the date upon which it became an insured nonmember bank), which was in force on such date, and which may not legally be terminated or modified by such bank at its option and without liability; but no such certificate of deposit or other contract may be renewed or extended unless it be modified to eliminate any provision for the payment of interest on demand deposits, and every insured nonmember bank shall take such action as may be necessary, as soon as possible consistently with its contractual obligations, to eliminate from any such certificate of deposit or other contract any provision for the payment of interest on demand deposits.

(c) Deposits in "savings banks"[4] in specifically designated deposit accounts with respect to which withdrawal by checking is permitted in accordance with paragraph (7), subsection (c), Section 12B of the Federal Reserve Act, as amended, shall for the purposes of this regulation be classed as demand deposits.

SECTION 3—MAXIMUM RATE OF INTEREST ON TIME AND SAVINGS DEPOSITS

(a) *Maximum rate prescribed from time to time.*—Except in accordance with the provisions of this regulation, no insured nonmember bank shall pay interest on any time deposit or savings deposit in any manner, directly or indirectly, or by any method, practice, or device whatsoever. No insured nonmember bank shall pay interest on any time deposit or savings deposit at a rate in excess of such applicable maximum rate as the Board of Directors of the Federal Deposit Insurance Corporation shall prescribe from time to time; and any rate or rates which may be so prescribed by the Board will be set forth in supplements to this regulation, which will be issued in advance of the date upon which such rate or rates become effective.

(b) *Modification of contracts to conform to regulation.*—No certificate of deposit or other contract shall be renewed or extended unless it be modified to conform to the provisions of this regulation, and every insured nonmember bank shall take such action as may be necessary, as soon as possible consistently with its contractual obligations, to bring all of its outstanding certificates of deposit or other contracts into conformity with the provisions of this regulation.

(c) *Savings deposits received during first five days of month.*—An insured nonmember bank may pay interest on a savings deposit received during the first five days of any calendar month at the applicable maximum rate prescribed pursuant to the provisions of subsection (a) of this section, calculated from the first day of such calendar month until such deposit is withdrawn or ceases to constitute a savings deposit under the provisions of this regulation, whichever shall first occur.

(d) *Continuance of time deposit status.*—A deposit which was a time deposit at the date of deposit continues to be such until maturity although it has become payable within 30 days, and interest at a rate not exceeding that prescribed pursuant to the provisions of subsection (a) of this section may be paid until maturity upon such deposit. A time deposit or a savings deposit, with respect to which notice of withdrawal has been given, continues to be such until the expiration of the period of such notice, and interest may be paid upon such deposit until the expiration of the period of

[1] If the certificate of deposit provides merely that the bank reserves the right to require notice of not less than 30 days before any withdrawal is made, the bank must require such notice before permitting withdrawal.

[2] Deposits, such as Christmas club accounts and vacation club accounts, which are made under written contracts providing that no withdrawal shall be made until a certain number of periodic deposits have been made during a period of not less than 3 months, constitute "time deposits, open account" even though some of the deposits are made within 30 days from the end of such period.

[2] If a deposit be made with respect to which the bank merely reserves the right to require notice of not less than 30 days before withdrawal is made, the bank must require such notice to be given before permitting withdrawal.

[3] Deposits in joint accounts of two or more individuals may be classified as savings deposits if they meet the other requirements of the above definition, but deposits of a partnership operated for profit may not be so classified. Deposits to the credit of an individual of funds in which any beneficial interest is held by a corporation, partnership, association or other organization operated for profit or not operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes may not be classified as savings deposits.

[3] Presentation of a pass book may be made over the counter or through the mails; and payment may be made over the counter, through the mails or otherwise, subject to the limitations of paragraph (2), subsection (e), Section 1 as to the person to whom such payment may be made.

[4] Section 12B (c) (7) of the Federal Reserve Act which defines the term "savings bank" is quoted in the Appendix hereto.

[5] Deposits of moneys paid into State courts by private parties pending the outcome of litigation are not deposits of "public funds", within the meaning of the above provision.

such notice at a rate not exceeding that prescribed pursuant to the provisions of subsection (a) of this section. Interest at a rate not exceeding that prescribed pursuant to the provisions of subsection (a) of this section may be paid upon savings deposits with respect to which notice of intended withdrawal has not actually been required or given. No interest shall be paid by an insured nonmember bank on any amount which by the terms of any certificate or other contract, or agreement, or otherwise, the bank may be required to pay within 30 days from the date on which such amount is deposited in such bank,[4] except as to savings deposits with respect to which the bank consistently continues to adhere to a practice existing prior to January 23, 1936, of requiring notice of at least 15 days before permitting withdrawal.

(e) *No interest after maturity or expiration of notice—Exception.*—No interest shall be paid on any time or savings deposit for any period subsequent to maturity, whether such deposit matures by its terms on a specific date or at the expiration of a notice period pursuant to written notice actually given, except if a time certificate is renewed within 10 days after maturity, the renewal certificate[5] may draw interest from the maturity date of the matured certificate.

SECTION 4—PAYMENT OF TIME DEPOSITS BEFORE MATURITY

(a) *Time deposits payable on a specified date.*—No insured nonmember bank shall pay any time deposit, which is payable on a specified date, before such specified date, except as provided in subsection (d) of this section.

(b) *Time deposits payable after a specified period.*—No insured nonmember bank shall pay any time deposit, which is payable at the expiration of a specified period, before such period has expired, except as provided in subsection (d) of this section.

(c) *Time deposits payable after a specified notice.*—No insured nonmember bank shall pay any time deposit, with respect to which notice is required to be given a specified period before any withdrawal is made, until such required notice has been given and the specified period thereafter has expired, except as provided in subsection (d) of this section.

(d) *Loans upon security of time deposits.*—An insured nonmember bank may make a loan to the depositor upon the security of his time deposit, provided that the rate of interest on such loan shall be not less than 2% per annum in excess of the rate of interest on the time deposit.

Where a loan to the depositor upon the security of his time deposit upon terms satisfactory to the insured nonmember bank and the depositor cannot be arranged, and where the depositor signs a written statement to be kept in the files of the bank that he is in need of money represented by the time deposit before the maturity thereof, stating the definite amount needed, the time deposit may be paid before maturity to the extent required to meet such need, but the depositor shall forfeit accrued and unpaid interest for a period of not less than three months on the amount withdrawn. When a portion of a time certificate of deposit is paid before maturity, the certificate shall be cancelled and a new certificate shall be issued for the unpaid portion of the deposit, with the same terms, rate, date and maturity as the original deposit.

SECTION 5—NOTICE OF WITHDRAWAL OF SAVINGS DEPOSITS

(a) *Requirements regarding notice.*—An insured nonmember bank shall observe the requirements set forth as follows in requiring notice of intended withdrawal of any savings deposit or part thereof or in permitting withdrawal without requiring such notice:

(1) If an insured nonmember bank pay any amount or percentage of the savings deposits of any depositor without requiring such notice, it shall, upon request, and without requiring such notice, pay the same amount or percentage, of the savings deposits of every other depositor, subject to the same notice requirement, except if the bank changes its practice in accordance with subsection (b) of this section.

(2) If an insured nonmember bank requires such notice before the payment of any amount or percentage of the savings deposits of any depositor, it shall require such notice before the payment of the same amount or percentage of the savings deposits of any other depositor, subject to the same notice requirement, except if the bank changes its practice in accordance with subsection (b) of this section.

Even though the bank's practice is to require notice, an insured nonmember bank is not prevented by this regulation from paying during the next succeeding interest period without requiring notice of withdrawal interest on a savings deposit which has accrued during the preceding interest period.

(b) *Requirements regarding change of practice.*—No insured nonmember bank shall change its practice with respect to the requiring or not requiring of notice of intended withdrawal of savings deposits, except after duly recorded action of its board of directors or of its executive committee properly authorized, and no practice in this respect shall be adopted which does not conform to the requirements of paragraphs (1) and (2) of this section.

(c) *Change of practice for purpose of discrimination.*—No change in the practice of an insured nonmember bank with respect to the requiring or not requiring of notice of intended withdrawal of savings deposits shall be made for the purpose of discriminating in favor of or against any particular depositor or depositors.

(d) *Requirements applicable although no interest paid.*—An insured nonmember bank shall observe the requirements of this section with respect to savings deposits even though no interest be paid on such deposits.

(e) *Loans upon security of savings deposits.*—An insured nonmember bank may make a loan to any of its depositors upon the security of his savings deposits, provided that if the bank's practice is to require notice before permitting withdrawal of any amount or percentage of the savings deposits of any depositor, it shall require like notice before permitting a loan on the security of the same amount or percentage of such deposits.

APPENDIX STATUTORY PROVISIONS

Paragraph (8), subsection (v) of Section 12B of the Federal Reserve Act, as amended, provides as follows:

(8) The board of directors shall by regulation prohibit the payment of interest on demand deposits in insured nonmember banks and for such purpose it may define the term "demand deposits"; but such exceptions from this prohibition shall be made as are now or may hereafter be prescribed with respect to deposits payable on demand in member banks by section 19 of this Act, as amended, or by regulation of the Board of Governors of the Federal Reserve System. The board of directors shall from time to time limit by regulation the rates of interest or dividends which may be paid by insured nonmember banks on time and savings deposits, but such regulations shall be consistent with the contractual obligations of such banks to their depositors. For the purpose of fixing such rates of interest or dividends, the board of directors shall by regulation prescribe different rates for such payment on time and savings deposits having different maturities, or subject to different conditions respecting withdrawal or repayment, or subject to different conditions by reason of different locations, or according to the varying discount rates of member banks in the several Federal Reserve districts. The board of directors shall by regulation define what constitutes time and savings deposits in an insured nonmember bank. Such regulations shall prohibit any insured nonmember bank from paying any time deposit before its maturity except upon such conditions and in accordance with such rules and regulations as may be prescribed by the board of directors, and from waiving any requirement of notice before payment of any savings deposit except as to all savings deposits having the same requirement. For each violation of any provision of this paragraph or any lawful provision of such regulations relating to the payment of interest or dividends on deposits or to withdrawal of deposits, the offending bank shall be subject to a penalty of not more than $100, recoverable by the Corporation for its use.

Paragraph (7), subsection (c) of Section 12B of the Federal Reserve Act, as amended, provides as follows:

(c) As used in this section—

(7) The term "savings bank" means a bank (other than a mutual savings bank) which transacts its ordinary banking business strictly as a savings bank under State laws imposing special requirements on such banks governing the manner of investing their funds and of conducting their business: *Provided*, That the bank maintains, until maturity date or until withdrawn, all deposits made with it (other than funds held by it in a fiduciary capacity) as time savings deposits of the specific term type or of the type where the right is reserved to the bank to require written notice before permitting withdrawal: *Provided further*, That such bank to be considered a savings bank must elect to become subject to regulations of the Corporation with respect to the redeposit of maturing deposits and prohibiting withdrawal of deposits by checking except in cases where such withdrawal is permitted by law on the effective date from specifically designated deposit accounts totaling not more than 15 per centum of the bank's total deposits.

Adopted by the Board of Directors on February 10, 1937.

[SEAL] LEO T. CROWLEY, *Chairman.*

[F. R. Doc. 37-446; Filed, February 11, 1937; 12:55 p. m.]

[4] Deposits, such as Christmas club accounts and vacation club accounts, which are made under written contracts providing that no withdrawal shall be made until a certain number of periodic deposits have been made during a period of not less than 3 months, constitute "time deposits, open account" even though some of the deposits are made within 30 days from the end of such period.

[5] Where a time certificate is renewed within 10 days after maturity, the renewal certificate may be dated back to the maturity date of the matured certificate.

## FEDERAL POWER COMMISSION.

Commissioners: Frank R. McNinch, Chairman; Basil Manly, Vice Chairman; Herbert J. Drane, Claude L. Draper, Clyde L. Seavey.

[Project No. 16]

IN RE LICENSE ISSUED TO THE NIAGARA FALLS POWER COMPANY

ORDER DIRECTING INVESTIGATION AND REHEARING

The following order was adopted:

The Commission having under consideration the pending application of The Niagara Falls Power Company to amend the license for said project No. 16 so as to include the diversion and use of 275 c. f. s. of water through said project, upon which application a hearing has been held and briefs filed thereon, and having under consideration the rate schedules, contracts and agreements filed by The Niagara Falls Power Company under Order No. 31 for sale of the power from licensed Project No. 16;

*It is ordered:*

That the proceedings upon said pending application be reopened and that a further hearing be held at 10 a. m., on March 17, 1937, in the Commission's hearing room, Washington, D. C., for the purpose of investigating the terms and conditions of all contracts or agreements for the sale or lease of mechanical or electric energy from said project No. 16, and the operation and effect of the provisions of any such contracts or agreements, particularly as relating to the sale or lease of mechanical energy or to the limitation of the output of electric energy, the restraint of trade, or the fixing, maintaining or increasing of prices for electric energy or service, and effect thereof with reference to said amendment.

Adopted by the Commission on February 9, 1937.

[SEAL] LEON M. FUQUAY, *Acting Secretary.*

[F. R. Doc. 37-430; Filed, February 11, 1937; 9:58 a. m.]

## FEDERAL TRADE COMMISSION.

Commissioners: William A. Ayres, Chairman; Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[File No. 21-292]

IN THE MATTER OF PROPOSED TRADE PRACTICE RULES FOR THE TUBULAR PIPINGS AND TRIMMINGS MANUFACTURING INDUSTRY

NOTICE OF OPPORTUNITY TO BE HEARD

This matter now being before the Federal Trade Commission under its Trade Practice Conference procedure, in pursuance of the Act of Congress approved September 26, 1914 (38 Stat. 717);

Opportunity is hereby extended by the Federal Trade Commission to any and all persons affected by or having an interest in the proposed trade practice rules for the Tubular Pipings and Trimmings Manufacturing Industry, to present to the Commission their views upon the same, including suggestions or objections, if any. For this purpose they may, upon application to the Commission, obtain copies of the proposed rules. Communications of such views should be made to the Commission not later than March 1, 1937. Opportunity for oral hearing will be afforded at 10 a. m., March 1, 1937, in the main hearing room, Federal Trade Commission Building, 815 Connecticut Avenue NW., Washington, D. C., to such persons as may desire to appear, and who have made prior written or telegraphic requests to be heard orally. All briefs of other communications received concerning the proposed rules will become part of the public record. After giving due consideration to such suggestions or objections as may be received concerning the proposed rules, the Commission will proceed to their final consideration.

By direction of the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

Entered February 9, 1937.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 9th day of February A. D. 1937.

Commissioners: William A. Ayres, Chairman; Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[Docket No. 2986]

IN THE MATTER OF STANDARD BRANDS, INCORPORATED, AND STANDARD BRANDS OF CALIFORNIA

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission, under Acts of Congress (38 Stat. 717; 15 U. S. C. A., Section 41) and (49 Stat. 1526, U. S. C. A., Sec. 14, as amended),

It is ordered that John W. Norwood, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered that the taking of testimony in this proceeding begin on Thursday, February 18, 1937, at ten o'clock in the forenoon of that day (eastern standard time), in room 500, 45 Broadway, New York, N. Y.

Upon completion of testimony for the Federal Trade Commission, the examiner is directed to proceed immediately to take testimony and evidence on behalf of the respondent. The examiner will then close the case and make his report.

By the Commission.

## INTERSTATE COMMERCE COMMISSION.

[Ex Parte No. MC 9]

NOTICE—IN THE MATTER OF THE FILING OF CONTRACTS BY CONTRACT CARRIERS BY MOTOR VEHICLE

FEBRUARY 8, 1937.

The above-entitled matter is assigned for oral argument before the Commission on the 11th day of March A. D. 1937, at 10 o'clock A. M. (standard time) at the offices of the Commission at Washington, D. C., at which time and place any interested party may appear and be heard. Any such party desiring to be heard must immediately notify the Commission, specifying the time desired by him, or it, for argument.

By the Commission.

ORDER

At a Session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 8th day of February A. D. 1937.

[Ex Parte No. MC 9]

IN THE MATTER OF THE FILING OF CONTRACTS BY CONTRACT CARRIERS BY MOTOR VEHICLE

Whereas the Commission, by Division 5, by its Order of January 19, 1937, as amended by its Order of January 28, 1937, requires certain classes or groups of line-haul or over-the-road contract carriers by motor vehicle subject to the provisions of the Motor Carrier Act, 1935, as specified therein, to file with the Commission, publish, and keep open for public inspection on or before February 20, 1937, copies of each and every contract existing and in force on said date containing the charges of such contract carriers for the transportation of property in interstate or foreign commerce and any rule, regulation or practice affecting such charges and the value of the service thereunder:

*And it appearing,* That the matter has been assigned for oral argument before the entire Commission, and that such oral argument cannot be had prior to the effective date of said Order of January 19, 1937, as amended by the Order of January 28, 1937, and for that reason the effective date of said order should be further postponed;

*It is ordered,* That the time for compliance with the requirements of said Order of January 19, 1937, as amended by the Order of January 28, 1937, be, and it is hereby, extended from February 20, 1937, to April 15, 1937, and that said Order of January 19, 1937, in every other respect shall remain in full force and effect.

By the Commission, division 5.

## RURAL ELECTRIFICATION ADMINISTRATION.

[Administrative Order No. 57]

ALLOCATION OF FUNDS FOR LOANS

FEBRUARY 10, 1937.

By virtue of the authority vested in me by the provisions of Section 4 of the Rural Electrification Act of 1936, I hereby allocate, from the sums authorized by said Act, funds for Loans for the projects and in the amounts as set forth in the following schedule:

| Project Designation: | Amount |
|---|---|
| West Virginia 8 Hardy | $172,000 |

MORRIS L. COOKE, *Administrator.*

[F. R. Doc. 37-429; Filed, February 11, 1937; 9:49 a. m.]

## SECURITIES AND EXCHANGE COMMISSION.

SECURITIES EXCHANGE OF 1934

REPEAL OF RULE KA3

The Securities and Exchange Commission, deeming it necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, as amended, particularly Sections 13 and 23(a) thereof, hereby repeals Rule KA3.

The foregoing action shall be effective immediately upon publication.

By the Commission.

SECURITIES EXCHANGE ACT OF 1934

ADOPTION OF FORMS 18-K, 19-K, 20-K, AND 21-K

The Securities and Exchange Commission, finding—

(1) That the requirements of the following forms for annual reports—

(a) Form 18-K for Foreign Governments and Political Subdivisions Thereof,

(b) Form 19-K for American Certificates against Foreign Issues and for the Underlying Securities,

(c) Form 20-K for Securities, other than Bonds, of Foreign Private Issuers, and

(d) Form 21-K for Bonds of Foreign Private Issuers,

as more specifically defined in the instructions for such respective forms, are necessary and appropriate for the proper protection of investors and to insure fair dealing in such securities as are registered on national securities exchanges and as to which such respective forms are to be used; and

(2) That the information called for by such respective forms and the exhibits specified in such instructions are required to keep reasonably current the information and documents filed pursuant to Section 12 of the Securities Exchange Act of 1934 by the respective issuers for which such forms are prescribed,

pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 13 and 23 (a) thereof, hereby adopts Form 18-K, Form 19-K, Form 20-K, and Form 21-K.[1]

The foregoing action shall be effective immediately upon publication.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 10th day of February A. D. 1937.

[2-2804]

IN THE MATTER OF BONDHOLDERS COMMITTEE FOR REPUBLIC OF COLOMBIA DOLLAR BONDS

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Bondholders Committee for Republic of Colombia Dollar Bonds under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading,

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Wednesday, February 24, 1937, at 2 o'clock in the afternoon, in Room 1101, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF SUMMIT GOLD MINING CORPORATION

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Summit Gold Mining Corporation under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading,

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Friday, February 19, 1937, at 10 o'clock in the forenoon, in Room 726-C, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that John H. Small, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 10th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE ANDERSON-PRITCHARD-HARE NO. 1 FARM, FILED ON FEBRUARY 3, 1937, BY DEALERS ROYALTY COMPANY, INC., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the price of oil set forth in Item 1, Division II, is not the price of oil of the gravity shown in Item 18 (b), Division II;

(2) In that the gross production tax set out in Item 11, Division II, is not in accord with the same tax set out in Item 12 (b), Division II;

(3) In that the total production stated in Item 15, Division II, does not agree with the aggregate of production by months shown in Item 16 (a), Division II;

(4) In that the figures set forth in Items 16 (c) and 16 (d), Division II, are incorrectly calculated for June through September, inclusive;

(5) In that the price paid for oil as shown in Item 16 (e), Division II, does not agree with the price paid for oil of the gravity shown in Item 18 (b), Division II;

(6) In that Item 18 (a) (viii) is omitted;

(7) In that the statement appears in Item 13, Division II, that "the field has good conformity and there are practically no dry holes within the producing areas, which has caused a closer development than is ordinarily found" and omits to state that there are comparatively large areas in the field which have no wells. The number of producing wells in the "Mansion Area" is not up to date.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 11th day of March 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and hereby is designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 24th day of February 1937 at 9:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

ORDER

EXTENDING THE TIME TO MARCH 25, 1937, FOR THE FURNISHING TO SEAMEN OF CERTIFICATES OF SERVICE AND EFFICIENCY

FEBRUARY 4, 1937.

With reference to furnishing certificates of service and efficiency to seamen, as provided for in Section 1 of the Act of June 25, 1936 (Pub., 808, 49 Stat. 1930), amending Section 13 of the Seaman's Act of March 4, 1915, and to the Order of the Secretary of Commerce of January 11, 1937, I find that it is impracticable on the part of the Department of Commerce to furnish the certificates by the date fixed in said order (February 20, 1937) and by virtue of the authority contained in Section 1 (L) of said Act, I hereby further extend the effective date of Section 1 for the furnishing of these certificates to March 25, 1937.

## SECURITIES AND EXCHANGE COMMISSION.

SECURITIES ACT OF 1933

AMENDMENT TO FORM E-1

The Securities and Exchange Commission acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, particularly Sections 7 and 19 (a) thereof, and finding that any information or documents specified in Schedule A of the Securities Act of 1933, as amended, which Form E-1, and the rules and instructions accompanying that form, as hereby amended, do not require to be set forth, are inapplicable to the class of securities to which such form is appropriate, and that disclosure fully adequate for the protection of investors is otherwise required to be included in the registration statement, and that such information and documents as Form E-1 and the rules and instructions accompanying that form, as hereby amended, require to be set forth, but which are not specified in Schedule A, are necessary and appropriate in the public interest and for the protection of investors, hereby amends Form E-1 and the rules and instructions accompanying that form, as follows:

Under the caption "Exhibits" in Form E-1 there is added immediately after the paragraph headed "Exhibit X" the caption "Special instructions as to financial statements." There is also added immediately after the paragraph following such new caption the following new matter:

*Bank Holding Companies*

1. The term "bank" as used in paragraphs 2 and 3 below shall be deemed to include any association or corporation organized under the laws of the United States, any State or Territory of the United States or the District of Columbia, a substantial portion of the business of which consists of receiving deposits or exercising fiduciary powers similar to those permitted to national banks under Section 11 (k) of the Federal Reserve Act, as amended, and which is supervised and examined by State or Federal authorities, having supervision of banks.

2. The term "bank holding company" as used in paragraph 3 below means a person which is engaged, either directly or through subsidiaries, primarily in the business of owning securities of banks for the purpose and with the effect of exercising control, and does not have any other substantial business either directly or through subsidiaries.

3. Notwithstanding any provisions to the contrary in the foregoing requirements as to exhibits or in items 44 through 51 when a registration statement on Form E-1 is filed by a bank holding company, the special requirements set forth below shall be applied:

(a) Statements of any bank subsidiary need not be certified, and are not to be consolidated with statements of the registrant.

(b) The statements of one or more bank subsidiaries may be combined in a single statement, provided such statement shows the minority interest separately and eliminates any interbank items within the group.

Statements of bank subsidiaries shall be prepared from and in substantially the same form as the "Reports of Condition" and the "Reports of Earnings and Dividends" prescribed by the Comptroller of the Currency or the Federal Reserve Board or the Federal Deposit Insurance Corporation. Such statements shall be accompanied by the schedules called for in such "Reports of Condition" except Schedules A, B, C, and D. The schedules required by this form in support of required financial statements as to unconsolidated subsidiaries need not be furnished as to any bank subsidiary. In case any bank subsidiary did not report to one of such Federal authorities, the financial data concerning such subsidiary shall be drawn from the reports required by its respective State authority, and shall be commensurate with that required concerning a subsidiary that does report to one of such Federal authorities. Each statement as to a bank subsidiary and each combined statement as to such subsidiaries shall be supplemented by an attached statement showing the following:

(1) Book value, and market or, if there is no market, appraised value, separately stated, of: (i) direct obligations of, and obligations fully guaranteed by, the United States Government; (ii) investments in affiliated companies principally engaged in holding banking premises or other real estate; and (iii) other bonds, stocks and securities.

(2) Estimated losses not elsewhere provided for on the following bank assets, separately stated: (i) loans and discounts; (ii) bank premises; (iii) other real estate; (iv) other assets.

(3) The total of loans and other advances to officers and directors of the registrant and security holders named in answer to Item 16 of the registration statement.

(c) No statements need be filed for unconsolidated subsidiaries of the registrant (other than bank subsidiaries) when the aggregate investments not consolidated are not significant in respect of (1) the assets they represent, and (2) the sales or operating revenues of such non-consolidated subsidiaries.

(d) The special requirements set forth in paragraphs (a), (b), and (c) above shall also be applied with respect to financial statements required for any bank or bank holding company the securities or business and assets of which have been or are to be acquired.

(e) In lieu of any schedule with respect to investments in affiliates otherwise required in support of the balance sheet of a bank holding company, there shall be furnished the two following schedules:

[See Schedules I (a) and I (b).[1]]

## DEPARTMENT OF AGRICULTURE.

Bureau of Animal Industry.

[Amendment 4 to Declaration No. 12]

DECLARING NAMES OF COUNTIES PLACED IN MODIFIED TUBERCULOSIS-FREE ACCREDITED AREAS

FEBRUARY 1, 1937.

In accordance with Section 2, of Regulation 7 of B. A. I. Order 309, as amended September 10, 1936, the following named counties, in the States named, are hereby declared "Modified Accredited Areas" until the date given opposite each county named.

California: Mendocino, February 1, 1940; Nevada, February 1, 1940.
New York: Erie, February 1, 1940; Rensselaer, February 1, 1940.
Puerto Rico: Luquillo, February 1, 1940.

In accordance with Section 2, of Regulation 7 of B. A. I. Order 309, as amended September 10, 1936,[1] the following named counties, in the States named, having completed the necessary retests for reaccreditation, are hereby continued in the status of "Modified Accredited Areas" until the date given opposite each county named.

Alabama: Lowndes, February 1, 1940.
Arkansas: Clay, February 1, 1940; Greene, February 1, 1940.
Georgia: Floyd, February 1, 1940; Greene, February 1, 1940; Hart, February 1, 1940; Pulaski, February 1, 1940.
Indiana: Noble, February 1, 1940.
Kentucky: Hancock, February 1, 1940; Harlan, February 1, 1940; Hopkins, February 1, 1940.
Maine: Waldo, February 1, 1940.
Michigan: Arenac, February 1, 1940; Huron, February 1, 1940.
Minnesota: Traverse, February 1, 1940; Wadena, February 1, 1940.
Mississippi: Oktibbeha, February 1, 1940.
Montana: Daniels, February 1, 1940.
North Carolina: Durham, February 1, 1940; Hoke, February 1, 1940.
Ohio: Washington, February 1, 1940.
Oklahoma: Oklahoma, February 1, 1940.
Pennsylvania: Carbon, February 1, 1940; Westmoreland, February 1, 1940.
Tennessee: Franklin, February 1, 1940.
Texas: Hood, February 1, 1940; Somervell, February 1, 1940.
West Virginia: Wirt, February 1, 1940.

Declaration No. 12, dated October 1, 1936, as amended, is hereby further amended accordingly.

J. R. MOHLER, *Chief of Bureau.*

## INTERSTATE COMMERCE COMMISSION.

ORDER

At a Session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 13th day of February A. D. 1937.

[Ex Parte No. MC 5]

IN THE MATTER OF SECURITY FOR THE PROTECTION OF THE PUBLIC AS PROVIDED IN THE MOTOR CARRIER ACT, 1935, AND OF RULES AND REGULATIONS GOVERNING THE FILING AND APPROVAL OF SURETY BONDS, POLICIES OF INSURANCE, QUALIFICATIONS AS A SELF-INSURER OR OTHER SECURITIES AND AGREEMENTS BY MOTOR CARRIERS AND BROKERS SUBJECT TO THE MOTOR CARRIER ACT, 1935

Rules and regulations governing the filing and approval of surety bonds, policies of insurance, qualifications as a self-insurer, or other securities and agreements prescribed by an order dated August 3, 1936, and relating to the matter of security for the protection of the public, being under consideration,

*It is ordered*, That said order of August 3, 1936, be, and it is hereby, modified so that until the further order of the Commission, the following shall not be required to comply with the rules and regulations prescribed in said order, to-wit:

(1) Carriers engaged in the transportation of passengers or property in interstate or foreign commerce wholly within a municipality or between contiguous municipalities or within a zone adjacent to and commercially a part of any such municipality or municipalities.
(2) Brokers.
(3) Forwarding companies.

That said order of August 3, 1936, shall be effective, except, as herein provided, from and after February 15, 1937.

By the Commission, division 5.

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of February A. D. 1937.

[File No. 37-17]

IN THE MATTER OF AMERICAN SERVICE COMPANY

NOTICE OF AND ORDER FOR HEARING

A declaration having been duly filed with this Commission, by American Service Company, a subsidiary company of American Utilities Service Corporation, a registered holding company, pursuant to Section 13 and Rule 13-22 of the Public Utility Holding Company Act of 1935, with respect to declarant's organization and conduct of business as a subsidiary service company for the American Utilities Service Corporation holding-company system;

It is ordered that a hearing on such matter be held on March 3, 1937, at ten o'clock in the forenoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 26, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

[File No. 31-326]

IN THE MATTER OF THE APPLICATION OF SOUTHEASTERN INDIANA CORPORATION

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Southeastern Indiana Corporation pursuant to Section 3 of the Public Utility Holding Company Act of 1935, for exemption from the provisions of said Act,

It is ordered that a hearing on such matter be held on March 4, 1937, at 10: 00 o'clock in the forenoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 27, 1937.

It is further ordered that John H. Small, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 12th day of February A. D. 1937.

[File No. 2-2708]

IN THE MATTER OF SUNSET MINES, INC.

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 3 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Sunset Mines, Inc. under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading.

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Saturday, February 20, 1937, at 10:30 o'clock in the forenoon, in Room 1103, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that Richard Townsend, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 12th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE SAMEDAN ET AL.-BATES FARM, FILED ON JANUARY 13, 1937, BY ARTHUR SORY, RESPONDENT

CONSENT TO WITHDRAWAL OF FILING OF OFFERING SHEET AND ORDER TERMINATING PROCEEDING

The Securities and Exchange Commission, having been informed by the respondent that no sales of any of the interests covered by the offering sheet described in the title hereof have been made, and finding, upon the basis of such information, that the withdrawal of the filing of the said offering sheet, requested by such respondent, will be consistent with the public interest and the protection of investors, consents to the withdrawal of such filing but not to the removal of the said offering sheet, or any papers with reference thereto, from the files of the Commission; and

It is ordered that the Suspension Order, Order for Hearing, and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same are hereby revoked and the said proceeding terminated.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 12th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE MILLS-BENNETT ET AL.-BASSINGER FARM, FILED ON JANUARY 22, 1937, BY SUPREME OIL INC., RESPONDENT

ORDER TERMINATING PROCEEDING AFTER AMENDMENT

The Securities and Exchange Commission, finding that the offering sheet filed with the Commission, which is the subject of this proceeding, has been amended, so far as necessary, in accordance with the Suspension Order previously entered in this proceeding;

It is ordered, pursuant to Rule 341 (d) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the amendment received at the office of the Commission on February 9, 1937, be effective as of February 9, 1937; and

It is further ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same hereby are revoked and the said proceeding terminated.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 12th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF AN OIL PAYMENT IN THE USHER CARSON FARM, FILED ON FEBRUARY 6, 1937, BY W. H. VERNOR, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

1. In that it appears from your offering sheet Items 1, 10 (b) (iii), 21 (a), Exhibit B, and elsewhere, and in the transmittal letter of February 2, 1937, that the securities described and proposed to be offered are not entitled to exemption from the registration requirements of the Securities Act of 1933, as amended, and the Rules and Regulations promulgated thereunder;

2. In that Items 5 (a) and (b) of Division II are omitted;

3. In that Items 5 (c) and (d) of Division II are non-responsive;

4. In that Items 9 (c) and (d) (iii) of Division II are non-responsive;

5. In that Item 12 of Division II is non-responsive;

6. In that Item 13 (a) of Division II is non-responsive;

7. In that Items 22 (a), (b) and (c) of Division II are non-responsive;

8. In that Item 26 (c) of Division II is non-responsive;

9. In that Items 27 and 28 of Division II are non-responsive;

10. In that Item 29 of Division II is omitted;

11. In that Exhibit A fails almost completely to meet the requirements;

12. In that Division III, page 12, is in conflict with Item 26 (e) of Division II respecting production from Usher Carson tract;

13. In that Division III conflicts with Items 25 and 26 of Division II respecting production from Well #16;

14. In that Division III does not give sufficient data to justify the production or drainage area of Well #16;

15. In that it is not shown where the 180 acres, claimed in Division III or Exhibit D–1 to be productive, is located;

16. In that the offering sheet in many other respects so far fails to comply with the Rules and Regulations promulgated under the Securities Act of 1933, as amended, requiring full and accurate disclosure of the information respecting the securities which apparently are being offered, as to deprive the person filing the said offering sheet of an exemption from registration requirements under the said Securities Act of 1933;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 13th day of March 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 26th day of February 1937 at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

### REVISION OF REGULATIONS

INVESTIGATIONS

18. When the above types of cases are received in the office of the Administrator, which have not come to the attention of the assistant administrators, or the solicitor, or the executive assistant to the administrator, or the chairman, board of veterans appeals primarily concerned with the question involved, they will be referred to the proper official for attention or report and recommendation. If the matter is merely referred for attention, it will be handled by the official to whom referred as an administrative problem, unless he desires a special audit, investigation, or inspection to be made, in which event he will make such recommendation to the Administrator. If the matter is referred for report and recommendation, the Administrator will determine whether a special audit, investigation; or inspection is in order. This will not be construed as modifying in any way the regulations, instructions, or recognized procedure with reference to the examination of cases by field examiners of the Veterans' Administration, except as specifically provided in subparagraphs (A), (B), (C), and (D) of R. & P. 17.

19 combined with 18.

20. Managers of Veterans' Administration regional offices, or facilities, will furnish stenographic and such other services as may be requested by central office investigators and at the time and points desired, within or without their respective territories, this order being cited as the authority for such action. Travel orders issued under this authority should be encumbered against station allotment and if necessary, request should be made immediately upon the budget officer and chief of statistics for funds to compensate station budget.

## DEPARTMENT OF AGRICULTURE.

### Bureau of Entomology and Plant Quarantine.

BEPQ—Q–63 Effective March 1, 1937

WHITE-PINE BLISTER-RUST QUARANTINE NO. 63

REVISION OF REGULATIONS

*Introductory Note*

The following revision of the white-pine blister-rust quarantine regulations adds Maryland, Ohio, Pennsylvania, and Wisconsin to the list of States which have established blister-rust control areas wherein both the planting and possession of current and gooseberry plants are prohibited under State authority.

The conditions under which Federal pine-shipping permits may be issued are modified so that permits may be granted to authorize the interstate movement of 5-leafed pines which have not been raised from seed under Ribes-free conditions when in the judgment of the Bureau of Entomology and Plant Quarantine there is little or no risk of such pines being involved in blister-rust infection.

The regulations pertaining to 5-leafed pines are also revised to prohibit their interstate movement when visibly infected with the white-pine blister-rust unless such trees are shipped in a preservative or are authorized and labeled under the provisions of regulation 7.

*Summary*

The infected States and District are designated as Connecticut, Idaho, Iowa, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Virginia, Washington, West Virginia, Wisconsin, and the District of Columbia. [Regulation 1 (*g*).]

*Pine Shipments*

These regulations require a Federal pine-shipping permit (see regulation 2, sec. A) for the shipment or transportation of 5-leafed pines from any infected State or District, except that in the case of shipments to or between the States of Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont, a control-area permit secured from the proper officer of the State of destination may, until further notice, be substituted for the Federal pine-shipping permit.

Pine-shipping permits are issued for pines grown from seed in a nursery which is protected from blister-rust infection by a Ribes-free zone around the premises. (See regulation 2, sec. B.)

Valid State nursery inspection certificates are also required as to all interstate movement of 5-leafed pines in the United States.

*Currant and Gooseberry Shipments*

The interstate movement of European black-currant plants (and plants of the wild native western species known as *Ribes bracteosum* and *R. petiolare*) is prohibited except to and between the States of Alabama, Arkansas, Florida, Kansas, Louisiana, Mississippi, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, and Texas. (See regulation 3–*a*.)

Currant and gooseberry plants shipped from any infected State or District must be either dormant and defoliated or else dipped in lime-sulphur solution (4.5° B.) *immediately before shipment.* (See regulation 3–*b*.)

The control-area provision is continued and is extended to Maryland, Ohio, Pennsylvania, and Wisconsin. Under that requirement a control-area permit must be secured from the State of destination for shipments of currant and gooseberry plants into those States which have legally established areas in which the growing of currant and gooseberry plants is prohibited. Such States are Connecticut, Idaho, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and Wisconsin. (See regulation 3–*c*.)

LEE A. STRONG,
*Chief, Bureau of Entomology and Plant Quarantine.*

### NOTICE OF QUARANTINE NO. 63

APPROVED AUGUST 27, 1926; EFFECTIVE OCTOBER 1, 1926, SUPERSEDES QUARANTINE NO. 26 AS AMENDED, AND QUARANTINE NO. 54 AS EXTENDED

I, C. F. Marvin, Acting Secretary of Agriculture, have determined that it is necessary to quarantine every State of the continental United States and the District of Columbia, in order to prevent the spread of the white-pine blister rust (*Cronartium ribicola* Fischer), a dangerous plant disease not heretofore widely prevalent or distributed within and throughout the United States.

Now, therefore, under authority conferred by the plant quarantine act of August 20, 1912 (37 Stat. 315), as amended by the act of Congress approved March 4, 1917 (39 Stat. 1134, 1165), and having duly given the public hearing required thereby, I do quarantine every State in the continental United States and the District of Columbia, effective on and after October 1, 1926. Hereafter, under the authority of said act of August 20, 1912, amended as aforesaid, no 5-leafed pines (*Pinus*) or current and gooseberry plants (*Ribes* and *Crossularia*, including cultivated or wild or ornamental sorts) shall be moved or allowed to be moved from any such State or from the District of Columbia into or through any other State in the continental United States or the District of Columbia, except in manner or method or under conditions prescribed in the rules and regulations supplemental hereto and in amendments thereof: *Provided,* That the restrictions of this quarantine and the rules and regulations supplemental hereto may be limited to the areas in a quarantined State now or hereafter designated by the Secretary of Agriculture as infected when said State shall have provided for and enforced such control measures with respect to such designated areas as, in the judgment of the Secretary of Agriculture, shall be deemed adequate to effect the control and prevent the spread of the white-pine blister rust: *Provided further,* That, for the enforcement of the restrictions under this quarantine on the interstate movement of 5-leafed pines and current and gooseberry plants, all interstate shipments of nursery stock or other plants shall be subject to inspection at place of shipment or destination or at any point en route, by duly authorized inspectors of the United States Department of Agriculture.

Done at the city of Washington this 27th day of August 1926.

Witness my hand and the seal of the United States Department of Agriculture.

C. F. MARVIN,
*Acting Secretary of Agriculture.*

### REVISED RULES AND REGULATIONS SUPPLEMENTAL TO NOTICE OF QUARANTINE NO. 63

APPROVED FEBRUARY 16, 1937; EFFECTIVE MARCH 1, 1937

*Regulation 1. Definitions*

For the purpose of these regulations the following words, names, and terms shall be construed, respectively, to mean:

(*a*) *White-pine blister rust, or blister rust.*—The fungous disease caused by *Cronartium ribicola* Fischer.

(*b*) *Five-leafed pines.*—Entire plants with roots, of the following species belonging to the genus Pinus:

American species:
- Ayacahuite pine (*P. ayacahuite* Ehrenb.).
- Bristle-cone pine (*P. aristata* Engelm.).
- Foxtail pine (*P. balfouriana* Murr.).
- Limber pine (*P. flexilis* James).
- Mexican white pine (*P. strobiformis* Engelm.).
- Sugar pine (*P. lambertiana* Dougl.).
- Western white or silver pine (*P. monticola* D. Don).
- White-bark pine (*P. albicaulis* Engelm.).
- White pine (northern) (*P. strobus* L.).

Foreign species:
- Balkan pine (*P. peuce* Griseb.).
- Chinese white pine (*P. armandi* Franch.).
- Himalayan or Bhotan pine (*P. excelsa* Wall.).
- Japanese white pine (*P. parviflora* Sieb. and Zucc.).
- Korean pine (*P. koraiensis* Sieb and Zucc.).
- Swiss stone pine (*P. cembra* L.).

(*c*) *Currant and gooseberry plants.*—Plants, cuttings, or scions, belonging to the genera *Ribes* L. and *Crossularia* (Tourn.) Mill., including cultivated or wild or ornamental sorts.

(*d*) *European black-currant plants.*—Plants, cuttings, stocks, scions, buds, fruits, seeds, or parts of plants of *Ribes nigrum* L.

(*e*) *Inspector.*—An inspector of the United States Department of Agriculture.

(*f*) *Dormant.*—In a nonvegetative state, with inactive buds.

(*g*) *Infected States and District.*—States and District designated by the Secretary of Agriculture as infected with white-pine blister rust, as follows: Connecticut, Idaho, Iowa, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Virginia, Washington, West Virginia, Wisconsin, and the District of Columbia.

(*h*) *Legally established blister-rust control-area.*—An area established under State authority wherein both the planting and possession of currant and gooseberry plants are prohibited for the purpose of protecting the 5-leafed pines on such area from damage by white-pine blister rust.

(*i*) *Moved or allowed to be moved interstate.*—Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved from one State or District of the United States into or through any other State or District.

*Regulation 2. Shipments of 5-Leafed Pines*

SECTION A. CONTROL OF MOVEMENT

(1) Five-leafed pines shall not be moved or allowed to be moved interstate from an infected State or District to any point outside thereof, unless a Federal pine-shipping permit has been issued therefor and is attached to the outside of the container, except that, in the case of shipments to or between the States of Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont, a control-area permit secured from the proper officer of the State of destination (see Appendix) may, until further notice be substituted for the Federal pine-shipping permit. The pine-shipping permit may specify a destination point or a limited destination area for the shipment, and in that event the pines covered thereby shall not be moved or allowed to be moved interstate, directly or indirectly, either in the original container or otherwise, to destinations other than those authorized in such permit.

(2) Five-leafed pines shall not be moved or allowed to be moved interstate from any State or District unless there is attached to the outside of the container thereof a valid State or District nursery inspection certificate of the State or District from which the shipment is made.

(3) Branches and other parts of 5-leafed pines without roots may be shipped interstate from any State or District without restriction under these regulations, except that if such articles are visibly infected with the white-pine blister rust, they must either be shipped in a preservative or be authorized and labeled under the provisions of regulation 7.

(4) Five-leafed pines with roots, when visibly infected with the white-pine blister rust, shall not be moved or allowed to be moved interstate from any State or District unless such pines are shipped in a preservative or are authorized and labeled under the provisions of regulation 7.

SECTION B. CONDITIONS GOVERNING THE ISSUANCE OF PERMITS

(5) Federal pine-shipping permits may be issued upon compliance with the following conditions:

(*a*) That the 5-leafed pines to be moved shall be grown from seed in a location within 1 mile of which there have existed since the time of planting said seed no European black currant plants and within at least 1,500 feet of which there have existed since the time of planting said seed no current or gooseberry plants of any size or variety which in the judgment of the inspector would involve risk of spread of the white-pine blister rust. A Ribes-free zone greater than 1,500 feet in width may be required when necessary in the judgment of the inspector to ensure freedom from infection. The requirement that the Ribes-free conditions described must have been maintained since the time of planting the seed may be waived in the case of premises which represent in the judgment of the Bureau of Entomology and Plant Quarantine little or no risk of being involved in blister-rust infection.

(*b*) That the owner of the nursery shall submit a signed application for a pine-shipping permit to the Bureau of Entomology and Plant Quarantine, giving the location of the premises upon which said pines will be grown and agreeing that no 5-leafed pines shall be grown in or distributed by any nursery or nurseries owned or controlled by the applicant except such as are maintained in compliance with the previous paragraph: *Provided*, That in the case of nursery properties under single ownership and management but represented by units widely separate, such units may be considered as independent nurseries and pine-shipping permits may be issued for one or more such individual units based on the certification requirements stated below when in the judgment of the inspector no risk of spread of white-pine blister rust is involved. The application required herein should preferably be filed before the seed are planted (in order to avoid disappointment and loss in case the premises are later found not to comply fully with the requirements of paragraph (*a*) above).

(*c*) That before shipment of said pines certification shall be made to the Bureau of Entomology and Plant Quarantine by an inspector showing that the nursery stock has been found to be free from white-pine blister rust and that the premises and the environs have been inspected annually and maintained as specified in paragraph (*a*) above.

(*d*) Permits for the reshipment of such pines certified under the conditions prescribed by paragraph (*c*) above may be issued to purchasers of such stock who do not grow 5-leafed pines upon receipt of an application and a signed agreement by the applicant agreeing to observe these regulations and the conditions under which the permit is issued.

*Regulation 3. Control of Movement of Currant and Gooseberry Plants*

(*a*) No European black currant plants (*Ribes nigrum*) and no plants of the wild native western species known as *R. bracteosum* and *R. petiolare* shall be moved or allowed to be moved interstate in the continental United States except into or within the area comprised in the States of Alabama, Arkansas, Florida, Kansas, Louisiana, Mississippi, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, and Texas.

(*b*) No current or gooseberry plants of any species or variety shall be moved or allowed to be moved interstate from an infected State or District unless they have either been dipped (except the roots) immediately prior to shipment in lime-sulphur solution of a strength of 4.5° B.[1] or are shipped in a dormant and defoliated condition. Such lime-sulphur dip shall be plainly visible on said plants and be easily detectable by odor, the judgment of the inspector to be final as to adequacy of the dip and as to the condition of the plants as to dormancy and defoliation.

(*c*) No current or gooseberry plants of any species or variety shall be moved or allowed to be moved interstate into any of the States of Connecticut, Idaho, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New York, Ohio, Pennsylvania, Rhode Island, Vermont, or Wisconsin, unless the container shall bear on the outside thereof a control-area permit issued by an inspector designated to act for the Bureau of Entomology and Plant Quarantine in such State. (See Appendix.) Such permits may be issued on condition that the plants are destined for points outside the legally established blister rust control areas of the States concerned.

(*d*) Except as provided in paragraphs (*a*) and (*c*) hereof, currant and gooseberry plants may be shipped from noninfected States to any destination without restriction under these regulations.

*Regulation 4. Marking Requirements*

(*a*) Every car, box, bale, or other container of articles for which certificates or permits are required by these regulations shall be plainly marked with the name and address of the consignor and the name and address of the consignee, and shall bear attached to the outside thereof the proper certificate or permit issued in compliance with regulation 2 or 3 hereof.

(*b*) The certificates or permits in the case of carload and other bulk shipments shall accompany the waybills, conductors' manifests, memoranda, or bills of lading pertaining to such shipments.

*Regulation 5. Provision for Inspection of Nursery Stock and Other Plants in Transit*

Any car, vehicle, box, bale, or other container moved interstate or offered to a common carrier for shipment interstate, which contains or which the inspector has probable cause to believe contains articles the movement of which is prohibited or restricted by these regulations, shall be subject to inspection by an inspector at any time or place.

*Regulation 6. Cancelation of Permits*

Permits issued under these regulations may be withdrawn or canceled and further permits refused, either upon determination of blister-rust infection on the premises on which the articles concerned are or have been located or for any failure of compliance with the conditions of these regulations or violation of them or of the permittee's agreement, or whenever in the judgment of the Bureau of Entomology and Plant Quarantine the further use of such permits might result in the dissemination of the white-pine blister rust. After any such permit is withdrawn or cancelled the further use of any permit tags issued thereunder is prohibited.

*Regulation 7. Shipments by the United States Department of Agriculture*

Articles subject to restriction in these regulations may be moved interstate by the United States Department of Agriculture for experimental, educational, or scientific purposes on such conditions and under such safeguards as may be prescribed by the Bureau of Entomology and Plant Quarantine. The container of articles so moved, except when shipped to or in care of the Inspection House, Bureau of Entomology and Plant Quarantine, Washington, D. C., shall bear, securely attached to the outside thereof, an identifying tag from the Bureau of Entomology and Plant Quarantine showing compliance with such conditions.

These revised rules and regulations shall be effective on and after March 1, 1937, and shall on that date supersede the rules and regulations promulgated September 10, 1932, as amended.

Done at the city of Washington this 16th day of February 1937.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL.]

H. A. WALLACE,
*Secretary of Agriculture.*

PENALTIES

The plant quarantine act of August 20, 1912 (37 Stat. 315), provides that no person shall ship or offer for shipment to any common carrier, nor shall any common carrier receive for transportation or transport, nor shall any person carry or transport from any quarantined State or Territory or District of the United States, or from any quarantined portion thereof, into or through any other State or Territory or District, any class of nursery stock or any other class of plants, fruits, vegetables, roots, bulbs, seeds, * * * or any other article * * * specified in the notice of quarantine * * * in manner or method or under conditions other than those prescribed by the Secretary of Agriculture. It also provides that any person who shall violate any of the provisions of this act or who shall forge, counterfeit, alter, deface, or destroy any certificate provided for in this act or in the regulations of the Secretary of Agriculture shall be deemed guilty of a misdemeanor and shall upon conviction thereof be punished by a fine not exceeding $500 or by imprisonment, not exceeding one year, or both such fine and imprisonment, in the discretion of the court.

[1] Prepare this solution by diluting 1 part of commercial concentrated lime-sulphur solution of 32° B. with 8 parts of water.

APPENDIX

STATES WHICH HAVE LEGALLY ESTABLISHED BLISTER-RUST CONTROL AREAS

The following States have legally established blister-rust control areas in which the planting and possession of currant and gooseberry plants is prohibited by State law or regulation. Before currant or gooseberry plants may be shipped into the States listed each shipment must bear a control-area permit (Form 415) from the officer named. Applications for such permits should state the kind of plants to be shipped and the names and addresses of the consignor and consignee. Permits will not be issued for the movement of prohibited plants into blister-rust control areas.

In the case of shipments of 5-leafed pines from infected States to or between the New England States and New York, regulation 2, A (1), provides that "a control-area permit secured from the proper officer of the State of destination may, until further notice, be substituted for the Federal pine-shipping permit" required as to all other interstate shipments from infected States. This provision is made to enable the State concerned to record the locations of pine planted therein in order that provision may be made for the protection of the pine by Ribes eradication around the areas in which such planting is done.

## INTERSTATE COMMERCE COMMISSION.

ORDER

At a Session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 13th day of February A. D. 1937.

[Ex Parte No. MC 5]

IN THE MATTER OF SECURITY FOR THE PROTECTION OF THE PUBLIC AS PROVIDED IN THE MOTOR CARRIER ACT, 1935, AND OF RULES AND REGULATIONS GOVERNING THE FILING AND APPROVAL OF SURETY BONDS, POLICIES OF INSURANCE, QUALIFICATIONS AS A SELF-INSURER OR OTHER SECURITIES AND AGREEMENTS BY MOTOR CARRIERS AND BROKERS SUBJECT TO THE MOTOR CARRIER ACT, 1935

Rules and regulations governing the filing and approval of surety bonds, policies of insurance, qualifications as a self-insurer, or other securities and agreements prescribed by an order dated August 3, 1936, and relating to the matter of security for the protection of the public, being under consideration;

*It is ordered*, That said order of August 3, 1936, be and it is hereby, modified so that until the further order of the Commission certificates of insurance issued in connection

with policies of insurance written as new business for a period of not more than one year, and effective between the first day of January 1937 and the thirty-first day of March 1937 may be filed for approval, and will be deemed to be in conformity with Rule VIII of the rules and regulations in said order providing:

(1) The insurance company issuing such policies is legally authorized to transact business in at least one state in which the insured operates, and has complied with all of the requirements of the order of the Commission dated August 3, as heretofore modified, other than Rule VIII, including those relating to the appointment of attorneys-in-fact for acceptance of service of process in states in which the insured operates but in which such company is not legally authorized to transact business, and provided, further, that each such company shall submit to the Commission not later than the twenty-eighth day of February 1937 evidence satisfactory to the Commission that subsequent to the first day of October 1936 and prior to the twelfth day of February 1937 it had on file with the Insurance Department (or other state authority having appropriate jurisdiction) of such states in which it is not authorized to write such insurance, an application to become licensed to transact, as the case may be, automobile bodily injury liability, property damage liability, or cargo liability classes of insurance business, on which it is awaiting the action of such State authority, or instead of such application it has entered into negotiations with other insurance companies licensed in each such state, or surety companies approved by the United States Treasury Department for the filing of policies (or certificates of insurance in lieu thereof) or surety bonds on behalf of its insureds covering such insureds' operations in such states when, in the judgment of the Commission, the evidence is such as to warrant the expectation, on its part, that the negotiations entered into with respect to such licensing or filing arrangements will be successfully consummated on or before the thirty-first day of March 1937.

(2) That renewals of policies on which the effective date of such policies is on or before the first day of October, 1936, and the expiration date is not later than the thirty-first day of March, 1937, may be filed for approval where the terms of such renewal policies is for a period of not more than one year, and the expiration date does not extend beyond the thirty-first day of March, 1938, provided, the insurance company issuing such renewal policies has complied with all the requirements of this Order, the rules and regulations of the Commission prescribed on the third day of August, 1936, and subsequent orders of the Commission dated October 3, and December 31, 1936.

By the Commission, division 5.

[SEAL] GEORGE B. MCGINTY, *Secretary.*

[F. R. Doc. 37-471; Filed, February 16, 1937; 12:11 p. m.]

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE HOUSEL-DRISCOLL FARM, FILED ON JANUARY 6, 1937, BY W. E. HOUSEL, RESPONDENT

CONSENT TO WITHDRAWAL OF FILING OF OFFERING SHEET AND ORDER TERMINATING PROCEEDING

The Securities and Exchange Commission, having been informed by the respondent that no sales of any of the interests covered by the offering sheet described in the title hereof have been made, and finding, upon the basis of such information, that the withdrawal of the filing of the said offering sheet, requested by such respondent, will be consistent with the public interest and the protection of investors, consents to the withdrawal of such filing but not to the removal of the said offering sheet, or any papers with reference thereto, from the files of the Commission; and

It is ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same are hereby revoked and the said proceeding terminated.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-473; Filed, February 16, 1937; 12:54 p. m.]

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE GULF-MANUEL FARM, FILED ON JANUARY 28, 1937, BY L. H. WITWER, RESPONDENT

CONSENT TO WITHDRAWAL OF FILING OF OFFERING SHEET AND ORDER TERMINATING PROCEEDING

The Securities and Exchange Commission, having been informed by the respondent that no sales of any of the interests covered by the offering sheet described in the title hereof have been made, and finding, upon the basis of such information, that the withdrawal of the filing of the said offering sheet, requested by such respondent, will be consistent with the public interest and the protection of investors, consents to the withdrawal of such filing but not to the removal of the said offering sheet, or any papers with reference thereto, from the files of the Commission; and

It is ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same are hereby revoked and the said proceeding terminated.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-474; Filed, February 16, 1937; 12:55 p. m.]

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 8th day of February A. D. 1937.

[File No. 2-2793]

IN THE MATTER OF STRATOPLANE CORPORATION

ORDER CONSENTING TO WITHDRAWAL OF REGISTRATION STATEMENT ON REQUEST OF APPLICANT AND DISMISSING STOP ORDER PROCEEDINGS

The Commission, having due regard to the public interest and the protection of investors, upon the request of the registrant received on February 5, 1937, consents to the withdrawal of the registration statement of the above named registrant, and the said registration statement being so withdrawn,

The Commission further dismisses a certain stop order proceeding under Section 8 (d) of the Securities Act of 1933, as amended, the said stop order proceeding having been heretofore on February 4, 1937, instituted and being until now pending with respect to the aforesaid registration statement; and to that effect

It is so ordered.

By direction of the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## TREASURY DEPARTMENT.

**Bureau of Customs.**

[T. D. 48806]

LUMBER—AMERICAN MANUFACTURER'S PROTEST

PROTEST AGAINST METHOD OF COMPUTING BOARD MEASURE FOR ASSESSMENT OF DUTY ON IMPORTED LUMBER DISMISSED

*To Collectors of Customs and Others Concerned:*

Reference is made to Treasury Decision 48036 of November 23, 1935, ordering the suspension of liquidations of entries covering lumber of the character described in Treasury Decision 47621 of April 5, 1935, pending the final decision on a protest filed under section 516 (b) of the Tariff Act of 1930 (U. S. C., title 19, sec. 1516 (b)).

In a decision of November 30, 1936 (Treasury Decision 48701), the United States Court of Customs and Patent Appeals affirmed the decision of the United States Customs Court (Treasury Decision 48161 of February 6, 1936), dismissing the above-mentioned protest. Treasury Decision 48036 is accordingly hereby revoked.

[SEAL] JAMES H. MOYLE, *Commissioner of Customs.*

Approved February 10, 1937.

JOSEPHINE ROCHE, *Acting Secretary of the Treasury.*

[F. R. Doc. 37-475; Filed, February 16, 1937; 2:00 p. m.]

[T. D. 48807]

EXAMINATION OF MERCHANDISE—SPECIAL REGULATION

THE EXAMINATION OF LESS THAN ONE PACKAGE OF EVERY TEN PACKAGES OF CERTAIN MERCHANDISE AUTHORIZED

FEBRUARY 12, 1937.

*To Collectors of Customs and Others Concerned:*

From the character and description of the merchandise named or described hereafter in this special regulation, I am of the opinion that the examination of less than one package of every ten packages of such merchandise covered by one invoice will amply protect the revenue, provided that such merchandise is:

(a) imported in packages, the contents and values of which are uniform, or

(b) imported in packages, the contents of which are identical as to character, although differing as to quantity and value per package.

Therefore, by virtue of the authority vested in the Secretary of the Treasury, including that conferred by sections 499 and 624 of the Tariff Act of 1930 (U. S. C., title 19, secs 1499 and 1624), I do by this special regulation permit and authorize, in the case of merchandise hereinafter named or described which is imported under either of the conditions above stated, a less number of packages than one package of every ten packages, but not less than one package of every invoice, to be examined:

Baskets
Canned corn beef
Canned fish
Chinaware
Earthenware
Floor coverings:
  Common straw matting
  Cocoa fibre
  Vegetable fibre
Glassware
Harmonicas
Rugs:
  Cotton
  Japanese straw
Wool of a kind which is conditionally free under paragraph 1101 of the tariff act.

This special regulation shall not be construed to preclude the examination of packages in addition to the minimum number hereby permitted to be examined if the collector or the appraiser shall deem it necessary that a greater number of packages be examined.

The number of this Treasury Decision should be noted as a marginal reference for article 307 of the Customs Regulations of 1931.

[SEAL] STEPHEN B. GIBBONS, *Acting Secretary of the Treasury.*

[T. D. 48808]

CUSTOMS REGULATIONS AMENDED—DIVERSION OF CARGO

*To Collectors of Customs and Others Concerned:*

Pursuant to authority contained in section 251 of the Revised Statutes (U. S. C., title 19, sec. 66) and section 624 of the Tariff Act of 1930 (U. S. C., title 19, sec. 1624), article 149 (n) of the Customs Regulations of 1931, published in T. D. 47959, is further amended to read as follows:

(n) When a vessel arriving at a port in a comptroller district files a manifest showing inward foreign cargo destined to another port in the same comptroller district and leaves such district without calling at the latter port, and such cargo, without having been diverted in such district, is subsequently diverted in another comptroller district, the collector to whom application for diversion is made shall promptly send a notice of the diversion to the comptroller of the first-mentioned district.

[SEAL] JAMES H. MOYLE, *Commissioner of Customs.*

Approved, February 9, 1937.

WAYNE C. TAYLOR, *Acting Secretary of the Treasury.*

[T. D. 48809]

CUSTOMS REGULATIONS AMENDED—PROOF OF LIQUORS

PROOF OF DISTILLED SPIRITS CONTAINING SACCHARIN OR OTHER NONVOLATILE SUBSTANCES SHALL BE ASCERTAINED AT CUSTOMS LABORATORIES

*To Collector of Customs and Others Concerned:*

Pursuant to authority contained in R. S. 2918 (U. S. C., title 19, sec. 390) and in paragraph 811 and section 624 of the Tariff Act of 1930 (U. S. C., title 19, sec. 1001, par. 811, and sec. 1624), article 1364 of the Customs Regulations of 1931, as amended by T. D. 48516, is further amended to read as follows:

ART. 1364. *Proof of distilled spirits.*—(a) The proof of distilled spirits shall be ascertained by the use of a United States hydrometer set which shall have been tested and approved by the National Bureau of Standards. Instructions relative to proofing as found in the Treasury Department Manual shall be followed.

(b) The proof of distilled spirits containing saccharin or other nonvolatile substances, such as whiskey blended with sherry wine, brandy with prune juice, gin with glycerin, etc., and cordials, liqueurs, and other spirits containing saccharin or other nonvolatile substances, cannot be determined accurately by the use of hydrometers. In these cases, samples of such liquors shall be sent to a customs laboratory for a report which shall show the true proof or percentage of alcohol, as may be required. [T. D. 48480.]

[SEAL] JAMES H. MOYLE, *Commissioner of Customs.*

Approved, February 10, 1937.

JOSEPHINE ROCHE, *Acting Secretary of the Treasury.*

[F. R. Doc. 37-482; Filed, February 16, 1937; 4:14 p. m.]

[T. D. 48810]

CUSTOMS REGULATIONS AMENDED—PLANT QUARANTINE.

TRANSMISSION TO COLLECTORS OF CUSTOMS BY THE IMPORTER OF NOTICES OF ARRIVAL OF PLANTS OR PLANT PRODUCTS.

*To Collectors of Customs and Others Concerned:*

Pursuant to the authority contained in section 251, Revised Statutes (U. S. C., title 19, sec. 66), and section 624 of the

Tariff Act of 1930 (U. S. C., title 19, sec. 1624), article 561(a)(2) of the Customs Regulations of 1931, is hereby amended to read as follows:

(2) The importer or his representative will submit to the collector at the port of first arrival for any type of entry, except rewarehouse and informal mail entries, a notice of arrival. For I. T. shipments a second notice will be submitted to the collector at the port of destination, and for diverted T. & E. shipments a second notice will be submitted to the collector at the port at which a change in entry is made. The collector at the port of arrival, as well as at destination, will compare the notice which he receives from the importer or his representative with the shipping documents, certify to its agreement therewith or note any discrepancies, and transmit it to the Secretary of Agriculture. The merchandise is not to be released until the said notice has been submitted.

Reference to Treasury Decision 48693 should be noted in the margin opposite article 560 (a).

The references to Treasury Decisions 33110 and 33247 appearing opposite article 564 (a), and Treasury Decision 39792 appearing opposite articles 559 (a) and (b) and 561 (a) are deleted. Reference to Treasury Decision 48728 should be inserted in lieu thereof in each case.

[SEAL] JAMES H. MOYLE,
*Commissioner of Customs.*

Approved, February 10, 1937.

JOSEPHINE ROCHE,
*Acting Secretary of the Treasury.*

[F. R. Doc. 37-480; Filed, February 16, 1937; 4:14 p. m.]

[T. D. 48811]

## CUSTOMS REGULATIONS AMENDED—DISPOSITION OF FORFEITED PROPERTY

ARTICLES 1108, 1110, AND 1111, CUSTOMS REGULATIONS OF 1931, AMENDED SO AS TO BRING THEIR PROVISIONS INTO HARMONY WITH REGULATIONS OF THE DIRECTOR OF PROCUREMENT PROMULGATED UNDER TITLE III, LIQUOR LAW REPEAL AND ENFORCEMENT ACT (U. S. C., TITLE 40, CH. 4), AS PUBLISHED IN TREASURY DECISION 48105.

*To Collectors of Customs and Others Concerned:*

Pursuant to the authority contained in section 624, Tariff Act of 1930 (U. S. C., title 19, sec. 1624), and in section 161 of the Revised Statutes of the United States (U. S. C., title 5, sec. 22), the Customs Regulations of 1931 are hereby amended as follows:

The caption of article 1108 is amended to read as follows:

Art. 1108. Award or sale of property summarily forfeited—Value not exceeding $1000.

Article 1108 is further amended by deleting paragraphs (b) and (c) and by substituting therefor the following:

(b) The declaration of forfeiture shall be noted on the report of seizure (customs Form 5955) and thereafter the property either will be delivered for official use or otherwise disposed of according to law. For the procedure relating to reports, requests for assignment, and disposition of forfeited property, see the regulations of the Director of Procurement, published as T. D. 48105.

(c) If the forfeited property is cleared for sale, it should be sold in accordance with the applicable provisions of Chapter XVIII of these regulations.

Article 1110 is amended by the insertion of the letter "(a)" following the caption, and by the addition of a new paragraph designated (b) and reading as follows:

(b) If the property has been authorized for official use, retention or delivery shall be regarded as the sale thereof for the purposes of the above-quoted section, and the appropriation available to the receiving agency for the purchase, hire, operation, maintenance, and repair of property of the kind so received is available for the granting of relief to the petitioner and for the satisfaction of liens for freight, charges, and contributions in general average that may have been filed. [U. S. C. title 40, secs. 304j-304k]

Article 1111 (b) is amended to read as follows:

(b) Expenses in connection with seizures and forfeitures shall be paid from the customs appropriation. In the event that the forfeited property has been authorized for transfer to another Federal agency for official use, the receiving agency shall reimburse said appropriation for the costs incurred for hauling, transporting, towing, and storage of such property from the date of seizure to the date of delivery. In case the property is cleared for sale, the customs appropriation shall be reimbursed from the proceeds of the sale for all expenses paid therefrom in connection with the seizure and forfeiture of such property [U. S. C. title 40, sec. 304j. T. Ds. 48762, 48105.]

[SEAL] JAMES H. MOYLE,
*Commissioner of Customs.*

Approved, February 10, 1937.

JOSEPHINE ROCHE,
*Acting Secretary of the Treasury.*

[F. R. Doc. 37-481; Filed, February 16, 1937; 4:14 p. m.]

[T. D. 48813]

## LICENSING OF VESSELS OF LESS THAN 30 NET TONS

REGULATIONS GOVERNING THE LICENSING OF VESSELS OF LESS THAN 30 NET TONS WHEN ENGAGED IN FOREIGN TRADE

*To Collectors of Customs and Others Concerned:*

Section 6 of the Anti-Smuggling Act of August 5, 1935, (U. S. C., (1934 ed., supp. I), title 19, sec. 1706), reads as follows:

Except into the districts adjoining to the Dominion of Canada, or into the districts adjacent to Mexico, no merchandise of foreign growth or manufacture subject to the payment of duties shall be brought into the United States from any foreign port or place, or from any hovering vessel, in any vessel of less than thirty net tons burden without special license granted by the Secretary of the Treasury under such conditions as he may prescribe, nor in any other manner than by sea, except by aircraft duly licensed in accordance with law, or landed or unladen at any other port than is directed by law, under the penalty of seizure and forfeiture of all such unlicensed vessels or aircraft and of the merchandise imported therein, landed or unladen in any manner. Marks, labels, brands, or stamps, indicative of foreign origin, upon or accompanying merchandise or containers of merchandise found upon any such vessel or aircraft, shall be prima facie evidence of the foreign origin of such merchandise.

Pursuant to the authority contained in the above quoted section, section 624, Tariff Act of 1930, (U. S. C., title 19, sec. 1624), and section 161 of the Revised Statutes of the United States (U. S. C., title 5, sec. 22), the following regulations are hereby prescribed:

The application for a license under the above quoted section of law shall be addressed to the Secretary of the Treasury and delivered to the collector of customs of the district in which are located the ports where foreign merchandise is to be imported.

The application shall be executed under oath or affirmation and shall contain the following information:

(1) Name of vessel, rig, motive power, and home port.
(2) Name and address of owner.
(3) Name and address of master.
(4) Net tonnage of vessel.
(5) Kind of merchandise to be imported.
(6) Country or countries of exportation.
(7) Ports of the United States where merchandise will be imported.
(8) Whether the vessel will be used to transport and import merchandise from a hovering vessel.
(9) Kind of document under which vessel is operating.

The collector will make inquiry into the character and reputation of the owner or master, or both, as the case may be, and for this purpose shall refer the application to the Customs Agency Service for verification, investigation, and report. The investigation should include, among other things, an inquiry as to whether the applicant or the vessel has previously been engaged in the violation of the customs or navigation laws.

The collector will transmit the application to the Bureau with his report and recommendation, which should include any special conditions believed necessary or desirable to be incorporated in the license. The Secretary of the Treasury will issue a license only if he is satisfied that the revenue will not be jeopardized thereby. The license will be issued in the name of the applicant and not in the name of the vessel. The original and one copy of the license, if granted, will be transmitted to the collector; the original to be delivered by him to the licensee, and the copy to be retained in the records of his office.

The master or owner shall keep the license on board the vessel at all times and exhibit it upon demand of any duly authorized officer of the United States. Said license is personal to the licensee and is not transferable.

The collector will report to the Bureau any violation of the terms of the license or any other conduct on the part of the licensee which may be deemed to warrant consideration looking to the revocation of the license.

The license is revocable at the discretion of the Secretary of the Treasury for any violation of its terms or for any cause which he considers inimical to the revenue or otherwise against the interests of the United States.

[SEAL] JAMES H. MOYLE,
*Commissioner of Customs.*

Approved, February 10, 1937.

JOSEPHINE ROCHE,
*Acting Secretary of the Treasury.*

## Public Health Service.

AMENDMENT NO. 14 TO THE QUARANTINE REGULATIONS OF THE UNITED STATES

BOARDING OF VESSELS BY PERSONS OTHER THAN THE QUARANTINE OFFICER, QUARANTINE EMPLOYEES, OR PILOTS

FEBRUARY 12, 1937.

Pursuant to the authority contained in section 3 of the Act of February 15, 1893, as amended (U. S. C., title 42, sec. 92), paragraph 39 of the quarantine regulations of the United States is amended to read as follows:

39. No person, except the quarantine officer, quarantine employees, or pilots, shall be permitted to board any vessel subject to quarantine inspection until after the vessel has been inspected by the quarantine officer and granted free pratique, except with the permission of the quarantine officer, and any person boarding such vessel shall, in the discretion of the quarantine officer, be subject to the same restrictions as those imposed on the personnel of the vessel.

[SEAL] JOSEPHINE ROCHE,
*Acting Secretary of the Treasury.*

## INTERSTATE COMMERCE COMMISSION.

ORDER

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 8th day of February A. D. 1937.

[No. 27655]

SOUTHERN CLASS RATES, 1937

Upon consideration of a petition filed September 25, 1936, by the Joint Conference of Southern State Commissioners and Shippers and of similar petitions filed by regulatory authorities of southern States, commercial organizations, and shippers praying that the Commission institute an investigation of the intraterritorial class rates in effect within southern territory, and upon consideration of communications from commercial organizations and shippers in official territory expressing the view that the interterritorial class rates now in effect between official and southern territories are unjust and unreasonable and urging that any investigation of the southern intraterritorial class rates should be broad enough to permit consideration of related interterritorial class rates in the same proceeding;

*It is ordered*, That a proceeding of investigation and inquiry be, and it is hereby, instituted by the Commission on its own motion into and concerning the interstate class rates and the charges resulting therefrom now in effect within southern territory and between southern territory and official territory, with a view to determining whether said rates are unjust, unreasonable, unduly prejudicial, unduly preferential or otherwise in violation of the Interstate Commerce Act, official territory being defined for the purpose of this proceeding as the same territory as that for which class rates were prescribed in *Eastern Class Rate Investigation*, 164 I. C. C. 314, and southern territory being defined as bounded on the north by the line of the Virginian Railway Company from Norfolk, Va., to Roanoke, Va., the line of the Norfolk and Western Railway Company between Roanoke and Kenova, W. Va., and the Ohio River between Kenova and Cairo, Ill., and on the west by the Mississippi River between Cairo and the Gulf of Mexico, including, however, west-bank Mississippi River gateways in Arkansas and Louisiana, *provided*, that this definition shall not be understood as bringing within the scope of the proceeding such class rates subject to official classification as now apply from, to, or between points in southern territory as herein defined.

*It is further ordered*, That the common carriers named in the appendix hereto[1] be, and they are hereby made respondents to the proceeding.

*And it is further ordered*, That this proceeding be assigned for hearing at such times and places as the Commission may hereafter direct.

By the Commission:

[SEAL] GEORGE B. MCGINTY, *Secretary.*

[F. R. Doc. 37-483; Filed, February 17, 1937; 11:59 a. m.]

## INVESTIGATION OF CLASS RATES TO, FROM AND WITHIN SOUTHERN TERRITORY

FEBRUARY 16, 1937.

*Notice to All Concerned:*

On September 25, 1936, there were filed with the Commission petitions of the Joint Conference of Southern State Commissioners and Shippers, the State regulatory commissions of various southern States, the Southern Traffic League, the North Carolina Traffic League, the South Side Virginia Just Freight Rate Association, and certain other commercial organizations and shippers, alleging that the present class rates within southern territory are unjust and unreasonable and praying that the Commission on its own motion institute an investigation into these class rates.

The Commission decided to grant the request, but having in mind the fact that the interterritorial class rates between official and southern territories were closely related in method of construction to the southern intraterritorial class rates and being aware of dissatisfaction with the interterritorial rates among a number of shippers, the Commission on November 20, 1936, issued a public notice inviting comments on the proposal of an investigation limited to the southern intraterritorial rates. A large number of communications in response to that notice were received. From these it appears that, although there is a difference of opinion as to the desirability of broadening the investigation to include the interterritorial rates, a considerable number of shippers particularly in official territory consider the present interterritorial rates unreasonable and might be adversely affected if changes were to be made in the intraterritorial rates without contemporaneous modification of the interterritorial rates. The Commission is of the view that such testimony as these shippers may wish to present in criticism of the interterritorial rates is highly germane to the question of the related intraterritorial rates, and that if it should be found that changes should be made in the latter rates it would be impossible to do complete justice without requiring a readjustment of the interterritorial rates at the same time. Accordingly, the investigation has been framed to include the interterritorial rates. Although this will necessarily result in a larger record than would probably

[1] Filed with the Division of the Federal Register, The National Archives; copies available upon application to Interstate Commerce Commission.

be involved in an investigation limited to the intraterritorial rates, it will obviate the possible necessity of a subsequent separate investigation of the interterritorial rates and thereby time will probably be saved in the long run.

In assigning this proceeding for hearing every effort will be made to serve the convenience of interested parties in both official and southern territories. It is probable that the opening hearing will be held in the latter territory, and that such hearing will be limited to evidence concerning intraterritorial rates.

[SEAL] GEORGE B. MCGINTY, *Secretary.*

[F. R. Doc. 37-484; Filed, February 17, 1937; 11:59 a. m.]

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 16th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE STANOLIND-MYERS FARM, FILED ON JANUARY 23, 1937, BY HARRY A. GEORGE, RESPONDENT

ORDER TERMINATING PROCEEDING AFTER AMENDMENT

The Securities and Exchange Commission, finding that the offering sheet filed with the Commission, which is the subject of this proceeding, has been amended, so far as necessary, in accordance with the Suspension Order previously entered in this proceeding;

It is ordered, pursuant to Rule 341 (d) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the amendment received at the office of the Commission on February 12, 1937, be effective as of February 12, 1937; and

It is further ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same hereby are revoked and the said proceeding terminated.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-485; Filed, February 17, 1937; 12:41 p. m.]

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 16th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE RICHFIELD-MALCOLM-DAVIS FARM, FILED ON FEBRUARY 10, 1937, BY ROYALTY GROUP CORPORATION, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

1. In that Item 32 of Division II appears to conflict with Item 36 (b) of Division II, which in turn is in conflict with Item 37 (vi) of Division II;

2. In that a copy of the trust agreement referred to in paragraph (a), Page #2, Exhibit B is not included with the offering sheet;

3. In that no disclosure of the legal validity of the agreement in paragraph (c), Page #2, Exhibit B is made in the offering sheet;

4. In that the statement in Item 3, paragraph 1, Division III that "there were not sufficient reliable data upon which to construct a decline curve" is not believed to be correct; the Richfield Oil Company at Los Angeles has the data;

5. In that on Page C-14 of Division III under "Relative Saturation" insufficient data are given to support the determination of, and it is not stated who determined, the factor used "at the time that the estimate of ultimate recovery of oil is made";

6. In that on Page C-14 of Division III it is stated that certain sand thicknesses in feet are given as determined from the log of the well. The figures used on Page C-13, Item 3, Division III are in conflict with the thickness given in Item 36 (d) of Division II. In comparison of the data in the items herein referred to it appears there is some confusion in the data shown in each place referred to respecting wells # 3 and 4;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 17th day of March 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Richard Townsend, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 2d day of March 1937 at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

ECR—B-4—Supplement (a) Issued February 18, 1937

1936 AGRICULTURAL CONSERVATION PROGRAM—EAST CENTRAL REGION

BULLETIN NO. 4—SUPPLEMENT (A)

*County Average Rate of Soil-Conserving Payment in Connection With the General Soil-Depleting Base for Dyer County, Tennessee*

Subsection (g) of Section 1 of East Central Region Bulletin No. 4 is hereby amended by changing the county average rate of payment per acre to be used in determining payments for each acre of the general soil-depleting base which in 1936 is used for the production of soil-conserving crops for Dyer County, Tennessee from $9.50 to $9.70. This change shall be effective as of May 29, 1936.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 18th day of February, 1937.

[SEAL] H. A. WALLACE, *Secretary of Agriculture.*

## FEDERAL HOME LOAN BANK BOARD.

BANK RULES AND REGULATIONS AMENDMENT

ADVANCES TO MEMBERS

Be it resolved, That pursuant to authority vested in the Federal Home Loan Bank Board by Section 17 of the Federal Home Loan Bank Act (12 U. S. C. 1437), paragraph (7) of Section 42 of the Rules and Regulations for Federal Home Loan Banks is hereby amended to read as follows:

(7) Regulations: The Banks may make advances to members on the security of home mortgages as provided in Section 10 of the Act, for periods not to exceed ten years; provided that advances for periods exceeding one year shall be repaid at least 10% annually on a monthly or quarterly amortization basis, unless other terms of repayment are authorized by the Board.

Adopted by the Federal Home Loan Bank Board on February 10, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[F. R. Doc. 37-487; Filed, February 17, 1937; 2:19 p. m.]

BANK RULES AND REGULATIONS AMENDMENT

REPAYMENT OF ADVANCES

Be it resolved, That pursuant to authority vested in the Federal Home Loan Bank Board by Section 17 of the Federal Home Loan Bank Act (12 U. S. C. 1437), paragraph (7) of Section 43 of the Rules and Regulations for Federal Home Loan Banks is hereby amended to read as follows:

(7) Regulations: Banks may make advances to members on the security of obligations of the United States as provided in Section 10 of the Act, for periods not to exceed one year shall be repaid at least 10% annually on a monthly or quarterly amortization basis, unless other terms of repayment are authorized by the Board.

Adopted by the Federal Home Loan Bank Board on February 10, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[F. R. Doc. 37-488; Filed, February 17, 1937; 2:19 p. m.]

BANK RULES AND REGULATIONS

AMENDMENT

Be it resolved, That pursuant to authority vested in the Federal Home Loan Bank Board by Section 17 of the Federal Home Loan Bank Act (12 U. S. C. 1437), Section 41 of the Rules and Regulations for Federal Home Loan Banks is hereby amended by striking paragraph (7) thereof; that Section 42 thereof is hereby amended by striking paragraph (8) thereof; and that Section 43 thereof is hereby amended by striking paragraph (8) thereof.

Adopted by the Federal Home Loan Bank Board on February 10, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[F. R. Doc. 37-489; Filed, February 17, 1937; 2:19 p. m.]

BANK RULES AND REGULATIONS AMENDMENT

DEFINITION OF INVESTMENTS

Be it resolved, That pursuant to authority vested in the Federal Home Loan Bank Board by Section 17 of the Federal Home Loan Bank Act (12 U. S. C. 1437), paragraph (4) of Section 32 (c) of the Rules and Regulations for Federal Home Loan Banks is hereby amended to read as follows:

(4) Advances on the security of home mortgages or obligations of the United States with a maturity of not to exceed one year, which are made to members may be deemed investments in compliance with Section 11 (g) of the Act.

Adopted by the Federal Home Loan Bank Board on February 10, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[F. R. Doc. 37-490; Filed, February 17, 1937; 2:19 p. m.]

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 15th day of February, A. D. 1937.

Commissioners: William A. Ayres, Chairman; Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[Docket No. 2952]

IN THE MATTER OF MAURICE WILLENS, AN INDIVIDUAL, DOING BUSINESS UNDER THE FIRM NAME AND STYLE OF MUSHROOM GROWERS OF AMERICA

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission under an Act of Congress (38 Stat. 717; 15 U. S. C. A., Section 41),

It is ordered that William C. Reeves, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered that the taking of testimony in this proceeding begin on Saturday, February 20, 1937 (eastern standard time), in room 424, Federal Trade Commission, 815 Connecticut Avenue NW., Washington, D. C.

Upon completion of testimony for the Federal Trade Commission, the examiner is directed to proceed immediately to take testimony and evidence on behalf of the respondent. The examiner will then close the case and make his report.

By the Commission:

[SEAL] OTIS B. JOHNSON, *Secretary.*

[F. R. Doc. 37-491; Filed, February 18, 1937; 11:44 a. m.]

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 17th day of February, A. D., 1937.

[File No. 2-2562]

IN THE MATTER OF HUMBOLDT MINES, INCORPORATED

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Humboldt Mines, Incorporated, under the Securities Act of 1933, as amended, includes untrue statements of material

facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading.

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Thursday, February 25, 1937, at 10 o'clock in the forenoon, in Room 1103, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that Richard Townsend, an officer of the Commission be, and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-493; Filed, February 18, 1937; 12:39 p. m.]

*Saturday, February 20, 1937* *No. 35*

## PRESIDENT OF THE UNITED STATES.

### EXECUTIVE ORDER

INCREASING AMOUNTS AVAILABLE FOR PUBLIC PROJECTS UNDER EMERGENCY RELIEF APPROPRIATION ACT OF 1936

By virtue of and pursuant to the authority vested in me under the Emergency Relief Appropriation Act of 1936 (49 Stat. 1608), and in order to effectuate the purposes of the appropriation made by that Act, it is ordered that the amounts specified in the second paragraph of the Act as available for the several classes of public projects therein enumerated, be, and they are hereby, increased proportionately in the aggregate amount of $124,500,000, this being the amount of the unexpended balances of funds heretofore transferred to that appropriation from the funds appropriated and made available by the Emergency Relief Appropriation Act of 1935, so that the amounts available under the Emergency Relief Appropriation Act of 1936, as modified by Executive Orders No. 7469 of October 13, 1936, and No. 7512 of December 16, 1936, and as increased in the amount of $789,000,000 by the First Deficiency Appropriation Act, fiscal year 1937, approved February 9, 1937 (Public No. 4, 75th Cong., 1st Sess.), shall be, for the several classes of public projects enumerated in the said paragraph, as follows:

| | |
|---|---|
| (a) Highways, roads and streets | $678,165,000 |
| (b) Public buildings | 244,410,000 |
| (c) Parks and other recreational facilities, including buildings therein | 257,235,000 |
| (d) Public utilities, including sewer systems, water supply and purification, airports, and other transportation facilities | 254,970,000 |
| (e) Flood control and other conservation | 210,465,000 |
| (f) Assistance for educational, professional, and clerical persons | 153,135,000 |
| (g) Women's projects | 153,135,000 |
| (h) Miscellaneous work projects | 116,925,000 |
| (i) National Youth Administration | 116,925,000 |
| (j) Rural rehabilitation, loans, and relief to farmers and livestock growers | 153,135,000 |

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
*February 17, 1937.*

[No. 7553]

[F. R. 37-495; Filed, February 18, 1937; 3:07 p. m.]

### EXECUTIVE ORDER

AMENDMENT OF SECTION 1 OF EXECUTIVE ORDER NO. 7180 OF SEPTEMBER 6, 1935, PRESCRIBING RULES AND REGULATIONS GOVERNING THE MAKING OF LOANS BY THE PUERTO RICO RECONSTRUCTION ADMINISTRATION UNDER THE EMERGENCY RELIEF APPROPRIATION ACT OF 1935

By virtue of and pursuant to the authority vested in me by the Emergency Relief Appropriation Act of 1935, approved April 8, 1935 (49 Stat. 115), I hereby amend section 1 of Executive Order No. 7180 of September 6, 1935, prescribing rules and regulations governing the making of loans by the Puerto Rico Reconstruction Administration under the Emergency Relief Appropriation Act of 1935 (Regulation No. 8), to read as follows:

"Section 1. Loans may be made by the Puerto Rico Reconstruction Administration (a) for the purpose of financing, in whole or in part, the purchase of farm lands and necessary equipment by farmers, farm tenants, croppers, farm laborers, or stockmen, and (b) for such other purposes as may be necessary for rural rehabilitation or relief in stricken agricultural areas."

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,

[F. R. Doc. 37-496; Filed, February 18, 1937; 3:07 p. m.]

### EXECUTIVE ORDER

WITHDRAWAL OF LAND FOR FOREST ADMINISTRATIVE SITE

*California*

By virtue of and pursuant to the authority vested in me by the act of June 25, 1910, ch. 421, 36 Stat. 847, as amended by the act of August 24, 1912, ch. 369, 37 Stat. 497, it is ordered as follows:

SECTION 1. Executive Order No. 6910 of November 26, 1934, as amended, temporarily withdrawing all public lands in certain States for classification and other purposes, is hereby revoked as to the following-described tract of public land in California:

MOUNT DIABLO MERIDIAN

T. 29 N., R. 2 E., sec. 6, lot 18, 36.20 acres.

SECTION 2. Subject to valid existing rights, the tract of land described in section 1 of this order is hereby temporarily withdrawn from settlement, location, sale or entry, and reserved for use by the Forest Service of the Department of Agriculture as an administrative site in connection with the administration of the Lassen National Forest.

SECTION 3. The withdrawal made by section 2 of this order shall remain in force until revoked by the President or by act of Congress.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
*February 17, 1937.*

[No. 7555]

[F. R. Doc. 37-497; Filed, February 18, 1937; 3:07 p. m.]

### EXECUTIVE ORDER

EXCLUDING CERTAIN TRACTS OF LAND FROM TONGASS NATIONAL FOREST AND RESTORING THEM TO ENTRY

*Alaska*

By virtue of and pursuant to the authority vested in me by the act of June 4, 1897, 30 Stat. 11, 36 (16 U. S. C., sec. 473), and upon the recommendation of the Secretary of Agriculture, it is ordered that the following-described tracts of land in Alaska, occupied as homesites and identified by elimination surveys, plats and field notes of which are on file in the General Land Office, Washington, D. C., be, and they are hereby, excluded from the Tongass National Forest and restored to entry under the applicable public-land laws:

Homesite No. 120, lot "A", Mud Bay group, Tongass Highway, Revillagigedo Island, 5 acres; approximate latitude 55°24' N., longitude 131°44'30" W.;

Homesite No. 137, lot "C", Mud Bay group, Tongass Highway, Revillagigedo Island, 4.91 acres; approximate latitude 55°24'15" N., longitude 131°45' W.;

Homesite No. 156, Fritz Cove group, Fritz Cove Highway, on Auke Bay, 5 acres; approximate latitude 58°25'29" N., longitude 134°38'30" W.;

Homesite No. 227, lot "O", Mud Bay group, Tongass Highway, Revillagigedo Island, 2.56 acres; approximate latitude 55°25'15" N., longitude 131°46'10" W.;

Homesite No. 321, lot "S", Wrangell group, Wrangell Highway, Wrangell Island, 3.94 acres; approximate latitude 56°26' N., longitude 132°22' W.;

Homesite No. 422, lot "T", Triangle group, Glacier Highway, Auke Lake Truck Trail, in the vicinity of Auke Bay, 3.65 acres; approximate latitude 58°22'50" N., longitude 134°38' W.;

Homesite No. 428, lot "B", Herring Bay group, Tongass Highway, on George Inlet, Revillagigedo Island, 4.35 acres; approximate latitude 55°19'30" N., longitude 131°31'30" W.;

Homesite No. 429, lot "P", Mud Bay group, Tongass Highway, Revillagigedo Island, 1.85 acres; approximate latitude 55°25'16" N., longitude 131°46'20" W.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

NER—B-101—Connecticut—Supp. (1) Issued February 19, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—CONNECTICUT—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin 101—Connecticut is hereby amended by the addition of the following provisions.

The practice numbers given in this supplement correspond to the numbers of the soil-building practices set out in Bulletin No. 101—Connecticut, and the matter appearing below under the heading "Description of Practice" is in addition to that prescribed under such heading in Bulletin No. 101—Connecticut.

*Practice Number and Description of Practice*

LIME

1. Ground limestone is limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

Part VI, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized, in instructions issued by the State committee, as conforming to good farming practice under the circumstances, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) finding of facts made by the State committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 19th day of February, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-503; Filed, February 19, 1937; 12:35 p. m.]

NER—B-101—Maine—Supplement (1) Issued February 19, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—MAINE—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Maine is hereby amended by the addition of the following provisions.

The practice numbers given in this supplement correspond to the numbers of the soil-building practices set out in Bulletin No. 101—Maine, and the matter appearing below under the heading "Description of Practice" is in addition to that prescribed under such heading in Bulletin No. 101—Maine.

*Practice Number and Description of Practice*

LIMING

1. Ground limestone is limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

The equivalent of 100 pounds of ground limestone is 75 pounds of agricultural hydrated lime (land lime) or other approved material.

FERTILIZING CONSERVING CROPS

The limits on the number of pounds of plant food per acre for which payment is allowed are as follows:

| | Smallest amount (pounds) | Largest amount (pounds) |
|---|---|---|
| When fertilizer is applied as top-dressing on hay land, pasture, or orchard sods: | | |
| Complete fertilizer | 57 | 192 |
| Nitrogen on pasture and orchard sods | 16 | 32 |
| Nitrogen on hay land sods | 16 | 24 |
| Phosphoric acid, with or without manure | 40 | 80 |
| Potash with or without manure | 50 | 80 |
| When fertilizer is applied to land in preparation for new seedings of soil-conserving crops: | | |
| Potash | 20 | 40 |
| Phosphoric acid, when there is no nurse crop, or the nurse crop is not harvested for grain | 40 | 80 |
| Phosphoric acid, when nurse crop is harvested for grain (no payment for first 32 pounds) | 40 | 80 |
| When fertilizer is applied to land in preparation for green-manure crops: | | |
| Phosphoric acid | 40 | 80 |
| Potash | 20 | 40 |
| Complete fertilizer (with nonleguminous crops only) | 57 | 100 |
| When superphosphate is applied to animal manure as reinforcement and preservative | (1) | (1) |

[1] Not less than 15 pounds or more than 35 pounds of 20% superphosphate (or its equivalent) per ton of manure.

The manure so treated must be applied so that the application of phosphoric acid in the manure will conform to the requirements outlined under the heading "Fertilizing Conserving Crops."

Part VIII, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized, in instructions issued by the State committee, as conforming to good farming practice under the circumstances, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) finding of facts made by the State committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 19th day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-502; Filed February 19, 1937; 12:35 p. m.]

---

NER—B-101—New Hampshire—Supp. (1) Issued February 19, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—NEW HAMPSHIRE—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin 101—New Hampshire is hereby amended by the addition of the following provisions.

The practice numbers given in this supplement correspond to the numbers of the soil-building practices set out in Bulletin No. 101—New Hampshire, and the matter appearing below, under the heading "Description of Practice", is in addition to that prescribed under such heading in Bulletin No. 101—New Hampshire.

*Practice Number and Description of Practice*

LIMING

1. 2,000 pounds of ground limestone is the equivalent of 1,500 pounds of hydrated lime, or of other approved material.

Ground limestone is limestone which analyzes 80 percent carbonates, 90 percent of which will pas through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

FERTILIZING CONSERVING CROPS

The maximum application of available phosphoric acid or potash for which payment will be made is 100 pounds per acre.

*Part V, "Definitions"*, is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized, in instructions issued by the State committee, as conforming to good farming practice under the circumstances, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) finding of facts made by the State committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 19th day of February, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

---

NER—B-101—New Jersey—Supp. (1) Issued February 19, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—NEW JERSEY—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin 101—New Jersey is hereby amended by the addition of the following provisions.

The practice numbers given in this supplement correspond to the numbers of the soil-building practices set out in Bulletin No. 101—New Jersey, and the matter appearing below, under the heading "Description of Practice", is in addition to that prescribed under such heading in Bulletin No. 101—New Jersey.

*Practice Number and Description of Practice*

LIMING

9. The equivalent of 2,000 pounds of ground limestone is either 2,000 pounds of ground oyster shell or 1,400 pounds of hydrated lime, or other approved material.

Ground limestone is limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20 mesh sieve and 50 percent of which will pass through a 100 mesh sieve.

FERTILIZING CONSERVING CROPS

10. Payment will be limited to applications of from 16 to 96 pounds of available phosphoric acid per acre.

11. Payment will be limited to applications of from 7½ to 75 pounds of available potash per acre.

12. Payment will be limited to applications of not more than 24 pounds of available nitrogen per acre to hayland and not more than 32 pounds of available nitrogen per acre for any other approved use.

Part V, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized, in instructions issued by the State committee, as conforming to good farming practice under the circumstances, based upon (a) recommendations contained in the most recent official reports of bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) finding of facts made by the State committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 19th day of February 1937.

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—VERMONT—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Vermont is hereby amended by the addition of the following provisions.

The practice numbers given in this supplement correspond to the numbers in Bulletin No. 101—Vermont, and the matter appearing below under the heading "Description of Practice" is in addition to that prescribed under such heading in Bulletin No. 101—Vermont.

*Practice Number and Description of Practice*

LIMING

1. Ground limestone is limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

Approved equivalents of ground limestone are given below:

| Ground limestone (pounds) | Hydrated lime (pounds) | Quick lime (pounds) | Waste lime (pounds)[1] | Wet marl (pounds) | Wood ashes (pounds)[1] |
|---|---|---|---|---|---|
| 1,000 | 750 | 550 | 1,000 | 1,400 | 1,500 |
| 2,000 | 1,500 | 1,100 | 2,000 | 2,800 | 3,000 |
| 3,000 | 2,250 | 1,650 | 3,000 | 4,200 | 4,500 |
| 4,000 | 3,000 | 2,200 | 4,000 | 5,600 | 6,000 |
| 5,000 | 3,750 | 2,750 | 5,000 | 7,000 | 7,500 |
| 6,000 | 4,500 | 3,300 | 6,000 | 8,400 | 9,000 |

[1] If materials are wet add 40% to figures.

FERTILIZING CONSERVING CROPS

The rates per acre for applying nitrogen, phosphoric acid, and potash in combination for top-dressing various crops on various types of soil, or for application in preparation for seeding grasses or legumes, are given below:

*(a) On Clay Loam, Silt Loam, or Loam*

| | | | | |
|---|---|---|---|---|
| Hay | 400–500 | 4-6 | 8-20 | 10-20 |
| Permanent pasture | 500–525 | 4-6 | 8-20 | 10-20 |
| Green manure | 400–500 | 4-6 | 8-20 | 10-20 |

*(b) On Sands or Sandy Loam*

| Crop | Pounds fertilizer per acre | Percent nitrogen | Percent phosphoric acid | Percent potash |
|---|---|---|---|---|
| Hay | 300–400 | 4-6 | 8-20 | 6-10 |
| Permanent pasture | 400–500 | 4-6 | 8-20 | 6-10 |
| Green manure | 300–400 | 4-6 | 8-20 | 6-10 |

2. When used to preserve and reinforce farm manure, not less than one pound of 16% or 20% superphosphate per mature cow per day shall be used in the gutter.

The minimum rates of application of phosphoric acid for various crops on various types of soil, when used at the time of seeding down or for top-dressing, are given below:

*(a) On Clay Loam, Silt Loam, or Loam*

| Crop | Pounds of 16% superphosphate per acre | Crop | Pounds of 16% superphosphate per acre |
|---|---|---|---|
| Alfalfa | 400 | Permanent pasture (seeding down) | 300 |
| Clover and timothy | 300 | Green manure | 300 |
| Permanent pasture (top-dressing) | 600 | | |

*(b) On Sands or Sandy Loam*

| Crop | Pounds of 16% superphosphate per acre | Crop | Pounds of 16% superphosphate per acre |
|---|---|---|---|
| Alfalfa | 500 | Permanent pasture (seeding down) | 400 |
| Clover and timothy | 400 | Green manure | 400 |
| Permanent pasture (top-dressing) | 600 | | |

3. The minimum rates of application of potash to various crops on various soils, when used at the time of seeding down or as top-dressing, are given below:

*(a) On Clay Loam, Silt Loam, or Loam*

| Crop | Pounds of 50% potash fertilizer per acre | Crop | Pounds of 50% potash fertilizer per acre |
|---|---|---|---|
| Alfalfa | 100 | Permanent pasture (seeding down) | 100 |
| Clover and timothy | 75 | Green manure | 75 |
| Permanent pasture (top-dressing) | 100 | | |

*(b) On Sands or Sandy Loam*

| Crop | Pounds of 50% potash fertilizer per acre | Crop | Pounds of 50% potash fertilizer per acre |
|---|---|---|---|
| Alfalfa | 150 | Permanent pasture (seeding down) | 150 |
| Clover and timothy | 100 | Green manure | 100 |
| Permanent pasture (top-dressed) | 150 | | |

4. The minimum rates of application for top-dressing various crops on various soils are given below:

*(a) Applying Nitrogen Alone*

| Crops | Pounds of 16% nitrogen fertilizer per acre | Crops | Pounds of 16% nitrogen fertilizer per acre |
|---|---|---|---|
| Alfalfa | None | Permanent pasture (for early grazing) | 200 |
| Clover and timothy | None | Green manure | 200 |
| Grass meadows | 100 | | |
| Grass pastures | 200 | | |

Part V, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized, in instructions issued by the State committee, as conforming to good farming practice under the circumstances, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture,

the State agricultural experiment station, or the State agricultural college, or (b) finding of facts made by the State committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 19th day of February, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-498; Filed, February 19, 1937; 12:34 p. m.]

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 16th day of February, A. D. 1937.

Commissioners: William A. Ayres, Chairman, Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[Docket No. 2622]

IN THE MATTER OF C. E. TREES AND COMPANY, INC., A CORPORATION

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission, under an Act of Congress (38 Stat. 717; 15 U. S. C. A., Section 41),

It is ordered that John J. Keenan, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered that the taking of testimony in this proceeding begin on Friday, February 26, 1937, at ten o'clock in the forenoon of that day (eastern standard time), in room 921, Federal Building, Detroit, Michigan.

Upon completion of testimony for the Federal Trade Commission, the examiner is directed to proceed immediately to take testimony and evidence on behalf of the respondent. The examiner will then close the case and make his report.

By the Commission:

[SEAL] OTIS B. JOHNSON, *Secretary.*

[F. R. Doc. 37-494; Filed, February 18, 1937; 2:02 p. m.]

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 18th day of February, A. D. 1937.

[File No. 47-7]

IN THE MATTER OF LACLEDE POWER & LIGHT COMPANY

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Laclede Power & Light Company, a subsidiary company of Utilities Power & Light Corporation, a registered holding company, pursuant to Section 10 (a) (2) of the Public Utility Holding Company Act of 1935, for approval of the acquisition by applicant of a leasehold interest in certain utility assets, to-wit: the electric generating plant and properties pertaining thereto located at Granite City, Illinois, now held by George B. Evans as Trustee of St. Louis Gas & Coke Corporation, and presently to be transferred to Granite City Generating Company, a corporation to be organized, and by such corporation leased to applicant;

It is ordered that a hearing on such matter be held on March 4, 1937, at 2:30 o'clock in the afternoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 27, 1937.

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-504; Filed, February 19, 1937; 12:42 p. m.]

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 17th day of February, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE MANNING-BRYSON-YORK ET AL. FARM, FILED ON JANUARY 28, 1937, BY R. H. MANNING & COMPANY, RESPONDENT

ORDER FOR CONTINUANCE

The Securities and Exchange Commission, having been requested by its counsel for a continuance of the hearing in the above entitled matter, which was last set to be heard at 10:00 o'clock in the forenoon on the 18th day of February, 1937, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and it appearing proper to grant the request;

It is ordered, pursuant to Rule VI of the Commission's Rules of Practice under the Securities Act of 1933, as amended, that the said hearing be continued to 10:00 o'clock in the forenoon on the 5th day of March, 1937, at the same place and before the same trial examiner.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-506; Filed, February 19, 1937; 12:42 p. m.]

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 18th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF AN OVER-RIDING ROYALTY INTEREST IN THE TEXAS-CALIFORNIA-WILSON CREEK DOME, FILED ON FEBRUARY 12, 1937, BY WILLIAM C. RUSSELL, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that Item 11, Division II, omits exact location of proposed well;

(2) In that Item 13, Division II, omits the date the first well is to be commenced;

(3) In that Exhibit A fails to comply with the requirements of the regulations in that it does not show a legend of symbols; is not dated; the scale is not given, and the location of the proposed well is not shown;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 13th day of March, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 4th day of March, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 17th day of February, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE GULF-GOLDSMITH FARM, FILED ON FEBRUARY 11, 1937, BY ARTHUR SORY, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that in Division III, Item 3, it is not fully explained how the estimate of approximately 8,960 productive acres was determined;

(2) In that in Division III, Item 3, it is not fully explained how the "established water table" was determined;

(3) In that in Division III, Item 3, the "data available at this time", on which there is based a maximum of 145 feet from the highest pay datum to the water estimated at minus 1066 are not fully explained;

(4) In that in Division III, Item 3, it has not been fully shown that the use of an average yield per acre of 20,000 barrels for Hobbs is proper;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 18th day of March, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 3rd day of March, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

## PRESIDENT OF THE UNITED STATES.

EXECUTIVE ORDER

AMENDMENT OF EXECUTIVE ORDER NO. 7530 OF DECEMBER 31, 1936, TRANSFERRING FUNCTIONS, FUNDS, PROPERTY, ETC., OF THE RESETTLEMENT ADMINISTRATION TO THE SECRETARY OF AGRICULTURE

By virtue of and pursuant to the authority vested in me under Title II of the National Industrial Recovery Act, approved June 16, 1933 (48 Stat. 200), the Emergency Relief Appropriation Act of 1935, approved April 8, 1935 (49 Stat. 115), and the Emergency Relief Appropriation Act of 1936, approved June 22, 1936 (49 Stat. 1608), it is ordered that the second paragraph of Executive Order No. 7530 of December 31, 1936,[1] transferring the functions, funds, property, etc., of the Resettlement Administration to the Secretary of Agriculture, be, and it is hereby, amended to read as follows:

All the powers, functions, and duties heretofore vested in the Resettlement Administration by Executive Order No. 7027 of April 30, 1935 (as amended by Executive Order No. 7200 of September 26, 1935), Executive Order No. 7028 of April 30, 1935, and Executive Order No. 7041 of May 15, 1935, are hereby transferred to the Secretary of Agriculture, to be exercised and performed by him; and all funds, personnel, property, records, and equipment

[1] 2 F. R. 7.

of the Resettlement Administration are hereby transferred to the Department of Agriculture, to be under the supervision, control, and direction of the Secretary of Agriculture.

The exercise or performance by the Secretary of Agriculture since January 1, 1937, of any powers, functions, and duties vested in the Resettlement Administration by Executive Orders No. 7028 of April 30, 1935, and No. 7041 of May 15, 1935, is hereby confirmed and ratified.

## TREASURY DEPARTMENT.

### Bureau of Customs.

[T. D. 48821]

CUSTOMS REGULATIONS AMENDED—STATISTICS

COUNTRY OF ORIGIN TO BE SHOWN ON CUSTOMS ENTRIES FOR STATISTICAL PURPOSES

*To Collectors of Customs and Others Concerned:*

Pursuant to the authority contained in section 161, Revised Statutes (U. S. C., title 5, sec. 22) paragraphs (b) and (c) of article 1270 of the Customs Regulations of 1931 are hereby amended to read as follows:

(b) The country to which imports shall be credited for statistical purposes is the country of origin. In cases in which the merchandise is invoiced in or exported from a country other than the country of origin, care should be taken to insure that the country of origin is correctly specified.

(c) Entries for immediate consumption or for warehouse, and withdrawals from warehouse for consumption, shall clearly specify the country of origin of the imported articles as well as the nationality and motive power of the vessel from which the imported articles were landed in the United States or in Canada or Mexico if shipped through either of these countries.

### Bureau of Narcotics.

[T. D. 24]

AMENDMENT TO REGULATIONS GOVERNING THE IMPORTATION OF COCA LEAVES UNDER SECTION 6 OF THE ACT OF CONGRESS APPROVED JUNE 14, 1930

*To Narcotic District Supervisors and Others Concerned:*

Pursuant to the authority contained in Section 6 of the Act of June 14, 1930 (46 Stat. 587; U. S. Code (1934 Ed.), Title 21, Sec. 173a), those provisions of Article 8 of Bureau of Narcotics Treasury Decision No. 3, approved November 7, 1930, which require samples of the leaves, solutions, extracts, residues and other substances in various manufacturing processes to be taken for purposes of analyses, are hereby modified to the extent that such samples will not be required except when requested by the Commissioner or his representative. However, the Commissioner or his representative shall have authority to require and select samples of any such leaves, solutions, extracts, residues or other substances in any stage of any process of manufacture from such leaves whenever such action shall be deemed appropriate. Such samples shall be forwarded to the Commissioner or to such chemical laboratory as he may designate, accompanied by the memoranda required by the provisions of said Article 8 of said Treasury Decision No. 3.

[SEAL] H. J. ANSLINGER,
*Commissioner of Narcotics.*

Approved, February 15, 1937.

## DEPARTMENT OF THE INTERIOR.

### National Park Service.

GREAT SMOKY MOUNTAINS NATIONAL PARK

LOCAL SUBSIDIARY REGULATIONS

The following subsidiary regulations, issued under the authority of the Rules and Regulations approved by the Secretary of the Interior June 18, 1936 (1 F. R. 790), have been recommended by the superintendent and approved by the Director of the National Park Service, and are in force and effect within the boundaries of Great Smoky Mountains National Park:

*Fishing.*—The following waters and no others are open for fishing:

All streams other than those listed below are closed for the purpose of restocking. Main streams only of waters listed are open—all tributaries thereof are closed.

Tennessee section of the park:
Little River below mouth of Meigs Post Prong.
Fish Camp Prong below mouth of Goshen Branch.
West Prong Little Pigeon River below Road Prong.
Roaring Fork below mouth of Enloe Hollow Branch.
Middle Prong Little Pigeon River below mouth of Buck Fork.
Ramsey Prong below mouth of Teaberry Branch.
Porters Creek below mouth of Boulevard Prong.

North Carolina section of the park:
Eagle Creek below the mouth of Tubmill Creek.
All waters of Hazel Creek and its tributaries.
Forney Creek below the mouth of Huggins Creek.
Noland Creek below the mouth of Bald Creek.
All waters of Lands Creek.
Deep Creek below mouth of Cherry Creek on Right Fork, and below Hermit Branch on Left Fork.
All waters of Coopers Creek.
Left Fork of Oconalufty River below the mouth of Kephart Prong.
Bradley Fork below the mouth of Bearwallow Branch.
Raven Fork below Three Forks.
Straight Fork below mouth of Balsam Corner Creek.
Bunches Creek below the mouth of Flat Creek.
Cataloochee Creek below the mouth of Messer Fork.
Palmer Creek below the mouth of Pretty Hollow Creek.
Big Creek below the mouth of Gunter Fork.

*Open season.*—Trout, May 16 to August 31, inclusive; rock bass and small mouth bass, June 16 to August 31, inclusive. Fishing is permitted only between the hours of 5:00 A. M. and 6:30 P. M., Central Standard Time, for the Tennessee section of the park, and between 6:00 A. M. and 7:30 P. M., Eastern Standard Time, for the North Carolina section of the park. Both hours mentioned are of the same day.

*Restriction as to use of bait.*—Fishing is permitted only with artificial bait with but one hook. Two artificial flies may be attached to the leader if desired. The use of other than artificial bait is prohibited.

*Size Limit.*—Trout and rock bass under 8 inches in length, and small mouth bass under 10 inches in length shall not be retained unless seriously injured.

*Limit of catch.*—The maximum catch in any one day and the maximum number in possession of any one person shall be 10 fish of any or all species, including undersized fish retained because seriously injured.

*Fishing license.*—The park as such does not charge for fishing license, but persons fishing in the park must have State fishing license issued by Tennessee or North Carolina, depending upon the section being fished.

*Fires.*—The building of fires for any purpose on or along park roads, except in designated camp grounds and picnic areas, is prohibited.

*Speed.*—Speed of automobiles and other vehicles except ambulances and Government cars on emergency trips is limited to 35 miles per hour on highways. On secondary roads, posted as such, speed is limited to 20 miles per hour on straight sections, and 15 miles per hour on curves.

All previous local subsidiary regulations for Great Smoky Mountains National Park are hereby repealed.

Approved, February 17, 1937.

[SEAL] ARNO B. CAMMERER,
*Director, National Park Service.*

### Office of Indian Affairs.

ORDER FIXING OPERATION AND MAINTENANCE CHARGES UINTAH IRRIGATION PROJECT, UTAH, CALENDAR YEAR 1937

FEBRUARY 13, 1937.

In compliance with the provisions of the Act of June 21, 1906 (34 Stat., 325-375), the operation and maintenance charges for the lands under the following units and under the various ditches in those units of the Uintah Irrigation Project, except where otherwise established by contract, for the calendar year 1937, and subsequent years until further notice, based on estimated costs for each year, are fixed for each acre susceptible of irrigation as follows:

| | *Assessment per Acre Susceptible of Irrigation* |
|---|---|
| *Uintah River Unit*, comprising Bench No. 1, Henry Jim and Uintah Ditches, assessable area 18,422.53 acres | $0.70 |
| *Individual Indian Unit* on Uintah River, comprising Harmes, Individual Indian A, B, C and D, Daniels and Tabby White Ditches, assessable area 1,749.11 acres | .60 |
| *Duchesne River Unit* comprising Grey Mountain, Jasper Pike, Leland, Myton Townsite, Ouray School, and Pahcease and Wissiup ditches, assessable area 19,013.82 acres | .75 |
| *Lakefork River Unit*, comprising Lakefork, Red Cap and Dry Gulch ditches, assessable area 25,047.6 | .70 |
| *Deep Creek Unit*, diverting from Whiterocks and Uintah Rivers, comprising Deep Creek Ditch, assessable area 6,935.52 acres | 1.00 |
| *Whiterocks Unit*, comprising Farm Creek and Whiterocks Ditches, assesable area 6,486.6 acres | .75 |

*Time of Payment.*—The charges herein fixed shall become due April 1 and are payable on or before that date. To all such charges assessed against owners of patent in fee land not paid on July 1, following, there shall be added a penalty of ½ of 1 per cent per month, or fraction thereof, from due date of April 1 as long as delinquency continues.

*Conditions of Payment.*—No water shall be delivered to:

1. *Patent in fee landowners*, until at least 50 per cent of charges herein assessed is paid, and water delivery shall not be continued after July 1 unless the total charges shall have been paid.

2. *Indians farming their own land*, until the Superintendent of the reservation shall have issued a certificate to the Project Engineer certifying that the Indian has paid or will pay such charges through the Superintendent or that such Indian is financially unable to pay the charges.

3. *Lessee of Indian trust patent land*, until the Superintendent of the reservation shall have furnished the Project Engineer with a certificate stating that the lessee has fully complied with the terms of the lease relative to the payment of the annual operation and maintenance charges.

This supersedes order of March 14, 1936.

OSCAR L. CHAPMAN,
*Assistant Secretary of the Interior.*

[F. R. Doc. 37-520; Filed, February 23, 1937; 10:12 a. m.]

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

SR-B-101, Part IX, Revised Southern Division, February 20, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—SOUTHERN REGION

BULLETIN 101—PART IX, REVISED

*The Wheat and Grain Sorghum Area*

Part IX of Southern Region Bulletin 101 is amended to read as follows:

The provisions of this Part IX shall apply only to the wheat and grain sorghum area as defined under the heading "Definitions" below, and are based upon (1) a payment of $9.00 per acre average for the United States, varying according to productivity, for diversion from the general base, and payments for diversion from other bases as outlined in Part III, Southern Region Bulletin 101; and (2) a soil-building allowance based upon a rate of $1.00 for each acre in the soil-conserving base, $1.00 for each acre of soil-depleting crops diverted for payment in 1937, and the other provisions of sections 1 and 2. The provisions of said Bulletin 101, unless otherwise provided, will apply throughout said area with the exception of the substitutions contained in this Part IX. References herein relate to the several sections of preceding parts of Southern Region Bulletin 101.

A—DEFINITIONS

In addition to the definitions contained in Part I, the following definitions shall apply:

*The Wheat and Grain Sorghum Area* means that area comprising the following counties of Texas and Oklahoma and such other counties as may be recommended by the State Committee and approved by the Secretary.

*Texas.*—Andrews, Archer, Armstrong, Bailey, Baylor, Borden, Briscoe, Brown, Callahan, Carson, Castro, Childress, Clay, Cochran, Coke, Coleman, Collingsworth, Comanche, Concho, Cottle, Crane, Crosby, Dallem, Dawson, Deaf Smith, Dickens, Donley, Eastland, Ector, Erath, Fisher, Floyd, Foard, Gaines, Garza, Glasscock, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Hood, Howard, Hutchinson, Jack, Jones, Kent, King, Knox, Lamb, Lipscomb, Loving, Lubbock, Lynn, Martin, Midland, Mills, Mitchell, Montague, Moore, Motley, Nolan, Ochiltree, Oldham, Palo Pinto, Parker, Parmer, Potter, Randall, Reeves, Roberts, Runnels, Scurry, Shackelford, Sherman, Somerville, Stephens, Sterling, Stonewall, Swisher, Taylor, Terry, Throckmorton, Tom Green, Ward, Wheeler, Wichita, Wilbarger, Winkler, Wise, Yoakum, and Young.

*Oklahoma.*—Alfalfa, Beaver, Beckham, Blaine, Caddo, Canadian, Cimarron, Comanche, Cotton, Custer, Dewey, Ellis, Garfield, Grady, Grant, Greer, Harmon, Harper, Jackson, Jefferson, Kay, Kingfisher, Kiowa, Major, Noble, Roger Mills, Stephens, Texas, Tillman, Washita, Woods, and Woodward.

*Wind Erosion Area* means that area comprising the following counties within the wheat and grain sorghum area, except that changes therefrom may be made if recommended by the State Committee before March 10, 1937, and approved by the Secretary.

*Texas.*—Andrews, Armstrong, Bailey, Borden, Briscoe, Carson, Castro, Cochran, Crosby, Dallam, Dawson, Deaf Smith, Donley, Ector, Floyd, Gaines, Garza, Glasscock, Gray, Hale, Hansford, Hartley, Hemphill, Hockley, Howard, Hutchinson, Kent, Lamb, Lipscomb, Loving, Lubbock, Lynn, Martin, Midland, Moore, Motley, Ochiltree, Oldham, Parmer Potter, Randall, Roberts, Sherman, Swisher, Terry, Wheeler, Winkler, and Yoakum.

*Oklahoma.*—Beaver, Cimarron, Ellis, Harper, Texas, and Woodward.

B—RATES AND CONDITIONS OF PAYMENT

SECTION 101. *Soil-Building Practices.*—The provisions of this section 101 shall apply in lieu of section 16.

A class II payment will be made for carrying out any one or more of the following soil-building practices in 1937 at the rates and upon the conditions listed in this section 101, *provided* (1) in no event will the total of the class II payments respecting any farm exceed the soil-building allowance for the farm; (2) none of the labor, seed, or materials for such practice is furnished or paid for by any Federal or State agency; (3) the practice is carried out by such methods and with such kinds and quantities of adapted seed, trees, and other materials as conform to good farming practice; and (4) that such practices have been carried out in accordance with standards approved by the State Committee.

Practice:

*Number—Practices and Conditions—Rate*

1. *Alfalfa*, planted on cropland in 1937: $2.50 per acre.

2. *Sweet clover, annual lespedeza, Austrian winter peas*, or other locally adapted winter legumes, planted on cropland in 1937: $1.50 per acre.

3. *Cowpeas, soybeans, mung beans*, or other locally adapted summer legumes, excluding lespedeza, grown on cropland in 1937 and the total forage plowed under, provided a reasonably good growth is attained: $2.00 per acre.

4. *Austrian winter peas*, or other locally adapted winter legumes, plowed under in 1937, or lespedeza left on the land in 1937 except

that the seed may be harvested, provided a reasonably good growth is attained: $1.00 per acre.

9. *Forest trees*, including post-producing species, planted on cropland in 1937: $5.00 per acre.

10. *Ground limestone or its equivalent*[1] applied on soil-conserving crops or pastures in 1937, but payment will not be made on an amount in excess of 4,000 pounds per acre, or less than 1,000 pounds per acre if applied broadcast, or less than 500 pounds if applied in rows: $0.07 per 100 pounds.

11. *Sixteen percent superphosphate or its equivalent*[2] applied in 1937 on soil-conserving crops or pastures (excluding soybeans, cowpeas, velvet beans, and peanuts), but payment will not be made on an amount in excess of 400 pounds per acre or less than 100 pounds per acre: $0.50 per 100 pounds.

14. *Terracing land in 1937* in accordance with good terracing practices for the land: $0.40 per 100 linear feet.

21. *Contour listing or furrowing* when done on cropland in 1937, provided (1) that the furrows shall be made with a regular double mold-board lister or with a chisel of approved design according to the specifications given herein, (2) that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 4 inches in depth, or if chiseled,[3] be not less than 4 inches in width and 6 inches in depth, (3) that the furrowing shall be done with the contour of the land, following lines run with a surveyor's instrument or farm level, and (4) that the contour furrows shall be maintained until preparation of the land for a crop. On slopes greater than 3½ feet to each 100 feet, such contour listing must be in combination with terracing: $0.25 per acre.

22. *Alternate strips of sorghums, or Sudan grass,*[4] *and fallow,*[5] where such strips of sorghums or Sudan grass are planted on the contour in 1937 prior to August 15 on cropland contour listed or furrowed since October 31, 1936, provided that such strips of sorghums or Sudan grass are not less than approximately 2 rods in width and are not more than 12 rods nor less than 4 rods apart, that the strips of sorghums or Sudan grass are not wider than the fallow strips between such strips of sorghums or Sudan grass, and that the stalks are left standing on the land as a protection against wind erosion (in counties outside the wind erosion area if heads or seed are harvested from such strips of sorghums or Sudan grass, only the acreage of the fallow strips shall be considered in computing the acreage of this practice): $0.35 per acre.

23. *Alternate rows of sorghums, or Sudan grass, and fallow,*[5] where such rows of sorghums or Sudan grass are planted on the contour in 1937 prior to August 15 on cropland contour listed or furrowed since October 31, 1936, provided that such rows of sorghums or Sudan grass are planted as single or double rows not less than 10 feet apart, nor more than 12 feet apart if in single rows, or 18 feet apart if in double rows, and if the stalks are left standing on the land as a protection against wind erosion (each row shall be considered to occupy a strip 3½ feet in width, the distance between the rows being computed from center to center of the rows). In counties outside the wind erosion area if heads or seed are harvested from such rows of sorghums or Sudan grass, only the acreage of the fallow strips shall be considered in computing the acreage of this practice: $0.25 per acre.

24. *Sorghums, millets, or Sudan grass*, seeded solid or broadcast, or sweet sorghum or Sudan grass in rows not over 4 feet apart, grown in 1937, provided all the crop is left on the land (or either left on the land or plowed under in counties outside the wind erosion area) and a reasonably good growth is attained. (Payment will not be made for this practice in combination with practice 22 or 23): $1.00 per acre.

25. *Green manure crops*, including rye, barley, oats, wheat, Italian rye grass, or mixtures of two or more of these, plowed under as green manure, after making a reasonably good growth (not less than two months' growth) in the spring of 1937, provided that such crop shall not reach the dough stage (provided that such practice shall not be applicable to the wind erosion area): $0.75 per acre.

26. *Natural restoration of native pasture* (a) on cropland contour listed or contour furrowed in 1936 in accordance with SR–B–2, Supplement (a), revised, not grazed in 1936 and maintained by withholding all grazing in 1937, and allowing the natural coverage to remain as a protection against erosion, or (b) on cropland contour listed or contour furrowed before May 1, 1937, in accordance with practice 21, and maintained by withholding all grazing therefrom in 1937 and allowing the natural coverage to remain as a protection against erosion: $0.25 per acre.

27. *Reestablishment of native grasses* by seeding or sodding in 1937, or the establishment in 1937 of permanent pasture of perennial grasses or grass and legume mixtures on cropland, or non-crop open pasture land which if in the wind erosion area has been contour listed since October 31, 1936, in accordance with practice 21: $2.50 per acre.

28. *Contour farming*, consisting of the growing of crops on the contour in combination with terraces or contour listing or furrowing in accordance with subsection (j), section 104, not in combination with practice 22 or 23: $0.25 per acre.

29. *Contour listing or furrowing pasture land*, furrow channels to be not less than 8 inches in width and 4 inches in depth and not less than 3½ feet apart. (Payment will be made on the acreage occupied by the furrows computed on the basis of 3½ feet in width for each such furrow): $0.70 per acre.

30. *Ridging pasture land* on slopes of two percent or greater, such narrow terraces or ridges to be at least 6 feet wide from bottom of furrow to bottom of furrow on the opposite side, at least 10 inches in height, and not to exceed one-third of the regular terrace interval: $0.10 per 100 linear feet.

SECTION 102. *Minimum Acreage of Soil-Conserving Crops and Soil-Building Practices in Lieu of Soil-Conserving Crops.*—The provisions of this section 102 shall apply in lieu of section 17.

(a) If the total acreage of soil-conserving crops on cropland on any farm in 1937 does not equal or exceed the sum of—

(1) The soil-conserving base established for the farm, which shall be that acreage which is determined to be the acreage of soil-conserving crops grown on the farm under normal conditions, and

(2) The sum of the acreages diverted for payment from the cotton, peanut, and general bases.

a deduction will be made in an amount obtained by multiplying $3.00 by the number of acres by which the total acreage of soil-conserving crops on cropland, and of soil-building practices in lieu of soil-conserving crops on cropland in 1937, is less than such sum.

### C—CLASSIFICATION OF LAND USE AND CROPS

Farm land when devoted to the crops and uses indicated below shall, except for such additions or modifications as may be approved by the Secretary, be classified as follows:

SECTION 103. *Crops or Practices Which Shall be Classed as Soil-Depleting.*—The provisions of this section 103 shall apply in lieu of section 31.

Land devoted to any of the following crops or practices shall, except as provided in sections 103 and 105, be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested or the practice is carried out. In establishing soil-depleting bases and in checking performance, the acreage of land devoted to two or more soil-depleting crops shall be counted only once.

(a) Corn (field corn, sweet corn, or popcorn).

(b) Cotton.

(c) Potatoes (Irish or sweet).

(d) Truck and vegetable crops, including melons and strawberries.

(e) Peanuts, harvested for nuts.

(f) Grain sorghums, sweet sorghums, broomcorn, millets, or Sudan grass, harvested for grain, seed, or forage, or grain sorghum in rows if all the crop is left on the land (or left on the land or turned under in the wind erosion area).

(g) Small grains, wheat, oats, barley, rye, or any mixture of these; *provided, however*, that if the County Committee, prior to a date prescribed by the State Committee and approved by the Director of the Southern Division, has approved the use of wheat, oats, barley, or rye, or a mixture of these on a designated area on the farm as a winter cover crop as being good farming practice for such area, and such crops are pastured or plowed under (cut for hay, pastured, or plowed under in the wind erosion area), before reaching the dough stage and the land is protected, immediately thereafter, by a soil-conserving crop or a soil-building practice approved herein for use in lieu thereof, such land shall take the classification of such soil-conserving crop or practice, except that *outside the wind erosion area*, where such crops are plowed under as green manure, in accordance with practice 25, and followed by another soil-conserving crop, or a soil-building practice approved herein for use in lieu thereof, all such land shall be classified as soil-conserving.

(h) Summer fallowed land which in the wind erosion area is left unprotected and becomes a wind erosion hazard (such acreage to be prorated between the total acreage planted to crops in the general soil-depleting base and to the acreage planted to cotton in 1937, in the proportion that each soil-depleting base bears to the total soil-depleting base for the farm).

SECTION 104. *Soil-Conserving Crops and Soil-Building Practices in Lieu of Soil-Conserving Crops.*—The provisions of this section 104 shall apply in lieu of section 32.

Land devoted to any of the following crops or uses shall be regarded as used for the production of a soil-conserving crop or for a soil-building practice in lieu thereof, except that any land which is devoted to a soil-depleting crop in the same year shall be regarded as used for the production of a soil-depleting crop in such year, except as provided in sections 103 and 105. Any acre which is devoted to two or more soil-conserving crops or practices in lieu thereof in the same year shall be counted as not more than one acre of soil-conserving crops.

(a) Legumes, including Austrian winter peas, sweet clover, alfalfa, lespedeza, cowpeas, and mung beans.

(b) Peanuts, if pastured.

(c) Grasses, including native grasses planted in 1936 or 1937, Dallis, rye grass, Bermuda, or grass mixtures.

(d) Sudan grass, seeded solid or broadcast or in rows not over 4 feet apart, not harvested for seed or hay.

(e) Any sorghum or millet seeded solid or broadcast, or sweet sorghum in rows not over 4 feet apart, grown in 1937 and all the crop left on the land (or either left on the land or plowed under in counties outside the wind erosion area), provided a reasonably good growth is attained.

(f) Alternate strips of sorghums, or Sudan grass, and fallow, where such strips of sorghums or Sudan grass are planted in 1937 prior to August 15 on cropland if such strips of sorghums or Sudan grass are not less than approximately 2 rods in width, and are not more than 12 nor less than 4 rods apart, if the strips of sorghums or Sudan grass are not wider than the fallow strips between such strips of sorghums or Sudan grass, and if the stalks are left standing on the land as a protection against wind erosion. The acreage actually occupied by such strips shall be considered soil-depleting, and only the acreage of the fallow strips between such sorghum or Sudan strips shall be considered soil-conserving, except that strips of sorghums or Sudan grass, seeded solid or broadcast, or of sweet sorghums or Sudan grass in rows, from which heads or seed are not removed shall be classified as soil-conserving.[1]

(g) Alternate rows of sorghums, or Sudan grass, and fallow, where such rows of sorghums or Sudan grass are planted in 1937 prior to August 15 on cropland if such rows of sorghums or Sudan grass are planted as single or double rows not less than 10 feet apart, nor more than 12 feet apart if in single rows, or 18 feet apart if in double rows, and if the stalks are left standing on the land as a protection against wind erosion (each row shall be considered to occupy a strip 3½ feet in width, the distance between the rows being computed from center to center of the rows.) The acreage actually occupied by such rows shall be considered soil-depleting and only the fallow strips between such rows shall be considered soil-conserving, except that rows of sweet sorghums or Sudan grass from which heads or seed are not removed shall be classified as soil-conserving.[6]

(h) The acreage on which practice 26 is carried out.

(i) The acreage of cropland on which practice 27 is carried out.

(j) Three-fourths of the acreage of cropland on which controlled summer fallowing is practiced in 1937 and which in 1937 is kept free of vegetative cover to the extent that available soil moisture will be conserved, and provided that such land (1) is contour listed or furrowed, in accordance with practice 21, or (2) is otherwise contour furrowed where done with a furrowing device which accomplishes a creditable type of cultivation for conserving moisture and controlling wind erosion, furrows in no instance to be less than 14 inches apart.

(k) Two-thirds of the acreage of cropland on which protected summer fallow is practiced in 1937, which is kept free of vegetative cover to the extent that available moisture is conserved, and which is protected from erosion by listing or furrowing not on the contour, or by leaving the stubble or trash on or near the surface of the soil. (This classification shall not apply in the wind erosion area, except where a special recommendation is made by the County Committee and approved by the State Committee, setting forth proof that wind erosion is not a problem in the particular community, and except as outlined in paragraph (m) below.)

(l) One-third of the acreage of cropland; (1) in the wind erosion area, on which protected fallow is practiced, in accordance with paragraph (k) above, if not terraced or contour listed in 1937 and if not in a community approved as not affected by wind erosion; or (2) which is contour listed in 1937 and on which the natural vegetation is allowed to grow as a protection against wind erosion.

(m) The acreage of cropland anywhere in the wheat and grain sorghum area terraced in 1937, in accordance with practice 14, in combination with a practice outlined in paragraph (j), (k), or (l) above; or, in counties *outside the wind erosion area*, the acreage of any idle cropland terraced in 1937.

(n) Forest trees, planted on cropland since January 1, 1934.

SECTION 105. *Soil-Conserving Crops or Soil-Building Practices in Lieu Thereof Grown or Used in Combination with or Following Soil-Depleting Crops.*—The provisions of this section 105 shall apply in lieu of section 33.

Land devoted to soil-conserving crops or soil-building practices in lieu thereof grown or used in combination with or following soil-depleting crops shall be classified as follows:

(a) All the acreage of soil-depleting row crops interplanted or grown in combination with summer legumes (classified in section 104 as soil-conserving) shall be classified as soil-depleting, and

(1) one-half of the acreage shall also be classified as soil-conserving, provided the legume occupies at least one-half of the land and attains a reasonably good growth, or

(2) one-third of the acreage shall also be classified as soil-conserving, provided the legume occupies not less than one-third but less than one-half of the land, and attains a reasonably good growth.

(b) All the land from which a soil-depleting crop is harvested in 1937 and followed by legumes (classified in section 104 as soil-conserving) or perennial grasses (whether seeded in or following such crop) shall, in addition to being classified as soil-depleting, be classified as soil-conserving.

(c) All the acreage of soil-depleting crops on land which is terraced in 1937, in accordance with practice 14, shall be classified as soil-depleting, and one-third of such acreage shall also be classified as soil-conserving.

(d) All the acreage of soil-depleting crops on land, *in the wind erosion area*, which is contour listed in 1937, in accordance with practice 21, shall be classified as soil-depleting, and one-tenth of such acreage shall also be classified as soil-conserving.

SECTION 106. *Neutral Uses.*—The provisions of this section 106 shall apply in lieu of section 34.

Land devoted to the following uses shall be regarded as not used for the production of a soil-depleting crop or a soil-conserving crop unless otherwise provided.

(a) Vineyards, tree fruits, bush fruits, and nut trees. (Any portion of such land which is interplanted shall carry the classification and actual acreage of such interplanted crop.)

(b) Idle cropland, unless otherwise specified.

(c) Waste land, roads, lanes, lots, yards, and other similar non-cropland.

(d) Woodland, other than cropland planted to forest trees since January 1, 1934.

(e) Grain sorghums in rows if plowed under in counties outside the wind erosion area.

SECTION 107. *Wind Erosion Hazards.*—The County Committee shall (subject to prescribed appeal procedure) not certify for a class I or a class II payment any applicant who has been found by the appropriate County Committee to have been negligent and careless in his farming practices in 1937, either on the farm(s) respecting which such application is made or any other farm(s) owned or controlled by such applicant, to the extent that such farm(s) has become a wind erosion hazard to the immediate community in which it is located.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 20th day of February 1937.

[SEAL]

H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37–524; Filed, February 23, 1937; 12:53 p. m.]

---

[1] For example, 500 pounds of burnt lime or 700 pounds of hydrated lime is the equivalent of 1,000 pounds of ground limestone.

[2] For example, 100 pounds of 48 percent superphosphate is the equivalent of 300 pounds of 16 percent superphosphate.

[3] The dimensions of such chisel furrows may, if approved by the County Committee, vary from those set forth herein, provided a cross section of each such furrow is at least 24 square inches.

[4] The term "strips of sorghums or Sudan grass", wherever used in this Part IX, means strips that are seeded solid or broadcast or in rows not over 4 feet apart. The term "double rows" means two rows, not less than three nor over four feet apart.

[5] Where strips of sorghums or Sudan grass, alternating with fallow, are over 12 rods in width or occupy more than one-half of the land, the actual acreage of such strips, if all the crop is left on the land, will be paid for in accordance with practice 24. If such strips (or rows of sorghums or Sudan grass alternating with fallow) are not on the contour, occupy one-half or less of the land, and are 12 rods or less in width, no practice payment will be made.

[6] Where strips of sorghums or Sudan grass, alternating with fallow, are over 12 rods in width or occupy more than one-half of the land, the actual acreage of such strips shall be classified in accordance with paragraph (f), section 103, or paragraph (e) of this section 104, and the fallow strips shall be classified in accordance with paragraph (j) or (k) of this section 104.

## Bureau of Agricultural Economics.

[Amendment to S. R. A. No. 98]

### RULES AND REGULATIONS GOVERNING GRADING AND CERTIFICATION OF MEATS, ETC.

By virtue of the authority vested in the Secretary of Agriculture by a provision of the act[8] of Congress entitled "An Act making appropriations for the Department of Agriculture and the Farm Credit Administration for the fiscal year ending June 30, 1937" approved June 4, 1936, authorizing the investigation and certification of the class, quality, and condition of perishable farm products, I, H. A. Wallace, Secretary of Agriculture, do hereby issue the following amendment to S. R. A. No. 98, first revision (B. A. E.) to be in force and effect immediately until amended or superseded by regulations issued in lieu thereof:

Regulation 3, Section 1, Paragraph 2—*Designated Markets*—add the following:

Other markets may be designated by the Secretary from time to time.

Regulation 4, Section 15, amend this section to read as follows:

SEC. 15. *Certificates—Issuance.*—The official grader shall sign and issue certificates covering lots of products personally graded by him unless through special arrangements approved by the Chief of Bureau this be not required, in which case complete records of the grading shall be furnished the Bureau; but in no case shall any grader sign a certificate covering any product not graded by him. Graders shall stamp, brand, tag, label, seal, or otherwise identify or supervise the stamping, branding, tagging, labeling, sealing, or otherwise identifying of each unit of product

or package or container thereof with its class and quality (grade) as far as practicable, or the applicant may issue, when authorized by the Chief of the Bureau, certificates of quality of such forms as are approved by the Chief of the Bureau, the certificates of quality issued by the applicant to be used only by the applicant in such manner and for such purpose as is approved by the Chief of the Bureau.

In testimony whereof I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 20th day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

Approved:
MASTIN G. WHITE,
*Solicitor.*

## DEPARTMENT OF COMMERCE.

### Bureau of Air Commerce.

[Aeronautics Bulletin No. 7-A; Amendment No. 6]

AIR COMMERCE REGULATIONS

AIRWORTHINESS REQUIREMENTS FOR AIRCRAFT

Pursuant to the authority contained in the Air Commerce Act of 1926, as amended (44 Stat. 568), Section 73 (A) Paragraphs (1) and (2) of Aeronautics Bulletin No. 7-A are hereby amended to read as follows:

(1) The landing speed in standard calm air at sea level shall not exceed a value determined as follows:

For airplanes of 20,000 pounds gross weight or less, 65 miles per hour.
For airplanes of 30,000 pounds gross weight or more, 70 miles per hour.
Between 20,000 and 30,000 pounds a linear variation with gross weight shall apply.
For airplanes which are not used for carrying passengers the above values may be increased 5 miles per hour.

(a) *For air line aircraft operating in accordance with the requirements of Aeronautics Bulletin No. 7-E* the gross weight may be increased beyond the value corresponding to the landing speed specified in Paragraph (1), subject to the following conditions:

(i) The increased gross weight shall be known as the *provisional gross weight* and the weight at which the aircraft complies with the flight requirements for normal aircraft shall be known as the *standard gross weight*. The *standard gross weight* shall be the maximum permissible gross weight for all operations other than those in accordance with the requirements of Aeronautics Bulletin No. 7-E. The *provisional gross weight* shall be the maximum permissible gross weight for any operation.

(ii) The aircraft shall be provided with suitable means for the rapid discharge of a quantity of fuel sufficient to reduce its gross weight *from the provisional gross weight* to the *standard gross weight*.

(iii) In no case shall the *provisional gross weight* exceed a value corresponding to a landing speed of 5 miles per hour in excess of that specified in Paragraph (1).

(iv) Compliance with all the airworthiness requirements except landing speed and take-off is required at the *provisional* gross weight, except that the stress analysis for the landing conditions may be based on the *standard* gross weight when suitable provisions for absorbing ground shocks incident to taking off at the *provisional* gross weight are provided.

(2) Land planes shall take off with full load within 1000 feet in standard calm air at sea level and seaplanes, flying boats and amphibians shall be able to take off from the water with full load at sea level in 45 seconds or less, with a wind velocity not exceeding 10 miles per hour and with moderately smooth water conditions, except as modified hereinafter.

(a) *For air line aircraft operating in accordance with the requirements of Aeronautics Bulletin No. 7-E* the gross weight may be increased beyond the value corresponding to the take-off requirements of Paragraph (2) subject to the following conditions:

(i) The gross weight shall not exceed the *provisional* gross weight determined by and defined in Paragraph (1) (a) of this amendment.

(ii) Aircraft engaged in operations in accordance with the requirements of Aeronautics Bulletin No. 7-E shall be licensed for the gross weight at which they comply with the take-off and other performance provisions of that bulletin for the particular operation involved provided that such licensed gross weight shall not exceed the *provisional* gross weight. It may, however, be less than the *provisional* or *standard* gross weights, dependent upon the ground or water facilities and the nature of the route flown.

This amendment supersedes Amendment No. 2 of Aeronautics Bulletin No. 7-A.

Approved to take effect February 20, 1937.

[SEAL] DANIEL C. ROPER,
*Secretary of Commerce.*

[F. R. Doc. 37-509; Filed, February 19, 1937; 1:26 p. m.]

AIR COMMERCE REGULATIONS

AERONAUTICS BULLETIN NO. 7-E (EDITION OF OCTOBER 1, 1934), AMENDMENT NO. 13

Pursuant to the Air Commerce Act of 1926 (44 Stat. 568) as amended, and as further amended, by the act of June 19, 1934 (44 Stat. 1113), and the Act of June 19, 1934 (44 Stat. 1116), Chapter 8 of Aeronautics Bulletin No. 7-E is hereby amended by adding to Section 3 (A) the following:

There shall also be installed on such aircraft an approved radio antenna system, which has for its purpose the collection of radio range signals, weather broadcast and emergency messages transmitted within the frequency range of 200 to 400 kc/s. The design of this antenna system shall be such as to eliminate insofar as possible, consistent with the advancement of the art, that type of interference commonly known as rain, snow, sleet or dust static. This antenna system shall be so designed that it will operate efficiently when used in conjunction with a receiver installed aboard such aircraft which has for its primary purpose the reception of radio range signals, weather broadcasts and emergency messages.

Approved, to take effect November 1, 1937.

[SEAL] DANIEL C. ROPER,
*Secretary of Commerce.*

[F. R. Doc. 37-528; Filed, February 23, 1937; 1:00 p. m.]

AIR COMMERCE REGULATIONS

AERONAUTICS BULLETIN NO. 7-E (EDITION OF OCTOBER 1, 1934), AMENDMENT NO. 14

Pursuant to the Air Commerce Act of 1926 (44 Stat. 568) as amended, and as further amended, by the Act of June 19, 1934 (44 Stat. 1113), and the Act of June 19, 1934 (44 Stat. 1116), Chapter 8 of Aeronautics Bulletin No. 7-E is hereby amended by adding to Section 3 (A) the following:

There shall also be installed in such aircraft an approved radio direction finder, covering at least the frequency range of 200 to 400 kilocycles. The design of the radio direction finder shall be such as to permit its regular operation in the taking of line bearings on any station to which the direction finder may be tuned without altering the course of the aircraft. The radio direction finder shall also be provided with means for the elimination of interference commonly known as rain, snow, sleet or dust static. The radio direction finder shall provide means for audible reception of radio range and weather broadcast messages.

Approved, to take effect January 1, 1938.

[SEAL] DANIEL C. ROPER,
*Secretary of Commerce.*

## FARM CREDIT ADMINISTRATION.

[FCA 24.]

RETIREMENT OF CAPITAL STOCK OF PRODUCTION CREDIT CORPORATIONS

Pursuant to the authority conferred upon the Governor of the Farm Credit Administration by the Farm Credit Act of 1933, particularly section 20 thereof, and pursuant to section 23 of said Act, the following paragraph is hereby added at the end of subsection k of section 104 of the Revised Rules and Regulations for Production Credit Associations (Chap. V, Subdivision B, Sec. 104k, Federal Register Compilation):

Notwithstanding any other provision of this section regarding fractional shares, where the retirement of stock pursuant to the provisions of this subsection results in the ownership by the stockholder of a fractional share, such fractional share may be retired and cancelled at its fair book value (not to exceed par) with payment being made to the stockholder therefor.

[SEAL] S. M. GARWOOD,
*Production Credit Commissioner.*

[F. R. Doc. 37-521; Filed, February 23, 1937; 12:20 p. m.]

[FCA 25.]

REGULATIONS RELATIVE TO EMERGENCY CROP AND FEED LOANS IN THE TERRITORY OF HAWAII MADE PURSUANT TO THE ACT OF CONGRESS, APPROVED JANUARY 29, 1937

FEBRUARY 20, 1937.

1. Loans for the production of crops, for planting, cultivating, and harvesting of crops, for supplies incident and necessary to such production, planting, cultivating, and harvesting, or for any of such purposes, will be made during the year 1937 by the Governor of the Farm Credit Administration to farmers in the Territory of Hawaii.

2. Such loans may be made to farmers who have acreage fit for cultivation, the necessary equipment for farming operations, and who are unable to obtain a loan from other sources, and, further, such loans will be limited to the amount necessary to meet the immediate and actual cash needs, and preference shall be given to the applications of farmers whose cash requirements are small.

3. Such loans shall be secured by a first lien upon all crops of which the planting, cultivation, production or harvesting is to be financed, in whole or in part, with the proceeds of such loan.

4. Applicants must agree (1) to use seed and methods approved by the Department of Agriculture; and (2) to plant and cultivate a garden for home use.

5. No such loan will be made:

(a) To any applicant who has received or is to receive from Resettlement Administration during 1937 a standard rehabilitation loan, as indicated on lists furnished by Resettlement Administration.

(b) To any applicant who can obtain a loan from other sources in an amount reasonably adequate to meet his needs for the purposes for which such loans may be made.

(c) To any applicant who is a pineapple grower unless he has a marketing agreement with a responsible pineapple cannery; to any sugar cane grower unless he signs, or agrees to sign, a grinding contract with an approved central or mill; or to any fruit or vegetable grower, or grower of any other crops, unless he agrees to marketing agreements which are satisfactory to the representative of the Emergency Crop and Feed Loan Office in the Territory of Hawaii.

(d) To any applicant who has not observed good faith in making repayment on any previous emergency loan or loans, as indicated by the willful misuse of the proceeds of a loan check for any purpose other than those specified in the application therefor; failure to plant a crop, or planting a crop on land other than that described in the application, and not returning proceeds of loan; the willful disposal of crops mortgaged to the Governor without paying him the proceeds of the sale thereof, or failure to pay all or a part of such loan or loans when able to do so.

(e) To any applicant in an amount greater than his immediate cash needs for the production or harvesting of crops, and for supplies incident and necessary to such production and harvesting, or in an amount in excess of $400. No loan will be made for an amount less than the sum of $25.00. All loans will be made in multiples of $5.00. Notes will bear interest, from maturity until paid, at the rate of 4 percent per annum; and interest to the maturity date at the same rate will be deducted at the time the loan is made.

(f) To any applicant who has a means of livelihood other than farming.

(g) To partnerships, corporations, minors, agents, executors, or administrators; or, to receivers or trustees.

(h) To a wife living with her husband unless the husband joins in the application, note and mortgage or lien.

(i) To more than one member of a family unit nor to any person living and/or farming with an applicant whose application for a loan hereunder has been disapproved.

(j) For the purchase of machinery or livestock, or for the payment of taxes, rent, debts, or interest or for any purpose other than as specified herein.

6. Loans may be made, subject to the limitations specified herein, in such amounts and in such installments as the Hawaiian representative of the Emergency Crop and Feed Loan Section may approve.

7. (a) No loan for the production of crops will be made in an amount greater than the immediate and actual cash needs in the particular case to plant the crop in a manner approved by the Extension Service of the Department of Agriculture. The immediate and actual cash needs in a particular case must not exceed the actual costs per acre in such case as determined by individual consideration of the various factors involved, e. g., whether it is necessary to purchase seed, feed, fertilizer, spraying material and/or fuel for tractors; the cost thereof; and any other incidental expenses currently incurred in that community in connection with the particular crop to be produced. In no event may loans for crop production purposes exceed the following maximum allowances per acre:

*Maximum Allowances per Acre*

| | Seed or plants | Fertilizer | Spray materials | Cash labor costs | Total |
|---|---|---|---|---|---|
| Sugar cane (Plant) [1] | ..... | $40 | $10 | $50 | $100 |
| Sugar cane (Ratoon) | ..... | 40 | 10 | 25 | 75 |
| Pineapple (Plant) [1] | $30 | 60 | 10 | 100 | 200 |
| Pineapple (Ratoon) | ..... | 60 | 10 | 40 | 110 |
| Coffee | ..... | 40 | 5 | 35 | 80 |
| Rice | ..... | 20 | ..... | 20 | 40 |

[1] Total amount per acre allowed shall not exceed the maximum indicated nor shall it exceed $1.25 a ton based on previous yield records for the same type cane. Where irrigation is practiced, the total allowance for all costs, including irrigation, shall not exceed $1.25 per ton on estimated yield.

[2] In the case of pineapples where mulching paper is used, an additional allowance not to exceed $60 per acre shall be permitted on approval of the Emergency Crop Loan representative, but in no case shall the total amount loaned per acre exceed $10 per ton based upon past record of performances for both plant and ratoon pineapples.

Vegetable and Miscellaneous Crops: The cost of seed or plants, fertilizer, and spray materials will be allowed plus a maximum of $10 per acre for hired labor in the case of vegetables only.

(b) An amount not greater than the actual harvesting expenses may, in the discretion of the Hawaiian representative of the Emergency Crop and Feed Loan Section, be released from the proceeds of the sale of any of the crops covered by a lien given to the Governor, in any case where a borrower does not have the necessary funds or credit to pay for the harvesting of such crops.

8. The amount approved for a loan by the Governor or his representatives under these regulations will be paid to the applicant by a disbursing officer upon receipt and approval by the Governor or his representative of the following documents:

(a) Application in the form prescribed, signed by the applicant.

(b) Promissory note in the form prescribed, executed by the applicant for the amount approved by the Governor or his representative, payable to the Governor, bearing interest at the rate of 4 percent per annum from maturity until paid.

(c) Lien instruments (including waivers) in the form prescribed, conveying a first lien, properly executed and filed, registered, or recorded in the proper office, as required by law.

(d) A voucher for the amount of the loan in the form prescribed, signed by the applicant.

9. Fees for recording, filing, registration, and examination of records (including certificates) shall be paid by the borrower; provided, however, that such fees aggregating not to exceed 75 cents per loan may be paid by him from the proceeds of the loan. No fees for releasing liens given to secure loans shall be paid from the proceeds of a loan.

10. The right is reserved to revoke, alter, or amend these regulations at any time and without notice.

[SEAL] W. I. MYERS,
*Governor, Farm Credit Administration.*

[FCA 26]

REGULATIONS RELATIVE TO EMERGENCY CROP AND FEED LOANS IN PUERTO RICO MADE PURSUANT TO THE ACT OF CONGRESS APPROVED JANUARY 29, 1937

FEBRUARY 20, 1937.

1. Loans for the production of crops, for planting, cultivating, and harvesting of crops, for supplies incident and necessary to such production, planting, cultivating, and harvesting, or for any of such purposes, will be made during the year 1937 by the Governor of the Farm Credit Administration to farmers in Puerto Rico.

2. Such loans may be made to farmers who have acreage fit for cultivation, the necessary equipment for farming operations, and who are unable to obtain a loan from other sources, and, further, such loans will be limited to the amount necessary to meet the immediate and actual cash needs, and preference shall be given to the applications of farmers whose cash requirements are small.

3. Such loans shall be secured by a first lien upon all crops of which the planting, cultivation, production, or harvesting is to be financed, in whole or in part, with the proceeds of such loan.

4. Applicants must agree (1) to use seed and methods approved by the Department of Agriculture; and (2) to plant and cultivate a garden for home use.

5. No such loan will be made:

(a) To any applicant who has received or is to receive from Resettlement Administration during 1937 a standard rehabilitation loan, as indicated on lists furnished by Resettlement Administration.

(b) To any applicant who can obtain a loan from other sources, including production credit associations, in an amount reasonably adequate to meet his needs for the purposes for which such loans may be made. An applicant for a loan in an amount in excess of a minimum fixed by the Governor, or his representative, for the territory in which the applicant resides, must first submit written evidence from a production credit association that his application for a loan of the same or less amount has been rejected.

(c) To any applicant who has an application for a 1937 crop loan pending with a production credit association.

(d) To any applicant who is a tobacco, coffee, fruit, or vegetable grower, or grower of any other crops, unless he signs a marketing agreement satisfactory to the representative of the Emergency Crop and Feed Loan Office in Puerto Rico, nor to any cane grower unless he signs or agrees to sign a grinding contract with an approved central or mill.

(e) To any applicant who has not observed good faith in making repayment on any previous emergency loan or loans, as indicated by the willful misuse of the proceeds of a loan check for any purpose other than those specified in the application therefor; failure to plant a crop, or planting a crop on land other than that described in the application, and not returning proceeds of loan; the willful disposal of crops mortgaged to the Governor without paying him the proceeds of the sale thereof, or failure to pay all or a part of such loan or loans when able to do so.

(f) To any applicant in an amount greater than his immediate cash needs for the production or harvesting of crops and for supplies incident and necessary to such production and harvesting, or in amount in excess of $400. No loan will be made for an amount less than the sum of $25.00. All loans will be made in multiples of $5.00. Notes will bear interest, from maturity until paid, at the rate of 4 per cent per annum; and interest to the maturity date at the same rate will be deducted at the time the loan is made.

(g) To any applicant who has a means of livelihood other than farming.

(h) To partnerships, corporations, minors, agents, executors, or administrators; or, to receivers or trustees.

(i) To either a husband or a wife, if living together, unless both join in the application, note, and lien instrument(s).

(j) To more than one member of a family unit nor to any person living and/or farming with an applicant whose application for a loan hereunder has been disapproved.

(k) For the purchase of machinery or livestock, or for the payment of taxes, rent, debts, or interest or for any purpose other than as specified herein.

6. Loans may be made, subject to the limitations specified herein, in such amounts and in such installments as the Puerto Rican representative of the Emergency Crop and Feed Loan Section may approve.

7. No loan for the production of crops will be made in an amount greater than the immediate and actual cash needs in the particular case to plant the crop in a manner approved by the Extension Service of the Department of Agriculture.

The immediate and actual cash needs in a particular case must not exceed the actual costs per cuerda in such case as determined by individual consideration of the various factors involved, e. g., whether it is necessary to purchase seed, feed, fertilizer, spraying material and/or fuel for tractors: the cost thereof; and any other incidental expenses currently incurred in that community in connection with the particular crop to be produced. In no event may loans for crop production purposes exceed the following maximum allowances per cuerda:

*Maximum Allowances per Cuerda*

| | (1) Without commercial fertilizer | (2) Where commercial fertilizer is used | (3) Where commercial fertilizer is used upon irrigated land |
|---|---|---|---|
| Corn and grain | $3.00 | $5.00 | |
| Long staple cotton | 5.00 | 10.00 | |
| Tobacco [1] | 15.00 | 30.00 | |
| Potatoes (sweet and Irish) | 5.00 | 12.00 | |
| Sugar cane (Gran Cultura) | 30.00 | 45.00 | $55.00 |
| Sugar cane (Primavera) | 20.00 | 35.00 | 45.00 |
| Sugar cane (Ratoon) | 10.00 | 25.00 | 35.00 |
| Rice (upland) | 3.00 | 5.00 | |
| Rice (lowland) | 3.00 | 8.00 | 12.00 |
| Coconuts [2] | 8.00 | 20.00 | |
| Bananas and plantains (bearing) | 15.00 | 20.00 | |
| Grapefruit and oranges (6 yrs. and over) [3] | 15.00 | 40.00 | 50.00 |
| Coffee [4] | 7.00 | 27.00 | |
| Pineapples | 90.00 | 150.00 | |
| Winter vegetables (for shipment to the States) | 10.00 | 25.00 | |
| Miscellaneous crops | 5.00 | 5.00 | 5.00 |

[1] A harvesting allowance of $5.00 per cuerda may be made for stalk-cut tobacco and $10.00 per cuerda for prime tobacco.

[2] When fertilizer is not used, loans shall be limited to $4.00 per thousand estimated yield of coconuts and not exceeding 20¢ per tree. When fertilizer is used, loans shall be limited to $10.00 per thousand estimated yield of coconuts, not exceeding 50¢ per tree, and not exceeding $20.00 per cuerda in any case.

[3] Not exceeding 30¢ per box estimated crop on tree.

[4] Not exceeding $5.00 per cuerda additional where harvesting advance is made (whether with or without fertilizer)—

In addition to the $7.00 allowance provided where fertilizer is not used, $15.00 may be allowed for fertilizer and $5.00 for applying the same.

The use of fertilizer is optional with the borrower, but if an allowance is made for such purpose the following table indicates, for varying acreages in coffee, the number of acres which in each instance is the minimum that must be fertilized and the maximum for which an allowance will be approved:

| No. acres in coffee: | *No. acres which must be fertilized and in excess of which no allowance will be approved* |
|---|---|
| 1- 5 (Inclusive) | ½ |
| 6-10 (Inclusive) | 1 |
| 11-20 (Inclusive) | 2 |
| 21-40 (Inclusive) | 3 |
| Over 40 | 4 |

The application of fertilizer must be in accordance with the best methods advocated by the Extension Service, and must be under the supervision of the Extension Service field force.

8. The amount approved for a loan by the Governor or his representative under these regulations will be paid to the applicant by a disbursing officer upon receipt and approval by the Governor or his representative of the following documents:

(a) Application in the form prescribed, signed by the applicant.

(b) Promissory note in the form prescribed, executed by the applicant for the amount approved by the Governor or his representative, payable to the Governor, bearing interest at the rate of 4 per cent per annum from maturity until paid.

(c) Lien instruments (including waivers) in the form prescribed, conveying a first lien, properly executed and filed, registered, or recorded in the proper office, as required by law.

(d) A voucher for the amount of the loan in the form prescribed, signed by the applicant.

9. Fees for recording, filing, registration, and examination of records (including certificates) shall be paid by the borrower; provided, however, that such fees aggregating not to exceed 75 cents per loan may be paid by him from the proceeds of the loan. No fees for releasing liens given to secure loans shall be paid from the proceeds of a loan.

10. The right is reserved to revoke, alter, or amend these regulations at any time and without notice.

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 20th day of February A. D. 1937.

[File No. 46-31]

IN THE MATTER OF NEW ENGLAND POWER ASSOCIATION

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by New England Power Association, a registered holding company, pursuant to Section 10 (a) (1) of the Public Utility Holding Company Act of 1935, for approval of the acquisition by it in the open market from time to time of not exceeding 85,527 shares of Class A Stock of International Hydro-Electric System to meet the obligations of the said New England Power Association under its outstanding Option Warrants expiring March 1, 1942, and providing for exchange of Common Stock of Massachusetts Power and Light Associates for Class A Stock of International Hydro-Electric System;

It is ordered that a hearing on such matter be held on March 3, 1937, at 10:30 o'clock in the forenoon of that day at Room 1103, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 27, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 18th day of February A. D. 1937.

[File No. 2-1576]

IN THE MATTER OF SUMMIT GOLD MINING CORPORATION

ORDER CHANGING TIME OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

The Commission having heretofore, on February 10, 1937, ordered that a hearing under Section 8 (d) of the Securities Act of 1933, as amended, be held in this matter on February 19, 1937; and

The registrant having requested a postponement of such hearing,

It is ordered that such hearing be convened on Thursday, March 11, 1937, at 10 o'clock in the forenoon, in Room 726-C, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that John H. Small, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-527; Filed, February 23, 1937; 12:55 p. m.]

---

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 20th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE AMERADA-WEIR FARM, FILED ON FEBRUARY 15, 1937, BY L. H. WITWER, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that in Item 11, Division II, the rate of tax is stated as fractions of a percent, instead of fractions of 1¢ on Federal excise tax and proration tax;

(2) In that in Division III the same method and same per acre recovery is used as in a former sheet filed with this office covering a 640 acre tract on the Amerada-Sun-Republic-Weir Farm. The present offering covers only the Amerada-Weir, involving 320 acres. Certain figures used in the earlier report have not been changed to conform, with the result that in Item 3, Division III, the production to January 1, 1937 is incorrectly stated and conflicts with Item 4 (b) of Division III. In the last paragraph, Division III, Item 3, the acreage should be correctly stated;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 22nd day of March, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 6th day of March, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

DETERMINATION OF THE SECRETARY OF AGRICULTURE WITH RESPECT TO AN APPROVED ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE DUBUQUE, IOWA, MARKETING AREA

Whereas, the Secretary of Agriculture, pursuant to Sections 8b and 8c of Title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, hereinafter called the act, tentatively approved on August 17, 1936, a marketing agreement regulating the handling of milk in the Dubuque, Iowa, marketing area, and on September 17, 1936, issued an order regulating the handling of milk in the Dubuque, Iowa, marketing area, such order becoming effective on and after 12:01 a. m., c. s. t., October 1, 1936; and

Whereas, the Secretary, having reason to believe that an amendment should be made to said tentatively approved marketing agreement and said approved order, gave, on the 19th day of December 1936, notice of a hearing to be held on the 29th day of December 1936 at Dubuque, Iowa, on a proposed amendment to said tentatively approved marketing agreement and said approved order, and at said time and place conducted a public hearing at which all interested parties were afforded an opportunity to be heard on the proposed amendment to said tentatively approved marketing agreement and said approved order; and

Whereas, after such hearing and after the approval by the Secretary, on the 23rd day of January 1937, of an amendment to the aforementioned tentatively approved marketing agreement, handlers of more than 50 per centum of the volume of milk covered by the aforementioned approved order and the proposed amendment thereto, which is produced or marketed within the Dubuque, Iowa, marketing area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk;

Now, therefore, the Secretary of Agriculture, by virtue of the authority vested in him by the act, hereby determines:

1. That the refusal or failure of said handlers to sign the said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as will reestablish prices of milk to producers of milk in said area at a level that will give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of such milk in the base period, August 1923-July 1929; and

2. That the issuance of the amendment to such approved order is the only practical means, pursuant to such policy, of advancing the interests of producers of milk in said area; and

3. That the issuance of the amendment to such approved order is approved or favored by over sixty six and two-thirds ($66\frac{2}{3}$) per centum of the producers who, during the month of November 1936, said month being here and now determined by the Secretary to be a representative period, have been engaged in the production of milk for sale in the said area.

In witness whereof, I, H. A. Wallace, Secretary of Agriculture, have executed this determination and have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the city of Washington, District of Columbia, this 19th day of February, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

Approved:

FRANKLIN D ROOSEVELT
The President of the United States
Dated Feb. 19th 1937

[F. R. Doc. 37-556; Filed, February 24, 1937; 12:39 p. m.]

---

AMENDMENT TO ORDER NO. 12, REGULATING THE HANDLING OF MILK IN THE DUBUQUE, IOWA, MARKETING AREA

Whereas, pursuant to Title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, hereinafter called the act, the Secretary of Agriculture, hereinafter called the Secretary, on August 17, 1936, tentatively approved a Marketing Agreement Regulating the Handling of Milk in the Dubuque, Iowa, Marketing Area; and

Whereas, on September 17, 1936, the Secretary issued Order No. 12, regulating the handling of milk in the Dubuque, Iowa, Marketing Area, said order being effective 12:01 a. m., c. s. t., October 1, 1936; and

Whereas, the Secretary, having reason to believe that an amendment should be made to said tentatively approved marketing agreement and said approved order, gave on the 19th day of December 1936 notice of a hearing to be held on the 29th day of December 1936 in Dubuque, Iowa, on a proposed amendment to said tentatively approved marketing agreement and said approved order, and at said time and place conducted a public hearing at which all interested parties were afforded an opportunity to be heard on the proposed amendment to said tentatively approved marketing agreement and said order; and

Whereas, after such hearing and after the approval, on the 23rd day of January 1937, by the Secretary of an amendment to said tentatively approved marketing agreement, handlers of more than 50 per centum of the volume of milk covered by such order, as amended, which is marketed within the Dubuque, Iowa, Marketing Area, refused or failed to sign said tentatively approved marketing agreement, as amended; and

Whereas, the Secretary determined on the 19th day of February 1937, said determination being approved by the President of the United States on the 19th day of February 1937, that said refusal or failure tends to prevent the effectuation of the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as would reestablish prices of milk to producers of milk in said area at a level that would give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of such milk in the base period, August 1923-July 1929, and that the issuance of this amendment to said order is the only practical means, pursuant to such policy, of advancing the interests of producers of milk in said area and is approved or favored by over $66\frac{2}{3}$ per centum of the producers who, during the month of November 1936, said month being determined by the Secretary to be a representative period, have been engaged in the production of milk for sale in the Dubuque, Iowa, Marketing Area; and

Whereas, the Secretary finds, upon the evidence introduced at the hearing on such proposed amendment, said findings being in addition to the findings made upon the evidence introduced at the hearing on said order:

1. That the prices set forth in the order, as amended, will, over a period of time, tend to give milk marketed in the said marketing area a purchasing power, with respect to articles that producers buy, equivalent to, but not above, the purchasing power of such milk in the base period;

2. That the order, as amended, regulates the handling of milk in the same manner as, and is applicable only to handlers specified in, the tentatively approved marketing agreement, as amended, upon which hearings have been held; and

3. That the issuance of the amendment to the order and all the terms and conditions of the order, as amended, will tend to effectuate the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as will reestablish prices of milk to producers of milk in said area at a level that will give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of milk in the base period, August 1923-July 1929;

Now, therefore, the Secretary, pursuant to the authority vested in him by the Act, hereby orders that, from the effective date hereof, handlers, as defined in article I of the order regulating the handling of milk in the Dubuque, Iowa, Marketing Area, shall purchase milk from producers, as defined in article I of said order, in conformity to, and in compliance with, the terms and conditions of said order, as amended, and further orders that said order be and it is hereby amended as follows:

A. Change the minimum Class I price set forth in section 1 of article IV by substituting $2.30 for $1.90 in said section.

In witness whereof, H. A. Wallace, Secretary of Agriculture, acting under the provisions of the Act, does hereby execute in duplicate and issue this amendment to Order No. 12 regulating the handling of milk in the Dubuque, Iowa, Marketing Area, in the City of Washington, District of Columbia, on this 24th day of February 1937, and, pursuant to the provisions hereof, declares this amendment to the said order to be effective on and after 12:01 a. m., c. s. t., March 1, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

NCR—B-1-K

1936 AGRICULTURAL CONSERVATION PROGRAM—NORTH CENTRAL REGION

BULLETIN NO. 1–K

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, North Central Region Bulletin No. 1, Revised, as Amended, is hereby further amended as follows:

Part V, Section 7 is hereby amended to read as follows:

SECTION 7. *Deduction for Failure to Have Minimum Acreage of Soil-Conserving Crops in 1936 Where a Person Owns or Operates More Than One Farm in a County and Makes an Application for Payment with Respect to One or More of Such Farms.*—If a person owns or operates more than one farm in a county and makes an application for payment with respect to one or more of such farms, and if the 1936 acreage of soil-conserving crops on cropland obtained by

(A-1) Determining the number of acres of cropland devoted in 1936 to the production of soil-conserving crops on each farm with respect to which such person makes an application for payment;

(A-2) Multiplying the number of acres determined under (A-1) of this Section 7 for each farm, except any cotton farms and sharecropper farms, by the percentage to be determined in accordance with Section 3 of this Part V;

(A-3) Multiplying the number of acres determined under (A-1) of this Section 7 for each cotton farm and sharecropper farm by a ratio determined by dividing the Gross Class I payment computed for such person for such farm by the Gross Class I payment computed for such farm; but if there is no Gross Class I payment for the farm, the ratio expressed as a percentage shall be determined by dividing 100 percent by the number of persons who participated in the operation of such farm during 1936;

(A-4) Adding the number of acres obtained under (A-2) and (A-3) of this Section 7;

is not equal to or in excess of the number of acres obtained by

(B-1) Determining the number of acres for each farm with respect to which such person makes an application for payment equal to the sum of 15 percent of the general soil-depleting base, 20 percent of the cotton soil-depleting base, 20 percent of the tobacco soil-depleting base, 25 percent of the sugar beet soil-depleting base, 20 percent of the flax soil-depleting base;

(B-2) Multiplying the number of acres determined under (B-1) of this Section 7 for each farm, except any cotton farms and sharecropper farms, by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of this Part V;

(B-3) Multiplying the number of acres determined under (B-1) of this Section 7 for each cotton farm and each sharecropper farm by a ratio determined by dividing the Gross Class I payment computed for such person for such farm by the Gross Class I payment for such farm; but if there is no Gross Class I payment for the farm the ratio expressed as a percentage shall be determined by dividing 100 percent by the number of persons who participated in the operation of such farm during 1936;

(B-4) Adding the number of acres obtained under (B-2) and (B-3) of this Section 7;

a deduction will be made from such person's Gross Class I payment for performance on farms owned or operated in the county with respect to which such person makes application for payment, in an amount obtained by subtracting from the result obtained under (B-4) of this Section 7, the result obtained under (A-4) of this Section 7, and then by multiplying the difference so obtained by one and one-half times the rate per acre applicable to the farm having the highest rate determined pursuant to provisions of Section 2 (a) of Part II.

The provisions of this NCR—B-1—K and of NCR—B-1—J shall be effective as of October 19, 1936, so as to be included within the conditions mentioned in the "Order with respect to payments under the 1936 Agricultural Conservation Program—North Central Region", issued January 6, 1937, as amended.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture, to be affixed in the City of Washington, District of Columbia, this 24th day of February, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

**Food and Drug Administration.**

SRAT No. 11 Issued February 24, 1937

SERVICE AND REGULATORY ANNOUNCEMENTS, TEA NO. 11

STANDARDS UNDER THE TEA ACT

The following standards prepared and submitted by the Board of Tea Experts are hereby fixed and established as standards under the Tea Act for the year beginning May 1, 1937, and ending April 30, 1938:

(1) Formosa Oolong.
(2) Formosa Black.
(3) Congou.
(4) Java (to be used for all fully-fermented teas excepting China, Japan, Formosa).
(5) Japan Black.
(6) Japan Green.
(7) Japan Dust.
(8) Gunpowder (to be used for all China green teas).
(9) Scented Orange Pekoe.
(10) Canton Oolong (to be used for scented Canton and all China Oolongs).

These standards apply to tea shipped from abroad on or after May 1, 1937. Tea shipped prior to May 1, 1937, will be governed by the standards which became effective May 1, 1936.

As standards are now set for the fully-fermented teas Formosa Black and Japan Black, regulation 20 under the Tea Act was modified in 1935 to omit the statment: "Should Japans be made as fermented teas, they are to be examined in comparison with the Congou standard." The Japan and Formosa fermented teas should be judged by their respective standards.

Regulation No. 26 under the Tea Act was amended in 1930 to include Formosa Oolong and as amended reads as follows :

(26) In the case of Ceylon, India, Java, Sumatra, and Formosa Oolong teas the needle leaf and Pekoe tips shall be separated by passing them, together with the dust, through a No. 26 sieve of No. 30 brass wire, after the tea has been sifted through a No. 16 sieve.

FARM CREDIT ADMINISTRATION.

[FCA 27.]

AMENDATORY REGULATION NO. 1 OF THE REGULATIONS RELATIVE TO EMERGENCY CROP AND FEED LOANS IN THE CONTINENTAL UNITED STATES MADE PURSUANT TO THE ACT OF CONGRESS APPROVED JANUARY 29, 1937

FEBRUARY 23, 1937.

Paragraph 7 of the regulations dated February 2, 1937, is hereby amended to read as follows:

7. No loan for the production of crops will be made in an amount greater than the immediate and actual cash needs in the particular case to plant the crop in a manner approved by the Extension Service of the Department of Agriculture.

The immediate and actual cash needs in a particular case must not exceed the actual costs per acre in such case as determined by individual consideration of the various factors involved, e. g., whether it is necessary to purchase seed, feed, fertilizer, spraying material and/or fuel for tractors; the cost thereof; and any other incidental expenses currently incurred in that community in connection with the particular crop to be produced. In no event may loans for crop production purposes exceed the following maximum allowances per acre:

MAXIMUM ALLOWANCES PER ACRE

| | (1) Without commercial fertilizer | (2) Where commercial fertilizer is used | (3) Where commercial fertilizer and spray material, including dust, are used [1] |
|---|---|---|---|
| Grain crops | [2] $3.00 | [2] $4.00 | |
| Cotton | 4.00 | 6.00 | |
| Tobacco | 4.00 | 12.00 | $13.00 |
| Peanuts | 3.00 | 4.50 | |
| Irish potatoes (commercial) | 15.00 | 30.00 | 32.00 |
| Truck (commercial) | 10.00 | 22.00 | 25.00 |
| Miscellaneous crops | 2.50 | 4.00 | |
| Sugar cane | 12.00 | 12.00 | |
| Sugar beets | 8.00 | 12.00 | |
| Rice: | | | |
| When landlord furnishes water | 8.00 | 8.00 | |
| If landlord does not furnish water | 13.00 | 13.00 | |
| Citrus fruit trees (bearing) | 20.00 | 20.00 | 20.00 |
| Other fruit trees (bearing) | 10.00 | 14.00 | 20.00 |

[1] Where spray material, including dust, is used without commercial fertilizer, the allowance for such spray material and dust will be the difference, if any, between the allowances in column (2) and column (3).
[2] Of the grain allowances shown in the table not more than $1.00 shall be used for summer fallowing.

These figures include allowances for fuel, oil, and feed for working stock for crop production purposes and incidental expenses, for which no additional allowances will be made.

Allowances for water charges (including maintenance, electric power and fuel) for crops other than rice grown on irrigated land shall not exceed $3.00 per acre.

Allowances for commercial fertilizer will be made only in areas where commercial fertilizer is customarily used.

The following exception is made to the foregoing table of maximum allowances per acre:

1. The maximum allowance per acre for the purpose of producing and harvesting Irish potatoes (where commercial fertilizer and spray material, including dust, are used) in the State of Florida and in that section known as the "Eastern Shore", which

comprises the State of Delaware and the eastern shore of the States of Maryland and Virginia, shall be $40 per acre.

[FCA 28.]

AMENDATORY REGULATION NO. 2 OF THE REGULATIONS RELATIVE TO EMERGENCY CROP AND FEED LOANS IN THE CONTINENTAL UNITED STATES MADE PURSUANT TO THE ACT OF CONGRESS APPROVED JANUARY 29, 1937

FEBRUARY 23, 1937.

The table of maximum allowances per acre prescribed in paragraph 7 of the regulations dated February 2, 1937, as amended, relative to emergency crop and feed loans in the continental United States made pursuant to the Act of Congress approved January 29, 1937, is hereby amended by adding after the exception to such table a further exception, as follows:

2. The maximum allowances per acre to be loaned to tobacco growers in the States of Connecticut and Massachusetts shall be as follows:

| | |
|---|---|
| Without commercial fertilizer | $4.00 |
| Where commercial fertilizer is used | 30.00 |
| Where spray material, including dust, is also used, add | 3.00 |

[SEAL] W. I. MYERS,
*Governor, Farm Credit Administration.*

## FEDERAL HOME LOAN BANK BOARD.

### Home Owners' Loan Corporation.

BOND RETIREMENT FUND

Whereas Section 4 (k) of the Home Owners' Loan Act of 1933 as amended May 28, 1935, provides:

• • • All payments upon principal of loans made by the Corporation shall under regulations made by the Corporation be applied to the retirement of the bonds of the Corporation • • •;

and

Whereas in the realization of loans made by the Corporation it becomes necessary for the Corporation to acquire some of the properties securing its loans, and to subsequently sell such properties for amounts differing from the unpaid balances of the original loans, and under terms of payment different from those provided in the original loan instruments; and

Whereas because of such acquisitions and sales of properties it becomes necessary for the Corporation to make regulations governing the amounts to be applied to the retirement of its bonds as provided in the hereinbefore quoted section of the Home Owners' Loan Act of 1933; Therefore,

Be it resolved, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647) and particularly by Sections 4 (a) and 4 (k) of said Act as amended, all repayments of principal (upon all loans made under Sections 4 (d), 4 (e), 4 (f), 4 (g), or 4 (m) of said Act, including advances thereon) received prior to the time that any property securing such loans may be acquired by the Corporation through foreclosure proceedings or otherwise shall be deposited monthly in a Bond Retirement Fund; and

Be it further resolved, That in the event of the sale of any loan held by the Corporation, or in the event, at any foreclosure sale of the property securing any loan, the property is sold to a party other than the Corporation, any proceeds received as a result of such sale shall be applied: (1) to the payment of any costs of such sale; (2) to any advances on account of such loans which have not been capitalized, and (3) to any accrued interest capitalized, and the balance of such proceeds shall be deposited in the Bond Retirement Fund; and

Be it further resolved, That in the event the Corporation buys any property at any foreclosure sale or acquires the same otherwise in the liquidation of any loan, and later sells the same, any proceeds arising from such sale shall be applied: (1) to the liquidation of any costs of such foreclosure; (2) and any advances made on account of such loan not capitalized; (3) and then to any accrued interest capitalized, and any balance of such proceeds shall be deposited in the Bond Retirement Fund; and

Be it further resolved, That a sum equivalent to any and all principal proceeds from the sale or surrender of any of the Corporation's investments under Section 4 (n) of the statute shall be deposited in the Bond Retirement Fund; and

Be it further resolved, That the Bond Retirement Fund heretofore established be continued and receive the deposits herein provided for; and

Be it further resolved, That any money in the Bond Retirement Fund shall be used for the retirement of bonds as promptly as is practicable. Upon such retirement of bonds the face amount thereof shall be charged to the Bond Retirement Fund; and

Be it further resolved, That the Comptroller is hereby authorized and directed to establish the necessary accounting procedure to control the amounts to be deposited in the Bond Retirement Fund in accordance with the provisions of this resolution, and to issue proper and necessary authorizations or vouchers on or before the twentieth day of each calendar month, showing the amount to be deposited in the Bond Retirement Fund from the accounts for the preceding month; and

Be it further resolved, That the amounts to be made available for the retirement of bonds of the Corporation shall be as is herein provided, and that all resolutions heretofore adopted on the subject are rescinded; and

Be it further resolved, That beyond the application of the funds herein provided to the retirement of bonds from the Bond Retirement Fund, no other funds of the Corporation shall be applied to the retirement of bonds except upon special resolution after recommendation of the Financial Adviser to the Board and as directed by the Board of Directors.

Adopted by the Board of Directors of Home Owners' Loan Corporation on February 12, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[F. R. Doc. 37-537; Filed, February 24, 1937; 10:28 a. m.]

---

INVESTMENT OF BOND RETIREMENT FUND

Whereas the Corporation is under obligation, as is provided by statute, for the retirement of its bonds, and has provided a Bond Retirement Fund for such purpose, and is under obligation by contract to meet the maturity of its bonds and pay interest on bonds and pay operating expenses; and

Whereas in the operation of the business of the Corporation idle funds will be accumulated to meet such obligations; and

Whereas it is desirable to invest a portion of such idle funds; Therefore

Be it resolved, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647) and particularly by Sections 4 (a) and 4 (k) of said Act as amended, any funds in the Bond Retirement Fund which can not be promptly applied to the retirement of bonds be invested, after recommendation by the Financial Adviser to the Board, as directed by the Board of Directors by special resolution, in obligations of the United States or obligations fully guaranteed by the United States, and any earnings upon such investments shall be deposited in the General Working Fund and any profits or losses as a result of a change in value of such investments shall inure to or be suffered by the General Working Fund; and

Be it further resolved, That idle funds in the General Working Fund not required for operating capital be invested from time to time after recommendation by the Financial Adviser to the Board, as directed by the Board, in obligations of the United States or obligations fully guaranteed by the United States.

Adopted by the Board of Directors of Home Owners' Loan Corporation at a meeting held February 12, 1937.

## INTERSTATE COMMERCE COMMISSION.

APPLICATION FOR AUTHORITY TO TRANSFER CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY, OR PERMITS

NOTICE

FEBRUARY 20, 1937.

Under date of April 28, 1936, Division 5 approved Forms BMC-26 and BMC-27, for use as follows:

*Form BMC-26.*—Applications under Sections 206 and 209, Motor Carrier Act, 1935, for substitution of prospective purchasers in lieu of applicants;

*Form BMC-27.*—Applications under Section 212 (b), Motor Carrier Act, 1935, to transfer certificates of public convenience and necessity, or permits.

Form BMC-26 was released in due course and has been in current use, but Form BMC-27 has been withheld from release pending the actual issuance of certificates and permits. Now that certificates and permits are in the course of issuance, Form BMC-27 [1] is being made available for current use through both the Washington office, and the offices of the various District Directors of the Bureau of Motor Carriers.

Attention is called to the fact that Form BMC-26 must continue to be used in all cases of substitution, while Form BMC-27 must be used in cases where the certificates or permits have actually been issued. Applicants who keep this distinction in mind and are governed accordingly when filing will save the Bureau otherwise unnecessary work and will greatly expedite the disposition of their applications.

[SEAL] GEORGE W. LAIRD, *Acting Secretary.*

---

ORDER

At a Session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 28th day of April, A. D. 1936.

[1] See Footnote 1 on Page 359.

IN THE MATTER OF APPLICATIONS FOR AUTHORITY UNDER SECTION 212 (B), MOTOR CARRIER ACT, 1935, TO TRANSFER CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY, OR PERMITS

The matter of applications under the above title being under consideration:

*It is ordered,* That applications for authority under section 212 (*b*), Motor Carrier Act, 1935, to transfer Certificates of Public Convenience and Necessity, or Permits, shall be in the form and contain the information called for in the form of application attached hereto and made a part hereof.[1]

*It is further ordered,* That the verified original application and two copies thereof shall be filed with this Commission, and that one copy shall be delivered, in person or by registered mail, to the Board, Commission, or official of each State in which each of the applicants operate (or to the Governor where there is no Board, Commission, or official), having authority to regulate the business of transportation by motor vehicle.

By the Commission, Division 5.

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 24th day of February A. D. 1937.

[File No. 2-2562]

IN THE MATTER OF HUMBOLDT MINES, INCORPORATED

ORDER CHANGING TIME OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

The Commission having heretofore, on February 17, 1937, ordered that a hearing under Section 8 (d) of the Securities Act of 1933, as amended, be held in this matter on February 25, 1937; and

The registrant having requested a postponement of such hearing,

It is ordered that such hearing be convened on Wednesday, March 17, 1937, at 10 o'clock in the forenoon, in Room 1103, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that Richard Townsend, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-559; Filed, February 24, 1937; 12:49 p. m.]

[1] Form BMC-27 was filed with the Division of the Federal Register, The National Archives; copies are available upon application to the Interstate Commerce Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 23rd day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE CENTRAL-SOOY FARM, FILED ON FEBRUARY 3, 1937, BY CENTRAL ROYALTIES COMPANY, RESPONDENT

ORDER FOR CONTINUANCE

The Securities and Exchange Commission, having been requested by its counsel for a continuance of the hearing in the above entitled matter, which was last set to be heard at 10:00 o'clock in the forenoon of the 23rd day of February 1937, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and it appearing proper to grant the request;

It is ordered, pursuant to Rule VI of the Commission's Rules of Practice under the Securities Act of 1933, as amended, that the said hearing be continued to 11:00 o'clock in the forenoon of the 10th day of March 1937, at the same place and before the same trial examiner.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 20th day of February 1937.

[File No. 2-50]

IN THE MATTER OF BANKERS UNION LIFE COMPANY

STOP ORDER

This matter coming on to be heard by the Commission on the registration statement of Bankers Union Life Company, Denver, Colorado, after confirmed telegraphic notice by the Commission to said registrant that it appears that said registration statement includes untrue statements of material facts and omits to state material facts required to be stated therein and omits to state material facts necessary to make the statements therein not misleading, and upon the evidence received upon the allegations made in the notice of hearing duly served by the Commission on said registrant, and the Commission having duly considered the matter, and finding that said registration statement includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make statements therein not misleading, all as more fully set forth in the Commission's Findings of Fact and Opinion this day issued, and the Commission being now fully advised in the premises,

It is ordered, pursuant to Section 8 (d) of the Securities Act of 1933, as amended, that the effectiveness of the registration statement filed by Bankers Union Life Company, Denver, Colorado, be and the same hereby is suspended.

By direction of the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-560; Filed, February 24, 1937; 12:49 p. m.]

---

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 23rd day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE PHILLIPS-SHELL-McCAUGHTRY FARM, FILED ON FEBRUARY 16, 1937, BY W. R. CURRY, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that Item 2 (d), Division II, names one operator. Exhibit A indicates two;

(2) In that in Item 13, Division II, the last paragraph is inaccurate with respect to abandoned wells and gas wells in the area;

(3) In that in Item 18, (v) and (vii), Division II, the fact that #3 well is a gas well is overlooked;

(4) In that Exhibit A shows #3 as an oil well and the plat omits showing two abandoned wells in the northeast corner of the tract;

(5) In that Item 19, Division II, states that "the information as shown above by us is very materially the same as that which would be used by an engineer from which he would arrive at the result or the recovery figure." This is not correct;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 25th day of March, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Richard Townsend, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 10th day of March, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 23rd day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE TIDEWATER-HACKETT FARM, FILED ON FEBRUARY 16, 1937, BY LEIGH J. SESSIONS CORP., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that reasons have not been given in Item 3, Division III, for assuming that the undeveloped portion of the tract will be productive over the entire area;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 25th day of March, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Richard Townsend, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 10th day of March, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

## PRESIDENT OF THE UNITED STATES.

ENLARGING THE MONTEZUMA CASTLE NATIONAL MONUMENT—ARIZONA

By the President of the United States of America

A PROCLAMATION

WHEREAS the area in the State of Arizona established as the Montezuma Castle National Monument by Proclamation of December 8, 1906, has situated thereon prehistoric ruins and ancient cliff dwellings which are of great interest to the public; and

WHEREAS it appears that there are certain government-owned lands reserved by Proclamation of September 29, 1919, as a part of Coconino National Forest, adjacent to the boundaries of the said monument, which are required for the proper care, management, and protection of the said prehistoric ruins and ancient cliff dwellings:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, under and by virtue of the authority vested in me by section 1 of the act of June 4, 1897, ch. 2, 30 Stat. 11, 36 (U. S. C., title 16, sec. 473), and section 2 of the act of June 8, 1906, ch. 3060, 34 Stat. 225 (U. S. C., title 16, sec. 431), do proclaim that, subject to all valid existing rights, the following-described lands in Arizona are hereby excluded from the Coconino National Forest and reserved from all forms of appropriation under the public-land laws and added to and made a part of the Montezuma Castle National Monument:

GILA AND SALT RIVER MERIDIAN

T. 14 N., R. 5 E.,
sec. 8, S½SE¼, S½NW¼SE¼, SE¼SW¼, S½NE¼SW¼;
sec. 16, E½NW¼, SE¼SW¼NW¼, N½SW¼NW¼;
sec. 17, N½SE¼NE¼, N½SW¼NE¼, SW¼SW¼NE¼, SE¼NW¼, containing 360 acres.

Warning is hereby expressly given to all unauthorized persons not to appropriate, injure, destroy, or remove any feature of this monument and not to locate or settle upon any of the lands thereof.

The Director of the National Park Service, under the direction of the Secretary of the Interior, shall have the supervision, management, and control of this monument as provided in the act of Congress entitled "An Act To establish a National Park Service, and for other purposes", approved August 23, 1916 (ch. 408, 39 Stat. 535, U. S. C., title 16, secs. 1 and 2), and acts supplementary thereto or amendatory thereof: *Provided*, that the administration of the monument shall be subject to the withdrawal for the Salt River Irrigation project, Arizona.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 23d day of February in the year of our Lord nineteen hundred and
[SEAL] thirty-seven and of the Independence of the United States of America the one hundred and sixty-first.

FRANKLIN D ROOSEVELT

By the President:
CORDELL HULL
*The Secretary of State.*

[No. 2226]

[F. R. Doc. 37-565; Filed, February 24, 1937; 1:11 p. m.]

CUMBERLAND NATIONAL FOREST—KENTUCKY

By the President of the United States of America

A PROCLAMATION

WHEREAS certain forest lands within the State of Kentucky have been or may hereafter be acquired by the United States of America under the authority of sections 6 and 7 of the act of March 1, 1911, ch. 186, 36 Stat. 961, as amended (U. S. C., title 16, sections 515, 516); and

WHEREAS it appears that it would be in the public interest to reserve and designate such lands as the Cumberland National Forest:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, under and by virtue of the authority vested in me by section 24 of the act of March 3, 1891, ch. 561, 26 Stat. 1095, 1103, as amended (U. S. C., title 16, section 471), and by section 11 of the said act of March 1, 1911 (U. S. C., title 16, section 521), do proclaim that there are hereby reserved and set apart as the Cumberland National Forest all lands of the United States within the following-described area, and that all lands therein which may hereafter be acquired by the United States under authority of said act of March 1, 1911, as amended, shall upon their acquisition be reserved and administered as a part of the Cumberland National Forest:

Beginning at a point where the Southern Railroad crosses the Kentucky-Tennessee State line at Jellico, Tennessee; thence with the Kentucky-Tennessee State line in a westerly direction to where the Little South Fork of the Cumberland River crosses said line; thence down Little South Fork to the South Fork; thence down South Fork to the mouth of Cain Branch on the north side of the Martin Bend; thence up said Branch to a point in road about one-fourth of a mile southeast of Grace Hill Church; thence along road passing Grace Hill Church to United States Highway No. 27; thence easterly along said highway to Sugar Tree Road; thence along said road to Sugar Tree Hollow; thence down said Hollow to Cumberland River; thence up said River to the mouth of Baker Spring Creek; thence up said Creek to point in Dixie-Haynes Road near Dixie School; thence along said road to Ford across Cumberland River at a point between Dixie and Haynes Bends; thence up said River to the mouth of Buck Creek; thence up said Creek to the mouth of Whetstone Creek; thence up Whetstone Creek to a point in Whetstone road near head of said Creek and about one-half of a mile south of Acorn, Kentucky; thence along said road to Mount Victory-Acorn road; thence along last named road passing Acorn, Kentucky, to State Highway No. 80; thence along said highway in a northeasterly direction about two and one-half miles to Conrard-Squibb road; thence along said road to Conrard, Kentucky; thence along a road leading northerly, crossing Line Creek, to and up Buffalo Creek, and crossing West Fork of Skagg Creek to the East Fork of Skagg Creek at a point in road about one-half mile above its junction with the West Fork thereof; thence along road up said East Fork about three and three-fourth miles to junction of roads at forks of said Creek; thence along road northeasterly to U. S. Highway No. 25 at Pine Hill, Kentucky; thence along said Highway to the Brush Creek road which leads to Orlando, Kentucky; thence along said road to the Louisville & Nashville Railroad at the junction of Brush and Roundstone Creeks; thence along said railroad to Langford road a point about one-fourth of a mile north of Langford, Kentucky; thence along said road to Clear Creek road; thence along said road to Lowman Hill road a point about one-fourth of a mile north of Disputanta, Kentucky; thence along Lowman Hill road to Climax-Three Links Road; thence along said road to Old Jackson Road; thence along said road to Pine Grove road; thence along said road to Clover Bottom road; thence along said road to State Highway No. 21; thence along said State Highway to Dry Fork road; thence along said road to Brazil-Kerby Knob road; thence along said road to Kerby Knob, Kentucky; thence with a road leading northwesterly to the headwaters of Rock Lick Creek, and northeasterly to the headwaters of Shirley Branch, to the road paralleling Red Lick Creek; thence along said road, to the second crossing of Nellie Henderson Branch near its mouth; thence along the foot of the hill on the southeast side of Red Lick Creek to bend in a road about one-fourth mile south of the mouth of Red Lick Creek; thence along said road, crossing Middle Fork of Station Camp Creek, to a point in curve of road about one-eighth of a mile southwest of where said road crosses Station Camp Creek; thence along the foot of the hill on the west side of Station Camp Creek to a point opposite and about one-half mile west of the mouth of Searcy Creek; thence a straight line to a point where Station Camp Creek road crosses Searcy Creek near its mouth; thence along said road, crossing Jones Branch to River Road a point near South Irvine School; thence along said road, crossing Little and Big Doe Creeks, to the Kentucky River; thence northeasterly along a road crossing Kentucky River near the mouth of Buck Creek, to Pryce, Kentucky; thence along Pryce Road crossing Miller Creek, to State Highway No. 52; thence along said highway about three-fourths of a mile to a road leading southwesterly; thence along said road, passing Millers Creek, Kentucky, to Cow Creek near its mouth; thence up Cow Creek to State Highway No. 52; thence along said highway in a northeasterly direction about one-half mile to Old Cow Creek Road; thence along said road, crossing Cow Creek, Cottage Fork and Campbell Fork to the corporate limits of Irvine, Kentucky; thence with the corporate limits thereof to brow of mountain; thence along brow of mountain overlooking Irvine, Kentucky, and around head of Sweet Lick Branch to a point opposite and northeast of the junction of Sweet Lick Branch and White Oak Creek; thence along divide between said streams to a point on State Highway No. 89; thence along said highway to road up White Oak Creek; thence along road, up White Oak Creek, down Little Hardwick Creek, and up Hardwick Creek to Estill Furnace, Kentucky; thence northerly along road down Cat Creek to State Highway No. 15 near mouth of Cat Creek; thence along said highway to Middle Fork Road about one-fourth

of a mile east of Cow Creek; thence along said road, crossing South Fork of Red River, to a road near the Louisville and Nashville Railroad; thence along said road and up Red River to a point opposite the mouth of Dunwoody Branch; thence along the foot of the hill on the south side of Red River to a point opposite the mouth of Spaas Creek; thence a straight line to a point where road crosses Spaas Creek near its mouth; thence along said road down Red River, crossing Short Creek, Dunwoody Branch and Cane Creek to forks of road on west side of Cane Creek; thence along Cane Creek road to forks of road; thence along Right Fork of Cane Creek road to Hawkins Branch; thence easterly along a road up Hawkins Branch to Fagan, Kentucky; thence along a road down Leatherwood Fork to Leatherwood School; thence along Indian Creek road passing Tabor, Kentucky, to State Highway No. 40, about one and one-fourth miles west of Frenchburg, Kentucky; thence along said highway about two and one-half miles to Old State road leading westerly; thence along said road to Slate Fork; thence along a road up Slate Fork, crossing East Fork, to head of and down Mill Creek and up hill to forks of road on divide between Mill Creek and Blue Bank Creek; thence along road to Blue Bank Creek; thence down Blue Bank Creek passing the mouth of Pond Lick Branch, to a branch coming into said creek from the southeast about one mile south of the Chesapeake and Ohio Railroad; thence along the height of land, crossing the Chesapeake and Ohio Railroad about one and one-eighth miles west of Olympia, Kentucky, and crossing State Highway No. 36 about one mile northwest of Olympia, Kentucky, to the forks of Rose Run; thence down said run about one-half mile to a bend in same; thence along the height of land of Flood Mountain to U. S. Highway No. 60 about one and one-fourth miles northwest of Salt Lick, Kentucky; thence along said highway to Salt Lick Creek; thence up Salt Lick Creek to the Chesapeake and Ohio Railroad; thence along said railroad to Midland, Kentucky; thence along Midland-Yale road up Licking River to a point about one-fourth of a mile west of Hog Hollow; thence a straight line north, crossing Licking River, to a point in road at Carey School; thence northerly along said road to U. S. Highway No. 60 at Farmers, Kentucky; thence along said highway, crossing East Fork of Triplett Creek to Bluestone, Kentucky; thence along the North Fork Triplett road to State Highway No. 32; thence crossing said highway northeasterly along the old North Fork Triplett road to Kiser Branch; thence crossing said branch and along the Martins Branch road to the North Fork Triplett road; thence along said road to Old Johnson road; thence along said road to Johnson Branch; thence along the lower slope east of Big Brushy Creek to Humphrey Branch about one-fourth of a mile above its mouth; thence a straight line to Big Brushy road at the mouth of Colt Branch; thence along said road to Brushy-Cane Creek road; thence with said road to the Fleming-Rowan County line a point near U. S. G. S. Triangulation Station Sand; thence along the Rowan-Fleming, Rowan-Lewis and Rowan-Carter County lines to a point on Rowan-Carter County line between the heads of Holly Fork and Hays Branch; thence along the divide between Holly Fork and Hays Branch, and Little Perry Branch and Hays Branch, to East Fork of Triplett Creek about one-half mile west of Hayes, Kentucky; thence up East Fork of Triplett Creek to the mouth of Buffalo Branch; thence along road, up Buffalo Branch and down Patties Lick Branch to State Highway No. 32; thence along said highway to Vale, Kentucky; thence along road up Walker Branch to ridge and along ridge to Crix Ridge road; thence along said road to Wagoner road; thence along said road to Minor-Poplar Grove road; thence along said road crossing Minor Creek to State Highway No. 173; thence southerly with said highway to Blairs Mills Road a point on the Rowan-Elliott County line at the head of Devils Creek; thence along said road to Blairs Mills Station (Leisure P. O.) Kentucky; thence along a road crossing North Fork of Licking River to Yocum Creek road at Blaize, Kentucky; thence along said road to Caudill Ridge road at Zag, Kentucky; thence along said road to Licking River; thence along a road crossing Licking River at Blackwater Ford to Dan Ridge Road at Dan, Kentucky; thence along said road to State Highway No. 40 at Wellington, Kentucky; thence along said highway to a road leading southerly along Lothan Branch; thence along road down and east of Lothan Branch to Mill Fork Branch; thence down Mill Fork Branch to the cliffs; thence along cliffs east of Mill Fork Branch, around Goss Fork and east of Hiram Brown Branch to a road near the head of Hiram Brown Branch; thence along said road on divide to forks of road near head of Osborne Branch; thence along road to cliffs near the head of Osborne Branch; thence along cliffs east of Osborne Branch and north of Clifty Creek to a point about one-fourth of a mile southwest of Piney Branch; thence crossing Clifty Creek and along the cliffs to the south thereof to a point in road near the head of Solomon Branch; thence along road to the Tut Ford (across Red River); thence crossing Red River and along Calaboose road, passing Calaboose School to Swift Camp Creek about one and one-half miles north of Campton, Kentucky; thence southerly along a road crossing Page Branch about one-half mile to Duff Ridge Road; thence with said road to a point on State Highway No. 15 about about two and one-half miles northwest of Campton, Kentucky; thence along said highway to its intersection with State Highway No. 11 near Pine Ridge, Kentucky; thence along Highway No. 11 to a point over the tunnel of the Louisville and Nashivlle Railroad at Torrent, Kentucky; thence along the Louisville and Nashville Railroad to Fincastle, Kentucky; thence along Fincastle road, passing Shumaker School and crossing Hell Creek to State Highway No. 11; thence along said highway to its junction with State Highway No. 52 at Beattyville, Kentucky; thence along Highway No. 52 about one mile to road down a hollow; thence along said road to Kentucky River; thence up said River to Kentucky State Highway No. 11 at forks of River; thence along said highway to Heidelberg road leading to Idamay, Kentucky; thence along said road, passing Idamay, and down Duck Fork to Sturgeon Creek; thence up Sturgeon Creek to a point about one-fourth of a mile above the mouth of Travis Creek; thence along the divide between Travis Creek on the north and Grassy Creek on the south to a point in Brushy Mountain road along north and south divide; thence along said road to point in intersection of Old Jack Branch road about three-fourths of a mile south of Nantz Triangulation Station; thence along said road crossing Warfork Creek and passing Smith School to State Highway No. 21 near Bradshaw, Kentucky; thence along said highway, passing Gray Hawk, Kentucky, to Old Gray Hawk-Annville road; thence along said road to Gray Hawk-Vicker's road; thence southwesterly along said road to McKee-Annville road; thence along said road to Letter Box road a point near Dabolt, Kentucky; thence along said road to crossroads at Parrott, Kentucky; thence westerly along road down Black Lick to South Fork of Rockcastle River; thence down said South Fork to its junction with the Middle Fork of Rockcastle River; thence down Rockcastle River to old State road a point on the Old Crewe's Ferry Crossing; thence along said road to Mershons, Kentucky, a point on U. S. Highway No. 25; thence southerly along said highway to Old Livingston road; thence westerly about one and one-half miles along said road to a road leading south; thence southerly with said road to Arthur Ridge road a point near Hazelpatch Creek; thence along said road crossing Hazelpatch Creek to Johnson Ridge road; thence along said road to Crab Orchard road; thence along said road to Gillis Branch road; thence along said road to Camper road; thence along said road to State Highway No. 80 at Bernstadt, Kentucky; thence easterly along said highway to Highmore road a point near Dees Store; thence along said road to Sinking Creek road; thence along said road to Abutment road a point near Pine Top School; thence along said road to Sublimity road a point near Benges Store; thence along said road to a point where the center of said road crosses the Castle Craig Coal Company Tract 1520–II on the line between corners 4 and 5 at 0.45 chains S 40°30′ E of corner 4 of said tract; thence with the eastern boundary of tract 1520–II and meanders thereof S 40°30′ E 3.32 chains to corner 5; thence S 31°00′ W 14.18 chains to corner 6; thence S 22°00′ W 6.52 chains to corner 1 which is also corner 1 of the Castle Craig Coal Company tract 1520–I; thence with part of the boundary of said tract and meanders thereof S 57°30′ E 1.15 chains to corner 2; thence S 27°15′ W 4.67 chains to corner 3; thence S 51°00′ W 3.96 chains to corner 4; thence N 40°45′ W 0.54 chains to center of Sublimity road; thence along said road to Corbin-Somerset road; thence along said road to Old Sinking-Woodbine (old Burton road) road; thence with said road passing Bartons Mill to Scuffletown road; thence with said road to State Highway No. 90; thence along said highway to Old Cumberland Falls road; thence along said road to Devils Creek road; thence along said road to Henry Young road; thence along said road to State Highway No. 90; thence easterly along said highway about one-eighth of a mile to Redbird Lane; thence along Redbird Lane to Redbird Bridge across Cumberland River; thence along Redbird Road to a point in forks of road about one-half mile northwest of Williamsburg, Kentucky; thence along road to State Highway No. 92; thence along said highway to spur railroad leading to Bon Jellico, Kentucky; thence along said railroad to the Louisville and Nashville railroad about one and one-fourth miles south of Williamsburg, Kentucky; thence along the Louisville and Nashville railroad to the Southern railroad; thence along the Southern railroad to the beginning.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington, this 23d day of February in the year of our Lord nineteen hundred and [SEAL] thirty-seven and of the Independence of the United States of America the one hundred and sixty-first.

FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL
*Secretary of State*

EXECUTIVE ORDER

WITHDRAWAL OF PUBLIC LANDS FOR EROSION CONTROL DEMONSTRATIONS

*Nevada*

By virtue of and pursuant to the authority vested in me by the act of June 25, 1910, ch. 421, 36 Stat. 847, as amended by the act of August 24, 1912, ch. 369, 37 Stat. 497, it is ordered as follows:

Section 1. Executive Order No. 6910 of November 26, 1934, as amended, temporarily withdrawing all public lands in certain states for classification and other purposes, is hereby revoked as to the following-described tracts of public land in Lincoln County, Nevada:

MOUNT DIABLO MERIDIAN

T. 4 S., R. 59 E., E½ sec. 35, all sec. 36.
T. 5 S., R. 59 E.,
all sec. 1, E½ secs. 2 and 11,
all secs. 12 and 13, E½ sec. 14, NE¼ sec. 23, NW¼ sec. 24.
T. 4 S., R. 60 E., all secs. 31 and 32, W½ sec. 33.
T. 5 S., R. 60 E., W½ sec. 4, all secs. 5, 6, 7, 8, W½ sec. 9, NW¼ sec. 17, N½, SW¼ sec. 18.
T. 1 S., R. 68 E., all sec. 36.
T. 2 S., R. 68 E., all secs. 1 and 22.
T. 1 S., R. 69 E., all sec. 31, S½ sec. 32.
T. 2 S., R. 69 E., S½ secs. 2 and 3, all secs. 4, 5, 6, 7, 8, 9, 10, 11, 12.

SEC. 2. Subject to valid existing rights, the tracts of land described in section 1 of this order are hereby withdrawn from settlement, location, sale, or entry and reserved for use by the Soil Conservation Service, Department of Agriculture, in conducting erosion control demonstrations, a part of such land to be known as the Pahranagat Valley Area and a part as the Panaca Area.

SECTION 3. The withdrawal made by section 2 of this order shall continue in force and effect unless and until revoked by the President or by act of Congress.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

WR—B-101—Arizona Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—ARIZONA

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Arizona, and such modifications or other provisions as may hereafter be made.

The 1937 agricultural conservation program has been developed in accordance with the provisions of sections 8, 15 and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 per cent participation. Such rates of payments, deductions and allowances may be increased or decreased, depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 per cent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 agricultural conservation program in Arizona, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 agricultural conservation program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 agricultural conservation program in Arizona.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 agricultural conservation program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable a State, a political subdivision of a State, or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Sharecropper* means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a proportionate share of a crop produced thereon, or the proceeds thereof.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Crop land* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Total soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Cotton soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of cotton.

*General soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of all soil-depleting crops except the acreage included in the cotton soil-depleting base. Such general soil-depleting base shall be determined by subtracting the cotton soil-depleting base from the total soil-depleting base.

*Soil-conserving base* means the number of acres obtained by subtracting the total soil-depleting base from the total number of acres of crop land excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I Payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I Payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II Payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*General diversion farm* means any farm with respect to which the general soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon the recommendation of the county committee and the State committee, the Secretary may designate for any county, or other area, a different basis for determining general diversion farms.

*Diversion farm* means any general diversion farm, or any farm with respect to which a cotton soil-depleting base is established.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweet potatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Arizona at the rates and subject to the conditions set forth herein.

SEC. 1. *General Diversion Payments.*—With respect to general diversion farms, payment will be made for each acre diverted in 1937 from the general soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States.[2]

SEC. 2. *Cotton Diversion Payments.*—Payment will be made for each acre diverted from the cotton soil-depleting base on the farm in 1937 at the rate of 5 cents for each pound of the normal yield per acre of cotton for the farm on an acreage not to exceed 35 percent of such base except that if such base is 5.7 acres or less, payment may be made for diverting all or any part of such base not to exceed two acres.

SEC. 3. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; *Provided*, That practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 per cent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935 and 1936, and

2. An acreage equal to not less than 20 per cent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets;

*Provided, however*, that if either 1 or 2 alone is performed, the payment will be one-half the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar, by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III—Rates and Conditions of Soil-Building Payment*

SEC. 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on crop land or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm.

The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where in the determination of the State committee such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payment will not be made for more than one practice carried out on the same acreage except that payments will be made for practices prescribed in items A, B, C, D, or E of Section 1 in addition to the practice prescribed in item H of Section 1 of this Part III.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. Perennial Legumes including alfalfa, kudzu, sericea, white clover, ladino, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on crop land in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Biennial Legumes (except sweet clover) including red clover, alsike clover, mammoth clover, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on crop land in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

---

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the crop land on the farm are contained in Western Region Bulletin No. 102.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Perennial grasses including such as are approved by the Director of the Western Division when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.
2. Seeding on crop land in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.
b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Mixtures of perennial and biennial legumes and perennial grasses recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.
2. Seeding on crop land in 1937 when seeded under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.
b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Biennial and Annual Sweet Clover and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.
2. Seeding on crop land under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.
b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

F. Renovation of perennial legumes where perennial legumes have been established and are in need of cultivation for aeration, water percolation, noxious weed control, and reseeding, a payment will be made if fields are renovated, in accordance with specifications issued by the Director of the Western Division, and the noxious weeds, including Johnson grass, white horse nettle, bind weed, nut grass, blue weed, camel's thorn, and death weed, are pulled or burned out between February 1, 1937, and August 15, 1937: $2.00 per acre.

G. Green Manure Crops.

1. Annual or biennial legumes turned under in 1937 after attaining at least two months' growth on *irrigated* crop land: $2.00 per acre.
2. Annual legumes turned under in 1937 after attaining at least two months' growth on *nonirrigated* crop land: $1.00 per acre.
3. Winter small grain crops when grown on crop land preceding or following a 1937 vegetable crop or in commercial orchards in 1937 and turned under after attaining at least two months' growth: $1.00 per acre.

H. Establishment of terraces on cropland in 1937: *Provided, however,* plans for the terracing project are approved in advance by the county committee: $0.40 per 100 linear feet.

I. Contour listing and fallow when effected on non-irrigated cropland and no soil-depleting crop is harvested in 1937: $1.00 per acre.

J. Perennial Noxious Weed Control.—When, after approval of the county committee, seriously infested plots of bind weed, blue weed, camel's thorn, white horse nettle, nut grass, death grass, and Johnson grass are controlled by chemical treatment or by periodic cultivation in accordance with specifications issued by the Director of the Western Division.

1. Chemical Treatment: $10.00 per acre.
2. Periodic cultivation: $5.00 per acre.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.
2. $4.00, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[2] for each acre diverted for payment from the general soil-depleting base.
3. 80 cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[2] for each acre devoted to commercial orchards on the farm.
4. $1.00 for each acre of commercial orchards on the farm.
5. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.
6. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.
7. 50 cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00 or the sum of the following items whichever is greater:

1. 80 cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[2] for each acre of cropland on the farm in 1937.
2. $1.00 for each acre of commercial orchards on the farm.
3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.
4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.
5. 50 cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATES OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank: $50.00 per spring or seep.

[2] See Footnote 2 on Page 365.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is piped to a tank or storage reservoir. An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or a pipe to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, sub-surface drainage or underdrainage, or primarily for any purpose other than the prevention of soil washing. (See Farmers' Bulletin No. 1606, *Farm Drainage*, published by the U. S. Department of Agriculture): $0.10 per 100 linear feet of permanent ditching.

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Pocket gophers: $0.15 per acre.
2. Ground squirrels: $0.06 per acre.
3. Prairie dogs: $0.07½ per acre.

H. *Reseeding.*—For reseeding depleted range land with good seeds of adapted varieties of perennial grasses or forage shrubs as follows; $0.20 per pound of seed sown:

1. Native gramas.
2. Chamiza.

I. *Fire Guards.*—For the establishment of fire guards, not less than four feet in width, by plowing furrows or otherwise exposing the mineral soil: $0.03 per 100 linear feet.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increases in the acreage of soil-depleting crops or deductions for failure to have a sufficient acreage of soil-conserving crops equivalent to cotton acreage diverted for payment.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: *Provided,* all ranch operators signify in the application for payment a percentum of the total payment under the application for payment to be made to each ranch operator.

*Part V.—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants, and share-croppers in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937; *Provided, however,* That—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.
2. If there is no soil-depleting crop seeded on the farm for harvest in 1937 the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the corp, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated, the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of foods, fibers, and feed grains.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops and for Insufficient Acreage of Soil-Conserving Crops.*—A. If the 1937 acreage of soil-depleting crops, except cotton, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section 1, part II, *Provided, however,* that if the general soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton, in excess of 20 acres.

B. If the 1937 acreage of cotton upon a farm is in excess of the cotton soil-depleting base, a deduction will be made

from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate determined for cotton diversion payment for the farm under the provisions of section 2, part II.

C. If the acreage of soil-conserving crops on the farm in 1937, in excess of the soil-conserving base minus the acreage (not greater than the soil-conserving base) devoted to neutral uses in 1937, is less than the acreage of cotton diverted for payment, a deduction shall be made from any payment which otherwise would be made to the applicant at the rate of $3.00 for each acre of cotton diverted for payment in excess of such acreage of soil-conserving crops.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.* A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No Payment will be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.* A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share-tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownership, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII.—Establishment of Bases*

SEC. 1. *Total Soil-Depleting Base.*—There will be established a total soil-depleting base for each farm which shall represent the acreage normally used for the production of all soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 agricultural conservation program, such total soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 agricultural conservation program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 agricultural conservation programs, changes in crop classifications, and further adjustments that will result in a total soil-depleting base for the farm which is comparable with the total soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 agricultural conservation program, the total soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a total soil-depleting base for such farm which is equitable, as compared with the total soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the total soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all crop land in the county, the ratio of the total soil-depleting bases established in a county to the acreage of crop land on all the farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *General Soil-Depleting Base.*—The general soil-depleting base for any farm shall represent for such farm the acreage normally used for the production of all soil-depleting crops except cotton. The general soil-depleting base for any farm shall be the difference between the total soil-depleting base and the cotton soil-depleting base.[1]

SEC. 3. *Cotton Soil-Depleting Base.*—A. The cotton soil-depleting base for the farm in 1937 shall be the cotton soil-depleting base which was established or which could have been established for such farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, and such further adjustments as will result in a cotton soil-depleting base for the farm which is comparable with cotton soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. If for causes other than flood, drought, or other abnormal weather conditions, or, if because of substantial changes in the cotton soil-depleting base by the County Committee in 1936 after planting time, the acreage planted to cotton on the farm in 1936 was less than 50 percent of the cotton soil-depleting base for the farm in 1936, the cotton soil-depleting base for 1937 shall be adjusted downward by the county committee to an acreage not less than 154 percent of the 1936 planted acreage.

C. For farms on which cotton was grown in 1936 for the first time since 1933, a cotton soil-depleting base may be established on the basis of the acreage planted to cotton in 1936, subject to necessary adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, and such further adjustments as will result in a cotton soil-depleting base for the farm which is comparable with cotton soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

D. The sum of the cotton soil-depleting bases for all farms covered by work sheets in any county, or other specified area, shall not exceed their proportionate share of the quota of cotton acreage established for such county or other specified area by the Agricultural Adjustment Administration.

SEC. 4. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of crop land less the total soil-depleting base and the acreage in commercial orchards.

SEC. 5. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII.—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SEC. 1. *Soil-depleting Crops.*—Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

[1] Under the terms of the 1937 program the sugar beet acreage is included in the general soil-depleting base.

a. Small grains including flax, except as indicated under item a, section 2, and under item f, section 3 of this Part VIII.
b. Corn (field, sweet, and popcorn).
c. Potatoes.
d. Sweet potatoes.
e. Sugar beets.
f. Peanuts.
g. Root crops grown for feed.
h. Hemp.
i. Cultivated sunflowers.
j. Mustard (commercial).
k. Rape.
l. Truck and vegetable crops and their seeds; melons and strawberries.
m. Grain sorghums, sweet sorghums, broom corn and sudan grass harvested for seed, grain or hay.
n. Millets.
o. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas harvested for seed, hay or pastured, except as indicated under items e and f, section 3 of this Part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses, and such other legumes and grasses as may be approved by the Director of the Western Division, when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay:

(1) Legumes: Alfalfa, sweet, red, alsike, white, strawberry, Ladino, Mammoth, crimson, bur, and sour clovers; sericea; lespedeza; kudzu.

(2) Grasses: Bluegrass, orchard, brome, wheat grasses, rye grasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reed's Canary grass and velvet grass.

b. Green manure crops consisting of annual and biennial legumes when turned under in 1937, after attaining at least two months' growth.

c. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of the land between the rows.
b. Idle cropland.
c. Cultivated fallow.
d. Bulbs and nursery stock.
e. Cropland planted in 1937 to soil-conserving crops, or mixtures thereof, with or without nurse crops when such nurse crops are not harvested for grain or hay, if, when performance is checked, there is not a good stand of such soil-conserving crops due to uncontrollable natural causes.
f. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the County Committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936, provided, such use of land shall have been approved by the County Committee prior to May 1, 1937.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the County Committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an ap-

peal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-542; Filed, February 24, 1937; 12:33 p. m.]

---

WR—B-101—California Issued January 14, 1937

## 1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

### BULLETIN NO. 101—CALIFORNIA

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—California, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participaiton. Such rates of payments, deductions, and allowances may be increased or decreased depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in California, the following terms shall have the meaning ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in California.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable, a state, a political subdivision of a state, or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Share cropper* means a person who works a farm, in whole or in part, under the general supervision of the operator and is entitled to receive for his labor a proportionate share of a crop produced thereon, or the proceeds thereof.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Crop land* means all farm land which has been tilled and from which at least one crop, other than wild hay, was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards, other than those abandoned.

*Total soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Cotton soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of cotton.

*Rice soil-depleting base* means the number of acres allocated to the farm for the production of rice in 1937.

*General soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of all soil-depleting crops except the acreage included in the cotton and rice soil-depleting bases. Such general soil-depleting base shall be determined by subtracting the sum of the cotton and rice soil-depleting bases from the total soil-depleting base for the farm.

*Soil-conserving base* means the number of acres obtained by subtracting the total soil-depleting base from the total number of acres of crop land excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I payment.

*Rice payment* means a payment made with respect to rice for the production of soil-conserving crops or for practices carried out with relation to rice and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than crop land or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation.

ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*General diversion farm* means any farm with respect to which the general soil-depleting base is equal to, or in excess of, both 20 acres and 20 per cent of the total cropland on the farm. Upon the recommendation of the county committee and the State committee, the Secretary may designate for any county, or other area, a different basis for determining general diversion farms.

*Diversion farm* means any general diversion farm, or any farm with respect to which a cotton or rice soil-depleting base is established.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables, bulbs, or truck crops (including potatoes, sweet potatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion, Sugar Beet and Rice Payments*

Payment will be made in connection with the utilization in 1937, of the land on any farm in the State of California at the rates and subject to the conditions set forth herein:

SECTION 1. *General Diversion Payments.*—With respect to general diversion farms, payment will be made for each acre diverted in 1937 from the general soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States.[2]

SEC. 2 *Cotton Diversion Payment.*—Payment will be made for each acre diverted from the cotton soil-depleting base on the farm in 1937 at the rate of 5 cents for each pound of the normal yield per acre of cotton for the farm on an acreage not to exceed 35 percent of such base, except that if such base is 5.7 acres or less, payment may be made for diverting all or any part of such base not to exceed two acres.

SEC. 3. *Rice Payment.*—Payment will be made with respect to any farm on which rice is grown in 1937 to each producer participating in the production of such rice, in an amount equal to 20 cents for each 100 pounds of the producer's domestic consumption quota of rice, or such part thereof as may be applicable under the provisions hereinafter set forth; provided, an acreage of rice land equal to not less than 25 percent of the producer's base rice acreage is devoted to soil-conserving crops by the producer in 1937.

A. In the event the acreage planted to rice by the producer in 1937 is equal to not less than 85 percent nor more than 100 percent of his base rice acreage, payment will be made on the full amount of the producer's domestic consumption quota of rice;

B. In the event the acreage planted to rice by the producer in 1937 is less than 85 percent of his base rice acreage, payment will be made on that portion of the producer's domestic consumption quota of rice which is equal to the ratio that the producer's 1937 acreage planted to rice bears to 85 percent of such producer's base rice acreage;

C. In the event the acreage planted to rice by the producer in 1937 is equal to more than 100 percent but not more than 125 percent of his base rice acreage, payment will be made on that portion of the producer's domestic consumption quota of rice which is equal to the ratio that 125 percent of such producer's base rice acreage minus the producer's 1937 acreage planted to rice bears to 25 percent of such producer's base rice acreage.

SEC. 4. *Sugar Beet Payment.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. A green manure or cover crop is planted on not less than 80 percent of the acreage of sugar beets grown in 1937 immediately following the harvest of the sugar beets, and is turned under in the fall or winter after 90 days' unpastured growth; or

C. A green manure or cover crop was turned under on not less than 80 percent of the acreage planted to sugar beets in 1937 immediately preceding the planting of the sugar beets; or

D. Sugar beets are grown in 1937 only on land devoted to perennial or biennial legumes in 1936; or

E. The total acreage planted to sugar beets in 1937 is qualified under a combination of A, B, C, or D above; or

F. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935 and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets. Provided, however, that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III—Rates and Conditions of Soil-Building Payments*

SEC. 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

Section shall not be eligible for payment unless such practices are carried out in a locality where in the determination of the State Committee such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage, except that payments will be made for any one of the practices prescribed in Items A, B, C, D, E, F, or L in addition to the practices prescribed in Items M or P of section 1 of this Part III.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Perennial legumes,* including alfalfa, ladino, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

B. *Biennial legumes* (except sweet clover), including red, alsike, and Mammoth clovers, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

C. *Sweet Clover,* and such annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on crop land in 1937 under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

D. *Perennial grasses,* including Harding, orchard, brome, wheat grasses (except crested wheat-grass), Rhodes, rye grasses, Reed's canary, timothy, redtop, meadow fescue, and Dallis grasses, and such other perennial grasses as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

E. *Mixtures of perennial and biennial legumes and perennial grasses* as are recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, when seeded under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

F. *Crested Wheat Grass* seeded on crop land in 1937: $3.00 per acre.

G. *Restoration of Land to Native Grasses* on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices, should be permanently devoted to grass; provided, that (1) The operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass; (2) Approval has been obtained from the County Committee; (3) Such land is not pastured, cropped or tilled in 1937, and (4) Any volunteer growth containing noxious weeds is clipped before formation of viable seeds: $0.25 per acre.

H. *Cover and Green Manure Crops.*—

1. Winter crops, including Vetches—common (Oregon, spring), purple, hairy (sand, winter, Russian, Siberian), calcarata (Bard), smooth, wooly pod, monantha; horse beans; Tangier peas; Wedge peas; Field peas—Canadian yellow, Austrian winter; Clovers—sour, white, hubam, bur, berseem; Fenugreek; Mustards—white, black, Trieste; white malva; and such other winter cover and green manure crops as are approved by the Director of the Western Division, when grown on crop land in 1937, and (a) if turned under in 1937 after having attained at least 90 days' unpastured growth, or (b) if pastured and turned under in 1937 shall have attained at least 60 days' growth before pasturing and 30 days' growth after pasturing before turned under, or (c) if interplanted in orchards may be allowed to mature provided the vegetation is incorporated into the surface soil in 1937 and no part thereof is removed from the land where grown, either mechanically or by pasture: $2.00 per acre.

2. Summer crops, including soybeans, cowpeas, Dolichos; blackeye, Hopi lima, pink velvet, mat, and mung beans, calcarata and smooth vetches, guar, sesbania, and such other summer cover crops as are approved by the Director of the Western Division when seeded and grown on irrigated crop land in 1937, and (a) if turned under in 1937 before maturity after having attained at least 60 days' unpastured growth, or (b) if clipped in 1937 providing the clippings were not raked or removed from the land where grown, either mechanically or by pasture, or (c) if partially pastured and turned under in 1937, such pasturing was not started until after such crops were in bloom, not more than one half of the total growth was removed by pasturing, and the balance turned under in 1937 before reaching maturity: $2.00 per acre.

3. Volunteer cover and green manure crops when grown in 1937 on crop land which was seeded to a soil-depleting crop for harvest in 1936, if a stand equivalent to a seeded cover crop is turned under after March 1, 1937, but prior to May 1, 1937, without pasturing, and no soil-depleting crop is seeded for harvest in 1937 on such land: $1.00 per acre.

4. Volunteer cover and green manure crops when grown in 1937 in grain stubble, if a stand equivalent to a seeded cover crop is turned under in 1937, providing (a) the stubble was not plowed or burned following the harvest of the soil-depleting crop, and (b) no soil-depleting crop is seeded in 1937 on such land: $0.50 per acre.

5. Planned volunteer cover and green manure crops consisting of Mustards—white, black, Trieste; white malva; annual clovers and mixtures thereof, and such other crops as are approved by the Director of the Western Division when grown in 1937 in commercial orchards and other perennial plantings including hops, asparagus and artichokes, if a stand equivalent to a seeded crop is turned under prior to June 1, 1937, providing, the volunteer growth is the result of practices followed in previous years of allowing the seed of such crops to mature and reseed before turning under: $1.50 per acre.

I. *Renovation of Orchard Lands.*—

1. Seeding and establishment in 1937 of a good stand of perennial legumes or perennial grasses or mixtures thereof on irrigated crop land from which fruit and nut trees have been removed; if, (a) the main roots are removed, (b) the land is regraded prior to seeding, and (c) prior approval of the county committee is obtained: $5.00 per acre.

2. Seeding and establishment in 1937 of a good stand of perennial legumes or perennial grasses or mixtures thereof on irrigated crop land from which vineyards, and bush and small fruits, not including strawberries, artichokes, asparagus or hops, have been removed; if, (a) the crop residue, including root stocks, are removed, (b) the land is regraded prior to seeding, and (c) prior approval of the County Committee is obtained: $4.00 per acre.

J. *Addition of Organic Matter.*—In orchards, vineyards and other perennial plantings including hops, artichokes, and asparagus.

1. For the application and mechanical incorporation of legume straw into the surface soil in 1937: $0.75 per ton, not to exceed $3.75 per acre.

2. For the application and mechanical incorporation of non-leguminous straw into the surface soil in 1937: $0.50 per ton, not to exceed $2.50 per acre.

K. *Windbreaks.*—

1. When forest trees are planted on crop land in 1937, if not less than 400 trees are planted per acre: $10.00 per acre.

2. When species of forest trees approved by the State Committee are planted in 1937 in rows as windbreaks for citrus or deciduous fruit orchards in Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara and Ventura Counties, if the trees are irrigated periodically after planting, and the interspaces are cultivated sufficiently frequent to control volunteer growth, as follows:

a. In single rows, if the trees are spaced not more than 5 feet apart in single rows not less than 330 feet apart: $0.25 per rod-row.

b. In double rows, if the trees are spaced not more than 8 feet apart in rows not more than 8 feet apart with double rows not less than 330 feet apart: $0.35 per rod of double row.

3. When rye and such other small grains as are approved by the Director of the Western Division are grown in 1937 in strips not less than 4 feet in width on crop land to prevent soil drifting on adjoining crop land, if such crops are not harvested for grain, hay or pastured in 1937: $0.01 per linear rod, not to exceed $0.30 per acre of alternate strips and crops.

L. *Reseeding Non-Crop Pasture Land.*—For reseeding depleted non-crop pasture land in 1937 with good seed of adapted varieties of perennial grasses including western rye, crested wheat, Harding, orchard, meadow fescue and tall oat grasses, or mixtures thereof, and such other perennial grasses or mixtures as are recommended by the State Experiment Station and approved by the State Committee: $0.15 per pound of seed sown not to exceed $1.50 per acre.

M. *Establishment of Terraces* on crop land in 1937 provided, however, that plans for the proposed terracing project are approved in advance by the County Committee: $0.40 per 100 linear feet of terrace constructed.

N. *Perennial Weed Control.*[3]—

1. Chemical treatment, including petroleum, when after obtaining the prior approval of the County Committee, seriously infested areas are controlled by the application of chemicals or petroleums in accordance with specifications issued by the Director of the Western Division: $10.00 per acre.

2. Periodic cultivation, when after obtaining the prior approval of the County Committee, seriously infested areas are controlled by bi-weekly cultivations in accordance with specifications issued by the Director of the Western Division: $5.00 per acre.

3. Flooding, when after determining that possible seepage will not cause damage to adjacent land, and after obtaining the prior approval of the County Committee, seriously infested areas are controlled by cultivation prior to immersing, by surrounding such areas by dikes, and continuous flooding for a period not less than 60 days at a depth sufficient to keep all green growth submerged at all times: $5.00 per acre.

O. *Planting of Sod Pieces.*—For the planting of sod pieces of perennial grasses in 1937, provided the sod pieces are not less than 2 inches thick and in blocks not less than 4 inches square, if planted in rows not more than 4 feet apart with the pieces at intervals of not more than 4 feet in the row and set approximately level with the surface soil: $4.00 per acre.

P. *Prevention of Water Erosion.*—When, after prior approval by the County Committee of proposed plans submitted by the operator, water erosion control practices are carried out in 1937, as follows:

1. For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet, and constructed at intervals so as to result in vertical distances between the furrows, not to exceed one-foot drop on 2 percent slope, two-foot drop on 4 percent slope, three-foot drop on 8 percent slope, or four-foot drop on 12 percent slope: $0.05 per 100 linear feet of furrowing, not to exceed $2.00 per acre.

2. For constructing and maintaining permanent dams for diversion of flood waters, or for filling shallow gullies, not more than four feet deep, when accompanied by the construction of adequate dams to prevent washing out: $0.15 per cubic yard of fill or construction.

Q. *Contour Cultivation.*—When contour listing or contour subsoiling is carried out in 1937 on crop land subject to erosion in accordance with specifications issued by the Director of the Western Division: $1.00 per acre.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[2] for each acre diverted for payment from the general soil-depleting base.

3. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[2] for each acre devoted to commercial orchards on the farm.

4. $1.00 for each acre of commercial orchards on the farm.

[2] See Footnote 2 on Page 371.

[3] Payment for the adoption of perennial weed control practices shall be limited to control of the following noxious weeds: Alkali mallow, Austrian field cress, Bermuda grass, Canada thistle, Henry cress, Klamath weed, Johnson grass, Morning glory, Nut grass, Puncture vine, and Russian knapweed.

5. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season; *Provided, however,* if the normal pasture season is ten months or more, the rate shall be $1.00 for each animal unit in excess of five.

B. For a non-diversion farm, $20.00 or the sum of the following items, whichever is greater:

1. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States, for each acre of cropland on the farm in 1937.[2]

2. $1.00 for each acre of commercial orchards on the farm.

3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season; *Provided, however,* if the normal pasture season is ten months or more, the rate shall be $1.00 for each animal unit in excess of five.

*Part IV—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the County Committee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water in a trough or in a pipe to a tank, watering trough, or reservoir: $50.00 per spring or seep.

B. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

C. *Wells.*—For drilling or digging of wells, including deepening of existing wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is conveyed to a tank or storage reservoir. An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed to a tank or storage reservoir: $1.00 per linear foot.

D. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, or the equivalent thereof, with good sound posts not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

E. *Reseeding.*—For reseeding depleted range land in 1937 with good seed of adapted varieties of perennial grasses, as follows:

1. Crested Wheat Grass in Lassen, Modoc, Plumas, Sierra and Siskiyou Counties only, provided such range land is used exclusively in 1937 for the grazing of range livestock: $0.20 per pound of seed sown.

2. Western Rye, Harding, Orchard, Meadow Fescue, Tall Oat Grasses, or mixtures thereof, in Del Notre, Humboldt, Mendocino, Lake, Sonoma, Napa, Marin, San Mateo, and Santa Cruz Counties only, provided such range land is used exclusively in 1937 for the grazing of range livestock: $0.15 per pound of seed sown.

[2] See Footnote 2 on Page 371.

F. *Fireguards.*—

1. For the establishment of fireguards, not less than six feet in width, by plowing furrows or otherwise exposing the mineral soil: $0.04 per 100 linear feet.

2. For the establishment of fireguards on perennial brush land prior to June 1, 1937, not less than eight feet in width, by slashing and removing the brush: $0.12 per 100 linear feet.

G. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching for the purposes of irrigation, sub-surface drainage or underdrainage, or primarily for any purpose other than the prevention of soil washing (See Farmers' Bulletin No. 1606, "Farm Drainage", published by the U. S. Department of Agriculture): $0.10 per 100 linear feet of permanent ditching.

H. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice if, (1) the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, or (2) the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

I. *Tanks and Troughs.*—For constructing or installing permanent wooden, metal, or concrete tanks or troughs for watering range livestock at points remote from the primary source of stock water in order to conserve range forage adjacent to such water source, or to prevent damage to such forage by migration of the livestock, when installations are carried out in accordance with specifications approved by the Director of the Western Division: $0.25 per cubic foot capacity, not to exceed $25.00 each.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increases in acreage of soil-depleting crops or for deductions for failure to have a sufficient acreage of soil-conserving crops equivalent to the cotton acreage diverted for payment.

SEC. 4. *Eligibility for Payment.*—Application for range-building payment may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: Provided, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet, rice and range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937: *Provided, however,* That

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State Committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments except sugar beet, rice and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated, the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping, or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for increase in Acreage of Soil-Depleting Crops and for Insufficient Acreage of Soil-Conserving Crops.*—A. If the 1937 acreage of soil-depleting crops, except cotton and rice, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1 of Part II: *Provided, however,* That if the general soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton and rice, in excess of 20 acres.

B. If the 1937 acreage of cotton upon a farm is in excess of the cotton soil-depleting base, a deduction will be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate determined for cotton diversion payment for the farm under the provisions of Section 2 of Part II.

C. If the acreage of soil-conserving crops on the farm in 1937, in excess of the soil-conserving base minus any acreage (not greater than the soil-conserving base) devoted to neutral uses in 1937, is less than the acreage of cotton diverted for payment, a deduction shall be made from any payment which otherwise would be made to the applicant at the rate of $3.00 for each acre of cotton diverted for payment in excess of such acreage of soil-conserving crops.

D. In the event the acreage planted to rice by a producer participating in the production of rice in 1937 is in excess of 125 percent of his base rice acreage, a deduction will be made from any payments which otherwise would be made to such producer in an amount obtained by multiplying the number of acres planted to rice by such producer in 1937 in excess of 125 percent of his base rice acreage by the rate per acre determined under the provisions of Section 1 of Part II.

E. If the acreage of riceland devoted to the production of soil-conserving crops by a producer participating in the production of rice in 1937 is less than 25 percent of his base rice acreage, any payment that otherwise would be made to such producer with respect to rice shall not exceed that percentage of any amount determined under the provisions of Section 3 of Part II which is computed by dividing the actual acreage of riceland devoted to the production of soil-conserving crops by the producer in 1937 by 25 percent of his base rice acreage.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld, in whole or in part, and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county, the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been ex-

ecuted either in 1936 or 1937 covering all land in the county owned or operated by him, and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share-tenant, ranch operator or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VIII.—Establishment of Bases*

SEC. 1. *Total Soil-depleting base.*—There will be established a total soil-depleting base for each farm which shall represent the acreage normally used for the production of all soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such total soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a total soil-depleting base for the farm which is comparable with total soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the total soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a total soil-depleting base for such farm which is equitable, as compared with the total soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the total soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland on all farms in the county, the ratio of total soil-depleting bases established to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Cotton Soil-Depleting Base.*—A. The cotton soil-depleting base for the farm in 1937 shall be the cotton soil-depleting base which was established or which could have been established for such farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, and such further adjustments as will result in a cotton soil-depleting base for the farm which is comparable with cotton soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming and farming practices.

B. If for causes other than flood, drouth or other abnormal weather conditions, or, if because of substantial changes in the cotton soil-depleting base by the County Committee in 1936 after planting time, the acreage planted to cotton on the farm in 1936 was less than 50 percent of the cotton soil-depleting base for 1937 shall be adjusted downward by the County Committee to an acreage not less than 154 percent of the 1936 planted acreage.

C. For farms on which cotton was grown in 1936 for the first time since 1933, a cotton soil-depleting base may be established on the basis of the acreage planted to cotton in 1936, subject to necessary adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, and such further adjustments as will result in a cotton soil-depleting base for the farm which is comparable with cotton soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

D. The sum of the cotton soil-depleting bases for all farms covered by work sheets in any county, or other specified area, shall not exceed their proportionate share of the quota of cotton acreage established for such county or other specified area by the Agricultural Adjustment Administration.

SEC. 3. *Rice Soil-Depleting Base.*—There shall be established as part of the total soil-depleting base for the farm a rice soil-depleting base which shall be equal to that number of acres allocated to the farm by each producer participating in the production of rice on such farm from each such producer's base rice acreage.

SEC. 4. *General Soil-Depleting Base.*[1]—The general soil-depleting base for any farm shall represent for such farm the acreage normally used for the production of all soil-depleting crops, except cotton and rice. The general soil-depleting base for any farm shall be the difference between the total soil-depleting base and the sum of the cotton and rice soil-depleting bases.

SEC. 5. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the total soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 6. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration, and approved by the Secretary.

SEC. 1. *Soil-Depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Corn (field, sweet and popcorn).
b. Potatoes.
c. Sweet potatoes and yams.
d. Sugar beets for sugar or seed.
e. Cultivated sunflowers.
f. Annual truck, canning, and vegetable crops, and their seeds.
g. Melons.
h. Sorghums, including sudan grass, milo maize, Egyptian corn, broom corn, and other grain and sweet sorghums, for seed, grain, hay, or pasture.
i. Small grains including flax for grain or hay; or pasture, except as classified under Item a of Section 2 of Part VIII.
j. Millets.
k. Soybeans, field beans, cowpeas, field peas, and seed peas, for grain, hay, pasture, or canning purposes, except as classified under Item b of Section 2 of Part VIII.
l. Root crops grown for feed or seed.
m. Cotton.
n. Rice.
o. Fiber plants including hemp.
p. Commercial Mustard.
q. Tobacco.
r. Annual cut flowers and their seeds.
s. Peanuts.
t. Volunteer grains when cut for hay or grain.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following uses or crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII), shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following grasses and legumes, and such other grasses and legumes as may be approved by the Director of the Western Division, without a nurse crop, or with a nurse crop if such nurse crop is not harvested for grain or hay:

1. Legumes: Alfalfa, sweet, red, alsike, white, strawberry, ladino, Mammoth, crimson, bur, and sour clovers; lespedeza; vetches; Austrian winter peas; and mixtures thereof.

2. Grasses: Bluegrass, orchard, wheatgrasses, ryegrasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reed's canary grass, velvet, Harding, Dallis, Rhodes, brome, buffalo, and grama grasses, and mixtures thereof.

3. Grass and Legume Mixtures: Mixtures of 1 and 2 above.

b. Cover and green manure crops, consisting of annual, biennial and perennial legumes; rye, barley, oats, and grain mixtures; mustards—white, black, Trieste; white malva; and such other crops as may be approved by the Director of the Western Division; when turned under in 1937, after attaining at least two months' growth.

c. Forest trees when planted on cropland since January 1, 1934.

d. Cropland adapted to the production of rice for which water is readily available and on which no soil-depleting crop is grown for harvest in 1937. (This classification is applicable only with respect to the payments which are made with respect to rice.)

e. Volunteer grain and legume mixtures used for pasture in 1937.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, tree fruits, nut trees, bush, and small fruits, including strawberries, regardless of the use of the land between the rows.

b. Perennial vegetables, including asparagus, artichokes, horse-radish, and rhubarb.

c. Nursery stocks, including perennial ornamentals and perennial cut flowers, and their seeds.

d. Guayule.

e. Bulbs.

f. Idle cropland including idle fallow, except as classified under Item d of Section 2 of Part VIII.

g. Cultivated summer fallow, except as classified under Item d of Section 2 of Part VIII.

h. Cropland planted to forest trees between January 1, 1930, and January 1, 1934.

i. Hops.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the county committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 14th day of January 1937.

[SEAL]

H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-543; Filed, February 24, 1937; 12:33 p. m.]

[1] Under the terms of the 1937 Agricultural Conservation Program the sugar beet acreage is included in the general soil-depleting base.

WR—B-101——Colorado Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—COLORADO

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Colorado, and such modification or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions

of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Colorado, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Colorado.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable, a state, a political subdivision of a state, or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Crop land* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937 to orchards or vineyards other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of cropland excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base, and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in, the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon recommendation of the County Committee and the State Committee the Secretary may designate, for any county, or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, vineyards, or bush fruits, on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweet-potatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Colorado at the rates and subject to the conditions set forth herein.

SECTION 1. *Diversion Payments.*—With respect to diversion farms, payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States.[2]

SECTION 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets:

*Provided, however*, that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce, 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvesting in the United States in 1937.

*Part III—Rates and Conditions of Soil-Building Payment*

SECTION 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on crop land or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage except that payments will be made for practices prescribed in Item A, Item B, Item C, Item D, or Item E of Section 1, in addition to the practices prescribed in Item G, or Item K; and payments will be made for the practice prescribed in sub-item 1 of Item M in addition to the practice prescribed in sub-item 2 of Item M.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. Perennial Legumes including alfalfa, white clover, red clover, alsike clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 Per Acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.50 Per Acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Perennial Grasses including bluegrass, orchard, Bermuda, brome, grama, buffalo, wheat grasses, (except crested wheat grasses) rye grasses, timothy, redtop, and such other perennial grasses as are approved by the Director of the Western Division, when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 Per Acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 Per Acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Sweet Clover: Biennial and Annual Sweet Clover and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 Per Acre.

2. Seeding on crop land under either of the following conditions: $1.00 Per Acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Crested Wheat Grass seeded on cropland in 1937: $3.00 Per Acre.

E. Mixtures of Perennial and Biennial Legumes and Perennial Grasses recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 Per Acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 Per Acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

F. *Planting of Sod Pieces of Perennial Grasses.*—

1. The planting of sod pieces of approved perennial grasses between February 1, 1937, and October 31, 1937, the sod pieces to be cut to a depth of approximately two inches and in blocks not less than four inches square. The sod pieces are to be planted in rows not more than four feet apart with the pieces at intervals of not more than four feet in the row and set approximately level with the surface soil: $4.00 per acre.

G. Green Manures—Legumes—when soybeans, cowpeas, or field peas are seeded on cropland between January 1, 1937, and July 31, 1937, and plowed under after attaining at least two months growth; provided, however, that when planted in orchards or vineyards the entire growth may be

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

allowed to remain on the land without turning under: $2.00 Per Acre.

H. Winter Cover Crops—Legumes—when winter vetch or crimson clover is grown preceding or following a vegetable crop or in an orchard or vineyard, in 1937, and plowed under after attaining at least two months' growth: $2.00 Per Acre.

I. Winter Cover Crops—Non-Legumes—when winter barley or rye is grown preceding or following a vegetable crop or in an orchard or vineyard in 1937, and plowed under after attaining at least two months' growth: $1.00 Per Acre.

J. Addition of Organic Material in orchards and vineyards at a rate of not less than five tons dry weight per acre, between February 1, 1937, and October 31, 1937, provided such organic material is mechanically incorporated into the soil: $5.00 per acre.

K. Establishment of terraces on cropland in 1937, provided, however, plans for the terracing project are approved in advance by the County Committee: 40 cents per 100 linear feet.

L. *Forest Trees.*—

1. Planting of trees on cropland in 1937, provided the land is maintained in a good state of cultivation and plantings are protected from livestock, with not less than 200 living trees per acre at the time performance is checked: $10.00 Per Acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacement of any dead trees to not less than 200 living trees per acre at the time performance is checked: $4.00 Per Acre.

M. In the counties of Adams, Arapahoe, Baca, Bent, Boulder, Cheyenne, Crowley, Douglas, Elbert, El Paso, Huerfano, Kiowa, Kit Carson, Larimer, Las Animas, Lincoln, Logan, Morgan, Otero, Phillips, Prowers, Pueblo, Sedgwick, Washington, Weld, Yuma, and such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division:

1. Controlled summer fallowing when tilled in such manner and with such implements as will result in minimum of wind and water erosion, by creating and maintaining a rough-cloddy surface, reasonably free from volunteer growth. First tillage operation to be performed prior to June 15, 1937: $0.50 per acre.

2. Establishment of strip cropping and fallow, the fallow strips (two or more strips of fallow) to be not less than five rods nor more than 20 rods in width, with intervening strips of small grain crops, sorghum or sudan grass, close drilled or broadcast, or small grain stubble, provided, however, at least one third the area is covered by strips of crop or small grain stubble. Payment will not be made for this practice if there is planted in 1937 a fall seeded crop of rye or wheat on the strips devoted in 1937 to crops or small grain stubble. The first tillage operation must be completed before June 15, 1937, strips to be approximately at right angles to the prevailing winds. Payment will be made on the acreage of fallow or the acreage devoted to crop (or stubble), whichever is the smaller, and only with respect to the acreage of strip cropping and fallow which is in addition to the acreage used for that practice in 1936: $1.00 Per Acre.

3. Contour listing of cropland in the process of natural reseeding to native pasture; provided, however, that sufficient natural cover is maintained to insure protection against wind erosion, and such land is not grazed in any manner whatsoever in 1937: $1.00 Per Acre.

4. Restoring to native grass of land on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices, should be permanently devoted to grass; provided; (1) the operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass; (2) approval has been obtained from the county committee; and (3) such land is not pastured, cropped, or tilled in 1937: $0.25 Per Acre.

5. Fall or winter listing of cropland at approximately right angles to the prevailing winds to control wind erosion, in such manner, and time of listing as are approved in advance by the County Committee: $0.25 Per Acre.

6. Planting of cover crops to control wind erosion:

Sudan grass or sweet sorghums when planted in rows not greater than 42 inches apart or any sorghum or Sudan grass when close drilled or broadcast: *provided, however,* that no portion of the crop is harvested or pastured in any manner whatsover. The county committee shall approve this practice only when the prior approval of the community committee has been obtained: $2.00 Per Acre.

N. The Following Practices Will be Applicable only to Non-Crop Pasture Acreage:

1. For reseeding depleted non-crop pasture land with good seed of adapted varieties of perennial grasses. Payment not to exceed $2.00 per acre: $0.20 per pound of seed sown.

2. For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

O. *Perennial Noxious Weed*[3] *Control.*—When after the approval of the County committee, seriously infested plots of weeds listed below are controlled by periodic cultivation or chemical treatment in accordance with specifications issued by the Director of the Western Division.

1. Chemical treatment: $10.00 Per acre.
2. Periodic cultivation: $5.00 Per acre.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States[2] for each acre diverted for payment from the general soil-depleting base.

3. 80 cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[2] for each acre devoted to commercial orchards on the farm on January 1, 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. 50 cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00 or the sum of the following items whichever is greater:

1. 80 cents, varying among individual farms as the productivity of the cropland on the farm varies from average productivity of all such cropland in the United States for each acre of cropland on the farm in 1937.[2]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

[2] See Footnote 2 on Page 379.

[3] Perennial Noxious Weeds shall include: Canadian thistle, bindweed, or wild morning glory, leafy spurge, Russian knapweed, white top or hoary cress and white ragweed.

4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. 50 cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range-Building Payments*

SECTION 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937, such of the following range-building practices as are approved by the county committee for the ranching unit, prior to their institution;

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is piped to a tank or storage reservoir. An artesian well may qualify for payments provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or a pipe to a tank or storage reservoir. $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, subsurface drainage or under-drainage, or primarily for any purpose other than the prevention of soil washing. (See Farmers' Bulletin No. 1606, *Farm Drainage*, published by the U. S. Department of Agriculture.) $0.10 per 100 linear feet of permanent ditching.

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched. $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Pocket Gophers: $0.15 per acre.
2. Prairie Dogs: $0.07½ per acre.
3. Ground Squirrels: $0.06 per acre.

H. *Reseeding.*—For reseeding depleted range land with good seeds of adapted varieties of perennial grasses as follows: $0.20 per pound of seed sown:

1. Crested Wheat Grass.
2. Slender Wheat Grass.
3. Western Wheat Grass.
4. Brome Grass.

I. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deduction for increase in acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: Provided, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment, to be made to each ranch operator.

*Part V—Division of Payments*

SECTION 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beets and range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937: *Provided, however,* that—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants, in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SECTION 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allot-

ment Act. In event that any such county or other area is designated the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section I, Part II; *Provided, however,* That if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal Agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such Counties the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share-tenant, ranch operator, or such other persons as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining Counties shall be regarded as located in the County in which the principal dwelling thereon is located, or, if there is no such principal dwelling, on such farming or ranching unit, shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SECTION 1. *Soil-depleting Base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of all soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classification, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops, seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the "aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland in the county, the ratio of the soil-depleting bases established in a county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodent and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committe or the Agricultural Adjustment Administration and approved by the Secretary.

SECTION 1. *Soil-depleting Crops.*—Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under item a of section 2 and item d of section 3 of this part VIII.
b. Corn (field, sweet, and popcorn).
c. Potatoes.
d. Sugar Beets.
e. Root crops grown for feed.
f. Cultivated sunflowers.
g. Mustard (commercial).
h. Rape.
i. Truck and vegetable crops and their seed, melons and strawberries.
j. Grain sorghums, sweet sorghum, broom corn and sudan grass harvested for seed, grain, or hay.
k. Millets.
l. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed or hay except as indicated under item d of section 3 of this part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of section 1, part VIII), shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and grasses and such other legumes and grasses as may be approved by the Director of the Western Division when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay: alfalfa, alsike clover, sweet clover, red clover, bluegrass, orchard grass, brome grass, Bermuda grass, buffalo grass, wheat grasses, rye grasses, timothy, and red top.
b. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Idle cropland.
b. Cultivated fallow.
c. Artichokes, bulbs, nursery stocks.
d. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936; provided such use of land shall have been approved by the County Committee prior to May 1, 1937.
e. Orchards, vineyards, nut trees, and bush fruits.
f. Small grains seeded as a winter crop and pastured, but not harvested for grain or hay.

*Part IX—Appeals*

SECTION 1. *Appeals from determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment determined for his farm or ranching unit by the county committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-544; Filed, February 24, 1937; 12:33 p. m.]

---

WR—B-101—Idaho Issued January 14, 1937

## 1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

### BULLETIN NO. 101—IDAHO

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of Section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Idaho, and such modification or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased, de-

pending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Idaho, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Idaho.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable a State, a political subdivision of a State or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Cropland* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of cropland, excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government or any agency thereof, in which a range operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon recommendation of the county committtee and the State committee, the Secretary may designate for any county or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables, bulbs, or truck crops (including potatoes, sweet potatoes, and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Idaho at the rates and subject to the conditions set forth herein.

SECTION 1. *Diversion Payments.*—With respect to diversion farms, payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States.[2]

SEC. 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

[1] Two yearlings equal one cow or one horse. A calf or colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however,* that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III.—Rates and Conditions of Soil-Building Payment*

SEC. 1. *Soil-Building Payment.*—Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building practice allowance for the farm.

The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. Perennial legumes including alfalfa, red clover, white clover, Ladino clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on cropland in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre.

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Biennial legumes (except red clovers and sweet clovers) including alsike, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on crop land in 1937 when good seed of an adapted variety is used under either of the following conditions, $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Perennial grasses including blue grass, orchard, brome, rye grasses, bent grass, fescues, tall oat grass, and wheat grasses except crested wheat grass and such other perennial grasses as are approved by the Director of the Western Division when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Mixtures of perennial and biennial legumes and perennial grasses recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on cropland in 1937 when good seed of an adapted variey is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Crested Wheat Grass seeded on cropland in 1937: $3.00 per acre.

F. Biennial and Annual Sweet Clover and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on cropland under either of the following conditions: $1.00 per acre.

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

G. *Reseeding Farm Pastures.*—When perennial grasses or perennial legumes, or mixtures thereof, are seeded on pasture land in 1937: $0.20 per lb. of seed sown. *Payment will not be made in excess of $2.00 per acre.*

H. Winter wheat or rye when seeded in the spring on non-irrigated cropland before June 15, 1937, and utilized only as a cover crop or pastured: $1.00 per acre.

I. *Forest Trees.*—

1. Planting of trees on cropland in 1937, provided the land is maintained in a good state of cultivation and plantings are protected from livestock and with not less than 200 living trees per acre at the time performance is checked: $10.00 per acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacements of any dead trees to not less than 200 living trees per acre at the time performance is checked: $4.00 per acre.

J. *Green Manure Crops.*—

1. When field peas or rye are grown on cropland in 1937 and turned under after attaining at least two months' growth with no utilization for grain, pasture, seed, or canning purposes.

a. Irrigated land:

1. Rye: $1.00 per acre.
2. Peas: $2.00 per acre.

b. Non-irrigated land:

1. Rye: $0.50 per acre.
2. Peas: $0.50 per acre.

K. *Perennial Noxious Weed Control.*—

1. When, after the approval of the county committee, seriously infested plots of the weeds listed below are controlled by periodic cultivation or by chemical treatment in accordance with specifications issued by the Director of the Western Division.

a. Chemical treatment: $10.00 per acre.
b. Periodic cultivation: $5.00 per acre.

This practice is limited to the following weeds:

Canada thistle.
Bind weed or wild morning glory.
White top or Hoary cress.
Leafy spurge.
Russian knapweed.

L. *Controlled fallow.*—

1. *Trashy Fallow.*—When cropland is summer fallowed in such manner as to have all crop residues on or near the surface of the soil to prevent soil erosion from wind or water, and no straw or stubble is burned or otherwise removed from such land: $0.50 per acre.

2. *Establishment of Strip Cropping and Fallow.*—When summer fallow is performed in 1937 in strips not more than 10 rods in width, approximately at right angles to the prevailing winds, alternated with strips of small grain crops or stubble of equal width. Payment to be made on the acreage of fallow land only, and then only when additional to the acreage used for such practice in 1936: $0.50 per acre.

3. *Establishment of Contour Strip Cropping and Fallow.*—When summer fallow is performed in 1937 in strips not more than 10 rods in width, alternated with strips of small grain crops or stubble of equal width, strips to follow the contour of the field, without the burning of stubble or crop residues. Payment to be made on the acreage of fallow land only, and then only when additional to the acreage used for such practice in 1936: $0.75 per acre.

M. Restoring to native grass land on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices, should be permanently devoted to grass: *Provided:* (1) the operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass; (2) approval has been obtained from the county committee; (3) such land is not pastured, cropped or tilled in 1937; and (4) any volunteer growth containing noxious weeds is clipped before seed is formed: $0.25 per acre.

N. Removal of all trees in abandoned orchards and seeding to legumes and grasses. For removal of all trees in abandoned orchards, followed by the seeding and establishment of a good stand of perennial grasses or legumes in 1937. All holes to be filled and leveled: $5.00 per acre.

O. *Application of Soil Amendments.*—

1. Gypsum, in Northern Idaho counties of Boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Clearwater, Idaho, and Lewis, when applied to cropland in 1937, in an amount not less than 200 pounds per acre and in connection with new seedings of legumes or legume-grass mixtures: $2.00 per acre.

2. When superphosphate is applied to new seedings of perennial legumes or legume-grass mixtures in 1937, at a rate not less than 60 pounds available $P_2O_5$ per acre: $2.25 per acre.

SEC. 2. *Combinations of Practices for Soil-Building Payments on the Same Acreage.*—Payments will not be made for more than one soil-building practice carried out on the *same acreage* except as follows:

a. Any one of the practices specified in items A, B, C, D, E, and F in addition to the practice specified in item L–1.

b. Any one of the practices specified in items A, B, and D in addition to either of the practices specified in items O–1 or O–2.

c. The practice specified in item L–1 in addition to either of the practices specified in items L–2 or L–3.

SEC. 3. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[1] for each acre diverted for payment from the soil-depleting base.

3. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[1] for each acre devoted to commercial orchards on the farm on January 1, 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of cropland on which one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of cropland on which *two or more crops* of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season, provided, however, that if the normal pasture season is ten months or more the rate shall be $1.00 for each animal unit in excess of five.

B. *For a non-diversion farm* $20.00 or the sum of the following items whichever is greater:

1. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States, for each acre of cropland on the farm in 1937.[1]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season, provided, however, that if the normal pasture season is 10 months or more the rate shall be $1.00 for each animal unit in excess of five.

*Part IV.—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the County Committee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2 percent, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is piped to a tank or storage reservoir. An artesian well may qualify for payments provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or a pipe to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, sub-surface drainage or underdrainage, or primarily for any purpose other than the prevention of soil washing. (See Farmers' Bulletin No. 1606, *Farm Drainage*, published by the U. S. Department of Agriculture): $0.10 per 100 linear feet of permanent ditching.

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced and with wires tightly stretched: $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Pocket gophers: $0.15 per acre.
2. Ground squirrels: $0.06 per acre.

H. *Reseeding.*—For reseeding depleted range land with good seed of adapted varieties of perennial grasses as follows, $0.20 per pound of seed sown:

1. Brome grass.
2. Crested wheat grass.
3. Slender wheat grass.
4. Western wheat grass.

I. *Fire Guards.*—For the establishment of fire guards, not less than four feet in width, by plowing furrows or otherwise exposing the mineral soil: $0.03 per 100 linear feet.

J. *Railing Sagebrush.*—For destroying sagebrush by use of railroad rails or by other mechanical methods that result in the destruction of at least 75 percent of the sagebrush cover: $0.50 per acre.

K. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increase in the acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators. Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: Provided, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment, to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937; Provided, however, that

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State Committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the County Committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the County Committee, or as is determined by the County Committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms Under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated, the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area. On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

[1] See Footnote 2 on Page 384.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1, Part II; *Provided, however,* That if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the County Committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who may be required to file in the office of the State Committee a list of all such land.

B. An application for payment may be made by an owner, owns or operates land in more than one county in the State share tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SEC. 1. *Soil-depleting base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all crop land in the county, the ratio of the soil-depleting bases established in a county to the acreage of crop land on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil Conserving Base.*—The soil-conserving base shall be equal to the total acreage of crop land less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density or growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SEC. 1. *Soil-Depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under item a, Section 2, and under items d, f, and g, of Section 3 of this Part VIII.
b. Corn (field, sweet, and popcorn).
c. Potatoes.
d. Sweet potatoes.
e. Sugar beets.
f. Root crops grown for feed.
g. Hemp.
h. Cultivated sunflowers.
i. Mustard (commercial).
j. Rape.
k. Truck and vegetable crops and their seeds; melons and strawberries.
l. Grain sorghums, sweet sorghums, broom corn and sudan grass harvested for seed, grain, or hay.
m. Millets.
n. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas harvested for seed, hay, or pastured, except as indicated under item e, of Section 3 of this Part VIII.
o. Flowers and their seeds.
p. Kale.
q. Annual grasses including Italian rye grass and Bromus Secalinus.
r. Cultivated fallow (summer fallow) except as provided in item e, of Section 3 of this Part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of this Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses, and such other legumes and grasses as may be approved by the Director of the Western Division, when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay:

(1) Legumes: alfalfa; sweet, red, alsike, white, strawberry, Ladino, mammoth, crimson and sour clovers; vetch, Austrian winter peas; sericea; lespedeza; kudzu.

(2) Grasses: Blue grass, orchard, brome, wheat grasses, rye grasses, timothy, red top, bent grasses, fescues, tall oat grass, Reed's canary grass.

b. Green manure crops, including annual legumes, rye, when turned under in 1937, after attaining at least two months' growth, when not followed by summer fallow.

c. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of land between the rows.
b. Idle cropland.
c. Bulbs and nursery stock.
d. Cropland planted in 1937 to soil-conserving crops, or mixtures thereof, with or without nurse crops when such nurse crops are not harvested for grain or hay, if, when performance is checked, there is not a good stand of such soil-conserving crops due to uncontrollable natural causes.
e. Any acreage on which perennial or biennial legumes or perennial grasses have been seeded following summer fallow when no soil-depleting crop has been seeded on such land for harvest in 1937.
f. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the County Committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936: *Provided,* such use of land shall have been approved by the County Committee prior to May 1, 1937.
g. Winter wheat or rye seeded in the spring for cover crop purposes.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the County Committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-545; Filed, February 24, 1937; 12:34 p. m.]

---

WR—B-101—Kansas Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—KANSAS

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Kansas, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 8, 15,

and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased, depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Kansas, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Kansas.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable, a state, a political subdivision of a state or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Crop land* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Total soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Cotton soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of cotton.

*Tobacco soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of tobacco.

*General soil-depleting base* means the total number of acreage established for the farm as the acreage normally used for the production of all soil-depleting crops except the acreage included in the cotton and tobacco soil-depleting bases. Such general soil-depleting base shall be determined by subtracting the sum of the cotton and tobacco soil-depleting bases from the total soil-depleting base.

*Soil-conserving base* means the number of acres obtained by subtracting the total soil-depleting base from the total number of acres of cropland excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base, and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices, and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producting range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of rang land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*General diversion farm* means any farm with respect to which the general soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon the recommendation of the county committee and the State committee, the Secretary may designate for any county, or other area, a different basis for determining general diversion farms.

*Diversion farm* means any general diversion farm, or any farm with respect to which a cotton or tobacco soil-depleting base is established.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweet potatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Kansas at the rates and subject to the conditions set forth herein.

SECTION 1. *General Diversion Payments.*—With respect to general diversion farms, payment will be made for each acre diverted in 1937 from the general soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such cropland in the United States.[2]

SECTION 2. *Cotton and Tobacco Diversion Payments.*—A. Payment will be made for each acre diverted from the cotton soil-depleting base on the farm in 1937 at the rate of 5 cents for each pound of the normal yield per acre of cotton for the farm on an acreage not to exceed 35 percent of such base except that if such base is 5.7 acres or less, payment may be made for diverting all or any part of such base not to exceed two acres.

B. Payment will be made for each acre diverted from the tobacco soil-depleting base on any farm in 1937 at the rate of 5 cents for each pound of the normal yield per acre of tobacco for the farm on an acreage not to exceed 25 percent of such base.

SEC. 3. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however,* that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

*Part III—Rates and Conditions of Soil-Building Payment*

SECTION 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this Section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program.

PRACTICES AND CONDITIONS—DATE OF PAYMENT

A. Perennial Legumes including alfalfa, kudzu, sericea, white clover, and such other perenial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used under either of the following: $2.50 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Biennial Legumes including red clover, alsike clover and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay. $3.00 per acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used under either of the following conditions; $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Biennial and Annual Sweet Clover, lespedeza, and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on crop land under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Perennial Grasses including bluegrass, orchard, Bermuda, brome, grama, buffalo, wheat grasses (except crested wheat grass), rye grasses and such other perennial grasses as are approved by the Director of the Western Division, when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Crested Wheat Grass seeded on crop land in 1937: $3.00 per acre.

F. Mixtures of Perennial and Biennial Legumes and Perennial Grasses recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

G. *Planting of Sod Pieces of Perennial Grasses.*—

1. The planting of sod pieces of approved perennial grasses between February 1, 1937, and October 31, 1937, the sod pieces to be cut to a depth of approximately two inches and in blocks not less than four inches square. The sod pieces are to be planted in rows not more than four feet apart with the pieces at intervals of not more than four feet in the row and set approximately level with the surface soil: $4.00 per acre.

H. Green Manures—Legumes—when soybeans, cowpeas, or field peas are seeded on cropland between January 1, 1937, and July 31, 1937, and plowed under after attaining at least two months' growth; provided, however, that when planted in orchards or vineyards the entire growth may be allowed to remain on the land without turning under: $2.00 per acre.

I. Winter Cover Crops—Legumes—when winter vetch or crimson clover is grown preceding or following a vegetable crop or in an orchard or vineyard, in 1937, and plowed under after attaining at least two months' growth: $2.00 per acre.

J. Winter Cover Crops—Non-Legumes—when winter barley or rye is grown preceding or following a vegetable crop or in an orchard or vineyard in 1937, and plowed under after attaining at least two months' growth: $1.00 per acre.

K. Addition of Organic Material in orchards and vineyards at a rate of not less than five tons dry weight per acre, between February 1, 1937, and October 31, 1937, provided such organic material is mechanically incorporated into the soil: $5.00 per acre.

L. *Application of Ground Limestone.*—

1. When applied broadcast in 1937, at a rate of not less than two tons per acre. Such limestone to be ground to such fineness that 90% will pass through a 10-mesh sieve: $3.00 per acre.

2. When drilled in rows in 1937, at a rate of not less than 400 pounds per acre. Such limestone is to be ground to such fineness that 90% will pass through a 100-mesh sieve: $1.00 per acre.

M. *Super-phosphate for Legumes and Perennial Grasses.*—

1. When 16 percent super-phosphate or its equivalent is applied in 1937 at a rate of not less than 150 pounds per acre on land on which alfalfa, red clover or clover mixtures are seeded in 1937: $0.60 per 100 pounds.

N. Establishment of terraces on cropland in 1937, provided, however, plans for the terracing project are approved in advance by the County Committee: 40 cents per 100 linear feet.

O. Contour farming on cropland in 1937, when small grain or intertilled crops are planted or seeded on the contour: *Provided, however,* the slopes are in excess of two percent: $0.50 per acre.

P. *Forest Trees.*—

1. Planting of trees on cropland in 1937: *Provided, however,* the land is maintained in a good state of cultivation and plantings are protected from livestock, with not less than 200 living trees per acre at the time performance is checked: $10.00 per acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacement of any dead trees to not less than 200 living trees per acre at the time performance is checked: $4.00 per acre.

Q. In the counties of Cheyenne, Rawlins, Decatur, Norton, Phillips, Smith, Jewell, Sherman, Thomas, Sheridan, Graham, Rooks, Osborne, Mitchell, Wallace, Logan, Gove, Trego, Ellis, Russell, Lincoln, Ellsworth, Greeley, Wichita, Scott, Lane, Ness, Rush, Barton, Hamilton, Kearny, Finney, Hodgeman, Pawnee, Stafford, Rice, Reno, Stanton, Grant, Haskell, Gray, Ford, Edwards, Kiowa, Pratt, Kingman, Morton, Stevens, Seward, Meade, Clark, Comanche, Barber, Harper, and such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division:

1. Controlled summer fallowing when tilled in such manner and with such implements as will result in minimum of wind and water erosion, by creating and maintaining a rough-cloddy surface, reasonably free from volunteer growth. First tillage operation must be performed prior to June 15, 1937: $0.50 per acre.

2. Establishment of strip cropping and fallow, the fallow strips (two or more strips of fallow) to be not less than five rods nor more than 20 rods in width, with intervening strips of small grain crops, sorghum or Sudan grass, close drilled or broadcast, or small grain stubble, provided, however, at least one-third the area is covered by strips of crop or small grain stubble. Payment will not be made for this practice if there is planted in 1937 a fall seeded crop of rye or wheat on the strips devoted in 1937 to crops or small grain stubble. The first tillage operation must be completed before June 15, 1937, strips to be approximately at right angles to the prevailing winds. Payment will be made on the acreage of fallow or the acreage devoted to crops or stubble, whichever is the smaller, and only with respect to the acreage of strip cropping and fallow which is in addition to the acreage used for that practice in 1936: $1.00 per acre.

3. Contour listing of cropland in the process of natural reseeding to native pasture; provided, however, that sufficient natural cover is maintained to insure protection against wind erosion, and such land is not grazed in any manner whatsoever in 1937: $1.00 per acre.

4. Restoring to native grass of land on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices, should be permanently devoted to grass; provided, (1) the operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass; (2) approval has been obtained from the county committee; and (3) such land is not pastured, cropped or tilled in 1937: $0.25 per acre.

R. The following practice will be applicable only in the counties of Cheyenne, Rawlins, Decatur, Norton, Phillips, Sherman, Thomas, Sheridan, Graham, Rooks, Wallace, Logan, Gove, Trego, Ellis, Greeley, Wichita, Scott, Lane, Ness, Rush, Hamilton, Kearny, Finney, Hodgeman, Pawnee, Stanton, Grant, Haskell, Gray, Ford, Edwards, Kiowa, Morton, Stevens, Seward, Meade, Clark, Comanche, and such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division:

1. Contour listing of cropland to control wind erosion, in such manner and time of listing as are approved in advance by the County Committee: $0.25 per acre.

S. The following practice will be applicable only in the counties of Greeley, Wichita, Scott, Lane, Hamilton, Kearny, Finney, Hodgeman, Stanton, Grant, Haskell, Gray, Ford, Morton, Stevens, Seward, Meade, Clark, and in such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division:

1. Planting of cover crops to control wind erosion:

Sudan grass or sweet sorghums when planted in rows not greater than 42 inches apart or any sorghum or Sudan grass when close drilled or broadcast; *Provided, however,* that no portion of the crop is harvested or pastured in any manner whatsoever. The county committee shall approve this practice only when the prior approval of the community committee has been obtained: $2.00 per acre.

T. The Following Practices Will be Applicable Only to Non-Crop Pasture Acreage:

1. For reseeding depleted non-crop pasture land with good seed of adapted varieties of perennial grasses: $0.20 per pound of seed sown. Not to exceed $2.00 per acre.

2. For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

SEC. 2. *Limitation on Number of Practices on Which Payment May be Made on the Same Acreage.*—Payments, as specified in Section 1 of Part III, will not be made for more than one practice carried out on the same acreage except as follows:

a. Any one of the practices specified in Items A, B, C, and F, together with either or both of the practices specified in items L or M.

b. Any one of the practices specified in items A to J inclusive, or item P, together with the practice specified in item N.

c. The practice specified in item N together with the practice specified in item O.

d. The practice specified in item Q–1 together with the practice specified in item Q–2.

SEC. 3. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States[2] for each acre diverted for payment from the general soil-depleting base.

3. 80 cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[2] for each acre devoted to commercial orchards on the farm on January 1, 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. 50 cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm $20.00 or the sum of the following items whichever is greater:

1. 80 cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States for each acre of cropland on the farm in 1937.[2]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range-Building Payments*

SECTION 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937, such of the following range-building practices as are approved by the county committtee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is piped to a tank or storage reservoir. An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or a pipe to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, sub-surface drainage or under-drainage, or primarily for any purpose other than the prevention of soil washing. (See Farmers' Bulletin No. 1606, *Farm Drainage*, published by the U. S. Department of Agriculture): $0.10 per 100 linear feet of permanent ditching.

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Prairie dogs: $0.07½ per acre.

H. *Reseeding.*—For reseeding depleted range land with good seeds of adapted varieties of perennial grasses as follows: $0.20 per pound of seed sown:

1. Crested wheat grass.
2. Slender wheat grass.
3. Western wheat grass.
4. Brome grass.

[2] See Footnote 2 on Page 391.

I. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range Building Allowance.*—The range building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increases in the acreage of soil depleting crops or deductions for failure to have a sufficient acreage of soil-conserving crops equivalent to cotton and tobacco acreage diverted for payment.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: *Provided*, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment to be made to each ranch operator.

*Part V.—Division of Payments*

SECTION 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar-beet and range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937: *Provided, however*, that—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.
2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar-beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SECTION 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated, the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the county committee in accordance with instructions issued by the Secretary.

SECTION 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SECTION 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SECTION 4. *Deductions for Increase in Acreage of Soil-Depleting Crops and for Insufficient Acreage of Soil-Conserving Crops.*—A. If the 1937 acreage of soil-depleting crops, except cotton and tobacco, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section 1, part II: *Provided, however*, that if the general soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton and tobacco, in excess of 20 acres.

B. If the 1937 acreage of cotton upon a farm is in excess of the cotton soil-depleting base, a deduction will be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate determined for cotton diversion payment for the farm under the provisions of Section 2, part II.

C. If the 1937 acreage of tobacco upon a farm is in excess of the tobacco soil-depleting base, a deduction will be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate determined for tobacco diversion payment for the farm under the provisions of section 2, part II.

D. If the acreage of soil-conserving crops on the farm in 1937, in excess of the soil-conserving base minus the acreage (not greater than the soil-conserving base) devoted to neutral uses in 1937, is less than the acreage of cotton and tobacco diverted for payment, a deduction shall be made from any payment which otherwise would be made to the applicant at the rate of $3.00 for each acre of cotton and tobacco diverted for payment in excess of such acreage of soil-conserving crops.

SECTION 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SECTION 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal Agency.

SECTION 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SECTION 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the state may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land To Be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SECTION 1. *Total Soil-depleting Base.*—There will be established a total soil-depleting base for each farm which shall represent the acreage normally used for the production of all soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such total soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a total soil-depleting base for the farm which is comparable with total soil-depleting bases for other farms in the same community which are similar with respect to size, type or soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the total soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.
2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a total soil-depleting base for such farm which is equitable, as compared with the total soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the total soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland in the county, the ratio of the total soil-depleting bases established in a county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SECTION 2. *General Soil-Depleting Base.*[1]—The general soil-depleting base for any farm shall represent for such farm the acreage normally used for the production of all soil-depleting crops except cotton and tobacco. The general soil-depleting base for any farm shall be the difference between the total soil-depleting base and the sum of any cotton and tobacco soil-depleting bases.

SECTION 3. *Soil-Depleting Bases for Individual Crops.*—*A. Cotton Soil-Depleting Base.*—

1. The cotton soil-depleting base for the farm in 1937 shall be the cotton soil-depleting base which was established or which could have been established for such

[1] Under the terms of the 1937 Agricultural Conservation Program the sugar beet acreage is included in the general soil-depleting base.

farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, and such further adjustments as will result in a cotton soil-depleting base for the farm which is comparable with cotton soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

2. If for causes other than flood, drouth or other abnormal weather conditions, or, if because of substantial changes in the cotton soil-depleting base by the County Committee in 1936 after planting time, the acreage planted to cotton on the farm in 1936 was less than 50 percent of the cotton soil-depleting base for the farm in 1936, the cotton soil-depleting base for 1937 shall be adjusted downward by the County Committee to an acreage not less than 154 percent of the 1936 planted acreage.

3. For farms on which cotton was grown in 1936 for the first time since 1933, a cotton soil depleting base may be established on the basis of the acreage planted to cotton in 1936, subject to necessary adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, and such further adjustments as will result in a cotton soil-depleting base for the farm which is comparable with cotton soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

4. The sum of the cotton soil-depleting bases for all farms covered by work sheets in any county, or other specified area, shall not exceed their proportionate share of the quota of cotton acreage established for such county or other specified area by the Agricultural Adjustment Administration.

B. *Tobacco Soil-Depleting Base.*—There will be established as part of the total soil-depleting base for the farm, a tobacco soil-depleting base which shall be equal to the tobacco soil-depleting base which was established or which could have been established for such farm under the procedure for the 1936 Agricultural Conservation Porgram with adjustments which may be justified by measurements made in 1936, provided, however, that if for causes other than flood, drought, or other abnormal weather conditions or plant diseases the acreage planted to tobacco on the farm in 1936 was less than 55 percent of the tobacco base for the farm in 1936, the tobacco base for 1937 shall be adjusted downward by the County Committee to an acreage not less than 133 percent of the 1936 acreage.

SECTION 4. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the total soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SECTION 5. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SECTION 1. *Soil-Depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under items a, of section 2 and d and e of section 3 of this part VIII.
b. Corn (field, sweet, and popcorn).
c. Cotton.
d. Tobacco.
e. Potatoes and sweet potatoes.
f. Sugar Beets and root crops grown for feed.
g. Cultivated sunflowers.
h. Mustard (commercial).
i. Truck and vegetable crops and their seed, melons and strawberries.
j. Grain sorghums, sweet sorghum, broom corn and sudan grass harvested for seed, grain, or hay.
k. Rape and millets.
l. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed or hay except as indicated under item d of section 3 of this part VIII.

SECTION 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of section 1, part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses and such other legumes and grasses as may be approved by the Director of the Western Division when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay:

(1) Legumes: Alfalfa, sweet, red, alsike, white, Mammoth, and crimson clovers; kudzu, sericea, lespedeza, vetch.

(2) Grasses: Bluegrass, orchard, brome, wheat grasses, rye grasses, grama, buffalo, timothy, redtop, fescues.

b. Forest trees planted on cropland since January 1, 1934.

SECTION 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Idle cropland.
b. Cultivated fallow.
c. Artichokes, bulbs, nursery stocks.
d. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936.
e. Small grains seeded as a winter cover crop and pastured, but not harvested for grain or hay.
f. Orchards, vineyards, nut trees, and bush fruits.

*Part IX—Appeals*

SECTION 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment determined for his farm or ranching unit by the county committee is not equitable may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

## DEPARTMENT OF LABOR.

### Immigration and Naturalization Service.

[General Order No. 244]

CHANGES IN IMMIGRATION RULES OF JANUARY 1, 1930, AS AMENDED

FEBRUARY 24, 1937.

By virtue of and pursuant to the authority conferred by Section 24 of the Immigration Act of 1924 (Act of May 26, 1924, 43 Stat. 166; U. S. C., Ti. 8, Sec. 222), and Executive Order No. 6166, dated June 10, 1933, the following changes are hereby made in the Immigration Rules of January 1, 1930, as amended:

Subdivision H, Rule 3 is amended by renumbering existing Paragraphs 5, 6 and 7, Paragraphs 6, 7 and 8, respectively, and by inserting a new Paragraph 5 to read as follows:

PAR. 5. A Japanese national entitled to return to a Section 3 (6) status in the United States, from a visit abroad, or a Japanese national entitled to have his wife or child join him in the United States with a Section 3 (6) visa, or the wife or child already admitted, who is entitled to return under such a visa from a visit abroad, may make application for a predetermination of his or her Section 3 (6) status. The application shall be filed in affidavit form and shall be submitted for proper investigation to the immigration and naturalization office located nearest to the applicant's place of residence. The affidavit shall include the name of the applicant, age, complexion, color of hair and eyes, height, and physical marks or peculiarities. It shall also include the name of the vessel, port of arrival, and date on which the applicant arrived in the United States. Separate applications must be submitted for each applicant. An applicant shall be required to establish that he (she) was lawfully admitted under Section 3 (6) of the Immigration Act of 1924, and that he (she) has maintained that status since entry. A Japanese not engaged solely in carrying on trade between the United States and Japan is not entitled to enter in a Section 3 (6) status or to have his wife or child join him in that status. The affidavit shall be prepared in duplicate and each copy shall contain a photograph of the applicant, which photograph shall be 2½ inches in width by 2½ inches in length, taken from the same negative, not retouched or mounted, representing the applicant without hat and showing a full front view. If the immigration and naturalization officer in charge is satisfied with the proof advanced, he shall return to the applicant the original affidavit, placing thereon the following stamped notation in red ink:

The applicant whose photograph appears hereon has established to my satisfaction that he (she) was lawfully admitted to the United States under Section 3 (6) of the Immigration Act of 1924 and since the date of his (her) entry has maintained the status under which he (she) was admitted.

(Signature of Officer in Charge)

(Title)

(Port and date)

The affidavit will be presented to the American consular officer to whom application for visa is made. If the visa is granted, the affidavit will be returned to the applicant, who will be informed that he (she) should present it, with his (her) visaed travel document, to the immigration officer at the port at which he (she) arrives in the United States. The immigration officer at the port of arrival shall lift the original affidavit and return it to the investigating office.

[SEAL] EDW. J. SHAUGHNESSY,
*Acting Commissioner of Immigration and Naturalization.*

Approved:

FRANCES PERKINS,
*Secretary.*

[F. R. Doc. 37-570; Filed, February 25, 1937; 11:32 a. m.]

## FEDERAL HOME LOAN BANK BOARD.

AMENDMENT OF RULES AND REGULATIONS

SIGNING OF PAPERS

Be it resolved, That pursuant to authority vested in the Federal Home Loan Bank Board by Section 17 of the Federal Home Loan Bank Act (12 U. S. C. 1437) Article VII, Section 5 of Exhibit "D" of the Rules and Regulations for Federal Home Loan Banks be amended to read as follows:

"*Signing of Papers.*—All checks, contracts, deeds, bonds, assignments, releases or other documents of the bank shall be signed in the name of the bank by the president, a vice-president, the treasurer or the secretary, and by any other officer or employee designated by the board of directors.

Adopted by the Federal Home Loan Bank Board on February 24, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[F. R. Doc. 37-571; Filed, February 25, 1937; 12:39 p. m.]

## SECURITIES AND EXCHANGE COMMISSION.

SECURITIES EXCHANGE ACT OF 1934

ADOPTION OF RULE AN23

The Securities and Exchange Commission deeming it necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 3 (a) (12), 10 (b), and 23 (a) thereof, hereby adopts the following rule:

RULE AN23. *Temporary exemption from Sections 12 (a) and 7 (c) (2) of securities of certain issuers resulting from statutory consolidation; prohibition of use of manipulative or deceptive devices or contrivances with respect thereto.*—(a) Whenever, in connection with a consolidation resulting in the formation of a new corporation, at least a part of any class of securities of such new corporation result from a modification of, or are issued in exchange for or otherwise in respect of, a listed security of one of the constituent corporations, such class of securities of the new corporation shall be exempt from the operation of Section 12 (a) for a period of one week from the date of consolidation, to the extent necessary to render lawful the effecting of transactions therein on the exchange on which such listed security of the constituent corporation was listed. For the purposes of this rule, the word "consolidation" means a consolidation, by agreement, of two or more corporations under provisions of law whereby, upon the execution or upon the filing of such agreement, a new corporation is created as successor to all the constituent corporations; it does not include mergers, acquisitions of assets, or other transactions of succession in which the issuer of the new securities is in existence prior to the succession. The term "date of consolidation" means the date on which the new corporation resulting from the consolidation is created. The word "listed" means either (1) listed on a national securities exchange as a security registered pursuant to Sections 12 (b), (c) and (d), or (2) listed on a national securities exchange as a security exempted from the operation of Section 12 (a), or (3) admitted to unlisted trading privileges on a national securities exchange pursuant to Section 12 (f).

(b) Rules AN1 and GB1 shall be applicable to all securities exempted from the operation of Section 12 (a) by paragraph (a) of this Rule.

The foregoing action shall be effective immediately upon publication.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37-578; Filed, February 25, 1937; 12:43 p. m.]

SECURITIES EXCHANGE ACT OF 1934

RULE ADOPTING FORM 23

The Securities and Exchange Commission, finding—

(1) that the requirements of Form 23, as more specifically defined in the instruction book accompanying that form, are necessary and appropriate in the public interest and for the protection of investors, and that, insofar as the information required by such form and instruction book is not within the provisions of Section 12 (b) of the Securities Exchange Act of 1934, it is of a character comparable to such information and is applicable to the class of issuers and securities for which such form is prescribed; and

(2) that the exhibits required by such instruction book are necessary and appropriate for the proper protection of investors and to insure fair dealing in the securities registered on Form 23,

pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 12 and 23 (a) thereof, hereby adopts Form 23 and the instruction book accompanying Form 23.[1]

AMENDMENT TO RULE JB1

The Securities and Exchange Commission, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 12 and 23 (a) thereof, hereby amends Rule JB1 by striking out the two paragraphs under the caption "Form 23 for Successor Issuers" and substituting in lieu thereof the following paragraph:

*Form 23 for Successor Issuers.*—This form shall be used for applications for registration of securities of any issuer which has acquired, or is presently to acquire, directly or indirectly (through the acquisition of securities or otherwise) the major portion of its business and assets (other than cash) by acquiring all or a part of the business and assets of one or more other persons, and is continuing, or is to continue, the business so acquired; provided, however, that this form shall not be used by issuers for which either Form 8-B, 12, 12-A, 20, 21 or 22 is prescribed, or for applications filed with the Exchange after the expiration of a full fiscal year of the issuer commencing on or after the date of succession.

The foregoing action shall be effective immediately upon publication.

By the Commission.

SECURITIES EXCHANGE ACT OF 1934

AMENDMENT OF RULE AN13

The Securities and Exchange Commission deeming it necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 3 (a) (12), 10 (b), and 23 (a) thereof, hereby amends Rule AN13 as follows:

(a) By deleting from Paragraph (a) thereof the words "the date specified below" and inserting in lieu thereof "June 24, 1937."

(b) By inserting in Paragraph (a) thereof, after the words "provided that", the following: "the filing of an application for the registration of such securities on Form 23 is authorized and that."

(c) By deleting the last sentence of Paragraph (a) thereof.

Rule AN13, as so amended, reads as follows:

RULE AN13. *Exemption from Sections 12 (a) and 7 (c) (2) of certain classes of securities of certain issuers which have acquired the assets of other issuers; prohibition of use of manipulative or deceptive devices or contrivances with respect thereto.*—(a) Any class of securities of an issuer which, having at the time no assets or liabilities other than nominal ones, shall have acquired (whether before or after the adoption of this Rule), directly, or indirectly through the medium of one or more subsidiaries all of whose stock, except directors' qualifying shares, is owned by such issuer, all or substantially all of the assets of

(i) another issuer, or
(ii) another issuer and one or more of its subsidiaries, or
(iii) one or more subsidiaries of another issuer, if all of the stock of such subsidiaries, except directors' qualifying shares, is directly or indirectly owned by and constitutes substantially all of the assets of such other issuer,

shall be exempt from the operation of Section 12 (a) to and including June 24, 1937, to the extent necessary to render lawful the effecting of transactions therein on a national securities exchange on which such class of securities shall be approved for listing (or for listing upon official notice of issuance), provided that the filing of an application for the registration of such securities on Form 23 is authorized and that either or both of the following conditions are satisfied:

(1) at least a portion of such class of securities was or shall be issued in exchange for or otherwise in respect of securities of such other issuer, and such latter securities (or certificates of deposit or voting trust certificates therefor) at the time of such issuance shall have been registered on such national securities exchange pursuant to Section 12 (b), (c) and (d) or pursuant to Section 12 (e), or authorized so to be registered thereon on official notice of issuance, or shall have been listed on such national securities exchange or authorized so to be listed on official notice of issuance as securities exempted from the operation of said Section 12 (a).

(2) at least a portion of such class of securities was or shall be issued upon the exercise of warrants or rights to subscribe to or otherwise acquire the same, which warrants or rights by their terms expire on a date which shall be within one hundred and twenty days after the issuance thereof and shall have been issued in exchange for or otherwise in respect of securities of such other issuer, and such latter securities (or certificates of deposit or voting trust certificates therefor) at the time of such issuance shall have been registered on such national securities exchange pursuant to Section 12 (b), (c) and (d) or pursuant to Section 12 (e), or authorized so to be registered thereon on official notice of issuance, or shall have been listed on such national securities exchange or authorized so to be listed on official notice of issuance as securities exempted from the operation of said Section 12 (a).

(b) Rules AN1 and CB1 shall be applicable to all securities exempted from the operation of Section 12 (a) by paragraph (a) of this Rule."

The foregoing action shall be effective immediately upon publication.

By the Commission.

SECURITIES ACT OF 1933

SECURITIES EXCHANGE ACT OF 1934

ADOPTION OF RULE MD3

The Securities and Exchange Commission, deeming it necessary for the execution of the functions vested in it and necessary and appropriate in the public interest and for the protection of investors so to do, acting pursuant to authority conferred upon it by the Securities Exchange Act of 1934, as amended, particularly Sections 15 (d) and 23 (a) thereof, hereby adopts the following rule:

RULE MD3. *Annual Report for Period for which Financial Statements are Furnished in New Registration Statement.* Notwithstanding the provisions of Rule MD2, a registrant which files with the Commission, within the period prescribed in Rule MD1 for filing an annual report for a particular year, a registration statement on Form A-1, A-2, C-1, or E-1 containing financial statements as of the dates and for the periods required under the appropriate form of annual report, may incorporate by reference all information and documents contained in such registration statement, in lieu of furnishing the information called for by the appropriate form of annual report. In such case the registrant shall file with the Commission in triplicate, within the period prescribed in Rule MD1 for filing the annual report, a statement in approximately the following form:

"Pursuant to Rule MD3, the registrant, ----------, hereby incorporates by reference in this, its annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934, all information and documents contained in the registration statement on Form -------, filed by it on ----------, 19--------, as amended under dates of ----------."

Such statement shall be filed under cover of the facing sheet of the appropriate form for annual report. At least one copy of the statement shall be signed in the form prescribed in the appropriate form of annual report.

The foregoing action of the Commission shall be effective immediately upon publication.

By the Commission.

[File No. 46-32]

IN THE MATTER OF NATIONAL GAS & ELECTRIC CORPORATION, THE INDUSTRIAL GAS COMPANY, GAS PRODUCING COMPANY OF OHIO

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with the Commission, by the National Gas & Electric Corporation, a registered holding company, and The Industrial Gas Company and Gas Producing Company of Ohio, wholly owned subsidiary companies thereof, pursuant to Section 10 (a) (1) and 10 (a) (3) of the Public Utility Holding Company Act of 1935, for approval of the acquisition of securities and physical property in connection with an agreement dated February 5, 1937, between National Gas & Electric Corporation and Commonwealth Gas Corporation, involving a cash consideration of approximately $918,000; it appearing that said acquisition involves properties and securities of companies engaged in the production and wholesale distribution of natural gas in the vicinity of Zanesville, Ohio; that National Gas & Electric Corporation proposes to acquire shares of Fritz Oil and Gas Company, $22,000 face amount of notes of The Industrial Gas Company, and $400,000 face amount of 5% 16-year first mortgage bonds to be issued by Gas Producing Company of Ohio; that Gas Producing Company of Ohio proposes to acquire (partly with the proceeds of such issue of bonds) physical properties of certain subsidiaries of Commonwealth Gas Corporation; that The Industrial Gas Company proposes to acquire all of the physical properties of the Zane Gas Company;

It is ordered that a hearing on such matter be held on March 16, 1937, at ten o'clock in the forenoon of that day at Room 726-C, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before March 11, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 24th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE TRANSWESTERN ET AL. SUNERAM FARM, FILED ON FEBRUARY 11, 1937, BY JAMES W. TAIT COMPANY, INC., RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (or the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the amount or percentage of water produced or being produced with the oil on the lease is not correctly set forth and the note to Item 16 (a) (111) is not believed to be reliable;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Robert P. Reeder, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 11th day of March 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF SOUTHWESTERN LIGHT & POWER COMPANY

ORDER DESIGNATING NEW TRIAL EXAMINER

Southwestern Light & Power Company, a subsidiary company of The Middle West Corporation, a registered holding company, having filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935, regarding the issue and sale by declarant of $7,250,000 aggregate principal amount of its First Mortgage Bonds, Series A, due February 1, 1967; an order having been duly entered providing for a hearing in such matter on February 25, 1937; such hearing having been postponed to February 26, 1937 at 2:30 o'clock in the afternoon of that date, at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Ave-

nue NW., Washington, D. C.; and, it now appearing that the officer of the Commission heretofore designated therefor will be unable to preside on such occasion;

It is now ordered that Robert P. Reeder, an officer of the Commission, be and he hereby is designated to preside at such hearing at the above stated time and place, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in such matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE ANDERSON-PRITCHARD-HARE No. 1 FARM, FILED ON FEBRUARY 3, 1937, BY DEALERS ROYALTY COMPANY, INC., RESPONDENT

ORDER TERMINATING PROCEEDING AFTER AMENDMENT

The Securities and Exchange Commission, finding that the offering sheet filed with the Commission, which is the subject of this proceeding, has been amended, so far as necessary, in accordance with the Suspension Order previously entered in this proceeding;

It is ordered, pursuant to Rule 341 (d) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the amendment received at the office of the Commission on February 20, 1937, be effective as of February 20, 1937; and

It is further ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same hereby are revoked and the said proceeding terminated.

IN THE MATTER OF MAJOR METALS CORPORATION

STOP ORDER

This matter coming on to be heard by the Commission on the registration statement of Major Metals Corporation, of New York, New York, after confirmed telegraphic notice by the Commission to said registrant that it appears that said registration statement includes untrue statements of material facts and omits to state material facts required to be stated therein and omits to state material facts necessary to make the statements therein not misleading; and upon the evidence received upon the allegations made in the notice of hearing duly served by the Commission on said registrant, and the Commission having duly considered the matter, and finding that said registration statement and prospectus and amendments filed on November 24, 1936, and December 18, 1936, include untrue statements of material facts and omit to state material facts required to be stated therein and material facts necessary to make statements therein not misleading, all as more fully set forth in the Commission's Findings of Fact and Opinion this day issued, and the Commission being now fully advised in the premises,

It is ordered, pursuant to Section 8 of the Securities Act of 1933, as amended, that the effectiveness of the registration statement filed by Major Metals Corporation, of New York, New York, be and the same hereby is suspended.

By direction of the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE GULF-W. M. JOHNSON FARM, FILED ON FEBRUARY 17, 1937, BY W. M. JOHNSON, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING UNDER RULE (340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the farm name is omitted from page 1, Division I;

(2) In that the date when the information in the sheet will be out of date is omitted from paragraph 8, Division I;

(3) In that Item 6 (a), Division II, states there is no ad valorem tax in Texas;

(4) In that the name of the pipe line is omitted in Items 10 (b) and (c), Division II;

(5) In that Exhibit A in several respects does not meet the requirements of the regulations in that the date, scale, and legend are omitted;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 26th day of March 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Robert P. Reeder, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 11th day of March, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

WR—B-101—Montana Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO 101—MONTANA

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil-Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Montana, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payment, deductions, and allowances may be increased or decreased depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Montana, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Montana.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable, a State, a political subdivision of a State, or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Crop land* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of cropland excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than crop land or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranging unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total crop land on the farm. Upon recommendation of the County Committee and the State Committee, the Secretary may designate for any county, or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweet potatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Montana at the rates and subject to the conditions set forth herein:

SEC. 1. *Diversion Payments.*—With respect to diversion farms payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States.[2]

SEC. 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however,* that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III—Rates and Conditions of Soil-Building Payment*

SEC. 1. *Soil-Building Payment.*—Payment will be made for carrying out on crop land or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm.

The soil-building practices prescribed in the Section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage except that payments will be made for the practice prescribed in item F in addition to either of the practices prescribed in items K and P, and payment will be made for the practice prescribed in item J in addition to the practice prescribed in item K.

PRACTICES AND CONDITIONS—RATES OF PAYMENT

A. Perennial legumes including alfalfa, kudzu, sericea, white clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on crop land in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Biennial legumes including red clover, alsike clover, and mammoth clover, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Annual and biennial sweet clover and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the crop land on the farm are contained in Western Region Bulletin No. 102.

2. Seeding on crop land under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Seeding and establishment of perennial grasses including bluegrass, orchard, Bermuda, brome, grama, buffalo, wheat grasses (except crested wheat grass), rye grasses, and such other perennial grasses as are approved by the Director of the Western Division when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Mixtures of perennial and biennial legumes and perennial grasses recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

F. Crested wheat grass seeded on cropland in 1937: $3.00 per acre.

G. *Restoring to native grass.*—Land on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which in accordance with good farming practices should be permanently devoted to grass: $0.25 per acre: *Provided,*

1. The operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass,

2. Approval has been obtained from the county committee, and

3. Such land is not pastured, cropped or tilled in 1937.

H. *Forest Trees.*—

1. Planting of trees on crop land in 1937 provided the land is maintained in a good state of cultivation and the plantings are protected from livestock with not less than 200 living trees per acre at the time performance is checked. Approval by the county committee of the site for such planting shall have been obtained before planting: $10.00 per acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacement of any dead trees to not less than 200 living trees per acre at the time performance is checked: $4.00 per acre.

I. *Perennial noxious weed control.*—When, after approval of the county committee, seriously infested plots of Canadian thistle, bindweed or wild morning glory, White top, Leafy spurge, Russian knapweed are controlled by periodic cultivation or by chemical treatment in accordance with specifications issued by the Director of the Western Division.

1. Chemical treatment: $10.00 per acre.

2. Periodic cultivation: $5.00 per acre.

J. *Establishment of strip cropping and fallow.*—The fallow strips (two or more strips of fallow) to be not less than five rods nor more than 20 rods in width with intervening strips of small grain crops or small grain stubble the width or twice the width of the fallow strips. The first tillage operation must be completed before June 1, 1937, strips to be approximately at right angles to the prevailing winds. Payment to be made on the acreage of fallow land only and then only when additional to the acreage used for that practice in 1936: $1.00 per acre.

K. *Plowless fallow.*—First tillage to be completed by June 1, 1937, and subsequent tillage frequent enough to prevent weed growth. All tillage to be done by implements that leave the surface rough and planted growth near the surface. Approved implements to be field cultivator, lister, or one way disc where one way disc is used only for initial cultivation: $0.50 per acre.

L. *Cover crop.*—Seeding of small grains other than rye or winter wheat on summer fallowed land after July 15 and left as a winter cover crop: $0.50 per acre.

M. *Green manure crop.*—Annual legumes including soybeans, cowpeas, field beans, and field peas, when seeded on irrigated crop land in 1937 and turned under after attaining at least two months' growth: $2.00 per acre.

N. *Diking for flood water diversion.*—When practiced on non-irrigated crop land in 1937, in accordance with specifications approved by the Director of the Western Division: $1.00 per acre.

O. *Terracing.*—Establishment of terraces on crop land in 1937, provided, however, plans for the terracing project are approved in advance by the county committee and such practice is carried out in accordance with specifications approved by the Director of the Western Division: $0.40 per 100 linear feet.

P. *Solid contour listing.*—When practiced on cropland in 1937 in accordance with specifications approved by the Director of the Western Division: $1.00 per acre.

Q. Leguminous cover crops in orchards including alfalfa, sweet clover, and crimson clover, and such other biennial or perennial legumes as are approved by the Director of the Western Division.

Seeded and establishment in irrigated orchards or in orchards subject to subirrigation where no vegetation is removed and such practice is carried out in accordance with specifications approved by the Director of the Western Division: $2.00 per acre.

R. The following practice will be applicable only to non-crop pasture acreage:

Reseeding with native perennial grasses in 1937, in accordance with specifications recommended by the State Committee and approved by the Director of the Western Division: $0.20 per pound of seed sown not in excess of $2.00 per acre.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm $10.00, or the sum of the following items whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[3] for each acre diverted for payment from the soil-depleting base.

3. 80 cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[3] for each acre devoted to commercial orchards on the farm in 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of crop land on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of crop land on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00, or the sum of the following items whichever is the greater:

1. 80 cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States, for each acre of crop land on the farm in 1937.[2]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of crop land on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of crop land on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for a ranching unit prior to their institution:

PRACTICES AND CONDITIONS—RATES OF PAYMENT

A. *Contouring.*—For each acre furrowed on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank, or where piping is impracticable, a concrete tank may be constructed at the seep: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For the drilling or digging of wells, casing to be not less than 2 or 4 inches in diameter, provided a windmill or power pump is installed and the water is piped to a tank or storage reservoir. An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or pipe to a tank or storage reservoir: $1.00 per linear foot for a 4 inch casing; $0.50 per linear foot for a 2 inch casing.

E. *Water spreading to prevent soil washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, sub-surface drainage or under-drainage, or primarily for any purpose other than the prevention of soil washing: $0.10 per 100 linear feet. (See Farmers' Bulletin No. 1606, Farm Drainage, Published by the U. S. Department of Agriculture.)

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires with good sound posts not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

[2] See Footnote 2 on Page 402.

G. *Reseeding.*—For reseeding depleted range land in 1937 with good seed of adapted varieties of perennial grasses as follows: $0.20 per pound of seed sown:

1. Crested wheat grass.
2. Slender wheat grass.
3. Western wheat grass.
4. Brome grass.

H. For establishing fire guards not less than four feet in width, by plowing furrows or otherwise exposing the soil: $0.03 per 100 linear feet.

I. Rodent Control. For destroying at least 90% of the range destroying rodents on an infested area as follows:

1. Prairie dogs: $0.07½ per acre.
2. Ground squirrels: $0.06 per acre.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to the deductions for increase in acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator, or (2) each ranch operator of a group of two or more ranch operators: *Provided*, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937: *Provided, however,* That—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to

be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Program.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated, the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 2. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1, Part II; *Provided, however*, That if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe of the estimated administrative expenses incurred or to be incurred by such association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act. There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share-tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SEC. 1. *Soil-Depleting Base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops

seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops, seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all crop land in the county, the ratio of the soil-depleting bases established in a county to the acreage of crop land on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of crop land less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SEC. 1. *Soil-Depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under item a of Section 2 and Items d and f of Section 3 of this Part VIII.
b. Corn (field, sweet, and popcorn).
c. Potatoes.
d. Sugar beets.
e. Root crops grown for feed.
f. Cultivated sunflowers.
g. Mustard (commercial).
h. Rape.
i. Truck and vegetable crops and their seed, melons, and strawberries.
j. Grain sorghums, sweet sorghum, broom corn and sudan grass harvested for seed, grain, or hay.
k. Millets.
l. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed or hay, except as indicated under item f of Section 3 of this Part VIII.
m. Cultivated fallow (summer fallow) unless otherwise provided.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1, Part VIII of this Bulletin) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses, and such other legumes and grasses as may be approved by the Director of the Western Division, when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay:

(1) Legumes: alfalfa, sweet, red, alsike, white, strawberry, ladino, Mammoth, crimson, bur, and sour clover, Austrian winter peas, sericea, kudzu.

(2) Grasses: bluegrass, orchard, brome, wheat grasses, rye grasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reed's canary grass and velvet grass.

b. Green manure crops, on irrigated land only, including annual legumes when turned under in 1937 after attaining at least two months' growth, when not followed by summer fallow.

c. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of the land between the rows.
b. Idle cropland.
c. Bulbs and nursery stock.
d. Cropland planted in 1937 to soil-conserving crops, or mixtures thereof, with or without nurse crops when such nurse crops are not harvested for grain or hay, if, when performance is checked, there is not a good stand of such soil-conserving crops due to uncontrollable natural causes.
e. Any acreage on which perennial or biennial legumes or perennial grasses have been seeded following summer fallow when no soil-depleting crop has been seeded on such land for harvest in 1937.
f. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the County Committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936, provided, such use of land shall have been approved by the County Committee prior to May 1, 1937.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the county committee is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 14th day of January 1937.

[SEAL]

H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-547; Filed, February 24, 1937; 12:35 p. m.]

WR—B-101—Nevada Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—NEVADA

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Nevada, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased, depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Nevada, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Nevada.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable, a State, a political subdivision of a State or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Crop land* means all farm land which has been tilled and from which at least one crop, other than wild hay, was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards and vineyards on January 1, 1937, other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of all soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of crop land excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than crop land or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon recommendation of the County Committee and the State Committee, the Secretary may designate for any county, or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweetpotatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

*Part II—Rates and Conditions of Diversion Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Nevada at the rates and subject to the conditions set forth herein:

SEC. 1. *Diversion Payments.*—With respect to diversion farms payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States.[2]

*Part III—Rates and Conditions of Soil-Building Payment*

SECTION 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on crop land or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this Section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage, except that payments will be made for practices prescribed in Items A, B, C, D, E, F, or L in addition to the practice prescribed under Item N of this Section 1.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Perennial Legumes*, including alfalfa, white clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions, $2.50 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

B. *Biennial Legumes* (except sweet clover), red, alsike, and Mammoth clovers, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions, $2.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

C. *Sweet clover*, and such annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions, $1.00 per acre:

a. Without establishment of a good stand, if seeded alone, or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

D. *Perennial Grasses*, including only blue grass, timothy, red top, orchard, brome, bluestem, wheat grasses (except crested wheat grass), rye grasses, Reed's canary grass, meadow fescue, mixtures thereof, and such other perennial grasses as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

E. *Mixtures of Grasses and Legumes* recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

F. *Crested Wheat Grass* seeded on crop land in 1937: $3.00 per acre.

G. *Green Manure Crops.*—

1. Annual legumes, including vetches, mustards, bur, sour and crimson clovers, sesbania, cowpeas, soybeans, and grain and legume mixtures and such other annual legumes as are approved by the Director of the Western Division, when seeded on irrigated crop land or interplanted in orchards, if turned under in the spring of 1937 after having attained a vigorous vegetative growth, or when seeded in the spring if turned under after having attained a minimum of two months' unpastured growth: $2.00 per acre.

2. Perennial and biennial legumes, when grown on irrigated crop land and a good stand is turned under after having attained a minimum of two months' unpastured growth in 1937: $2.00 per acre.

3. Perennial legumes when grown in orchards and full growth of a good stand is mechanically incorporated into the surface soil in 1937, provided no part of the year's growth is removed from the land where grown, either mechanically or by pasture: $1.00 per acre.

4. Small grains including rye, oats, barley and small grain mixtures, when seeded on irrigated crop land or interplanted in orchards if turned under in 1937 during or prior to the blooming stage: $1.00 per acre.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

H. *Forest Trees.*—

1. When planted on crop land in 1937, for woodlot purposes, if not less than 400 trees are planted per acre: $10.00 per acre.

2. When planted on crop land in 1937, for windbreak purposes, when planted in rows at right angles to the direction of the prevailing winds, providing trees are spaced not more than 8 feet apart in rows 6 to 10 feet apart: $0.06¼ per rod-row.

I. *Perennial Weed Control.*[1]—

1. Chemical treatment, when after obtaining the prior approval of the County Committee, seriously infested areas are controlled by the application of chemicals in accordance with specifications issued by the Director of the Western Division: $10.00 per acre.

2. Periodic cultivation, when after obtaining the prior approval of the County Committee, seriously infested areas are controlled by bi-weekly cultivations, in accordance with specifications issued by the Director of the Western Division: $5.00 per acre.

J. *Approved Summer Fallow*, embodying cultivation in 1937 of irrigated crop land in a manner which will leave a rough and cloddy surface, without previous destruction of organic matter, and sufficient subsequent cultivation to prevent vegetative growth, provided, no soil-depleting crop is grown for harvest in 1937 on such acreage: $0.50 per acre.

K. *Establishment of Terraces* on crop land in 1937; provided, however, that plans for the proposed terracing project are approved in advance by the County Committee: $0.40 per 100 linear feet of terrace constructed.

L. *Reseeding Non-Crop Pasture Land.*—For reseeding depleted non-crop pasture land with good seed of adapted varieties of perennial grasses or mixtures recommended by the State Experiment Station and approved by the State Committee: $0.20 per pound of seed sown, not to exceed $2.00 per acre.

M. *Application of Soil Amendments.*—

1. Gypsum, when applied to crop land in 1937 in connection with the seeding and establishment of legumes, and grass and legume mixtures at a rate not less than 200 pounds per acre: $2.00 per acre.

2. Superphosphate, when applied to crop land in 1937 in connection with the seeding and establishment of legumes, and grass and legume mixtures at a rate per acre of not less than 60 pounds of available $P_2O_5$: $2.25 per acre.

N. *Restoration of Land to Native Grasses* on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices should be permanently devoted to grass $0.25 per acre: *Provided*, that—

1. The operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass;

2. Approval has been obtained by the County Committee;

3. Such land is not pastured, cropped or tilled in 1937; and

4. Any volunteer growth containing noxious weeds is clipped before formation of viable seeds.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[2] for each acre diverted for payment from the soil-depleting base.

3. Eighty cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[2] for each acre devoted to commercial orchards on the farm on January 1, 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of crop land on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of crop land on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00 or the sum of the following items, whichever is greater:

1. Eighty cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States, for each acre of crop land on the farm in 1937.[2]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of crop land on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of crop land on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the County Committee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water in a trough or in a pipe to a tank, watering trough, or reservoir: $50.00 per spring or seep.

B. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

C. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is conveyed to a tank or storage reservoir. An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed to a tank or storage reservoir: $1.00 per linear foot.

D. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts, not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

E. *Rodent Control.*—For destroying at least ninety per cent of the range-destroying rodents on an infested area as follows:

1. Pocket Gophers: $0.15 per acre.
2. Ground Squirrels: $0.06 per acre.

F. *Reseeding.*—For reseeding depleted range land in 1937 with good seed of adapted varieties of perennial grasses approved by the Director of the Western Division: $0.20 per pound of seed sown.

[1] Payment for the adoption of perennial weed control practices shall be limited to the following noxious weeds: Puncture vine, Canada thistle, White top, Russian knapweed, Morning glory, and leafy spurge.

[2] See Footnote 2 on Page 408.

G. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at a rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice if (1) the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, or (2) the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to the deductions for increase in acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payment may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: Provided, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937; *Provided, however,* That—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State Committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties, or other areas, for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In the event that any such county or other area is designated the allowances, rates, and conditions of payment for such county, or other area, will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county, or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payment Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping, or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1 of Part II; *Provided, however,* That if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld, in whole or in part, and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him, and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SEC. 1. *Soil-depleting base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of all soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland in the county, the ratio of the soil-depleting bases established in the county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the soil-depleting base and the acreage in commercial orchards on the farm.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration, and approved by the Secretary.

SEC. 1. *Soil-Depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Corn (field, sweet and popcorn).
b. Potatoes.
c. Sugar Beet Seed.
d. Cultivated Sunflowers.
e. Truck, canning and annual vegetable crops, and their seed or plants, and melons.
f. Sorghums.
g. Small Grains for grain or hay; or pasture except as classified under Item a of Section 2 of Part VIII.
h. Millets.
i. Soy beans, field beans, cowpeas, field peas, seed peas, and vetch, harvested for grain, seed, hay, pastured, or used for canning purposes.
j. Root crops, grown for feed.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following uses or crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except

that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following grasses and legumes, and such other grasses and legumes as may be approved by the Director of the Western Division, without a nurse crop, or with a nurse crop if such nurse crop is not harvested for grain or hay:

1. Legumes: Alfalfa; sweet, red, alsike, white, ladino, Mammoth, crimson, bur, and sour clovers; sericea; lespedeza; sesbania; and mixtures thereof.

2. Grasses: Bluegrass, timothy, redtop, orchard, brome, bluestem, grama, buffalo, wheatgrasses, ryegrasses, fescues, oatgrass, Reed's canary gross, velvet grass, Bermuda, bent grasses, Rhode, and mixtures thereof.

3. Grass and Legume Mixtures: Mixtures of 1 and 2 above.

b. Green manure crops, including only annual, biennial and perennial legumes, oats, rye, barley, vetch, and small grain mixtures when turned under in 1937 after attaining at least two months' growth.

c. Forest trees planted on crop land since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, tree and small fruits, or nut trees.

b. Perennial vegetable crops, including asparagus, artichokes, and rhubarb.

c. Nursery stocks.

d. Idle crop land.

e. Fallow, including approved summer fallow.

f. Bulbs.

g. Crop land planted to forest trees between January 1, 1930 and January 1, 1934.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the county committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 14th day of January 1937.

[SEAL]

H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-548; Filed, February 24, 1937; 12:35 p. m.]

---

WR—B-101—New Mexico Issued January 14, 1937

## 1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

### BULLETIN NO. 101—NEW MEXICO

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—New Mexico, and such modifications or other provisions as may hereafter be made.

The 1937 agricultural conservation program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased, depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 agricultural conservation program in New Mexico, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 agricultural conservation program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 agricultural conservation program in New Mexico.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 agricultural conservation program in such county.

*Person* means an individual, partnership, association, or corporation, and, wherever applicable, a State, a political subdivision of a State, or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Sharecropper* means a person who works a farm in whole or in part under general supervision of the operator and is entitled to receive for his labor a proportionate share of a crop produced thereon, or the proceeds thereof.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Cropland* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Total soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Cotton soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of cotton.

*General soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of all soil-depleting crops except the acreage included in the cotton soil-depleting base. Such general soil-depleting base shall be determined by subtracting the cotton soil-depleting base from the total soil-depleting base.

*Soil-conserving base* means the number of acres obtained by subtracting the total soil-depleting base from the total number of acres of cropland excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*General diversion farm* means any farm with respect to which the general soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon the recommendation of the county committee and the State committee, the Secretary may designate for any county, or other area, a different basis for determining general diversion farms.

*Diversion farm* means any general diversion farm, or any farm with respect to which a cotton soil-depleting base is established.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweetpotatoes, and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of New Mexico at the rates and subject to the conditions set forth herein.

SECTION 1. *General Diversion Payments.*—With respect to general diversion farms, payment will be made for each acre diverted in 1937 from the general soil-depleting base established for the farm, not in excess of 15 percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States.[2]

SECTION 2. *Cotton Diversion Payments.*—Payment will be made for each acre diverted from the cotton soil-depleting base on the farm in 1937 at the rate of 5 cents for each pound of the normal yield per acre of cotton for the farm on an acreage not to exceed 35 percent of such base except that if such base is 5.7 acres or less, payment may be made for diverting all or any part of such base not to exceed two acres.

SEC. 3. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; *Provided*, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935 and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets;

*Provided, however*, that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar, by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III—Rates and Conditions of Soil-Building Payment*

SEC. 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on crop land or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where in the deter-

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

mination of the State committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 agricultural conservation program. Payments will not be made for more than one practice carried out on the same acreage except that payments will be made for practices prescribed in items A, B, C, D, or E of section 1 in addition to the practice prescribed in item I of section 1 of this part III.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. Perennial Legumes including alfalfa, kudzu, sericea, white clover, ladino, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Perennial grasses including such as are approved by the Director of the Western Division, when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Biennial Legumes (except sweet clover) including red clover, alsike clover, Mammoth clover, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Mixtures of perennial and biennial legumes and perennial grasses recommended by the State Experiment Station and approved by the State committee.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, when seeded under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Annual and Biennial Sweet Clover and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on cropland under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

F. *Planting of Sod Pieces of Perennial Grasses.*—

1. The planting of sod pieces of approved perennial grasses between February 1, 1937, and October 31, 1937, the sod pieces to be cut to a depth of approximately two inches and in blocks not less than four inches square. The sod pieces are to be planted in rows not more than four feet apart with the pieces at intervals of not more than four feet in the row and set approximately level with the surface soil: $4.00 per acre.

G. Renovation of perennial legumes where perennial legumes have been established and are in need of cultivation for aeration, water percolation, noxious weed control, and reseeding, a payment will be made if fields are renovated, in accordance with specifications issued by the Director of the Western Division, and the noxious weeds, including bind weeds, blue weed, goat heads, and blue thistle, are pulled or burned out between February 1, 1937, and August 15, 1937: $2.00 per acre.

H. *Green Manure Crops.*—

1. Annual or biennial legumes turned under in 1937 after attaining at least two months' growth on *irrigated* cropland: $2.00 per acre.

2. Annual legumes turned under in 1937 after attaining at least two months' growth on *non-irrigated* cropland: $1.00 per acre.

3. Winter small grain crops when grown on cropland preceding or following a 1937 vegetable crop or in commercial orchards in 1937 and turned under after attaining at least two months' growth: $1.00 per acre.

I. *Establishment of terraces* on cropland in 1937: *Provided, however,* plans for the terracing project are approved in advance by the county committee: $0.40 per 100 linear feet.

J. *Contour listing* when effected on *non-irrigated* cropland.

1. No soil-depleting crop planted for harvest in 1937: $1.00 per acre.

2. Cover crops planted to control wind erosion:

Sudan grass or sweet sorghums when planted in rows not greater than 42 inches apart or any sorghum or Sudan grass when close drilled or broadcast: *Provided, however,* that no portion of the crop is harvested or pastured in any manner whatsoever: $2.00 per acre.

K. *Border planting* when effected on *non-irrigated* cropland in 1937. Border planting of fields where planted borders are 100 feet wide or more and the crop is not pastured or cut for hay or grain: *Provided, however,* that payment shall be made only on the area so planted: $1.00 per acre.

L. *Perennial Noxious Weed Control.*—When, after approval of the county committee seriously infested plots of bind weed, blue weed, goat heads, and blue thistle are controlled by periodic cultivation in accordance with specifications issued by the Director of the Western Division: $5.00 per acre.

M. *Forest Trees.*—

1. Planting of trees on cropland in 1937 provided the land is maintained in a good state of cultivation and the plantings are protected from livestock with not less than 200 living trees per acre at the time performance is checked. Approval by the county committee of the site for such planting shall have been obtained before planting: $10.00 per acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacement of any dead trees to not less than 200 living trees per acre at the time performance is checked: $4.00 per acre.

N. *Contour strip cropping and fallow* when effected on *non-irrigated* cropland. Contour strip planting of any crops when width of strips of crop is not less than 9 feet nor the distance between strips more than 150 feet: *Provided, however,* that only the area planted to strip crops shall be considered in computing the acreage devoted to this practice: $1.00 per acre.

O. *Controlled summer fallowing* on *non-irrigated* cropland when the fallow is tilled in such manner and with such implements as will result in a minimum of wind and water erosion, by creating and maintaining a rough, cloddy surface reasonably free from volunteer growth, first tillage operation to be performed prior to June 15, 1937: $0.50 per acre.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[1] for each acre diverted for payment from the general soil-depleting base.

3. 80 cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[1] for each acre devoted to commercial orchards on the farm on January 1, 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. 50 cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00 or the sum of the following items whichever is greater:

1. 80 cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such crop land in the United States, for each acre of cropland on the farm in 1937.[1]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. 50 cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is piped to a tank or storage reservoir. An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or a pipe to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, sub-surface drainage or underdrainage, or primarily for any purpose other than the prevention of soil washing: $0.10 per 100 linear feet of permanent ditching. (See Farmers' Bulletin No. 1606, *Farm Drainage* published by the U. S. Department of Agriculture.)

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced and with wires tightly stretched: $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Pocket gophers: $0.15 per acre.
2. Ground squirrels: $0.06 per acre.
3. Prairie dogs: $0.07½ per acre.

H. *Reseeding.*—For reseeding depleted range land with good seeds of adapted varieties of perennial grasses or forage shrubs as follows: $0.20 per pound of seed sown:

1. Native gramas.
2. Chamiza.

I. *Fire Guards.*—For the establishment of fire guards, not less than four feet in width, by plowing furrows or otherwise exposing the mineral soil: $0.03 per 100 linear feet.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increases in the acreage of soil-depleting crops or deductions for failure to have a sufficient acreage of soil-conserving crops equivalent to cotton acreage diverted for payment.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: *Provided,* all ranch operators signify in the application for payment a percentum of the

[1] See Footnote 2 on Page 413.

total payment under the application for payment to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants, and sharecroppers in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937; *Provided, however,* That—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part IV—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated, the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin, no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping, or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops and for Insufficient Acreage of Soil-Conserving Crops.*—A. If the 1937 acreage of soil-depleting crops, except cotton, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section 1, part II; *Provided, however,* That if the general soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton, in excess of 20 acres.

B. If the 1937 acreage of cotton upon a farm is in excess of the cotton soil-depleting base, a deduction will be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate determined for cotton diversion payment for the farm under the provisions of section 2, part II.

C. If the acreage of soil-conserving crops on the farm in 1937, in excess of the soil-conserving base minus the acreage (Not greater than the soil-conserving base) devoted to neutral uses in 1937, is less than the acreage of cotton diverted for payment, a deduction shall be made from any payment which otherwise would be made to the applicant at the rate of $3.00 for each acre of cotton diverted for payment in excess of such acreage of soil-conserving crops.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary upon the basis of an investigation by the State committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each county agricultural conservation association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each county agricultural conservation association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share-tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownership, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SEC. 1. *Total Soil-Depleting Base.*—There will be established a total soil-depleting base for each farm which shall represent the acreage normally used for the production of all soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 agricultural conservation program, such total soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 agricultural conservation program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 agricultural conservation programs, changes in crop classifications, and further adjustments that will result in a total soil-depleting base for the farm which is comparable with total soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 agricultural conservation program, the total soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a total soil-depleting base for such farm which is equitable, as compared with the total soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the total soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland in the county, the ratio of the total soil-depleting bases established in a county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *General Soil-Depleting Base.*—The general soil-depleting base for any farm shall represent for such farm the acreage normally used for the production of all soil-depleting crops except cotton. The general soil-depleting base for any farm shall be the difference between the total soil-depleting base and the cotton soil-depleting base.[3]

SEC. 3. *Cotton Soil-Depleting Base.*—A. The cotton soil-depleting base for the farm in 1937 shall be the cotton soil-depleting base which was established or which could have been established for such farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, and such further adjustments as will result in a cotton soil-depleting base for the farm which is comparable with cotton soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. If for causes other than flood, drouth or other abnormal weather conditions, or, if because of substantial changes in the cotton soil-depleting base by the County Committee in 1936 after planting time, the acreage planted to cotton on the farm in 1936 was less than 50 percent of the cotton soil-depleting base for the farm in 1936, the cotton soil-depleting base for 1937 shall be adjusted downward by the County Committee to an acreage not less than 154 percent of the 1936 planted acreage.

C. For farms on which cotton was grown in 1936 for the first time since 1933, a cotton soil-depleting base may be established on the basis of the acreage planted to cotton in 1936, subject to necessary adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, and such further adjustments as will result in a cotton soil-depleting base for the farm which is comparable with cotton soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

D. The sum of the cotton soil-depleting bases for all farms covered by work sheets in any county, or other specified area, shall not exceed their proportionate share of the quota of cotton acreage established for such county, or other specified area, by the Agricultural Adjustment Administration.

SEC. 4. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the total soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 5. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity

[3] Under the terms of the 1937 program the sugar beet acreage is included in the general soil-depleting base.

is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SEC. 1. *Soil-depleting Crops.*—Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under item a, section 2, and under items f and g, section 3 of this part VIII.[1]
b. Corn (field, sweet and popcorn).
c. Potatoes.
d. Sweet potatoes.
e. Sugar beets.
f. Peanuts.
g. Root crops grown for feed.
h. Hemp.
i. Cultivated sunflowers.
j. Mustard (commercial).
k. Rape.
l. Truck and vegetable crops and their seeds; melons and strawberries.
m. Grain sorghums, sweet sorghums, broom corn and sudan grass harvested for seed, grain or hay.
n. Millets.
o. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas and canning peas harvested for seed, hay or pastured, except as indicated under items e and f, section 3 of this part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses, and such other legumes and grasses as may be approved by the Director of the Western Division, when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay:

(1) Legumes: Alfalfa, sweet, red, alsike, white, strawberry, Ladino, Mammoth, crimson, bur and sour clovers; sericea; lespedeza; kudzu.
(2) Grasses: Bluegrass, orchard, brome, wheat grasses, rye grasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reed's Canary grass, and velvet grass.

b. Green manure crops consisting of annual and biennial legumes when turned under in 1937, after attaining at least two months' growth.
c. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of the land between the rows.
b. Idle cropland.
c. Cultivated fallow.
d. Bulbs and nursery stock.
e. Cropland planted in 1937 to soil-conserving crops, or mixtures thereof, with or without nurse crops when such nurse crops are not harvested for grain or hay, if, when performance is checked, there is not a good stand of such soil-conserving crops due to uncontrollable natural causes.
f. Small grains seeded at a winter cover crop and pastured, but not harvested for grain or hay.
g. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the County Committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936; provided, such use of land shall have been approved by the County Committee prior to May 1, 1937.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the County Committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-549; Filed, February 24, 1937; 12:36 p. m.]

---

WR—B-101—North Dakota Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—NORTH DAKOTA

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—North Dakota, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in North Dakota, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in North Dakota.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable, a State, a political sub-division of a State, or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Cropland* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of cropland excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than crop land or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon recommendation of the County Committee and the State Committee, the Secretary may designate for any county, or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweet potatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beets Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of North Dakota at the rates and subject to the conditions set forth herein:

SEC. 1. *Diversion Payments.*—With respect to diversion farms payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States.[2]

SEC. 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however*, that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III.—Rates and Conditions of Soil-Building Payment*

SEC. 1. *Soil-Building Payment.*—Payment will be made for carrying out on crop land or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm.

The soil-building practices prescribed in this Section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage except that payments will be made for the practice prescribed in item F in addition to either of the practices prescribed in items K and N, and payments will be made for the practice prescribed in item J in addition to the practice prescribed in item K.

PRACTICES AND CONDITIONS—RATES OF PAYMENT

A. Perennial legumes including alfalfa, kudzu, sericea, white clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on crop land in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Biennial legumes including red clover, alsike clover, and Mammoth clover, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Annual and biennial sweet clover and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on cropland under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Perennial grasses including bluegrass, orchard, Bermuda, brome, grama, buffalo, wheat grasses (except crested wheat grass), rye grasses, and such other perennial grasses as are approved by the Director of the Western Division when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Mixtures of perennial and biennial legumes and perennial grasses recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

F. Crested wheat grass seeded on cropland in 1937: $3.00 per acre.

G. *Restoring to native grass.*—Land on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which in accordance with good farming practices should be permanently devoted to grass: $0.25 per acre: *Provided:*

1. The operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass,

2. Approval has been obtained from the county committee, and

3. Such land is not pastured, cropped, or tilled in 1937.

H. *Forest Trees.*—

1. Planting of trees on cropland in 1937 provided the land is maintained in a good state of cultivation and the plantings are protected from livestock with not less than 200 living trees per acre at the time performance is checked. Approval by the county committee of the site for such planting shall have been obtained before planting: $10.00 per acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacement of any dead trees to not less than 200 living trees per acre at the time performance is checked: $4.00 per acre.

I. *Perennial noxious weed control.*—When, after approval of the county committee seriously infested plots of Canadian thistle, bindweed or wild morning glory, white top, Leafy spurge, Russian Knapweed are controlled by periodic cultivation or by chemical treatment in accordance with specifications issued by the Director of the Western Division.

1. Chemical treatment: $10.00 per acre.
2. Periodic cultivations: $5.00 per acre.

J. *Establishment of strip cropping and fallow.*—The fallow strips (two or more strips of fallow) to be not less than five rods nor more than 20 rods in width with intervening strips of small grain crops or small grain stubble the width or twice the width of the fallow strips. The first tillage operation must be completed before June 1, 1937, strips to be approximately at right angles to the prevailing winds. Payment to be made on the acreage of fallow land only and then only when additional to the acreage used for that practice in 1936: $1.00 per acre.

K. *Plowless fallow.*—First tillage to be completed by June 1, 1937, and subsequent tillage frequent enough to prevent weed growth. All tillage to be done by implements that leave the surface rough and planted growth near the surface. Approved implements to be field cultivator, lister, or one way disc where one way disc is used only for initial cultivation: $0.50 per acre.

L. *Cover crop.*—Seeding of small grains other than rye or winter wheat on summer fallowed land after July 15 and left as a winter cover crop: $0.50 per acre.

M. *Green Manure.*—When field peas and soy beans are seeded on crop land in 1937 and turned under after attaining at least two months' growth with no utilization for grain, pasture, seed or canning purposes: $1.00 per acre.

N. *Solid contour listing.*—When practiced on crop land in 1937 in accordance with specifications approved by the Director of the Western Division: $1.00 per acre.

O. *The following practice will be applicable only to non-crop pasture acreage:*

Reseeding with native perennial grasses in 1937, in accordance with specifications recommended by the State Committee and approved by the Director of the Western Division: $0.20 per pound of seed sown not in excess of $2.00 per acre.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm $10.00, or the sum of the following items whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[2] for each acre diverted for payment from the soil-depleting base.

3. 80 cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[2] for each acre devoted to commercial orchards, on the farm in 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of crop land on which only one crop of commercial vegetables was grown in 1936.

[2] See Footnote 2 on Page 419.

6. $2.00 for each acre of crop land on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00, or the sum of the following items whichever is the greater:

1. 80 cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States, for each acre or crop land on the farm in 1937.[2]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of crop land on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of crop land on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for a ranching unit prior to their institution:[3]

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank, or where piping is impracticable, a concrete tank may be constructed at the seep: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For the drilling or digging of wells, casing to be not less than 2 or 4 inches in diameter, provided a windmill or power pump is installed and the water is piped to a tank or storage reservoir: $1.00 per linear foot for 4 inch oasing; $0.50 per linear foot for 2 inch casing.

An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or pipe to a tank or storage reservoir.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, subsurface drainage or under-drainage, or primarily for any purpose other than the prevention of soil washing: $0.10 per 100 linear feet. (See Farmers' Bulletin No. 1606, Farm Drainage, published by the U. S. Department of Agriculture.)

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

G. *Reseeding.*—For reseeding depleted range land in 1937 with good seed of adapted varieties of perennial grasses as follows: $0.20 per pound of seed sown:

1. Crested wheat grass.
2. Slender wheat grass.

3. Western wheat grass.
4. Brome grass.

H. For establishing fire guards not less than four feet in width, by plowing furrows or otherwise exposing the soil: $0.03 per 100 linear feet.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increase in acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator, or (2) each ranch operator of a group of two or more ranch operators: Provided all ranch operators signify in the application for payment a percentum of the total payment under the application for payment, to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937: *Provided, however,* That—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated, the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section 1, part II: *Provided, however,* That if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe of the estimated administrative expenses incurred or to be incurred by such association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act. There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SEC. 1. *Soil Depleting Base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all crop land in the county, the ratio of the soil-depleting bases established in a county to the acreage of crop land on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of crop land less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SEC. 1. *Soil-Depleting Crops.*—Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under item a of Section 3 and items d and f of Section 3 of this Part VIII.
b. Corn (field, sweet, and popcorn).
c. Potatoes.
d. Sugar beets.
e. Root crops grown for feed.
f. Cultivated sunflowers.
g. Mustard (commercial).
h. Rape.
i. Truck and vegetable crops and their seed, melons, and strawberries.
j. Grain sorghums, sweet sorghum, broom corn and sudan grass harvested for seed, grain, or hay.
k. Millets.
l. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed or hay, except as indicated under item d of Section 3 of this Part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1, Part VIII of this Bulletin) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses, and such other legumes and grasses as may be approved by the Director of the Western Division, when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay:

(1) Legumes: Alfalfa, sweet, red, alsike, white, strawberry, ladino, Mammoth, crimson, bur, and sour clovers; Austrian winter peas, sericea, kudzu.

(2) Grasses: Bluegrass, orchard, brome, wheat grasses, rye grasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reeds Canary grass and velvet grass.

b. Green manure crops, including field peas and soybeans when turned under in 1937 after attaining at least two months growth.

c. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of the land between the rows.

b. Idle cropland.

c. Bulbs and nursery stock.

d. Cropland planted in 1937 to soil-conserving crops, or mixtures thereof, with or without nurse crops when such nurse crops are not harvested for grain or hay, if, when performance is checked, there is not a good stand of such soil-conserving crops due to uncontrollable natural causes.

e. Cultivated fallow (summer fallow).

f. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the County Committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936, provided, such use of land shall have been approved by the County Committee prior to May 1, 1937.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the county committee is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-550; Filed, February 24, 1937; 12:36 p. m.]

---

WR—B-101—Oregon Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—OREGON

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of Section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Oregon, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Oregon, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Oregon.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable a State, a political subdivision of a State or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Cropland* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937 and all other farm land devoted on January 1, 1937 to orchards or vineyards other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of cropland, excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon recommendation of the County Committee and the State Committee, the Secretary may designate for any county, or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables, bulbs, or truck crops (including potatoes, sweetpotatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Oregon at the rates and subject to the conditions set forth herein.

SECTION 1. *Diversion Payments.*—With respect to diversion farms, payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States.[2]

SEC. 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm: provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets: or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however,* that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III—Rates and Conditions of Soil-Building Payment*

SEC. 1. *Soil-Building Payment.*—Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm.

The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Perennial legumes,* including alfalfa, white clover, red clover, Ladino clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on cropland in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

[1] Two yearlings equal one cow or one horse. A calf or colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. *Biennial legumes* (except sweet clovers and red clovers) including alsike, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on cropland in 1937 when good seed of an adapted variety is used, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. *Perennial grasses,* including bluegrass, orchard, brome, rye grasses, bent grasses, fescues, tall oat grass, and wheat grasses (except crested wheat grass), and such other perennial grasses as are approved by the Director of the Western Division, when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. *Mixtures of perennial and biennial legumes and perennial grasses recommended by the State Experiment Station and approved by the State Committee.*—

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. *Crested wheat grass seeded on cropland in 1937:* $3.00 per acre.

F. *Biennial and annual sweet clover,* sour clover, bur clover, crimson clover, winter peas, and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on cropland under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

G. *Reseeding farm pastures and meadows.*—When perennial grasses or perennial legumes, or mixtures thereof, are seeded on pasture land in 1937: $0.20 per lb. of seed sown. *Payment will not be made in excess of $2.00 per acre.*

H. *Winter wheat or rye.*—When seeded in the spring of 1937, not later than June 15, on non-irrigated cropland in Eastern Oregon, and utilized only as a pasture or cover crop: $1.00 per acre.

I. *Forest Trees.*—

1. Planting of trees on cropland in 1937, provided the land is maintained in a good state of cultivation and plantings are protected from livestock with not less than 200 living trees per acre at the time performance is checked: $10.00 per acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacements of any dead trees to not less than 200 living trees per acre at the time performance is checked: $4.00 per acre.

J. *Green Manure Crops.*—When green manure crops, including rye, annual legumes, and mixtures of annual legumes and small grains are grown in 1937 on cropland and turned under after attaining at least two months' growth with no utilization for grain, pasture, seed or canning purposes.

1. Rye: $1.00 per acre.
2. Other green manure crops:

a. In Western Oregon: $2.00 per acre.
b. On all irrigated lands: $2.00 per acre.
c. On non-irrigated lands in Eastern Oregon: $1.00 per acre.

K. *Perennial Noxious Weed*[3] *Control.*—When, after the approval of the County Committee, seriously infested plots of weeds listed below are controlled by periodic cultivation or chemical treatment in accordance with specifications issued by the Director of the Western Division.

1. Chemical treatment: $10.00 per acre.
2. Periodic cultivation: $5.00 per acre.

L. *Controlled Fallow in Eastern Oregon.*[4]—

1. *Trashy summer fallow.*—When cropland is summer fallowed in such a manner as to leave all crop residue on or near the surface of the soil to prevent erosion from wind or water, and no straw or stubble is burned or otherwise removed from such land: $0.50 per acre.

2. *Establishment of strip cropping and fallow.*—When fallow is performed in 1937 in strips not more than 10 rods in width, approximately at right angles to the prevailing winds, alternated with strips of small grain or small grain crops or stubble of equal width. Payment to be made on the acreage of fallow land only and then only when additional to the acreage used for such practice in 1936: $0.50 per acre.

3. *Establishment of contour strip cropping and fallow.*—When summer fallow is performed in 1937 in strips not more than 10 rods in width, alternated with strips of small grain crops or stubble of equal width, strips to follow the contour of the field, without the burning of stubble or crop residues. Payment to be made on the acreage of fallow land only, and then only when additional to the acreage used for such practice in 1936: $1.00 for each new acre.

M. *Restoring to native grass,* land on which a crop was harvested or seeded for harvest at least once since January 1, 1930 and which, in accordance with good farming practices, should be permanently devoted to grass; $0.25 per acre: *Provided,*

1. The operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass;

[3] Perennial noxious weeds shall include: Canada thistle, bind weed or wild morning glory, leafy spurge, Russian knapweed, white top or hoary cress, and Siberian Mustard.

[4] Eastern Oregon shall include Wasco, Sherman, Morrow, Gilliam, Umatilla, Union, Baker, Wallowa, Malheur, Harney, Wheeler, Grant, Jefferson, Crook, Deschutes, Klamath, and Lake Counties.

2. Approval has been obtained from the county committee;

3. Such land is not pastured, cropped, or tilled in 1937, and

4. Any volunteer growth containing noxious weeds is clipped before seed is formed.

N. *Removal of All Trees in Abandoned Orchards and Seeding to Legumes and Grasses.*—For removal of all trees in abandoned orchards, followed by the seeding and establishment of a good stand of perennial grasses or legumes in 1937. All holes to be filled and leveled: $5.00 per acre.

O. *Mulching in Orchards.*—When mulching materials of at least two tons, dry weight, of leguminous hay, or straw are applied during 1937: $4.00 per acre.

P. *For applications of 17 percent superphosphate at the rate of not less than 400 pounds per acre to cropland prior to seeding mixtures of biennial and perennial legumes and grasses in Western Oregon*[5]: $2.40 per acre.

Q. *Lime in Western Oregon,* when applied to cropland, during 1937, in an amount not less than 1 ton, nor more than 3 tons of ground limestone or its equivalent per acre: $3.00 per ton.

R. *Disking in of alfalfa on irrigated land in Eastern Oregon.*—Alfalfa allowed to mature in 1937 and then disked in, with no hay or seed harvested therefrom in 1937 (except in orchards): $6.00 per acre.

S. *Control of wind erosion on critical blow areas on cropland.*—For making and maintaining furrows not less than 8'' deep and 10'' wide and not more than 12' apart; furrows to be at right angles to the prevailing winds: $1.00 per acre.

T. *Construtions of Straw Checks in Gullies.*—Where the slope of the bottom of the gullies is 3% or more, with checks at least 4'' deep and not more than two feet apart and the straw properly packed: $0.30 per 100 feet.

SEC. 2. *Combinations of Practices for Soil-Building Payments on the Same Acreage.*—Payments will not be made for more than one soil-building practice carried out on the *same acreage* except as follows:

a. Any one of the practices specified in items A, B, C, D, E, and F in addition to the practice specified in item L–1.

b. Any one of the practices specified in items A, B, D, and G in addition to either of the practices specified in items P and Q.

c. The practice specified in item L–1 in addition to either of the practices specified in items L–2 and L–3.

SEC. 3. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[2] for each acre diverted for payment from the soil-depleting base.

3. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[2] for each acre devoted to commercial orchards on the farm on January 1, 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of cropland on which one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of cropland on which *two or more crops* of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season; provided, however, that if the normal pasture season is ten months or more, the rate shall be $1.00 for each animal unit in excess of five.

B. *For a non-diversion farm* $20.00, or the sum of the following items, whichever is greater:

1. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States, for each acre of cropland on the farm in 1937.[3]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season, provided, however, that if the normal pasture season is 10 months or more, the rate shall be $1.00 for each animal unit in excess of 5.

*Part IV—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the County Committee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of Springs and Seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank: $50.00 per spring or seep.

C. *Earthen Pits or Reservoirs for Holding Run-off and Impounding Precipitation.*—For a fill or excavation made for constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cu. yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is piped to a tank or storage reservoir. An artesian well may qualify for payments provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or a pipe to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, sub-surface drainage or under-drainage, or primarily for any purpose other than the prevention of soil washing: $0.10 per 100 linear feet of permanent ditching. (See Farmers' Bulletin No. 1606, *Farm Drainage,* published by the U. S. Department of Agriculture.)

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Pocket gophers: $0.15 per acre.
2. Ground squirrels: $0.06 per acre.

[2] See Footnote 2 on Page 425.

[5] Western Oregon shall include Hood River, Multnomah, Clackamas, Marion, Linn, Benton, Lane, Douglas, Josephine, Jackson, Curry, Coos, Lincoln, Tillamook, Clatsop, Columbia, Yamhill, and Washington Counties.

H. *Reseeding.*—

1. For reseeding depleted range land, except as specified in the succeeding paragraph, with good seed of adapted varieties of perennial grasses as follows: $0.20 per pound of seed sown:

a. Crested wheat grass.
b. Western wheat grass.
c. Slender wheat grass.
d. Brome grass.

2. In the counties of Lane, Douglas, Coos, Curry, Josephine and Jackson, for reseeding depleted range land before December 31, 1937, at a rate not less than seven pounds per acre, with such mixtures of the following grasses as may be approved for each county by the State Committee: Common western rye grass, English rye grass, timothy, orchard grass, bent grass, chewings fescue, Kentucky blue grass, white clover, bur clover and velvet grass, provided that the range land in the ranching unit is used in 1937 exclusively for the grazing of range livestock: $1.00 per acre.

I. *Fire Guards.*—For the establishment of fire guards, not less than four feet in width, by plowing furrows or otherwise exposing the mineral soils: $0.03 per 100 linear feet.

J. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increases in the acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators. Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: Provided, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment, to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937; *provided, however,* that—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State Committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the County Committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the County Committee, or as is determined by the County Committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In the event that any such county or other area is designated, the allowances, rates, and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the State bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin, no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section 1, part II; *Provided, however,* that if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the County Committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State Committee a list of all such land.

B. An application for a payment may be made by an owner, share tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or a ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SEC. 1. *Soil-Depleting Base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland in the county, the ratio of the soil-depleting bases established in a county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall

not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SEC. 1. *Soil-depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under item a, Section 2, and under items d, f, g, and h, Section 3, of this Part VIII.
b. Corn (field, sweet, and popcorn).
c. Potatoes.
d. Sweet potatoes.
e. Sugar beets.
f. Root crops grown for feed.
g. Hemp.
h. Cultivated sunflowers.
i. Mustard (commercial).
j. Rape.
k. Truck and vegetable crops (except perennial vegetables) and their seeds, melons and strawberries.
l. Grain sorghums, sweet sorghums, broom corn, and sudan grass, harvested for seed, grain, or hay.
m. Millets.
n. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for seed, hay, or pastured, except as indicated under item f, Section 3, of this Part VIII.
o. Flowers and their seeds.
p. Kale.
q. Annual grasses including Italian rye grass and Bromus Secalinus.
r. Cultivated fallow (summer fallow), except as provided in item e, Section 3, of this Part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses, and such other legumes and grasses as may be approved by the Director of the Western Division, when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay:

1. Legumes: Alfalfa, sweet, red, alsike, white, strawberry, Ladino, Mammoth, crimson, bur, and sour clovers; vetch; Austrian winter peas, sericea; and lespedeza.

2. Grasses: Bluegrass, orchard, brome, wheat grasses, rye grasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reed's Canary grass, and velvet grass.

b. Green manure crops, including annual legumes, rye, and mixtures of annual legumes and small grains when turned under in 1937, after attaining at least two months' growth, when not followed by summer fallow.
c. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of the land between the rows.
b. Idle cropland.
c. Bulbs and nursery stock.
d. Cropland planted in 1937, to soil-conserving crops, or mixtures thereof, with or without nurse crops when such nurse crops are not harvested for grain or hay, if, when performance is checked there is not a good stand of such soil-conserving crops due to uncontrollable natural causes.
e. Any acreage on which perennial or biennial legumes or perennial grasses have been seeded following summer fallow when no soil-depleting crop has been seeded on such land for harvest in 1937.
f. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the County Committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936; provided, such use of land shall have been approved by the County Committee prior to May 1, 1937.
g. Winter wheat or rye seeded in the spring for cover crop purposes.
h. Winter seeded peas and vetch when seeded with small grains as a support crop.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the County Committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37–551; Filed, February 24, 1937; 12:36 p. m.]

## FEDERAL POWER COMMISSION.

Commissioners: Frank R. McNinch, Chairman; Basil Manly, Vice Chairman; Herbert J. Drane, Claude L. Draper, Clyde L. Seavey.

[IT–5015]

ORDER POSTPONING HEARING

IN RE METROPOLITAN EDISON CO., ET AL.

The following order was adopted:

It appearing to the Commission:

That Metropolitan Edison Company, Northern Pennsylvania Power Company, Pennsylvania Electric Company, Erie Lighting Company, The Clarion River Power Company, and Solar Electric Company have filed a petition for a rehearing with respect to the order made and entered in the above matter on January 26, 1937, setting a hearing for March 3, 1937, and for the vacation of said order;

And it further appearing that the Honorable George H. Earle, Governor of the Commonwealth of Pennsylvania, has filed an application for postponement of the hearing set by said order for March 3, 1937, to a later date:

It is *ordered:*

That the said hearing set for March 3, 1937, be and it is hereby continued without day.

Adopted by the Commission on February 24, 1937.

[SEAL] LEON M. FUQUAY,
*Acting Secretary.*

## RURAL ELECTRIFICATION ADMINISTRATION.

[Administrative Order No. 62]

ALLOCATION OF FUNDS FOR LOANS

FEBRUARY 25, 1937

By virtue of the authority vested in me by the provisions of Section 4 of the Rural Electrification Act of 1936, I hereby allocate, from the sums authorized by said Act, funds for Loans for the projects and in the amounts as set forth in the following schedule:

| Project Designation: | *Amount* |
|---|---|
| Georgia 66 Taylor | $50,000 |
| Georgia 67 Bacon | 425,000 |
| Iowa 9 W Scott | 27,000 |
| Minnesota 48 Anoka | 170,000 |
| Minnesota 62 Wright | 84,000 |
| Minnesota 64 Hennepin | 70,000 |
| Minnesota 65 Dakota | 200,000 |
| Minnesota 66 Nobles | 230,000 |
| Nebraska 53 Buffalo | 212,000 |
| Ohio 55 A Coshocton | 144,000 |
| Ohio 60 A Seneca (partial) | 270,000 |
| Wisconsin 35 B Richland (Additional) | 159,000 |

JOHN M. CARMODY, *Administrator.*

[F. R. Doc. 37–585; Filed, February 26, 1937; 10:03 a. m.]

## SECURITIES AND EXCHANGE COMMISSION.

HOLDING COMPANY ACT

Acting pursuant to the authority conferred upon it by the Public Utility Holding Company Act of 1935, particularly Sections 3 (d), 9 (c), and 20 (a) thereof, and finding that certain amendments of Rule 9C–3 are necessary and appropriate and that such acquisitions of securities by registered holding companies and subsidiary companies thereof as are exempted from the provisions of the Act by said rule, as hereinafter amended, are appropriate, within the limitations therein stated, for investment of the current funds of such companies or in the ordinary course of their business and are not detrimental to the public interest or that of investors or consumers; and finding further that the following action is necessary and appropriate to carry out the provisions of said Act and not contrary to the purposes thereof, the Securities and Exchange Commission hereby amends said Rule 9C–3 so that the same will read as follows, and provides that said rule, as thus amended, shall become effective March 1, 1937:

RULE 9C–3. *Acquisition of Securities.*—

(NOTE.—Rules under Section 14 require reports as to certain acquisitions authorized by this rule.)

Section 9 (a) shall not apply to any acquisition of a security by a registered holding company or subsidiary company thereof which is permitted under the provisions of this rule:

(1) Any such company as aforesaid may acquire any bond or other evidence of indebtedness, listed or admitted to unlisted trading privileges on any national securities exchange or actively traded in on any over-the-counter market, and generally considered appropriate for the investment of current funds; *provided* (a) that the issuer of such security is not the acquiring company or an associate or affiliate thereof; (b) that, upon the completion of the acquisition, the acquiring company will not own more than 5 per cent of the outstanding funded debt of the issuer; and (c) that such securities are not acquired from an associate or affiliate of the acquiring company.

(2) Any such company may acquire any prime commercial paper, trade acceptance, or bank certificate of deposit maturing within twelve months from date of issuance or payable not more than 60 days after demand, or any obligation evidencing indebtedness of a customer for goods purchased from or services rendered by the acquiring company, except that this paragraph shall not be deemed to authorize the acquisition of any security issued by an associate or affiliate of the acquiring company.

(3) Any such company which, in a proceeding by or against it under the Federal Bankruptcy Act, has been permitted by order of a court of the United States to continue to operate its business under direction or control of such court, or any receiver or trustee for any registered holding company or subsidiary company thereof appointed by a court of the United States, may acquire any security which such company, receiver or trustee shall receive in compromise of a debt or claim owing to it or because of a reorganization of another company, *provided* that the acquisition of the specific security in question has been expressly authorized by such court.

(4) Any registered holding company or subsidiary company thereof which has the full beneficial ownership of any security and transfers or causes to be transferred the bare legal title thereto to any other person or company, may acquire any other security evidencing such beneficial ownership; and any registered holding company or subsidiary company thereof may acquire legal title to any security if, immediately prior to such acquisition, it has the full beneficial ownership of such security.

(5) Any such company may acquire any security issued or delivered to it as a dividend payable in stock or other securities, or as a partial or total liquidating dividend, or as a result of a change in the par value of, a split-up of, or a reduction in the number of shares of stock which the issuer has outstanding.

(6) Any such company may acquire any securities issued (1) by a company which is a majority owned subsidiary thereof, or (2) by a company which is not, immediately before or immediately after such acquisition, an associate company thereof, *provided* that in either case such acquisition is effected without payment of any premium or additional consideration and that such acquiring company is entitled to receive such securities

(a) because of a reclassification of securities of such other company or other change in the rights of holders thereof; or

(b) because of the exercise by the acquiring company of a right or privilege to convert securities which it already owns into other securities; or

(c) because of an offer made by such other company to all holders of one or more classes of its securities to deliver in exchange for outstanding securities new securities which are subject to the provisions of Section 6 (a) or exempted therefrom by order pursuant to Section 6 (b).

(7) Any such company may exercise any preemptive right or other privilege to purchase additional securities to be issued to it by another company, which right or privilege is given to all holders of one or more classes of securities of such other company, *provided* that, upon termination of the offer of such rights, such acquisition will not increase the proportionate voting power (whether present or contingent) of the acquiring company in the company which issues such new securities.

(8) Any such company which owns, directly or indirectly, all the outstanding securities (except the minimum amount of stock required to qualify directors) of another company may at any time acquire any security owned by such other company. The provisions of this paragraph shall not be applicable, however, to the acquisition of any securities from a company which has been exempted from the provisions of the Act by virtue of Section 3 (b) or has pending an application for such an exemption.

(9) Any such company may acquire any security to which it becomes entitled by virtue of any reorganization (whether effected through a statutory merger or consolidation or by sale of the entire assets of the company or companies undergoing reorganization, or otherwise, and including a recapitalization or reincorporation) of one or more other companies, whether or not any such other company is the issuer of such security, if any one of the following additional conditions is satisfied:

(a) immediately prior to such reorganization and upon completion thereof, no company undergoing such reorganization and no issuer of any security so acquired is an associate company of the acquiring company; or

(b) immediately before such acquisition such acquiring company owns, directly or indirectly, substantially all of the outstanding securities of the company undergoing reorganization and, upon completion thereof, substantially all of the outstanding securities of the company undergoing reorganization, its successor or successors, are owned by the acquiring company; or

(c) such reorganization involves merely the transfer by a single company of substantially all of its assets to a new company having substantially the same capital structure, and does not involve any other substantial change in the rights of existing security holders; or

(d) such reorganization plan has been approved by the Commission under Section 11 (f);

*provided, however,* that the exemption provided by this rule shall not be applicable to the acquisition of any securities if such securities are carried on the books of the acquiring company at a higher valuation, in the aggregate, than the one at which securities surrendered or exchanged for such securities were so carried immediately prior to such acquisition.

(10) Any such company may acquire securities issued by a newly organized corporation for the purpose of, or in connection with, the original incorporation of the issuer under the laws of any State of the United States; *provided* that such original incorporation involves only the issue or receipt of subscriptions for shares of common capital stock having a par, stated or declared value of not exceeding $10,000, and that such acquisition includes the entire issue other than required to qualify directors or incorporators.

(11) Any such company may acquire any security of any company which is primarily engaged in the business of performing services or construction for, or selling goods to the acquiring company or associate companies thereof; *provided* (a) that the issuer of such security is a mutual or a subsidiary service company which the Commission has approved or whose organization and method of conducting business it has found sufficient to meet the requirements of Section 13 of the Act; (b) that the issuance of such security was duly authorized by rule or order of the Commission; and (c) that its acquisition by the acquiring company is not in contravention of any rule, regulation or order of the Commission under Section 13.

(12) Any such company may acquire any security of a company which is primarily a public utility company or which, upon the expenditure of the proceeds of the sale of such securities, will become primarily a public utility company if, upon completion

of such acquisition, the book value of the total assets of the issuer will not exceed $100,000 and the acquiring company will be the owner of substantially all of its outstanding voting securities.

(13) Any such company that is primarily a public utility company may acquire any security which is issued by an industrial or other non-utility enterprise located in the territory served by the acquiring company, *provided* that, upon completion of any such acquisition, the total cost of all such securities acquired during any calendar year does not exceed an amount equal to 1/10th of 1 percent of the total assets of the acquiring company.

(14) Any such company, other than one which is in default in payment of principal or interest on any of its evidences of indebtedness, may acquire by purchase for cash (1) any evidence or indebtedness of which it is the issuer, or (2) any security issued by a majority-owned subsidiary thereof which is organized under the laws of the United States or of a State thereof and substantially all of whose gross revenues (on a consolidated basis) are derived from business done and performed within the United States, or (3) any security issued by a company substantially all of whose properties are located in the United States and are leased to such company or to a majority-owned subsidiary thereof; *provided* that, upon completion of any such acquisition, the total cost of all such acquisitions during the calendar year by the acquiring company, by all its majority-owned subsidiary companies, and by all companies of which it is a majority-owned subsidiary, which are authorized only by virtue of this paragraph, will not exceed, in the aggregate, an amount equal to 2½ percent of their total assets, on a consolidated basis. The assets of a subsidiary company which is not a majority-owned subsidiary shall not be included in determining consolidated assets for purposes of this paragraph. The exemption provided by this paragraph shall not be applicable to any acquisition effected in the course of a series of transactions made for the purpose of pegging, fixing, stabilizing, or raising or depressing the price of a security; or to any acquisition of a security if, within three months prior to the acquisition, the acquiring company sold other securities of the same class, except a sale to an associate company without profit.

Acting pursuant to the authority granted by the Public Utility Holding Company Act of 1935, and particularly Section 14 thereof, and finding such action necessary and appropriate in the public interest and for the protection of investors and consumers, the Securities and Exchange Commission hereby amends Rule 14–1 to read as follows:

RULE 14–1. *Reports of Acquisitions, Redemptions and Retirements of Securities.*—(a) Within 30 days after the close of each calendar year, each registered holding company shall file with the Commission a report containing the information specified in paragraph (b) below with respect to all acquisitions of securities made during such quarter by such holding company and all of its subsidiary companies (whether or not majority-owned), pursuant to any of the provisions of Rule 9C–3 except those of paragraphs (1) to (4); *provided, however,* that no subsidiary company which is also a registered holding company shall be required to file any such report for any period if any company of which it is a subsidiary company shall have filed such a report for such period and shall have included therein all acquisitions during such period which such subsidiary company would otherwise have been required to report. Any registered holding company may incorporate by exact and specific reference any such report filed with the Commission by another holding company, or any portion thereof that shall be accurately and specifically described. No report need be filed for any quarter during which no such acquisitions have been effected.

(b) Each such report shall itemize each separate transaction. The transactions shall be grouped according to the acquiring company and, as to each acquiring company, according to the paragraph of Rule 9C–3 under which they fall. Each such report shall adequately describe each security acquired (including interest or dividend rate) and give, so far as applicable, the following data:

date of transaction;

consideration paid or to be paid, including all commissions, fees, and other remuneration (a separate statement shall be made as to any commissions, fees or other remuneration in excess of the usual and customary broker's commission);

name of beneficial owner from whom acquired, his relationship to acquiring company (or an express statement that such party is not known), name and address of any broker and name of any exchange through which transaction was effected.

Each report as to securities acquired under paragraphs (13) and (14) of Rule 9C–3 shall give the data necessary to compute the percentages prescribed by each such paragraph, and shall contain a statement of the percentages acquired during the calendar year to and including the date as of which such report is made.

(c) No form is prescribed for any report pursuant to this rule. One original only need be filed. If acknowledgment is desired, a duplicate should also be filed.

RULE 3. *Applications for exemption under Sections 2 or 3.*—(a) Every application for an order of exemption pursuant to Section 2 or Section 3 shall comply with the provisions of Rule 2. Rules 2A3–1, 2A4–1, 2A7–1, 2A8–1 and 3A–1 set forth the specific information that is to be given in the case of applications made under corresponding subsections of the Act. If, however, any such information is not available without unreasonable effort or delay, or is deemed by the applicant to be irrelevant to the question presented, the applicant may omit such information, briefly indicating the reasons for such omission, and submitting instead such other information, if any, as it may deem relevant. Thus in any case where an applicant is of the opinion that the statement of certain facts makes the recital of other specified information unnecessary in view of the appropriate provisions of Section 2 or 3, it may state such facts and explain the reasons for such opinion without giving the further information specified, and in any case involving a question of control an applicant may admit control in whole or in part and, to such extent, omit the information bearing on this question. If any applicant is in doubt as to the interpretation of any requirement of the appropriate rule under Section 2 or 3, it should, in making its application, adopt the interpretation which seems to it most reasonable, and expressly explain the interpretation adopted. All applications shall be subject to the right of the Commission to require any additional information, whether specified by the appropriate rule or not, which it may find necessary or appropriate in the particular case. The applicant may at its option include any additional information not required by the Commission. Each application should contain a brief statement of the reasons why the applicant is deemed to be entitled to the action requested with a reference to the provisions of the Act and of the Rules and Regulations under which application is made.

(b) Any such application may incorporate by reference any information contained in any other such application previously or concurrently filed, whether by the same or by a different applicant. Any one applicant may file a combined application for different orders or file separate applications, but, if separate, each such application should include an express reference to the other. Any two or more applicants may file joint applications where substantially the same questions of fact are involved. Orders may be requested in the alternative, but in such case the applicant's preference should be indicated.

Acting pursuant to the authority granted by Section 3 (d) of the Public Utility Holding Company Act of 1935 and finding such action necessary and appropriate in the public interest and for the protection of investors and consumers and not contrary to the purposes of said Act, the Securities and Exchange Commission hereby adopts the following rule:

RULE 3D–6. *Issue of Initial Shares by Company in Process of Organization.*—Any subsidiary of a registered holding company in process of organization may, for the purposes of or in connection with its original incorporation, accept subscriptions for and issue and sell shares of its common capital stock having a par, stated or declared value of not exceeding $10,000, and the issue and sale of such shares by such a company is hereby exempted from the provisions of Section 6 (a), *provided* that all securities (other than those required to qualify directors or incorporators) whose issue and sale is thus exempted shall be owned by a single company, and that the consideration received or to be received by the issuer on account of such exempt transaction shall consist exclusively of cash not in excess of said sum of $10,000.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37–592; Filed, February 26, 1937; 12:39 p. m.]

HOLDING COMPANY ACT

ADOPTION OF RULE 17C–12

Acting pursuant to the Public Utility Holding Company Act of 1935, particularly Sections 17 (c) and 20 (a) thereof, and finding that such action will not adversely affect the public interest or the interest of investors or consumers and is appropriate to carry out the provisions of said Act, the Securities and Exchange Commission hereby adopts the following rule:

RULE 17C–12. *Temporary Exemption of Newly Registered Companies from Section 17 (c).*—Any holding company which, on or after February 20, 1937, shall have filed with the Commission a notification of registration pursuant to the provisions of Section 5 of the Public Utility Holding Company Act of 1935 and each subsidiary company thereof shall be exempt until September 1, 1937, from the provisions of Section 17 (c) with respect to any person who was a director or officer of such company on August 26, 1936, *provided* that such person has not thereafter acquired any financial connection which he did not have on such last mentioned date except financial connections of a kind permitted by rules under Section 17 (c).

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 23rd day of February A. D. 1937.

[File No. 2–2837]

IN THE MATTER OF BERING STRAITS TIN MINES, INC.

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Bering Straits Tin Mines, Inc. under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading.

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Wednesday, March 10, 1937, at 10 o'clock in the forenoon, in Room 1101, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

[Docket No. A–44 O–44]

NOTICE OF HEARING WITH RESPECT TO PROPOSAL TO AMEND ORDER NO. 3, AS AMENDED, REGULATING HANDLING OF MILK IN ST. LOUIS, MISSOURI, MARKETING AREA, AND WITH RESPECT TO PROPOSAL TO AMEND MARKETING AGREEMENT TENTATIVELY APPROVED DECEMBER 10, 1935, AS AMENDED

Whereas, pursuant to Title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, hereinafter called the Act, the Secretary of Agriculture, hereinafter called the Secretary, issued an order regulating the handling of milk in the St. Louis, Missouri, Marketing Area, effective 12:01 a. m., C. S. T., February 1, 1936, which was amended effective 12:01 a. m., C. S. T., April 17, 1936; and

Whereas, the Secretary tentatively approved the marketing agreement regulating the handling of milk in the said marketing area on December 10, 1935, and which was amended March 30, 1936; and

Whereas, the Secretary has reason to believe that an amendment should be made to said order and said marketing agreement; and

Whereas, under the Act, notice of hearing is required in connection with a proposal to amend an order, and the General Regulations, Series A, No. 1, as amended, of the United States Department of Agriculture, Agricultural Adjustment Administration, provide for notice and opportunity for hearing upon marketing agreements and orders;

Now, therefore, pursuant to the Act and the general regulations, notice is hereby given of a hearing to be held on a proposal to amend such order regulating the handling of milk in the St. Louis, Missouri, Marketing Area and such tentatively approved marketing agreement regulating the handling of milk in the St. Louis, Missouri, Marketing Area, in the Chase Hotel, St. Louis, Missouri, on March 6, 1937, at 9:30 a. m., central standard time.

This public hearing is for the purpose of receiving evidence as to the necessity for changing (1) the minimum prices in article IV, and (2) any other provisions of said order and agreement.

Copies of the proposal to amend the order and the marketing agreement may be inspected in or procured from the office of the Hearing Clerk, Room 4725, South Building, United States Department of Agriculture, Washington, D. C.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

Dated, February 27, 1937.

WR—B–101—Utah Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—UTAH

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Utah, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announceemnt is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased, depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part 1—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Utah, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Utah.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable, a State, a political subdivision of a State or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Crop land* means all farm land which has been tilled and from which at least one crop, other than wild hay, was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards, other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of crop land excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than crop land or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total crop land on the farm. Upon recommendation of the County Committee and the State Committee, the Secretary may designate for any county, or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweetpotatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Utah at the rates and subject to the conditions set forth herein:

SECTION 1. *Diversion Payments.*—With respect to diversion farms, payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States.[2]

SEC. 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however,* that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar.

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the crop land on the farm are contained in Western Region Bulletin No. 102.

In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III—Rates and Conditions of Soil-Building Payment*

SEC. 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on crop land or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this Section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage in 1937, except that payments will be made for the practice prescribed in Item H in addition to any one of the practices prescribed in Items A, B, C, E, and N.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Perennial Legumes,* including alfalfa, white clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

B. *Biennial Legumes* (except sweet clover), including red clover, alsike clover, and Mammoth clovers, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on crop land in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

C. *Sweet Clover,* and such annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on crop land under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

D. *Perennial grasses,* including bluegrass, orchard, brome, grama, wheat grasses (except crested wheat grass), rye grasses, Reed's canary grass, timothy, redtop, meadow fescue, and such other perennial grasses as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Mixtures of Grasses and Legumes recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land in 1937, when seeded under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand: if seeded with a nurse crop which is harvested for grain or hay.

F. *Crested Wheat Grass* seeded on crop land in 1937: $3.00 per acre.

G. *Restoration of Land to Native Grasses* on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices should be permanently devoted to grass: $0.25 per acre: *Provided,* that—

1. The operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass;

2. Approval has been obtained from the county committee;

3. Such land is not pastured, cropped or tilled in 1937; and

4. Any volunteer growth containing noxious weeds is clipped before formation of viable seeds.

H. *Application of Soil Amendments.*—Superphosphate applied to crop land seeded to perennial or biennial legumes in 1937, at a rate per acre of not less than 60 pounds of available P205: $2.25 per acre.

I. *Approved Summer Fallow,* embodying seasonal cultivation in 1937 in a manner which will leave a rough and cloddy surface, without previous destruction of crop residue, and sufficient subsequent cultivation to prevent vegetative growth, provided no soil-depleting crop is grown for harvest in 1937 on such acreage: $0.50 per acre.

J. *Green Manure Crops.*—

1. Annual legumes including vetches, clovers, beans, peas, and grain and legume mixtures, and such other annual legumes as are approved by the Director of the Western Division, when seeded on irrigated crop land or interplanted in orchards, if turned under in the spring of 1937 after having attained a vigorous vegetative growth, or when seeded in the spring if turned under, after having attained a minimum of two months' unpastured growth: $2.00 per acre.

2. Perennial and biennial legumes including alfalfa and sweet clover and such other legumes as are approved by the Director of the Western Division, when grown on irri-

gated crop land and a good stand is turned under after having attained a minimum of two months' unpastured growth in 1937: $2.00 per acre.

3. Perennial and biennial legumes including alfalfa and sweet clover, and such other legumes as are approved by the Director of the Western Division, when grown in orchards and full growth of a good stand is mechanically incorporated into the surface soil in 1937 provided no part of the year's growth is removed from the land where grown, either mechanically or by pasture: $1.00 per acre.

4. Small grains, including rye, oats, barley and grain mixtures, and such other small grains as are approved by the Director of the Western Division, when seeded on irrigated crop land or interplanted in orchards if turned under in 1937 during or prior to the blooming stage: $1.00 per acre.

K. *Forest trees.*—

1. When planted on crop land in 1937, for woodlot purposes, if not less than 400 trees are planted per acre: $10.00 per acre.

2. When planted on crop land in 1937, for windbreak purposes, when planted in rows at right angles to the direction of the prevailing winds, providing trees are spaced not more than 8 feet apart in rows 6 to 10 feet apart: $0.06¼ per rod-row.

3. Maintaining forest trees planted since January 1, 1934 by cultivation of interspaces and replacement of any dead trees to not less than 200 living trees per acre at the time performance is determined: $4.00 per acre.

L. *Perennial Weed Control.*[3]—

1. Chemical treatment, when after obtaining the prior approval of the County Committee, seriously infested areas are controlled by the application of chemicals in accordance with specifications issued by the Director of the Western Division: $10.00 per acre.

2. Periodic cultivation, when after obtaining the prior approval of the County Committee, seriously infested areas are controlled by bi-weekly cultivations, in accordance with specifications issued by the Director of the Western Division: $5.00 per acre.

M. *Prevention of Water Erosion.*—When, after prior approval by the County Committee of proposed plans submitted by the operator, water erosion control practices are carried out in 1937, as follows:

1. For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet, and constructed at intervals so as to result in vertical distances between the furrows, not to exceed one-foot drop on 2 percent slope, two-foot drop on 4 percent slope, three-foot drop on 8 percent slope, or four-foot drop on 12 percent slope: $0.05 per 100 linear feet of furrowing not to exceed $2.00 per acre.

2. For constructing and maintaining permanent dams for diversion of flood waters, or for filling shallow gullies, not more than four feet deep, when accompanied by the construction of adequate dams to prevent washing out: $0.15 per cubic yard of fill.

N. *Reseeding Non-Crop Pasture Land.*—For reseeding depleted non-crop pasture land with good seed of adapted varieties of perennial grasses or mixtures recommended by the State Experiment Station and approved by the State Committee: $0.20 per pound of seed sown, not to exceed $2.00 per acre.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater;

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[3] for each acre diverted for payment from the soil-depleting base.

3. Eighty cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States,[3] for each acre devoted to commercial orchards on the farm.

4. $1.00 for each acre of commercial orchards on the farm.

5. $1.00 for each acre of crop land on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of crop land on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00 or the sum of the following items, whichever is greater:

1. Eighty cents, varying among individual farms as the productivity of the crop land on the farm varies from the average productivity of all such crop land in the United States, for each acre of crop land on the farm in 1937.[3]

2. $1.00 for each acre of commercial orchards on the farm.

3. $1.00 for each acre of crop land on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of crop land on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the County Committee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet, and constructed on slopes in excess of 2 percent, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water in a trough or in a pipe to a tank, watering trough, or reservoir: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, including deepening of existing wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is conveyed to a tank or storage reservoir. An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching for the purposes of irrigation, sub-surface drainage or under-drainage, or primarily for any purpose other than the prevention of soil washing: $0.10 per 100 linear feet of permanent ditching. (See Farmers' Bulletin No. 1606, "Farm Drainage", published by the U. S. Department of Agriculture.)

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, or the equivalent thereof, with good sound posts, not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Pocket Gophers: $0.15 per acre.
2. Ground Squirrels: $0.06 per acre.
3. Prairie Dogs: $0.07½ per acre.

H. *Reseeding.*—For reseeding depleted range land in 1937 with good seeds of adapted varieties of perennial grasses approved by the Director of the Western Division: $0.20 per pound of seed sown.

I. *Fireguards.*—For the establishment of fireguards, not less than four feet in width, by plowing furrows or otherwise exposing the mineral soil: $0.03 per 100 linear feet.

J. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at a rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice if, (1) the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, or (2) the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increase in the acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payment may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) to sole ranch operator or (2) each ranch operator of a group of two or more ranch operators; Provided, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937; *Provided, however,* That—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State Committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payments shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated, the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping, or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1 of Part II; *Provided, however,* that if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld, in whole or in part,

[3] Payment for the adoption of perennial weed control practices shall be limited to control of the following noxious weeds: White top, Wild morning glory, Canada thistle, Russian knap weed, and Perennial sow thistle.

[3] See Footnote 2 on Page 434.

and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him, and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share-tenant, ranch operator or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming and ranching unit are located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SEC. 1. *Soil-depleting base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland on all farms in the county, the ratio of soil depleting bases established in the county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of land uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration, and approved by the Secretary.

SEC. 1. *Soil-Depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Corn (field, sweet and popcorn).
b. Potatoes.
c. Sugar beets for sugar or seed.
d. Cultivated sunflowers.
e. Annual truck, canning, and vegetable crops, and their seeds.
f. Melons.
g. Sorghums, including grain sorghums, sweet sorghums, and sudan grass for seed, grain, or hay.
h. Sweet sorghums for syrup.
i. Small grains including flax, for grain or hay; or pasture except as classified under Item a of Section 2 of Part VIII.
j. Millets.
k. Soybeans, field beans, cowpeas, field peas, and seed peas, for grain, hay, pasture or canning purposes, except as classified under Item b of Section 2 of Part VIII.
l. Root crops grown for feed or seed.
m. Fiber plants.
n. Annual cut flowers and their seeds.
o. Rape.
p. Cultivated fallow (summer fallow) including approved summer fallow, except as classified under Item f of Section 3 of Part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following uses or crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII), shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following grasses and legumes, and such other grasses and legumes as may be approved by the Director of the Western Division, without a nurse crop, or with a nurse crop if such nurse crop is not harvested for grain or hay:

1. Legumes: Alfalfa; sweet, red, alsike, white, strawberry, ladino, Mammoth, crimson, bur, and sour clovers; and mixtures thereof.
2. Grasses: Bluegrass orchard, wheatgrasses, ryegrasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reed's canary grass, Dallis, brome, grama, and mixtures thereof.
3. Grass and Legume Mixtures: Mixtures of 1 and 2 above.

b. Cover and green manure crops consisting of annual, biennial, and perennial legumes; rye, barley, oats, and grain mixtures; vetches; and such other crops as may be approved by the Director of the Western Division; when turned under in 1937, after attaining at least two months' growth.

c. Forest trees when planted on crop land since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, tree fruits, nut trees, bush, and small fruits, including strawberries, regardless of the use of the land between the rows.
b. Perennial vegetables, including asparagus, horseradish, and rhubarb.
c. Nursery stocks, including perennial ornamentals and perennial cut flowers, and their seeds.
d. Bulbs.
e. Idle crop land.
f. Any acreage upon which perennial or biennial legumes or perennial grasses are seeded in the fall of 1937 following summer fallow, when no soil-depleting crop is seeded on such land for harvest in 1937.
g. Crop land planted to forest trees between January 1, 1930 and December 31, 1933.

*Part IX—Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the county committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 14th day of January 1937.

[SEAL]

H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-552; Filed, February 24, 1937; 12:37 p. m.]

---

WR—B-101—Washington — Issued January 14, 1937

## 1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

### BULLETIN NO. 101—WASHINGTON

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of Section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Washington, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Washington, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Washington.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable a State, a political subdivision of a State or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Cropland* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937 and all other farm land devoted on January 1, 1937 to orchards or vineyards other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of cropland, excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon recommendation of the County Committee, and the State Committee, the Secretary may designate for any county, or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables, bulbs, or truck crops (including potatoes, sweet-potatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Washington at the rates and subject to the conditions set forth herein.

SEC. 1. *Diversion Payments.*—With respect to diversion farms, payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States.[2]

SEC. 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm: Provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935 and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however,* that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

[1] Two yearlings equal one cow or one horse. A calf or colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

*Part III—Rates and Conditions of Soil-Building Payment*

SEC. 1. *Soil-Building Payment.*—Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm.

The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. Perennial legumes including alfalfa, red clover, white clover, Ladino clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per Acre.

2. Seeding on crop land in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.50 per Acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Biennial legumes (except sweet clover or red clovers) including alsike, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937 when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on crop land in 1937 when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre.

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Perennial grasses including bluegrass, orchard, brome, rye grasses, bent grasses, fescues, tall oat grass, and wheat grasses (except crested wheat grass) and such other perennial grasses as are approved by the Director of the Western Division when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 Per Acre.

2. Seeding on crop land in 1937, under either of the following conditions: $2.00 Per Acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Mixtures of perennial and biennial legumes and perennial grasses recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on crop land under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Crested Wheat Grass seeded on crop land in 1937: $3.00 per acre.

F. Biennial and Annual Sweet Clover, bur clover, Austrian winter peas, and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on crop land in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on crop land under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

G. *Reseeding farm pastures and meadows.*—When perennial grasses or perennial legumes, or mixtures thereof, are seeded on pasture land in 1937: $0.20 per pound of seed sown. *Payment not in excess of $2.00 per acre.*

H. Winter wheat or rye when seeded in the spring of 1937 not later than June 15, 1937, on cropland and utilized only as a pasture or cover crop: $1.00 per acre.

I. *Forest trees.*—

1. Planting of trees on cropland between January 1, 1937, and December 31, 1937, provided the land is maintained in a good state of cultivation and plantings are protected from livestock with not less than 200 living trees per acre at the time performance is checked: $10.00 per acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacements of any dead trees to not less than 200 living trees per acre at the time performance is checked: $4.00 per acre.

J. *Green manure.*—When green manure crops, including rye, annual legumes, and mixtures of annual legumes and small grains are grown in 1937 on cropland and turned under after attaining at least two months' growth with no utilization for grain, pasture, seed or canning purposes.

1. Rye: $1.00 per Acre.

2. Other green manure crops:

a. On irrigated land: $2.00 per Acre.

b. On all land in Western Washington:[3] $2.00 per Acre.

c. On non-irrigated land in Eastern Washington:[4] $1.00 per Acre.

K. Perennial noxious weed control.[5] When, after approval of the County Committee, seriously infested plots of weeds listed below, are controlled by periodic cultivation or by

[3] "Western Washington" as used herein means the following counties: Skamania, Clark, Cowlitz, Wahkiakum, Pacific, Grays Harbor, Lewis, Thurston, Mason, Kitsap, Pierce, Jefferson, Clallam, King, Snohomish, Skagit, Whatcom, San Juan, and Island.

[4] "Eastern Washington" means those counties in Washington not included in the definition of Western Washington.

[5] Perennial noxious weeds shall include: Canada thistle, bindweed or wild morning glory, white top or hoary cress, leafy spurge, Siberian mustard, Russian knapweed.

chemical treatment in accordance with specifications issued by the Director of the Western Division.

1. Chemical treatment: $10.00 per Acre.
2. Periodic cultivation: $5.00 per Acre.

L. *Controlled fallow.*—

1. Trashy fallow. When cropland is summer fallowed in such a manner as to leave all crop residues on or near the surface of the soil to prevent erosion from wind or water and no straw or stubble is burned or otherwise removed from such land: $0.50 per Acre.

2. *Establishment of Strip Cropping and Fallow.*—When fallow is performed in 1937 in strips not more than 10 rods in width approximately at right angles to the prevailing wind, alternated with strips of small grain crops or stubble of equal width. Payment to be made on the acreage of fallow land only, and then only when additional to the acreage used for such practice in 1936: $0.50 per Acre.

3. *Establishment of Contour Strip Cropping and Fallow.*—When summer fallow is performed in 1937 in strips not more than 10 rods in width, alternated with strips of small grain crops or stubble of equal width, strips to follow the contour of the field, starting at the highest point in the field, without the burning of stubble or crop residues. Payment to be made on the acreage of fallow land only, and then only when additional to the acreage used for such practice in 1936: $0.75 per Acre.

M. *Natural reseeding in the Dry Land Areas of Washington.*[4]—Restoring to native grass of land on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices should be permanently devoted to grass: *Provided:* (1) the operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass; (2) approval has been obtained from the County Committee; (3) such land is not pastured, cropped or tilled in 1937; and (4) any volunteer growth containing noxious weeds is clipped before seed is formed: $0.25 per Acre.

N. *Removal of all trees in abandoned orchards and seeding to legumes and grasses.*—When all trees are removed from an abandoned orchard with stump holes filled and leveled, not later than June 1, 1937, followed by seeding and establishment of legumes or grasses in 1937: $5.00 per acre.

O. *Mulching in orchards.*—When mulching materials of at least two tons, dry weight, of leguminous hay, or straw are applied per acre in 1937: $4.00 per acre.

P. *Superphosphate application in Western Washington only.*—When superphosphate is applied in 1937 to new seedings of legumes or legume and grass mixtures at or before time of seeding and to old meadows and cropland pastures at rate of not less than 60 pounds of available $P_2O_5$ per acre in combination with not less than 6 tons of barnyard manure or its equivalent in liquid manure: $2.25 per acre.

Q. *Lime application for Western Washington only.*—When applied in 1937 to new seedings of legumes or legume and grass mixtures at or before time of seeding, in an amount not less than one ton nor more than three tons per acre of ground limestone or its equivalent in any other form of agricultural lime: $3.00 per ton.

SEC. 2. *Combinations of Practices for Soil-Building Payments on the Same Acreage.*—Payments will not be made for more than one soil-building practice carried out on the *same acreage* except as follows:

a. Any one of the practices specified in items A, B, C, D, E, and F in addition to the practice specified in item L–1,

b. Any one of the practices specified in items A, B, and D in addition to either of the practices specified in items P and Q,

c. The practice specified in Item L–1 in addition to either of the practices specified in items L–2 and L–3.

SEC. 3. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.
2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[3] for each acre diverted for payment from the soil-depleting base.
3. 80 cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[3] for each acre devoted to commercial orchards on the farm on January 1, 1937.
4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.
5. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.
6. $2.00 for each acre of cropland on which *two or more crops* of commercial vegetables were grown on the same acreage in 1936.
7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season: Provided, however, that if the normal pasture season is ten months or more the rate shall be $1.00 for each animal unit in excess of five.

B. *For a non-diversion farm* $20.00 or the sum of the following items whichever is greater:

1. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States, for each acre of cropland on the farm in 1937.[3]
2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.
3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.
4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.
5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season, provided, however, that if the normal pasture season is 10 months or more the rate shall be $1.00 for each animal unit in excess of five.

*Part IV—Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the County Committee for the ranching unit, prior to their institution.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water in a trough, or in a pipe not less than one inch in diameter, to a tank: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is piped to a tank or storage reservoir. An artesian well may qualify for payments provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or a pipe to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, sub-surface drainage or underdrainage, or primarily for any purpose other than the prevention of soil washing: $0.10 per 100 linear feet of permanent ditching. (See Farmers' Bulletin No. 1606, *Farm Drainage*, published by the U. S. Department of Agriculture.)

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced and with wires tightly stretched: $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Pocket gophers: $0.15 per acre.
2. Ground squirrels: $0.06 per acre.

H. *For Reseeding depleted range land* with good seeds of adapted varieties of perennial grasses, as follows: Western wheat grass, crested wheat grass, brome grass, and slender wheat grass: $0.20 per pound of seed sown.

I. *Fire Guards.*—For the establishment of fire guards, not less than four feet in width, by plowing furrows or otherwise exposing the mineral soil: $0.03 per 100 linear feet.

J. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increase in acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payments.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators. Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: Provided, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment, to be made to each ranch operator.

*Part V—Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937: *Provided, however,* that—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.
2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State Committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the County Committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the County Committee, or as is determined by the County Committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Program.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In the event that any such county or other area is designated, the allowance, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1, part II; *Provided, however,* That if the soil-depleting base for the farm is less than 20 acres, such

[4] As used herein, the "dry land areas" means the area specified in footnote 1, Sec. 1, WR Bulletin 2—Washington, Revised, issued July 14, 1936.

[3] See Footnote 2 on Page 440.

deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreement Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such County the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share tenant, ranch operator, or such other persons as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownership, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of bases*

SEC. 1. *Soil-depleting base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland in the county, the ratio of the soil-depleting bases established in a county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity

is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SEC. 1. *Soil-Depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under item a, Section 2, and under items d, f, g and h, Section 3, of this Part VIII.
b. Corn (field, sweet, and popcorn).
c. Potatoes.
d. Sweet potatoes.
e. Sugar beets.
f. Root crops grown for feed.
g. Hemp.
h. Cultivated sunflowers.
i. Mustard (commercial).
j. Rape.
k. Truck and vegetable crops (except perennial vegetables) and their seeds; melons and strawberries.
l. Grain sorghums, sweet sorghums, broom corn, and Sudan grass, harvested for seed, grain, or hay.
m. Millets.
n. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for seed, hay, or pastured, except as indicated under item f, Section 3, of this Part VIII.
o. Flowers and their seeds.
p. Kale.
q. Annual grasses including Italian rye grass and Bromus Secalinus.
r. Cultivated fallow (summer fallow), except as provided in item e of Section 3, of this Part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of this Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses, and such other legumes and grasses as may be approved by the Director of the Western Division, when seeded without a nurse crop or when seeded with a nurse crop if such crop is not harvested for grain or hay:

(1) Legumes: Alfalfa; sweet, red, alsike, white, strawberry, Ladino, crimson, and sour clovers; vetch, Austrian winter peas; cericea; and lespedeza.

(2) Grasses: Bluegrass, orchard, brome, wheat grasses, rye grasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reed's canary grass, and velvet grass.

b. Green manure crops, including annual legumes, rye, and mixtures of annual legumes and small grains when turned under in 1937, after attaining at least two months' growth, when not followed by summer fallow.
c. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, nut trees, bush fruits, hops and perennial vegetables, regardless of the use of the land between the rows.
b. Idle cropland.
c. Bulbs and nursery stock.
d. Cropland planted in 1937 to soil-conserving crops, or mixtures thereof, with or without nurse crops when such nurse crops are not harvested for grain or hay, if, when performance is checked, there is not a good stand of such soil-conserving crops due to uncontrollable natural causes.
e. Any acreage on which perennial or biennial legumes or perennial grasses have been seeded following summer fallow when no soil-depleting crop has been seeded on such land for harvest in 1937.
f. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936; provided, such use of land shall have been approved by the County Committee prior to May 1, 1937.
g. Winter wheat or rye seeded in the spring for cover crop purposes.
h. Winter seeded peas and vetch when seeded with small grains as a support crop.

*Part IX—Appeals*

SEC. 1. *Appeals from Determination of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the County Committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 14th day of January, 1937.

[SEAL]

H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-553; Filed, February 24, 1937; 12:37 p.m.]

---

WR—B-101—Wyoming Issued January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—WYOMING

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Wyoming, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased, depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Wyoming, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricutural Conservation Program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the administration of the 1937 Agricultural Conservation Program in Wyoming.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable a state, a political subdivision of a state, or any agency thereof or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Crop land* means all farm land which has been tilled and from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of cropland excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base, and may be referred to as a Class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a Class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a Class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon recommendation of the County Committee and the State Committee, the Secretary may designate for any county or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweet-potatoes and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II—Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in the State of Wyoming at the rates and subject to the conditions set forth herein.

SECTION 1. *Diversion Payments.*—With respect to diversion farms, payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States.[2]

SECTION 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however,* that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made.

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

*Part III—Rates and Conditions of Soil-Building Payment*

SECTION 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage except that payments will be made for any one of the practices prescribed in Items A, B, C, D, and E in addition to any one of the practices prescribed in Items F, H, and I. Payment will also be made for the practice prescribed in Item H in addition to the practice prescribed in Item I.

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. Perennial Legumes including alfalfa, white clover, red clover, alsike clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

B. Perennial Grasses including bluegrass, orchard, grama, buffalo, wheat grasses (except crested wheat grass), rye grasses, timothy, redtop, and such other perennial grasses as are approved by the Director of the Western Division, when seeded alone or in approved mixtures.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

C. Biennial and Annual Sweet Clover and such other annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on cropland under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

D. Crested Wheat Grass seeded on cropland in 1937: $3.00 per acre.

E. Mixtures of Perennial and Biennial Legumes and Perennial Grasses recommended by the State Experiment Station and approved by the State Committee.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.

b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

F. Establishment of terraces on cropland in 1937, provided, however, plans for the terracing project are approved in advance by the County Committee: 40 cents per 100 linear feet.

G. *Forest Trees.*—

1. Planting of trees on cropland in 1937, provided, the land is maintained in a good state of cultivation and plantings are protected from livestock, with not less than 200 living trees per acre at time of compliance: $10.00 per acre.

2. Maintaining trees planted since January 1, 1934, by cultivation of interspaces and replacement of any dead trees to not less than 200 living trees per acre at time of compliance: $4.00 per acre.

H. In the counties of Laramie, Goshen, Platte, Niobrara, Converse, Natrona, Weston, Crook, Campbell, Sheridan, Johnson, and Lincoln and such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division, controlled summer fallowing when tilled in such manner and with such implements as will result in minimum of wind and water erosion, by creating and maintaining a rough, cloddy, trashy, surface, reasonably free from volunteer growth. First tillage operation to be performed prior to June 15, 1937: $0.50 per acre.

I. In the counties of Laramie, Goshen, Platte, Niobrara, Converse, Natrona, Weston, Crook, and Campbell and such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division, the establishment of strip crop-

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

[2] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

ping and fallow, the fallow strips (two or more strips of fallow) to be not less than five rods nor more than 20 rods in width with intervening strips of small grain crops, sudan grass, close drilled or broadcast, or small grain stubble; provided, however, at least one third the area is covered by strips of crop or small grain stubble. Payment will not be made for this practice if there is planted in 1937 a fall seeded crop of rye or wheat on the strips devoted in 1937 to crops or small grain stubble. The first tillage operation must be completed before June 15, 1937, strips to be approximately at right angles to the prevailing winds. Payment will be made on the acreage of fallow or strips devoted to crops or stubble, whichever is the smaller, and only with respect to the acreage of strip crop and fallow which is in addition to the acreage used for that practice in 1936: $1.00 per acre.

J. The restoring to native grass of land on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices, should be permanently devoted to grass; *Provided*, (1) the operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass; (2) approval has been obtained from the county committee; and (3) such land is not pastured, cropped or tilled in 1937: $0.25 per acre.

K. The following practices will be applicable only in the counties of Laramie, Platte, Goshen, Niobrara, and Converse, and such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division:

1. Fall or winter listing of cropland at approximately right angles to the prevailing winds, to control wind erosion, in such manner, and time of listing as are approved in advance by the County Committee: $0.25 per acre.

L. The following practices will be applicable only to non-crop pasture acreage:

1. For reseeding depleted non-crop pasture land with good seed of adapted varieties of perennial grasses: $0.20 per pound of seed sown. *Payment not in excess of $2.00 per acre.*

2. For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2%, with intervals between furrows not more than 25 feet: $0.50 per acre.

M. *Perennial Noxious Weed*[3] *Control.*—When, after the approval of the county committee, seriously infested plots of weeds listed below are controlled by periodic cultivation or chemical treatment in accordance with specifications issued by the Director of the Western Division.

1. Chemical treatment: $10.00 per acre.
2. Periodic Cultivation: $5.00 per acre.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[3] for each acre diverted for payment from the general soil-depleting base.

3. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[3] for each acre devoted to commercial orchards on the farm on January 1, 1937.

4. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

5. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00 or the sum of the following items whichever is greater:

1. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from average productivity of all such cropland in the United States, for each acre of cropland on the farm in 1937.[3]

2. $1.00 for each acre of commercial orchards on the farm on January 1, 1937.

3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV—Rates and Conditions of Range-Building Payments*

SECTION 1.—*Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937, such of the following range-building practices as are approved by the county committee for the ranching unit, prior to their institution:

PRACTICES AND CONDITIONS—RATE OF PAYMENT

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet and constructed on slopes in excess of 2% with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water, in a trough, or in a pipe not less than one inch in diameter, to a tank, or where piping is impracticable, a concrete tank may be constructed at the seep: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is piped to a tank or storage reservoir. An artesian well may qualify for payments provided adequate stock water is made available during the grazing season and the water is conveyed in a trough or a pipe to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For constructing and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching primarily for purposes of irrigation, sub-surface drainage or underdrainage, or primarily for any purpose other than the prevention of soil washing: $0.10 per 100 linear feet of permanent ditching. (See Farmers' Bulletin No. 1606, *Farm Drainage*, published by the U. S. Department of Agriculture.)

F. *Range Fences.*—For constructing cross fences or drift fences of not less than three wires, with good sound posts not more than 20 feet apart, with corner posts well braced, and with wires tightly stretched: $0.30 per rod.

G. *Rodent Control.*—For destroying at least ninety percent of the range-destroying rodents on an infested area as follows:

1. Pocket Gophers: $0.15 per acre.
2. Prairie Dogs: $0.07½ per acre.
3. Ground Squirrels: $0.06 per acre.

H. *Reseeding.*—For reseeding depleted range land with good seed of adapted varieties of perennial grasses as follows: $0.20 per pound of seed sown:

1. Crested Wheat Grass.
2. Slender Wheat Grass.
3. Western Wheat Grass.
4. Brome Grass.

I. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at a rate computed on the basis of 35¢ per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deduction for increase in acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payments may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators: Provided all ranch operators signify in the application for payment a percentum of the total payment under the application for payment, to be made to each ranch operator.

*Part V—Division of Payments*

SECTION 1. *Division of Payments Between Owner and Operator.*—A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937; *provided, however*, that—

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon the recommendation of the State Committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payment shall be divided among owners and share-tenants, in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI—General Conditions for Payment*

SECTION 1. *Modifications for Farms under Special Programs.*—The Secretary may designate one or more counties or other areas for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In event that any such county or other area is designated the allowances, rates and conditions of payment for such county or other area will be set forth in a special bulletin and the provisions of the state bulletin shall not be applicable in such county or other designated area.

On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section 1, part II; *provided, however*, that if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

[3] See Footnote 2 on Page 446.

[3] Perennial noxious weeds shall include: Canada thistle, bind weed or wild morning glory, leafy spurge, Russian knapweed, white top or hoary cress and white ragweed (Franseria discolor).

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share tenant, ranch operator, or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or, if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII—Establishment of Bases*

SECTION 1. *Soil-Depleting Base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of all soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland in the county, the ratio of the soil-depleting bases established in a county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodent and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit for such land.

*Part VIII—Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration and approved by the Secretary.

SECTION 1. *Soil-Depleting Crops.*—Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested:

a. Small grains including flax, except as indicated under item a of section 2 and item d of section 3 of this part VIII.

b. Corn (field, sweet, and popcorn).
c. Potatoes.
d. Sugar Beets.
e. Root crops grown for feed.
f. Cultivated sunflowers.
g. Truck and vegetable crops and their seed, melons and strawberries.
h. Grain sorghums, sweet sorghum, and sudan grass harvested for seed, grain, or hay.
i. Millets.
j. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed or hay except as indicated under item d of section 3 of this part VIII.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1, Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year:

a. The following legumes and perennial grasses and such other legumes and grasses as may be approved by the Director of the Western Division when seeded without a nurse crop or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay: alfalfa, alsike clover, sweet clover, red clover, blue grass, orchard grass, brome grass, grama grass, buffalo grass, wheat grasses, rye grasses, timothy, and redtop.

b. Forest trees planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Idle cropland.
b. Cultivated fallow.
c. Artichokes, nursery stocks.
d. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936; provided, such use of land shall have been approved by the County Committee prior to May 1, 1937.
e. Orchards, and bush fruits.

*Part IX—Appeals*

SECTION 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the county committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 14th day of January 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

ECR—B-101—Kentucky, Supplement (a) Issued February 25, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—EAST CENTRAL REGION

BULLETIN NO. 101—KENTUCKY—SUPPLEMENT (A)

*Increases in Tobacco Soil-Depleting Bases in Conjunction With Decreases in Soil-Depleting Bases for Other Kinds of Tobacco*

Section 3 (e) of Part III of East Central Region Bulletin 101—Kentucky is hereby amended to read as follows:

(e) *Increases of Bases in Conjunction with Decreases in Other Bases.*—Notwithstanding the provisions of sections 1 and 2 of this Part III, the Secretary reserves the right to provide for the establishment of or increase in any base for a farm in conjunction with a decrease in any other base for the farm under such conditions and within such limits as he may prescribe.

Pursuant to this provision, upon request submitted to the County Office by the operator, and by the owner if different from the operator:

(1) One-half (0.5) acre may be added to the Burley tobacco soil-depleting base for each acre by which the fire-cured and dark air-cured tobacco soil-depleting base is decreased, or

(2) One and one-half (1.5) acres may be added to the fire-cured and dark air-cured tobacco soil-depleting base for each acre by which the Burley tobacco soil-depleting base is decreased.

The base yield(s) in such cases will be such as to be equitable for the farm as compared with farms in the same locality which are similar with respect to type of soil and productive capacity.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 25th day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

ECR—B-101—Virginia, Supplement (a) Issued February 25, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—EAST CENTRAL REGION

BULLETIN NO. 101—VIRGINIA—SUPPLEMENT (A)

*Increases in Tobacco Soil-Depleting Bases in Conjunction With Decreases in Soil-Depleting Bases for Other Kinds of Tobacco*

Section 3 (e) of Part III of East Central Region Bulletin 101—Virginia is hereby amended to read as follows:

(e) *Increases of Bases in Conjunction with Decreases in Other Bases.*—Notwithstanding the provisions of sections 1 and 2 of this

Part III, the Secretary reserves the right to provide for the establishment of or increase in any base for a farm in conjunction with a decrease in any other base for the farm under such conditions and within such limits as he may prescribe.

Pursuant to this provision, upon request submitted to the County Office by the operator, and by the owner if different from the operator:

(1) One-half (0.5) acre may be added to the Burley tobacco soil-depleting base or the flue-cured tobacco soil-depleting base for each acre by which the fire-cured and dark air-cured tobacco soil-depleting base is decreased, or

(2) One and one-half (1.5) acres may be added to the fire-cured and dark air-cured tobacco soil-depleting base for each acre by which the Burley tobacco soil-depleting base or the flue-cured tobacco soil-depleting base is decreased.

The base yield(s) in such cases will be such as to be equitable for the farm as compared with farms in the same locality which are similar with respect to type of soil and productive capacity.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 25th day of February, 1937.

[SEAL] H. A. WALLACE.
*Secretary of Agriculture.*

SR—B-101—Amendment 4

1937 AGRICULTURAL CONSERVATION PROGRAM

SOUTHERN REGION BULLETIN 101

*Amendment 4*

Sections 64 and 89, Southern Region Bulletin 101, are hereby amended to read as follows:

Any person who has reason to believe that any recommendation of his County Committee concerning his farm or ranch in any matter of the kind set forth herein is not equitable may request the County Committee to reconsider its recommendation. If such person fails to agree with the final recommendation of the County Committee, an appeal may be taken in accordance with the procedure set forth herein.

(a) *Matters Concerning which an Appeal May Be Made.*—

(1) Eligibility of person(s) to submit a work sheet or an application for payment.

(2) Eligibility of land to be covered by a work sheet and/or an application for payment.

(3) Any base, yield per acre, productivity index, soil-building allowance, soil-building practice, range-building allowance, range-building practice, or grazing capacity.

(4) Division of payments among interested persons.

(5) In addition to the above matters, the State Committee and the Regional Agricultural Appeals Board for the Southern Region may be called on to hear and decide other types of appeals as set forth below.

(b) *Appellate Bodies.*—The following bodies will receive, hear, consider, and pass upon appeals cases:

(1) County Appeals Board.

(2) State Agricultural Conservation Committee.

(3) Agricultural Conservation Appeals Board for the Southern Region (hereinafter referred to as the Regional Appeals Board).

(c) *Procedure Governing Appeals.*—

(1) Any person interested in a farm or ranch, whether as owner or operator, and having just ground for being dissatisfied with the final recommendation of the County Committee in passing upon any one or more of the matters mentioned in subsection (a) herein regarding such farm or ranch may appeal from such recommendation of the County Committee to the County Appeals Board, which shall consist of the chairman of the County Committee and two persons selected by the Board of Directors of the County Agricultural Conservation Association from among its members who are not members of the County Committee. In case the number of members of the Board of Directors is not large enough to permit such selection, such two persons shall be selected by the Board of Directors from among the members of Community Committees in the county who are not members of the County Committee or from among the members of the Association who are not members of the County Committee.

(2) When any such final recommendation of the County Committee is not in accord with the contention of the interested person and such person desires to appeal his case, such person shall, within ten calendar days from the date of the final recommendation of the County Committee, give notice in writing to the County Appeals Board of his desire and intention to appeal his case. Following the hearing of any such appeal, the decision of the Board prepared in triplicate shall be concurred in by a majority of its members, and a copy delivered immediately to the appellant or forwarded immediately by mail to his address of record.

(3) If any interested person has just ground for being dissatisfied with the decision of the County Appeals Board and such person desires to appeal his case further, such person shall, within ten calendar days from the date of such decision, give notice in writing to the County Appeals Board of his desire and intention to appeal his case to the State Committee.

(4) In order to perfect his appeal, the appellant shall, within thirty calendar days from the date of the decision of the County Appeals Board, file with such Board *in triplicate* a detailed statement of his contentions, supported *in triplicate* by such material as he may have available. There shall be attached to such statement an exact copy *in triplicate* of each work sheet, application for payment, or other document forming the basis of or which is material to such appeal.

(5) The County Appeals Board shall, within ten calendar days from the date on which the appellant filed such detailed statement, forward the original and one copy of the same to the the State Committee together with the original and one copy of its previous findings and recommendation in the case and shall also attach to such detailed statement exact copies in *duplicate* of all available documents material to any issue raised by the appellant, as well as any other material data available to such Board. The County Appeals Board may add to such record *in duplicate* its comments or observations on such detailed statement, in which case a copy of such comments or observations shall be furnished to the appellant, who shall have ten calendar days in which to send to the State Committee *in duplicate* any reply thereto he may desire to make, furnishing at the same time a copy of such reply to the County Appeals Board.

(6) The County Appeals Board may for good cause shown, extend any time limit fixed in paragraphs (2) and (5) above, but the additional time granted shall not exceed the time which otherwise would obtain.

(7) Upon receipt of the appeal record the State Committee shall promptly set the appeal down for hearing at the earliest practicable date not earlier than fourteen calendar days from the date of such receipt of the appeal record. However, if both the appellant and the chairman of the County Appeals Board indicate in writing, forwarded with the appeal record, (a) that they are willing to have the appeal board at an earlier date or alternative dates indicated by them in such writing, the appeal may be heard on such date or any one of such alternative dates, or (b) that they do not desire to appear at the hearing of the appeal, the State Committee may set the appeal down for hearing at any time reasonably convenient to it. The State Committee shall, in writing dated and forwarded to the addresses of record in the regular course of the mail on the day the date for hearing the appeal is set, give notice of the time and place of such hearing to the chairman of the County Appeals Board and the appellant. If the State Committee deems it advisable, it may further develop the case by correspondence or field investigation either before or after the formal hearing, and may hear additional evidence at the State headquarters or at a designated place in the field.

(8) The decision by the State Committee with its recommendation, prepared *in quadruplicate*, shall be concurred in by a majority of the members of the Committee. One copy of such decision and recommendation shall be promptly transmitted to the County Appeals Board, and one copy shall be promptly forwarded to the appellant. In case the appellant is dissatisfied with such decision and recommendation, he may finally appeal the case to the Regional Appeals Board for the Southern Region in care of the Southern Division, Agricultural Adjustment Administration, Washington, D. C., by giving written notice, prepared *in triplicate*, to the State Committee within ten calendar days from the date notice of its decision is addressed and forwarded to such person at the address of record. Such notice must contain or be accompanied by such appellant's comments or arguments against the decision and recommendation of the State Committee. Upon such written notice being filed *in duplicate* with the State Committee, it shall promptly forward the complete original appeal record to the Regional Appeals Board, together with the original of its decision and recommendation in such case and such written notice and comments or arguments.

(9) The State Committee may, for good cause shown, extend any time limit fixed in paragraph (7) or (8) above, but the additional time granted shall not exceed the time which otherwise would obtain.

(10) Individual cases of complaints made by any producer, whether owner, operator, share-tenant, or share-cropper, relating to landlord-tenant questions made or appealed to the State Committee, shall be referred by the State Committee for special attention to a person appointed by the Committee with the approval of the Director of the Southern Division to make prompt investigation and recommend adjustment of landlord-tenant complaints. Upon receiving the recommendation of such investigator, unless such recommendation has been carried out by the parties concerned in the complaint, the State Committee shall promptly make and record its decision with respect to each such complaint and in writing notify the parties concerned and the County Committee of its decision.

If one or more of the parties concerned is not satisfied with the decision, he may in writing, which should be in duplicate, request the State Committee to forward to the Director of the Southern Division for appropriate action the complete file in the case, including also the findings and report of such investigator. Upon receipt of such request the State Committee shall forward such file to said Director, who may refer any such case with the entire record therein to the Regional Appeals Board for final determination.

(11) The Regional Appeals Board for the Southern Region shall be composed of three members appointed by the Secretary of Agriculture upon nomination by the Director of the Southern Division. The chairman of the Board for each of its sessions shall be that one of the members present who is first named in the order appointing them.

(12) The Secretary of Agriculture upon nomination by the Director of the Southern Division may appoint one or more alternate members of said Board to serve in the order so appointed in place of any member thereof whenever and while such member is absent from duty in the Southern Division, or in case of any vacancy in the membership of said Board until such vacancy is filled and the person appointed thereto has qualified. No alternate shall serve as chairman.

(13) The Regional Appeals Board, acting for and on behalf of the Secretary of Agriculture, shall promptly and finally pass upon and decide each appeal referred to it by any State Committee within the Southern Region or by the Director of the Southern Division. Final decision of the Regional Appeals Board shall be concurred in by a majority of the members of such Board and recorded in writing. Such decision shall be promptly transmitted to the State Committee *in triplicate* and such Committee shall transmit one copy to the appellant and one copy to the County Committee.

(14) All decisions in appeal cases of a County Appeals Board, a State Committee, or the Regional Appeals Board shall be in accordance with the terms and conditions of the 1937 program. In considering any appeal case, if it appears there are no provisions approved by the Secretary applicable to such case, no decision thereon shall be rendered by any committee or board unless and until applicable provisions are approved by the Secretary of Agriculture.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 25th day of February, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

BEPQ—Q. 48 Revision of Quarantine and Regulations

[Effective March 1, 1937]

JAPANESE BEETLE QUARANTINE—QUARANTINE NO. 48

REVISION OF QUARANTINE AND REGULATIONS

*Introductory Note*

An important change in the following revision of the Japanese beetle quarantine is the inclusion in the regulated area of the cities of Cleveland, Columbus, and Toledo in Ohio, as well as the entire counties of Columbiana and Mahoning, and parts of the counties of Carroll, Jefferson, and Stark, in the same State. This action is considered necessary because of the establishment of the Japanese beetle therein. Additional infested territory in the States of Maine, Maryland, New York, Vermont, Virginia, and West Virginia, was also added to the previously regulated areas in such States. Some outlying areas where Japanese beetle infestations have been found are not included in the regulated area because of assurance from the States concerned that adequate measures will be taken to prevent the spread of the pest therefrom.

Under section A, paragraph (b) of regulation 5, as revised, a certificate is required for the interstate movement of restricted fruits and vegetables from June 15 to October 15, inclusive, from other portions of the regulated area to Brewer and Waterville, Maine; Buffalo, N. Y., or to the other regulated parts of Erie County, New York; Cleveland, Columbus, and Toledo, Ohio; Burlington, Vt., and Parkersburg, W. Va. No restrictions are however placed on the interstate movement of any fruits or vegetables from these outlying portions of the regulated area.

*Summary*

Unless a certificate or permit has been issued, these regulations as now revised prohibit the interstate shipment of green corn on the cob, beans in the pod, bananas in entire bunches or in clusters of 25 or more, apples, peaches, blackberries, blueberries, huckleberries, or raspberries from the regulated areas, and also prohibit (unless a certificate or permit has been issued) the interstate movement of all fruits and vegetables by refrigerator car or motor truck from the District of Columbia, the State of Delaware, and parts of the States of Maryland, New Jersey, Pennsylvania, and Virginia. Refrigerator cars used for loading fruits and vegetables, other than onions and potatoes, in such area must, prior to loading, be cleaned by the common carrier and kept tightly closed and sealed during the interval between cleaning and loading. Onions and potatoes must be fumigated in the car when such action is deemed necessary by the inspector and doors and hatches of the cars must be closed or screened. For other details and exceptions see regulation 5.

The regulations also prohibit the interstate shipment of plants, sand, soil, earth, peat, compost, and manure from any part of the regulated areas to or through any outside point throughout the year unless a Federal permit or certificate has been secured. Portions of plants and cut flowers are restricted interstate movement only between June 15 and October 15, inclusive. For details and exceptions see regulations 6 and 7.

The regulated areas include the District of Columbia, the entire States of Connecticut, Delaware, Massachusetts, New Jersey, and Rhode Island, and parts of the States of Maine, Maryland, New Hampshire, New York, Ohio, Pennsylvania, Vermont, Virginia, and West Virginia. The boundaries are shown in regulation 3.

These regulations also place certain restrictions to protect restricted articles from infestation while in transit, require thorough cleaning of vehicles and containers which have been used in transporting restricted products, and provide other safeguards and conditions as provided in regulations 8 to 13, inclusive.

To secure permits and certificates, address the Bureau of Entomology and Plant Quarantine, Glenwood Avenue and Henry Street, Bloomfield, N. J., or the nearest branch office listed in the appendix.

LEE A. STRONG,
*Chief, Bureau of Entomology and Plant Quarantine.*

---

NOTICE OF QUARANTINE NO. 48 (TWELFTH REVISION)

[Approved March 1, 1937; effective March 1, 1937]

I, H. A. Wallace, Secretary of Agriculture, have determined that it is necessary to quarantine the States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, and the District of Columbia, to prevent the spread of the Japanese beetle (*Popillia japonica* Newn.), a dangerous insect new to and not heretofore widely prevalent or distributed within and throughout the United States.

Now, therefore, under authority conferred by section 8 of the Plant Quarantine Act of August 20, 1912 (37 Stat. 315), as amended by the act of Congress approved March 4, 1917 (39 Stat. 1134, 1165), and having duly given the public hearing required thereby, I do quarantine the said States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, and the District of Columbia, effective on and after March 1, 1937. Hereafter, under the authority of said act of August 20, 1912, amended as aforesaid (1) fruits and vegetables; (2) nursery, ornamental, and greenhouse stock, and other plants; and (3) sand, soil, earth, peat, compost, and manure shall not be shipped, offered for shipment to a common

carrier, received for transportation or transported by a common carrier, or carried, transported, moved or allowed to be moved from any of said quarantined States or District into or through any other State or Territory or District of the United States in manner or method or under conditions other than those prescribed in the rules and regulations hereinafter made and amendments thereto: *Provided*, That the restrictions of this quarantine and of the rules and regulations supplemental thereto may be limited to the areas in a quarantined State now, or which may hereafter be, designated by the Secretary of Agriculture as regulated areas when in the judgment of the Secretary of Agriculture, the enforcement of the aforesaid rules and regulations as to such regulated areas shall be adequate to prevent the spread of the Japanese beetle: *Provided further*, That such limitations shall be conditioned upon the said State providing for and enforcing such control measures with respect to such regulated areas as, in the judgment of the Secretary of Agriculture, shall be deemed adequate to prevent the spread of the Japanese beetle therefrom to other parts of the State: *And provided further*, That certain articles classed as restricted herein may, because of the nature of their growth or production or their manufactured or processed condition, be exempted by administrative instructions issued by the Chief of the Bureau of Entomology and Plant Quarantine when, in his judgment, such articles are considered innocuous as carriers of infestation.

Done at the city of Washington this 1st day of March, 1937.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL]

H. A. WALLACE,
*Secretary of Agriculture.*

---

RULES AND REGULATIONS (FIFTEENTH REVISION) SUPPLEMENTAL TO NOTICE OF QUARANTINE No. 48

[Approved March 1, 1937; effective March 1, 1937]

REGULATION 1—DEFINITIONS

For the purpose of these regulations the following words, names, and terms shall be construed, respectively, to mean:

(*a*) *Japanese beetle.*—The insect known as the Japanese beetle (*Popillia japonica* Newn.), in any stage of development.

(*b*) The terms "infested", "infestation", and the like, relate to infestation with the Japanese beetle.

(*c*) *Quarantined area.*—Any State or District quarantined by the Secretary of Agriculture to prevent the spread of the Japanese beetle.

(*d*) *Regulated area.*—Any area in a quarantined State or District which is now, or which may hereafter be, designated as such by the Secretary of Agriculture in accordance with the provisos to Notice of Quarantine No. 48, as revised.

(*e*) *Fruits and vegetables.*—For the list of restricted fruits and vegetables see regulation 5.

(*f*) *Nursery and ornamental stock.*—Nursery, ornamental, and greenhouse stock, and all other plants, plant roots, cut flowers, or other portions of plants.

(*g*) *Sand, soil, earth, peat, compost, and manure.*—Sand, soil, earth, peat, compost, or manure of any kind and as to either bulk movement or in connection with farm products or nursery and ornamental stock.

(*h*) *Certified sand, soil, earth, peat, compost and manure.*—Sand, soil, earth, peat, compost, or manure determined by the inspector as uninfested and so certified.

(*i*) *Certified greenhouse.*—A greenhouse or similar establishment which has complied to the satisfaction of the inspector with the conditions imposed in regulation 6. This term may apply also to potting beds, heeling-in areas, hotbeds, coldframes, or similar plots or to storage houses, packing sheds, or stores treated or otherwise safeguarded in manner and method satisfactory to the inspector.

(*j*) *Inspector.*—An inspector of the United States Department of Agriculture.

(*k*) *Moved or allowed to be moved interstate.*—Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved from one State or Territory or District of the United States into or through any other State or Territory or District.

REGULATION 2—LIMITATION OF RESTRICTIONS TO REGULATED AREAS

Conditioned upon the compliance on the part of the State concerned with the provisos to Notice of Quarantine No. 48 (twelfth revision), the restrictions provided in these regulations on the interstate movement of plants and plant products and other articles enumerated in said notice of quarantine will be limited to such movement from the areas in such State now or hereafter designated by the Secretary of Agriculture as regulated areas.

REGULATION 3—REGULATED AREAS

In accordance with the provisos to Notice of Quarantine No. 48 (twelfth revision), the Secretary of Agriculture designates as regulated areas for the purpose of these regulations the States, District, counties, townships, towns, cities, election districts, and magisterial districts listed below, including all cities, towns, boroughs, or other political subdivisions within their limits:

*Connecticut.*—The entire State.

*Delaware.*—The entire State.

*District of Columbia.*—The entire District.

*Maine.*—County of York; towns of Auburn and Lewiston, in *Androscoggin County;* towns of Cape Elizabeth, Gorham, Gray, New Gloucester, Raymond, Scarboro, Standish, and the cities of Portland, South Portland, Westbrook, and Windham, in *Cumberland County;* the city of Waterville, in *Kennebec County;* and the city of Brewer, in *Penobscot County*

*Maryland.*—Counties of Cecil, Kent, Queen Annes, Somerset, and Worcester; the city of Baltimore; the city of Cumberland, the town of Frostburg, and election districts nos. 4, 5, 6, 7, 11, 12, 14, 22, 23, 24, 26, 29, 31, and 32, in *Allegany County;* the city of Annapolis and election districts nos. 3, 4, and 5, in *Anne Arundel County;* election districts nos. 1, 2, 3, 9, 11, 12, 13, 14, and 15, and that portion of election district No. 8 lying south of Shawan, Beaver Dam and Sherwood Roads, in *Baltimore County;* all of *Caroline County* except election districts of Hillsboro (no. 6), American Corners (no. 8), and Preston (no. 4); the city of Westminster, and election district of Freedom (no. 5), in *Carroll County;* election districts of White Plains and La Plata, in *Charles County;* election district of Cambridge (no. 7), in *Dorchester County;* election districts of Frederick (no. 2), New Market (no. 9), Petersville (no. 12), and Brunswick (no 25), in *Frederick County; County of Harford*, except election district of Marshall (no. 4); election districts of Elkridge (no. 1), Ellicott City (no. 2), and election district of West Friendship (no. 3), in *Howard County*, and the right-of-way of United States Highway No. 1 through the election district of Guilford (no. 6) in said county; all of *Prince Georges County* except the election districts of Nottingham and Aquasco; that part of *Montgomery County* located within the established boundaries of the so-called "Washington Suburban Sanitary District"; towns of Easton and Oxford, in *Talbot County;* election districts of Sharpsburg (no. 1), Williamsport (no. 2), Hagerstown (nos. 3, 17, 21, 22, 24, and 25), Leitersburg (no. 9), Sandy Hook (no. 11), and Halfway (no. 26), in *Washington County;* election districts of Pittsburg (no. 4), Parsons (no. 5), Dennis (no. 6), Trappe (no. 7), Nutters (no. 8), Salisbury (no. 9), Delmar (no. 11), Camden (no. 13), Willards (no. 14), and Fruitland (no. 16), in *Wicomico County.*

*Massachusetts.*—The entire State.

*New Hampshire.*—Counties of Belknap, Cheshire, Hillsboro, Merrimack, Rockingham, Strafford, and Sullivan; towns of Brookfield, Eaton, Effingham, Freedom, Madison, Moultonboro, Ossipee, Sandwich, Tamworth, Tuftonboro, Wakefield and Wolfeboro, in *Carroll County;* towns of

Alexandria, Ashland, Bridgewater, Bristol, Canaan, Dorchester, Enfield, Grafton, Groton, Hanover, Hebron, Holderness, Lebanon, Lyme, Orange, and Plymouth, in *Grafton County.*

*New Jersey.*—The entire State.

*New York.*—Counties of Albany, Bronx, Broome, Chemung, Chenango, Columbia, Cortland, Delaware, Dutchess, Fulton, Greene, Kings, Madison, Montgomery, Nassau, New York, Oneida, Onondaga, Orange, Otsego, Putnam, Queens, Rensselaer, Richmond, Rockland, Saratoga, Schenectady, Schoharie, Suffolk, Sullivan, Tioga, Ulster, Washington, and Westchester; towns of Red House and Salamanca, and the city of Salamanca, in *Cattaraugus County;* towns of Tonawanda, Amherst, and Cheektowaga, and the cities of Buffalo and Lackawanna, in *Erie County;* towns of Columbia, Danube, Fairfield, Frankfort, German Flats, Herkimer, Litchfield, Little Falls, Manheim, Newport, Salisbury, Schuyler, Stark, Warren, and Winfield, and the city of Little Falls, in *Herkimer County;* towns of Caton, Corning, and Hornby, and the city of Corning, in *Steuben County;* towns of Caroline, Danby, Dryden, and Ithaca, and the city of Ithaca, in *Tompkins County;* towns of Luzerne and Queensbury and the city of Glens Falls, in *Warren County.*

*Ohio.*—Counties of Columbiana and Mahoning; townships of Augusta, Brown, and East, in *Carroll County;* the city of Cleveland, in *Cuyahoga County;* the city of Columbus, in *Franklin County;* townships of Cross Creek, Island Creek, Knox, Saline, Steubenville, and Wells, and the city of Steubenville, in *Jefferson County;* the city of Toledo, in *Lucas County;* townships of Bethlehem, Canton, Jackson, Nimishillen, Osnaburg, Paris, Perry, Pike, Plain, Sandy, and Washington, and the city of Canton, in *Stark County.*

*Pennsylvania.*—The entire State, except Crawford, Erie, Forest, Mercer, Venango, and Warren Counties, Mercer Township in *Butler County,* and Ashland, Beaver, Elk, Richland (including boroughs of Foxburg and St. Petersburg), Salem, and Washington Townships, in *Clarion County.*

*Rhode Island.*—The entire State.

*Vermont.*—Counties of Bennington, Rutland, Windham, and Windsor; and the town of Burlington, in *Chittenden County.*

*Virginia.*—Counties of Accomac, Arlington, Culpeper, Elizabeth City, Fairfax, Faquier, Henrico, Loudoun, Norfolk, Northhampton, Prince William, and Stafford; magisterial districts of Dale, and Manchester, in *Chesterfield County;* magisterial district of Sleepy Hole, in *Nansemond County;* magisterial district of Kempsville, in *Princess Anne County;* Camp Stuart, in *Warwick County;* and the cities of Alexandria, Fredericksburg, Hampton, Newport News, Norfolk, Portsmouth, Richmond, South Norfolk, and Suffolk.

*West Virginia.*—Counties of Hancock, Harrison, Marion, Monongalia, and Taylor; town of Keyser and district of Frankfort, in *Mineral County;* and the city of Parkersburg, in *Wood County.*

REGULATION 4—EXTENSION OR REDUCTION OF REGULATED AREAS

The regulated areas designated in regulation 3 may be extended or reduced as may be found advisable by the Secretary of Agriculture. Due notice of any extension or reduction and the areas affected thereby will be given in writing to the transportation companies doing business in or through the States in which such areas are located and by publication in one or more newspapers selected by the Secretary of Agriculture within the States in which the areas affected are located.

REGULATIONS 5—RESTRICTIONS ON THE MOVEMENT OF FRUITS AND VEGETABLES

*Section A—Control of Movement*

(1) Unless a certificate or permit shall have been issued therefor, by an inspector, except as provided in paragraphs (*a*) to (*e*), inclusive, of this section:

(i) No green corn on the cob, beans in the pod, bananas in entire bunches or in clusters of 25 or more, apples, peaches, blackberries, blueberries, huckleberries, or raspberries shall be moved or allowed to be moved interstate from any regulated area to or through any point outside thereof; and (ii) no fruits and vegetables of any kind shall be moved or allowed to be moved interstate via refrigerator car or motortruck from the District, counties, or city listed below to or through any point outside of the regulated areas:

*Delaware.*—The entire State.

*District of Columbia.*—The entire District.

*Maryland.*—County of Cecil and the city of Baltimore.

*New Jersey.*—Counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, Salem, Somerset, and Union.

*Pennsylvania.*—Counties of Bucks, Chester, Delaware, Montgomery, and Philadelphia.

*Virginia.*—County of Arlington.

(*a*) No restrictions are placed on the interstate movement of fruits and vegetables between October 16 and June 14, inclusive.

(*b*) No certificate will be required for the interstate movement of fruits and vegetables on a through bill of lading either from an area not under regulation through a regulated area to another nonregulated area, or from a regulated area through a nonregulated area to another regulated area, except that a certificate is required for interstate movement to Brewer and Waterville, Maine; Buffalo, N. Y., or to the other regulated parts of Erie County, N. Y.; Cleveland, Columbus, and Toledo, Ohio; Burlington, Vt.; and Parkersburg, W. Va. No restrictions are placed on the interstate movement of fruits and vegetables from Brewer and Waterville, Maine; Buffalo, N. Y., or from other parts of Erie County, N. Y.; Cleveland, Columbus, and Toledo, Ohio; Burlington, Vt.; and Parkersburg, W. Va.

(*c*) No restrictions are placed on the interstate movement of fruits or vegetables when they shall have been manufactured or processed in such a manner that in the judgment of the inspector no infestation could be transmitted.

(*d*) No restrictions are placed on the interstate movement of any shipments of apples or peaches of less than 15 pounds to the shipment, or of bananas other than in entire bunches or in clusters of 25 or more.

(*e*) No restrictions are placed on the interstate movement of commercially packed apples in any quantity, except those moving via refrigerator cars or motor vehicles from the District, counties, or city listed in this section.

(2) No restrictions are placed on the interstate shipment from the regulated areas of fruits and vegetables other than those mentioned above, except that any such interstate shipments of fruits and vegetables may be inspected by inspectors at any time or place inside or outside the regulated areas and when actually found to involve danger of dissemination of Japanese beetle to uninfested localities, measures to eliminate infestation may be required as a condition of further transportation or delivery.

*Section B—Conditions of Certification*

Certificates may be issued for the interstate movement of fruits and vegetables to points outside the regulated areas between June 15 and October 15, inclusive, under one of the following conditions:

(1) When the fruits and vegetables, moving from a point in the regulated area other than the District, counties, or city listed in paragraph 1, (*ii*), of this regulation, or moving from such designated District, counties, or city other than by refrigerator car, have actually been inspected by the United States Department of Agriculture and found free from infestation. The number of inspection points for such certification will be limited and their location determined by shipping needs and further conditioned on the establishment at such points of provisions satisfactory to the in-

spector for the handling and safeguarding of such shipments during inspection. Such inspection may be discontinued and certification withheld by the inspector during periods of general or unusual flight of the beetles.

(2) When the fruits and vegetables have been handled or treated under the supervision of an inspector in manner and by method to free them from any infestation.

(3) When the fruits and vegetables have originated outside of the regulated areas and are to be reshipped directly from freight yards, transfer points, or unloading docks within such areas, under provisions satisfactory to the inspector for the safeguarding of such shipments pending certification and reshipment. Certificates on this basis will be issued without inspection only in cases where, in the judgment of the inspector, the shipments concerned have not been exposed to infestation while within such freight yards, transfer points, or unloading docks.

(4) When the fruits and vegetables were grown in districts where the fact has been established to the satisfaction of the inspector that no infestation exists and are to be shipped directly from the farms where grown to points outside the regulated areas, or are shipped from infested districts where the fact has been established to the satisfaction of the inspector that the Japanese beetle has not begun or has ceased its flight.

(5) When the fruits and vegetables, other than onions and potatoes, moving via refrigerator car from the District, counties, or city listed in paragraph 1, (*ii*), of this regulation, have been inspected and loaded in a manner to prevent infestation, in a refrigerator car with closed or adequately screened doors and hatches, which car prior to loading has been determined by an inspector as thoroughly swept and cleaned by the common carrier in a manner to rid it of infestation. During the interval between cleaning and loading such refrigerator car must be tightly closed and sealed.

(6) When the onions or potatoes moving via refrigerator car from the District, counties, or city listed in this regulation have been fumigated in the car, when deemed necessary in the judgment of the inspector, and when the doors and hatches of the car have been tightly closed or adequately screened under the supervision of an inspector.

REGULATION 6—RESTRICTIONS ON THE MOVEMENT OF NURSERY AND ORNAMENTAL STOCK

*Section A—Control of Movement*

Nursery and ornamental stock shall not be moved or allowed to be moved interstate from the regulated areas to or through any point outside thereof, unless a certificate or permit shall have been issued therefor by the inspector, except as follows:

(1) True bulbs, corms, and tubers, when dormant, except for storage growth, and when free from soil, are exempt from the requirement of certification, except that this exemption does not apply to dahlia tubers.

(2) No restrictions are placed on the interstate movement of nursery and ornamental stock imported from foreign countries when reshipped from the port of entry in the unopened original container and labeled as to each container with a copy certificate of the country from which it was exported, a statement of the general nature and quantity of the contents, the name and address of the consignee, and the country and locality where grown.

(3) No restrictions are placed on the interstate movement between October 16 and June 14, inclusive, of cut flowers, and of portions of plants without roots and free from soil (such as branches and twigs of trees and shrubs, scions, Christmas trees, holly, laurel, sphagnum moss, and parts of submerged aquatic plants without roots).

(4) No certificate or permit will be required for the interstate movement of nursery and ornamental stock when transported by a common carrier on a through bill of lading either from an area not under regulation through a regulated area, or from a regulated area through a nonregulated area to another regulated area.

*Section B—Conditions Governing the Issuance of Certificates and Permits*

For the purpose of certification of nursery and ornamental stock, nurseries, greenhouses, and other premises concerned in the movement of such stock will be classified as follows:

(1) *Class I.*—Nurseries, greenhouses, and other premises concerned in the movement of nursery and ornamental stock on or within approximately 500 feet of which no infestation has been found may be classified as Class I. Upon compliance with the requirements of subsection (6) of this section, nursery and ornamental stock may be certified by the inspector for shipment from such premises without further inspection, and without meeting the safeguards prescribed as a condition of interstate shipment of plants originating in nurseries or greenhouses of class III.

(2) *Class III.*—(*a*) Nurseries, greenhouses, and other premises concerned in the movement of nursery and ornamental stock on which either grubs in the soil or one or more beetles have been found, will be classified as class III. Such classification also may be given to nurseries, etc., in localities known to be generally infested where one or more beetles or grubs are found in the immediate proximity (within approximately 500 feet) of such nurseries, etc., on adjacent property or properties. In the case of nursery properties, under single ownership and management, but represented by parcels of land widely separated, such parcels may be independently classified either as class I or class III upon compliance with such conditions and safeguards as shall be required by the inspector. Similarly, unit nursery properties, which would otherwise fall in class III, may be open to subdivision, for the purpose of rating such subdivisions in classes I or III, when in the judgment of the inspector such action is warranted by recent and scanty infestation limited to a portion of the nursery concerned: *Provided*, That the subdivision containing the infestation shall be clearly marked by boundaries of a permanent nature which shall be approximately 500 feet beyond the point where the infestation occurs.

(*b*) Upon compliance with subsections (3) and (6) of this section, nursery and ornamental stock may be certified by the inspector for shipment from such premises under any one of the following conditions: (*i*) That the roots shall be treated by means approved by the Bureau of Entomology and Plant Quarantine in manner and by method satisfactory to the inspector; or (*ii*) in the case of plants in which the root system is such that a thorough inspection may be made, that the soil shall be entirely removed from the stock by shaking or washing, or (*iii*) that it shall be shown by evidence satisfactory to the inspector that the plants concerned were produced in a certified greenhouse.

(3) Greenhouses of class III may be certified upon compliance with all the following conditions with respect to the greenhouses themselves and to all potting beds, heeling-in areas, hotbeds, coldframes, and similar plots.

(*a*) Ventilators, doors, and all other openings in greenhouses or coldframes on premises in class III shall be kept screened in manner satisfactory to the inspector during the period of flight of the beetle, namely, south of the northern boundaries of Maryland and Delaware between June 1 and October 1, inclusive, or north thereof between June 15 and October 15, inclusive.

(*b*) Prior to introduction into nurseries or greenhouses, sand, soil, earth, peat, compost, or manure taken from infested locations or which may have been exposed to infestation, must be sterilized or fumigated under the direction and supervision of, and in manner and by method satisfactory to the inspector. If such treated sand, soil, earth, peat, compost, or manure is not to be immediately used in such greenhouses, it must be protected from possible infestation in manner and by method satisfactory to the inspector.

(*c*) All potted plants placed in certified greenhouses of class III and all potted plants to be certified for interstate movement therefrom (*i*) shall be potted in certified soil; (*ii*) shall, if grown outdoors south of the northern boundaries of Maryland and Delaware at any time between June 1 and October 1, inclusive, or north thereof at any time between June 15 and October 15, inclusive, be kept in screened frames while outdoors; (*iii*) shall, if grown outdoors during any part of the year, be placed in beds in which the soil or other material shall have been treated in manner and by method approved by the Bureau of Entomology and Plant Quarantine to eliminate infestation; and (*iv*) shall comply with such other safeguards as may be required by the inspector.

(4) Cut flowers and other parts of plants without roots or soil may be certified for movement either (*a*) when they have been inspected by an inspector and found free from infestation, or (*b*) when they have been grown in a greenhouse of class I or in a certified greenhouse of class III and are transported under such safeguards as will in the judgment of the inspector prevent infestation. (See also sec. A. (3) of this regulation.)

(5) Nursery and ornamental stock originating on or moved from unclassified premises may be certified by the inspector under either one of the following conditions: (*a*) That the soil shall be entirely removed from the stock, or (*b*) that the roots shall be treated by means approved by the Bureau of Entomology and Plant Quarantine in manner and by method satisfactory to the inspector, or (*c*) that it shall be shown by evidence satisfactory to the inspector that the accompanying soil was obtained at such points and under such conditions that in his judgment no infestation could exist therein.

(6) Nurserymen, florists, dealers, and others, in order to maintain their classified status, (*a*) shall restrict their purchases or receipts of nursery and ornamental stock, sand, soil, earth, peat, compost, and manure within the regulated area to articles which have been certified under these regulations as to each such article and the said certificate shall accompany the articles when moved; (*b*) shall obtain approval of the inspector before such articles are received on their premises or moved from the open on their own premises into certified greenhouses; and (*c*) shall also report immediately in writing all purchases or receipts of such articles secured from within the regulated area. Nurserymen, florists, dealers, and others whose premises are classified as class III shall, in addition, report immediately on forms provided for that purpose all their sales or shipments of such articles both to points outside the regulated areas and to other classified nurseries or greenhouses within the regulated areas. Certification may be denied to any person who has omitted to make the report or reports required by this regulation, and such denial of certification shall continue until the information so omitted has been supplied.

(7) Nursery and ornamental stock imported from foreign countries and not reshipped from the port of entry in the unopened original container may be certified for movement under these regulations when such stock has been inspected by an inspector and found free from infestation.

(8) Nursery and ornamental stock originating outside the regulated areas and certified stock originating in classified nurseries or greenhouses may be certified for reshipment from premises other than those on which they originated, under provisions satisfactory to the inspector for the safeguarding of such stock from infestation at the point of reshipment and en route, and, when found advisable by the inspector, after reinspection and determination of freedom from infestation.

REGULATION 7—RESTRICTIONS ON THE MOVEMENT OF SAND, SOIL, EARTH, PEAT, COMPOST, AND MANURE

*Section A—Control of Movement*

Sand, soil, earth, peat, compost, and manure shall not be moved or allowed to be moved interstate from any point in the regulated areas to or through any point outside thereof unless a certificate or permit shall have been issued therefor by the inspector, except as follows:

(1) No restrictions are placed on the interstate movement of sand for construction purposes, nor of "bird gravel", "bird sand", or ground, dried, imported peat in packages of 5 pounds or less to the package.

(2) No restrictions are placed on the interstate movement of sand, soil, earth, peat, compost, and manure imported from foreign countries when reshipped from the port of entry in the unopened original container and labeled as to each container with the country of origin, and when the shipment is further protected in manner or method satisfactory to the inspector.

(3) No certificate will be required for the interstate movement of sand, soil, earth, peat, compost, and manure when transported by a common carrier on a through bill of lading either from an area not under regulation through a regulated area, or from a regulated area through a nonregulated area to another regulated area.

*Section B—Conditions of Certification*

Certificates for the movement of sand, soil, earth, peat, compost, and manure may be issued under any one of the following conditions:

(1) When the articles to be moved have originated in districts included in the regulated area, but in which neither beetles nor grubs in soil have been found.

(2) When the material consists of fresh manure or of mined, dredged, or other similar materials, and it has been determined by an inspector that no infestation could exist therein.

(3) When the material has been removed, under the supervision of an inspector, from a depth of more than 12 inches below the surface of the ground and either (*a*) is to be moved between October 16 and June 14, inclusive, or (*b*) is loaded and shipped at points where it has been determined by an inspector that no general infestation of adult beetles exists, or (*c*) when the cars and loading operations are protected by screening under the direction of and in manner and by method satisfactory to the inspector.

(4) When the material has been fumigated with carbon disulphide or otherwise treated under the supervision of and in manner and by method satisfactory to the inspector. Such fumigation or treatment will be required as a condition of certification of all sand, soil, earth, peat, compost, and manure, except such as is loaded and shipped in compliance with paragraphs (1), (2), or (3) hereof.

REGULATION 8—CONDITIONS GOVERNING THE PROTECTION OF RESTRICTED ARTICLES FROM INFESTATION WHILE IN TRANSIT

Fruits and vegetables, nursery and ornamental stock, and sand, soil, earth, peat, compost, and manure, moving interstate from or through the regulated areas to points outside thereof between June 15 and October 15, inclusive, shall at all times while they are in the regulated areas be screened, covered, or otherwise protected in manner or method satisfactory to the inspector for safeguarding the articles from infestation.

Trucks or other road vehicles transporting restricted articles may be sealed by the inspector at the point of inspection and all such seals shall remain intact as long as the vehicle is en route within the regulated area.

REGULATION 9—MARKING AND CERTIFICATION A CONDITION OF INTERSTATE TRANSPORTATION

(*a*) Every car, vehicle, box, basket, or other container of the articles listed, the interstate movement of which is restricted in regulations 5, 6, and 7, shall be plainly marked with the name and address of the consignor and the name and address of the consignee, and shall have securely attached to the outside thereof a valid certificate or permit issued in compliance with these regulations. In the case of lot shipments by freight, one certificate attached to one of the containers and another certificate attached to the waybill will be sufficient.

(*b*) In the case of bulk carload shipments by rail, the certificate shall accompany the waybill, conductor's manifest, memorandum, or bill of lading pertaining to such shipment and in addition each car shall have securely attached to the outside thereof a placard showing the number of the certificate or certificates accompanying the waybill.

(c) In the case of shipment by road vehicle, the certificates shall accompany the vehicle.

(d) Certificates shall be surrendered to the consignee upon delivery of the shipment.

REGULATION 10—GENERAL CONDITIONS GOVERNING INSPECTION AND ISSUANCE OF CERTIFICATES AND PERMITS

(a) Persons intending to move or allow to be moved interstate any of the articles the movement of which is restricted in regulations 5, 6, and 7, shall make application for inspection and certification as far as possible in advance of the probable date of shipment, specifying in the application the article and quantity to be shipped, method of shipment, name and address of the consignor, and name and address of the consignee.

(b) Applicants for inspection will be required to assemble the articles at such points as the inspector shall designate and so to place them that inspection may readily be made; if not so placed, inspection may be refused. All charges for storage, cartage, and labor incident to inspection, other than the services of the inspector, shall be paid by the shipper.

(c) Certificates and permits shall be used in connection with the transportation of only those articles intended to be covered thereby.

(d) Where the apparent absolute freedom from infestation of any of the articles enumerated cannot be determined by the inspector, certification will be refused.

(e) Permits may be issued for the interstate movement of restricted articles by truck or other road vehicle from a regulated area through a nonregulated area to another regulated area.

REGULATION 11—CANCELATION OF CERTIFICATES

Certificates issued under these regulations may be withdrawn or canceled by the inspector and further certification refused, either for any failure of compliance with the conditions of these regulations or violation of them, or whenever in the judgment of the inspector the further use of such certificates might result in the dissemination of infestation.

REGULATION 12—INSPECTION IN TRANSIT

Any car, vehicle, basket, box, or other container moved interstate or offered to a common carrier for shipment interstate, which contains or which the inspector has probable cause to believe contains either infested articles or articles the movement of which is prohibited or restricted by these regulations, shall be subject to inspection by an inspector at any time or place.

REGULATION 13—THOROUGH CLEANING REQUIRED OF TRUCKS, WAGONS, CARS, BOATS, AND OTHER VEHICLES AND CONTAINERS BEFORE MOVING INTERSTATE

Trucks, wagons, cars, boats, and other vehicles and containers which have been used in transporting any article covered by these regulations within the regulated areas shall not thereafter be moved or allowed to be moved interstate until they have been thoroughly swept and cleaned by the carrier at the point of unloading or destination.

REGULATION 14—SHIPMENTS BY THE UNITED STATES DEPARTMENT OF AGRICULTURE

Articles subject to restriction in these regulations may be moved interstate by the United States Department of Agriculture for experimental or scientific purposes, on such conditions and under such safeguards as may be prescribed by the Bureau of Entomology and Plant Quarantine. The container of articles so moved shall bear, securely attached to the outside thereof, an identifying tag from the Bureau of Entomology and Plant Quarantine showing compliance with such conditions.

These revised rules and regulations shall be effective on and after March 1, 1937, and shall supersede the rules and regulations promulgated March 7, 1936.

Done at the city of Washington this 1st day of March, 1937.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

---

APPENDIX

PENALTIES

The Plant Quarantine Act of August 20, 1912 (37 Stat. 315), as amended, provides that no person shall ship or offer for shipment to any common carrier, nor shall any common carrier receive for transportation or transport, nor shall any person carry or transport from any quarantined State or Territory or District of the United States, or from any quarantined portion thereof, into or through any other State or Territory or District, any class of nursery stock or any other class of plants, fruits, vegetables, roots, bulbs, seeds * * * or any other article * * * specified in the notice of quarantine * * * in manner or method or under conditions other than those prescribed by the Secretary of Agriculture. It also provides that any person who shall violate any of the provisions of this act, or who shall forge, counterfeit, alter, deface, or destroy any certificate provided for in this act or in the regulations of the Secretary of Agriculture shall be deemed guilty of a misdemeanor, and shall upon conviction thereof be punished by a fine not exceeding $500, or by imprisonment not exceeding 1 year, or both such fine and imprisonment, in the discretion of the court.

*State and Federal Inspection*

Certain of the quarantined States have promulgated or are about to promulgate quarantine regulations restricting intrastate movement supplemental to the Federal quarantine. These State regulations are enforced in cooperation with the Federal authorities. Copies of either the Federal or State quarantine orders may be obtained by addressing the United States Department of Agriculture, Glenwood Avenue and Henry Street, Bloomfield, N. J.

Subsidiary offices are maintained at the following locations:

Fouth Floor, Custom House, Boston, Mass.

Connecticut Agricultural Experiment Station, 123 Huntington Street, New Haven, Conn.

Room 838, 641 Washington Street, New York, N. Y.

Room 200, 2507 James Street, Syracuse, N. Y.

P. O. Box 1, Trenton, N. J. or Yardville Road, White Horse, N. J.

Kotler Building, Main and High Streets, Glassboro, N. J.

Frankford Arsenal, Bridge & Tacony Sts., Frankford, Philadelphia, Pa.

Warehouse No. 4, General Depot, United States Army, New Cumberland, Pa.

Room 438–K, New Post Office Building, Pittsburgh, Pa.

Room 210, New Post Office Building, Dover, Del.

Room 306, Post Office Building, Calvert & Fayette Streets, Baltimore, Md.

Room 301, Salisbury Building & Loan Bldg., Main & Division Streets, Salisbury, Md.

Office of County Agent, Court House, Hagerstown, Md.

Room 213, Broad-Grace Arcade Building, Richmond, Va.

Room 217, New Federal Building, Granby Street and Brambleton Ave., Norfolk, Va.

Arrangements may be made for inspection and certification of shipments from the District of Columbia by calling District 6350, Branch 2589, the inspection house of the Bureau of Entomology and Plant Quarantine, Twelfth Street and Constitution Avenue NW., Washington, D. C.

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 24th day of February A. D. 1937.

Commissioners: William A. Ayres, Chairman, Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[Docket No. 2954]

IN THE MATTER OF CENTRAL PATTERN AND FOUNDRY COMPANY

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission, under an Act of Congress (38 Stat. 717; 15 USCA, Section 41),

It is ordered that John L. Hornor, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered that the taking of testimony in this proceeding begin on Wednesday, March 3, 1937, at ten o'clock in the forenoon of that day (central standard time), in room 1123, New Post Office Building, Chicago, Illinois.

Upon completion of testimony for the Federal Trade Commission, the examiner is directed to proceed immediately to take testimony and evidence on behalf of the respondent. The examiner will then close the case and make his report.

By the Commission.

## SECURITIES AND EXCHANGE COMMISSION.

SECURITIES ACT OF 1933

AMENDMENT TO FORM A–1

The Securities and Exchange Commission, finding that any information or documents specified in Schedule A of the Securities Act of 1933, as amended, which are not required to be set forth in Form A–1, as hereby amended, are inapplicable to the class of securities to which such form is appropriate, and that disclosure fully adequate for the protection of investors is otherwise required to be included in the registration statement, and that such information and documents as are required by Form A–1, as hereby amended, but which are not specified in Schedule A, are

necessary and appropriate in the public interest and for the protection of investors, acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, particularly Sections 7 and 19 (a) thereof, hereby amends Item 55 of Form A–1 by striking therefrom Note 1 and the references thereto appearing under the captions "Gross Sales" and "Cost of Goods Sold" in the Profit and Loss Statement, which Note 1 reads as follows:

These items to be shown unless the business of the issuer would be injured thereby, and in which case Instructions 1 and 2 would not apply.

The foregoing amendment shall be effective March 15, 1937.

AMENDMENT TO FORM A–2

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, particularly Sections 7 and 19 (a) thereof, and finding that any information or documents specified in Schedule A of that Act which Form A–2 and the book of instructions accompanying that form, as hereby amended, do not require to be set forth, are inapplicable to the class of securities to which such form is appropriate, and that disclosure fully adequate for the protection of investors is otherwise required to be included in the registration statement, and that such information or documents as Form A–2 and the accompanying book of instructions, as hereby amended, require to be set forth, but which are not specified in Schedule A, are necessary and appropriate in the public interest or for the protection of investors, hereby amends Form A–2 and the book of instructions accompanying that form, as follows:

In the Instructions as to Financial Statements in the Instruction Book for Form A–2, there is stricken the third paragraph under the heading "Profit and Loss Statement", which paragraph reads as follows:

The information required by 1.A. and 2.A., below, may be omitted from the statements of any person furnished hereunder, where corresponding information in the latest statements of such person filed pursuant to the Securities Exchange Act of 1934, as amended, has been granted confidential treatment by the Commission pursuant to Section 24 of said Act.

The foregoing amendment shall be effective March 15, 1937.

AMENDMENT TO FORM E–1

The Securities and Exchange Commission, finding that any information or documents specified in Schedule A of the Securities Act of 1933, as amended, which are not required to be set forth in Form E–1, as hereby amended, are inapplicable to the class of securities to which such form is appropriate, and that disclosure fully adequate for the protection of investors is otherwise required to be included in the registration statement, and that such information and documents as are required by Form E–1, as hereby amended, but which are not specified in Schedule A, are necessary and appropriate in the public interest and for the protection of investors, acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, particularly Sections 7 and 19 (a) thereof, hereby amends Form E–1 by striking Note 1 to Financial Statement Form No. 2 and the references thereto appearing under the captions "Gross Sales" and "Cost of Goods Sold" in such Financial Statement Form No. 2, which Note 1 reads as follows:

These items to be shown unless the business of the person whose statement is furnished would be injured thereby, in which case Instruction 1 and 2 would not apply. If these items are omitted, there shall be submitted a statement, supplemental to the auditor's report, explaining fully the reasons for such omissions.

The foregoing amendment shall be effective March 15, 1937.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37–605; Filed, March 1, 1937; 12:59 p. m.]

SECURITIES EXCHANGE ACT OF 1934

AMENDMENT OF RULE NB2

The Securities and Exchange Commission, deeming the transactions described in Rule NB2 as hereinafter amended, to the extent prescribed in said rule as so amended, not to be comprehended within the purpose of sub-section (b) of Section 16 as set forth in such sub-section, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 16 (b) and 23 (a) thereof, hereby amends Rule NB2 by striking out of paragraph (c) of said Rule the words "identical with" and substituting in lieu thereof the words "at least as favorable as."

Paragraph (c) of Rule NB2 as so amended reads as follows:

(c) If the person effecting such transaction is either (1) an officer or director of the issuer, (2) a firm of which such officer or director is a partner, employee, appointee, nominee or representative, or (3) a corporation or other person in respect of which such officer or director is an officer, director, employee, appointee, nominee, representative or beneficial owner, directly or indirectly, of more than 10 per centum of any class of equity security, then other persons who are not specified in clauses (1), (2) or (3), of this paragraph (c) must have participated in the purchase of such security (or other securities of the same issue) with a view to the distribution thereof, on terms at least as favorable as those on which such specified persons have participated and to an extent at least equal to the aggregate participation of all such specified persons.

The foregoing action shall be effective immediately upon publication.

By the Commission.

[F. R. Doc. 37–604; Filed, March 1, 1937; 12:59 p. m.]

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 24th day of February A. D. 1937.

[File No. 2–2847]

IN THE MATTER OF METROPOLITAN PERSONAL LOAN CORPORATION

ORDER FIXING TIME AND PLACE OF HEARING UNDER SECTION 8 (D) OF THE SECURITIES ACT OF 1933, AS AMENDED, AND DESIGNATING OFFICER TO TAKE EVIDENCE

It appearing to the Commission that there are reasonable grounds for believing that the registration statement filed by Metropolitan Personal Loan Corporation under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading.

It is ordered that a hearing be held, pursuant to the provisions of Section 8 (d) of said Act as amended, such hearing to be convened on Thursday, March 11, 1937, at 11 o'clock in the forenoon, in Room 1101, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C., and to continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of testimony in this matter, the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 26th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF AN OIL PAYMENT IN THE USHER CARSON FARM, FILED ON FEBRUARY 6, 1937, BY W. H. VERNOR, RESPONDENT

ORDER FOR CONTINUANCE

The Securities and Exchange Commission, having been requested by its counsel for a continuance of the hearing in the above entitled matter, which was last set to be heard at 2:00 o'clock in the afternoon of the 26th day of February 1937 at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and it appearing proper to grant the request;

It is ordered, pursuant to Rule VI of the Commission's Rules of Practice under the Securities Act of 1933, as amended, that the said hearing be continued to 10:00 o'clock in the forenoon of the 12th day of March, 1937, at the same place and before the same trial examiner.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 26th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE RAY STEPHENS-GRIFFIN FARM, FILED ON JANUARY 21, 1937, BY RAY STEPHENS, INC., RESPONDENT

ORDER TERMINATING PROCEEDING AFTER AMENDMENT

The Securities and Exchange Commission, finding that the offering sheet filed with the Commission, which is the subject of this proceeding, has been amended, so far as necessary, in accordance with the Suspension Order previously entered in this proceeding:

It is ordered, pursuant to Rule 341(d) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the amendment received at the office of the Commission on February 25, 1937, be effective as of February 25, 1937; and

It is further ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same hereby are revoked and the said proceeding terminated.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 26th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE RAY STEPHENS-MELTON FARM, FILED ON JANUARY 21, 1937, BY RAY STEPHENS, INC., RESPONDENT

ORDER TERMINATING PROCEEDING AFTER AMENDMENT

The Securities and Exchange Commission, finding that the offering sheet filed with the Commission, which is the subject of this proceeding, has been amended, so far as necessary, in accordance with the Suspension Order previously entered in this proceeding:

It is ordered, pursuant to Rule 341 (d) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the amendment received at the office of the Commission on February 25, 1937, be effective as of February 25, 1937; and

It is further ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same hereby are revoked and the said proceeding terminated.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 37–600; Filed, March 1, 1937; 12:58 p. m.]

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 26th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF AN OVERRIDING ROYALTY INTEREST IN THE OCEANVIEW-ANGLO NO. 2 FARM, FILED ON FEBRUARY 19, 1937, BY OCEANVIEW OIL CORPORATION, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340(A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the date upon which the information contained in the offering sheet will expire is not correctly stated in Division I, paragraph 7;

(2) In that the answer given in Division II, Item 19 (b), fails to disclose when and to whom the payments will be made;

(3) In that the statement made in Division II, Item 19 (c), is not believed to be correct and is therefore misleading;

(4) In that "Exhibit A" does not comply with the regulations in the following particular: Legend is not complete;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 27th day of March, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Robert P. Reeder, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law: and

It is further ordered that the taking of testimony in this proceeding commence on the 12th day of March 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## PRESIDENT OF THE UNITED STATES.

### EXECUTIVE ORDER

### ESTABLISHING SACRAMENTO MIGRATORY WATERFOWL REFUGE

*California*

By virtue of and pursuant to the authority vested in me as President of the United States, and in order to effectuate further the purposes of the Migratory Bird Conservation Act (45 Stat. 1222), it is ordered that the following-described lands, consisting of 10,775.61 acres, more or less, acquired by the United States in Glenn and Colusa Counties, California, be, and they are hereby, reserved and set apart for the use of the Department of Agriculture, subject to valid existing rights, as a refuge and breeding ground for migratory birds and other wildlife:

MOUNT DIABLO MERIDIAN

T. 18 N., R. 3 W.,
- secs. 1 and 2;
- sec. 3, that part lying east of the easterly right-of-way boundary of the Southern Pacific Railroad, excepting therefrom a tract of land 100 feet in width and 700 feet in length lying east of the said railroad right-of-way boundary and approximately 385 feet north of the south boundary of sec. 3;
- sec. 10, that part lying east of the easterly right-of-way boundary of the Southern Pacific Railroad;
- secs. 11 to 14, inclusive;
- sec. 15, that part lying east of the easterly right-of-way boundary of the Southern Pacific Railroad, excepting therefrom that part of SW¼SW¼SW¼ lying east of said railroad;
- sec. 22, that part lying east of the easterly right-of-way boundary of the Southern Pacific Railroad;
- secs. 23 to 26, inclusive;
- sec. 27, that part lying east of the easterly right-of-way boundary of the Southern Pacific Railroad;
- sec. 34, that part of the N½ lying east of the easterly right-of-way boundary of the Southern Pacific Railroad;
- sec. 35, all;
- sec. 36, N½.

T. 56 N., R. 20 W.,
- sec. 27, W½NW¼ and NW¼SW¼;
- sec. 28, NE¼, E½NW¼, and S½;
- sec. 29, SW¼, NW¼SE¼, and S½SE¼;
- sec. 31, S½NE¼NE¼, S½NE¼, S½NW¼, and S½;
- secs. 32 and 33;
- sec. 34, W½.

T. 55 N., R. 21 W.,
- sec. 1, all;
- sec. 2, all that part lying east of the northeasterly right-of-way boundary of the Wabash Railroad;
- sec. 11, all that part of the E½ lying east of the northeasterly right-of-way boundary of the Wabash Railroad;
- sec. 12, all, excepting therefrom the right-of-way of the Wabash Railroad and that part of the SW¼SW¼ lying west thereof;
- sec. 13, N½, excepting the right-of-way of the Wabash Railroad; all that part of the E½SW¼ lying east of the northeasterly boundary of the Wabash Railroad; and SE¼;
- sec. 24, N½N½NE¼.

T. 56 N., R. 21 W.,
- sec. 25, S½;
- sec. 26, E½NE¼SW¼, S½SW¼, and S½SE¼;
- sec. 27, all that part of the SE¼SE¼ lying east of the northeasterly right-of-way boundary of the Wabash Railroad;
- sec. 34, all those parts of the E½NE¼ and NE¼SE¼ lying east of the northeasterly right-of-way boundary of the Wabash Railroad;
- sec. 35, all, excepting therefrom the right-of-way of the Wabash Railroad and that part of the SW¼SW¼ lying west thereof.

This refuge shall be known as the Swan Lake Migratory Waterfowl Refuge.

## DEPARTMENT OF THE INTERIOR.

### Division of Grazing.

### GRAZING DISTRICT NOTICE

### ARIZONA

FEBRUARY 24, 1937.

Pursuant to the provisions of the act of June 28, 1934 (48 Stat. 1269), commonly known as the Taylor Grazing Act, as amended June 26, 1936 (49 Stat. 1976), notice is hereby given that a hearing will be held by the Department of the Interior for the purpose of considering the establishment of a grazing district in Yavapai County, State of Arizona, at the following place and time and any place or time to which such hearing may be adjourned:

| State | Place | Date | Hour |
|---|---|---|---|
| Arizona | Kirkland | March 13, 1937 | 10 a. m |

This hearing will be open to the attendance of State officials, settlers, residents, and livestock owners, who are interested in the grazing use of the public domain in said State.

CHARLES WEST,
*Acting Secretary of the Interior.*

- T. 10 S., R. 35 E., W½ sec. 19, secs. 30 and 31;
- T. 11 S., R. 35 E., secs. 6, 7, 18, 19, 30, and 31;
- T. 12 S., R. 35 E., secs. 5 to 8, SW¼ sec. 16, secs. 17 to 21, 28 to 34, inclusive;
- Tps. 13 and 14 S., R. 35 E.;
- T. 15 S., R. 35 E., secs. 1 to 28, N½ sec. 29, secs. 33 to 36;
- T. 16 S., R. 35 E., secs. 1 to 4, NE¼ sec. 9, sec. 10, N½, N½NE¼SW¼, N½NW¼SW¼, SW¼NW¼SW¼, W½SW¼-SW¼, SE¼SE¼SW¼, E½SE¼, E½NW¼SE¼, SW¼SE¼ sec. 11, secs. 12, 13, 14, NE¼ sec. 23, N½, SE¼ sec. 24;
- T. 13 S., R. 36 E., secs. 5 to 8, 17 to 21, 28 to 36, inclusive;
- Tps. 14 and 15 S., R. 36 E.;
- T. 16 S., R. 36 E., secs. 1 to 24, 26 to 30, NE¼ sec. 31, secs. 32 to 36;
- Tps. 14, 15, and 16 S., R. 37 E.

The major part of the above-described land was withdrawn by the Act of March 4, 1931 (46 Stat. 1530), for the purpose of protecting the watersheds supplying water to the city of Los Angeles and other cities and towns in the State of California. Such lands may be disposed of and rights therein may be granted only in the manner authorized by section 2 of said Act. The recreational use of the lands, provided for by said section, will be governed by the instructions contained in General Land Office Circular No. 1247 and such regulations as may hereafter be prescribed.

CHARLES WEST,
*Acting Secretary of the Interior.*

## Office of Indian Affairs.

### CROW INDIAN IRRIGATION PROJECT, MONTANA

### ORDER FIXING OPERATION AND MAINTENANCE CHARGES

FEBRUARY 19, 1937.

In compliance with the provisions of an Act of August 1, 1914 (38 Stat. 582–83), the operation and maintenance charges for irrigable lands under the Crow Irrigation Project for the calendar year 1937 and subsequent years until further notice, are fixed as follows:

| | |
|---|---|
| Under Government operated units, excepting Coburn Ditch, per acre | $0.95 |
| Under Two Leggins Unit, per acre | 0.95 |
| Under Bozeman Trail Unit, per acre | 0.40 |

The charges as herein fixed shall become due April 1st, and are payable on or before that date. To all charges assessed against owners of patent in fee or white-owned lands not paid on July 1, following, there shall be added a penalty of ½ of 1 percent per month, or fraction thereof, from the due date, April 1, so long as the delinquency continues. No water shall be delivered to patent in fee or white-owned lands until such charges shall have been paid, or to trust patent lands until the Superintendent of the reservation shall have issued a statement to the Project Engineer certifying that the Indian farming such land has paid or will pay or that such Indian is financially unable to pay the charge, or in the case of such Indian trust lands as are leased, until the terms of the lease relative to the payment of water charges shall have been complied with.

This supersedes order of March 14, 1936.

OSCAR L. CHAPMAN,
*Assistant Secretary of the Interior.*

[F. R. Doc. 37-611; Filed, March 2, 1937; 9:33 a. m.]

### FLATHEAD INDIAN IRRIGATION PROJECT, MONTANA

### ORDER FIXING OPERATION AND MAINTENANCE CHARGES

FEBRUARY 19, 1937.

Pursuant to authority of law contained in existing legislation relative to the Flathead Irrigation Project, Montana, it is hereby ordered that the operation and maintenance assessment rates due April 1, 1937, for the calendar year 1937 and for subsequent years until further notice, for the

| | | | |
|---|---|---|---|
| | sec. 18, N½ and SW¼;<br>sec. 19, N½N½NW¼. | | |
| Arizona | Kirkland | March 13, 1937 | 10 a. m. |

various subdivisions of the Flathead Irrigation Project, Montana, that are not included in Irrigation Districts that have executed a suitable repayment contract with the United States, be fixed as follows:

*Charges Applicable to All Irrigable Lands in the Flathead Irrigation Project but Which Are Not Included in the Irrigation District Organizations*

JOCKO DIVISION

*Charges for Service.*—A minimum charge of Seventy Cents (70¢) per acre will be made against all lands within the Jocko Division to which water can be delivered, whether water is used or not, this minimum charge to be credited to the account of water delivered at the following acre foot rates:

(a) For lands receiving water from the lower Jocko and Revais Creek Laterals, water will be delivered in amounts equal to one acre foot per acre for the entire irrigable area of the farm unit, allotment, or tract, at the rate of one dollar ($1) per acre foot, and additional water will be delivered at the rate of fifty cents (50¢) per acre foot.

(b) For lands receiving water from Finley, East Finley, Agency, and Big Knife Creeks, water will be delivered at the rate of seventy-five cents (75¢) per acre foot at any time during the irrigation season.

(c) And for lands receiving water from Jocko River through the Jocko K Lateral system, at the rate of fifty cents (50¢) per acre foot at any time during the irrigation season.

MISSION VALLEY AND CAMAS DIVISIONS

*Charges for Service.*—A charge of eighty cents (80¢) per acre shall be levied against all the irrigable area to which water can be delivered, whether water is used or not, and there shall be no further charge for water delivered up to one and one-half acre feet of water per irrigable acre of land included in any farm unit, allotment, or tract of land which has been assessed for operation and maintenance for that season, provided, that for all water delivered to any farm unit, allotment, or tract, in excess of the above amounts there shall be assessed a charge of seventy-five cents (75¢) per acre foot in addition to the minimum charge of eighty cents (80¢) per acre already levied.

GENERAL

For all areas covered by private water rights where the water is regulated by the Flathead Irrigation Project and delivered through the Flathead Irrigation Project systems, a charge of fifty cents (50¢) per acre shall be made for water delivered up to two (2) acre feet per acre, or to such quantity of water as was allowed under the private water right findings for each acre carrying a recognized private water right under the Secretary's private water right findings, and for any additional water furnished to private water right lands, whether through the project irrigation system or otherwise, a charge of one dollar ($1) per acre foot shall be made.

If at any time during the irrigation season when it shall appear, in the judgment of the Project Engineer, that there shall not be sufficient water available to deliver the amount specified under the minimum charge in this regulation to the entire irrigable area for which application for delivery of water has been made and approved, then the Project Engineer shall be authorized to reduce such amounts to the extent that there shall, in his judgment, be sufficient water available to make proportionate delivery to each farm unit, allotment, or tract, and when any farm unit, allotment, or tract shall have had delivered to it the amount so fixed, it shall not be entitled to further delivery of water except when it shall appear that there is a surplus of water available, provided that, for those tracts located in the Mission Valley and Camas Divisions of the Flathead Irrigation Project *only*, after an agreement has been reached between a landowner and the Project Engineer as to duty of water on individual tracts where the landowner claims excess requirements on account of porous or gravelly soils, the Project Engineer shall have authority, pending further orders, to increase the quantity of water to be delivered under the minimum charge levy to such porous or gravelly tract, provided it shall not exceed four (4) acre feet of water per acre per season for the accessible irrigable area of the tract.

In the case of lands belonging to the State of Montana, where water service is requested by lessees, delivery will be made upon payment in advance by the lessee of the same minimum charge and at the same rates, and under the same regulations, as are in force for other lands in the same general area that are not included in the Irrigation Districts.

The maximum charge for water delivered to any farm unit or allotment shall not exceed an amount equal to Two Dollars ($2) per acre for the entire irrigable area of the farm unit or allotment, and no charge for water delivered shall be less than Five Dollars ($5) for the season.

To all charges assessed against owners of patent in fee or white-owned lands not paid on July 1st following, there shall be added a penalty of one-half of one per cent (½ of 1 per cent) per month, or fraction thereof, from the due date, April 1st, so long as the delinquency continues. No water shall be delivered to patent in fee or white-owned lands until such charges shall have been paid, or to trust patent lands until the Superintendent of the reservation shall have issued a statement to the Project Engineer certifying that the Indian farming such land has paid or will pay or that such Indian is financially unable to pay the charge, or in the case of such Indian trust lands as are leased, until the terms of the lease relative to the payment of water charges shall have been complied with.

This supersedes order of March 14, 1936.

OSCAR L. CHAPMAN,
*Assistant Secretary of the Interior.*

---

FORT HALL INDIAN IRRIGATION PROJECT, IDAHO

ORDER FIXING OPERATION AND MAINTENANCE CHARGES

FEBRUARY 19, 1937.

In compliance with the provisions of the Act of March 1, 1907 (34 Stat. 1015), the charges on behalf of the cost of operation and maintenance of the Fort Hall Irrigation Project, Idaho, chargeable against all non-Indian owned land and all Indian land leased for a term longer than three years, lying under this project, are hereby fixed for the calendar year 1937, and for subsequent years until further notice, as follows:

| | |
|---|---|
| Minimum charge for each tract in noncontiguous ownership of less than 1.5 acres | $3.00 |
| 1.5 acres up to and including 4.99 acres, per acre | 2.00 |
| 5 acres up to and including 9.99 acres, per acre | 1.75 |
| 10 acres up to and including 14.99 acres, per acre | 1.50 |
| 15 acres or more, per acre | 1.00 |
| For contiguous small tracts in separate ownership within a farm unit aggregating not less than 15 acres when an agent satisfactory to the project engineer is appointed for the purpose of collecting and paying in a single amount the annual irrigation charges for all owners and representing them in delivery of water | 1.00 |

*Time of Payment.*—The charges herein fixed shall become due on April 1st of the year for which the assessment is made and are payable before or on that date. To all charges against land in non-Indian ownership not paid by July 1 following the due date, there shall be added a penalty of ½ of 1 per cent per month, or fraction thereof, beginning from the due date and continuing until payment in full has been made.

*Conditions of Payment.*—No water will be delivered to:

1. Land in non-Indian ownership until at least 50 per cent of the assessment for the season has been paid in advance and water deliveries will not be continued after July 1 of that season until all unpaid annual charges against such lands have been paid in full.

2. (a) Lands in Indian ownership leased for a term longer than three years, with no provision in the lease contract governing payment of operation and maintenance charges, until at least 50 per cent of the assessment for the season has been paid in advance and water deliveries will not be continued after July 1 of that season until all unpaid annual charges against such lands have been paid in full.

(b) Lands in Indian ownership under lease for a term longer than three years, with provision in the lease contract for payment of operation and maintenance charges, until the terms of the contract have been complied with by the lessee in payment of such charges.

This supersedes order of February 28, 1934.

OSCAR L. CHAPMAN,
*Assistant Secretary of the Interior.*

DEPARTMENT OF AGRICULTURE.

**Agricultural Adjustment Administration.**

[Docket No. A–38–1 O–38–1]

NOTICE OF REOPENING OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER REGULATING THE HANDLING OF CAULIFLOWER GROWN IN STATE OF OREGON

Whereas, the Secretary of Agriculture, by notice dated October 30, 1936, caused a public hearing to be held in Portland, Oregon, on November 9, 1936, upon a proposed marketing agreement and a proposed order regulating the handling of cauliflower grown in the State of Oregon; and

Whereas, it now appears that, with respect to spring cauliflower grown in the State of Oregon, certain compilations of statistical data covering production, prices, shipments and other economic data relating thereto, and the index of prices paid by farmers for commodities bought during the period August 1919–July 1936, were not incorporated in, and made a part of, the record of such hearing; and

Whereas, it is determined that the said hearing be reopened for the purpose of introducing such data into the record of the said hearing and permitting all interested parties to examine the same and to submit evidence with respect to the subject matter of such data; and

Whereas, by reason of an emergency which exists with respect to the handling of cauliflower grown in the State of Oregon, it is determined that the period of notice of reopening of the said hearing, as hereinafter given, is reasonable under the circumstances;

Now, therefore, pursuant to the Agricultural Adjustment Act, as amended, and applicable regulations issued thereunder, notice is hereby given that the said hearing will be reopened and held in the office of the Agricultural Adjustment Administration, Room 901, Lewis Building, Portland, Oregon, on March 8, 1937, at 10:00 a. m., and that copies of the said compilation of statistical data may be obtained from either the said office or the office of the Hearing Clerk, Room 4725, South Building, United States Department of Agriculture, Washington, D. C.

[SEAL] M. L. WILSON,
*Secretary of Agriculture.*

Dated, March 2, 1937.

NCR—B–101, as amended

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTH CENTRAL REGION

BULLETIN NO. 101, AS AMENDED

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made, in connection with the effectuation of the purposes of Section 7 (a) of said Act for 1937, in accordance with the following provisions of this North Central Region Bulletin No. 101, as amended, and such modifications thereof and such other provisions as may hereafter be made.

This program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this program is contingent upon whatever appropriation the Congress of the United States may hereafter make for such purpose. The amount of any payment under this Program will be finally determined by such appropriation and the extent of participation in such Program. The rates of payment and the soil-building allowances set forth herein are computed upon the basis of an appropriation of $500,000,000.

*Part I—Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in the North Central Region, the following terms shall have the following meanings:

*Secretary* means the Secretary of Agriculture of the United States.

*North central region* means the area included in the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota, and Wisconsin.

*North central division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the North Central Region.

*Area "A"* means the area included in the following counties of the following States:

*Illinois.*—All counties.

*Indiana.*—Adams, Allen, Bartholomew, Benton, Blackford, Boone, Carroll, Cass, Clinton, Decatur, Delaware, Fayette, Fountain, Franklin, Fulton, Gibson, Grant, Hamilton, Hancock, Hendricks, Henry, Howard, Huntington, Jasper, Jay, Johnson, Knox, Kosciusko, Lake, La Porte, Madison, Marion, Marshall, Miami, Montgomery, Morgan, Newton, Noble, Parke, Porter, Pulaski, Putnam, Randolph, Rush, Shelby, Starke, Sullivan, Tippecanoe, Tipton, Union, Vigo, Vermillion, Wabash, Warren, Wayne, Wells, White, and Whitley.

*Iowa.*—All counties.

*Minnesota.*—Blue Earth, Brown, Chippewa, Cottonwood, Dodge, Faribault, Fillmore, Freeborn, Jackson, Kandiyohi, Lac Qui Parle, Le Sueur, Lincoln, Lyon, Martin, McLeod, Meeker, Mower, Murray, Nicollet, Nobles, Olmsted, Pipestone, Redwood, Renville, Rice, Rock, Sibley, Steele, Swift, Waseca, Watonwan, Yellow Medicine.

*Missouri.*—Adair, Andrew, Atchison, Audrain, Boone, Buchanan, Caldwell, Calloway, Carroll, Chariton, Clark, Clay, Clinton, Daviess, DeKalb, Gentry, Grundy, Harrison, Holt, Howard, Knox, Lafayette, Lewis, Lincoln, Linn, Livingston, Macon, Marion, Mercer, Monroe, Montgomery, Nodaway, Pike, Platte, Putnam, Ralls, Randolph, Ray, St. Charles, Saline, Schuyler, Scotland, Shelby, Sullivan, Warren, Worth.

*Nebraska.*—Antelope, Boone, Burt, Butler, Cass, Cedar, Colfax, Cuming, Dakota, Dixon, Dodge, Douglas, Gage, Johnson, Knox, Lancaster, Madison, Merrick, Nance, Nemaha, Otoe, Pawnee, Pierce, Platte, Polk, Richardson, Sarpy, Saunders, Seward, Stanton, Thurston, Washington, Wayne, York.

*Ohio.*—Allen, Auglaize, Butler, Champaign, Clark, Clinton, Crawford, Darke, Defiance, Delaware, Fairfield, Fayette, Franklin, Fulton, Greene, Hancock, Hardin, Henry, Highland, Logan, Madison, Marion, Mercer, Miami, Montgomery, Paulding, Pickaway, Preble, Putnam, Ross, Sandusky, Seneca, Shelby, Union, Van Wert, Warren, Williams, Wood, Wyandott.

*South Dakota.*—Bon Homme, Brookings, Clay, Hutchinson, Lake, Lincoln, McCook, Minnehaha, Moody, Turner, Union, Yankton.

*Wisconsin.*—Columbia, Dane, Grant, Green, Iowa, Lafayette, Rock, Walworth.

*Area "B"* means the area included in the following counties of Missouri: Butler, Dunklin, Mississippi, New Madrid, Pemiscot, Ripley, Scott, and Stoddard.

*Area "C"* means the area included in the following counties of Missouri: Howell, Oregon, Ozark, and Taney.

*State committee or State agricultural conservation committee* means the group of persons designated for a State to assist in the administration of the 1937 Agricultural Conservation Program in such State.

*County agricultural conservation association or county association* means the association in the county organized to assist in the administration of the 1937 Agricultural Conservation Program in such county. The boundaries of a county shall determine the boundaries of the association for such county provided, however, that upon approval in advance by the State committee and the Director of the North Central Division, a county may have two associations or two or more counties may have one association.

*County agricultural conservation committee or county committee* means the group of persons designated for a county to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Share-rented farm* means a farm that is rented for a share of the crops produced thereon, or the proceeds thereof.

*Person* means an individual, firm, partnership, association, corporation, estate, or trust. The term person shall also include, wherever applicable, a State, a political subdivision of a State, or any agency thereof, and any governmental agency that may be designated by the Secretary.

*Operator* means a person who as owner or share-tenant is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof.

*Share-tenant* means a person other than an owner or sharecropper who is operating a share-rented farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share-tenant sublets a share-rented farm to another person and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share-tenants.

*Sharecropper* means a person who works a farm in whole or in part under general supervision of the operator and is entitled to receive for his labor a proportionate share of a crop produced thereon, or the proceeds thereof.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with workstock, farm machinery, and labor substantially separate from that of any other land.

*Diversion farm* means (1) any farm in a county operated by a person who operates a farm or farms in such county with respect to which farm or farms the sum of the general soil-depleting bases established therefor is 20 acres or more, and (2) any farm for which a cotton or tobacco soil-depleting base is established.

*Nondiversion farm* means any farm which is not a diversion farm.

*Dryland farm* means (1) any farm not in Area "A" in Nebraska or South Dakota unless such farm is designated before May 1, 1937, by the county committee as not being a dryland farm, and (2) any farm in Area "A" in Nebraska or South Dakota designated before May 1, 1937, by the county committee as being a dryland farm.

*Cotton farm* means any farm in Area "B" or in Area "C" which has a cotton soil-depleting base, or on which cotton is grown in 1937.

*Sharecropper farm* means any farm operated with the aid of sharecroppers in 1937, which farm is not a cotton farm.

*Orchards* means the entire acreage (not abandoned) in tree fruits, nut trees, vineyards, bush fruits (including cranberries), and nursery stock on the farm on January 1, 1937, even though such acreage is interplanted with other crops.

*Cropland* means (1) all tillable farm land from which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and December 31, 1936, inclusive, except farm land in a dryland farm with a productivity less than 50 percent of the productivity for the county; and (2) any other acreage devoted on January 1, 1937, to orchards.

*Noncrop plowable pasture* means any noncrop pasture land other than range land and other than land owned or controlled by the United States Government, or an agency thereof, which could be brought under cultivation without clearing, draining, or irrigating. The term "noncrop plowable pasture" shall include any noncrop land used for the production of wild hay.

*Animal unit* means the unit of measurement used to denote the grazing capacity of noncrop plowable pasture. An animal unit as used herein shall be equal to either one cow, one horse, five sheep, two calves, two colts, or the equivalent thereof.

*Commercial orchards* means the entire acreage (not abandoned) in tree fruits, cultivated nut trees, vineyards, and bush fruits (including cranberries), on the farm on January 1, 1937, from which the principal part of the production is normally sold, including also the acreage of young nonbearing orchards on the farm on January 1, 1937, from which the principal part of the production will be sold.

*Commercial vegetables* means the acreage of vegetables and truck crops (including Irish potatoes, sweet potatoes, tomatoes, sweet corn, melons, cantaloupes, strawberries, and commercial bulbs and flowers, but excluding peas for canning and sweet corn for canning) of which the principal part of the production was sold to persons not living on the farm in 1936.

*1937 general acreage* means the total acreage classified as soil-depleting on a farm in 1937, less any 1937 acreage of cotton and tobacco on such farm.

*1937 sugar beet acreage* means the acreage planted to sugar beets on a farm in 1937, not in excess of the general soil-depleting base for such farm.

*New conserving acreage* means the acreage of cropland in the farm upon which there is, on the date as of which final inspection of the farm is made for the purpose of determining performance, a good stand of a crop listed in Section 2 (a) of Part III which was seeded between November 1, 1936, and October 31, 1937, inclusive, and which acreage is classified as soil-conserving in 1937. New conserving acreage also means the acreage of cropland used in accordance with subsection (b) of Section 2 of Part III.

*Old conserving acreage* means the acreage of cropland in the farm which was seeded prior to November 1, 1936, and upon which acreage there was a good stand of a crop listed in Section 2 (a) of Part III on or after July 1, 1937, and which acreage is classified as soil-conserving in 1937. Old conserving acreage also means any acreage of cropland on the farm upon which there was a good stand of a crop listed in Section 2 (a) of Part III on or after July 1, 1937, which was self-seeded in the fall of 1936 and which acreage is classified as soil-conserving in 1937. Old conserving acreage also means the acreage of cropland used in accordance with Section 2 (c) of Part III.

*Total conserving acreage* means the sum of the new conserving acreage and the old conserving acreage.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base.

*Conserving payment* means a payment for the increase of soil-conserving acreage.

*Soil-building payment* means a payment for carrying out an approved soil-building practice.

*Maximum general diversion payment* for a farm means the largest amount of payment which may be earned for diversion of acreage from crops in the general soil-depleting base on such farm. Such amount shall be computed by multiplying the rate per acre for diversion of acreage in the general soil-depleting base for such farm by the number of acres equal to 15 percent of such base.

*Maximum tobacco diversion payment* for a farm for any specified type of tobacco means the largest amount of payment which may be earned for diversion of acreage in the soil-depleting base for such farm for such type of tobacco. Such amount shall be computed in the case of a Burley or cigar-leaf tobacco soil-depleting base for such farm by multiplying the rate per acre for diversion of acreage in such base by the number of acres equal to 25 percent of such base. Such amount shall be computed in the case of a dark air-cured tobacco soil-depleting base by multiplying the rate per acre for diversion of acreage in such base by the number of acres equal to 30 percent of such base.

*Maximum cotton diversion payment* for a farm means the largest amount of payment which may be earned for diversion of acreage in the cotton soil-depleting base on such farm. Such amount shall be computed by multiplying the rate per acre for diversion of acreage from the cotton soil-depleting base for such farm, by the number of acres equal to 35 percent of such base, except that if such base is 5.7 acres or less, such amount shall be computed by multiplying such rate by two acres, or by such base, whichever is less.

*Maximum conserving payment* for a farm means the largest amount of payment which may be earned for an increase in the acreage of soil-conserving crops on such farm. Such amount shall be computed by multiplying the rate per acre for conserving payments for such farm by the acreage for which diversion payments are made with respect to such farm.

*Part II—Establishment of Limits, Bases, Grazing Capacities, Productivity Indexes, and Yields*

SECTION 1. *County Limits.*—The Agricultural Adjustment Administration shall establish (a) a county total limit for each county, (b) a county corn limit for each county in area "A", (c) a county cotton limit for each county in which cotton soil-depleting bases will be established, (d) a county tobacco limit for each type of tobacco for each county in which tobacco soil-depleting bases will be established for such type of tobacco, and (e) a county pasture grazing capacity limit for each county containing noncrop plowable pasture. Such county limits shall be based upon the county limits established pursuant to the 1936 Agricultural Conservation Program, the land measurements obtained pursuant to the 1936 Agricultural Conservation Program, and census reports, and in the case of the county pasture grazing capacity limit such limit shall be determined by multiplying the acreage of noncrop plowable pasture in such county by the number of animal units which an average acre of such noncrop plowable pasture will carry during the normal pasture season. The sum of the individual total soil-depleting bases, corn limits, cotton soil-depleting bases, tobacco soil-depleting bases, and grazing capacity limits for all farms in a county shall not exceed the county total limit, the county corn limit, the county cotton limit, the county tobacco limit for each type of tobacco, and the county pasture grazing capacity limit, respectively.

SECTION 2. *Total Soil-Depleting Bases.*—There shall be established for each farm a total soil-depleting base. The total soil-depleting base for any farm shall not be greater than the total acreage of cropland on such farm less the acreage in orchards. The total soil-depleting base for any farm shall be the total soil-depleting base which was or could have been established for such farm under the 1936 Agricultural Conservation Program subject to changes in classification of land in 1937 from that in 1936 subject to such revisions and adjustments as will result in a total soil-depleting base for such farm which is comparable to the total soil-depleting bases established for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, degree of erosion, ratio of soil-depleting crops planted in 1935 and 1936 to cropland, type of farming, and farming practices.

SECTION 3. *Cotton Soil-Depleting Bases.*—There may be established as a part of the total soil-depleting base for any farm a cotton soil-depleting base. The cotton soil-depleting base for any farm shall be the cotton soil-depleting base which was or could have been established for such farm under the 1936 Agricultural Conservation Program subject to such revisions and adjustments as will result in a cotton soil-depleting base for such farm which is comparable to the cotton soil-depleting bases established for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, degree of erosion, type of farming, and farming practices.

For farms on which cotton was grown in 1936 for the first time since 1933, a cotton base may be established on the basis of the acreage planted to cotton in 1936 subject to necessary adjustments based on land measurements made in connection with the 1936 Agricultural Conservation Program and further adjustments that will result in a cotton base for the farm which is comparable with cotton bases for other farms in the same community similar with respect to size, type of soil, topography, production facilities, degree of erosion, type of farming, and farming practices.

SECTION 4. *Tobacco Soil-Depleting Bases.*—There may be established as a part of the total soil-depleting base for any farm a Burley, dark air-cured, or cigar leaf tobacco soil-depleting base. If a soil-depleting base for any specified type of tobacco is to be established for any farm, there shall first be established a preliminary soil-depleting base for such type of tobacco for such farm. A preliminary soil-depleting base for any farm for any specified type of tobacco shall be based upon the soil-depleting base established for such farm for such type of tobacco under the 1936 Agricultural Conservation Program, the acreage of such type of tobacco grown on such farm in 1935 and 1936, the acreage of such type of tobacco grown on and the soil-depleting bases established for such type of tobacco for other farms in the same community similar with respect to size, type of soil, topography, production facilities, and farming practices.

If the acreage planted to any specified type of tobacco in 1937 on any farm is less than fifty percent of the preliminary soil-depleting base established for such farm for such type of tobacco, the soil-depleting base for such farm for such type of tobacco shall be adjusted downward so that the soil-depleting base established for such farm for such type of tobacco does not exceed an acreage equal to twice the acreage of such type of tobacco grown on such farm in 1937.

For the purpose of the 1937 Agricultural Conservation Program in the North Central Region, Eastern Ohio Export tobacco shall be regarded as Burley tobacco.

SECTION 5. *General Soil-Depleting Bases.*—There may be established as a part of the total soil-depleting base for any farm a general soil-depleting base. The general soil-depleting base for any farm shall represent the acreage on such farm normally used for the production of all soil-depleting crops except cotton and tobacco. The general soil-depleting base for any farm shall be determined by subtracting the sum of any cotton and tobacco soil-depleting bases established for such farm from the total soil-depleting base established for such farm.

SECTION 6. *Soil-Conserving Bases.*—The soil-conserving base for any farm shall be determined by subtracting the total soil-depleting base plus the acreage in orchards from the total acreage of cropland in such farm.

SECTION 7. *Corn Limits.*—There shall be established for each farm in Area "A" a corn limit. The corn limit established for any diversion farm shall be based on the ratio of corn planted on such farm in 1935 and 1936 to cropland, type of soil, topography, degree of erosion, size, and productivity. The corn limit established for any diversion farm shall be comparable to the corn limit established for similar farms in the same community.

SECTION 8. *Pasture Grazing Capacities.*—There shall be established for each farm containing noncrop plowable pasture land a pasture grazing capacity for such farm expressed in terms of animal units. Such grazing capacity for any farm shall represent the total number of animal units which the noncrop plowable pasture in such farm will carry during the normal pasture season. Such grazing capacity for any farm shall be determined by first establishing the pasture grazing capacity for an average acre of noncrop plowable pasture land in such farm by making such deviation from the pasture grazing capacity established by the Agricultural Adjustment Administration for an average acre of noncrop plowable pasture land in the county as is justified by the composition, palatability, density of vegetative growth, and topographic features of the noncrop plowable pasture land in such farm. The pasture grazing capacity so determined for an average acre of noncrop plowable pasture land in such

farm shall be multiplied by the acreage of noncrop plowable pasture land in such farm. The result so obtained shall be the pasture grazing capacity of such farm.

SECTION 9. *Rates of Payment, Productivity Indexes, and Yields.*—(a) *County Rates of General Diversion and Conserving Payments.*—There shall be established by the Agricultural Adjustment Administration for each county a county rate of payment per acre for diversion from the general soil-depleting base. Such county rates of payment will be an average of $6.00 for the United States and will vary among counties as the productivity of the cropland in the county devoted to the production of corn, wheat, oats, barley, rye, buckwheat, grain sorghums, soybeans, dry edible beans, sorghum for syrup, broom corn, potatoes, and sweet potatoes varies as compared to the productivity of the cropland in the United States devoted to the production of such crops. In counties in Area "A" the rate thus determined shall be increased 5 percent. The county rate of payment per acre for conserving payments shall be fifty percent of the county rate of payment per acre for diversion from the general soil-depleting base.

(b) *Productivity Indexes.*—There shall be established a general productivity index for each farm. Such productivity index shall be based upon the normal yield per acre for the farm of the major soil-depleting crop in the county as compared to the normal yield per acre for such crop for the county. Where the yield of the major soil-depleting crop for any farm in the county does not accurately reflect the productivity of such farm, the yield of such other crop as does accurately reflect the productivity of such farm may be used, provided that the productivity index for such farm shall, if necessary, be adjusted so as to be fair and equitable as compared with the productivity indexes for other farms in the county having similar soils or productive capacity, and as contrasted with other farms in the county having different soils and productive capacity.

(c) *Tobacco Yield.*—There shall be established for each county where soil-depleting bases will be established for any specified type of tobacco a county check yield expressed in pounds per acre for each such type of tobacco. Such county check yield for any specified type of tobacco shall be the check yield which was established under the 1936 Agricultural Conservation Program. There shall be established for each farm for which a soil-depleting base will be established for any specified type of tobacco a tobacco yield expressed in pounds per acre, such yield to be the normal annual tobacco yield per acre for such farm for such type of tobacco. For each type of tobacco the sum of the products obtained by multiplying each tobacco soil-depleting base by the tobacco yield for such farm shall not exceed the product obtained by multiplying the sum of all such tobacco soil-depleting bases in the county by the county tobacco check yield.

(d) *Cotton Yield.*—There shall be established for each county where cotton soil-depleting bases will be established, a county cotton check yield expressed in pounds per acre. Such county cotton check yield shall be the check yield which was established under the 1936 Agricultural Conservation Program. There shall be established for each farm upon which a cotton soil-depleting base will be established, a cotton yield expressed in pounds per acre, such yield to be the normal annual cotton yield per acre for such farm. The sum of the products obtained by multiplying each cotton soil-depleting base by the cotton yield for such farm shall not exceed the product obtained by multiplying the sum of all the cotton soil-depleting bases for the county by the county cotton check yield.

(e) *Sugar Beet Yield.*—There shall be established for each farm upon which sugar beets are planted in 1937, a sugar beet yield. Such sugar beet yield shall be expressed in short tons per acre and shall be the yield which was or could have been established under the 1936 Agricultural Conservation Program, subject to such adjustments as will make the sugar beet yield for such farm comparable with the sugar beet yields for other farms in the county which are similar with respect to type of soil and productive capacity. If no sugar beets were planted on the farm during the seven years 1930 to 1936, inclusive, but are planted on such farm in 1937, the sugar beet yield for such farm shall be the average annual yield for the years 1930 to 1933, inclusive, of the factory district in which is located the factory to which the sugar beets from such farm will be delivered in 1937.

SECTION 10. *Appeals.*—Any person who has reason to believe that any base or limit established for such person's farm is not equitable, may request the county committee to reconsider its recommendations. If no agreement is reached between such person and such committee, an appeal may be taken to the State Committee in accordance with the instructions issued by the Director of the North Central Division.

*Part III—Classification of Farmland*

The use of farmland in 1937 shall be classified as either soil-depleting, soil-conserving, or neutral, as set forth in this Part III. In order for any cropland, other than an entire field, to be classified as either soil-conserving or neutral, such cropland, except cropland strip-cropped or strip-fallowed, must be in a solid block contiguous to the entire side or end of a field and the line between the cropland classified as neutral or soil-conserving and the remaining portion of the field must be straight. Except as otherwise provided, if any acreage on the farm is used for the production of interplanted crops, the actual acreage of each interplanted crop shall be classified as set forth in this Part III. The entire acreage first devoted to an orchard after January 1, 1937, shall be classified as though such orchard had not been planted. Any acreage upon which unadapted seed or mixtures containing any unadapted seed is planted in 1937 shall be classified as if such unadapted seed or such mixtures were not planted.

SECTION. 1. *Soil-Depleting.*—Farmland devoted to the crops and uses specified in this Section 1, or such other similar crops and uses as are designated by the Director of the North Central Division, shall be classified as soil-depleting:

(a) Land planted in 1937 to the following crops:

(1) Corn (field, sweet, and popcorn).
(2) Grain sorghums and sweet sorghums.
(3) Cotton.
(4) Tobacco.
(5) Sugar beets.
(6) Rice.
(7) Field beans and field peas.
(8) Canning peas.
(9) Hemp.
(10) Broomcorn.
(11) Mint.
(12) Mangels and cowbeets.
(13) Cultivated sunflowers.
(14) Truck and vegetable crops.
(15) Potatoes and sweet potatoes.
(16) Melons and strawberries.
(17) Bulbs and flowers.
(18) Asparagus and artichokes.

(b) Land used in 1937 for the production of the following crops:

(1) Wheat, oats, barley, rye, flax, buckwheat, emmer, speltz, and mixtures of any of such crops, harvested for grain in 1937.
(2) Millet and Sudan grass for seed.
(3) Soybeans and cowpeas for grain or seed except in Area "B".
(4) Rape for seed.
(5) Strawberries.
(6) Bulbs and flowers.
(7) Vetch for seed.
(8) Asparagus.

(c) The acreage by which, the sum of the idle cropland and the acreage planted to any of the following crops and used as specified herein, exceeds the acreage obtained by subtracting the old conserving acreage from the soil-conserving base:

(1) Wheat, oats, barley, rye, flax, emmer, speltz, and mixtures of any such crops, not harvested for grain. This item includes any acreage thus used except—

a. Any acreage of such crops planted in the fall of 1936, not cut for grain or hay in 1937, and used in 1937 in accordance with the provisions of Section 2 of this Part III (soil-conserving) or items (1) and (3) of Section 3a of this Part III (neutral).

b. Any acreage of such crops planted in the fall of 1937 for harvest in 1938.

c. Any acreage of such of these crops as are included in and used as specified in item 5 of Section 3a of this Part III.

d. Any acreage of such crops used as a nurse crop, seeded at a rate not in excess of one-half the normal rate of seeding alone for grain and not harvested as grain or hay.

(2) Soybeans, cowpeas, and buckwheat not harvested as grain or seed. (This item (2) does not include any acreage planted to soybeans, cowpeas, and buckwheat and used as specified in item (1) of Section 2 (b) of Part III.) This item (2), insofar as it relates to soybeans and cowpeas, is not applicable to Area "B".

(3) Millet and Sudan grass not harvested for seed.

(4) Rape not harvested for seed.

SECTION 2. *Soil-Conserving.*—Cropland in 1937 not used as set forth in Sections 1 and 3 of this Part III and devoted to the crops and uses specified in this Section 2, or such other similar crops and uses as are designated by the Director of the North Central Division shall be classified as soil-conserving: (This Section 2 does not exclude any acreage planted in the fall of 1936 to any of the crops listed in item (1) of Section 1 (b) of this Part III if such crop is not harvested as grain or hay.)

(a) Cropland upon which there was a good stand on or after July 1, 1937, of any of the following crops seeded before November 1, 1936; and cropland upon which there is, on the date as of which final inspection is made for the purpose of determining performance, a good stand which with the exception of the crops listed in item (4) hereof, would normally survive the winter of 1937–38, of any of the following crops seeded between November 1, 1936, and October 31, 1937, inclusive, provided, there is evidence that the nurse crop, if any, was seeded at a rate not in excess of one-half the normal rate of seeding alone for grain.

(1) *Perennial legumes.*—Alfalfa, kudzu, sericea, and white clover.

(2) *Perennial grasses.*—Bluegrass, Dallis, timothy, redtop, reed canary grass, orchard grass, Bermuda grass, carpet grass, bromegrass, crested wheat grass, slender wheat grass, western wheat grass, gramma grasses, buffalo grass, bluestem grasses, Koeleria, perennial ryegrass, meadow fescue.

(3) *Biennial legumes.*—Sweet, red, and mammoth clovers.

(4) Annual sweet clover, alsike clover, lespedeza, crotolaria.

(5) Mixtures of legumes listed under items 1, 3, and 4 of this subsection (a), or mixtures of such legumes and the grasses listed under item 2 of this subsection (a).

(6) Trees, other than fruit or nut trees, planted since January 1, 1934.

(b) Cropland used as follows:

(1) Incorporation into the soil as green manure by plowing or discing of a good vegetative growth of soybeans, velvet beans, cowpeas, or buckwheat seeded before July 1, 1937, and followed by a winter cover crop where the land is subject to erosion.

(c) Cropland used as follows:

(1) Planted to crimson clover, bur-clover, vetch (except vetch harvested for seed), black medica and yellow treefoil (hop clover) in the fall of 1936, provided there is a good stand of any of such crops on such acreage on or after March 1, 1937.

(2) Planted to soybeans and cowpeas in Area "B", provided there is a good stand of such crops on such acreage on or after July 1, 1937.

SECTION 3. *Neutral.*—Farm land not used as specified in Sections 1 and 2 of this Part III and devoted to the crops and uses specified in this Section 3, or such other similar crops and uses as are designated by the Director of the North Central Division, shall be classified as neutral:

(a) Farmland used in 1937 for the following purposes:

(1) Land summer fallowed on which the first tillage operation is completed by the date hereinafter specified and which land is properly cultivated thereafter in such a manner as to prevent wind erosion, water erosion, and weed growth. The first tillage operation must be completed by June 1, 1937, except (a) in Nebraska the first tillage operation must be completed by May 15, 1937, and (b) in the following counties of Ashland, Bayfield, Douglas, Iron, and Vilas in Wisconsin, in the following counties of Aitkin, Becker, Beltrami, Cass, Carlton, Clay, Clearwater, Cook, Crow Wing, Hubbard, Itasca, Kittson, Koochiching, Lake, Lake of the Woods. Marshall, Mahnomen, Norman, Otter Tail, Pennington, Polk, Red Lake, Roseau, St. Louis, Wadena, and Wilkin in Minnesota, in the following counties of Alger, Baraga, Chippewa, Delta, Dickinson, Gogebic, Houghton, Iron, Kewenaw, Luce, Mackinac, Marquette, Menominee, Outonagon, and Schoolcraft in Michigan. The first tillage operation must be completed by June 15, 1937, and (c) if an old stand of a crop listed in Section 2 (a) of this Part III is plowed before July 1, 1937, the first tillage operation on such land must be completed by July 1, 1937. (This item (1) includes any acreage planted in the fall of 1936 to any of the crops listed in item (1) of Section 1 (b) of this Part III if such crop is not harvested for grain or hay in 1937 and such acreage otherwise meets the requirements of this item (1).)

(2) The acreage in orchards.

(3) Seeded in 1937 to a crop specified in subsection (a) of Section 2 of this Part III, in accordance with good farming practices and upon which, due to uncontrollable natural causes, there is not a good stand which, with the exception of the crops listed in item (4) hereof, would survive the winter of 1937–38, provided, the nurse crop, if any, was seeded at a rate not in excess of one-half the normal rate of seeding alone for grain and was not harvested as grain or hay. (This item (3) includes any acreage planted in the fall of 1936 to any of the crops listed in item (1) of Section 1 (b) of this Part III if such crop is not harvested as grain or hay in 1937 and if such acreage otherwise meets the requirements of this item (3).)

(4) Waste land, roads, lanes, lots, yards, noncrop pasture land, land reverting to permanent pasture, and noncrop woodland.

(5) Noncrop pasture land planted before June 1, 1937, to wheat, oats, barley, rye, ryegrass, emmer, speltz, Sudan grass, and small grain mixtures, and not used for grain, seed, or hay, if, because of unusual weather conditions, such land has become unfit for grazing and if written statement is obtained from the county committee designating the area of such noncrop pasture land.

(6) Land planted to rye, cane or Sudan grass on Valentine sandy loam soils in Dundy, Chase, Perkins, Hayes, Lincoln, Garden, Morrill, Sheridan, Sioux, Dawes, Scotts Bluff, Banner, Kimball, Cheyenne, Dueul, Keight, Arthur, McPherson, and Logan Counties in Nebraska, provided (1) such crops are seeded before June 15, 1937, at the normal rate of seeding for grain, (2) a good growth of such crops is obtained and not harvested for grain or hay, or pastured, and (3) the county committee after inspection has approved and designated such cropland.

(7) Land devoted to the production of ginseng.

(b) The acreage equal to the sum of the idle cropland and the acreage planted to any of the following crops and used as

specified herein not in excess of the acreage obtained by subtracting the old conserving acreage from the soil-conserving base:

(1) Wheat, oats, barley, rye, flax, emmer, speltz, and mixtures of any such crops, not harvested for grain. This item includes any acreage thus used except—

a. Any acreage of such crops planted in the fall of 1936, not cut for grain or hay in 1937, and used in 1937 in accordance with the provisions of Section 2 of this Part III (soil-conserving) or items (1) and (3) of Section 3 (a) of this Part III (neutral).

b. Any acreage of such crops planted in the fall of 1937 for harvest in 1938.

c. Any acreage of such of these crops as are included in and used as specified in item 5 of Section 3 (a) of this Part III.

d. Any acreage of such crops used as a nurse crop, seeded at a rate not in excess of one-half the normal rate of seeding alone for grain and not harvested as grain or hay.

(2) Soybeans, cowpeas, and buckwheat not harvested as grain or seed. (This item (2) does not include any acreage planted to soybeans, cowpeas, and buckwheat and used as specified in item (1) of Section 2 (b) of this Part III.) This item (2), insofar as it relates to soybeans and cowpeas is not applicable to Area "B."

(3) Millet and Sudan grass not harvested for seed.

(4) Rape not harvested for seed.

*Part IV—Rates and Conditions of Payment*

In connection with the utilization in 1937 of farmland in the North Central Region, payments will be made in the amounts and subject to the conditions hereinafter set forth:

SECTION 1. *Rates of Diversion and Conserving Payments.*—The rates for diversion and conserving payments shall be as follows:

(a) The rate per acre for general diversion payments for a farm shall be the county rate per acre for general diversion payments multiplied by the productivity index of crops in the general soil depleting base for such farm.

(b) The rate per acre for tobacco diversion payments for a farm shall be the result obtained, less the rate for conserving payments for such farm, by multiplying the number of pounds representing the normal yield per acre of the specified type of tobacco for such farm, in the case of Burley tobacco by 5 cents; in the case of dark air-cured tobacco by 3½ cents; and in the case of cigar-leaf tobacco by 3 cents.

(c) The rate per acre for cotton diversion payments for a farm shall be the result obtained, less the rate for conserving payments for such farm, by multiplying the number of pounds representing the normal yield per acre of cotton for such farm by 5 cents.

(d) The rate per acre for conserving payments for a farm shall be the county rate per acre for conserving payments multiplied by the productivity index of crops in the general soil depleting base for such farm.

SECTION 2. *Share of Payments, Allowances, and Deductions.*—The share of any person in any payments, allowances, or deductions computed with respect to any farm shall be determined as follows:

(a) If the operator of a farm is the owner of such farm, and such farm is not operated with the aid of sharecroppers, such person's share of any payment, soil-building allowance, or deduction computed with respect to such farm shall be 100 percent.

(b) The share of the owner and of the operator of a share-rented farm, not a cotton or sharecropper farm, of any diversion payment, conserving payment, soil-building payment, soil-building allowance, or deduction computed with respect to such farm, shall be such person's share of the principal soil-depleting crop, or the proceeds thereof, under the lease or operating agreement relating to such farm. The term "principal soil-depleting crop", as used herein, means the soil-depleting crop, exclusive of sugar beets, to which the greatest number of acres on the farm is devoted. For the purpose of this Section 2, all small grains, or the proceeds thereof, which are divided in the same percentage shall be considered as one soil-depleting crop. If there is no soil-depleting crop, exclusive of sugar beets, which has a larger acreage than any other soil-depleting crop on the farm, the principal soil-depleting crop shall be the soil-depleting crop on the farm which is of major importance in terms of acreage in the county in which such farm is located. If no soil-depleting crop, exclusive of sugar beets, is planted on a share-rented farm in 1937, the share of the owner and of the operator of such farm of any diversion payment, conserving payment, soil-building payment, soil-building allowance, or deduction computed with respect to such farm shall be 50 percent.

(c) The share of the owner and operator of a share-rented farm, not operated with the aid of sharecroppers, of any sugar beet payment computed with respect to such farm, shall be such person's share of the sugar beets, or the proceeds thereof, under the lease or operating agreement relating to such farm.

(d) If a person is an owner, operator, or sharecropper with respect to a cotton farm, such person's share of any diversion payment computed with respect to such farm shall be determined as follows: 37½ percent to the person who furnished the land in such farm; 12½ percent to the person who furnished the workstock and equipment; 50 percent to be divided among the persons who are parties to the lease or operating agreement relating to such farm in the proportion in which such persons are entitled to share under such lease or operating agreement in the crops grown on such farm in 1937, or the proceeds thereof, with respect to which any diversion payment is made, provided, however, if on such farm no crop was planted in 1937 with respect to which a diversion payment is made, such person's share of such payment shall be his share specified in an agreement among the persons who are parties to the lease or operating agreement relating to such farm, which agreement is approved by the county committee, and if no such agreement is approved by the county committee, such payment shall be divided equally among the persons who are parties to the lease or operating agreement relating to such farm.

(e) If a person is an owner, operator, or sharecropper with respect to a sharecropper farm, the share of such person in any diversion or sugar beet payment made with respect to such farm shall be the proportion in which such person is entitled to share under the lease or operating agreement relating to such farm in the crops grown on such farm in 1937, or the proceeds thereof, with respect to which any such payments are made, provided, however, if on such farm no crop was planted in 1937 with respect to which any diversion payment is made, such person's share of such payment shall be his share specified in an agreement among the persons who are parties to the lease or operating agreement relating to such farm, which agreement is approved by the county committee, and if no such agreement is approved by the county committee, such payment shall be divided equally among the persons who are parties to the lease or operating agreement relating to such farm.

(f) If a person is an owner, operator, or sharecropper with respect to a cotton or sharecropper farm, such person's share of any conserving payment computed with respect to such farm shall be the percentage that the sum of all diversion payments computed for such person is of the sum of all diversion payments computed for such farm.

(g) If a person is an owner, operator, or sharecropper with respect to a cotton or a sharecropper farm, the total soil-building payment for such person with respect to such farm shall be the sum of the share of such person in the soil-building payment for each practice computed as follows: The soil-building payment for any practice shall be made to the person, determined by the county committee, who has incurred the expense in 1937 with respect to which the soil-building payment is to be made; where two or more persons are determined by the county committee to have incurred the expense in 1937 with respect to such practice, the soil-building payment for such practice shall be divided equally between such persons.

(h) The term "person's percentage" as used in this bulletin with reference to a person who is both the owner and operator of a farm, not operated with the aid of sharecroppers, and also as used with reference to any diversion, conserving, or soil-building payment, computed for such person with respect to such farm, or any deduction or soil-building allowance computed for such person with respect to such farm, shall mean the percentage determined for such person for such farm under subsection (a) of this Section 2. The term "person's percentage" as used in this bulletin with reference to a person who is an owner or operator of a share-rented farm, not a cotton or sharecropper farm, and also as used with reference to any diversion, conserving, or soil-building payment, computed for such person with respect to such farm, or any deduction or soil-building allowance computed for such person with respect to such farm, shall mean the percentage determined for such person for such farm under subsection (b) of this Section 2. The term "person's percentage" as used in this bulletin with reference to a person who is an owner, operator, or sharecropper with respect to a cotton farm or a sharecropper farm, and also as used with reference to a general, cotton, or specified type of tobacco diversion payment computed for such person with respect to such farm, shall mean: in the case of a cotton farm, the percentage determined for such person for such particular kind of diversion payment under subsection (d) of this Section 2, and in the case of a sharecropper farm, the percentage determined for such person for such particular kind of diversion payment under subsection (e) of this Section 2. The term "person's percentage" as used in this bulletin with reference to a person who is an owner, operator, or sharecropper with respect to a sharecropper farm, and also as used with reference to a sugar beet payment computed for such person with respect to such farm shall mean the percentage determined for such person for such payment under subsection (e) of this Section 2. The term "person's percentage" as used in this bulletin with reference to a person who is an owner, operator, or sharecropper with respect to a cotton farm or a sharecropper farm and also as used with reference to a conserving payment computed for such person with respect to such farm shall mean the percentage determined for such person for such payment under subsection (f) of this Section 2. The term "person's percentage" as used in this bulletin with reference to a person who is an owner, operator, or sharecropper with respect to a cotton farm or a sharecropper farm, and also as used with reference to any deduction computed for such person with respect to such farm, shall mean the percentage that the sum of all payments computed for such person with respect to such farm is of the sum of all payments computed for such farm. The term "person's percentage" as used in this bulletin with reference to a person who is an owner, operator, or sharecropper with respect to a cotton farm or a sharecropper farm, and also as used with reference to the soil-building allowance for such farm shall mean the percentage that the total soil-building payments computed for such person with respect to such farm is of the total soil-building payments computed with respect to such farm. If there is no payment computed for a person who is an owner, operator, or sharecropper with respect to a cotton or sharecropper farm, and there is a deduction computed with respect to such farm, such person's percentage with respect to such deduction for such farm shall be such person's percentage of the principal soil-depleting crop on such farm.

Any share of payments shall be computed and paid without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against any crop, or the proceeds thereof, in favor of the owner or any creditor. If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from any previous leasing or cropping arrangement for the farm, for the purpose of, or which would have the effect of, diverting to such person any payment to which any tenants or sharecroppers would be entitled if the previous leasing or cropping arrangement were in effect for 1937, the amount of any payment which would otherwise be made to such person may be withheld in whole or in part.

SECTION 3. *Diversion and Conserving Payments if a Person is an Owner, Operator, or Sharecropper with Respect to Only One Farm in a County.*—If a person is an owner, operator, or sharecropper with respect to only one diversion farm in a county, the amount of diversion and conserving payments which shall be made to such person in such county shall, subject to the provisions of Sections 10, 15, 17, and 18 of this Part IV, be computed as follows:

(a) General diversion payments shall be computed by multiplying the acreage by which the 1937 general acreage on such farm is less than the general soil-depleting base for such farm by the rate per acre for general diversion payments for such farm and multiplying this result by such person's percentage, provided, such payment shall not be in excess of such person's percentage of the maximum general diversion payment for such farm.

(b) Tobacco diversion payments for a specified type of tobacco shall be computed by multiplying the acreage by which the 1937 acreage of such type of tobacco on such farm is less than the soil-depleting base for such farm for such type of tobacco by the rate per acre for diversion payments for such farm for such type of tobacco and multiplying this result by such person's percentage, provided, such payment shall not be in excess of such person's percentage of the maximum diversion payment for such farm for such type of tobacco.

(c) Cotton diversion payments shall be computed by multiplying the acreage by which the 1937 cotton acreage on such farm is less than the cotton soil-depleting base for such farm by the rate per acre for cotton diversion payments for such farm and multiplying this result by such person's percentage, provided, such payment shall not be in excess of such person's percentage of the maximum cotton diversion payment for such farm.

(d) Conserving payments shall be computed by multiplying the sum of (1) the old conserving acreage on such farm in excess of the soil-conserving base for such farm, and (2) the new conserving acreage on such farm, by the rate per acre for conserving payments for such farm and multiplying this result by such person's percentage, provided, such payment shall not be in excess of such person's percentage of the maximum conserving payment for such farm.

SECTION 4. *Sugar Beet Payment.*—If a person is an owner, operator, or sharecropper with respect to only one farm in a county upon which sugar beets are planted in 1937, the amount of the sugar beet payment which shall be made to such person in such county shall, subject to the provisions of Sections 10, 15, 17 and 18 of this Part IV, be computed as follows: The sugar beet acreage allotment for such farm shall be multiplied by an amount per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for such farm and this result shall be multiplied by such person's percentage, *provided:*

(a) An acreage customarily used in a rotation with sugar beets on such farm in 1937 equal to at least 40 percent of the 1937 sugar beet acreage is classified as soil-conserving on such farm in 1937, or

(b) Both

(1) An acreage customarily used in a rotation with sugar beets on such farm in 1937 equal to at least 20 percent of the 1937 sugar beet acreage is classified as soil-conserving on such farm in 1937, and

(2) All the 1937 sugar beet acreage on such farm is on land not devoted to sugar beets in more than two of the years 1934, 1935, and 1936:

*Provided, further,* if the condition under subsection (a) of this Section 4 is not met and only one of the conditions under subsection (b) of this Section 4 is met, payment will be made to such person in an amount equal to one-half

the sugar beet payment which would be made to such person with respect to such farm if the condition under subsection (a) of this Section 4 was met, or if both the conditions under subsection (b) of this Section 4 were met.

If a person is an owner, operator, or sharecropper with respect to more than one farm in a county upon which farms sugar beets are planted in 1937, the total sugar beet payment to such person with respect to such farms shall, subject to the provisions of Sections 6, 7, 8, 11, 15, 17 and 18 of this Part IV, be the sum of the sugar beet payments computed for each such farm for such person as provided in this Section 4.

The acreage allotment for any farm with respect to which the sugar beet payment will be made will be the 1937 sugar beet acreage on such farm, unless the estimated acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the sugar beet acreage allotment for the farm shall be that percentage of the 1937 sugar beet acreage on such farm which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the estimated total acreage of sugar beets planted for harvest in the United States in 1937.

SECTION 5. *Rice Payment.*—If a person is an owner, operator, or sharecropper with respect to a farm on which rice is grown in 1937, payment will be made to such person in an amount determined in accordance with and subject to the provisions of the bulletins heretofore or which may hereafter be issued relating to the 1937 Agricultural Conservation Program in the North Central Region, and the provisions concerning rice contained in bulletins heretofore or which may hereafter be issued relating to the 1937 Agricultural Conservation Program in the Southern Region.

SECTION 6. *Total Amount of General Diversion Payments if a Person is an Owner, Operator, or Sharecropper with Respect to More than One Farm in a County.*—If a person is an owner, operator, or sharecropper with respect to more than one farm in a county, the total amount of general diversion payments to such person in such county shall, subject to the provisions of Sections 7, 8, 11, 15, 17 and 18 of this Part IV, be computed as follows:

(a) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, multiply the acreage by which the 1937 general acreage on such farm is less than the general soil-depleting base for such farm by the rate per acre for general diversion payments for such farm and multiply this result by such person's percentage.

(b) Add the amounts obtained under subsection (a) of this Section 6.

(c) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, multiply the acreage by which the 1937 general acreage on such farm is in excess of the general soil-depleting base for such farm by the rate per acre for general diversion payments for such farm and multiply this result by such person's percentage.

(d) Add the amounts obtained under subsection (c) of this Section 6.

(e) For each diversion farm in the county with respect to which such person is an owner, operator, or sharecropper, multiply the maximum general diversion payment for such farm by such person's percentage.

(f) Add the amounts obtained under subsection (e) of this Section 6.

(g) If the amount obtained under subsection (d) of this Section 6 exceeds the amount obtained under subsection (b) of this Section 6, a deduction in the amount of such excess shall be made from any payments which otherwise would be made to such person with respect to any farms in such county with respect to which such person is an owner, operator, or sharecropper.

(h) The total general diversion payments which shall be made to such person with respect to such farms shall be the amount obtained by subtracting the amount obtained under subsection (d) of this Section 6 from the amount obtained under subsection (b) of this Section 6, or the amount obtained under subsection (e) of this Section 6, whichever is less.

SECTION 7. *Total Amount of Tobacco Diversion Payments if a Person is an Owner, Operator, or Sharecropper with Respect to More Than One Farm in a County.*—If a person is an owner, operator, or sharecropper with respect to more than one farm in a county, the total amount of diversion for a specified type of tobacco payments to such person in such county shall, subject to the provisions of Sections 6, 8, 11, 15, 17 and 18 of this Part IV, be computed as follows:

(a) For each farm in such county with respect to which such person is an owner, operator, or sharecropper, multiply the acreage by which the 1937 acreage of such type of tobacco on such farm is less than the soil-depleting base for such farm for such type of tobacco by the rate per acre for diversion payments for such farm for such type of tobacco and multiply this result by such person's percentage.

(b) Add the amounts obtained under subsection (a) of this Section 7.

(c) For each farm in such county with respect to which such person is an owner, operator, or sharecropper, multiply the acreage by which the 1937 acreage of such type of tobacco on such farm is in excess of the soil-depleting base for such farm for such type of tobacco by the rate per acre for diversion payments for such farm for such type of tobacco and multiply this result by such person's percentage.

(d) Add the amounts obtained under subsection (c) of this Section 7.

(e) For each farm in the county with respect to which such person is an owner, operator, or sharecropper, multiply the maximum diversion payment for such farm for such type of tobacco and multiply this result by such person's percentage.

(f) Add the amounts obtained under subsection (e) of this Section 7.

(g) If the amount obtained under subsection (d) of this Section 7 exceeds the amount obtained under subsection (b) of this Section 7, a deduction in the amount of such excess shall be made from any payments which otherwise would be made to such person with respect to any farms in such county with respect to which such person is an owner, operator, or sharecropper.

(h) The total diversion payments for such type of tobacco which shall be made to such person with respect to such farms shall be the amount obtained by subtracting the amount obtained under subsection (d) of this Section 7 from the amount obtained under subsection (b) of this Section 7, or the amount obtained under subsection (e) of this Section 7, whichever is less.

SECTION 8. *Total Amount of Cotton Diversion Payments if a Person is an Owner, Operator, or Sharecropper with Respect to More Than One Farm in a County.*—If a person is an owner, operator, or sharecropper with respect to more than one farm in a county, the total amount of cotton diversion payments to such person in such county shall, subject to the provisions of Sections 6, 7, 11, 15, 17, and 18 of this Part IV, be computed as follows:

(a) For each farm in such county with respect to which such person is an owner, operator, or sharecropper, multiply the acreage by which the 1937 cotton acreage on such farm is less than the cotton soil-depleting base for such farm by the rate per acre for cotton diversion payments for such farm and multiply this result by such person's percentage.

(b) Add the amounts obtained under subsection (a) of this Section 8.

(c) For each farm in such county with respect to which such person is an owner, operator, or sharecropper, multiply the acreage by which the 1937 cotton acreage on such farm is in excess of the cotton soil-depleting base for such farm by the rate per acre for cotton diversion payments for such farm and multiply this result by such person's percentage.

(d) Add the amounts obtained under subsection (c) of this Section 8.

(e) For each farm in the county with respect to which such person is an owner, operator, or sharecropper, multiply the maximum cotton diversion payment for such farm and multiply this result by such person's percentage.

(f) Add the amounts obtained under subsection (e) of this Section 8.

(g) If the amount obtained under subsection (d) of this Section 8 exceeds the amount obtained under subsection (b) of this Section 8, a deduction in the amount of such excess shall be made from any payments which otherwise would be made to such person with respect to any farms in such county with respect to which such person is an owner, operator, or sharecropper.

(h) The total cotton diversion payments which shall be made to such person with respect to such farms shall be the amount obtained by subtracting the amount obtained under subsection (d) of this Section 8 from the amount obtained under subsection (b) of this Section 8, or the amount obtained under subsection (e) of this Section 8, whichever is less.

SECTION 9. *Total Amount of Conserving Payments if a Person is an Owner, Operator, or Sharecropper with Respect to More Than One Farm in a County.*—If a person is an owner, operator, or sharecropper with respect to more than one farm in a county, the total amount of conserving payments to such person in such county shall, subject to the provisions of Sections 6, 7, 8, 11, 15, 17, and 18 of this Part IV, be computed as follows:

(a) For each diversion farm in such county, not also a dryland farm with respect to which such person is an owner, operator, or sharecropper, obtain the sum of (1) the old conserving acreage on such farm in excess of the soil-conserving base for such farm, and (2) the new conserving acreage on such farm.

(b) For each diversion farm in such county, not also a dryland farm, with respect to which such person is an owner, operator, or sharecropper, and upon which the total soil-depleting base for such farm exceeds the total acreage on such farm classified as soil-depleting in 1937, determine the amount of such excess.

(c) For each farm for which an acreage was obtained under subsection (b) of this Section 9, determine which one of the acreages obtained for such farm under subsections (a) and (b) of this Section 9 is the smaller and multiply the smaller by the rate per acre for conserving payments for such farm and multiply this result by such person's percentage.

(d) Add the amounts obtained under subsection (c) of this Section 9.

(e) For each diversion farm in such county, not also a dryland farm, with respect to which such person is an owner, operator, or sharecropper, and upon which the total soil-depleting base for such farm is greater than the total acreage on such farm classified as soil-depleting in 1937, multiply such difference by the rate per acre for conserving payments for such farm and multiply this result by such person's percentage.

(f) Add the amounts obtained under subsection (e) of this Section 9.

(g) For each diversion farm in such county, not also a dryland farm, with respect to which such person is an owner, operator, or sharecropper, and upon which the total acreage on such farm classified as soil-depleting in 1937 is greater than the total soil-depleting base for such farm, multiply such difference by the rate per acre for conserving payments for such farm and multiply this result by such person's percentage.

(h) Add the amounts obtained under subsection (g) of this Section 9.

(i) Subtract the amount obtained under subsection (h) of this Section 9 from the amount obtained under subsection (f) of this Section 9.

(j) For each diversion farm in the county, not also a dryland farm, with respect to which such person is an owner, operator, or sharecropper, multiply the sum of 15 percent of the general soil-depleting base, 25 percent of the Burley tobacco soil-depleting base, 25 percent of the cigar-leaf tobacco soil-depleting base, 30 percent of the dark air-cured tobacco soil-depleting base, and 35 percent of the cotton soil-depleting base by the rate per acre for conserving payments for such farm and multiply this result by such person's percentage.

(k) Add the amounts obtained under subsection (j) of this Section 9.

(l) Whichever of the amounts obtained under subsections (d), (i), and (k) of this Section 9 is the smallest shall be the total conserving payment which shall be made to such person with respect to such farms.

SECTION 10. *Deductions if a Person is an Owner, Operator, or Sharecropper with Respect to Only One Farm in a County.*—If a person is an owner, operator, or sharecropper with respect to only one farm in a county, a deduction will be made from any payment which otherwise would be made to such person with respect to such farm under the following conditions and in the following amounts:

(a) If such farm is a diversion farm and if the 1937 general acreage on such farm exceeds the general soil-depleting base for such farm, the amount of deduction for such person for such excess shall be computed by multiplying such number of excess acres by the rate per acre for general diversion payments for such farm and multiplying this result by such person's percentage.

(b) If such farm is a diversion farm and if the 1937 corn acreage on such farm exceeds the corn limit for such farm, the amount of deduction for such person for such excess shall be computed by multiplying such number of excess acres by the rate per acre for general diversion payments for such farm and multiplying this result by such person's percentage.

(c) If the 1937 acreage of a specified type of tobacco on such farm exceeds the soil-depleting base for such type of tobacco for such farm, the amount of deduction for such person for such excess shall be computed by multiplying such number of excess acres by the rate per acre for diversion payments for such farm for such type of tobacco and multiplying this result by such person's percentage.

(d) If the 1937 acreage of cotton on such farm exceeds the cotton soil-depleting base for such farm, the amount of deduction for such person for such excess shall be computed by multiplying such number of excess acres by the rate per acre for cotton diversion payments for such farm and multiplying this result by such person's percentage.

(e) If such farm is a nondiversion farm and if the 1937 general acreage on such farm is in excess of twenty acres, the amount of deduction for such person for such excess shall be computed by multiplying such number of excess acres by the rate per acre for general diversion payments which would be determined for such farm if it were a diversion farm and multiplying this result by such person's percentage.

(f) If such farm is a nondiversion farm in Area "A", and if the 1937 corn acreage on such farm is in excess of twenty acres, the amount of deduction for such person for such excess shall be computed by multiplying such number of excess acres by the rate per acre for general diversion payments which would be determined for such farm if it were a diversion farm and multiplying this result by such person's percentage.

If a person is an owner, operator, or sharecropper with respect to more than one nondiversion farm in a county, upon which the 1937 general acreage is in excess of twenty acres, the deduction for such person for each such farm shall be computed as set forth under subsection (e) of this Section 10. If a person is an owner, operator, or sharecropper with respect to more than one nondiversion farm in a county in Area "A", upon which the 1937 corn acreage is in excess of twenty acres, the deduction for such person for each such farm shall be computed as set forth under subsection (f) of this Section 10.

SECTION 11. *Deduction for Excess Corn Acreage on Diversion Farms in Area "A" if a Person is an Owner, Operator,*

*or Sharecropper With Respect to More Than One Diversion Farm in a County in Area "A".*—If a person is an owner, operator, or sharecropper with respect to more than one diversion farm in a county in Area "A", and if the result obtained by:

(a) Multiplying for each diversion farm in Area "A" with respect to which such person is an owner, operator, or sharecropper, the 1937 corn acreage on such farm by the rate per acre for general diversion payments for such farm and multiplying this result by such person's percentage;

(b) Adding the amounts obtained under subsection (a) of this Section 11;

exceeds the amount obtained by:

(c) Multiplying for each diversion farm in Area "A" with respect to which such person is an owner, operator, or sharecropper, the corn limit for such farm by the rate per acre for general diversion payments for such farm and multiplying the result by such person's percentage;

(d) Adding the amounts obtained under subsection (c) of this Section 11;

a deduction will be made from any payments which otherwise would be made to such person with respect to any farms in such county with respect to which such person is an owner, operator, or sharecropper in the amount of such excess.

SECTION 12. *Soil-Building Allowance:* The soil-building allowance for a person in a county shall be computed as follows:

(a) If such person is an owner, operator, or sharecropper with respect to only one farm in such county, which farm is a diversion farm and not also a dryland farm, the soil-building allowance for such person in such county shall be such person's percentage of the sum of the amounts obtained for such farm under items (1) to (6), inclusive, of this subsection (a), unless such sum is less than $10.00, in which event the soil-building allowance for such person in such county shall be such person's percentage of $10.00.

(1) $1.00 for each acre in the soil-conserving base established for such farm.

(2) $1.00 for each acre for which diversion payments are made with respect to such farm.

(3) $1.90 for each acre in commercial orchards on such farm.

(4) $1.00 for each acre of cropland on such farm on which only one crop of commercial vegetables was grown in 1936.

(5) $2.00 for each acre of cropland on such farm on which more than one crop of commercial vegetables was grown in 1936.

(6) $0.50 for each animal unit in excess of five which the noncrop plowable pasture on such farm will carry during the normal pasture season.

(b) If such person is an owner, operator, or sharecropper with respect to only one farm in such county, which farm is a diversion farm and also a dryland farm, the soil-building allowance for such person in such county shall be such person's percentage of the sum of the amounts obtained for such farm under items (1) to (7), inclusive, of this subsection (b), unless such sum is less than $10.00, in which event the soil-building allowance for such person in such county shall be such person's percentage of $10.00.

(1) $1.00 for each acre classified as soil-conserving on such farm in 1937 not in excess of the soil-conserving base for such farm.

(2) Two-thirds of the rate per acre for general diversion payments for such farm for each acre for which diversion payments are made with respect to such farm.

(3) $1.90 for each acre in commercial orchards on such farm.

(4) $1.00 for each acre of cropland on such farm on which only one crop of commercial vegetables was grown in 1936.

(5) $2.00 for each acre of cropland on such farm on which more than one crop of commercial vegetables was grown in 1936.

(6) $0.50 for each animal unit in excess of five which the noncrop plowable pasture on such farm will carry during the normal pasture season.

(7) $0.25 for each acre of noncropland plowed at least once between January 1, 1930, and December 31, 1936, provided, (1) such noncropland is part of a farm for which a soil-depleting base has been estabished and is operated by the operator of such farm; (2) both the operator and the owner have designated such acreage and have stated in writing their intention to restore such acreage to grass; (3) written approval has been obtained in advance from the county committee; (4) such land is not pastured or tilled in 1937 and no crop is harvested therefrom.

(c) If such person is an owner, operator, or sharecropper with respect to only one farm in such county, which farm is a nondiversion farm, the soil-building allowance for such person in such county shall be such person's percentage of the sum of the amounts obtained for such farm under items (1) to (5), inclusive, of this subsection (c), unless such sum is less than $20.00, in which event the soil-building allowance for such person in such county shall be such person's percentage of $20.00.

(1) $0.90 for each acre of cropland on such farm.

(2) $1.00 for each acre in commercial orchards on such farm.

(3) $1.00 for each acre of cropland on such farm on which only one crop of commercial vegetables was grown in 1936.

(4) $2.00 for each acre of cropland on such farm on which more than one crop of commercial vegetables was grown in 1936.

(5) $0.50 for each animal unit in excess of five which the noncrop plowable pasture on such farm will carry during the normal pasture season.

(d) If such person is an owner, operator, or sharecropper with respect to more than one farm in a county, the soil-building allowance for such person in such county shall be the sum of the amounts obtained for such farms under items (2), (4), (6), (14), and (22) of this subsection (d), unless such sum is less than $10.00, in which event, the soil-building allowance for such person in such county shall be $10.00.

(1) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, and which farm is not also a dryland farm, multiply the sum of items (1), (3), (4), (5), and (6) of subsection (a) of this Section 12 by such person's percentage for such farm.

(2) Add the amounts obtained under item (1) of this subsection (d).

(3) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, and which farm is also a dryland farm, multiply the sum of items (1), (3), (4), (5), (6), and (7) of subsection (b) of this Section 12 by such person's percentage for such farm.

(4) Add the amounts obtained under item (3) of this subsection (d).

(5) For each nondiversion farm in such county with respect to which such person is an owner, operator, or sharecropper, multiply the sum of items (1) to (5), inclusive, of subsection (c) of this Section 12 by such person's percentage for such farm.

(6) Add the amounts obtained under item (5) of this subsection (d).

(7) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, and which farm is not also a dryland farm, and upon which farm the total soil-depleting base for such farm is greater than the total acreage on such farm classified as soil-depleting, multiply such difference by such person's percentage.

(8) Add the acreages obtained under item (7) of this subsection (d).

(9) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper and which farm is not also a dryland farm upon which the total acreage on such farm classified as soil-depleting in 1937 is greater than the total soil-depleting base for such farm, multiply such difference by such person's percentage.

(10) Add the acreages obtained under item (9) of this subsection (d).

(11) Subtract the acreages obtained under item (10) of this subsection (d) from the acreages obtained under item (8) of this subsection (d) and multiply such difference by $1.00.

(12) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, and which farm is not a dryland farm, multiply the sum of 15 percent of the general soil-depleting base, 25 percent of the Burley tobacco soil-depleting base, 25 percent of the cigar-leaf tobacco soil-depleting base, 30 percent of the dark air-cured tobacco soil-depleting base, and 35 percent of the cotton soil-depleting base by $1.00 and multiply this result by such person's percentage.

(13) Add the amounts obtained under item (12) of this subsection (d).

(14) Of the amounts obtained under items (11) and (13) of this subsection (d), determine which one is the smaller.

(15) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, and which farm is also a dryland farm, and upon which farm the total soil-depleting base for such farm is greater than the total acreage on such farm classified as soil-depleting in 1937, multiply such difference by two-thirds of the rate for general diversion payments for such farm and multiply this result by such person's percentage.

(16) Add the amounts obtained under item (15) of this subsection (d).

(17) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, and which farm is also a dryland farm and upon which farm the total acreage on such farm classified as soil-depleting in 1937 is greater than the total soil-depleting base for such farm, multiply such difference by two-thirds of the rate per acre for general diversion payments for such farm and multiply this result by such person's percentage.

(18) Add the amounts obtained under item (17) of this subsection (d).

(19) Subtract the amount obtained under item (18) of this subsection (d) from the amount obtained under item (16) of this subsection (d).

(20) For each diversion farm in such county with respect to which such person is an owner, operator, or sharecropper, and which farm is also a dryland farm, multiply 15 percent of the general soil-depleting base for such farm by two-thirds of the rate per acre for general diversion payments for such farm and multiply this result by such person's percentage.

(21) Add the amounts obtained under item (20) of this subsection (d).

(22) Of the amounts obtained under items (19) and (21) of this subsection (d), determine which one is the smaller.

SECTION 13. *Soil-Building Payments.*—Soil-building payments will be made to a person who is an owner, operator, or sharecropper with respect to a farm or farms in a county, not in excess of such person's soil-building allowance for such farm or farms, for the carrying out on such farm or farms any of the applicable soil-building practices set forth in this Section 13.

To be eligible for soil-building payments, the practices listed herein must be carried out by such methods and using such materials and with such kinds and quantities of adapted seed and trees as conform with good farming practice. No soil-building payment will be made with respect to any farm for the seeding of red clover or any mixtures containing red clover unless all seedings of red clover and any mixtures containing red clover on such farm in 1937 are made with adapted red clover seed, nor will any soil-building payment be made with respect to any farm for the seeding of alfalfa or any mixtures containing alfalfa unless all seedings of alfalfa and any mixtures containing alfalfa on such farm in 1937 are made with adapted alfalfa seed. All practices for which payment is to be made must have been completed prior to November 1, 1937. Proof of performance for any practice shall consist of satisfactory evidence that the practice was completed in accordance with the conditions specified. A soil-building payment for any practice hereinafter set forth will not be made with respect to any acreage on the farm for which all or any portion of the labor, seed, or materials used for any practice is furnished free or paid for by any State or Federal agency, except that in the case of the soil-building practices designated under subsection (c), (g), and (o) hereof, payment will be made at the stipulated rates on an acreage or quantity, which bears the same proportion to the total acreage or quantity with respect to such practice as the quantity of materials used, or the value of the labor and materials furnished, by the owner, operator, or sharecropper bears to the total quantity of materials or the total value of labor and materials used in carrying out such practice.

Where several soil-building practices are adopted on the same acreage, payment will not be made for (1) more than one of the practices listed in subsections (k), (l), and (m) of this Section 13; (2) both a practice listed under either subsection (k), (l), and (m) of this Section 13 and a practice listed under either subsection (a) and (b) of this Section 13; and (3) more than one practice twice or any two of the thirteen soil-building practices listed in subsections (a), (b), (w), (x), (y), and (z) of this Section 13.

Except as otherwise provided, the soil-building practices listed in subsections (a) to (j), inclusive, will be applicable to all farms; the soil-building practices listed in subsections (k) to (r), inclusive, will be applicable only to dryland farms; the soil building practices listed in subsections (s) to (z), inclusive, will be applicable only to orchards, and the practices listed in subsections (v) and (w) will be applicable only to cropland used for the growing of commercial vegetables.

For dryland farms, all rates of payment in subsections (a) and (b) of this Section 13 shall be increased by $1.50 if the rate is $2.00 or more, and by $1.00 if the rate is less than $2.00, if on the date as of which final inspection of the farm is made for the purpose of determining performance, there is a good stand which, with the exception of the crops listed in item (4) of Section 2 (a) of Part III, would normally survive the winter 1937–38, of the crops to which such rates are applicable, and no crop is harvested for grain or hay on such acreage in 1937.

Soil-building practices listed in this Section 13 relating to commercial orchards are applicable only to the acreage upon which such practice is carried out.

*Practices Applicable to All Farms.*—(a) *Seedings of adapted legumes.*—Seedings of adapted seed of any of the following legumes on farmland:

(1) Alfalfa—$2.50 per acre.

(2) Red clover, sericea, and white clover—$2.00 per acre.

(3) Alsike clover, mammoth clover, and lespedeza—$1.50 per acre.

(4) Legume mixtures or mixtures of legumes and perennial grasses listed under subsection (b) hereof, which contain 50 percent or more of alsike clover, mammoth clover, lespedeza, alfalfa, red clover, sericea, and white clover, or more than one of these legumes—$1.50 per acre.

(5) Biennial sweet clover, annual sweet clover, vetch, crotalaria, and crimson clover—$1.00 per acre.

(6) Legume mixtures or mixtures of legumes and the perennial grasses listed under subsection (b) hereof, which contain 50 percent or more of biennial sweet clover, an-

nual sweet clover, vetch, crimson clover, alfalfa, red clover, sericea, white clover, alsike clover, mammoth clover, and lespedeza, or more than one of these legumes—$1.00 per acre.

(b) *Seedings of Adapted Perennial grasses.*—Seedings of adapted seed of any of the following grasses on farmland:

(1) Bluegrass, bromegrass, crested wheat grass, slender wheat grass, and western wheat grass—$2.00 per acre.

(2) Orchard grass and permanent pasture of grasses or grasses and legumes containing at least 50 percent of any of the grasses listed in item (1) of this subsection—$1.50 per acre.

(3) Timothy, redtop, reed canary grass, and permanent pasture mixtures of grasses or grasses and legume mixtures containing at least 50 percent of bromegrass, orchard grass, redtop, reed canary grass, timothy, bluegrass, crested wheat grass, slender wheat grass, and western wheat grass, or more than one of these grasses—$1.00 per acre.

(c) *Limestone.*—Except as otherwise provided in items (2) and (3) of this subsection (c), application on cropland or noncrop pasture land of ground limestone or its equivalent:

(1) Application of ground limestone or its equivalent—$1.25 per ton. (The ground limestone should not be coarser than that obtained by grinding calcareous or dolomitic limestone so that not less than 90 percent with all finer particles obtained in the grinding process included, will pass through a ten-mesh sieve. It must contain calcium and magnesium carbonates equivalent to not less than 80 percent of calcium carbonate. The following quantities of other calcareous substances are equivalent to one ton of ground limestone in the following designated States: 1400 lbs. of hydrated lime or 2 cubic yards of marl, in the entire North Central Region; 2 cubic yards of sugar beet refuse lime in Indiana, Iowa, Michigan, Minnesota, Nebraska, Ohio, and Wisconsin; 2 cubic yards of calcium carbide refuse lime in Indiana, Iowa, Michigan, and Wisconsin; 2 cubic yards of paper mill refuse lime in Michigan, Minnesota, and Wisconsin; 2 cubic yards of water softening process refuse lime in Illinois and Iowa; 2 cubic yards of commercial wood ashes in Michigan and Wisconsin; ½ ton of commercial burnt lime and 4 cubic yards of calcareous clay in Wisconsin; one ton of burnt lime waste in Iowa and Wisconsin; 1 ton of agricultural limestone meal, 1500 lbs. of agricultural ground limestone, or 2,750 lbs. of limestone screenings, in Ohio and Wisconsin; 1400 lbs. of pulverized limestone in Ohio and Wisconsin; 3 tons of tailings from zinc mines, in Wisconsin.)

(2) A minimum of 500 lbs. per acre of finely ground limestone on cropland when drilled in with seedings of legumes—$1.00 per acre.

(3) A minimum of 1,000 lbs. per acre of finely ground limestone on noncrop pasture land—$2.00 per acre. (The finely ground limestone designated in items (2) and (3) of this subsection (c) should not be coarser than that obtained by grinding calcareous or dolomitic limestone so that not less than 90 percent, with all finer particles obtained in the grinding process included, will pass through a 30-mesh sieve. It must contain calcium and magnesium carbonates, equivalent to not less than 80 percent of calcium carbonate.)

(d) *Phosphates.*—Application of the following minimum amounts of phosphate materials per acre on noncrop pasture or on cropland, used in 1937 for the growing of a crop, specified in Section 2 of Part III, and on which noncrop pasture or cropland in connection with such application, none of the crops listed in Section 1 (a) of Part III and none of the crops listed in items (1) and (2) of Section 1 (b) of Part III are planted in 1937.

(1) 200 pounds of 16 percent superphosphate or its equivalent—$1.20 per acre.

(2) 300 pounds of 16 percent superphosphate or its equivalent—$1.80 per acre. The 16 percent superphosphate, designated in items (1) and (2) of this subsection (d) shall contain 16 percent by weight of available phosphoric acid. Other phosphates may be substituted for 16 percent superphosphate, provided that the quantity of such substitute applied shall contain not less than the quantity by weight of available phosphoric acid contained in the specified quantity of 16 percent superphosphate.)

(3) 500 pounds of rock phosphate or basic slag—$1.80 per acre.

(e) *Potash.*—Application of the following minimum amounts of 50 percent muriate of potash per acre on noncrop pasture or on cropland used in 1937 for the growing of a crop specified in Section 2 of Part II and on which noncrop pasture or cropland in connection with such application, none of the crops listed in Section 1 (a) of Part III and none of the crops listed in items (1) and (2) of Section 1 (b) of Part III are planted in 1937.

(1) 100 pounds of 50 percent muriate of potash or its equivalent—$1.00 per acre. (50 percent muriate of potash shall contain not less than 50 percent by weight of water soluble potash. Other materials containing potash may be substituted for 50 percent muriate of potash, provided, that the quantity of such substitute applied shall contain not less than the quantity by weight of water soluble potash contained in 100 pounds of 50 percent muriate of potash.)

(f) *Gypsum.*—Applicable only to Beltrami, Hubbard, Lake of the Woods, Cass, and Clearwater counties of Minnesota. Application of the following minimum amount of gypsum per acre on cropland used in 1937 for the growing of a crop, specified in Section 2 of Part III, and on which cropland in connection with such application none of the crops listed in Section 1 (a) of Part III and none of the crops listed in items (1) and (2) of Section 1 (b) of Part III are planted in 1937.

(1) 200 pounds of gypsum—$1.25 per acre.

(g) *Planting and Protection of Trees.*—Planting and protection of forest trees and trees for windbreak or shelterbelt purposes in accordance with good tree culture practice—$7.50 per acre. This subsection (g) is not applicable to dryland farms.

(h) *Improving a Stand of Forest Trees.*—Improving a stand of forest trees by cutting weed trees and thinning or pruning other trees so as to leave at least 100 potential timber trees of desirable species per acre with a minimum diameter of 6 inches each, or at least 200 potential timber trees of desirable species per acre with a minimum diameter of 2 inches, well distributed over each acre of woodland—$2.50 per acre, provided, (1) The county committee after inspection has approved and designated in writing the area on which such practice is to be carried out, and (2) such area is not grazed and is adequately protected against fire.

(i) *Terracing.*—Terracing in 1937 in accordance with good terracing practices—$0.40 per hundred feet. Provided: The county committee after inspection has approved and designated in writing the area on which such practices is to be carried out.

(j) *Restoration of Noncrop Plowable Pasture.*—Restoration by nongrazing for the entire season of noncrop plowable pasture, which requires not more than 10 acres to carry one animal unit for the entire season—$0.40 per acre, provided, (1) the county committee after inspection has approved and designated in writing the area on which such practice is to be carried out, and (2) no hay or seed is harvested from such pasture land, (3) such pasture land is not tilled for any purpose other than to improve the stand of pasture grasses and legumes thereon, and (4) if there is extensive growth of noxious weeds on such pasture, the maturing of seed of such weeds is prevented by clipping such pasture.

*Practices Applicable Only to Dryland Farms.*—(k) *Protected Strip Fallow.*—$2.00 per acre in fallow, provided, (1) the first tillage operation is completed before May 15, 1937, if such farm is in Nebraska and the first tillage operation is completed before June 1, 1937, if such farm is in South Dakota, (2) tillage operations are carried out in such a manner as will tend to prevent weed growth, wind erosion, and water erosion, (3) the slope on the land to be fallowed is not in excess of eight percent, (4) the land on which the slope is in excess of three percent is listed on the contour, (5) the fallow is in alternate strips with small grain crops, sorghum, Sudan grass, or millet, all close drilled or broadcast, of approximately the same width, not less than 3 rods and not more than 20 rods in width, running at right angles to the prevailing winds or running on the contour, (6) the stubble is left on the strips devoted to crops in such a manner as will tend to prevent wind erosion.

(l) *Protected Summer Fallow and Basin Listing.*—$2.00 per acre in fallow, provided, (1) basin listing is practical to preserve moisture and will tend to prevent water erosion, (2) the first tillage operation is completed before May 15, 1937, if such farm is in Nebraska, and the first tillage operation is completed before June 1, 1937, if such farm is in South Dakota, (3) tillage operations are carried out in such a manner as will tend to prevent weed growth, wind erosion, and water erosion, (4) the slope on the land to be fallowed and basin listed is not in excess of eight percent, (5) land on which the slope is in excess of three percent is listed on the contour, (6) adjoining furrows, not less than 8 inches in width and not less than 4 inches in depth are constructed, maintained, and dammed at intervals of not more than twenty feet, (7) the land is seeded in the fall to a cover crop or lister ridges are left over the winter to prevent wind erosion.

(m) *Protected Summer Fallow.*—$1.50 per acre in fallow, provided, (1) block fallow is practical on the land fallowed, (2) the first tillage operation is completed before May 15, 1937, if such farm is in Nebraska, and the first tillage operation is completed before June 1, 1937, if such farm is in South Dakota, (3) tillage operations are carried out in such a manner as will tend to prevent weed growth, wind erosion, and water erosion, (4) the slope on the land to be fallowed is not in excess of eight percent, (5) the land on which the slope is in excess of three percent is listed on the contour, (6) the land is seeded in the fall to a cover crop, or lister ridges are left over the winter to prevent wind erosion.

(n) *Strip Cropping.*—Growing in 1937 of small grain crops, sorghum, Sudan grass, or millet, all close drilled or broadcast, and row crops in alternate strips, such strips to be approximately the same width, not less than 3 rods and not more than 20 rods in width, running at right angles to the prevailing winds, or running on the contour—$0.40 per acre for the acreage in the strips, provided, the stubble is left on the land in such a manner as will tend to prevent wind erosion.

(o) *Planting and Protection of Trees.*—Planting and protection of forest trees or trees for windbreak or shelterbelt purposes in accordance with good tree culture practice—$10.00 per acre.

(p) *Cultivating and Maintaining a Stand of Trees.*—Cultivating, protecting, and maintaining, by replanting, if necessary, a full stand of at least 500 trees per acre of forest plantings or 200 trees per acre of windbreak or shelterbelt plantings planted on cropland or noncropland between January 1, 1934, and October 31, 1936, inclusive—$4.00 per acre.

(q) *Contour Furrows on Permanent Pasture Land.*—Construction of contour furrows on permanent farm pasture land, except permanent farm pasture land that is sufficiently sandy and porous to absorb normal precipitation—$0.50 per acre for the area contour furrowed, provided, (1) the contour furrows are constructed on the contour level, not less than 8 inches in width and 4 inches in depth and are dammed at intervals of not more than 100 feet, (2) on slopes of three percent or less the furrows are not more than 25 feet apart, on slopes of eight percent the furrows are not more than 10 feet apart, and on slopes varying from three to eight percent, the furrows are not more apart than that part of 25 feet which the percentage of the slope is of eight percent, (3) payment will not be made for contour furrows on permanent pasture land with slopes in excess of eight percent.

(r) *Restoration to Native Grass of Noncropland.*—Restoration to native grass of noncropland plowed at least once between January 1, 1930, and December 31, 1933, inclusive, which in accordance with good farming practices should be permanently devoted to grass—$0.25 per acre, provided, (1) the operator or owner has designated the acreage and has stated in writing his intention to let such acreage revert to grass, (2) written approval has been obtained from the county committee, and (3) such land is not pastured or tilled in 1937 and no crop is harvested therefrom.

*Practices Applicable Only to Land in Commercial Orchards.*—(s) *Incorporation of Winter Cover Crops.*—Incorporation into the soil by plowing or discing before June 30, 1937, of a good vegetative growth of winter oats, winter rye, or winter barley seeded in the fall of 1936—$1.00 per acre, provided, such crops has attained at least sixty days' growth in 1937 and is not pastured or harvested for grain or hay.

(t) *Seeding of Winter Cover Crops.*—Seeding after May 1, 1937 of rye, oats, barley, buckwheat, Sudan grass, millet, or mixtures of any of these—$1.00 per acre, provided, (1) a good vegetative growth of any of such crops is on the land on the date as of which final inspection of the farm is made for the purpose of determining performance, and (2) such crop is not pastured or otherwise taken from the land.

(u) *Seeding Soybeans and Cowpeas.*—Seeding after May 1, 1937 of soybeans or cowpeas at the normal rate—$2.00 per acre, provided, (1) such crop is not pastured or otherwise taken from the land, (2) if such crop is not incorporated into the soil, it has attained at least 60 days' growth prior to November 1, 1937, and (3) if such crop is incorporated into the soil, it was incorporated prior to November 1, 1937 and after having at least 60 days' growth, and where such land is subject to erosion, it is followed by a winter cover crop.

(v) Mulching.—Application of mulching materials.—$1.00 per ton (air-dry weight), provided, (1) payment will not be made for any application of mulching materials less than three tons nor more than five tons, and (2) all materials produced on such land from interplanted crops are left thereon.

*Practices Applicable Only to Cropland Used for Growing Commercial Vegetables.*—(w) *Nonleguminous Green Manure Crop on Vegetable Land.*—Incorporation into the soil as green manure by plowing or discing of the entire vegetative growth of rye, oats, barley, buckwheat, annual grasses, mixtures of these, or corn sown broadcast, grown on land used for the production of vegetable crops in 1935 and 1936—$1.00 per acre, provided, (1) such green manure crop has attained at least 60 days' growth, and (2) a good vegetative growth of such crop is incorporated into the soil.

(x) *Leguminous Green Manure Crop on Vegetable Land.*—Incorporation into the soil as green manure by plowing or discing of the entire vegetative growth of a legume, or mixture of legumes grown on land used for the production of vegetable crops in 1935 and 1936—$2.00 per acre, provided, (1) such green manure crop has attained at least 60 days' growth, and (2) a good vegetative growth of such crop is incorporated into the soil.

(y) *Nonleguminous Green Manure Crop on Vegetable Land.*—Incorporation into the soil as green manure by plowing or discing of the entire vegetative growth of rye, oats, barley, buckwheat, annual grasses, mixtures of these, or corn sown broadcast, grown on land used for the production of vegetable crops in 1935 and 1936—$2.00 per acre, provided, (1) such green manure crop has attained at least 60 days' growth, (2) a good vegetative growth of such crop was incorporated into the soil, and (3) at least one less soil-depleting crop is grown on such land in 1937 than the 1935–1936 annual average number of soil-depleting crops grown on such land.

(z) *Leguminous Green Manure Crop on Vegetable Land.*—Incorporation into the soil as green manure by plowing or discing of a good and the entire vegetative growth of a legume, or mixture of legumes grown on land used for the production of vegetable crops in 1935 and 1936—$4.00 per acre, provided, (1) such green manure crop has attained at least 60 days' growth, (2) a good vegetative growth of such crop was incorporated into the soil, and (3) at least one less soil-depleting crop is grown on such land in 1937 than the 1935–1936 annual average number of soil-depleting crops grown on such land.

SECTION 14. *Total Amount of Soil-Building Payment if a Person is an Owner, Operator, or Sharecropper with Respect to More Than One Farm in a County.*—If a person is an owner, operator, sharecropper with respect to more than one farm in a county, the total amount of soil-building payments to such person with respect to farms owned or operated in such county by such person shall, subject to the provisions of Sections 6, 7, 8, 11, 15, 17, and 18 of this Part IV, be computed as follows:

(a) For each farm in such county with respect to which such person is an owner, operator, or sharecropper, multiply the number of acres, feet, or quantity, as the case may be, devoted to an approved soil-building practice by the rate specified for such practice and multiply this result by such person's percentage.

(b) Add the amounts obtained under subsection (a) of this Section 14. Provided, however, the total amount of soil-building payments to such person with respect to farms in such county with respect to which such person is an owner, operator, or sharecropper, shall not exceed the amount of such person's soil-building allowance in such county, computed for such farms as set forth in Section 12 of this Part IV.

SECTION 15. *Adjustment in Rates and Allowances.*—All the rates and allowances specified in this Part IV are based upon an estimate of available funds and an estimate of approximately 85 percent participation. If participation in the North Central Region exceeds that estimated for such region, all the rates and allowances specified in this Part IV for such region may be reduced pro rata. If participation in the North Central Region is less than the estimate for such region, all such rates and allowances may be increased pro rata. In no case will any rates or allowances be increased or decreased by more than 10 percent.

SECTION 16. *Applicability to Farms Under Special Programs.*—The Secretary may designate one or more counties in any State for which special programs for 1937 will be developed under the Soil Conservation and Domestic Allotment Act. In the event that any such county is designated the rates, allowances, and conditions of payment for such county will be set forth in a bulletin for such county and the provisions of this bulletin shall not be applicable in such county. On any farm where a program is carried out in cooperation with the Soil-Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are approved for the farm by the county committee in accordance with instructions issued by the Secretary.

SECTION 17. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made to any person with respect to any farm or farms may be withheld if any rotation, cropping, or other practices are adopted on any farm with respect to which such person is an owner, operator, or sharecropper, which practices the Secretary determines tend to defeat the purposes of the 1937 Agricultural Conservation Program. If any person who has made an application for payment with respect to any farm or farms in a county has an interest as owner, operator, or sharecropper in a farm in another county on which the acreage used for the production of soil-depleting crops in 1937 materially exceeds the acreage normally used for the production of any or all of such crops on such other farm or farms, the amount of any payment which otherwise would be made to such person may, in the discretion of the Secretary, be appropriately reduced.

SECTION 18. *Association Expenses.*—In determining the amount of payments under the 1937 Agricultural Conservation Program, there shall be deducted from any payment computed for any person with respect to any farm or farms in a county, all of such person's pro rata share, or such part thereof as may be determined by the Secretary, of the estimated total administrative expenses incurred and to be incurred by the Association of such county in cooperating in carrying out the Soil Conservation and Domestic Allotment Act. Such pro rata share shall be determined by multiplying the total payments computed for such person with respect to any farm or farms in such county by the percentage that the estimated total of administrative expenses of the Association for such county as approved by the North Central Division for 1937 is of the total payments estimated by the North Central Division which will be made with respect to farms in such county in 1937. As provided in the Articles of Association, as amended, any person who previously has not become a member of the Association of the county in which his farm or farms are located shall become a member thereof by his signing an application for payment with respect to such farm or farms. There shall be credited for the payment of administrative expenses the sum of $2.00 for each application for payment under which, prior to the deduction of any administrative expenses and as estimated by the Agricultural Adjustment Administration, the total payment will be $20.00 or less or under which there will be no payment.

*Part V—Miscellaneous Provisions*

SECTION 1. *Farm.*—A farm shall include all land in a county under the same ownership which is farmed by the same operator as all or part of one farming unit. A farm shall not include a tract of land which is less than three acres unless the average annual gross income from such tract of land is $250.00 or more. The following examples are illustrative of the rule to be followed in determining what land shall be considered a farm:

(a) If two or more tracts of land are owned and operated by the same person as part or all of one farming unit, such tracts of land shall be regarded as one farm.

(b) If two or more tracts of land are rented for cash by a person who operates such tracts of land as part or all of one farming unit, such tracts shall be regarded as one farm.

(c) If two or more tracts of land owned by the same person are rented on shares to a person who operates such tracts of land as part or all of one farming unit, such tracts of land shall be regarded as one farm.

(d) If two or more tracts of land owned by different persons are rented on shares to a person who operates such tracts of land in 1937 as part or all of one farming unit, each such separately owned tract shall be regarded as one farm.

(e) If two or more tracts of land owned by the same or different persons are operated in 1937 by the same operator as separate farming units, each such tract shall be regarded as one farm.

(f) If two tracts of land are operated as part or all of one farming unit by an operator who rents one tract from a landlord for cash rent, which tract is ordinarily used for hay, meadow, pasture, or other similar uses, and the other tract is share-rented from the same landlord, both of such tracts shall be regarded as one farm.

(g) If two tracts of land are operated as part or all of one farming unit by an operator who rents one tract for cash from one landlord, which tract is not ordinarily used for hay, meadow, pasture, or other similar uses, and such other tract is share-rented from a different landlord, each of such tracts shall be regarded as one farm.

SECTION 2. *Farm or Farming Unit Located in More Than One County.*—If a farm is located on two or more adjacent counties, such farm shall be regarded as located in the county in which the principal dwelling on such farm is located. If there is no principal dwelling on such farm, it shall be regarded as located in the county in which the largest portion of such farm is located. If a farming unit is located in two or more adjacent counties, such farming unit shall be regarded as located in the county in which the principal dwelling on such farming unit is located. If there is no principal dwelling on such farming unit, it shall be regarded as located in the county in which the largest portion of such farming unit is located.

SECTION 3. *Determination of Ownership.*—An owner is a person who owns a farm which is not rented to another for cash or for a fixed commodity payment or who rents a farm from another for cash or for a fixed commodity payment, or who is purchasing a farm on installments for cash or for a fixed commodity payment. The term "owner" as used herein does not refer exclusively to a person who has legal title to a farm but is intended to describe the person who for 1937 has the right to possession or control of a farm and to a part of all of the rents and profits therefrom. If a person has the right to receive a portion of any crop, or the proceeds thereof, on any farm in the North Central Region in 1937 solely by virtue of a creditor relationship and does not become the owner of such farm, such person shall not be entitled to receive any payment made with respect to such farm pursuant to the 1937 Agricultural Conservation Program in the North Central Region.

SECTION 4. *Determination of When a Person is an Owner, Operator, or Sharecropper with Respect to More than One Farm in a County.*—For the purposes of the 1937 Agricultural Conservation Program in the North Central Region a person shall be regarded as an owner, operator, or sharecropper with respect to more than one farm in a county only where he occupies a similar or comparable status with respect to more than one farm in the same county. The following examples are illustrations of the application of the rule to be observed in determining whether a person owns more than one farm in a county:

(a) If one farm is owned solely by a person and another farm is owned only in part by such person, such farms will be regarded as owned by different persons;

(b) If a person owns and operates one farm and owns another farm which he has rented on shares to another, such farms will be regarded as owned by the same person;

(c) If a person owns a one-third interest in one farm with one party, and such person owns a one-half interest in another farm with another party, such farms will be regarded as owned by different persons; if such person owned such two farms with the same party, such farms will be regarded as owned by the same person;

(d) If a person as owner is entitled to receive under his leasing agreement with respect to one farm 40 percent of the crops produced thereon, or the proceeds thereof, and such person is entitled to receive under his leasing agreement with respect to another farm 50 percent of the crops and livestock produced thereon, or the proceeds thereof, such farms will be regarded as owned by the same person;

(e) If one farm is owned by a person in his individual capacity and another farm is owned by the same person in a representative or fiduciary capacity, such farms will be regarded as owned by different persons;

(f) If more than one farm is owned by the same person who acts in a different representative or fiduciary capacity, with respect to each such farm, such farms will be regarded as owned by different persons;

(g) If a person's rights to the profits or rents from more than one farm arise under separate written instruments which severally provide that such profits or rents are to be credited to the accounts of the persons transferring such rights, such farms will be regarded as owned by different persons; for example, where a person's rights to the profits or rents from one farm in a county arises under a grant of possession from one party containing a provision like that hereinbefore described, and such person's rights to the profits or rents from a second farm in such county arise from a similar grant of possession from another party, and such person also has rights to the profits or rents from a third farm in the county not arising from any grant of possession such three farms will be regarded as owned by three different persons.

In determining whether a person is an operator or sharecropper with respect to more than one farm in a county, the rule hereinbefore outlined with respect to ownership of more than one farm in a county shall be applied.

SECTION 5. *Application and Eligibility for Payment.*—Payments will only be made upon application therefor filed with the county committee. Each person applying for payment will be required to show the extent to which the conditions upon which the payment is to be made have been met. The eligibility of a person who is an owner, operator, or sharecropper with respect to one or more farms in a county shall, subject to the provisions of Section 17 of Part IV, be determined by the performance on such farm or farms.

For the purpose of determining the eligibility of an operator for payment where the farming unit operated by him includes a farm or farms located in two or more adjoining counties such farm or farms shall be regarded as located in the county in which the farming unit is deemed to be located.

No payment will be made to any person if the total amount of payment computed for such person is less than fifty cents.

In order for any person to be eligible to make an application for payment with respect to a farm under the 1937 Agricultural Conservation Program in the North Central Region such person must show that he owned or operated such farm on June 30, 1937, and has been such owner or operator for a period of at least 60 consecutive days, which period must include June 30, 1937. In determining the number of days of ownership or operation, a fraction of a day will be considered as a whole day. In the event more than one person has owned or operated a farm on June 30, 1937, and for 60 consecutive days, the person who has owned or operated such farm prior to June 30, 1937, shall be regarded as the owner or operator of such farm.

In the event of death, incompetency, abandonment, or discharge or release from a representative capacity the period of ownership or operation may, upon recommendation of the county committee and upon approval by the Secretary or his duly authorized representative, be computed as follows:

(a) *In the Event of Death.*—If, because of the death of any party owning or operating a farm, the person, whether the deceased, his heir or heirs, or the duly appointed representative, if any, of such decedent's estate, who owns or operates such farm on June 30, 1937, has not owned or operated such farm, for 60 consecutive days, the period of such person's ownership or operation of such farm shall be deemed to include the time of ownership or operation of such farm by the deceased person, his heir or heirs, or the duly appointed representative, if any, of his estate.

(b) *In the Event of Incompetency.*—If because of the adjudication of incompetency of any person owning or operating a farm, the person, whether the person who was adjudicated incompetent, his relative or relatives, or his duly appointed representative, if any, who owns or operates such farm on June 30, 1937, has not owned or operated such farm for 60 consecutive days, the period of such person's ownership or operation of such farm shall be deemed to include the time of ownership or operation of such farm by the person who was adjudicated incompetent, his relative or relatives, or his duly appointed representative, if any.

(c) *In the Event of Abandonment.*—If, because of abandonment, by any party owning or operating a farm, the person, whether the person who has abandoned the farm, his relative or relatives, or his duly appointed representative, if any, who owns or operates such farm on June 30, 1937, has not owned or operated such farm for 60 consecutive days, the period of such person's ownership or operation of such farm shall be deemed to include the time of ownership or operation of such farm by the person who has abandoned such farm, his relative or relatives, or his duly appointed representative, if any.

(d) *In the Event of Discharge or Release from Representative Capacity.*—If, because of the discharge or release from a representative or fiduciary capacity of any party owning or operating a farm, the person, whether the representative or fiduciary who has been discharged or released from his

representative or fiduciary capacity or the person or persons who succeed such representative as owner or operator, who owns or operates such farm on June 30, 1937, has not owned or operated such farm for 60 consecutive days, the period of such person's ownership or operation of such farm shall be deemed to include the time of ownership or operation of such farm by the representative who has been released or discharged from his representative or fiduciary capacity and the person or persons who succeed such representative or fiduciary as owner or operator of such farm.

No soil-building payment will be made to the person who is regarded as the owner or operator of a farm for any soil-building practices carried out on such farm after he has ceased to own or operate such farm.

For the purpose of this Section 5, the term "operator" shall be deemed to include sharecroppers.

SECTION 6. *Persons Eligible to Execute an Application for Payment and Receive Payment Thereunder upon Happening of Certain Contingencies* on or after July 1, 1937:

(a) *In the Event of Death.*—If an owner or operator of a farm dies on or after July 1, 1937, and before making an application for payment with respect to such farm, the administrator or executor appointed by a court of competent jurisdiction for such decedent's estate shall be eligible to make an application for payment with respect to such farm, in lieu of such decedent. If an administrator or executor is not appointed for such estate, all the heirs of such decedent will be eligible to make application for payment with respect to such farm. If, prior to his death, the decedent has made an application for payment but did not receive the payment thereunder, such payment will be made to the administrator or executor appointed by a court of competent jurisdiction for such estate. If an administrator or executor is not appointed for such estate, such payment will be made to all the heirs of such decedent.

(b) *In the Event of Incompetency.*—If an owner or operator of a farm is adjudged incompetent by a court of competent jurisdiction on or after July 1, 1937, and before making an application for payment with respect to such farm, the guardian or committee appointed by a court of competent jurisdiction for such incompetent's estate shall be eligible to make application for payment with respect to such farm in lieu of the incompetent. If the person adjudicated incompetent had, prior to such adjudication, made application for payment but did not receive the payment thereunder, such payment will be made to the guardian or committee appointed by a court of competent jurisdiction for such incompetent's estate.

(c) *In the Event of Abandonment.*—If an owner or operator of a farm abandons such farm on or after July 1, 1937, and before making an application for payment with respect to such farm, the person appointed by a court of competent jurisdiction to control and conserve the assets of the abandoned estate shall be eligible to make an application for payment with respect to such farm in lieu of the person who abandons such farm. If, prior to his abandonment, the person who abandons such farm had made an application for payment, but did not receive the payment thereunder, such payment will be made to the person appointed by a court of competent jurisdiction to control and conserve the assets of such abandoned estate.

(d) *In the Event of Discharge or Release from Representative Capacity.*—If an administrator, executor, trustee, guardian, committee, receiver, conservator, or other representative or fiduciary who is the owner or operator of a farm is discharged or released from such representative or fiduciary position by a court of competent jurisdiction on or after July 1, 1937, and before making an application for payment, the person or persons who succeed such representative or fiduciary as owner or operator of such farm will be eligible to execute an application for payment with respect to such farm in lieu of the representative or fiduciary who has been discharged or released. If, prior to his discharge or release, the person who has been discharged or released from his representative or fiduciary position had made an application for payment but did not receive the payment thereunder, such payment will be made to the person or persons who succeed such representative as owner or operator of such farm.

For the purpose of this Section 6, the term "operator" shall be deemed to include "sharecroppers."

*Part VI—Range Lands*

SECTION 1. *Definitions.*—As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in its application to range lands in the North Central Region, the following terms shall have the following meanings:

*Range land* means any land other than that owned or controlled by the United States Government, or any agency thereof, which produces forage without cultivation or general irrigation, ten acres or more of which are required to sustain one animal unit for a period of twelve months.

*Ranching unit* means all land used by an operator in 1937 as a single unit for the production of livestock primarily by grazing such livestock on range land, with buildings, corrals, workstock, farm machinery and labor substantially separate from that for any other ranching unit.

*Ranch operator* means a person who as owner or lessee operates a ranching unit.

*Animal unit* means the unit of measurement used to denote the grazing capacity of range land. An animal unit as used herein shall be equal to either one cow, one horse, five sheep, two calves, two colts, or the equivalent thereof.

*Range allowance* means the largest amount of payment that may be obtained for range conservation practices on any ranching unit.

*Range grazing capacity* means the number of animal units which range land will normally sustain for a twelve month period without decreasing the stand of grass or other grazing vegetation and without injury to the forage and tree growth on such range land.

*Limited grazing* means limiting the grazing on an entire ranching unit during the grazing season to such an extent that a specified percentage of the grass on such ranch-unit is permitted to mature seed.

*Deferred grazing* means withholding from grazing a portion of the range land in a ranching unit during the period between the time growth starts in the spring and the time seed matures in the fall, for the purpose of permitting natural reseeding of native grasses.

*County range inspector* means a person selected by the county committee and approved by the State Committee to appraise and recommend grazing capacities and practices, and to determine performance on range land.

SECTION 2. *County Range Grazing Capacity Limit.*—There shall be established by the Agricultural Adjustment Administration in each county containing range land the average grazing capacity of such range land in terms of animal units. The average of the individual grazing capacities established for the range land in any county shall not exceed the county average grazing capacity limit for such county.

SECTION 3. *Grazing Capacity.*—There shall be established for any range land for which an application for the establishment of grazing capacity is received, the grazing capacity of such range land. Such grazing capacity for individual range land shall be established by taking into account the following factors: (a) composition, palatability, and density of vegetative growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic features; (e) classes of livestock which have utilized such range land; (f) presence or absence of rodents and poisonous plant infestation; and (g) fences.

SECTION 4. *Range Building Allowance.*—The range building allowance for a ranching unit shall be equal to an amount obtained by multiplying the grazing capacity for such ranching unit by $1.50.

SECTION 5. *Range Building Practices.*—Payments will be made not in excess of the range building allowance, for the carrying out on range land any of the range building practices listed herein, provided, the ranch operator has filed with the county committee a request for an inspection of his ranching unit by a county range inspector; the county committee has given prior approval for the carrying out of any such practices; the county committee has determined that any such practice has been carried out in accordance with the conditions specified; and any such practice has been carried out in accordance with generally accepted standards of good ranch management.

(a) *Reseeding by deferred grazing.*—Natural reseeding by non-grazing on an acreage equal to not more than 25 percent nor less than 10 percent of the total range land in the ranching unit from May 1 to September 30, 1937, inclusive, except that upon recommendation by the State Committee and approval by the Director of the North Central Division a date other than September 30, 1937, may be established—60 percent of the range building allowance for such ranching unit multiplied by the percentage that the non-grazed acreage is of the acreage equivalent to 25 percent of the total range land in such ranching unit, provided, (1) On ranches on which cattle or horses are grazed the area to be kept free of grazing is fenced and the fence is maintained sufficiently to prevent the entry of livestock; (2) On ranches used exclusively for grazing sheep the area to be kept free of grazing is either fenced or the fence is maintained sufficiently to prevent entry of livestock or the entry of livestock on the non-grazed acreage is prevented by herding; (3) The remaining range land in such ranching unit is not pastured to such an extent as will decrease the stand of grass or injure the range, forage, tree growth, or watershed; and (4) The ranch operator has submitted to the county committee in writing the designation of the non-grazing range area of the ranch previous to the carrying out of such practice.

(b) *Reseeding by limited grazing.*—Natural reseeding of all of the range land on the ranching unit—50 percent of the range building allowance for such ranching unit, provided, the number of animal units grazed on the range land on such ranching unit during the grazing season, May 1 to September 30, 1937, inclusive, is limited to a number of animal units which will permit at least 25 percent of the grass on the ranching unit to mature seed and aid the natural reseeding of such grasses.

(c) *Contouring.*—Construction of contour furrows on land not sufficiently sandy and porous to absorb normal precipitation—$0.50 per acre, provided, (1) The furrows are constructed on the contour level not less than 8 inches in width and 4 inches in depth; (2) Such furrows are dammed at intervals of not more than 100 feet; and (3) The furrows are not more than 25 feet apart.

(d) *Tree Planting.*—Planting of trees on range land—$10.00 per acre, provided, (1) The trees are planted in 1937 prior to November 1, 1937; (2) The number, kind, and age of trees planted and the methods of planting and growing of such trees are in accordance with good tree culture practice; (3) The acreage planted to trees is fenced and the fence is maintained sufficiently to prevent entry of livestock.

(e) *Cultivating and Maintaining a Stand of Trees.*—Cultivating, protecting, and maintaining, by replanting, if necessary, a full stand of at least 500 trees per acre of forest plantings or 200 trees per acre of windbreak or shelter-belt plantings planted on cropland or non-cropland between January 1, 1934, and November 1, 1936—$4.00 per acre.

(f) *Reservoirs.*—Construction of reservoirs and dams—$0.15 per cubic yard of fill for such construction, provided, (1) The construction of reservoirs and dams is carried out in connection with the practices outlined in sub-sections (1) and (2) of this Section 5; (2) Spillways are made adequate to prevent the dam from washing out under normal rainfall and reservoirs are located where they have a sufficient watershed to insure the filling of such reservoirs with normal precipitation.

SECTION 6. *Payments Restricted to Effectuation of Purpose.*—All or any part of any range practice payment which otherwise would be made with respect to any ranching unit may be withheld if any grazing or other practices are adopted on the ranching unit, which practices the Secretary determines tend to defeat the purpose of the 1937 range program in the North Central Region.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 12th day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-588: Filed, February 26, 1937; 11:37 a. m.]

---

NCR—B-101, as Amended, Supplement No. 1

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTH CENTRAL REGION

BULLETIN NO. 101, AS AMENDED

*Supplement No. 1*

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, North Central Region Bulletin 101, as Amended under date of February 15, 1937, is hereby further amended as follows:

PART III—CLASSIFICATION OF FARMLAND

1. Part III, section 3, (a), (1), is amended by deleting therefrom the word "thereafter" in the fourth line of page 22 after the word "cultivated" and before the word "in" and inserting in lieu thereof the phrase, "until August 1, 1937".

PART IV—RATES AND CONDITIONS OF PAYMENT

2. Part IV, section 13 is amended by deleting therefrom subparagraph (g) and inserting in lieu thereof the following:

(g) *Planting and Protection of Trees.*—Planting and protection of forest trees and trees for windbreak or shelterbelt purposes in accordance with good tree culture practice—$7.50 per acre, *provided*

(1) In the case of forest plantings there is on the date as of which final inspection is made for the purpose of determining performance on the farm, a stand of at least 650 living trees per acre; or if due to uncontrollable natural causes a stand of 650 living trees per acre is not obtained on the date as of which final inspection is made for the purpose of determining performance on the farm, there is satisfactory evidence that such trees were planted in accordance with good tree culture practice and that such trees have been properly protected;

(2) In the case of windbreak or shelterbelt plantings, there is on the date as of which final inspection is made for the purpose of determining performance on the farm, a stand of at least 300 living trees per acre; or if due to uncontrollable natural causes a stand of 300 living trees per acre is not obtained on the date as of which final inspection is made for the purpose of determining performance on the farm there is satisfactory evidence that such trees were planted in accordance with good tree culture practice and that such trees have been properly protected.

This subsection (g) is not applicable to dryland farms.

3. Part IV, section 13, (k), is amended by inserting on page 60, line 25, after the word "out" and before the word "in", the phrase "until August 1, 1937".

4. Part IV, section 13, (l), is amended by inserting on page 61, line 17, after the word "out", the phrase "until August 1, 1937".

5. Part IV, section 13, (m), is amended by inserting on page 62, line 5, after the word "out" and before the word "in" the phrase "until August 1, 1937".

6. Part IV, section 13 is amended by deleting therefrom subparagraph (o) and inserting in lieu thereof the following:

(o) *Planting and Protection of Trees.*—Planting and protection of forest trees and trees for windbreak or shelterbelt purposes in accordance with good tree culture practice—$10.00 per acre, *provided*,

(1) In the case of forest plantings there is on the date as of which final inspection is made for the purpose of determining performance on the farm, a stand of at least 500 living trees per acre; or if due to uncontrollable natural causes a stand of 500 living trees per acre is not obtained on the date as of which final inspection is made for the purpose of determining performance on the farm, there is satisfactory evidence that such trees were planted in accordance with good tree culture practice and that such trees have been properly protected;

(2) in the case of windbreak or shelterbelt plantings, there is on the date as of which final inspection is made for the purpose of determining performance on the farm a stand of at least 200 living trees per acre; or if due to uncontrollable natural causes a stand of 200 living trees per acre is not obtained on the date as of which final inspection is made for the purpose of determining performance on the farm, there is satisfactory evidence that such trees were planted in accordance with good tree culture practice and that such trees have been properly protected.

PART V—MISCELLANEOUS PROVISIONS

7. Part V, section 5, is amended by adding on page 74 after the third paragraph, the following new paragraph:

A person whose lease expires before June 30, 1937, and who has no interest in the farming operations on the farm in 1937 except to harvest a crop or crops which he planted in the fall of 1936 will not be regarded as the operator of such farm. In such cases the person who operates the farm in 1937 other than for the purpose of harvesting a crop therefrom or who operates the remainder of the farming unit of which such farm is a part shall be regarded as the operator of such farm.

PART VI—RANGE LANDS

8. Part VI, section 5, is amended by deleting therefrom subparagraphs (a) and (b) and inserting in lieu thereof the following:

(a) *Reseeding.*—

(a–1) *Reseeding by deferred grazing.*—Natural reseeding by non-grazing on an acreage equal to not more than 25 percent nor less than 10 percent of the total range land in the ranching unit from May 15 to September 30, 1937, inclusive, except that upon recommendation by the State Committee and approval by the Director of the North Central Division a date other than September 30, 1937, may be established;—60 percent of the range building allowance for such ranching unit multiplied by the percentage that the non-grazed acreage is of the acreage equivalent to 25 percent of the total range land in such ranching unit, provided, (1) On ranches on which cattle or horses are grazed the area to be kept free of grazing is fenced and the fence is maintained sufficiently to prevent the entry of livestock; (2) On ranches used exclusively for grazing sheep the area to be kept free of grazing is either fenced or the fence is maintained sufficiently to prevent entry of livestock or the entry of livestock on the non-grazed acreage is prevented by herding; (3) The remaining range land in such ranching unit is not pastured to such an extent as will decrease the stand of grass or injure the range, forage, tree growth, or watershed; (4) Such practice shall not be applicable to range land in the ranching unit which normally is not used for grazing during the period May 15, 1937 to September 30, 1937, inclusive; and (5) The ranch operator has submitted to the county committee in writing the designation of the non-grazing range area of the ranch previous to the carrying out of such practice; or

(a–2) *Reseeding by limited grazing.*—Natural reseeding of all of the range land on the ranching unit.—50 percent of the range building allowance for such ranching unit, provided, the number of animal units grazed on the range land on such ranching unit during the grazing season, May 1 to September 30, 1937, inclusive, is limited to a number of animal units which will permit at least 25 percent of the grass on the ranching unit to mature seed and aid the natural reseeding of such grasses.

9. Part VI, section 5, is amended by deleting the lettering of subparagraphs (c), (d), (e), and (f) and inserting in lieu thereof the lettering "(b)", "(c)", "(d)", and "(e)", respectively.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 27th day of February 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

## DEPARTMENT OF COMMERCE.

### Bureau of Air Commerce.

DESIGNATION OF THE FEDERAL AIRWAYS SYSTEM AS CIVIL AIRWAYS OF THE UNITED STATES

By virtue of and pursuant to the authority vested in me by the Air Commerce Act of 1926, as amended (44 Stat. 570, 49 U. S. C., Sec. 175), I hereby designate the following described air route as civil airway necessary to foster air commerce and suitable for interstate or foreign air commerce.

The civil airway designated herein shall include the navigable air space located vertically above an area on the horizontal plane contained within lines encircling each airport (hereinafter called terminal airport) at the ends thereof, with a radius of 25 miles from the center of said airport and also contained within two lines each parallel to and located 25 miles from the center line connecting the terminal airports thereof with such other points as hereinafter specified, to designate the route of said airway. The civil airway designated herein shall also include the terminal and intermediate airports, emergency landing fields and all other air navigation facilities located or which may be hereafter located and established within the said area.

Provided that the civil airway designated herein shall not include any air space reservations set aside and protected by Executive Orders pursuant to the Provisions of Section 4 of the Air Commerce Act of 1926, or the navigable air space above non-territorial waters or above foreign territory abutting the boundaries of the United States.

CIVIL AIRWAY NO. 99—MOBILE-JACKSONVILLE

Mobile, Alabama, Municipal Airport, via Pensacola, Florida, Municipal Airport, Tallahassee, Florida, Dale-Marby Airport, Live Oak, Florida, Live Oak Airport, to Jacksonville, Florida, Municipal Airport.

Approved to take effect March 1, 1937.

[SEAL] DANIEL C. ROPER,
*Secretary of Commerce.*

[F. R. Doc. 37–614; Filed, March 2, 1937; 10:54 a. m.]

## SECURITIES AND EXCHANGE COMMISSION.

### HOLDING COMPANY ACT

RULE 3—APPLICATIONS FOR EXEMPTION UNDER SECTIONS 2 OR 3

Acting pursuant to the authority granted by Section 20 of the Public Utility Holding Company Act of 1935 and finding such action necessary and appropriate in the public interest and for the protection of investors and consumers, the Securities and Exchange Commission hereby amends Rule 3 to read as follows:

RULE 3—APPLICATIONS FOR EXEMPTION UNDER SECTIONS 2 OR 3

(a) Every application for an order of exemption pursuant to Section 2 or Section 3 shall comply with the provisions of Rule 2. Rules 2A3–1, 2A4–1, 2A7–1, 2A8–1 and 3A–1 set forth the specific information that is to be given in the case of applications made under corresponding subsections of the Act. If, however, any such information is not available without unreasonable effort or delay, or is deemed by the applicant to be irrelevant to the question presented, the applicant may omit such information, briefly indicating the reasons for such omission, and submitting instead such other information, if any, as it may deem relevant. Thus in any case where an applicant is of the opinion that the statement of certain facts makes the recital of other specified information unnecessary in view of the appropriate provisions of Section 2 or 3, it may state such facts and explain the reasons for such opinion without giving the further information specified, and in any case involving a question of control an applicant may admit control in whole or in part and, to such extent, omit the information bearing on this question. If any applicant is in doubt as to the interpretation of any requirement of the appropriate rule under Section 2 or 3, it should, in making its application, adopt the interpretation which seems to it most reasonable, and expressly explain the interpretation adopted. All applications shall be subject to the right of the Commission to require any additional information, whether specified by the appropriate rule or not, which it may find necessary or appropriate in the particular case. The applicant may at its option include any additional information not required by the Commission. Each application should contain a brief statement of the reasons why the applicant is deemed to be entitled to the action requested with a reference to the provisions of the Act and of the Rules and Regulations under which application is made.

(b) Any such application may incorporate by reference any information contained in any other such application previously or concurrently filed, whether by the same or by a different applicant. Any one applicant may file a combined application for different orders or file separate applications, but, if separate, each such application should include an express reference to the other. Any two or more applicants may file joint applications where substantially the same questions of fact are involved. Orders may be requested in the alternative, but in such case the applicant's preference should be indicated.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

SECURITIES ACT OF 1933

REGISTRATION STATEMENTS

*Rule Adopting Form A–O–1 as Amended and Printed*

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, and finding:

(1) that any information or documents specified in Schedule A of the Act which Form A–O–1 for Securities of Issuers Organized within Two Years to Engage in the Exploitation of Mineral Deposits (other than Oil or Gas), and the Instruction Book for such form, do not require to be set forth are inapplicable to the class of securities to which such form is appropriate, and disclosure fully adequate for the protection of investors is otherwise required to be included in the registration statement, and that such information and documents as Form A–O–1 and the Instruction Book for such form require to be set forth, but which are not specified in said Schedule A, are necessary and appropriate in the public interest and for the protection of investors; and

(2) that the information which the rules contained in the Instruction Book for Form A–O–1 require to be contained in prospectuses for the class of securities and issuers to which such form is appropriate is necessary and appropriate in the public interest and for the protection of investors, and that the statements made in registration statements which are permitted to be omitted from prospectuses for such class of securities and issuers are not necessary or appropriate in the public interest or for the protection of investors; and that the form and contents which such rules prescribe for prospectuses of the class specified are appropriate to the nature and circumstances of their use and are consistent with the public interest and the protection of investors;

hereby adopts Form A–O–1 and the Instruction Book for such form, both as printed and attached hereto,[1] to be used for registration under the Securities Act of 1933 of securities of the class, and issued by the class of issuers, specified in the rule for the use of said Form A–O–1.

By order of the Commission.

[File No. 43–33]

IN THE MATTER OF ILLINOIS POWER & LIGHT CORPORATION

NOTICE OF AND ORDER FOR HEARING

A declaration having been duly filed with this Commission, by Illinois Power & Light Corp., a subsidiary of The North American Company, a registered holding company, pursuant to Section 7 of the Public Utility Holding Company Act of 1935, with respect to the issue and exchange by declarant, pursuant to a Plan of Recapitalization involving the reclassification and change of its present outstanding capital stock, of the following securities:

483,500 shares of 5% Cumulative Convertible Preferred Stock with a par value of $50 per share,
483,500 Dividend Arrears Certificates,
783,500 shares of Common Stock having no par value but with a stated value of $25 per share, and
300,000 Warrants to purchase one share each of such Common Stock.

It is ordered that a hearing on such matter be held on March 19, 1937, at 10 o'clock in the forenoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before March 15, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

[File No. 34–4]

IN THE MATTER OF ILLINOIS POWER & LIGHT CORPORATION

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Illinois Power & Light Corp., a subsidiary of The North American Company, a registered holding company, pursuant to Section 11 (g) of the Public Utility Holding Company Act of 1935, for a report on its Plan of Recapitalization involving the reclassification and change of its capital stock presently outstanding. The outstanding capital stock of the applicant consists of 600,000 shares of Common Stock having no par value but with a stated value of $50 per share, 443,500 shares of $6 Cumulative Preferred Stock without par value and 40,000 shares of 6% Cumulative Preferred Stock with a par value of $100 per share. The new capitalization proposed by the applicant will consist of 783,500 shares of Common Stock having no par value but with a stated value of $25 per share, 300,000 warrants to purchase one share each of such new Common Stock, 483,500 shares of 5% Cumulative Convertible Preferred Stock with a par value of $50 per share and 483,500 Dividend Arrears Certificates.

It is ordered that a hearing on such matter be held on March 19, 1937, at 10 o'clock in the forenoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

[1] Form A–O–1 and the Instruction Book were filed with the Division of the Federal Register. The National Archives; copies are available upon application to the Securities and Exchange Commission.

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before March 15, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF THE APPLICATION OF NORTHERN INDIANA PUBLIC SERVICE COMPANY

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Northern Indiana Public Service Company pursuant to Section 3 (a) of the Public Utility Holding Company Act of 1935, for exemption as a holding company from provisions of said Act;

It is ordered that a hearing on such matter be held on March 18, 1937, at 10:00 o'clock in the forenoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before March 13, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

WR—B-101—Arizona Part X Issued March 2, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—ARIZONA, PART X

Western Region Bulletin No. 101—Arizona is hereby supplemented by adding thereto the following Part X.

*Part X—County Average Rates*

SECTION 1. *County Average Rates for Computing Diversion Payments and Soil-Building Allowances.*—The county average rates per acre for computing general diversion payments, and the county average rates per acre to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States, shall be as follows for the respective counties in the State of Arizona:

| County | Average Rate Per Acre for Diversion From General Soil-Depleting Base [1] | Average Soil-Building Allowance Rate Per Acre on Acreage Diverted for Payment From General Soil-Depleting Base [2] | Average Soil-Building Allowance Rate Per Acre on all Cropland on Non-Diversion Farms and Commercial Orchard Land on Diversion Farms [3] |
|---|---|---|---|
| Apache | $1.40 | $2.90 | $0.58 |
| Cochise | 6.10 | 4.10 | .82 |
| Coconino | 3.70 | 2.45 | .49 |
| Gila | 3.90 | 2.60 | .52 |
| Graham | 8.10 | 5.40 | 1.08 |
| Greenlee | 7.80 | 5.20 | 1.04 |
| Maricopa | 10.40 | 6.90 | 1.38 |
| Mohave | 5.60 | 3.70 | .74 |
| Navajo | 3.40 | 2.30 | .46 |
| Pima | 4.90 | 3.30 | .66 |
| Pinal | 7.10 | 4.75 | .95 |
| Santa Cruz | 4.60 | 3.10 | .62 |
| Yavapai | 11.30 | 7.55 | 1.51 |
| Yuma | | | |

[1] Pursuant to section 1, part II of W. R. Bulletin 101—Arizona.
[2] Pursuant to subsection A-2, section 2, part III of W. R. Bulletin 101—Arizona.
[3] Pursuant to subsections A-3 and B-1 of section 2, part III of W. R. Bulletin 101—Arizona.

SEC. 2. *Rates as Applied to Individual Farms.*—For any individual farm the rate of payment for diversion from the general soil-depleting base and the rates to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm. The average of the productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

In testimony whereof, M. L. Wilson, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 2nd day of March 1937.

[SEAL] M. L. WILSON.
*Acting Secretary of Agriculture.*

SEC. 2. *Rates as Applied to Individual Farms.*—For any individual farm the rate of payment for diversion from the general soil-depleting base and the rates to be used in computing those portions of, the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm. The average of the productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

In testimony whereof, M. L. Wilson, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 2nd day of March, 1937.

[SEAL] M. L. WILSON,
*Acting Secretary of Agriculture.*

## Bureau of Biological Survey.

ORDER PERMITTING TRAPPING ON THE UPPER MISSISSIPPI RIVER WILDLIFE AND FISH REFUGE

Pursuant to Section (a) of Regulation 1-A and to Regulation 2-A of the Regulations for the Administration of the Upper Mississippi River Wildlife and Fish Refuge, public trapping of muskrats, under permits of the Superintendent of said Refuge, in the States of Wisconsin and Minnesota, in accordance with the laws of said States, and in accordance with the regulations governing the said Refuge, as well as with the restrictions and conditions hereinafter provided, is

hereby permitted within said Refuge in the States named, except on the areas specifically scheduled below; between March 2 to April 5, 1937, both dates inclusive:

MINNESOTA

*Houston County*

*Area Number 1.*—All of the lands and waters lying in Township 104 N., Range 4 W., 5th P. M., described as follows: Those parts of the E½SW¼ and W½SE¼ of Section 14 lying southerly and westerly of Pine Creek; SE¼SW¼, E½NW¼, N½NE¼, SW¼NE¼, Lots 1, 2, 3 and 4 in Sec. 23; Lots 1, 2, 3, 4 and 5 in Sec. 24; Lots 1, 2, and 5 and NW¼NW¼, Sec. 25; N½NE¼ and NE¼NW¼, Sec. 26, all of the lands and waters of Lot 1, Sec. 30, Township 104 N., Range 3 W., 5th P. M.; and all of the lands and waters enclosed by the meandered boundaries of what is known as Target Lake situated in parts of said Sections 23 and 24, and all of the lands and waters enclosed by the meandered boundaries of that portion of what is known as Broken Arrow Slough situated northerly of a straight line drawn between the points of intersection of said slough by the north lines of Lots 2 and 4 of Sec. 25, Township 104 N., Range 4 W., excepting from Lot 2, Sec. 24, Township 104 N., Range 4 W. a rectangular parcel of land surrounding the Edward Hoffman cottage, more particularly described by metes and bounds as follows: BEGINNING at Corner 1, a point on the shore of the Mississippi River 75 feet south of the northeast corner of said Lot 2; thence west 29 feet, smoke house falls 5 feet south 150 feet, Corner 2, a 1" x 24" galvanized iron pipe; thence south parallel with the shore line 514 feet, Corner 3; a 1" x 24" galvanized iron pipe; thence east 150 feet, Corner 4, on the shore of the Mississippi River; thence north with the shore line 514 feet to the place of BEGINNING.

*Area Number 2.*—All of the lands and waters lying in Township 103 N., Ranges 3 and 4 W., 5th P. M. described as follows: The NE¼, NW¼SE¼, SW¼, N½NW¼, SE¼NW¼, and Lots 1 and 2 in Sec. 1; NE¼NW¼, W½NW¼, and Lots 2, 3, 4 and 5, that portion of Lot 6 east of the C. M. St. P. & P. R. R., and Lots 7 and 8, all in Sec. 12; Lots 1, 2, 3, 4, and 5, that portion of Lot 6 lying easterly of the easterly right of way line of the C. M. St. P. & P. R. R., NW¼SW¼ and SW¼NW¼ in Sec. 13; and all of the lands and waters enclosed by the meandered boundaries of what is known as Lawrence Lake situated in parts of said Sections 12 and 13, all in Township 103 N., Range 4 W., and Fractional Sec. 6, Township 103 N., Range 3 W.

WISCONSIN

*Buffalo County*

*Area Number 3.*—All of the lands and waters lying in Sections 1, 2, 3, 4, 10, 11 and 12 in Township 22 N., and Sections 33, 34, 35 and 36 in Township 23 N., all in Range 14 W., and Sec. 6, Township 22 N., Range 13 W., 4th P. M., which are enclosed by the following definite boundaries: Starting at the southeast corner of said Sec. 11, thence due north along the line separating Sections 11 and 12 to the northwest corner of the SW¼ of the said Sec. 12, thence due east to the intersection of the north line of the said SW¼, Sec. 12 with the old Wabasha-Nelson ferry road, thence northeasterly following said ferry road as a boundary to the point where said road intersects the south line of said Sec. 1, thence west to the southwest corner of the SE¼ of said Sec. 1, thence due north to the southwest corner of the N½NE¼, of said Sec. 1, thence east along the south line of the said N½NE¼ and the NW¼NW¼, Section 6, Township 22 N., Range 13 W., 4th P. M. to the point of intersection of the south line of said NW¼NW¼ with the old Wabasha-Nelson ferry road, thence northerly along the said ferry road to the point of intersection of said ferry road with the tracks of the Chicago, Burlington & Quincy Railroad, thence following the said Railroad tracks northwesterly to the Chippewa River, thence southerly along the Chippewa River to the Mississippi River and southeasterly along the Mississippi River to the south line of the said Sec. 11, thence due east along the south line of said Sec. 11 to the point of BEGINNING; excepting therefrom the N½SW¼, and the SW¼NW¼ in said Sec. 2, and the NW¼SW¼ of said Sec. 34, and excepting from the E½ NW¼ of said Sec. 3, the 100 foot right of way of 7.28 acres of the Chippewa Valley and Superior Railway Company.

*Area Number 4.*—All of the lands and waters lying in Sections 16, 17, 19, 20, 21, 26, 27, 28, 34, and 35 in Township 22 N., Range 13 W., 4th P. M. which are enclosed by the following definite boundaries: Starting at the point where the south line of Sec. 18, Township 22 N., Range 13 W. intersects the east bank of the Mississippi River, thence east along the south line of said Sec. 18, to the southeast corner of said Sec. 18, thence north along the east line of said Sec. 18 to the point where the said east line intersects Beef Slough, thence easterly and southeastly following said Beef Slough as a boundary through the said Secs. 17, 16, 21, 28, 27, 26, 35 and 34 to the junction of said Beef Slough with the Mississippi River, thence northwesterly and westerly along the Mississippi River to the place of BEGINNING.

*La Crosse County*

*Area Number 5.*—All of the lands and waters lying in Sections 26, 27, 34, 35 and 36, Township 17 N., Range 8 W., 4th P. M. which are enclosed by the following definite boundaries: Beginning at the southeast corner of said Sec. 36, thence due north along the line separating the said Sec. 36 and Sec. 31, Township 17 N., Range 7 W., 4th P. M. to the northwest corner of Lot 2, Sec. 31, Township 17 N., Range 7 W., thence northwesterly along the Black River to the northeast corner of Lot 3, Sec. 36, Township 17 N., Range 8 W., thence west along the north lines of Lots 3 and 4 of said Sec. 36 to the northwest corner of said Lot 4, thence north along the east line of the NE¼NW¼ of said Sec. 36 to the northeast corner thereof, thence west along the north line of said N½NW¼ to the northwest corner thereof, thence north along the east line of said Sec. 26 to the northeast corner of Lot 7 of said Sec. 26, thence west along the north line of said Lot 7 to the northwest corner thereof, thence northeasterly along a slough separating Lots 6 and 9 of said Sec. 26 to the point of intersection of said slough with the northeast corner of the south 20.00 acres of said Lot 9, thence due west to the west line of the southeast quarter of said Sec. 26, thence north to the northwest corner of the southeast quarter of said Sec. 26, thence west along the north line of the NE¼SW¼ of said Sec. 26 to the northwest corner of the said NE¼SW¼, thence north along the east line of the SW¼NW¼ to the northeast corner thereof, thence west along the north lines of said SW¼NW¼ of Sec. 26 and the S½NE¼ of Sec. 27 to the northwest corner of the said S½NE¼, thence south along the center line of said Sec. 27 to the south line of said Section, thence east along the south line of the W½SE¼ of said Sec. 27 to the southeast corner thereof, thence south along the west line of the E½E½ of said Sec. 34 to the southwest corner of the E½ SE¼ of said Sec. 34, being a point on the south line of Township 17 N., Range 8 W., 4th P. M., thence east along the said township line to the southeast corner of said township, being the place of BEGINNING.

*Area Number 6.*—All of the lands and waters lying in Sections 24 and 25, Township 16 N., Range 8 W., 4th P. M. and in Section 19, Township 16 N., Range 7 W., 4th P. M., which are enclosed by the following definite boundaries: Beginning at the southeast corner of Lot 2 in said Sec. 25, Township 16 N., Range 8 W., thence north along the east line of said Sec. 25 to the northeast corner of said Sec. 25, thence east along the south line of Lot 11, Sec. 19, Township 16 N., Range 7 W., to its intersection with the west bank of French Slough, thence northerly and northwesterly along French Slough to its junction with Smith Slough (sometimes referred to as Middle Slough), thence southwesterly, westerly, and northwesterly along said Smith Slough to its junction with a certain unnamed slough, which was formerly the main channel of the Mississippi River, thence southerly along said slough to its junction with the Mississippi River, thence southerly along the Mississippi River to its junction with Joe Lynn Slough, thence southeasterly along Joe Lynn Slough to the place of beginning, EXCEPTING from Lot 2, Sec. 25, Township 16 N., Range 8 W., a strip of land 200 feet in width, 100 feet of such width, upon each side of the center line of the main track of the C. M. St. P. & P. R. R., as the same is now located and operated over and across the said Lot 2, said exception containing 5.67 acres; and EXCEPTING from Lot 10, Sec. 19, Township 16 N., Range 7 W., and Lot 7, Sec. 24, Township 16 N., Range 8 W. the following described tract: BEGINNING at corner 1 on the east boundary of Lot 10, a 3" x 3" x 36" willow stake scribed M. 1 and Stone 10" x 5" x 4"; thence S 70°00' W. 2.94 chains to Corner 2, a 4" x 4" x 36" maple stake scribed M. 2; thence N. 23°30' W, 8.00 chains to Corner 3, a 3" x 3" x 36" maple stake scribed M. 3; thence N. 73°00' W. 5.60 chains to Corner 4, stake scribed M. 4; thence S 40°30' W, 2.00 chains to Corner 5, 1½" x 36" pipe (wooden plug in top), scribed M 5; thence S 19°30' E, 13.32 chains to Corner 6, a 4" cottonwood, scribed M 6; thence S 22°00' W, 4.70 chains to Corner 7, 22" oak scribed M. 7; thence S 66°00' W, 3.73 chains, Corner 8, a stake scribed M. 8; thence N 20°00' W, 11.60 chains to Corner 9, a stake; thence S 64°00' W, 4.05 chains to Corner 10, a stake; thence S 12°00' E, 9.72 chains to Corner 11, a stake; thence S 70°00' W, 2.35 chains to Corner 12, an 18" oak scribed M. 12; thence N 6°00' W, 12.82 chains to Corner 13, and 8" birch scribed M. 13; thence N 11°30' E, 2.60 chains to corner 14, a stake; thence N 35°30' E, 9.44 chains to Corner 15; thence N 53°30' E, 4.70 chains to Corner 16; thence N 80°00' E, 2.00 chains to Corner 17; thence S 61°00' E, 5.85 chains to Corner 18; thence S 41°30' E, 4.34 chains to Corner 19; thence S 20°30' E, 7.38 chains to Corner 1, the place of BEGINNING, said exception containing 24.79 acres, more or less.

*Vernon County*

*Area Number 7.*—All of the lands and waters lying in Township 14 N., Range 7 W, 4th P. M. described as follows: Lots 5, 6, 7, 8 and 9 in Sec. 7; W½SW¼ and Lots 7, 8, 9 and 10 in Sec. 17; SE¼, W½NE¼, SE¼NE¼, and Lots 1, 2, 3, 4 and 5 in Sec. 18; NE¼, Lots 2, 3, and 4 in Sec. 19; NW¼, W½SW¼, Lots 2, 3, 4 and 5, Sec. 20, excepting however from said lots 2 and 3 a tract of land described as follows: BEGINNING at Corner 1, a 7" x 7" x 36" Maple Post above ground, scribed US Cor. 1 placed in the north line of said Lot 2 and 17.71 chains east of the northwest corner thereof, thence East with the north line of said Lot 2, 7.69 chains to Corner 2, a 6" x 6" x 36" Maple Post above ground, scribed HD Cor. 2, thence South across small slough to high bank and with said high bank 26.00 chains to Corner 3, a 4" x 4" x 36" Maple Post above ground, scribed HD Cor. 3 placed on west bank of Crosby Slough just below junction with said small slough, thence West 7.69 chains to Corner 4, an 8" x 8" x 36" Maple Post above ground, scribed US Cor. 4, thence North parallel with east line 26.00 chains to Corner 1, the Place of beginning; and Lot 7 in Sec. 29.

*Crawford County*

*Area Number 8.*—All of the lands and waters lying in Township 10 N., Ranges 6 and 7 W., 4th P. M., which are enclosed by the following definite boundaries: Starting at the point in fractional Section 14, Township 10 N., Range 7 W., where Lafayette Slough enters the Mississippi River, thence southeasterly along the Mississippi River where it forms the southwesterly boundaries of Fractional Sections 14, 13 and 24, Township 10 N., Range 7 W., and the southerly boundaries of Lot 4 and a portion of Lot 3, both in fractional Section 19, Township 10 N., Range 6 W., to the junction of Capoli Slough with the Mississippi River, thence along Capoli Slough where it forms the southeasterly and easterly boundaries of Lots 3 and 2, Sec. 19, Township 10 N., Range 6 W., and the easterly boundary of Lot 9, Sec. 18, Township 10 N., Range 6 W., to the junction of said Capoli Slough with Winneshiek Slough, thence northerly along Winneshiek Slough where it forms the easterly boundary of Lot 6, Sec. 18, Township 10 N., Range 6 W., to the junction of said Winneshiek Slough with Gordon Slough, thence along Gordon Slough in westerly, northwesterly, northerly and northwesterly directions, successively, through Sections 18 and 7, Township 10 N., Range 6 W., and Sections 12, 1 and 2 in Township 10 N., Range 7 W., to the point in Sec. 2, Township 10 N., Range 7 W., where said Gordon Slough forms a junction with Winneshiek Slough, thence westerly across Winneshiek Slough to its junction with Mink Cut, thence along Mink Cut in southwesterly and westerly directions to a point in Sec. 11, Township 10 N., Range 7 W., where said Mink Cut forms a junction with Swift Slough, thence along Swift Slough in southerly and southwesterly directions to its junction with Lafayette Slough, thence southward along Lafayette Slough to the place of BEGINNING.

*Area Number 9.*—All of the lands and waters lying in Township 10 N., Range 6 W., 4th P. M. which are enclosed by the following definite boundaries: Starting at the point where the south line of Sec. 33 intersects the east bank of the Mississippi River, thence east along the south lines of Secs. 33 and 34 and Lot 5, Sec. 35, to the point where the south line of said Lot 5 intersects the west bank of Winneshiek Slough, thence along Winneshiek Slough in a northwesterly direction through Secs. 35, 34, 27, 22 and 21 to the junction of Winneshiek Slough with Milton Slough, thence along Milton Slough in westerly, northwesterly, westerly, southwesterly and westerly directions, successively, where said slough intersects parts in Secs. 21, 16, 17 and 20, to the point where the west line of Sec. 20 intersects the south bank of Milton Slough, thence south along the west line of Sec. 20 to the point where the said west line intersects the north bank of Baptiste Slough, thence westerly along Baptiste Slough through a portion of fractional Sec. 19 to the junction of Baptiste Slough with the Mississippi River, thence along the Mississippi River in a southeasterly direction where it forms the southwesterly boundaries of Lot 8, Sec. 19, and of fractional sections 20, 29, 28, and 33, to the Place of BEGINNING.

*Area Number 10.*—All of the lands and waters lying in Townships 6 and 7 N., Range 7 W., which are enclosed by the following definite boundaries: Starting at the point where the north line of Sec. 35, Township 7 N., Range 7 W., intersects the westerly bank of East Channel, thence along East Channel in a northwesterly direction to the point where the easterly boundary of Lot 4, Sec. 26, Township 7 N., Range 7 W. is intersected by the southerly boundary of the right of way of the toll bridge highway operated by the Prairie du Chien Bridge Company, thence along the southeasterly boundary of said highway right of way in a southwesterly direction across lots 4 and 5, Sec. 26, Township 7 N., Range 7 W., to the point where said southerly boundary of said right of way intersects the westerly boundary of said Lot 5, thence in a southerly direction along the westerly boundaries of said Lot 5, of Lots 3, 4, 5 and 6 of Sec. 35, Township 7 N., Range 7 W., and of Lot 1, Sec. 2, Township 6 N., Range 7 W., to the extreme southerly point of said Lot 1, thence in an easterly direction to the extreme southerly point of Lot 3 of said Sec. 2, thence along East Channel in a northeasterly direction where it forms the southeasterly boundaries of Lot 3 of said Sec. 2, and Lot 2, Sec. 1, Township 6 N., Range 7 W., and the easterly and northeasterly boundaries of Lots 3 and 4, Sec. 36, Lot 9, Sec. 35, and Lot 4, Sec. 26, Township 7 N., Range 7 W., to the place of BEGINNING.

*Area Number 11.*—All of the lands and waters of Lot 11, Sec. 2; Lot 1, Sec. 3, T. 9 N., R. 6 W.; Lot 10, Sec. 34; Lot 5, Sec. 35, T. 10 N., R. 6 W.; SE¼, Sec. 3; N½NE¼, Sec. 10, T. 10 N., R. 7 W., 4th P. M.

*Area Number 12.*—All of the lands and waters of Lots 7, 8, and 9, Sec. 35, T. 10 N., R. 6 W., 4th P. M.

*Grant County*

*Area Number 13.*—All of the lands and waters of Lots 7, 8, Sec. 6; N½NW¼, N½NE¼, SE¼NE¼, Sec. 7, T. 2 N., R. 3 W., and Lot 4, Sec. 1; Lot 8, Sec. 12, T. 2 N., R. 4 W., all in the 4th P. M.

*Vernon County*

*Area Number 14.*—All of the lands and waters of E½NE¼ and Lots 1, 2, and 3, Sec. 29, and Lot 5, Sec. 32, all in T. 14 N., R. 7 W., 4th P. M.; Lot 7, Sec. 32, T. 14 N., R. 7 W., 4th P. M., excepting therefrom a narrow strip of land along the east side described as follows; BEGINNING at a point on the North line of said Lot 7, 4.00 chains west of the west bank of the Mississippi River, a 3" x 3" x 36" willow post above ground scribed U. S. Cor. 1; thence East on said North line of Lot 7, 2.78 chains to a ¾" x 18" Galvanized Iron Pipe above ground, placed on a high ridge; thence still East 1.22 chains to Corner 2, a 5" x 5" x 30" Maple Post above ground scribed R. U. Cor. 2 on west bank of Mississippi River; thence S. 21°48' E., with the west bank of Mississippi River, 21.54 chains to Corner 3, a 4" x 4" x 24" Willow Post above ground scribed R. U. Cor. 3, being the southeast corner of said Lot 7; thence West with the south line of said Lot 7, 4.00 chains to Corner 4, a ¾" x 18" Galvanized Iron Pipe above ground; thence N. 21°48' W., parallel with the west bank of Mississippi River, 21.54 chains to Corner 1, the Place of BEGINNING, this exception containing 8.00 acres, more or less.

PERMITS—RESTRICTIONS ON TRAPPING, ETC.

Permits for the public trapping of muskrats, as herein authorized, may be issued without charge by the Superintendent of the Upper Mississippi River Wild Life and Fish Refuge to any qualified person. The issuance of such permits and the privileges conferred thereby shall be further subject to the following restrictions:

1. In the issuance of permits hereunder, preference will be given to persons who have been bona fide residents for a period of six months last past within or near the Refuge.

2. Not more than one permit will be issued to the same individual.

3. Before any permit may be issued, the applicant shall exhibit to the said Superintendent or his representative a valid trapping license from the State in which such trapping is to be conducted, and the applicant shall, in his application for permit, make a sworn statement as to his period of residence in the civil township, village, or city in which he claims such residence.

4. Permits will be valid and authorize public trapping only on the dates specified in the permit.

5. Muskrats may be taken on the Refuge only with traps for capturing the animals alive, or with ordinary spring steel or other traps the use of which is approved by the Superintendent or his authorized representative. The possession or use within the boundaries of the Refuge of a muskrat spear, or of any similar device by means of which muskrats may be speared, or of any trap or device that does not comply with the requirements of these regulations is prohibited. Prohibited traps and devices found on the Refuge, if not removed therefrom by the owner thereof upon the direction of the Superintendent, will be seized by the Superintendent or his representative.

6. To run a trap line or to visit traps between sunset and one-half hour before sunrise is prohibited, but each permittee shall visit and inspect each of his traps within the Refuge at least once each day, and at the close of the trapping season each trap shall be taken up and removed from the Refuge.

7. Birds and mammals, other than muskrats, found alive in such traps shall be immediately liberated. Birds or mammals, other than muskrats, found dead or mortally injured, shall be immediately turned over to the Superintendent or his representative.

8. Trappers may not cut any growth on the Refuge except willows for use as trap stakes or drags.

9. Whenever it shall appear advisable for the proper administration of the Refuge, the Superintendent may, in his discretion, terminate trapping on the entire Refuge or any portion thereof, within three days after giving notice to that effect. Thereupon all outstanding permits for trapping muskrats on the area or areas affected shall become null and void.

10. Each permittee not later than April 15, 1937, shall submit to the Superintendent a report correctly stating the total number of muskrats taken on the Refuge under his permit during the season, together with the name and address of each person or firm to whom such muskrats or pelts thereof were disposed of, and the number disposed of to each such person or firm.

Failure of a permittee to comply with any of the above provisions, or the violation by him of any of the regulations issued under authority of the Act of June 7, 1924 (43 Stat. 650), establishing said Refuge, or of any State laws or regulations applicable to trapping on said Refuge, shall not only render the offender subject to prosecution under said laws or regulations, but shall be sufficient ground for refusal of a permit to such offender during the Federal muskrat trapping season next following on said Refuge, or of any other use or privilege on the Refuge for which a permit may be required by regulations.

This Order shall become effective on March 2, 1937.

[SEAL] M. L. WILSON,
*Acting Secretary of Agriculture.*

Dated: March 2, 1937.

## Bureau of Entomology and Plant Quarantine.

BEPQ—386 (Revised) (Supersedes PQCA—313)

LIST OF ARTICLES EXEMPT FROM CERTIFICATION REQUIREMENTS UNDER THE GYPSY MOTH AND BROWN-TAIL MOTH QUARANTINE (QUARANTINE NO. 45)

MARCH 2, 1937.

In accordance with the proviso in Notice of Quarantine No. 45, as revised effective November 4, 1935, the following articles, the interstate movement of which is not considered to constitute a risk of moth dissemination, are exempted from the restrictions of the regulations of this quarantine:

Acacia cuttings (for ornamental use) (*Acacia* spp.). Banana stalks, when crushed, dried, and shredded.
Birch slabs for use as post cards.
Cable reels, when newly manufactured and empty.
Clubmoss (sometimes called "ground pine"). (*Lycopodium* spp.).
Evergreen smilax (*Smilax lanceolata*).
Fuchsia (*Fuchsia* spp.).
Galax (*Galax sphylla*).
Geranium (*Pelargonium* spp.).
Heather cuttings (for ornamental use) (*Erica* spp.) (*Calluna* spp.).
Heliotrope (*Heliotropium* spp.).
Jerusalem-cherry (*Solanum capsicastrum, S. pseudocapsicum, S. hendersoni*).
Mistletoe (*Phoradendron flavescens, Viscum album*, etc.).
Oregon huckleberry (*Vaccinium ovatum*).
Partridgeberry (*Mitchella repens*).
Strawberry plants (*Fragaria* spp.)
Trailing arbutus (*Epigaea repens*).
Verbena (*Verbena* spp.).
Wintergreen (*Caultheria* spp. *Pyrola* spp.).

LEE A. STRONG,
*Chief, Bureau of Entomology and Plant Quarantine.*

## FARM CREDIT ADMINISTRATION.

[FCA 30]

VOLUNTARY LIQUIDATION BY SALE OF ASSETS AND ASSUMPTION OF LIABILITIES

AMENDMENT OF SECTION 116B OF THE REVISED RULES AND REGULATIONS FOR PRODUCTION CREDIT ASSOCIATIONS

Pursuant to the authority conferred upon the Governor of the Farm Credit Administration by the Farm Credit Act of 1933, particularly section 20 thereof, and pursuant to section 65 of said Act, section 116b of the Revised Rules and Regulations for Production Credit Associations (Chap. V., Subdivision A, Sec. 116b, Federal Register Compilation) is hereby amended to read as follows:

b. *Voluntary liquidation by sale of assets and assumption of liabilities.*—This method of liquidation may be employed only in cases where none of the class B stock of the associations involved is impaired. In such cases, the following procedure may be followed:

(1) The board of directors of the association to be liquidated shall adopt the following resolution:

(a) That the association is to be liquidated in accordance with the Farm Credit Act of 1933 and these regulations;

(b) That the president and secretary of the association are authorized to execute, on behalf of the association, the agreement(s) provided for herein; and

(c) That upon the approval of the said agreement(s) the secretary of the association is authorized, subject to the direction, control and approval of the President of the Corporation (without any reservation of power in the board), to perform any and all acts, and to execute any and all instruments, necessary or proper to consummate the liquidation of the association in accordance with these regulations: provided, however, that the President of the Corporation may at any time remove the said secretary and appoint, and fix the compensation of, a liquidating agent for the association, remove such liquidating agent at will and, with like power, appoint and remove his successor(s). Any liquidating agent so appointed shall have such of the authority, powers and duties conferred by this resolution upon the secretary of the association as may be necessary to accomplish the purposes of this resolution, and shall have such of the authority, powers, and duties of a liquidating agent under the provisions of subsection "c" of this section as may be necessary and appropriate in the discretion of the President of the Corporation.

(2) The association to be liquidated (hereinafter called the selling association) shall enter into an agreement or agreements with another association or other associations (hereinafter called the purchasing association, whether one or more) for the sale and transfer to the purchasing association of all the outstanding loans made by the selling association, including the credit instruments evidencing such loans and the mortgages and other collateral securing such loans. Such agreements must be approved by the board of directors of each association which is a party thereto.

(3) Under such agreement(s) the purchasing association shall pay for such loans at the time of their transfer as follows:

(a) For loans evidenced by notes which are under rediscount with the Federal intermediate credit bank of the district, the purchasing association shall assume and agree to pay the principal and interest of the selling association's outstanding obligations as indorser and/or guarantor of said notes, and in addition shall pay to the selling association in cash such part of the unpaid interest accrued to the effective date of sale on each such note as is in excess of the unpaid discount accrued thereon as of that date to the said Federal intermediate credit bank;

(b) For loans evidenced by notes which are carried by the selling association in its cash loan fund, the purchasing association shall pay to the selling association in cash the unpaid principal balance of such notes and the unpaid interest accrued thereon to the effective date of sale;

*provided, however,* that the total amount to be paid to the selling association in cash shall be reduced by the amount of any valuation reserves (both for principal and for interest) set up by the selling association against the loans sold; and provided further that if the amount of such valuation reserves is in excess of the amount to be paid to the selling association in cash, then the selling association shall pay the difference to the purchasing association in cash.

(4) A release of the selling association from the obligations assumed by the purchasing association in accordance with paragraph (3) (a) hereof, must be obtained from the Federal intermediate credit bank of the district.

(5) Any such agreement shall provide that concurrently with the transfer of the said loans the selling association, on behalf of each borrower whose loan(s) is transferred thereunder, shall pay to the purchasing association an amount equal to $5 for each $100 or fraction thereof of the unpaid balance of the borrower's loan transferred; and upon receipt of such payment, and in consideration therefor, the purchasing association shall issue to each such borrower a corresponding amount of class B stock in the purchasing association at par.

(6) Any such agreement may also provide for the sale to the purchasing association at a stipulated price of any assets of the selling association other than its loans outstanding.

(7) Any such agreement may designate the Corporation as agent and attorney-in-fact of the associations which are parties thereto in order to carry out the provisions thereof.

(8) Every such agreement shall contain a statement of an effective date as of which the said sale and transfer of loans shall be made; provided, however, that such transfer shall not be made in fact until the agreement has been approved by the President of the Corporation and by the Production Credit Commissioner.

(9) Upon approval of the agreement(s) the secretary of the selling association shall notify its stockholders of record upon the effective date of sale, of the liquidation of the association and of the sale of its loans and the transfer of their obligations and collateral therefor, and shall request the stockholders to surrender for cancellation any outstanding stock certificates or receipts therefor.

(10) Upon approval of the agreement(s) the selling association shall promptly pay, or make provisions for the payment of, all its debts and all expenses of the liquidation (including the cost of final examination), and shall promptly liquidate all its assets (except bonds held by the Corporation for the account of the association). After all its debts and liquidation expenses have been paid or provided for, the selling association shall distribute all its remaining assets among its class A and class B stockholders of record in accordance with their respective liquidation rights; and in such distribution, the shares of class B stock issued by the purchasing association in accordance with paragraph (5) hereof shall represent $5 per share in liquidating dividends. The Corporation may make payment to itself for the association, in bonds held by the Corporation for the account of the association, of the liquidating dividends to which the Corporation as class A stockholder is entitled.

(11) Upon completion of such distribution among stockholders, the association shall submit to the President of the Corporation for his approval a statement of distribution of assets showing the disposition of all of the association's assets. Upon such approval this report shall be submitted to the Production Credit Commissioner for his approval, accompanied by the original Articles of Incorporation of the association. Upon approval of the statement by the Commissioner the original Articles of Incorporation of the association shall be marked "Association Liquidated", and held in the files of the Farm Credit Administration. The Corporation and the Federal intermediate credit bank of the district shall thereupon be notified to mark similarly the copies of such articles held by them.

[SEAL] S. M. GARWOOD,
*Production Credit Commissioner.*

## FEDERAL HOME LOAN BANK BOARD.

### Home Owners' Loan Corporation.

[Manual Amendment]

RECONDITIONING CHAPTER

Whereas the General Manager and General Counsel were authorized and directed to consolidate and coordinate the State and regional Manuals by Board Resolution adopted May 25, 1936; Therefore,

Be it resolved, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643–647) and particularly by Sections 4–a and 4–k of said Act as amended, the Reconditioning Chapter of the Consolidated Manual be numbered 5 and provide as follows:

SEC. 500. The Reconditioning Section of the Appraisal and Reconditioning Division shall function under the administrative direction and supervision of the General Manager and be under the immediate charge of a Director of Reconditioning who shall establish adequate Washington and Field organization for the proper discharge of the duties and responsibilities of the Section; shall establish qualification standards for all salaried and fee personnel of the Reconditioning Section who perform reconditioning functions of a technical nature and recommend the amount of fees; and shall recommend and cause to be provided such qualified and competent salaried, WAE and fee personnel as may be necessary.

SEC. 501. The Reconditioning Section shall, under approved procedure, inspect properties securing liens held by the Corporation, and properties owned by the Corporation for the purpose of preparing reports, cost estimates and recommendations as to reconditioning permitted under the Regulations, including maintenance, repairs, modernization, rehabilitation, rebuilding, enlargement, restoration, or demolition, necessary to provide structural soundness and suitable to the requirements of each type of case.

The Reconditioning Section shall formulate and establish, under approved procedure, standards of specifications for materials, equipment and workmanship and maintain a technical reconditioning service available to mortgagors and to the several divisions of the Corporation.

SEC. 502. The Reconditioning Section shall be in charge of and direct, under approved procedure, all authorized reconditioning including modernization and rehabilitation, rebuilding, enlargement, restoration, demolition, maintenance and repairs of properties securing liens held by the Corporation, and properties owned by the Corporation, except maintenance repairs and the purchase of equipment incident to maintenance of properties under the jurisdiction of the Property Management Division. Upon request of the Property Management Division this Section shall be in charge of and direct maintenance repairs and the purchase of equipment incident to maintenance of properties under the jurisdiction of the Property Management Division.

Where reconditioning is performed under the supervision and direction of the Reconditioning Section, it shall maintain proper relations of the Corporation with contractors, material dealers, architects, and other members of the construction industry and shall assist in effecting adjustment of complaints and disputes arising in connection with such reconditioning activities and shall use procedure for the obtaining of required mechanics' lien releases, receipts, waivers, and other instruments appropriate to effect payment, as provided by the Legal Department.

SEC. 503. Where home owners are unable to adequately maintain, repair and improve their properties at their own expense, the Reconditioning Section shall conduct such work as may be authorized for the full protection, and for the best interests, of the Corporation. Advances for the account of the borrower made after the loan was closed shall be repaid in such manner, on such terms, and under such conditions and procedure as the General Manager and the General Counsel shall prescribe.

SEC. 504. The Reconditioning Section shall direct and supervise all reconditioning authorized in cases where the repayment of the Corporation's loan is dependent or reasonably dependent upon reconditioning which cannot be identified as necessary repairs to protect the Corporation's security, which type of reconditioning shall be known as Income Producing Reconditioning. Funds may be advanced to provide for Income Producing Reconditioning, plus all costs properly incident thereto, if, in the exercise of sound judgment it is determined that: (1) the borrower is unable to make payments according to the contract; (2) foreclosure will be inevitable under existing conditions; (3) the borrower is unable to finance the costs of such reconditioning otherwise; (4) such reconditioning will enable the borrower to make payment of his indebtedness to the Corporation, and (5) the reconditioning is necessary to the best interest of the Corporation, all things considered; provided, that any case involving an advance in excess of $500.00 shall be forwarded to Washington by the Regional Manager, together with his recommendation and the opinion and recommendation of the Regional Counsel as to examination of title and form of security instrument to be taken, for the approval of the General Manager or the concurring approval of the Assistant General Manager and Director of Reconditioning. There should be a strong showing that the proposed reconditioning will place the borrower in a position to pay his debt and thereby retain his home. Liens for taxes and assessments need not be discharged as a condition for making advances for Income Producing Reconditioning, nor shall any provision be made to pay any taxes or assessments from any such funds advanced. Income Producing Reconditioning may be authorized only under proper legal advice, and questions of waiver of examination or title, or the form of note and mortgage or other security instrument that should be taken to secure such advance, shall be determined by the Legal Department. Income Producing Reconditioning, advances for same, and repayment to the Corporation therefor, shall be effected in such manner, on such terms, and under such conditions and procedure as the General Manager and the General Counsel shall prescribe.

SEC. 505. Consents to make improvements may be made to borrowers and transferees requesting the same, provided that the giving of such consent or the making of such improvements does not create a lien or liens prior and superior to the lien of this Corporation, and, further provided that such contemplated improvements do not decrease, destroy or impair the value or utility of the mortgaged premises. In the event the best interests of the Corporation make it desirable that a consent be granted even though a lien superior to the Corporation's lien might be created, then reasonable assurance shall be made to assure the payment for the improvement. All Managers of State, Territorial and Division Offices are hereby authorized (subject to the above limitations), to execute consents to borrowers under such instructions, procedure and forms as the General Manager shall prescribe, subject to the approval of the General Counsel.

SEC. 506. The Regional Manager, with the concurrence of the Regional Counsel, may effect payment for necessary repairing and other reconditioning which this Corporation authorized to be performed on properties securing liens of this Corporation in any case where it appears: (1) the contractor has fully performed his duty and the repairing and other reconditioning has been completed to the satisfaction of the home owner and the Corporation, and (2) the Corporation receives appropriate instruments evidencing the release or waiver of mechanics' and materialmen's liens or claims for liens.

The General Manager, with the concurrence of the General Counsel may, upon concurring recommendation of the Regional Manager and Regional Counsel, authorize payment for necessary repairing or other reconditioning on properties securing the liens of this Corporation which has been performed for the benefit and protection of the interests of the Corporation by borrowers and contractors acting in good faith and in full and apparent reliance of this Corporation providing such funds, in any cases where: (1) the Corporation receives the appropriate instruments evidencing and securing such advance, (2) the justification, satisfactory completion, and the reasonableness of cost of the necessary repairing or other reconditioning is certified to by the Director of Reconditioning, and (3) the Corporation receives the appropriate instruments evidencing the release or waiver of mechanics' and materialmen's liens or claims for liens; and that in any other unusual cases the General Manager, with the concurrence of the General Counsel, may authorize payment for necessary repairing or other reconditioning on any property securing liens for this Corporation.

The provisions of this section shall not be deemed to apply to properties under the jurisdiction of the Property Management Division unless such obligations were incurred prior to the time that the property passed under the jurisdiction of that Division.

Be it further resolved, That the Director of Reconditioning shall make reports, surveys, and recommendations to the Board through the General Manager respecting matters and policies affecting the duty and responsibility of the Section and the interest of the Corporation and to perform other duties and assignments as the Board or the General Manager may direct; and

Be it further resolved, That the Director of Reconditioning is hereby authorized to prescribe procedure, forms, and regulations, approved by the General Manager and the General Counsel, necessary to carry out the foregoing resolution; and

Be it further resolved, That all previously issued regulations which are in conflict herewith, or with regulations issued under authority granted herein, are hereby superseded and repealed; and

Be it further resolved, That the provisions of this resolution shall become effective forty days after its adoption, Sundays and holidays excluded.

Adopted by the Federal Home Loan Bank Board on January 19, 1937.

[SEAL] R. L. NAGLE, *Secretary.*

[Manual Amendment]

PROPERTY MANAGEMENT CHAPTER [1]

Whereas the General Manager and General Counsel were authorized and directed to consolidate and coordinate the State and Regional Manuals by Board resolution adopted May 25, 1936; Therefore,

Be it resolved, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933, and said Act as amended, the Property Management Chapter of the Consolidated Manual be numbered 3 and provide as follows:

SEC. 300. There shall be a Property Management Division which shall have charge of all matters pertaining to real properties securing liens held by the Corporation from the time foreclosure or the acceptance of voluntary deed has been authorized and all matters pertaining to real property acquired by the Corporation, except that the primary responsibility for protecting the Corporation's security from liens resulting from unpaid taxes, assessments, or other levies, is placed upon the Legal Department. The efforts of the Legal Department in this direction shall be supplemented by the Property Management Division. The Legal Department shall make its tax records readily available to the Division. The Division may, at the discretion of the Regional Manager or the General Manager, be given control over any other property, on which the Corporation holds a mortgage or other lien, where it appears to the best interests of the Corporation to transfer the cotrol of such property to the Property Management Division. Its jurisdiction shall include the sale, rental, collection of rents, maintenance, repairs, reconditioning, rehabilitation, rebuilding, enlargement, demolishing and periodic inspections of such properties. All appraisals, repairing, reconditioning, rehabilitation, rebuilding and enlargement or demolishing which the Property Management Division shall deem to be necessary or advisable and to the best interests of the Corporation shall, upon request of the Property Management Division, be made under the direction of the Appraisal and/or Reconditioning Division. The Property Management Division may, where it is of the opinion that it is to the best interests of the Corporation, authorize repair, maintenance and reconditioning work to be made under the supervision and direction of an approved Management Broker or of a contractor selected by the Property Management Division.

SEC. 301. The Property Management Division shall be under the control of the General Manager. There shall be assigned a Deputy General Manager in Charge of the Division who shall report to and take direction from the General Manager. The Deputy General Manager in Charge shall have all necessary authority to carry out the rules and regulations of the Board, relating to matters within the jurisdiction of the Division, under procedure prepared by him and approved by the General Manager. When each procedure is to be made a part of the Corporation's Manual of Regulations, it shall be approved by the General Counsel or an Associate General Counsel. When such procedure involves a major change in practice, same shall be submitted for approval to the Board of Directors.

SEC. 302. There shall be a Property Committee, to be appointed by the Board of Directors, whose functions shall be:

(a) To review all cases where it is recommended that the property be sold at less than ledger value plus accrued and unpaid charges against the property, the estimated carrying charges for six months in advance and the commission of the broker, and to render a decision as to whether the property is to be offered for immediate sale or rental and set a minimum sales price for each such property;

[1] See Page 682.

(b) To review and render decisions in all cases where the amount of reconditioning, repairs and/or purchases of equipment and supplies, recommended by the Regional Manager, exceeds 33⅓% of the latest appraised value of the property, appraised in its then condition prior to reconditioning, or $1,500.00, provided that the amount exceeds $500.00;

(c) To review and render decisions with regard to all leases other than month to month tenancies, except where the Deputy General Manager in Charge has authorized the Regional Manager to effect leases in behalf of the Corporation;

(d) To review and render decisions in all cases where the Regional Manager recommends demolition in whole or in part;

(e) To review and render decisions in all cases where it is recommended by the Regional Manager that an offer be accepted from the owner of a property on which the Corporation holds a mortgage or other approved security instrument, to exchange such property for property acquired by the Corporation;

(f) To review and render decisions with regard to any other matters which the Manual of Rules and Regulations requires to be submitted to the Property Committee;

(g) To review and render decisions with regard to any other matters pertaining to the functions of the Property Management Division which the General Manager or the Deputy General Manager in Charge may deem advisable to submit.

SEC. 303. Each Regional Office shall have an Assistant Regional Manager in Charge of Property Management who shall be appointed with the approval of the Board and act under the direction of the Regional Manager. Any functions pertaining to properties under the jurisdiction of the Property Management Division which, under this resolution or the procedure promulgated thereunder, are required to be performed by the Regional Manager may be performed by the Assistant Regional Manager in Charge of Property Management. The Division in the Regional Office shall, where the volume of work is sufficient to justify it, have four sections: (1) Analysis; (2) Management; (3) Sales; and (4) Records and Files. The functions of the Division in the Regional Office and elsewhere within the Regional Area, and the procedure applicable thereto shall be in accordance with provisions of this resolution and as prescribed in the Manual of Rules and Regulations.

SEC. 304. The State Manager, under the immediate direction and control of the Regional Manager, shall be the supervisor for property management within the State. The District Manager shall be the supervisor for property management within the District. The Property Management Division in each of the State and District Offices shall have such office organization for the control of its various functions as may be required by the Regional Manager with the approval of the Deputy General Manager in Charge.

SEC. 305. The Property Management Division in the Home Office in Washington shall conduct its operations through the Assistant General Manager to the Regional Manager. The Regional Manager, in turn, shall control the activities of the Division through the Assistant Regional Manager in Charge of Property Management within the Regional Area. The field activities of the Property Management Division of the Regional Office shall be controlled from that office through the State Manager to the District Offices. All paper work, correspondence and accounts shall, however, be sent direct between the Regional Offices and District Offices without the necessity of going through the State Office, but the State Office should be furnished necessary information with reference thereto. In those States where the State Office and any District Office or Offices have been consolidated, the State Office shall perform the function which otherwise would be delegated to the District Office.

SEC. 306. It is the general policy of the Corporation to endeavor to dispose of, rent and manage its acquired properties through brokers or local representatives in all localities where satisfactory arrangements can be made and maintained for such facilities and where it appears to the

best interests of the Corporation to conduct those activities through such agencies. The Regional Manager may also assign any other properties under the jurisdiction of the Property Management Division to brokers or local representatives for sale, rental or management when in his opinion it is advantageous to do so.

Lists of Contract Sales Brokers and Contract Management Brokers are to be prepared in accordance with regulations to be issued by the Deputy General Manager in Charge with the approval of the General Manager and the General Counsel or an Associate General Counsel. Such lists shall contain the names of persons, firms, or corporations engaged in the real estate business in the communities where the Corporation holds mortgages or other liens or has acquired real properties. The names which shall be placed upon these lists shall represent the best qualified brokers available in the territory. The individuals, firms and corporations shall be selected upon the basis of the best interests of the Corporation. The Contract Sales Broker shall act as the agent of the Corporation in selling such properties as may be listed with him and performing such other duties in connection therewith as may be required by the terms of the Sales Broker's Agreement entered into between such broker and the Corporation. The listing shall be subject to prior sale and also subject to change at any time and to the right of withdrawal upon written notice. The Contract Management Broker shall act as the agent of the Corporation in the rental and management of such properties as may be listed with him in accordance with the terms and conditions of the Management Broker's Agreement entered into between the Broker and the Corporation.

In addition to the list of Contract Sales Brokers in each locality a list of Approved Sales Brokers shall be prepared and maintained. The list shall include the names of those active real estate brokers, in each area where the Corporation holds mortgages or other liens or has acquired real properties, who in the opinion of the Regional Manager or Deputy General Manager in Charge are reputable and qualified to represent the Corporation in the sale of its properties and who have indicated their willingness to act as a broker on forms furnished by the Corporation for such purpose. As a condition precedent to being placed upon the approved list, all brokers shall be required to agree to submit any and all disputes and controversies arising out of sales commissions to arbitrators to be selected in accordance with procedure set forth in the Chapter of the Manual of Rules and Regulations relating to Property Management and to abide by the decision rendered by the arbitrators. At the same time that the property is listed with a Contract Sales Broker, the Corporation shall distribute, on its duly authorized forms, listings of any such property to all reputable and active approved real estate brokers within a reasonably effective area of the property. Such a listing shall not be exclusive and the listing price shall be subject to change and the said price and the listing subject to withdrawal or prior sale of the property, all without notice. Such listing shall also be subject to the right of the Corporation to make a sale to any person upon condition that the Corporation shall not be obligated to pay any commission except in cases where the purchaser was procured by an Approved Broker with whom the property is listed. Approved Sales Brokers, upon receipt of any such listing, shall thereafter conduct all of their negotiations with the Corporation through the Contract Sales Broker designated in the listing.

SEC. 307. The General Manager upon the recommendation of the Regional Manager is authorized to fix the schedule of fees or compensation to be paid to Sales Brokers in each locality within the Regional Area. The going or local real estate board rate shall be used by the General Manager as a guide in fixing the amount of such compensation, provided the General Manager may, in his discretion, authorize a higher or lower compensation than the going rate or the rate fixed by the local real estate board whenever he deems the going rate to be too high or too low to serve the best interests of the Corporation. Sales made by any Contract Sales Broker's own organization will carry compensation at the rate authorized in the schedule fixed by the General Manager for Sales Brokers or such lower rate as may be considered between the broker and the Corporation and approved at the time any specific offer is approved by the Regional Manager or the Property Committee of the Corporation. Where the sale is effected by an Approved Sales Broker or outside broker, the broker making the sale shall be entitled to receive the sales commission and in such cases the compensation to be paid the Contract Sales Broker shall be limited to a 2% over-ride commission with a minimum over-ride of $25.00. The compensation to be paid to Contract Management Brokers for the rental, and/or management of properties under the jurisdiction of the Property Management Division and for the collection of rents from such properties shall be in accordance with the Manual of Rules and Regulations.

SEC. 308. Brokers may be required to furnish surety bonds payable to the Corporation containing such terms and in such amounts as may be prescribed by the Manual of Rules and Regulations. Such surety bonds shall be in the form approved by the General Counsel, or an Associate General Counsel, or Regional Counsel when authorized in writing by the General Counsel.

SEC. 309. In areas where the services of a satisfactory broker are not available, the Regional Manager may arrange for a representative citizen of the community to act for or represent the Corporation in the sale, rental or management of the properties under the jurisdiction of the Property Management Division. The requirements of this resolution and of the Manual of Rules and Regulations, covering the qualifications of brokers, the furnishing of surety bonds, the amount of compensation, the authorization for payment of compensation to brokers, and all of the procedure applicable to brokers shall apply to such representatives. In any territory or locality where the General Manager deems it to the best interests of the Corporation to set up its own organization for the sale, rental and/or management of properties, and for the carrying out of any of the other functions of the Division, additional personnel may be employed or existing personnel utilized for such purposes, and the provisions of this resolution and of the Manual of Rules and Regulations shall establish the procedure to be followed by the organization in the performance of its functions and duties.

SEC. 310. When properties are offered for sale, the Corporation should always endeavor to obtain the full current market price. In some cases prices may have to be fixed in amounts which will result in losses. Wherever possible prices should be set sufficiently high so that the Corporation may receive the benefit of all reasonable profits.

The Regional Manager shall, subject to the control of the Deputy General Manager in Charge, have authority to effect sales of properties under the jurisdiction of the Property Management Division at or above the minimum sales price which shall be fixed as follows: If the minimum sales price which the Regional Manager desires to set is equal to or higher than the ledger value plus accrued and unpaid charges against the property, the estimated carrying charges on the property for six months in advance and the commission of the broker, it shall be set by the Regional Manager; if the minimum sales price approved by the Regional Manager is less than the aggregate of the items mentioned above, the minimum sales price shall be set by the Property Committee in Washington.

There are three authorized plans for the sale of the properties of the Corporation, as follows:

(a) All cash for which deed will be delivered.

(b) A cash payment of at least 10% of the purchase price with note or bond and approved security instrument for the balance, payable over a term of not exceeding fifteen years. In some jurisdictions the payment of 10% cash will not be sufficient to protect the Corporation in the event of foreclosure. In such jurisdictions a cash payment shall be required sufficient to protect the Corporation, from the date of sale to the time of possible re-acquisition, in the payment of the broker's compensation, normal foreclosure costs, accrued interest, repairs, taxes, insurance and other usual and customary carrying charges and expenses.

(c) A small cash payment with the balance amortized over a term of not exceeding fifteen years, where a sale is made under an installment or land contract or other similar instrument. The minimum cash payment required shall be in such amount as in the discretion of the Regional Manager will adequately protect the Corporation in the event of default and the re-acquisition of the property.

The terms and conditions applicable to the above plans of sale are as follows:

(a) In the case of a sale for all cash, an approved form of deed shall be delivered together with such other instrument as may be necessary in order to convey a proper title to the purchaser.

(b) In the case of a sale for a cash payment of at least 10% of the purchase price with note or bond and approved security instrument for the balance, the Corporation shall, upon delivery of deed, take back a note or bond for the balance of the purchase price bearing interest at the rate of 5% per annum. Such note or bond shall be amortized by even monthly payments over a period of not exceeding fifteen years and such payments shall be applied first to interest and the balance to principal, provided that if at least 33⅓% cash is paid the balance may be amortized or, in the discretion of the Regional Manager, no amortization payments may be required for a period of five years and the full amount may be payable at the end of five years or may be amortized after such five years, but within a period of fifteen years from the date of the note or bond, but in such case, during the period when no amortization payments are being made, interest payments shall be made quarterly or semi-annually. All notes or bonds which the Corporation may take back to evidence the payment of a portion of the purchase price shall be on approved forms and secured by an approved security instrument.
